WIRE SUPPORTS.

Wire supports, model extension carnation supports, galvanized wire rose stakes, tying wires, single and double pot hangers. Igoe Bros., 63 Metropolitan Ave., Brooklyn, N. Y.

FUMIGATION METHODS

By PROF. W. G. JOHNSON

Formerly State Entomologist of Maryland

A Practical Treatise and timely work on cheap and effective means of destroying insect pests and other vermin in various places. This work is the outcome of practical tests made by the author, together with the experiences of others, and is one of the most important books published this season and is much needed at this time. It will be of particular interest to

FRUIT GROWERS AND NURSERYMEN owing to the widespread prevalence of the notorious San Jose scale. Hydrocyanic acid gas is the only practical remedy for the destruction of this pest and is being used more extensively than ever before by nurserymen and fruit growers. The perfection of the apparatus for fumigating young orchard trees is outlined in this work. The methods can be easily applied in orchards and nurseries for many dangerous pests at very small cost. The writer is considered the best authority on this subject in this country and has left nothing undone to make this the most complete work of the kind ever published.

GARDENERS AND FLORISTS have found that vegetables and flowers cannot be grown under glass without frequent fumigation for the destruction of insect pests. Hydrocyanic acid gas has solved this problem. The methods of procedure are fully described and every detail is given for generating and applying the gas.

MILLERS AND GRAIN DEALERS have been looking forward to the publication of this work, as hydrocyanic acid gas has been found one of the most important materials for clearing mills and warehouses of insects. The subject of carbon bisulphide for fumigating mills and elevators containing grain in storage is also thoroughly considered. To this trade the work is indispensable and transportation companies have found it of great value for the fumigation of cars, ships and other inclosures infested with vermin.

FARMERS OF THE COUNTRY have here fully described a simple, easy remedy for gophers, prairie dogs, squirrels and other animals in the ground, and rats and mice in any inclosure.

COLLEGE AND STATION WORKERS will find it an up-to-date reference work on this subject. It is complete in every respect and is the only work of the kind ever published. It is written in a popular non-technical style, profusely illustrated, handsomely bound, covering 250 pages, price, postpaid, $1.00.

AMERICAN FLORIST COMPANY,

324 Dearborn Street, CHICAGO.

BOOKS FOR FLORISTS.

The time is coming along when these are needed and opportunity at hand for reading them. Every one of the following should be in your library.

Send prices quoted and we send the books.

PRACTICAL FLORICULTURE (Peter Henderson).—A guide to the successful propagation and cultivation of florists' plants. Illustrated. 325 pages. $1.50.

GREENHOUSE CONSTRUCTION (Taft).—It tells the whole story about how to build and heat a greenhouse, be it large or small, and that, too, in a plain, easily understood, practical way. It has 118 illustrations. $1.50.

THE GOLDFISH (Mulertt).—A number of florists find goldfish an attractive and paying addition to their business. The best advice is given in every department of the subject, including construction and care of the parlor aquarium, in this volume of 160 pages, handsomely illustrated. $2.00.

MUSHROOMS: HOW TO GROW THEM (Falconer).—The only American book on the subject, 29 illustrations. Written by a practical mushroom grower, who tells the whole story so tersely and plainly that a child can understand it. This book has increased mushroom growing in this country three fold in three years. $1.50.

LANDSCAPE GARDENING (Maynard).—The development of landscape art within the past few years compels the wide awake florist to keep posted on this branch of the business. The many suggestions of this book will be found helpful every business day. It contains 338 pages, 165 illustrations. $1.50.

THE ORCHARD AND FRUIT GARDEN (Powell).—One of the most complete works we have seen on this subject for a considerable period. It is divided into three parts, the orchard, the fruit garden and cultural directions. The volume is well illustrated and the author is a practical man who knows his subject. The book contains 321 pages. $1.50.

THE VEGETABLE GARDEN (Vilmorin-Andrieux).—The best and most complete book on vegetables ever published. There are 782 pages and hundreds of illustrations in this English edition, edited by Wm. Robinson, the noted English horticultural writer. $6.00.

THE ROSE.—Its cultivation, varieties, etc. (H. B. Ellwanger).—A complete guide of the cultivation of the rose, together with the classification of all the leading varieties. $1.25.

ASPARAGUS (Hexamer).—A practical treatise on the planting, cultivation, harvesting and preserving of asparagus, with notes on its history and botany. This book is mainly devoted to the culinary kind of asparagus, but there is also some reference to the ornamental species. 50 cents.

CABBAGES, CAULIFLOWER AND ALLIED VEGETABLES (Allen).—The requirements of the important vegetables of the cabbage tribe are given here very fully. The book also contains interesting chapters on seed raising, insects, pests and fungus diseases common to these plants. 50 cents.

LANDSCAPE GARDENING (Waugh).—This is a very useful little book on the art of landscape gardening. It will be found exceptionally valuable to amateurs, as it covers in detail the numerous problems that come to the owners of small gardens. It is freely illustrated and the pictures have been chosen with a view to informing the reader rather than decorating the book. 50 cents.

THE AMERICAN CARNATION (C. W. Ward).—A complete treatment of all the most modern methods of cultivating this most important flower. Illustrated. $3.50.

THE PRINCIPLES OF FRUIT GROWING (Bailey).—The entire subject of fruit culture is treated very thoroughly in this illustrated volume of 516 pages. It is a book that no up-to-date fruit grower can afford to be without. $1.25.

HEATING AND VENTILATING BUILDINGS. (Carpenter).—This book covers the entire subject most fully. In the preparation of heating and ventilating plans it will be found a most valuable guide. $4.00.

CELERY CULTURE (Vaughan).—The important subject of celery culture is thoroughly covered in this illustrated pamphlet of 59 pages. The florist raising young plants of celery and those who grow the plants to maturity will alike find it valuable. 50 cents.

HOW TO GROW CUT FLOWERS (Hunt).—The only book on the subject. It is a thoroughly reliable work by an eminently successful, practical florist. Illustrated. $2.00.

THE HORTICULTURISTS' RULE-BOOK (L. H. Bailey).—Contains information valuable to all those engaged in any branch of horticulture. Illustrated. 312 pages. 75 cents.

GINSENG (Kains).—At the present time, when so much interest is taken in ginseng, it will be interesting to peruse this volume, which tells all about the plant in a way that all may understand. The 144 pages are freely illustrated. 50 cents.

SUCCESS IN MARKET GARDENING (Rawson).—Written by one of the most prominent and successful market gardeners in the country, and who has the large t glasshouses for forcing vegetables for market in America. Outdoor and indoor crops are treated. Illustrated, $1.00.

HEDGES, WINDBREAKS, ETC. (Powell).—A treatise on the planting, growth and management of hedge plants for country and suburban homes. A volume of 140 pages, with twenty-two illustrations. 50 cents.

STEAM HEATING FOR BUILDERS (Baldwin).—Contains valuable data and hints for steam fitters and those who employ this method of heating. The 350 pages are fully illustrated. $2.50.

MANUAL OF THE TREES OF NORTH AMERICA (Sargent).—The most complete and authentic work on the subject. The pages number 826, with over 600 illustrations. $6.00.

THE CULTURE OF WATER LILIES AND AQUATIC PLANTS (Henderson).—Growers of hardy and tender water lilies and other aquatics will find this an excellent guide in cultural and descriptive matters. The lists of varieties have been very carefully prepared. Handsomely illustrated. 50 cents.

HOW TO MAKE MONEY GROWING VIOLETS (Saltford).—This is by a practical grower who has made a success of the business. No grower of violets can afford to be without it. 25 cents.

Florists' Forcing Bulbs and Roots.

Copyright 1906 by the American Florist Company.

VIII.—DUTCH HYACINTHS.

As regards ease of culture, adaptability for forcing and form, fragrance and lasting quality of bloom, no other Holland grown bulbous plant excels and few quite equal the hyacinth, which justly stands at the head of the list. The great popularity of Dutch hyacinths as potted plants has caused many thousands of the bulbs to be planted and offered in that form every year. All varieties, single and double-flowered, early and late, are excellent for the purpose, are easily forced into bloom and readily adapt themselves to living room conditions.

The bulbs may be planted at any time from September until November and even later, if bulbs can be obtained. In every case the grower may figure on fully 14 weeks from the time the bulb is planted until the finished plant displays its flowers, and if a fixed date for the output of flowering hyacinths is aimed at, he must bear this in mind, rather granting the bulbs a little more than less time.

For early forcing single varieties should be chosen, the doubles being less tractable for the purpose but easily managed at any time in the latter half of winter. Any attempt to force a general assortment of Dutch hyacinths out for Christmas will result in partial or total failure. Of the few varieties that may, with careful treatment, be forced into bloom for so early a date, the following are the most easily managed and most worthy of a trial: Blanchard and L'Innocence, in white; Fireball and Baron van Tuyll, in rose; and Leonidas and Blondin, in blue.

Dutch hyacinths grow and flower well in a compost made up of two parts of good, sandy loam and one of old, well decomposed cow manure with a little bone meal added when preparing it for immediate use. A 4-inch pot will accommodate a bulb of ordinary size, while a large bulb will need a 5-inch pot and three or four small bulbs will find room in a 6-inch pot. When planting several bulbs in one pot, they should either be of one variety or be made up of sorts that flower at one and the same time, as far as possible.

In planting hyacinth bulbs it is only necessary to bring the base of the bulb in contact with the soil, leaving over half of the upper part exposed and the extreme tip extending above the rim of the pot. After planting they are thoroughly watered, care being taken not to displace the bulbs in so doing. Any spot outdoors is to be preferred to a place in cellar, shed or under benches for the pots. They do best by being buried in the garden on some elevated or at least well drained strip of ground with from four to six inches of fresh soil over them.

If at the approach of hard freezing weather the mound, containing the bulbs, is covered with a good spread of hay, straw or litter of some loose kind; the unearthing and bringing in of the pots at any time in winter will present no difficulty. It will take hyacinths that were planted early about 11 weeks to form roots, while those started late require from eight to 15 days less time in doing so. Hyacinths to be in a fit condition for hard forcing should have their pots completely filled with white roots when taken out of the trench. Their top-growth need not be much over an inch high, a small, sharp-pointed pyramid of waxy white, closely folded leaves, encircling the embryo flower stalk. If the pots are now placed in cool quarters, the temperature not much above freezing day and night, the hyacinths will remain inactive or at least will make but little headway and are thus held back and reserved for a forcing later on, if so planned by the grower.

In a temperature of from 50° to 55° the finest potted hyacinths are grown; a greater heat bringing them in earlier, but when driven hard they never finish up so superbly as those grown cooler. It will take from four to six weeks, according to variety, time of forcing and degree of temperature, to bring a well

rooted Dutch hyacinth into full bloom. Moderate heat, a cool footing, abundant ventilation whenever possible, and a plentiful supply of water at their roots, are the prime points to be observed in forcing these bulbs.

While all hyacinths of this class are fit subjects for pot culture and have been grown as such for centuries, it is only of late that some of the varieties, and in some instances made up mixtures of corresponding shades and periods of flowering, have been forced extensively for their blooms in a cut state. These, coming in at a season when a lively demand for just such stock guarantees ready sales at remunerative figures, have proved quite profitable to grow. Instead of pots, boxes of a good depth are used, in which the bulbs, usually of the second size, are planted quite close together. In all other respects the treatment is the same as that accorded pot-grown bulbs. E.

Forcing Lily of the Valley.

In order to get new lily of the valley pips into bloom earlier the following method is employed by some Russian and German specialists, according to Moeller's Garten Zeitung: Place the pips wanted for early blooming in a barrel, packing them tightly. Then pour over them water heated to a temperature of 90°. If necessary the pips should be weighted down so as to have them all covered with water. Then the barrel should be covered with mats so as to prevent the water from cooling. After 12 to 14 hours the pips are taken out of the water and immediately put into the forcing bed, giving them a uniform temperature of 86° to 88°.

Pips thus treated will bloom from four to five days earlier than those not soaked. They will come more uniformly and produce a larger percentage of good flowers.

Retarded Lily of the Valley and its Culture.

There is an increasing demand for retarded lily of the valley and it is very important that the right class of material should be used for retarding purposes. Just here many mistakes are made by people who are not acquainted with the characteristics of the different varieties of the plant. In this connection American growers prefer to use lily of the valley with good strong pips and long fine spread roots, the so-called Berlin forcing variety which is generally used for early forcing especially to fill the Christmas needs. These pips also give fine results when forced later in the season and as a retarded cold storage valley.

Some pips used early for Christmas cutting have splendid flowers with large bells and fine leaves, but they fail completely when used as cold storage pips though they were grown with the utmost care. Instead of producing bells of good proportions these remained short in the stalk and small, the foliage developing immensely and depriving the flowers of all strength although every possible care was taken of the plants during the forcing period. No bottom heat was given and the boxes in which the pips were planted were kept quite dark for about 10 days. Still the result was deplorable and why? Simply the pips were not suitable for cold storage purposes.

The Berlin forcing lily of the valley is always grown in light sandy soil through which the rain passes easily and should sunny days be frequent in September and October the pips ripen rapidly. So rapidly in fact that they can be forced into flower by Christmas or before, and even at this early period will produce sufficient leaves. But if these crowns are used for retarding purposes it will be noted that the foliage develops at the expense of the flowers which fail after attaining a length of a few inches. On the other hand should the weather be very wet previous to the ripening of the pips this process is slower; they bring less foliage at Christmas but are more suitable for use as retarded crowns.

Chrysanthemum Beatrice May.

It is quite another thing with late forcing crowns from heavy and usually wet soils. The hard soil does not allow the fine side roots to develop as in the lighter soils and this hurts the appearance of the bundles compared with early forcing crowns though the pips look just as strong. Growers need not be frightened on this account for having been grown in this deep loamy and fertile soil they are strong and produce a fine uniform crop both of leaves and flowers. These pips are much appreciated and solely used in this country for retarding purposes and I would advise every grower of cold storage lily of the valley to give them a trial, which will convince all of their superiority.

GROWING THE RETARDED CROWNS.

How to grow retarded crowns is another question of great importance. I will give you details of how we force them in Germany. After being taken from the freezing room we give the frozen crowns a chance to thaw slowly after their rest in a constant temperature of 23°. The temperature should be neither lower nor higher than this in the freezing room. The roots are trimmed sufficiently to enable us to plant them in boxes four to five inches high in light soil. The boxes are then placed in a greenhouse kept quite dark at 60° to 64° where they remain for about 10 days or until the flower stalks are raised well above the foliage. No bottom heat is applied nor should any be used for cold storage lily of the valley. They are then brought to the light and kept there until the bells are opening. Should the foliage still develop too rapidly we cut out part of it which assists the formation of large bells. During the whole time we keep a steadily damp atmosphere in the house but do not syringe the lily of the valley. To prepare the flowers for a journey we keep them in a cool cellar at least one night. This simple treatment leads to good results but note very carefully that no bottom heat is to be applied as this causes too abundant development of the foliage. GERMAN GROWER.

CHRYSANTHEMUMS

Notes On Varieties.

At this time, October 22, with October frost, Rosiere, and many of the early varieties disposed of for 1906, we naturally turn our attention to the mid-season kinds, where there is a wide range in color, form and style of growth. Among those introduced during the past year or so, including both American and foreign productions, we find as a whole they possess many peculiarities.

It goes without saying that the foreign varieties do not compare with American introductions from our commercial point of view, and any recommended for this purpose should be tested only in a limited way until the grower has ascertained if they are fit for his purpose. While this statement may be rather broad, yet it is evident to anyone, passing through houses of novelties with long necks, poor colors, and considering the difficulty with which some of them are managed, that we are prohibited from giving these varieties commercial endorsement.

Among those noticed this morning were the following:

Mme. Delabre, fine growth, bronze, half developed. Soliel de Boudry, tan color, promising, undeveloped.

Solange, very short neck, possibly some commercial value, white, wide petals hooking at the ends; will be ready to cut in a few days.

Mme. Magne, fine growth, buds showing some color, white, promising.

Beatrice May, growth short, flowers fine, a beautiful white, but not easy enough to manage for the average commercial grower.

W. T. Robertson, a beautiful shade of pink, possibly of commercial value, too small for exhibition.

Mrs. Wm. Knox, a beautiful yellow for exhibition.

Glenview, looking fine, petals just beginning to loosen out. We predict a very fine bronze in this variety.

W. Wells, a good exhibition white, semi-developed.

Mrs. F. F. Thompson, good for exhibition and a white, not nearly finished.

Mrs. Geo. Haume, bronzy chamois,

very dwarf, flower large, nearly finished.

Miss Mary Mann, a beautiful shade of pink, but not far enough developed to give a good impression as to size and form.

Soliel de Septembre, buds taken August 10 still unfinished, reminds us somewhat of H. L. Sunderbruch in color and form, only not as incurved at center. Buds taken September 1 are finished but show a small center.

Lanona, large size, white slightly suffused pink, must be fed sparingly after buds are taken, inclined to burn.

Crocus, a beautiful soft yellow nearly finished.

Winifred (Australian), beautiful habit, but too late for shows, not yet in color.

As to the remaining 50 or so novelties we are testing, they are not sufficiently developed to warrant comment on them at this time.

ELMER D. SMITH.

Chrysanthemum Society of America.

EXAMINING COMMITTEES.

President Duckham has announced the committees to examine seedlings and sports on dates as follows: October 6, 13, 20, 27 and November 3, 10, 17 and 24, 1906. Exhibits to receive attention from the committees must in all cases be prepaid to destination and the entry fee of $2 should be forwarded to the secretary not later than Tuesday of the week preceding examination, or may accompany the blooms. Special attention is called to the rule requiring that sports to receive a certificate must pass three committees.

New York, Eugene Dailledouze, chairman, 55 and 57 West Twenty-sixth street, Thos. W. Head and Wm. Turner.

Philadelphia, Pa., A. B. Cartledge, chairman, 1514 Chestnut street, John Westcott and Wm. K. Harris.

Boston, Mass., E. A. Wood, chairman, Wm. Nicholson and James Wheeler. Ship flowers to Boston Flower Market, care of John Walsh.

Cincinnati, O., R. Witterstaetter, chairman, James Allen and Wm. Jackson. Ship flowers to Jabez Elliott Flower Market, care of janitor.

Chicago, J. S. Wilson, chairman, J. B. Deamud and Geo. Wienhoeber. Ship flowers care of J. B. Deamud, 51 Wabash avenue.

OFFICIAL JUDGING SCALES.

The official scales of the society are as follows:

FOR COMMERCIAL PURPOSES.

Color	20

Size	35
Total	100

WORK OF THE COMMITTEES.

New York, October 20. President Loubet, creamy white, exhibited by the E. G. Hill Co., Richmond, Ind., scored 90 points exhibition scale.

Mary Godfrey, Yellow Japanese incurved, exhibited by C. H. Totty, Madison, N. J., scored 85 points commercial scale.

Mrs. A. T. Miller, Japanese, pure white, exhibited by C. H. Totty, Madison, N. J., scored 87 points commercial scale.

Chicago, October 13. President Loubet, creamy white, exhibited by the E. G. Hill Co., Richmond, Ind., scored 86 points exhibition scale.

Cincinnati, October 20. Director Gerard, yellow Japanese reflexed, exhibited by the E. G. Hill Co., Richmond, Ind., scored 87 points commercial scale.

Fusee, light yellow Japanese, exhibited by E. G. Hill Co., Richmond, Ind., scored 85 points commercial scale.

Comoleta, clear bright yellow exhibited by Nathan Smith & Son, Adrian, Mich., scored 88 points commercial scale.

NATHAN SMITH & SON'S CHRYSANTHEMUM COMOLETA.

Scored 88 points, commercial scale, before Cincinnati committee.

Premature Wilting of Blooms.

ED. AMERICAN FLORIST:—

Last year my chrysanthemum blooms wilted soon after being put in vases in the dining room. The blooms were cut in the evening and put in water at once and without any apparent cause wilted in less than six hours. Please explain the cause. E. P. G.

The wilting of your blooms shortly after you cut them probably has more than one cause. I think it is a mistake to cut them in the evening or afternoon, especially after a hot sunny day. If the beds are run a little on the dry side and the plants have been exposed to a day's sun, the blooms or leaves are probably a little wilted before you cut them and once they are wilted or the sap has stopped flowing it is a hard matter to get them started taking up water again, unless you cut more off the stem or immerse them in water, stem, leaves, bloom and all, and then as soon as recuperated cut, or rather break, two or three inches off the stem. They will then last for a good many days. Another cause I think is in cutting them too low. Some chrysanthemums are quite hard and wood-like at the base of the stem and if you cut them off too low they might refuse to take up water. Some varieties are worse than others in this respect and require more careful cutting and handling. I cut several thousand chrysanthemums every year and pack and ship them sometimes to far distances and have hardly ever heard of any wilting down. I always cut them in the morning while they are crisp and

fresh and immerse them in large tall buckets at once (ice cream freezers are fine) and leave them there for about 10 hours before packing. I pack them in large boxes in rows with tissue paper between each layer and sprinkle the leaves well before closing them down and they invariably reach the market in fine shape. T.

Greenhouse Construction.

Paper read before the Boston Gardeners' and Florists' Club, October 16, 1906, by J. B. Velie, of the Lord and Burnham Co., of New York

Greenhouse construction may be divided into two classes, private and commercial. In the former class appearance enters more largely in the designs and construction than in the latter, but the object in both is to secure the most durable construction combined with the greatest amount of light, the element of expense nearly always being a factor to be considered. For private use where it is assumed the owner is not compelled to sacrifice durability or appearance because of a lack of capital, the almost uniform construction is an iron frame greenhouse on masonry walls. This has been proven by years of experience to more nearly meet the requirements than any other construction.

The person desiring to build commercially, who, to be successful must closely count expenditures, cannot usually afford to place a large amount of money in expensive masonry walls. To this person a choice of several distinct forms of construction is offered; first, the iron frame greenhouse on cast iron foot pieces; second, the wood frame or so-called sash bar house, having angle iron plate and posts with cast iron foot pieces; third, the trussed roof house having angle iron plate and posts and cast iron foot pieces; fourth, an all wood house of sash bar construction having wood plate and wood posts; and fifth, an all wood sash bar house having wood plate and wood sill on concrete walls.

For one starting in the florists' business, or adding to their present range, the question is, which construction will pay the greatest dividends in the business. This point rests on the amount of light admitted, the durability of construction, and the probable cost of repairs. From the standpoint of light, assuming that all of the constructions have 16x24-inch glass placed the 16-inch way, the iron frame house has a considerable advantage. The size of the standard sash bar in this construction is $1\frac{3}{8}$x$1\frac{7}{8}$ inches and the wood cap for the rafter is $1\frac{7}{8}$ inches each way. The size of the standard bar for sash-bar construction is $1\frac{3}{8}$ inches wide by $2\frac{1}{2}$ inches deep. In an iron frame house 100 feet long, providing the sun shines at right angles to the length of the house, you would have 6 feet $6\frac{3}{4}$ inches of shade against 8 feet 3 inches in a sash bar house, which makes a difference in favor of the iron frame house of 1 foot $8\frac{1}{4}$ inches of solid shade. It has been argued that because of the depth of the iron rafters, that when the sun shines from the direction of the gable of the house, there is more shade with the iron frame construction than in the sash bar. This is not so. There is about 15 per cent more shade in the sash bar house if the sun shines from the direction of gable than in the iron frame house with 3-inch iron rafters. Furthermore, in one construction the iron frame supports the house while in the other the sash bars only, give strength to the roof. This allows the bars to be omitted under ventilating sash in the iron frame house, while they have to be run to the ridge in the sash bar house, making additional shade at that point in the latter construction by having two rows of bars, one above the other at ridge sash.

It may seem to some that these figures show so small a difference in light between one method of construction and that of the other that it would not pay in dollars and cents as far as light goes, to invest any greater amount of money in one construction than in the other. I think, however, if one will go into a house of sash bar construction and then into one of iron frame construction, one will at once notice a difference in the amount of light in the houses and I also think one will admit that if this is easily discernable to the eye, better results will be obtained in the lighter house, providing all other conditions are the same, than in the one having more shade.

As for strength of construction, the iron frame house is decidedly the strongest, especially in a wide house. But for a house not over 33 feet 4 inches wide of usual pitch, which allows for five benches about 4 feet 4 inches wide each, with usual walks, the sash bar construction with angle iron posts and plate offers an excellent solution for a person who has not the capital to invest in an iron frame structure. Although many sash bar houses are built wider, in my opinion, to secure an element of safety and strength without undue supports and trussing, the iron frame house should be used in wider structures than that of about 33 feet. This sash bar construction, as previously stated, has some disadvantages as regards the amount of light admitted, but compares favorably in durability to the iron frame structure. The same general form of cast iron foot piece and angle iron plate is used in both constructions.

The trussed roof house of sash bar construction, having angle iron posts and plate and cast iron foot pieces, has the advantage of doing away with supporting columns in houses not over 29 feet wide. The all wood house of sash bar construction, having wood plate and posts has the redeeming feature of being the least expensive construction that one can erect considering first cost only. The sash bar house, having wood plate and wood sills on concrete walls, is a construction more expensive than a house having angle iron plate, angle iron posts with cast iron foot pieces, double boarding of cypress below glass, and removable base board, while it has the disadvantage of not being as durable because of the liability of the wood plate and the wood sill on the masonry wall to decay in a short time. Especially is the wood sill on masonry wall a weak member in greenhouse construction.

Let us compare the cost of a house 100 feet long having angle iron plate, angle iron posts and cast iron foot pieces with the all wood house having wood plate and wood posts. The cost of the angle iron plate for both eaves together with angle iron posts and cast iron foot pieces spaced every six lights of glass, would be about $120. The cost of the wood plate and cypress posts spaced every three lights of glass, which is the usual spacing for this construction, would be approximately $60. This makes a difference of $60 in the cost of one house over the other.

Assuming that one builds a house 100 feet long with wood posts and plate, superstructure costing $1500 complete, we will see that the additional cost of $60 for iron plate and posts is 4 per cent of the total cost of superstructure of the all wood house. The heating and benches would be the same in either case. Let us further assume that the all wood house would last 15 years. If we add the same percentage, 4 per cent, to the life of the all wood house, the house with iron plate and posts would have to last only between seven and eight months longer than the all wood house. However, by investing $60 more one loses the interest on this except as it is earned in the length of life of the building. If this $60, otherwise invested, should double itself in 15 years, we

FIRST PRIZE GATEWAY DECORATION AT NEWPORT, R. I.
Exhibit of F. L. Ziegler.

would have to figure 8 per cent increase in the length of life of the iron and wood house over the all wood in order that the investment on either one may pay equally well. This 8 per cent added would mean that the iron and wood house would have to last about one year and three months longer than the all wood. The actual increase of length of life of house, because of the iron posts and plate, would be many times the one year and three months. If the house with iron plate and posts lasts 22½ years or half as long again as the all wood house, which it is reasonable to suppose, on a basis of the figures just given, the cost per year for superstructure of house would be between $69 and $70 for the iron and wood construction against $100 for the all wood, or a saving of nearly a third of the cost per year for superstructure of greenhouses by using iron plate and posts.

The design of a greenhouse is fully as important as the construction to be used, in order to cover the ground at the least expense, secure the best circulation of air, and heat to the best advantage. One can readily see that no matter what the width of the house, the expense of the side walls is the same, consequently the wider the house, providing one keeps within reasonable limits, the less the cost per square foot covered so far as superstructure goes. The circulation of air is much better in a wide house than in a narrow one and the wide house is more easily heated in proportion to the surface covered than a narrow one. An example of this can be seen at the Waban Conservatories, Natick, where in a house 21 feet wide with ridge about 14 feet high there are 12 1¼-inch pipes and in a house 40 feet wide with ridge about 21 feet high, there are 20 1¼-inch pipes, and I understand that a higher and more even temperature can be maintained in this wide house than in the narrow one.

The ridge and furrow houses, while in almost universal use through the west, are not so extensively built in New England. These houses present the advantage of being more economical than the detached house, because of the eliminating of several sides in a block of houses, but they have the disadvantage of casting more or less shade from the gutters, and more breakage of glass is caused by ice and snow than in the detached house. There seems to be a growing tendency, however, towards this construction.

The even span house is the cheapest and in a large majority of cases is the style built. Where houses run east and west, which is conceded by the majority of growers to be the most desirable way of locating them, several of the best growers have the roof on the north side of a steeper pitch than that on the south, both eaves being of the same height. This throws the ridge north of the center, and is done to avoid shade from the ridge on the rear bench or bed. In Boston on December 22 the sun shines at an angle of 23°, while on June 22 the angle is 71°. This makes a rise of the sun of 8° per month. With an even span house running east and west, having the roof at a pitch of 32°, it will be seen that one will get no shade from the ridge on the rear bench until about February, or until the sun gets higher than the pitch of roof on the north side. If the north side of the house has a pitch of 45° with the house running east and west, one will get no shade on the rear bench until about March 20. The steeper the pitch of the roof the more surface in it and a proportionate increase in cost. It is a question of opinion as to whether the saving of shade on the north bench compensates for the additional cost. If the house is placed facing a few degrees to the east in order to obtain the morning sun more directly, the shade from the ridge on the north bench is varied. This facing of the house slightly to the east of south seems the ideal arrangement to secure the benefits of the morning sun. There is but little difference the year through between the amount of sunshine in the morning and that in the afternoon. Boston weather reports for five years show an average of 24 more hours sunshine each year in the morning than in the afternoon.

Ordinarily the pitch of roof giving the best results is 32° or a rise of 7½ inches to a foot. This, however, is varied occasionally for various reasons. In the even span ridge and furrow houses running east and west a pitch of about 27° is often used with good results. With this arrangement the roof of one house shades the other less than would be the case if the pitch were steeper.

The spacing of 16x24-inch glass in the roof the 24-inch way is quite often done with very desirable results as far as the amount of light in the house is concerned, but this is usually at the sacrifice of more or less glass, as the breakage is usually greater in the house constructed in this manner.

Continuous ventilation on both sides of the ridge gives the best results. If one places top ventilators one light apart there is more space for the air to be admitted than if the sashes were continuous, but there is also more liability of a draft. Side ventilation, while desirable for violets or cool plants, is in decreasing demand for use in carnation growing.

The durability of the wood work in a greenhouse depends on the wood, the method and thoroughness of drying, the manner of applying the first coat of paint, the manner in which joints are made, and the thoroughness with which it is kept painted after erection. Red gulf cypress from the swampy southern states stands the test of durability in greenhouse construction better than any other wood. This, however, must be free from sap and should be thoroughly air-dried. To insure the best results the first coat of paint should be applied to the wood work by dipping rather than by painting it with a brush, for in the dipping process the wood absorbs several times the amount of oil that is retained in the grain by the other process. This gives a durability and a foundation for future coats of paint that cannot be secured in any other way. Milling and construction should be such that there will be as little chance of water lodging at joints as possible. The purchasing of glass, putty and white lead for paint to be used after the priming coat, are matters to be as carefully looked into as any other part of the construction. If a poor grade of any of these is used they may materially affect the dividends of the florists' business.

There is no class of building construction exposed to more trying conditions than a greenhouse, consequently there is every reason for making the structure as durable as possible consistent with a reasonable outlay. The majority of successful florists, if they have not previously built of a durable construction, are fast learning that a small additional cost for durable members in the construction pays them a very large percentage on their investment. I have seen many florists kept from deserved advancement because of the constant outlay for repairs on buildings erected in what at the time seemed an inexpensive manner.

CRIMSON RAMBLER ROSE AUTOMOBILE AT R. DREYER'S, WOODSIDE, L. I., LAST SPRING.

WITH THE GROWERS

John Scott, Flatbush, N. Y.

Within little more than a year from the time of the dismantlement of his Keap street establishment in Brooklyn, John Scott, the well known originator of the Scottii fern, is operating three ranges of glass in the horticultural section of Flatbush. Range No. 1, consisting of six houses, potting and shipping shed, and office, was built sometime before his removal and used mainly for the propagation and dissemination of Scottii ferns, and at the present time is stocked entirely with the ferns. Range No. 2 is newly built, and consists of eight large houses, a communicating corridor, and a potting and shipping shed of unusually liberal area. Range No. 3, on the other side of the street dividing the property, comprises five houses recently purchased from J. H. Kemper, with a large potting shed. This range is now being extended and altered to suit the requirements of the business.

NEW RANGE AT JOHN SCOTT'S ESTABLISHMENT, FLATBUSH, N. Y.

Range No. 1 is given over almost exclusively to foliage and decorative plants. The exception is a house of gardenias which is now in crop and from which there is a daily cut of fine long-stemmed blooms. There are 2,500 plants in the benches grown in about three inches of soil. They have had full ventilation during the summer, with syringing three times a day and on hot days four. The stock is in excellent shape, profusely flowered with well foliaged buds, and flowers with stems two and a half to three feet long for Christmas are more than a probability.

There is a house of Pandanus Veitchii, dracænas, and small crotons, the former in excellent shape as regards coloring. Another house is devoted to poinsettias and Asparagus plumosus. Pandamus Veitchii and dracænas fill another house, the latter in several varieties, notably D. Lindeni, D. terminalis, D. Massangeana, D. Gladstonei, D. amabilis, and D. indivisa. Thirty varieties of dracænas, all told, are grown in the establishment.

There is a fine house of kentias in good commercial sizes. The other houses are filled with assorted stock, including marguerites, asparagus, ivies, ferns, and Ficus pandurata. The long corridor accommodates a wide bench running its whole length, and is used for crotons. The varieties to be seen here are too numerous to mention, but cover all types, and practically all sizes.

Range No. 3 is devoted mainly to flowering stock. There is a house of Begonia Glorie de Lorraine, the plants of excellent shape and in the finest condition. Chrysanthemums, medium and late varieties occupy the central area of four houses, and some grand cyclamens and begonias are to be seen on the side benches. In the grounds are large blocks of marguerites, Queen Alexandra, Crimson Rambler roses and hydrangeas.

The site covered by the establishment is in line with the tide of building improvement setting out from Brooklyn, and in a few years its increased value will prove that Mr. Scott can look ahead in the matter of real estate as well as in matters horticultural.

The Templin Co., Youngstown, O.

The Templin Co., which recently purchased the old Walker & McLean store on Federal street, have been quite busy of late getting things in shape for the coming season's business. They have thoroughly renovated the store and basement, by moving the seed cases to the rear. Repapering and painting and covering the floor with a very showy pattern of linoleum, which harmonizes well with the other furnishings.

Robt. Schenk, the manager, has recently made a trip through the eastern cities, buying goods for the holiday trade, and judging from the amount of stock being received, they will be able to supply anything in the florists' line that the most critical may desire. Another improvement contemplated is a new 10-foot refrigerator which will be installed shortly. This will be of great service during the chrysanthemum season.

Edward Slagel has charge of the seed and bulb department and is a busy man just at present getting his new stock of bulbs in shape for the fall trade which is opening up very satisfactorily. He has his bulbs arranged in the seed bins and on a number of large tables, where they make a very creditable display, and he is ready now to take care of all orders, large or small, wholesale or retail. This firm has also been quite busy of late with store decorations, and funeral work.

John Walker, who is devoting his entire time to his greenhouses at Crab Creek, has the stock in very creditable shape for the coming winter. Here can be seen about 10,000 chrysanthemums in different stages of development, also 20,000 carnations, all well established and looking as though they would give a good account of themselves later on. There is also a 200-foot table of single violets, exceptionally nice, of the variety called Mystery, which is somewhat darker than Prince of Wales, and much more prolific; a 200-foot house of Bridesmaid, Bride and Golden Gate; also a house of Meteor, another of Carnot Kaiserin, La France, etc., for summer blooming.

The roses look fairly well but lack the vigor that is seen in roses grown with better light. This question of light is a serious problem in the growing of cut flowers in the vicinity of Youngstown, the air being filled with flakes of soot and ore from the railroads, steel works and furnaces, which settle on the glass and obscure the light, making it necessary to frequently clean the glass with acid, which is no small task on a place of 70,000 square feet of glass.

Here also can be seen a house plant-

ESTABLISHMENT OF JOHN SCOTT, FLATBUSH, N. Y.
House of gardenias.

ed to stevia which comes in very useful about the holidays, another house planted in Boston and Scottii ferns, besides quantities of very fine Scottii grown in pots and pans; also about 1,500 callas in pots. This last is one of the best paying crops on the place. There are about 2,000 strings of smilax, equal to a 125-foot house filled with Asparagus Sprengeri for cutting. Then there are

ESTABLISHMENT OF JOHN SCOTT, FLATBUSH, N. Y.
Corridor of crotons.

about 2,000 poinsettias in 2½ to 4-inch pots, ready for pans, which should make great Christmas stock.

The above is all in addition to the growing of lilies, tulips, narcissi, hyacinths, etc., for Easter, and the growing of 20,000 geraniums and other spring stock in like proportions, also the planting of some of the best city yards. All of which is certainly enough to keep an ordinary man out of mischief and prevent him from ever becoming an active member of a gun club or an enthusiastic golfer.

REMLE.

To Be Done Now.

IN THE GREENHOUSE.

The newly potted callas will be making plenty of roots now and the water supply must not be stinted.

Watch carefully for aphis on Richmond rose, as this is usually one of the first to be attacked, and fumigate directly any insects are seen.

Remove the yellow pollen from the longiflorum and Harrisii lilies before the cases burst, or the chaste purity of the flower will be spoiled.

Keep the flower buds regularly picked from geranium cuttings as they are very weakening if allowed to open.

For inducing a rapid growth in palms few things equal nitrate of soda applied weakly at first but continuously. Occasional waterings with ordinary liquid manure also help to keep up the soil's fertility.

Place the scarlet lobelias in a cool light house and water very sparingly.

Roses on the manetti stock will stand being kept more moist at the roots than own-root plants at this season.

Where the Christmas smilax is a little behind keep the young shoots regularly twisted in. This will help matters a little.

IN THE STORE.

Try in all cases to hide the pots in which growing plants are shown. Even

ESTABLISHMENT OF JOHN SCOTT, FLATBUSH, N. Y.
House of Begonia Gloire de Lorraine.

when clean which is not always the case they are unsightly.

If you have a bargain for your customers in perishable goods, tell them so by neat window slips or cards.

Ferns with deep green, hard fronds last far better than pale light colored ones.

A medium sized basket of Sprengeri for suspending is always a good investment as it is lasting and easily kept in health.

A frost nipped plant may sometimes be saved by immersing in cold water and standing it out of the reach of sunlight.

A tastefully arranged window, though lacking in quantity of material, is always more attractive than a crowded affair.

A little ventilation at the top of the window will prevent moisture settling on the glass during the night and obscuring the view in the morning.

If you have a rare or fine variety of orchid you wish to show without exposing the plant, do so by cutting the flowers and placing them in water tubes on a more ordinary specimen.

Nothing is prettier at this season than autumn foliage, but whole sheaves of it in the window are suggestive of a shortage in other stock.

OUTDOORS.

Where bulbous plants in the herbaceous border are not yet dead to the surface of the soil, leave them a little longer before cutting off.

Have plenty of protecting material ready to hand but don't begin to use it until it is necessary on roses and shrubs.

Have the soil well worked and pulverized before planting bulbs as they dislike a lumpy condition.

Where English ivies have been propagated by pegging down, the stems may now be cut preparatory to lifting.

Hollow and lumpy places on lawns may be put right now by lifting the turf and adding or removing soil from beneath as the case requires.

Push right on with preparing and stacking the soil supply while the weather keeps open.

Small squares of wire net over the drainage hole of pots that have to be stood outside prevents the ingress of worms.

Finish up the lifting of all half hardy subjects and get them to their winter quarters without further delay.

WALTHAM, MASS.—Repairs are going on at one of the local greenhouses of Peirce Bros., Waverly Oaks road.

At the Chicago Parks.

LINCOLN PARK.

Outside there is little to be seen but dead and dying leaves yet inside the glass department we found A. P. Frey very busy with his propagating and general work. Although a little early for chrysanthemums quite a number were in bloom and some naturally and loosely grown standard plants are worthy of mention. Too often these are stiff hard looking goods looking as set as the trees in a Noah's ark but these are a distinct improvement on which this clever grower is to be congratulated.

Those interested in orchids will do well to pay a visit to Lincoln park now for not only is there a very fine lot of plants that belong to the place in flower but also the loan collection from H. C. Selfridge that is worth noting. Cattleya labiata in considerable variety naturally has pride of place just now and the value of this old species, lost for so many years to cultivators, can hardly be over-estimated. Odontoglossum grande, too, is very good, Mr. Frey having evidently hit off its culture exactly.

Some people there are still to be found interested in botanical subjects apart from the showier and popular kinds and such will be interested in the charming Lælia dayana with its richly tinted lip, the modest little Cœlogyne ochracea, Oncidium bicallosum and a plant of the now little seen Phalænopsis amethystina.

But the real orchid cultivator cannot but be warm in his praise of the really excellent growths on the labiata section of cattleyas. They are all alike, Mossiæ, the Trianæi, labiata vera, and even the somewhat difficult Percivaliana, all bearing great solid, well ripened, businesslike looking bulbs that have evidently never been coddled in heat or wanted fresh air.

Over 2,000 primulas, 800 cinerarias and 800 remarkably fine cyclamen will certainly give a good account of themselves later while propagation of all classes of bedding plants is under way.

A fine batch of Begonia Glorie de Lorraine is worthy of note and indeed one may go on, for poinsettias, palms, pelargoniums and a whole lot of others are all good and thriving.

The condition of the large ferns, palms, and other permanent occupants of the houses is good and the whole place shows the mark of a good ruling spirit.

WASHINGTON PARK.

Here Ed. Kanst was to be found in the middle of the lawn busy with a small army of men getting in some of the 40,000 tulips, hyacinths and other flowering bulbs in which the soul of the spring gardener delights. The soil was evidently in the pink of condition and considering the amount of frost recently experienced as well as the drought the same is true of the grass. This same frost cut the geraniums here very badly and right back to the oldest wood, so that few cuttings will be forthcoming this side of New Year's. Still there are fine benches in the propagating houses filled with early stock, so no trouble is anticipated.

In the large conservatory the bananas in fruit are very evidently a source of interest to the visitors. The whole of the permanent plants are in fine shape, clean and thriving and a couple of large loquat are interesting in flower.

The show house is very bright the chrysanthemums already making a display, but by the end of the month they will be much better. The pretty old Lantana crocea and other varieties are used in the show house here with very nice effect, banks of it alternating with jasmines, and between these large drooping specimens of asparagus. The narrow verges of grass are suggestive of what might be done to hide the pots in the front row and give a cool refreshing appearance.

Right through the houses of young stock evidences of cleanliness and well considered culture were not wanting. Crotons, much better in color than usually seen, strong healthy looking dracænas and a particularly nice lot of young Cycas revoluta were noted, while the same care has evidently been afforded poinsettias, cyclamen and flowering stock generally.

Other houses are of a hospital character and plants that have borne the brunt of a long season in cold drafty places come here to be helped back to health. Ferns of the hardier decorative sorts are principally in demand and a good stock is grown to meet it. In a tank in one of the houses several aquatics are grown including the pretty limnocharis or water poppy and the water hyacinth, both now in flower. Ed. Kanst has evidently ample to do, but just as plainly has his hand well on his charge.

WEST SIDE PARKS.

These are passing now through the transition stage, of course, the work of lifting the summer occupants of the beds and borders being apparently pretty well completed. Through the courtesy of Superintendent Jensen we were enabled to see the plans of some of the alterations going on and though these are on a fairly ambitious scale it is early yet to give details. In the new range at Garfield park provision is made for a fine conservatory, experiment house, fern, exhibition plant and evergreen plant houses, with the usual yards and necessary offices, while the new landings, refectory and shelters projected will certainly be worthy of the city.

Twenty Years Ago

Black spot was troubling rose growers.

Thoughtful florists were looking for a good non-conducting covering material.

Papa Gontier was among the novelties in roses.

Sprays of orange blossoms brought $3 each at retail.

Orchids, orange blossoms, and fruits were popular subjects for bridal bouquets.

Cattleya Mossiæ was as popular as now, and had been for half a century.

New and rare plants were more easily obtained than gardeners who knew how to grow them.

Freesia refracta was popular and largely grown, both in pots and for cutting.

Several persons were poisoned through eating grapes that had been syringed with sulphate of copper.

Eight hundred dollars in premiums were given at Cincinnati for floral design work.

A pair of Yucca gloriosa recurva in flower was exhibited at the Massachusetts annual exhibition.

The prizes given for floral displays in San Francisco were probably the largest in America.

Dress garniture in natural flowers was all the rage. White was considered the correct thing for brides.

A well known rosarian said "I can tell whether my house is right as soon as I stick my nose inside the door."

A million dollars a year was expended on the Chicago parks which even then were among the finest in America.

A floral fort 5x6 feet made of Perle roses with 30 portholes worked out in red geraniums was one of the offerings to a popular actress at Washington.

Pressed edelweiss was imported from Alpine countries and used as bridal flowers.

A Cycas circinata 9 feet high, 14 feet in diameter, and perfect in form was sold in New York.

A bereaved mother had a cradle of flowers made for her infant child who had died. In it the body was kept until after the funeral services, and just before it was taken to the cemetery.

A floral design representing a 1000-mile ticket with coupons all gone and lettered "mileage gone and journey ended" was used at the funeral of a commercial traveler at Burlington, Iowa.

There were humorists in Washington. Mr. Smith of the botanic gardens there said of the diffenbachia that poisoned Humboldt "it has been re-christened the 'mother-in-law' plant because it is a tongue paralyzer."

The heaviest and most destructive hailstorm to date occurred at Madison, Wis. Hail stones five inches in circumference did over $300 damage to one firm's plant.

Dinner table decorations in all green were fashionable. A New Jersey plantsman had a stock of green roses, and made money owing to the brisk demand for these not very beautiful flowers.

EVANSVILLE, IND.—Edgar L. Fenton, rose grower for Julius Neidnagel, and Mrs. Luella Victor, were married September 25.

WHEELING, W. VA.—Albert T. Brandfass has withdrawn from the firm of John Dieckmann & Co., and he and Fred Rudge have accepted positions with J. L. Wyland, of De Haven, Pa.

NAPOLEON, O.—R. W. Hartman says he has nothing to complain of as far as business is concerned. He is meeting with a large retail trade, the demands of which his six greenhouses (10,000 feet of glass) are able to supply.

NORTH ADAMS, MASS.—A. J. Boothman is having a large addition built to his greenhouse. Mr. Boothman had charge of the decorations at the Foulder-Hamblen wedding, one of the most brilliant events of the year.

COLUMBUS, O.—Miss Gertrude Nellie Charles was married on September 26 to Edward J. Tyne. Mrs. Tyne has conducted a flower store at 605 N. High street for the past four years and is the oldest daughter of Mr. and Mrs. Charles, well-known florists of this city.

Chicago Notes.

Robt. Newcomb, formerly with the Central Floral Co., this city, is now located at Oakland, Cal.

Superintendent Jensen reports excellent progress with the extensive new construction work of the west park system.

Adam Ziska lost his mother by death October 20, the funeral occuring Monday. Mr. Ziska has the sympathy of the trade.

Mrs. Herman Schiller, who has been suffering from rheumatism for some time, developed blood poisoning and had to have her leg amputated October 23.

Henry Ostertag, of Ostertag Bros., St. Louis, was in town Saturday. He purchased stock to the value of $1000 for the funeral of Tony Faust, the big brewer.

Chas. Hartwig, the old-time rose grower of Lake View, visited the market Monday. This was an event so rare as to cause some comment among the wholesalers.

"To our friend Isaac" was the message in letters of flowers on the tribute sent by the newsboys of this city to the funeral of the late Isaac Woolf. The piece which was finely executed was composed of chrysanthemums and roses.

W. N. Rudd is much satisfied with his success with Rosiere chrysanthemums this season. His old stand-by, Ivory, is in fine shape again this year and the carnations promise well for the holidays, including a fine red seedling, the best red in sight.

Among the visitors this week was Geo. C. Watson of the J. W. Wolfskill establishment, Pasadena, Cal., returning from Europe. Mr. Watson reports having a very enjoyable time abroad, visiting some of the more important places in England and France.

It is said that Ed. Winterson went out to dine with some German friends one evening last week. In their efforts to show him a good time, the party adjourned to a theater. "The show was all right," said Ed., "but the actors spoke German. I don't."

Tuesday afternoon at the office of the Bentley-Coatsworth Co. a meeting was held of the chairmen of the committees having in charge the annual exhibition at the Coliseum November 6 to 11 inclusive. Reports were received showing the progress of the various departments.

The building commissioner, who has been creating so much noise in this city condemning structures and ordering alterations, is now after the building at 76 and 78 Wabash avenue, occupied by Bassett & Washburn, E. H. Hunt and L. Baumann in common with others. This means both trouble and expense.

Washington.

BUSINESS IMPROVES.

The business of the past week was much better than might have been expected, considering the fact that the weather has been and still continues wet and disagreeable. It is very trying on the growers. Roses and carnations were just picking up and beginning to show some points when they were given this new setback. Chrysanthemums are coming in quite freely, though no extra fine blooms have yet appeared. Carnations are scarce, a condition which seems to prevail over a large area of the country. Passable stock is already retailing here at 50 and 75 cents per dozen, and it looks as though prices will soar when the chrysanthemums are out of the way.

NOTES.

John Clarke, Sr., an efficient and trusted employe at the United States Botanical Gardens, has just returned from a visit to his son, another John Clarke who is in the service of the new seed firm of Fiske & Co., Boston, Mass. The elder Mr. Clarke enjoyed his visit thoroughly and was well pleased with the horticultural features of the Hub. Other members of Mr. Clarke's family are in the employ of Henry A. Dreer, Philadelphia.

For the banquet given the Old Time Telegraphers at the Arlington hotel, George C. Shaffer furnished an elaborate decoration, American Beauty roses being freely used. Autumn foliage made a fine effect in the hall decorations. At the same hotel within the past week, J. H. Small & Sons executed a fine decoration for the banquet of the powder manufacturers.

Clarke Bros. have a fine stock of pot chrysanthemums which are selling fast. The double poinsettias which this firm cultivates with success have made fine growth this season and promise an excellent Christmas cut.

During the week S. S. Pennock and E. J. Fancourt were visitors though whether they subscribed for stock in the Washington commission house project, deponent saith not.

The Washington Florists' Co. has an attractive window in which Killarney roses are a leading feature. At night a number of Japanese lanters are used with good effect.

The Gude Bros. Co. are now cutting a fine lot of American Beauty roses. These with their tea roses and big stock of chrysanthemums make this store very attractive.

John Robertson has been offering fine Enchantress and Lady Bountiful carnations, grown by John Brown, who has been uniformly successful in carnation culture.

S. E.

Pittsburg.

CHRYSANTHEMUMS ABOUND.

The chrysanthemum season is now on in full swing, heavy shipments arriving at all the commission houses and all retailers cutting heavily. Mrs. Robinson is the best white, while Bergman and Polly Rose are mostly used for medium grades. Pacific in pink is still the leader but other varieties are now coming in. Omega is the best yellow, October Sunshine and Monrovia coming next. Carnations are more plentiful, but still there is not near enough arriving. The chrysanthemums had the effect of lowering the American Beauty prices and piling up the stock, the long grades being especially plentiful. Other roses are moving nicely, all varieties arriving in excellent condition. Lilies are very scarce.

NOTES.

About November 1 the Pittsburg Cut Flower Co. expects to remove to its new quarters, 222 Oliver avenue, which for the past two weeks have been undergoing a remodeling for their use. The new location is more centrally located and will afford much more floor space in its five stories. P. J. Demas has returned from the east and reports a great scarcity of stock among the eastern Pennsylvania growers, many being very unfortunate with their carnations.

A. F. Lorch, of De Haven, was quoted in another publication as giving his opinion on stem rot at the recent club meeting of the Pittsburg and Allegheny Florists's Club. Mr. Lorch wishes it stated that he did not speak on stem rot and its cause, but only on early and late planting. From his own experience he has found early planting always does best for him.

Henry Wiggans, Butler street, was assessed, unjustly he declares, with a telephone bill which he refused to pay. A constable came to tack a constable's sale notice on Wiggans' place. Wiggans promptly put him to flight twice and finally a patrol squad took him to jail. Mr. Wiggins is out on bail and intends fighting the case to the finish through the courts.

D. C. Noble, of Columbia City, Ind., is sending in the best cut of carnations of the season at present. Mr. Noble was very fortunate to have a nice crop come in this time of scarcity and high prices.

The Washington Floral Co., of Washington, Pa., is shipping local houses a large cut of Polly Rose and Pacific chrysanthemums. They are also cutting some fine carnations.

J. W. Moxwell, who some time ago bought out E. J. Perry's business in Greensburg, joined the benedicts Thursday amid the congratulations of his many friends.

Mrs. J. Elicker, of Homestead, has been on the sick list the past few days.

J.

Buffalo.

BUSINESS FINE.

Fall weather in a very fierce form following the warmth of August was our portion the past week, but the snow and rain put a finish to dahlias and gladioli and the dark weather made all indoor stock scarce, consequently the florists were in a very bad way, and, as usual in bad weather, trade was fine. Chrysanthemums are arriving daily but the flowers are not very large as yet. Roses are very good, more especially Liberty and American Beauty, which are selling fast. Carnations are scarce, which is to be expected. Violets are of very fair quality and equally scarce. Orchids have been in fair supply and selling well.

NOTES.

Daniel O'Day, who died in Paris and was general manager of the United Pipe Lines and several kindred interests of the Standard Oil Co., was buried in this city October 16. It is safe to say that there has not been as many large and choice pieces and bunches at a funeral in a long time as were seen at this. There were designs and bunches from New York, Pittsburg, Toledo, Cleveland and Lancaster, Pa. Palmer & Son had some very fine work, while S. A. Anderson had the larger orders and full charge of all the flowers upon their arrival in Buffalo and their arrangement at Holy

Cross cemetery. The quality of the stock could not be better and the designs were fine. The only flowers allowed in the cathedral were a pall of violets which completely covered the casket on all sides. It was the family order and made by Chas. Thorley, New York. The New York flowers were sent here in charge of John J. F. Curry of Thorley's Fifth avenue store. Pittsburg flowers were in charge of W. H. Hall of A. W. Smith's.

Last week was a busy one for nearly all the florists, Palmer and Anderson both being very busy. The former had several fine dinners and a wedding. S. A. Anderson was rushed all week with receptions and three good weddings in and out of this city.

W. H. Grever, of W. J. Palmer & Son, has been on the sick list but is better now.

Visitors: C. N. White, of White Bros., Gasport, N. Y.; James Karins, of Henry A. Dreer's, Philadelphia, Pa.; C. S. Ford, Jr., Philadelphia, Pa.; Wm. Dykes, with Ed. Jansen, New York.

BISON.

St. Louis.

A BRISK MARKET.

The market was very active the past week. Carnations were greatly in demand but still remain very scarce. Roses are improving daily. American Beauty is arriving in fine color. The latter part of the week chrysanthemums arrived in quantity. There were some extra fancy Omega which brought fancy prices. Violets are improving both in length of stem and color and a few cold nights and days will help them considerably. Smilax, and Asparagus Sprengeri and A. plumosus are selling well. There was quite a demand all last week for lily of the valley. Many fancy ferns from the east are of very poor quality. White roses were greatly in demand, in fact there was good demand for all stock. The run on American Beauty roses was especially good owing to the meeting of the Bankers' Association.

NOTES.

Miss Krug, daughter of Joseph Krug, of Alton, Ill., was a heavy buyer here last week for large funeral orders. She stated that her father, who has been in business in Alton for over 40 years, hoped to celebrate his golden wedding November 5. He expected to cut from his houses Golden Wedding chrysanthemums which he proposed to use during the celebration.

The deal of Adolph Brix with T. Klockenkemper has been closed. Mr. Brix took charge of the greenhouses Monday. Henry Braun will be foreman and have full charge of the plants. He was formerly with A. Jablonsky, of Central, Mo.

John Steidle, of Central, is cutting some fine roses, Richmond, Killarney, Perle, Bride, Golden Gate and Bridesmaid, also some fine carnations. He disposes of all his cut, including violets, to F. C. Weber, the old established west end florist.

John Burke is doing a nice business at his store, Sixth and Locust. This is a most prominent corner. Last Saturday John received from Chicago a fine shipment of roses, including fancy American Beauty. This is the class John caters to.

Will Adels, with the Ayres Floral Co., can be seen daily hunting up first-class chrysanthemums and long stem fancy American Beauty roses. If he does not get his wants supplied everyone knows Will is around.

Alex. Waldbart & Sons have been very busy during the past week with all kinds of work. Their store and greenhouses are well stocked and their location is in one of the most fashionable neighborhoods.

Max Rotter, the North Broadway florist, has been busy all week hunting up white roses and carnations. It was reported that last Wednesday Max had succeeded in obtaining 25 white carnations.

Adolph Kohr has been very seriously indisposed for three weeks with pneumonia. He was down at the store for the first time last Saturday and hopes soon to recover his full strength.

The Ellison Floral Co. had the home decoration and tables at the Scarritt-Keller wedding. This firm is putting in new fixtures of Spanish cork bark, very unique and attractive.

Henry Ostertag, of the firm of Ostertag Bros., left for Chicago to make purchases to be used at the Faust funeral next Saturday. He has the family order.

We are glad to announce that Miss Armstrong has been removed from the hospital and is now on the way to recovery at her father's home in Kirkwood.

W. J. & M. S. Vesey, Fort Wayne, Ind., sent some of the choicest American Beauty roses ever seen in this market, also fancy yellow chrysanthemums.

Masek & Pelletier are doing a nice business in their new cross town location. They were very busy last week with weddings and decorations.

Fred Foster and his string of thoroughbreds will leave for the Chicago horse show. From Chicago he will go to Pittsburg.

Arthur Waldmann of Pine Lawn will soon be cutting from his two chrysanthemum houses and his one violet house.

The Diemer Floral Co., of South Broadway, reports trade as improving. The firm has an old established trade.

The Riessen Floral Co. has a most beautiful window display of chrysanthemums, violets and carnations.

Alex. Siegel has quit hunting bargains for a while, at least until stock becomes more plentiful.

A. Jablonsky, Central, is sending in to the market some fine roses and carnations.

Martin Reukauf, of H. Bayersdorfer & Co., Philadelphia, is with us.

The Bentzen Floral Co. is cutting good chrysanthemums.

W. F.

Cleveland, O.

BUSINESS ON THE RUSH.

Trade the past week has been on the rush at all times, with not enough stock to fill orders. Roses are bringing good prices although American Beauty is to be had in plenty. Carnations also go at satisfactory prices. Chrysanthemums are in great demand.

NOTES.

Chas. Bartells, of the Essex place, is sending in some fine early chrysanthemums that are meeting with ready sale at good prices.

Fred Ziechmann has returned from an extended trip through Germany where he enjoyed a long visit with his brother.

J. Kirchner has had a heavy run of funeral work the past week.

Milford Parks, of the Citizen building, reports business fine.

OHIO.

Cincinnati.

TRADE EXCELLENT.

The chrysanthemum is here in all its glory. Friday and Saturday of the past week the wholesale houses found their supply of this seasonable flower piling up and consequently prices took a downward course and by Saturday afternoon $1.50 per dozen was the best price realized. Polly Rose, or Estelle, Glory of the Pacific and Monrovia are the three varieties received the past week and they are pretty well cut out at this writing and we can truthfully state that every bloom received by the wholesalers was turned into money for the grower. Roses, too, have been good property, very few of these going to waste and carnations are too scarce to quote. Lily of the valley has been in good demand with not near enough for orders. Green goods are still in ample supply. If the demand continues for the balance of the month October 1906 will be a record breaker.

NOTES.

Geo. E. Kessler, of Kansas City, has been engaged by the local park commission to outline a system of parks for our city and is at present busily engaged in exploring the environs of the city on foot in order to study the landscape at close range. Mr. Kessler states the possibilities for a well ordered system of parks, with suitable connections, such as he finds here, enthuses him with delight upon every exploration made. Our parks may yet be the talk of the country.

We had the pleasure the past week of visiting the Rosebank greenhouses which are now in charge of Mr. Kirkpatrick who is ably assisted by Wm. Chissick and Wm. Turner. The stock looks very promising. Some very good flowers will be seen from this place the coming winter.

The past week Veronica Benson, of Newport, Ky., has been very busy with funeral work and his smiling countenance was missed around the wholesale houses.

Sunderbruch & Meier are installing a new steam boiler preparatory to an increase of four new houses.

Otto Walke has the sympathy of the craft in the loss of his four-year-old son.

H. B. McCullough is down east combining business with pleasure.

ALEX.

Columbus.

Business here is steadily on the increase and has been greatly augmented this past week by funeral work. Most of the chrysanthemums are showing up fine. Local florists, however, have been annoyed by a blight on two varieties, Pacific and Polly Rose. The blight has spread to such an alarming degree, that

it is quite likely that many growers will discard these two varieties in the future. Clementine Touset is surely a winner and is a great favorite with everybody. Some fine specimens are being produced by local growers.

The Maurice Evans place has been given a thorough overhauling and is now in better shape than it has been for some years past.

CARL.

Kansas City.

BUSINESS GOOD.

Several heavy frosts have occurred during the past week completing the destruction of everything in the way of outdoor plant life. The absence of outdoor flowers, which only a short time ago were plentiful, makes a lively demand for the regular stock of roses, carnations and other staple items. Wholesalers report a good demand, with a marked improvement, as well as an increase in stock. Shipping trade is fairly good. Retailers have had an unusually large share of funeral work during the week. Several stores that depend on Chicago for their best stock, complain of losing the shipments of American Beauty roses last week, probably on account of their being chilled. Teas are more plentiful and much improved in quality. Carnations are scarce in most instances. Violets are greatly called for with only a few to fill requirements. Chrysanthemums are arriving in larger quantities, and sell without difficulty. Such varieties as Polly Rose, Monrovia and Glory of the Pacific constitute the present supply.

NOTES.

"Horticultural Fakes and Fakers" was the subject of an interesting address made by J. H. Darche last Saturday at the regular meeting of the Missouri Valley Horticultural Society at Edwardsville, Kans. "Landscape Engineering" was discussed by Clarence Chandler of Kansas City. Papers of equal interest were read by Miss Marie Goodman also of Kansas City. Discussions pertaining to fertilizers brought out many valuable points in that regard.

This is a good season for foliage plants, especially ferns. Hardly a store is without a nice assortment of the different kinds, the most popular among them being Nephrolepis elegantissima. Kellogg is showing a new variety labeled the Kellogg, a plant greatly resembling elegantissima in size and shape.

A disastrous fire in Kansas City, Kans., October 20, resulted in a loss of over $50,000. The display of exhibits and paraphernalia of the carnival being held there was completely destroyed. A large number of palms used for decorative purposes was burned.

A. Broman, of Independence, is to be complimented on the good quality of roses which he sends in each day. His other stock is fully as creditable and makes a nice showing at Miss Daley's store.

Edward Tonquest who spent several years with Miss Daley is in the city renewing acquaintance with his large circle of friends. Ed. was well liked by all the boys and all welcome him on his return.

Rock's store was brilliant with the bright hue of autumn foliage last week. Huge baskets and vases of yellow chrysanthemums were arranged effectively together with many fine crotons.

The woods in this locality are more beautiful than ever this fall. The coloring is more complete, and the leaves have a remarkable lasting quality.

The five-hundredth electric sign now sheds its rays on busy Main street. This was recently placed in front of the People's Floral Co.'s store.

A story is making the rounds that a large store is to be established in Kansas City, Kans., by one of the leading firms on this side.

Fred Fromhold was absent from the store last week, serving on the election board.

W. J. Barnes had the decorations for a large wedding last week.

Miss Peterson is reported much improved. K. C.

San Francisco.

BUSINESS STEADILY IMPROVES.

October is not interfering with California's nice summer weather, a bit too warm at midday, causing pedestrians to seek the shady side of the streets; and already in the current month chrysanthemums are plentiful, and violets too, and their inviting freshness has so lured consumers the past week to investment that I have found no florists complaining. Everything portends well for the trade, is what all the re-established florists say, and the few not yet re-entered in the swim are beginning to think so, too. In evidence of this I note the re-establishment this week of a trio of ante-calamity florists who have posted for their trade name the Geary Street Florists." The site selected is 1136 Geary street, around the corner from Van Ness avenue. The proprietors are E. Rosaia, formerly and for many years at the head of a Fourth street store named Young American Florists, G. Rosaia, a long time proprietor of the Floral Depot at 31 Geary street, and E. Matraia, formerly part owner of the Art Floral Co.

And Florist Culligan, who grew up in the trade under the preceptorship of veteran George B. Jones, and took upon himself the veteran's mantle 18 months before the earthquake, is as busy as he can be looking for a desirable flower trade location in time for the fall trade.

At the side of a huge vase holding a large cluster of 4-foot stemmed American Beauty roses I heard Luther Burbank talk this week to a larger cluster of students at Stanford university. He told in his speech of the best way to regard inventions and discoveries and advised the students to be generous with their ideas. "If you happen to get a new idea," he said, "don't build a barbed wire fence around it and label it yours. By giving your best thoughts freely, others will come to you so freely that you will soon never think of fencing them in. Thoughts refuse to climb barbed wire fences to reach anybody."

Here is future work for California's landscape gardeners and floriculturists, and the California Promotion committee want me to mention that they have received word to the effect that Harlow N. Higinbotham, president of the Columbian Exposition of Chicago, is heartily in sympathy with the movement to hold a Pacific Ocean Exposition in this city in 1913. Mr. Higinbotham says that now is the time to launch the proposition to hold the exposition. He thinks there will be a world-wide attendance, and that exhibitors will be greatly interested. By the time the exposition is held the city will have fully recovered from the effects of the recent fire and will in itself be an object lesson to the world of the way things are done in this part of the country.

JESSE WHITE.

Des Moines, Ia.

TRADE BRISK.

Business the past week has been very brisk, a decided improvement over last week. The heavy frost killing the outdoor stock made the demand for other stock impossible to secure. The demand for carnations was large, and the scarcity of them made the retailers substitute as best they could. Several large weddings and funerals practically cleaned up everything every day. Chrysanthemums are coming in and are very good, but owing to the high prices are not selling very rapidly. Violets, too, are in market, but of an inferior quality.

NOTES.

Wesley Greene has returned from the state convention, held at Dubuque, and reports a very good meeting and a very enjoyable trip, especially the steamer ride up the river. At the meeting the following officers were elected: Theo. Ewoldt, Davenport, president; Judson Kramer, Cedar Rapids, vice-president; W. A. Harkett, treasurer; Wesley Greene, Des Moines, secretary; W. E. Kemble of Oskaloosa, J. F. Wilcox of Council Bluffs, F. L. Larson of Fort Dodge, and C. L. Adams, directors. The meeting next year will be held at Des Moines during state fair week.

The Alpha Floral Co. displayed some very fine chrysanthemums in its window this week. The firm has recently painted the interior of the store, a new sign, and fixed things up in general, which makes it very attractive.

Vaughan's Greenhouses were sold out of everything last week, and could have sold, it is said, twice the amount if they had it. Their supply of carnations being very limited they were unable to supply the demand.

Harvey Lozier has returned from Minneapolis and has again resumed his position at the store of A. T. Lozier.

A. G. Lozier expects to leave in a short time for Texas where he will spend the winter. M.

GREENVILLE, MICH.—The Fair Association's first fair was a great success. L. C. Lincoln exhibited decorative and flowering plants and also some cut flowers.

OBITUARY.

Major Clarence T. Barrett.

Major Barrett died of pneumonia October 12 at his home in West New Brighton. Born in Rahway, N. J., he later in life took up landscape architecture, afterwards enlisting in the New York volunteers and for gallantry in the civil war he was brevetted.

You can sell stock plants of good varieties of chrysanthemums by advertising them.

SECRETARY ALBERT M. HERR, of the American Carnation Society, has issued an appeal for special premiums and new members.

THE big freeze caught many unprepared and as a consequence there will be many short of propagating material for next season's supply of bedding stock.

A MEETING of the executive committee of the Society of American Florists will be held at Chicago November 8 to consider matters pertaining to the international flower show, which it is proposed to hold at Chicago November, 1908.

THE heat of summer is too great for the culture of Odontoglossum crispum to be satisfactory, we have been told recently. But this used to be said of several European countries and in these very countries now the finest varieties in the world are grown, and in the best style too.

THE Young Men's Commercial Club of Storm Lake, Ia., advises us that the business men of that section are very desirous of getting a man who is competent and a good hustler to locate there and establish a good greenhouse business. The association will do everything that it can to assist such an enterprise.

Society of American Florists.

DEPARTMENT OF PLANT REGISTRATION.

C. G. Roebling, Trenton, N. J., submits for registration Laelio-Cattleya Washington A. Roebling 2nd, (Laelia harpophylla x Cattleya granulosa). Flower bright yellow, with pink on lip, bulbs slender, 10 inches long, double-leaved; leaves one and one-half inches broad and eight inches long.

WM. J. STEWART, Sec'y.

Legal Points.

CONTAMINATED WATER.

In our last issue, page 584, reference was made to the fact that Gus Knoch, Woodmere, Mich., was suing the local gas company for a loss sustained by the company's refuse contaminating the water that flows through his place where he grows water hyacinths, the sale of which this season amounted to 75,000 plants. We are now advised that he has been awarded $800 damages.

The Chicago Show.

The joint exhibition of the Horticultural Society of Chicago and the National Chrysanthemum Society of America is close upon us, and in this connection I wish to say a few words to the exhibitors, and also to call the attention of members of the allied trades to the importance of the success of the show. It comes before the public as an exponent of all that is choicest and most beautiful in the art of the florist, and it is hardly necessary to add that every one of our workers must of necessity share in the common benefit which this success insures.

Great blame would attach to us as a body should failure result, but success is assured, as much as possible by the loyalty and devotion to the cause shown by the leading Chicago florists, all of them men with whom it is a pleasure to be associated in work of this nature. Formidable obstacles there are in front of us, but they are there to be overcome. In order to keep faith with the public the short space of 30 hours only is given us for the installation of the show, and we must have everything in order. I would like to suggest to the exhibitors that as far as possible they prepare their exhibits on Monday, for as the exhibition opens to the general public at 1 p. m. on Tuesday a clear field by 11 a. m. is absolutely necessary for the judges. The first thing the public wishes to know is to whom the premiums are awarded and the public must be considered. The managers trust then that exhibitors will combine with them to further this very desirable end.

As there are no facilities for the disposal of rubbish at short notice each exhibitor should have a suitable conveyance at hand and remove all such waste material and loose packing pertaining to his own exhibits. The manager will be at the disposal of all exhibitors at the entrance, and will give all requisite information regarding entrance, location of classes, and amount of staging necessary. A shipping clerk will be in attendance to receive and give receipt for all deliveries. Owing to the kindness and courtesy of the trade members we shall have ample help of an experienced character, to carefully handle all shipments in a manner befitting the importance of the show.

This exhibition is going to be very freely patronized and visited by the public and its merits will long be a matter for conversation and discussion. Plans of the ground floor of the building with locations of the different exhibits as far as possible are to be prepared at once. As from 30,000 to 50,000 are to be printed the name of the exhibitors opposite their exhibits should constitute an advertisement of no mean order, practically every visitor to the show getting a copy. In conclusion it may be added that it is not the amount of material crowded into a given space that makes the exhibit successful but attractive and artistic arrangement, combined with correct blending or contrasting of color.

GEORGE ASMUS, Mg'r.

Coming Exhibitions.

(Secretaries are requested to supply any omissions from this list.)

BOSTON, MASS., November 2-4, 1906.—Chrysanthemum exhibition Massachusetts Horticultural Society. Address Wm. P. Rich, Horticultural hall, 300 Massachusetts avenue, Boston, Mass.

CHICAGO, November 6-11, 1906.—Annual exhibition Horticultural Society of Chicago. Address Willis N. Rudd, Blue Island, Ill.

DENISON, TEX., November 8-10, 1906.—Annual flower show. Denison Civic Improvement League. Address T. W. Larkin, Denison, Tex.

LOS ANGELES, CAL., October 31—November 3, 1906.—Autumn exhibition Southern California Horticultural Society. Address Ernest Braunton, 115½ N. Broadway, Los Angeles, Cal.

MADISON, N. J. November 1-2, 1906.—Eleventh annual flower show Morris County Gardeners' and Florists' Society. Address E. Reagan, Box 315, Morristown, N. J.

NEW HAVEN, CONN., November 6-8, 1906.—Annual exhibition New Haven County Horticultural Society. Address Thos. Pettit, 90 Prospect street, New Haven, Conn.

ORANGE, N. J., November 5-6, 1906.—Twelfth annual flower show New Jersey Floricultural Society. Address Joseph B. Davis, Orange, N. J.

PROVIDENCE, R. I., November 9-10, 1906.—Chrysanthemum and carnation exhibition Rhode Island Horticultural Society. Address C. W. Smith, 27-29 Exchange street, Providence, R. I.

SITUATIONS, WANTS, FOR SALE.

One Cent Per Word.

Cash with Adv.

Plant Advs. NOT admitted under this head.

Every paid subscriber to the AMERICAN FLORIST for the year 1906 is entitled to a five-line WANT ADV. (situations only) free, to be used at any time during the year.

Where answers are to be mailed from this office, enclose 10 cents extra to cover postage, etc.

Situation Wanted—By an all-around, single florist; commercial or private place. Address Key 803, care American Florist.

Situation Wanted—By A1 grower of roses and general stock; capable of managing large plant. H. BORNHOFT, West Seattle, Wash.

Situation Wanted—By experienced grower of orchids, palms, stove and ornamental plants, etc.; good references. Key 812, care American Florist.

Situation Wanted—By an experienced foreman and section man; up-to-date carnation grower; can refer you to best growers in the country. Key 814, care American Florist.

Situation Wanted—November 1, by practical, experienced grower of roses and carnations; is capable of taking entire charge. Address THE ROSEDALE FLORAL CO., McHenry, Ill.

Situation Wanted—As manager of large commercial place by a young man with all-around experience as a florist, nurseryman and landscape architect; prefer to manage a place for one who has lots of money to invest and would pay salary and part of profits; good references. Address Key 816, care American Florist.

Situation Wanted—Frenchman, 28, 14 years' experience in all branches; first-class references from largest French private places; 2 years' American experience in carnations, ferns, roses, chrysanthemums, fruits and vegetables under glass; good worker; no alcohol. Want place with advancement from November 10. Address E. M., care American Florist, 1133 Broadway, New York.

Help Wanted—General greenhouse man. Address G. A. HEYNE, Dubuque, Ia.

Help Wanted—One rose grower, one helper, and one for propagating and potting. Address J. F. WILCOX, Council Bluffs, Ia.

Help Wanted—Two first-class florists and salesmen. Must be good in making floral designs. J. SEULBERGER, 414 14th St., Oakland, Cal.

Help Wanted—Married man, with references, for a carnation section. State wages wanted. Address Key 817, care American Florist.

Help Wanted—At once; a good rose grower at $14 per week, and one helper at $12 per week. Address Key 819, care American Florist.

Help Wanted—A carnation and plant grower. Address, with particulars as to experience and wages expected, Key 818, care American Florist.

Help Wanted—A rose grower to take charge of a section; must be sober and reliable; state references and wages. Address C. C. POLLWORTH CO., Milwaukee, Wis.

Help Wanted—Good general greenhouse man for retail place. State experience and give full particulars first letter; $50.00 per month to begin. Address C. H. GREEN, Fremont, Neb.

Help Wanted—Man and his wife to run boarding house, from three to four boarders; will give man position as packer of cut flowers or fireman in greenhouse. Address Key 821, care American Florist.

Help Wanted—First-class florists' store man; must have good appearance and address and be expert decorator and designer, also used to plant trade and a hustler. Address Key 815, care American Florist.

Help Wanted—Florist and landscape gardener; experienced, thoroughly competent, sober and industrious. State experience, age, married or single. Wages $40 per month, board, room and laundry. Key 813, care American Florist.

Help Wanted—Competent orchid grower to take charge of a private place west. Has one assistant; must be single, sober and industrious. State references and salary expected. Address W. H. S., Windermere Hotel, Cor. Cornell Ave. and 56th St., Chicago.

Help Wanted—A reliable, sober man who understands growing roses, carnations and bedding plants, to take charge of 5,000 feet of glass, heated by natural gas; must be a good salesman and designer. State wages with board. Address JNO. CORBETT, Mt. Sterling Floral Co., Mt. Sterling, Ky.

For Sale—Nine greenhouses, dwelling house and barn, 3½ acres of ground. For particulars address P. O. Box 109, Newtown, Bucks Co., Pa.

For Sale—A1 down-town retail store for sale; established 10 years; bargain. Enquire VAUGHAN & SPERRY, 60 Wabash Ave., Chicago.

For Sale—Flower store and greenhouse, splendid location and good, established trade. Will sell cheap on account of other business. Address Key 808, care American Florist.

For Sale—A thriving florists' business in Illinois; 20,000 ft. of glass, all planted with roses, carnations, 'mums and general stock in fine condition; modern 10-room dwelling, all built within the last 10 years; last year's sales, $6,000.00. Cause for selling, other business. Address Key 805, care American Florist

For Sale—All the glass 10x12 double strength A, on five houses, each 20 ft. by 115 ft., for $500 as it stands. Will include sash bars and doors. Also two Kroeschell hot water boilers; one steam boiler, 20 H. P., used three months, dirt cheap. Several thousand feet 4-inch hot water pipe, 7c per foot. BRANT & NOE FLORAL CO., W. Peterson and N. 48th Aves., Chicago.

For Sale—Worthington duplex steam pump, capacity 30-40 gal. per minute, in good condition, $45.00; No. 1 receiver and fittings for pump, good as new $50.00. Dean pump for hand or steam, almost new, $20.00; 6-inch pressure regulator, used two seasons, $50.00; 2½-inch pressure regulator, $18.00. Carnation supports, $15.00 per 1000; $125.00 for 10,000. JAMES W. DUNFORD, Clayton, Mo.

FOR SALE.

Old established retail florist's store. Reason for selling, going west. For particulars, write to

F. K., 700 N. 5th St., Philadelphia, Pa

PUBLIC SALE OF GREENHOUSES.

Thursday, November 1st, at 10 a. m.,
at 21st and Edgemont Ave., Chester, Pa.

Greenhouse building, frames, sashes, glass, pots, and all effects belonging to the greenhouse plant of the late Thomas F. Delahunt, deceased. For particulars apply to

JOHN D. HOWARD, Auctioneer, Chester, Pa.

will do what you want. Try it now. Back of every ad is a real want, so it pays to answer them. : : : : :

QUERIES.

Capacity of Boiler.

ED. AMERICAN FLORIST:—

Can a 10 H. P. traction boiler be used to heat a house 20x100 feet with steam, maximum temperature of 60°? Can the above boiler be used with hot water instead of steam?

J. B. C.

While a 10 H. P. traction boiler could be made to furnish a sufficient amount of steam to heat a house of the size mentioned, a difficulty is likely to be found from the fact that the grate and firebox are rather small to hold sufficient fuel to maintain the desired temperature without frequent attention. The same would be true but to a less degree with hot water. In case such a boiler is used with hot water, it would be necessary to have flanges that will permit of the connection of 2½-inch flows and returns although, if preferred, two 2-inch flows and returns could be used instead.

L. R. T.

Steam or Hot Water for Heating.

ED. AMERICAN FLORIST:—

Is the best heat in greenhouses, in which to raise lettuce, hot water or steam heat, and why? Which way would you run your length, north and south or east and west?

C. K. & S.

For modern houses with glass of good size it will make little difference whether the houses run east and west or north and south, if built even span, but of course for unequal spans it will be better to have the slope to the south.

Particularly for small houses where the care will at best be irregular, hot water will be the more satisfactory, but there will be little difference so far as the results are concerned in large plants. As a rule, steam is used where there are large areas of glass, as the expense for installation is not more than two-thirds as much as for hot water, owing to the amount of radiating surface required being 50 per cent less. If both plants are properly handled there will be little difference in the results secured.

L. R. T.

To Heat a Greenhouse.

ED. AMERICAN FLORIST:—

I have a house, 14 x 46 feet, heated from a Hitchings No. 212 hot water boiler, with the piping put in according to specifications furnished by the Hitchings Co. This gives 55° with an outside temperature of 20° below zero. To this house I have built an addition, 9½ x 37 feet, 7½ feet at the ridge and 4 feet at the sides. This house is joined to the gable end of the first, covering the door and some of the glass. The roof is of hot bed sash with no glass at the sides. How much piping will be necessary to keep the addition at 40° during the severest weather? Will it be necessary to put in an additional boiler? If not, how should the piping be connected? Would it be satisfactory to run pipes from the mains at the end of the first house under the middle bench in place of the coils now there and then connect with the coils under the two benches in the addition?

M. E. T.

The new house will require about one-half as many runs of pipe as the old one. The question does not state how many or what size of pipe is now used and this makes a definite answer impossible. It will be possible to extend a sufficient number of the pipes from the present house to give the radiation needed. Thus if 2-inch pipe is used it would require about eight lines in the present house, while four would answer in the new one. A good way would be to run two flows down one side of the house and back on the other, or there could be a flow and return on each side. The boiler would be amply large to heat both houses to 60°.

L. R. T.

Concrete or Cement Block Walls.

ED. AMERICAN FLORIST:—

Which will be the better, concrete or cement blocks for a greenhouse 17x50 feet, with 3½-foot walls of even span? The cost of building would be the same in either case. The cement blocks are 8x20 inches and hollow. Will an 8-inch wall be sufficient and how would the gutter be held to keep it from slipping out of place?

KANSAS.

In the construction of a greenhouse it will be advisable to use concrete for the portion of the walls below the surface of the ground. This can be made by the use of five parts broken stone or coarse gravel, three parts sharp sand or fine gravel and one part of cement. These should be thoroughly mixed together and then moistened so that every portion will be damp but no water should be apparent upon the surface. It will be an easy matter to build the wall below the surface of the ground if a trench of the exact width of the wall is dug. From that point up to the grade line, a form of plank should be constructed. The grout should be placed in this trench in layers about four inches deep and very thoroughly rammed. It will be well to have the grout wall ten inches thick and above that use the hollow, cement blocks described above. The plate can be held in place by setting 10-inch bolts between every third block, or by using half-inch gas pipe, set so as to extend 1½ inches above the blocks. The plate should be bedded in the cement and the pines will project sufficiently to keep the plate from slipping.

L. R. T.

HYDE PARK, MASS.—Geo. B. Anderson has added a brick chimney to the boiler room of his greenhouses.

A HOLLY WREATH FOR HOLIDAY CIRCULARS AND ADVERTISING : : : :

Plates for printing this fine Holly Wreath in two colors—green leaves and red berries and ribbon—$5.00 per set of two plates.

WHOLESALE GROWERS OF CUT FLOWERS

'Phone Central 3573. **33-37 Randolph St., CHICAGO.**

NEWS NOTES.

SAN FRANCISCO, CAL.—P. C. Meyer & Co. have located at 1856 Ellis street.

NORWOOD STATION.—Dr. James Laughlin, of Chester avenue, is enlarging his conservatories.

CAMBRIDGE, MASS.—Davis the Florist has opened a new place at 510 Massachusetts avenue.

GREENWOOD, MASS.—Richard L. Pittman is enjoying a few weeks vacation in the Granite state.

MILWAUKEE, WIS.—Pohl & Krause have dissolved partnership. Gustave N. Pohl will continue the business.

RUMFORD FALLS, ME.—Chas. Fernald has started a retail store here which will prove a great convenience for many.

CINCINNATI, O.—The service board has awarded a contract for installing new boilers at the Eden park greenhouse at a cost of $890.

WARREN, O.—Mrs. Geo. W. Gaskill has sold her greenhouse to D. P. Nelson who has been foreman for Poehlmann Bros., Chicago.

PIQUA, O.—Herman G. Hershey has opened a floral depot in Main street near Water and has a fine display of both cut flowers and potted plants.

SPRINGFIELD, MO.—The Pioneer Floral Co. has recently been incorporated with a capital stock of $5,000. The stockholders are chiefly members of the Springfield Seed Co. of this city.

SPRINGFIELD, O.—Patrick J. Agnew has moved to Dayton and has become manager of a large greenhouse in Floral avenue there. His greenhouses here have been leased to Wm. Campbell.

ALLIANCE, O.—The Lamborn Floral Co. has completed two new 300-foot houses. J. F. Zimmerman has also been building, having erected an addition, 15x60 feet, for a propagating house.

BRATTLEBORO, VER.—The stakes have been set to mark out the foundation of a new house which C. E. Allen will build just beyond his present residence on Canal street. An addition will be built soon to the east side of the old house.

FARMINGTON, ME.—Lewis W. Ripley of the Falls road has purchased the greenhouse of Z. H. Greenwood and is moving it to his land recently purchased of Chester Greenwood which was a part of the Bradbury estate.

PONTIAC, MICH.—The Pontiac Floral Co. was the lowest bidder for furnishing gravel for the cement tunnel under the Detroit river by 2½ cents per yard. The tunnel will require between 300,000 and 400,000 yards of gravel.

LAPEER, MICH.—Harlow P. Davock, referee in bankruptcy, appointed Francis McElroy trustee and Robert Jardine and two other citizens appraisers in the bankruptcy of W. H. Watson, proprietor of the W. H. Watson, Son & Co., who is said to owe $20,000.

ALBANY, N, Y.—John Berberick, the south end florist, has built a new addition and greenhouse to his store and installed an electric plant which makes his establishment one of the most up-to-date. He has a fine stock of ferns and palms growing for the holiday trade.

HAMILTON, ONT.—F. H. Lamb, assignee for the Webster Floral Co., has disposed of the stock-in-trade to a new company, composed of several local merchants, formed to carry on the business on a more extensive scale both wholesale and retail.

CAMBRIDGE, MASS.—Macklin Bros. have reopened their store at 1800 Massachusetts avenue, which was closed early in July, for the summer. In the interim, the business has all been carried on from the conservatories, corner of Oxford and Crescent streets.

BALTIMORE, MD.—The annual meeting and exhibit of the Maryland State Horticultural Society will take place at the Fifth Regiment armory on December 5 and 6. Attractive prizes have been offered and all fruit, flowers and vegetable growers in the State have been urged to make exhibits.

OAKLAND, CAL.—The weather here is fine as midsummer at present and the greenhouse and outdoor chrysanthemums are just coming in and are selling well at very fair prices. Violets have been in the market for about a month and are selling very well. Business in general is very good, but as a great many of our florists left after the earthquake almost all the stores are very short of competent help. The outlook for this winter seems to be very bright.

MARKET QUIET.

Business last week was quite brisk, but after a fairly busy Monday the market became quiet. The opening of the winter season in society circles, earlier than usual this year, and the October weddings, gave some zest to local trade. Still the main reliance was on the shipping orders. Roses, especially American Beauty, have been numerous, with a fair demand. Bride, Bridesmaid and Killarney were also seen in sufficient quantities. Carnations are somewhat numerous this week, although prices are still holding up well. There are chrysanthemums of all colors everywhere, and what will become of all of them if the supply keeps up may prove something of a problem. The demand, however, is active. Violets which had been scarce suddenly became almost a glut on Saturday and this condition was but little relieved early this present week. Some very fine Cattleya labiata is seen on the market. Still orchids and lilies are all too scarce. Lily of the valley is coming in more freely, but it is also a rarer article than many wholesalers like to see it. Stock of all sorts is in excellent condition, although carnations will improve with the season and roses will, after an interval, have a better length of stem.

NOTES.

There has been a large advance sale of tickets to the first annual reception of the wholesale florists's employes, to be held Hallowe'en. In fact the financial success of the affair is already assured. There will be flower souvenirs for the ladies and a "rattling" good time for all.

Fritz Bahr was showing some blooms of his fine new white seedling carnation in the wholesale houses October 23. It is a seedling of Prosperity with large blooms of high grade. The J. D. Thompson Carnation Co. is growing it.

A. Malchow, for four years with the Geo. Wittbold Co., has leased the greenhouses formerly conducted by the late Frank J. Neiglick at 2102 N. Clark street. He is about to build a store front for retail trade.

M. V. Garnsey reports an excellent demand for the Japana flower vase and expects to place a new sectional design of greatly increased utility the latter part of this month.

Leopold Koropp, George J. Meier, and Albert E. Wilson have incorporated as florists with capital of $20,000, and were licensed by the secretary of state October 13.

Chas. W. McKellar has just received a fine lot of Cattleya labiata. He is also exhibiting with pardonable pride some blooms of Dendrobium formosum.

The flower show posters and postal cards are out. The latter may be had of E. F. Winterson, 49 Wabash avenue, price $1.50 per 100, $7 per 500, $10 per 1000.

The revised premium list of the Horticultural Society has now been mailed to all applicants. The prizes are very liberal and should bring out a fine display.

John Burton, Philadelphia, Pa., Prof. Cowell, Buffalo, N. Y., and John T. Temple, Davenport, Ia., will officiate as judges at the flower show.

TRADE MORE ACTIVE.

There is quite a change for the better in the volume of business, although chrysanthemums are coming in lively, there being quantities of Polly Rose, Glory of the Pacific, Monrovia, Willowbrook and other sorts, the market seems to take them all without detriment to the sale of roses and carnations. Weddings and debutante teas are using quantities of the best flowers. Orchids are in good demand and a choice assortment is generally to be found in stock with the principal commission houses. American Beauty roses are rapidly getting into winter form, some very choice flowers being seen. Four dollars per dozen is top figure, though some offered at $3 look almost as good. Killarney is still growing in favor and will push Bridesmaid for first place in its class. Kaiserin roses are so plentiful that they take the place of white carnations, which are scarce, in fact all colors are hard to get and buyers have to be on the spot when boxes are opened to make sure. Three dollars is the price for anything worth while and $4 is the price for the best white and Enchantress. Chrysanthemums are now quite a factor. Mme. C. Touset, Halliday and Marie Liger are the latest fancies and the best have brought $5 per dozen. Polly Rose, Glory of the Pacific and other medium kinds sell for $10 to $16 per 100. The pot plants are late and it will be next week before any good ones are seen. Double violets are getting better, some fairly good ones being seen, all local stock; $1 the price. Commission houses all report good demand from out of town customers and all are satisfied that this will eclipse all former seasons in the amount of trade.

NOTES.

W. J. Baker, whose shipping business is rapidly increasing, is much interested in a telegraphic code especially adapted to the needs of the commission business. He thinks that one could be devised that would be a great help to the trade and that if the national society would work out such a system it would be generally adopted and become a great money saver to all concerned.

Arthur H. Lauser of Wayne, Pa., is one of the progressive kind. Not having enough ground at his present location he has purchased a 54-acre farm at Valley Forge adjoining the historic park, where he intends to go into the growing of fancy nursery stock. He will also remove the present greenhouses to the new location as soon as practical.

The quality of shipment of American Beauty roses from the Burton establishment at Wyndmoor to the Leo Niessen Co. last Monday afternoon was extra fine, the stock certainly graded high. They certainly know how at Wyndmoor.

The S. S. Pennock-Meehan Co. is handling quantities of orchids. Two hundred cattleyas in small lots in one day shows how the demand is growing.

Wm. McKissick is receiving something choice in chrysanthemums. Carnations are also seen in quantity here, although so scarce generally.

K.

Boston.

TRADE GRADUALLY IMPROVING.

With an even swing the trend of which is toward a successful and profitable season, the general business conditions are gradually improving. Market conditions, the opposite of last week, now confront the trade and the consequences are that there is a considerably over-supplied market. With the continued good weather the change was merely a question of time and as usual struck the market suddenly. Stock that last week was easily salable at maximum prices dropped about half, and even then a surplus was visible. This surplus was composed chiefly of chrysanthemums, roses and carnations, with a minor proportion of other flowers. American Beauty is quite plentiful especially the medium grades which give superior satisfaction over the ordinary extremely large stemmed roses. So far this season Richmond is preferable to Liberty, but with the latter up in its regular good standard, the inclination would point strongly in their favor. The carnation market is still far from what it should be. There is an abundance of inferior stock of numerous varieties but first-class carnations have yet to appear. Fair Maid still maintains its position as the premier carnation for summer and fall.

NOTES.

At the greenhouses of Sydney Hoffman at Mt. Auburn, a beautiful display of cyclamen plants in flower may be seen. Special attention has been bestowed on these plants with signal success, as all agree who have seen them. The stock is composed of many varieties in pots of varied size and sell quickly.

Extensive alterations are being pushed as rapidly as possible at 15 Province street to make room for Henry M. Robinson who expects to take possession this week. Refrigerating facilities are being erected and when completed the entire establishment will be admirably adapted for the business.

Barnard McGinty, the popular salesman of the Music Hall market, is the proud possessor of twin babies, born October 16. Barney has been overwhelmed with congratulations and the cigar industry has received a tremendous boom as a consequence.

Among the attractive novelties now displayed are noticed a strain of white dahlias which are inside grown by W. C. Ward, of Milton. They are as fine as ever seen here and rather unusual for the seanson.

T. J. Butterworth, Framingham, has begun early on his crop of lily of the valley which he is at present sending to market. This year it is a grade better than usual and the quantity is increased.

John Strieford, Weymouth, ranks with the premier chrysanthemum growers of the season. His latest crop includes the excellent varieties of Kate Broomhead and Columbia.

Harry Kelly, for a number of years with J. Newman & Sons, has embarked in business of his own accord, establishing himself in Barristers' hall, Pemberton square.

B.

Louisville.

BUSINESS VERY GOOD.

Business the past week, with the exception of one or two days, continued very good, and the supply of stock was satisfactory with the exception of carnations, which were bringing good prices, and were hard to get even at that. The quality was unusually good. Roses are very good in quality finding a satisfactory demand, and the supply is up to expectations, with the exception of American Beauty. Chrysanthemums are with us in great quantities, and are filling a long felt want. The quality and supply are very good, with the exception of pink, which are a little scarce. The demand has opened very satisfactorily. Lily of the valley is in great demand, with the supply short, and the quality excellent. Violets are being received in small quantities of fair quality, and find a ready demand. Lilies are in fair supply, and find a good demand, with the quality excellent. Green goods are in good supply and are finding a ready demand.

The regular monthly meeting of the Kentucky Society of Florists will be held at Fred L. Schulz's wholesale house, 310 Sixth street, November 6.

F. L. S.

BERWICK, PA.—D. W. Davis is going ahead. Three new houses this year and a rose house promised for next. Vegetables as well as a 5,000 batch of carnations help to occupy this grower's attention.

MARKET OVER SUPPLIED.

Nearly six days of dull and stormy weather have had a deleterious effect upon the wholesale flower market and in retail circles business has been anything but what it should be for the time of year. A steady influx of chrysanthemums in all grades naturally affects the ordinary business in staple lines, but with the weather dominating the quality of regular products the handicap is increased to the point of severity. Roses suffer most, arrivals being in over supply and poor in quality. Mildew is very apparent in the bulk of arrivals, and stock must be good indeed to bring maximum quotations. The glut, prophesied to occur after the middle of October, very nearly materialized last Saturday seeing roses clean out at sacrifice figures. Best American Beauty is not quite so plentiful, but prices are not advanced on that account. Bride and Bridesmaid roses move slowly except in the better grades, the former doing the best owing to the supply being much shorter. Carnations, which have done pretty well for quite a long time, are now dragging and values trend downward. Arrivals of chrysanthemums are quite heavy, and some of the medium rare varieties are making an appearance. Prices have run down since last week and maximum figures cover only the best of stock. Sunshine, a favorite yellow variety in this section, is coming in, but does not seem to bring more than $1.50 per dozen blooms. Early varieties still form the bulk of shipments, and quality as a rule is excellent. Lily of the valley continues scarce, although it appears to satisfy the demand as a necessity. Violets are increasing in supply, and the quality of the up-river arrivals shows a marked improvement. Prices, too, are a trifle better.

NOTES.

The competition among retail florists in this city for hotel patronage is exceedingly keen this season, and some of the bids made by florists of standing are hardly in accord with the dignity of the craft. A leading house of many years standing recently made proposals to the managers of certain of the bon ton hotels to look after their tables on a ridiculously low contract basis. It was suggested that ferns were more suitable than flowers for table decorations inasmuch as they do not obstruct the view of diners across the table; and in this connection the offer was made to supply jardinieres, ornamental cachepots and pedestals, and to fill them with ferns and keep them replenished at the rate of 2½ cents per table per day where other plants were supplied on contract, and 3 cents where no other contract existed. Such business as this tends to demoralize the trade.

Myer, the Fifty-eighth street and Madison avenue florist, furnished several large floral pieces for the funeral of Isaac Blumenthal, president of the United Dressed Beef Co. Among them were a standing wreath seven feet high of Uncle John roses for J. Ogden Armour of Chicago; a wreath of Richmond roses with a cluster of lily of the valley for Arthur Swift of Chicago; a standing wreath of Bride roses and cattleyas with cattleya streamers for the president of the New York Produce Exchange; a cluster of cycas leaves with cattleyas and lily of the valley, the latter running out to the end of the leaves, and an immense bunch of American Beauty roses for Isaac Seligman; and a large wreath of galax with cluster of American Beauty roses for Nelson Morris of Chicago.

A very prominent florist's store on a fashionable part of Fifth avenue last week displayed a large bowl of fine Killarney roses, a show card attached bearing the legend "Roses, $1 per dozen." This is something of an innovation for Fifth avenue.

The New York Cut Flower Exchange has recently installed a large notice board at the entrance to its quarters on which the rules of the floor are emblazoned in gilt letters large enough for the most short sighted to read.

Siebrecht & Son are sending in quantities of cattleyas from their New Rochelle establishment. The quality is very high, and some large shipments are being made to out of town florists.

John Young is handling large quantities of chrysanthemums, and some extra fine stock is to be seen in his store early in the day. Besides cut flowers he shows some good potted plants.

A. M. Henshaw the Twenty-eighth street wholesaler is receiving daily shipments of tuberoses. They are of course inside grown and whiter than outside stock.

Julius Roehrs, of Rutherford, N. J., is all smiles these days, and why should he not be? It is not everyone who can rise to the dignity of "grandpa."

Peter Wagner, of Flatbush, has just finished the rebuilding of one of his 10 houses, and the whole of the houses are mainly stocked with Scottii and Boston ferns.

Geo. Cotsonas & Co. now have the whole of their store to themselves, and it is none too big for their rapidly growing business.

Charles Weber, of Lynbrook, is sending in some especially fine Monrovia chrysanthemums to Alex J. Guttman.

The extension of Charles Thorley's Broadway store is about completed, and his quarters are now quite commodious.

Philip F. Kessler is receiving some of the medium late chrysanthemums, mostly Sunshine, the popular yellow.

Providence, R. I.

At the last monthly meeting of the Florists' Club there was not lacking enthusiasm and interest, for we had the pleasure of listening to Professors Wheeler and Steen of the Kingston college of agriculture. They touched upon the changing of greenhouse soils, the vast amount of labor which is involved in the hot summer weather, and the opinion was ventured that the various tests and experiments that are now in progress may yield a solution of this troublesome problem, and make it so that the greenhouse soils need not be changed but once in two or three years, chiefly by the renewal of chemical constituents at small expense. It is seldom that the club members have showered such a volley of questions at our lecturers as on this occasion, showing the deep interest in the subject.

Various insect pests were discussed, mostly the San Jose scale and the most up-to-date methods of spraying. Another subject was house fumigation by hydrocyanic-acid gas. It was stated that the method has a considerable element of danger to the novice, but is very thorough and in greenhouse work steadily growing in favor.

The meeting was reluctantly adjourned at a late hour, and the members were then invited to a pie and coffee supper at a nearby cafe where the discussion was reopened and continued until midnight. The next meeting will be held at 84 Westminster street, November 19, and a banner attendance is expected to hear an open discussion on chrysanthemums.

M.

Newport, R. I.

Chrysanthemums have made their appearance and are selling fairly well. The dahlias are still blooming, and seem to affect the sale of greenhouse flowers. Outside of funeral work there is not much going on.

Gibson Bros. decorated the house and temporary tents at the McLeod-Chase wedding with palms, hydrangeas, vines, etc. The bride's shower bouquet was of lily of the valley and the bridesmaids' bouquets were of pink carnations. The breakfast table was decorated with white chrysanthemums.

SWEET CORN has ripened well.

ALL fall bulbs are selling fast.

AN important article on lily of the valley will be found elsewhere in this issue.

CATALOGUE men are looking for a line of information to fix retail onion seed prices.

WEATHER continues good for picking bouquet green but reports are very meager as yet.

A RECENT bulletin of the Department of Agriculture is entitled "Seed of Red Clover and Its Impurities."

BATTLE CREEK, MICH.—Edward P. Gross who has purchased the seed business of F. G. Sherwin has, we understand, considerable experience and should do well.

BAY CITY, MICH. — The Bromfield-Colvin-Ries Co. report an unusually good crop of peas and beans, especially the latter. A large force is now busy with the cleaning.

VISITED CHICAGO: F. J. Ries, of the Bromfield & Colvin-Ries Co., Bay City, Mich.; R. R. Rickett, of the Springfield Seed Co., Springfield, Mo.; Frank T. Emerson, enroute to Pass Christian, Miss., on a pleasure trip.

SEARS, ROEBUCK & Co., Chicago, have finally announced the fact that they are no longer in the seed business and state that lack of room is the reason for giving up this department. The big mail order house expects to take up this department again at some later date.

IF the government's intentions with regard to free seed distribution are honest, why does it not send them direct to bonafide applicants, and not through the congressmen? Postmasters and post offices throughout the country could be employed as advertising and distributing agencies.

FIVE THOUSAND bushels of onion sets and a two story frame building, owned by C. J. Hess, One Hundred and Twenty-ninth and Butler streets, were destroyed October 17 by a fire which is believed to have been started by spontaneous combustion. The loss is $10,000. The building was formerly used as a factory.

MADISON, WIS.—A variety of Indian corn yielding 150 bushels to the acre should be a useful one, and this Professor Moore, of Wisconsin University, claims to have obtained. This is more than twice the average yield and Professor Moore believes his new kind to be adaptable to all states in the same latitude as Wisconsin.

FLORAL PARK, N. Y.—Some time ago John Lewis Childs bought 365 acres of fine rolling land on the Fort Jefferson line of the Long Island railroad between St. James and Stony Brook, where he expected to start a large seed and bulb farm similar to that of this place and to build up a village with seed house, hotel, private dwellings, postoffice, etc. Mr. Childs is now considering dropping the whole project and offering the land for sale for the reason that the Long Island Railroad Co., which is practically the Pennsylvania railroad, has declined to establish a depot at the location of the proposed new bulb farm. The reported price paid for the farm is from $200 to $250 per acre.

Braslan's Opportunity.

Mrs. Whoopler: You tell me, Herr Vogleschnitzel, that my daughter can never become a singer! Is there no hope for her?

Herr Vogleschnitzel: Vell, matam, you mighdt put her on a diet of canary seed alretty, undt see vot dot vill do mit her.—London Tit-Bits.

The Nursery Trade

American Association of Nurserymen.
Orlando Harrison, Berlin, Md., President; J. W Hill, Des Moines, Ia., Vice-President; George C. Seager, Rochester N. Y., Sec'y.
Thirty-second annual convention, Detroit, Mich., June, 1907.

POCATELLO, IDAHO.—A. E. Oman who has been in southern Idaho since August 15 contemplates starting a forest nursery here at once.

A RECENT bulletin of the Department of Agriculture is entitled "The Brown Tail Moth and How to Control It," by Dr. L. O. Howard, chief entomologist of the department.

The Fumigation of Nursery Stock.

The Maryland Agriculutral Experiment Station at College Park, Prince George's county, according to its nineteenth annual report, has demonstrated, first, that no injury results from fumigating dormant apple and peach nursery stock, two years of age or over, with a strength of cyanide and time of exposure considerably above that ordinarily recommended, when due care is exercised in the operation. Second, experiments have demonstrated that there is no danger of injury to nursery stock by proper fumigation at the nursery. Third, apparently fumigation of nursery trees in the fall with excessive strengths is more likely to show injury than in the spring. Fourth, there is a difference in the resisting power of apple and peach trees, the latter being less injured. Further, some varieties of apple included in the experiment, such as Winesap, Ben Davis, Maiden Blush and York Imperial, fumigated in the fall, apparently show less resistance to the effects of the gas than others. The gas used in the experiments was made by combining potassium cyanide, (98-99 per cent.), sulphuric acid (specific gravity 1.83), and water, according to the formula: one ounce of cyanide, two fluid ounces of sulphuric acid, and four fluid ounces of water to every 100 cubic feet of air space. The stock to be fumigated was exposed for 30 to 40 minutes in this gas.

Syracuse, N. Y.

Stock is arriving in good shape and is moving off nicely. The weather has continueed to be delightful, giving florists a chance to complete all of their outdoor work. The stock in the greenhouses is looking exceptionally well and a prosperous fall and winter season is assured.

P. R. Quinlan & Co. have just received a big importation of azaleas and rhododendrons from Holland and are getting in their other fall bulbs. They has just installed a 120 H. P. boiler at their Valley range. Their chrysanthemums never looked better and readily sell for $2 and upward. They expect to be picking violets within the next week or 10 days. Especially fine are their Killarney, Wellesley, Chatenay and Perle roses, which are selling from $1 to $2. Carnations bring from 50 cents to $1.

This city will in the spring begin upon a permanent plan of park improvements. The whole system will be in charge of the park commission of which James W. Pennock is chairman.

Henry Morris is making a specialty of gardenias and is the only grower in the city who attempts to produce this beautiful but difficult flower.

The Wheadons report trade to be excellent. They are displaying some fine chrysanthemums in their windows.

L. E. Marquisee's Enchantress and Lady Bountiful carnations are looking especially fine.

A. J. B.

Dubuque, Ia.

The fourth annual meeting of the Society of Iowa Florists came to a close October 19 after the best attended and most successful convention held by the society. The programme was carried out to the letter and was a very interesting and instructive one. The local florists did themselves proud in the way of entertaining the visitors. The annual meeting of the society will be held in Des Moines next year in September.

The following subjects were discussed: "Greenhouse Heating and Care of Boilers," by John T. Temple and P. S. Larson; "Greenhouse Gutters and Posts," by Judson Kramer and M. K. Zimmer; "Best Special Quick Crop for Cut Flowers," by W. E. Kemble and E. C. Keck; "Best Shrubs to Force for Retail Trade," by J. F. Wilcox and Wm. Trillow; "Best Shrubs for Park and Lawn," by Peter Lambert and Herman Martin.

The following officers were elected for the ensuing year: Theo. L. Ewoldt, Davenport, president; Judson Kramer, Cedar Rapids, vice president; Wm. Harkett, Dubuque, treasurer; W. Greene, Des Moines, secretary; J. F. Wilcox, Council Bluffs, P. S. Larson, Fort Dodge, W. E. Kemble, Oskaloosa, directors.

TED.

Glen Cove, N. Y.

The Nassau County Horticultural Society held its regular monthly meeting at the usual place October 10. The attendance was unusually large. President Harrison occupied the chair. Six new members were elected to active membership and one nominated to the same. The show room looked a blaze of color. In the point class H. F. Myers scored 93⅔ with carnations and fruits; J. F. Johnston 86⅔ with vase of Countess of Londsale dahlias; F. Meuse 81⅔ for bunch of single violets; S. Trepess 81⅓ for vase of single dahlias. H. F. Myers was awarded the box of cigars for the best collection of outdoor flowers. The fountain pen prize for the best collection of six varieties of outdoor flowers was won by S. Trepess. Other members showing in this class were H. Matz and A. Janecke.

This is the last meeting before the society's annual show to be held October 31 and November 1, so that the chief business was the preparation for the show. Special prizes are offered by Stumpp & Walter Co., $10 for 100 single and 100 double violets; Rickards Bros., $10 for table, 3x12 feet, of foliage plants, pots not to exceed six inches; society's prize $15 for best collection of carnations of commercial members. Certificates of merit will be awarded for meritorious seedlings. Mrs. Paul Dana gives books for best 10 chrysanthemums, distinct varieties.

JOHN F. JOHNSTON.

Seattle Wash.

John C. Olmsted, who has been chosen by the authorities to lay out the grounds of the Alaska-Yukon-Pacific exposition, has arrived, terms having been arranged by telegraph to save time. While nearly three years remain before the opening of the exposition, it is felt that all of this time will be needed to perfect a suitably ambitious scheme of landscape work as a setting for the show.

The famous landscape architect is not new to Seattle, having laid out a system of parks and drives less than three years ago. Various other systems of parks have been laid out by him in other cities east and west. So there is every probability that whatever else goes wrong the landscape gardening part of the exposition will be a credit to the city and the authorities.

Indianapolis.

MARKET VARIABLE.

Business, which was all one could wish for at the beginning of the week, dwindled down nearly to a standstill by Friday and Saturday. Chrysanthemums, especially Polly Rose and Glory of the Pacific, are very plentiful and, unless something is doing pretty soon, next week the queen of fall flowers will go a begging. Carnations are more plentiful but good ones are still better property than anything else in the flower line.

NOTES.

B. Hitz is erecting 11 houses, 16x125 feet, on the corner of Roosevelt avenue and Dearborn street for the forcing of lettuce and other vegetables. The houses will have cement walls, iron posts, cypress gutters and sash bars; there are no partitions between the houses and each contains one cement-lined bed 14 feet wide and one 18-inch walk. Charles Eland, formerly with Bertermann's, is working for Mr. Hitz.

R. F. Harritt, landscape architect, has several large contracts for this fall and next spring. Mr. Harritt recently bought 15 acres near stop 4 on the Rushville line. Willowmere will be the name of the place and it will be used for display and trial grounds mainly, the owner also will erect a handsome residence thereon.

I. A. E. Haugh, of Anderson, is home from an inspection trip over this part of the state. The carnations at Bertermann's Cumberland branch were among the best he has seen.

John Grande made a good thing out of his cosmos, by cutting the evening before the frost and selling all he had at double price next morning.

The Saturday News brought a sketch, profusely illustrated of the life of "Tomy" Hart, the Nestor among active florists in this state.

Huntington & Page, seedsmen, are moving to 210 N. Deleware street, which is an excellent location for their line of business.

Recent visitors: I. A. E. Haugh, Miss Emilie Dorner, J. D. Carmody and John Evans. J.

CHEYENNE, WYO.—The Union Pacific has decided to erect a large greenhouse here instead of at North Platte as originally intended. This is to supply the dining and other cars, also the buildings and depots with plants and cut flowers.

POUGHKEEPSIE, N. Y.—A serious fire, thought by Mr. McGuire to be of incendiary origin, broke out in the tank house at his place on East Forbus street on October 15. About $300 damage was done and unfortunately Mr. McGuire carried no insurance.

ALL Nurserymen, Seedsmen and Florists wishing to do business with Europe should send for the

"Horticultural Advertiser"

This is the British Trade Paper, being read weekly by all the Horticultural traders; it is also taken by over 1000 of the best continental houses. Annual subscription to cover cost of postage 75c; Money orders payable at Lowdham, Notts.

Address **Editors of "H. A."**

Chilwell Nurseries, LOWDHAM, Notts, England

Los Angeles, Cal.

An addition has been made to the nursery and florist enterprises of southern California in the Rising & Dunscomb Co., recently incorporated to absorb the businesses of the Ocean Park Floral Co., the Hollywood Rose Co. and West Park Nursery. The incorporators are: H. G. Rising, president; G. T. Dunscomb, vice-president; J. L. Dunscomb, secretary and treasurer. The firm has three establishments beside their wholesale flower distributing depot in this city, the largest being some 20 acres at Ocean Park, mostly devoted to the growing of carnations for the wholesale flower market, with large houses for the propagation of new stock for their own use and wholesale distribution. Corbett, Enchantress, Lord, Choate, Los Angeles and Roosevelt are the leading varieties grown. Their nursery is at Hollywood and is devoted to the growing of roses, trees and palms, while in this city they have a greenhouse for the propagation of ferns and bedding stock. The company is doing a general wholesale and retail business in all classes of nursery and floral stocks.

Bucyrus, O.

F. J. Norton had a rude awakening on October 15 by the roar of a fire spreading from an adjacent barn to his greenhouse, and owing to a late call to the fire department between $900 and $1,000 worth of damage was done before the fire was under control. Only his own prompt measures with the hose prevented far more serious consequences.

The south front of the greenhouse was badly burnt and the glass shattered, the potting shed being also partially destroyed. Besides the growing stock there were a number of stored palms and other plants that were killed and the roses on the benches in another house were badly scorched. It is satisfactory to note that the damage is well covered by insurance.

Meredith, Mass.

The twelfth annual exhibit of the State Horticultural Society opened in the town hall October 17. The back of the hall was decorated with masses of mountain laurel and the walls were hung with evergreens. Mrs. Ellen Vickery had charge of this part of the work. W. D. Baker of Quincy was present and was kept busy transacting the business of the society and naming fruits and other products brought in for that purpose. Among the speakers were Prof. H. F. Hall, of Durham college; E. A. Rogers, of Brunswick, Me., who spoke on "How to Profitably Grow Potatoes;" Professors J. W. Sanborn, of Gilmanton, A. A. Hixon, of Worcester, and Munson, of the University of Maine. The apple exhibit was especially fine, both as regards quantity and variety.

CHARLESTON, S. C.—Over a score of entries are in for the floral parade which is to be held November 7 instead of 9 as arranged.

BOSTON, MASS.—From fire engine to florist's van went the famous horses recently engaged in "Fighting the Flames," and Henry Penn is to be congratulated on the acquisition of such a splendid team.

GERANIUMS 2½in. Pots, Ready for Immediate Delivery

Alliance. Lemoine 1905. Hybrid, Ivy and Zonal, semi-double, lilac white, upper petals feathered and blotched crimson maroon, 25c each; $2.00 per doz.

H. R. CARLTON, Willoughby, O.

INTRODUCER and ORIGINATOR.

MABELLE, New Pink Carnation for 1907.

Color—A peculiar shade of lovely pink, with a faint yellowish cast; several shades lighter than the Lawson. Unlike most pinks, the brightest sun does not injure the color. Size—3 to 4 inches in diameter when established. Odor—Pleasing, but not strong. Stems—Invariably strong, but always graceful, ranging from 12 to 30 inches during the season. Habit, etc.—A very quick, active grower, making specimen plants in a short time, even from late cuttings. On account of its rapid growth, requires supporting very soon after benching. Gets away rapidly, blooms early and gives long stems right from the start. Productiveness—Prodigious is the best word we know of to use here. It is the most incessant bloomer, early and late, we have ever grown. Stock limited. Delivery January 5 to 10 and later. Price, $12.00 per 100, $100.00 per 1000.

FUMIGATION METHODS

By PROF. W. G. JOHNSON

Formerly State Entomologist of Maryland

A Practical Treatise and timely work on cheap and effective means of destroying insect pests and other vermin in various places. This work is the outcome of practical tests made by the author, together with the experiences of others, and is one of the most important books published this season and is much needed at this time. It will be of particular interest to

FRUIT GROWERS AND NURSERYMEN owing to the widespread prevalence of the notorious San Jose scale. Hydrocyanic acid gas is the only practical remedy for the destruction of this pest and is being used more extensively than ever before by nurserymen and fruit growers. The perfection of the apparatus for fumigating young orchard trees is outlined in this work. The methods can be easily applied in orchards and nurseries for many dangerous pests at very small cost. The writer is considered the best authority on this subject in this country and has left nothing undone to make this the most complete work of the kind ever published.

GARDENERS AND FLORISTS have found that vegetables and flowers cannot be grown under glass without frequent fumigation for the destruction of insect pests. Hydrocyanic acid gas has solved this problem. The methods of procedure are fully described and every detail is given for generating and applying the gas.

MILLERS AND GRAIN DEALERS have been looking forward to the publication of this work, as hydrocyanic acid gas has been found one of the most important materials for clearing mills and warehouses of insects. The subject of carbon bisulphide for fumigating mills and elevators containing grain in storage is also thoroughly considered. To this trade the work is indispensable and transportation companies have found it of great value for the fumigation of cars, ships and other inclosures infested with vermin.

FARMERS OF THE COUNTRY have here fully described a simple, easy remedy for gophers, prairie dogs, squirrels and other animals in the ground, and rats and mice in any inclosure.

COLLEGE AND STATION WORKERS will find it an up-to-date reference work on this subject. It is complete in every respect and is the only work of the kind ever published. It is written in a popular non-technical style, profusely illustrated, handsomely bound, covering 250 pages, price, postpaid, $1.00.

AMERICAN FLORIST COMPANY,

BOOKS FOR FLORISTS.

The time is coming along when these are needed and opportunity at hand for reading them. Every one of the following should be in your library.

Send prices quoted and we send the books.

PRACTICAL FLORICULTURE (Peter Henderson).—A guide to the successful propagation and cultivation of florists' plants. Illustrated. 325 pages. $1.50.

GREENHOUSE CONSTRUCTION (Taft).—It tells the whole story about how to build and heat a greenhouse, be it large or small, and that, too, in a plain, easily understood, practical way. It has 118 illustrations. $1.50.

THE GOLDFISH (Mulertt).—A number of florists find goldfish an attractive and paying addition to their business. The best advice is given in every department of the subject, including construction and care of the parlor aquarium, in this volume of 160 pages, handsomely illustrated. $2.00.

LANDSCAPE GARDENING (Maynard).—The development of landscape art within the past few years compels the wide awake florist to keep posted on this branch of the business. The many suggestions of this book will be found helpful every business day. It contains 338 pages, 165 illustrations. $1.50.

MUSHROOMS: HOW TO GROW THEM (Falconer).—The only American book on the subject, 29 illustrations. Written by a practical mushroom grower, who tells the whole story so tersely and plainly that a child can understand it. This book has increased mushroom growing in this country three fold in three years. $1.50.

THE ROSE.—Its cultivation, varieties, etc. (H. B. Ellwanger).—A complete guide of the cultivation of the rose, together with the classification of all the leading varieties. $1.25.

ASPARAGUS (Hexamer).—A practical treatise on the planting, cultivation, harvesting and preserving of asparagus, with notes on its history and botany. This book is mainly devoted to the culinary kind of asparagus, but there is also some reference to the ornamental species. 50 cents.

CABBAGES, CAULIFLOWER AND ALLIED VEGETABLES (Allen).—The requirements of the important vegetables of the cabbage tribe are given here very fully. The book also contains interesting chapters on seed raising, insects, pests and fungus diseases common to these plants. 50 cents.

LANDSCAPE GARDENING (Waugh).—This is a very useful little book on the art of landscape gardening. It will be found exceptionally valuable to amateurs, as it covers in detail the numerous problems that come to the owners of small gardens. It is freely illustrated and the pictures have been chosen with a view to informing the reader rather than decorating the book. 50 cents.

THE PRINCIPLES OF FRUIT GROWING (Bailey).—The entire subject of fruit culture is treated very thoroughly in this illustrated volume of 516 pages. It is a book that no up-to-date fruit grower can afford to be without. $1.25.

SUCCESS IN MARKET GARDENING (Rawson).—Written by one of the most prominent and successful market gardeners in the country, and who has the large t glasshouses for forcing vegetables for market in America. Outdoor and indoor crops are treated. Illustrated, $1.00.

CELERY CULTURE (Vaughan).—The important subject of celery culture is thoroughly covered in this illustrated pamphlet of 59 pages. The florist raising young plants of celery and those who grow the plants to maturity will alike find it valuable. 50 cents.

HOW TO GROW CUT FLOWERS (Hunt).—The only book on the subject. It is a thoroughly reliable work by an eminently successful, practical florist. Illustrated. $2.00.

THE HORTICULTURISTS' RULE-BOOK (L. H. Bailey).—Contains information valuable to all those engaged in any branch of horticulture. Illustrated. 312 pages. 75 cents.

GINSENG (Kains).—At the present time, when so much interest is taken in ginseng, it will be interesting to peruse this volume, which tells all about the plant in a way that all may understand. The 144 pages are freely illustrated. 50 cents.

Use Wilson's Plant Oil

NO ALKALI. NOTHING DELETERIOUS. DRIES AT ONCE.

RUTHERFORD, N. J., June 28, 1906.

We have thoroughly tried your Plant Oil with very striking results. We may say this is the first insecticide we have tried on our palms that will remove the scale with the first application. We would like to say this is one of the few things that the florists cannot afford to be without, especially those who are growing palms and other decorative plants After one application of your oil the plants take on an entirely new appearance. We would be pleased to have prospective buyers visit our nurseries and inspect the palms on which we have used your oil. BOBBINK & ATKINS.

NEW YORK BOTANICAL GARDEN, Bronx Park, New York City, September 5, 1906.

MR. ANDREW WILSON:—Having used your insecticide here, I can testify to its efficiency in destroying scale and other insects infesting plants.

Yours very truly, GEO. A. SKENE.

FOR FLORISTS AND HOUSEHOLDERS

Put up in cans and bottles. Size: 4 oz. to 1 gal. Send for circular, testimonials and trade prices.

FLORISTS' PLANT NOTES

For Early November.

PALMS.—The transplanting of palms, as far as those of the larger sizes are concerned, if not attended to before, should now be postponed until early spring, when the roots will take hold more readily and a souring of the new soil need not be feared. For palms of an advanced growth and all those of salable size it is well to allow the temperature now to fall to a point that will reduce growth to a minimum and afford the plants somewhat of a rest until the warmer days of spring call forth renewed activity. This hardening off and holding back prevents sappy growth and the forming of an unevenly balanced crown and imparts substance and durability to the existing foliage. Young stock, on the other hand, should be encouraged, even at this season, to hold its own in rapid headway of growth. The temperature should, as much as this is possible, be an even 65° night and day, for some varieties a trifle higher rather than lower. When root-bound, transplanting should not be delayed too long—a frequent cause of stunted and yellowish growth. Frequent shifts from size to size are a surer means of growing fine stock than occasional long shifts and the skipping of one or more sizes in the operation. Young palm stock is not overexacting as to bench space and somewhat close quarters, and a little crowding, while the plants are still in 2, 3 or 4-inch pots, will make of them more acceptable stock than giving them full space to spread. Thus some of the best commercial varieties, as arecas, cocos and kentias are quickly grown into fine, stately specimens.

CALLAS.—Where callas are depended upon for an early and abundant crop of flowers for cutting, a gradual increase in the amount of heat and moisture, as afforded up to this time, will now be in order. As the leaves gain in size and the plants begin to throw flowers, so will root growth advance, and the bench soil will soon be filled with the white fleshy fibers, greedily searching for nourishment. It is then time to begin feeding with liquid manure, that from the cow barn being the best for callas. This also is the proper stimulant for potted callas, upholding their vigor and making them bloom more profusely. Very effective in pots is the variety Little Gem, now to be regarded as fixed and distinct, differing greatly in character from those first sent out under that name. This should be more extensively grown.

PANDANUS.—The oldtime screw pine, Pandanus utilis, is but sparingly grown now, hardly ever seen in commercial establishments, though, when well grown, it is still a plant of considerable value for decorative purposes, owing to its queer form of growth, densely set foliage and true tropical character. It is fast being displaced by Pandanus Veitchi, P. Sanderi and some other old and new varieties, most of them displaying a fine variegation in their leaves. These types, indeed, rank foremost among decorative plants. The white and golden variegation so highly prized is most pronounced in young plants, gradually becoming less distinct as the plants grow older. Continuous propagation, therefore, coupled with great care in treatment and a high temperature are necessary to keep abreast of the demand for well colored specimens in the sizes, most called for. To obtain sufficient material for propagation, old plants of an undesirable size or defective in form or coloring are induced to make numerous side growths by cutting away their uppermost tips down to the firm and hardened part of their stems. These side shoots, when of handling size, are detached, placed in the sand or sawdust of a pretty warm propagating bed and potted up when rooted, to be grown on in the warmest part of a hothouse. Now or a little later, when steady fire heat can be depended upon, is the time to propagate plants of this and similar species.

CYCLAMENS.—Essentials in the growing of fine cyclamens are a temperature of 60°, a location near the glass, unobstructed light from now on, ample room between the plants, freedom from in-

sects and a sufficiency in watering and sprinkling as also in fresh air at all times when this can be admitted without causing sudden changes in temperature. Especially do plants now considerably forward in their growth and beginning to cover themselves with buds depend on faithful observance of these points in treatment for perfect final development. Green fly, which often becomes a troublesome nuisance at this time, is held in check by placing a layer of fresh tobacco stems between the pots and by regular fumigation until the flowers open, when this operation must be discontinued, for neither smoke nor water should touch the open flowers of cyclamens. Small stock intended for next season must never suffer for water, air, light or root room. It is now that a timely pricking off into fresh soil often means fine plants a year hence.

BEGONIAS.—Tuberous rooted begonias have had their season. The wintering of the tubers, especially if not dug up in time, dried off and stored in a suitable place, is a rather unreliable way of providing stock for the following year. Better plants for florists' spring trade can be raised from seeds, these to be sown in early February. By May this will be excellent stock, much to be preferred for bedding out to any raised from full sized tubers. They will flower profusely all summer, if sown that early and rapidly grown into a good size for planting out at the proper time. The same advice holds good as regards begonias of the regular bedding varieties, the various types of the semperflorens section. Stock raised from seeds and started early is more satisfactory than that raised from cuttings. Rex and the many varieties of foliage and flowering begonias found among the regular stock of florists' potted plants are greatly benefited by being, to a reasonable degree, kept on the dry side during the months of the declining year. A partial rest for a few months will restore them to their usual vigor.

BEGONIA GLOIRE DE LORRAINE.—This fine variety is just now making its best and most telling growth. It is only now that it shows its true character as the grandest of winter flowering begonias and most serviceable of holiday plants. It now needs plenty of room and light. A dose of mild stimulating matter in liquid form once or twice a week will impart strength to the stems and bright color to the flowers. Overhanging branches should be neatly tied up. Fumigating must cease when the first flowers begin to show color.

FRENCH FORCING BULBS. — Paper White narcissi and Roman hyacinths, planted seven or eight weeks ago and intended for early forcing must now be brought in. The soil in pots and flats should be by this time completely filled with white roots and the top growth beginning to disclose the flower stalks. When in this condition the bulbs are ready for immediate forcing. A warm footing and a temperature of 65° or 70°, combined with ample moisture at the roots and overhead, will bring Roman hyacinths out, ready for cutting, in from three to four weeks. Paper White however, should not be subjected to so severe a course of forcing. Its flowers will be finer and last longer, its stems stronger and the leaves of a brighter green if produced in a comparatively cool house and under the influence of the full light and ample ventilation.

POINSETTIAS.—These rank among the most important plants especially raised for Christmas and they are by no means the least profitable. Their propagation and culture up to November or after they have undergone their last shift does not require a great amount of special care or skill, but after that the grower's best efforts and abilities in the growing of fine plants are called into play. Short jointed, sturdy growth,

The Chicago Flower Show Poster.
Colors: red, black, yellow and green.

perfect foliage all the way down the stems and large bracts of a bright, clear scarlet are looked for in poinsettias as prime attributes. In a warm and well lighted house with plenty of space for each plant, with close attention to watering, sprinkling, cleanliness and feeding, it will not be hard to work up to a faultless finish.

FUCHSIAS.—Varieties of fuchsias that may be depended upon for a good display of flowers during fall and early winter, are few. Where they are in evidence, it will be found that a hot house at this particular time is a more congenial place for them than the ordinary greenhouse. They still need a light shading on sunny days, but unless care is taken in watering at this season, a yellowing and dropping of leaves and buds will be the immediate consequence. Old plants of the summer flowering sorts may now be granted a well earned rest. Any place under some greenhouse bench will do for the present. The wood will thus gain that degree of maturity which is essential for the production of a vigorous new growth later on, depended upon for propagation in early spring and profuse blooms during summer.

ARDISIAS.—All plants raised for their fruit and bright colored berries alone, especially ardisias and the various kinds of Christmas solanums, will lose much in value by being closely packed and suffered to take their chance on a bench crowded with plants of the more hardy common greenhouse stock, as is their usual lot at this time of the year. These berried plants, to be valuable and desirable Christmas stock, need light, room and heat in unstinted measure for the well-being of their lower foliage, which soon drops if deprived of light and air, for the attainment of pleasing form and for the even and perfect coloring of the fruit. There is little use of raising any of these things unless they are done in the best styles and are perfectly formed specimens with an abundance of fruit evenly distributed over the entire plant and well set off by luxurious deep green foliage clothing the plant from base to tip.

HYDRANGEAS. — While a few light frosts will not harm hydrangeas of the hortensis class, even aiding in the ripening of their wood, it must be borne in mind that severe freezing will kill the tender tips of the branches from which next season's bloom must come. Hydrangea Otaksa, H. hortensis, H. Thomas Hogg, etc., should therefore be removed to safe quarters before it is too late to avert damage. A rest for two or three months will make them fit subjects for forcing. Water, while not needed in the usual large quantities at this period of semi-dormancy, should not be entirely withheld, lest a shrinkage in the wood result.

TENDER BULBOUS PLANTS.—Gloxinias, achimenes, amaryllis, fancy leaved caladiums, and similar plants of tender nature flowering during the summer, have now arrived at a stage when thorough ripening off means a good deal in the preservation of the bulbs and corms for the ensuing season. To bring about complete maturity it is best to place the withering plants on the sunniest bench of a warm house, water sparingly and allow all the top growth to die down completely. It is then time to store the dry plants away in a warm place, leaving the bulbs in their pots until early spring, when they are cleaned, repotted in fresh soil and started into new growth.

CAMPANULAS.—All biennial varieties of campanula, of which the well known Canterbury bells are the best, readily yield to forcing under glass, and their flowers are much sought in winter and early spring, always bringing a good price. Clumps, now in the garden, may be lifted and planted in benches cleared of chrysanthemums, or they may be potted up. Under mild forcing, freely watered, they produce long-stemmed, showy spikes of flowers from February until late spring.

E.

DAYTON, O.—H. D. Byers, the well known representative of the Dayton Paper Novelty Co., is suffering with a severe attack of nervous prostration. His doctor says he will not be able to resume business till after January 1.

THE RETAIL TRADE

A Kansas City Show Window.

The accompanying illustration shows a crowd of spectators around the windows of the Wm. L. Rock Co., Kansas City, Mo., October 15. The attraction consisted of a "horse show" window, comprising a miniature show ring. A caller with trumpet in hand, summoning the next entry to the ring; a pony, entering through a large horse shoe composed of yellow chrysanthemums. The colors of the horse show, yellow and black, were carried out with ribbon bows and streamers of those colors.

AT THE STORE OF THE W. L. ROCK CO., KANSAS CITY, MO., HORSE SHOW WEEK.

Florists Store Windows in New York.

With the opening of the busy season for the New York florists the windows of all the prominent flower stores have changed from the series of monotonous green settings which have characterized them throughout the dull season to displays which are handsome, and at times unique. The appearance of the chrysanthemum now-a-days seems to be the signal for the resumption of a system of daily window dressing for an extended period, and the utility of the flower for decorative purposes is exemplified in almost every florists' window in town. What may be termed "open display" is the style of dressing most generally adopted, crowded or massed displays being less noticeable than in previous seasons. Plant groupings are made with great care, and are materially depended upon to make contrasts with the exhibits of cut flowers which are used sparingly but not the less effectively. Various makes and styles in art pottery are included in the displays, and here and there fancy novelties in the way of violet and orchid boxes are introduced to advantage. Crotons are used very largely for window work this season and certain varieties of coleus in warm colors are recognized as both useful and seasonable. Autumn leaves are used everywhere, in some cases rather too lavishly.

The windows of Charles Thorley's Broadway store are carrying handsome displays of long stemmed chrysanthemums in tall jars, flanked with groups of Ciboteum Schiedei, Scottii and Boston ferns, and kentias, which also make a background. The general arrangement is open with plenty of space for a few vases of orchids, lily of the valley and American Beauty roses. The smaller side windows are banked with standard chrysanthemums. The window of the Fifth avenue store shows a massive setting of ciboteums and kentias with Boston ferns suspended. A triangular space in front is covered with black velvet thrown carelessly over blocks of different sizes, to give an irregular surface effect, on which are carelessly disposed some fancy watering pots carrying lose bunches of carnations, roses, and sprays of adiantum.

The Fleischman Floral Co.'s Broadway window is set with two or three large specimens of art vases filled with chrysanthemums, and groups of plants. Open space is liberally allowed, and jars of cattleyas show up well. At the sides are vases of Oncidium varicosum Rogersii, with a few cypripediums. In the foreground are a few imitation footballs which open in halves and serve as violet or orchid boxes. The large all glass window of the Fifth avenue store, which might almost be compared to a glass box, has a semi-circular setting of crotons, coleus, ferns and dracænas, the convex side fronting the avenue. At each end of the group is an elevated jar of chrysanthemums with three jars of roses on lower elevations in between. The center of the semi-circle is occupied by a large bowl of Killarney roses elevated so as to rise above the plants. In the immediate foreground are three vases of roses, and at the rear of the display are suspended ciboteums.

J. H. Small & Son's windows display some fine groupings of Boston, Scottii and Whitmani ferns. Each window shows three groups of different sizes, one of which is circular in shape and centered with a tall antique Greek vase filled with chrysanthemums. Vases of cattleyas, and jars of cosmos are arranged here and there. The general arrangement is very open, and presents something of a garden effect. Autumn leaves are used as a background.

A pedestal showcase outside the store of Wm. H. Brower's Sons on Fifth avenue attracts pedestrians. A tall rock effect is obtained by a column built of boxes and covered with sheet moss, the ledges of which carry tiny Japanese plants in pots.

At Wodley & Smythe's, Fifth avenue, near Forty-second street, the window foreground shows a series of miniature Japanese gardens in porcelain dishes of elliptic shape, and a variety of small Japanese shrubs in porcelain pots. Vacant spots are shown with autumn leaves among which are plants of Adiantum

SHOW HOUSE AT THE GEO. WITTBOLD CO.'S ESTABLISHMENT, CHICAGO.

Farleyense, and sides and background show groupings of ferns, crotons and kentias. The side wall is trellised, the trellis covered with ivy and autumn leaves. Two jars of chrysanthemums are seen in the group forming the background. Boston ferns and ciboteums are suspended from the ceiling.

The window of Chas. O. Dard's store on Madison avenue contains a grouping of tall dracænas, ferns and crotons, with vases of chrysanthemums in the foreground. Autumn leaves are loosely scattered in the front, and pans of four leaved clover are labelled "the new lucky four leaf clover." The three large side windows are massed with plants.

Thos. Young, Jr., makes simple, but very effective, settings in the windows of his Fifth avenue store. Ciboteums and Boston ferns grouped in open style, with plants on tall pedestals, large jars of chrysanthemums, and vases of orchids are seen in one window. The other carries a large group of Pandanus Veitchii and Scottii ferns, with two Japanese gardens of table size and vases of cattleyas in the foreground.

Alex. McConnell at his Fifth avenue store has a window display of fine plants of Adiantum Farleyense with a rear showing of jars of chrysanthemums amid ferns and palms. Among the adiantums is a handsome vase of multiflorum lilies, Ciboteums and Boston ferns are suspended from the ceiling. The side windows are massed with plants.

George M. Stumpp, Fifth avenue and Fifty-eighth street, has rather a novel display. The foreground of his large Fifth avenue window is strewn with washed gravel, on which rests irregular lines of large pebbles or rounding rocks. Creepers and Adiantum Farleyense fill some of the interstices. On each side, and tapering to the rear, groups of the adiantum and Scottii ferns lead to larger groups of Scottii and Boston ferns topped with ciboteums, the middle interval filled with a large plush drapery falling over a block in front on which rests a bamboo basket of heather and dendrobiums. The top of the drapery is tasselled in yellow, and a cluster of oncidium sprays at the left give a handsome effect. The side windows show groupings of plants.

A Visit to Elkins Park, Pa.

A few days ago Paul Huebner, landscape gardener for the Philadelphia and Reading railway, and the writer met by appointment to pay a visit to the well appointed and thoroughly well cared for greenhouse establishment of P. A. B. Widener and when there by accident we met A. E. Wohlert, of Wohlert & Waldburg, landscape architects of Philadelphia and New York, and soon after our arrival came John Thatcher, gardener for Edward Le Boutillier, Wynnewood, Pa., T. Goodier, orchid expert and gardener-in-general to O. G. Roeblin, Trenton, N. J., A. Bond, orchid specialist for Mrs. J. B. Wilson, Philadelphia, Samuel Batchelor, gardener to Clement E. Newbold, Jenkintown, Pa., Edward A. Stroud, carnationist, who has a fine up-to-date range of glass devoted almost exclusively to the growing of carnations, and who also has an establishment at Overbrook, Pa., for the growing of specialties in pot plants for the wholesale and retail trade; and J. Prince, who has charge of the latter place. John Dodds, superintendent for John Wanamaker, Jenkintown, was also of the number which made up quite an interested good natured party.

Wm. Klienheinz, who by the way, is vice-president of the chrysanthemum society of America is the superintendent for Mr. Widener, with becoming pride took this gathering of notables through all these thoroughly up-to-date greenhouses. In addition to what greenhouses were already there in the summer of 1905 about $60,000 was spent in adding thereto. Although this is strictly a private establishment, nothing being sold therefrom, yet the growing of pot plants and the production of cut flowers are carried on with the same

Wm. Kleinheinz.
Vice-Pres. Chrysanthemum Society of America.

thorough system as done on a commercial place, and to use the expression of one of the visitors, "There was not a weak corner to be seen anywhere." Mr. Widener and his family use flowers and plants lavishly and William Klienheinz is always abundantly able to deliver the goods.

The chrysanthemums were among the first flowers noted. There was one of the recent novelties, Beatrice May, one fine flower of which was open. It would be great if it could always be depended upon to come like this one, but unfortunately the remainder of the flowers opening showed a decided pink color. It is one of the characteristics of this variety, so it was said, in that when the crown or earlier bud is selected a white flower results whereas when the terminal or late bud is taken a pink flower develops.

One of Mr. Kleinheinz's seedlings of a few years ago is still grown here in quantity, and it is certainly one of the most useful. It is named Josephine, a yellow flower and a healthy grower with excellent foliage. It is the result of a cross between the Queen and Golden Wedding. It has been decided that this and Robert Halliday are for all practical purposes, identical. The latter was raised by Wm. Binder, at that time living at Baltimore, Md., and has for its parents exactly the same varieties as Josephine. That fact should not be strange, but it is, for so far as I have any knowledge there is not a case on record where two varieties have been raised from the same parents and are so nearly alike as to be interchangeable.

In the pink variety William Duckham, with some growers, the buds have snapped off at the neck, immediately beneath the bud. With Mr. Huebner it has been guilty but with some others it has been behaving fairly well, as it was here. Mrs. William Duckham, which created such a favorable impression by its magnificent blooms the past two years, was here in plenty. It is a gracefully beautiful yellow flower but here it seemed more streaked with red than usual, giving it a decided bronzy tone of color. None of the flowers of this variety was finished, so we were assured that the color would be all right when show time came around. The general impression prevailed that the flowers of this variety are not so large as formerly. The season at the time of our visit was not far enough advanced for us to see other varieties in bloom. They all looked promising, the foliage showing that fertilizers had been used freely.

The carnation houses were examined with great interest. All the varieties grown were the picture of health. They had not been planted outdoors at all, but kept in pots until benched and apparently they had been in their present quarters for some time. All varieties had some flowers open so that we had an opportunity of comparing them in all particulars, so of course they were examined critically and commented on freely.

Three scarlets were here, namely, Cardinal, John E. Haines, and Robert Craig. The form and color of Craig was all that could be desired, but Haines appeared to have the more buds and open flowers. "That's the commercial scarlet," says Paul Huebner, and it does look that way at Elkins Park, but Edward A. Stroud says it is not so good with him at Stafford as it is to be seen here. Cardinal had some bright flowers open, but it did not attract the same attention as the other two.

Among whites there were Lorna, Bride, Lady Bountiful, White Lawson, Lieutenant Peary and a white seedling of Mr. Haines', which is being tried out here. It is larger than any of those named I believe but it lacks the style and finish of Peary. All present appeared to be favorably impressed with this variety and Mr. Ward, the raiser and disseminator, may be congratulated accordingly. Lady Bountiful is believed to be too shy to be profitable, and it is lacking petalage at this time of the year. Sam Batchelor says Queen Louise is the best to grow when quantity is desired.

Mrs. Lawson is grown quite plentifully here, but it is not seen to such advantage as formerly. Fiancee naturally came in for a good deal of attention. It is a fine large flower of good color and very few bursted calyces were to be seen. Mr. Klienheinz had several seedlings of his own, one a pink, was larger than any other variety present, but it will need a stouter and stiffer stem.

For a crimson, Harlowarden is grown

and all had to admire the way this variety grows and blooms and the fine pose and balance there is between flower and stem. Had a yellow variety been growing near to this one the colors of both would have been enhanced thereby. This color is considered to be too dark and heavy to be used in quantity.

There were others worth mentioning, but as I failed to take my note book along, I have to depend entirely upon memory.

The orchids were admired for their excellent condition and some Cattleya labiata and C. Dowiana were in bloom. The rose houses were in fine shape. A commercial man would have had the buds out closer but he could not have had them looking any better. A house of American Beauty was especially fine and the tea and hybrid tea houses were full of health and vigor. There were Golden Gate, Killarney, Kaiserin, Bride, Bridesmaid, Mrs. Pierpont Morgan, Liberty and Richmond. It was too early in the season to decide which was the better of the two last named. Mrs. Pierpont Morgan is not so often seen as it might be commercially, but it is a favorite here and no difficulty is found in growing it.

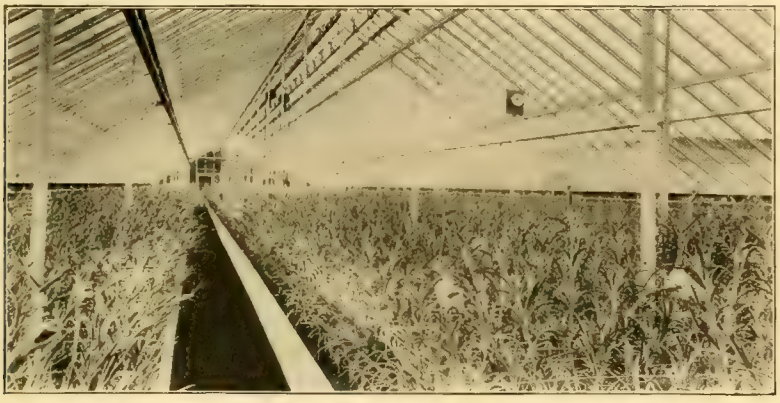
There were also two houses of violets, built in the most approved style, solid beds in the center with concrete walls, walks around the outer edge and abundant ventilation, both side and top. One house was devoted to sweet peas and another to antirrhinums.

The palm house is large and graceful in outline and full of well grown plants. Graperies and peach and nectarine houses are also here and look promising for future crops.

The mansion stands on a beautifully kept lawn of about 50 acres. The large bay trees are features. It is questionable if these could be duplicated for number and size on any one establishment in America. And although they have been on this place for ten years or so, they look as well and thrifty as if newly imported.

The secret of keeping them in such good shape is giving them abundance of water in summer, feeding them liberally with Clay's fertilizer and some other plant foods as a change, and not pruning them until they have completed their growth for the season. They are certainly a credit, as is the whole establishment, to Superintendent Klienheinz, showing his skill, and also to the liberality of the owner, P. A. B. Widener.

Long may they be associated in the good work they are doing. Our visit was thoroughly enjoyed by everyone present. EDWIN LONSDALE.



CARNATIONS AT J. R. HELLENTHAL'S, COLUMBUS, O.

WITH THE GROWERS

Jno. R. Hellenthall, Columbus, O.

The greenhouses at this place are in excellent order, and the plants grown therein are in the usual prime condition. A fine new house, 30x140 feet, has been erected, and planted to carnations. Queen, Lady Bountiful, Enchantress, white and pink Lawson, Flamingo, Edward and Estelle are making good growth, and promise well for a good Christmas and winter crop.

Most of the early chrysanthemums have been cut, and the later varieties are coming into line; all promise well. Roses are in good shape all around. A bench of poinsettias is in the best condition, also a lot in pans, all making excellent growth. Mr. Hellenthal is sparing no expense to acquire and grow the best of stock. That this is the kind the trade calls for is shown by the ever increasing demand for it here.

POINSETTIAS AT J. R. HELLENTHAL'S, COLUMBUS, O.

Pittsburg Cut Flower Co., Ltd.

AN ENTERPRISING HOUSE.

The great benefits derived by retailers and growers owing to the business like handling of their goods by the wholesale commission houses are exemplified in the rise of such important and necessary establishments as that known by the above title.

Eight years ago there was no such house in Pittsburg, but in 1898 Fred Burki, one of the most extensive growers in this section, William A. Clarke, one of the oldest Pittsburg men employed in the retail cut flower business, and Theodore Langhans, a younger man, but with some years' experience of active business life behind him, got their heads together. The result was they concluded the time was ripe for such an organization, and the Pittsburg Cut Flower Co. was started upon its useful and prosperous career.

Plenty of pessimists there were to discourage the new venture, but those who had it in hand were men who knew how to read the signs of the times, and also knew they had already the confidence and best wishes of the principal retailers and growers. Added to their own resources of pluck, energy and an innate persistence, this knowledge made the outlook a bright one.

They opened business September 1, 1898, at 705 Penn avenue, in a room with 540 square feet of floor space only, and about 700 feet of basement room. One year of diligent work insured the success of the venture, and we then find the young company making its first move to more commodious quarters. Liberty avenue was the selected location and then at 504 a building was secured containing 2880 square feet of floor space over a large basement. This enabled them to add to the flower business a complete line of florists' supplies, ribbons, and other articles constantly in demand by the retailers.

This succeeded even beyond their expectations and for a long time they have been on the lookout for larger and more centrally situated premises. Such places in this busy city are not easily found, but at last the chance came their

way owing to a large concern vacating their place of business at 222 Oliver avenue. Centrally situated among the retail men, and in close proximity to the railroad depots and express offices, they could not have selected a better location had they the choice of all Pittsburg. The building has 10,000 feet of floor space and 4,000 feet of basement room and is well equipped for the handling of cut flower consignments. Thus promptness in dispatch, a most important factor in the cut flower business, is assured.

The fact that the Pittsburg Cut flower Co. has always adhered strictly to business principles, has been unfailingly courteous and fair to customers, returning to one and all the best market price for goods, and always met its financial obligations promptly, accounts for this firm being trusted with the handling of the stock of over 140 growers, the production of several million square feet of glass. This firm is deserving of its trust and stands before the trade today as one of the most up-to-date, solid and reliable business concerns in the city.

Albert T. Lorch, DeHauen, Pa.

A large share of the carnations for the Pittsburg market comes from the Pine Creek valley which is noted for the fine stock of its growers. Prominent among these is Albert T. Lorch who grows for the wholesale market only. Mr. Lorch is a native Pittsburger, having been born on the south side in 1879. When a boy he took a liking to greenhouse work and after being connected with several local growers took a position under Wm. Falconer, as foreman of the south side park. From here he went with Mr. Falconer to Schenley park. Four years ago he decided to put up a house of carnations at De Haven, about seven miles from Pittsburg. He started with a house 18x100 which he now uses for propagating. A year later he put up one 40x100 in which he planted carnations.

Mr. Lorch's first season was very unsuccessful as he had to buy his plants and they turned out to be of very poor quality. This was a lesson Mr. Lorch has profited by as ever since he has used his own cuttings and plants only, except in the case of new varieties. After his first bad season fortune smiled on him and since then he has been cutting stock second to none in the Pittsburg market. This year he decided to increase his place by two new houses, each 22x300. They were planted before being glazed, as Mr. Lorch is a great believer in getting plants into the field early and housing them as early as possible.

One novel feature is the packing shed and cellar which are made entirely of ashes from the boiler pit. The ashes, being mixed with the right proportion of cement, make a very satisfactory storage and packing room. Another thing which attracts the visitor's attention is a pool room for the employes. Mr. Lorch finds this an admirable arrangement to keep the men contented when not working.

Mr. Lorch uses a Foos gas engine to pump his water, which has to be pumped to an elevation of 240 feet, and it gives entire satisfaction. Recently he bought a fine delivery wagon and had a hundred specially constructed shipping boxes made.

Formerly a few chrysanthemums were grown, but Mr. Lorch has discarded everything but carnations as he intends making these his specialty and he certainly is a specialist in this line.

During the summer, while the plants are in the field, he devotes his time to a large patch of watermelons and cantaloupes with which he is remarkably successful considering this climate.

A great amount of credit is due to Mr. Smith, the foreman, who never tires working with carnations. The output of the place is handled by the Pittsburg Florists' Exchange.

J.

CHRYSANTHEMUMS

Identifying Chrysanthemums.

At this season of the year many of the expert growers of chrysanthemums receive packages containing flowers for identification.

Very few understand how difficult it is to identify them when they are received in poor condition, and possibly the recipient has been accustomed to perfect flowers while the specimens received are entirely different as to size, color and other qualifications.

As the foliage is often the surest means of naming, it is important in submitting samples to include a few leaves of each variety as this will be of material assistance.

If to be shipped by express they should be stored in a cool cellar with some light for at least 48 hours. This allows them to take up sufficient water to harden the foliage and petals. After selecting a box of suitable size, see that it is well lined with paper to exclude the air and if the weather is cold use sufficient inside or outside to protect them from frost.

Number the blooms consecutively and keep a copy of the memoranda. If they are large blooms it is well to make rolls of excelsior wrapped with paper to prevent the outside petals from being damaged against the bottom of the box and before packing, wrap each flower with wax paper to prevent bruising.

Begin by placing a roll of excelsior six or eight inches from the end of the box and then put in position so that the neck of the bloom will rest on the roll. When they are all arranged in proper position they should be fastened with wooden cleats so that they cannot shift.

Before nailing on the cover moisten the foliage well so they will arrive in the best possible condition. This completes the task except that the express charges should be prepaid.

If there are only a few small flowers they may be sent by mail. Each bloom should be wrapped as previously described to prevent evaporation and see that the box is of sufficient strength to resist crushing in transit.

Those sending seedlings and sports for consideration should take the same care in packing.

The conditions under which chrysanthemums are grown are so varied and the blooms themselves so similar that it is often very difficult and some times impossible to identify them.

There is considerable pleasure in examining such flowers as one often finds varieties that are old and grown in limited quantity at present. These are like old friends whom we are always glad to see again.

ELMER D. SMITH.

Chrysanthemum Society of America.

EXAMINING COMMITTEES.

President Duckham has announced the committees to examine seedlings and sports on dates as follows: October 6, 13, 20, 27 and November 3, 10, 17 and 24, 1906. Exhibits to receive attention from the committees must in all cases be prepaid to destination and the entry fee of $2 should be forwarded to the secretary not later than Tuesday of the week preceding examination, or may accompany the blooms. Special attention is called to the rule requiring that sports

A. F. LORCH AND HIS EMPLOYES, DE HAVEN, PA.
Mr. Lorch at the left.

to receive a certificate must pass three committees.

New York, Eugene Dailledouze, chairman, 55 and 57 West Twenty-sixth street, Thos. W. Head and Wm. Turner.

Philadelphia, Pa., A. B. Cartledge, chairman, 1514 Chestnut street, John Westcott and Wm. K. Harris.

Boston, Mass., E. A. Wood, chairman, Wm. Nicholson and James Wheeler. Ship flowers to Boston Flower Market, care of John Walsh.

Cincinnati, O., R. Witterstaetter, chairman, James Allen and Wm. Jackson. Ship flowers to Jabez Elliott Flower Market, care of janitor.

Chicago, J. S. Wilson, chairman, J. B. Deamud and Geo. Wienhoeber. Ship flowers care of J. B. Deamud, 51 Wabash avenue.

OFFICIAL JUDGING SCALES.

The official scales of the society are as follows:

EDWARD LONSDALE.

WORK OF THE COMMITTEES.

New York, October 20. President Loubet, creamy white, exhibited by the E. G. Hill Co., Richmond, Ind., scored 90 points exhibition scale.

Mary Godfrey, Yellow Japanese incurved, exhibited by C. H. Totty, Madison, N. J., scored 85 points commercial scale.

Mrs. A. T. Miller, Japanese, pure white, exhibited by C. H. Totty, Madison, N. J., scored 87 points commercial scale.

Chicago, October 13. President Loubet, creamy white, exhibited by the E. G. Hill Co., Richmond, Ind., scored 86 points exhibition scale.

Cincinnati, October 20. Director Gerard, yellow Japanese reflexed, exhibited by the E. G. Hill Co., Richmond, Ind., scored 87 points commercial scale.

Fusee, light yellow Japanese, exhibited by E. G. Hill Co., Richmond, Ind., scored 85 points commercial scale.

Comoleta, clear bright yellow exhibited by Nathan Smith & Son, Adrian, Mich., scored 88 points commercial scale.

Philadelphia, October 27. Mrs. G. A. Lotez, creamy white, Japanese incurved, exhibited by Gustav A. Lotez, Glen Burine, Ind., scored 90 points commercial scale, and 89 points exhibition scale.

Mrs. Westray Ladd, yellow Japanese incurved, exhibited by Edward A. Stroud, Overbrook, Philadelphia, scored 87 points commercial scale.

New York, October 27. White sport from Wm. Duckham, blush white tint, exhibited by Chas. H. Totty, Madison, N. J., scored 90 points commercial scale, and 90 points exhibition scale.

Mamolese L. H. Cochet, pink Japanese incurved, exhibited by the E. G. Hill Co., Richmond, Ind., scored 85 points exhibition scale.

ESTABLISHMENT OF A. F. LORCH & CO., DE HAVEN, PA.

LISBON, O.—John W. Scott has installed a 70 H. P. steam boiler and built a large boiler house. He has also added one greenhouse 12x60 feet for bulb forcing.

RECENT BOOKS.

Lawns and How to Make Them.

As the author of this very useful and practical little work remarks, "the lawn is the foundation of the garden." Everyone who delights in a fine garden, likes to have a good lawn, and how this is to be obtained is shown in plain and simple words, and also by the aid of useful and suggestive illustrations. How not to do it, which is in many cases equally important, is also described, and the tyro in the art is advised to go most carefully through the first two chapters, where excellent reasons are given for the somewhat drastic measures recommended.

Someone has said that next to moving heaven, the biggest job on record is moving earth, and in the chapter devoted to the grading many useful hints are given that will save a great deal of this heavy work. We cordially agree with the author that just as thorough cultivation should be given to the soil for a lawn as for any other crop, for grass persistently and regularly cut is a very exhausting one. The notes on seeding instead of turfing are in every way excellent. Times are given for seeding, with the reasons why such times are correct and others not so suitable. Varying times for different localities, too, are sensibly argued, and what is very important, suitable varieties and mixtures for varying soils are given. The upkeep of a lawn, with instructions as to rolling and mowing, feeding, weeding, the destruction of injurious animals, insects, and fungoid pests, is very carefully treated and the advice given is in all cases reliable. In short any one having this book and the requisite material at hand must be dense indeed if he cannot successfully tackle the making of a lawn large or small.

The author, Leonard Barron, is a practical man, and has handled the subject well. The book is published at $1.10, and we can supply it on receipt of that sum.

Dware Fruit Trees.

In this interesting and very practical little book Prof. Waugh modestly disclaims any intention of improving commercial men, but there is much in it

WHITE LAWSON CARNATIONS AT THE ESTABLISHMENT OF A. F. LORCH & CO., DE HAVEN, PA.

that would well repay anyone's attention that is interested in fruit culture of any kind. The man who grows a little fruit as a hobby—and doubtless the number of these is increasing annually—will avoid many pitfalls and mistakes by studying these pages before making a start. Full directions are given for choice of trees and the reasons for dwarfing trees are so plainly set out that amateurs with no horticultural knowledge whatever, but simply a love for the thing, can go right ahead fearlessly with every confidence. The illustrations, taken from trees in the author's garden and elsewhere, are just what illustrations in such a book should be, simple, clear and instructive. Get it and read it; it is the best advice we can give. Pages 123, illustrations 45. Price pastpaid 50 cents.

QUERIES.

Boiler for Small Greenhouse.

ED. AMERICAN FLORIST:—

A customer of mine wants me to get him a boiler or heating apparatus for a small greenhouse, 12 x 20 feet. I proposed an upright round boiler, the fire being surrounded by water; the coal being put in at the top, and when once replenished in the evening will burn all night. We had such boilers in Paris, France, but I never saw one in this country. Not knowing of any firm in the east supplying such boilers, would you kindly advise me in your next number of THE AMERICAN FLORIST where I could get the boiler, or another apparatus suitable for the house, and when need be could be attended by a woman.

H. S.

Quite a number of American manufacturers of greenhouse boilers make them in magazine form as described, but there are others made without magazines that would answer equally well for the purpose. It will be no more trouble to run them than to take care of a large coal stove. It will be safe to order from the firms advertising in THE AMERICAN FLORIST, and I would select the one nearest to me.

L. R. T.

Advice on Greenhouse Building.

ED. AMERICAN FLORIST:—

I am building six new greenhouses, 22x200 feet, on a hillside. They average 10 feet to ridge, and have 3½-foot side walls. The boiler pit is at the southeast corner of all six houses, and the farthest point from the boiler will be 350 feet. Each house will have a fall of 10 feet from west to east point, and are built in three groups, two in a group, there being a space of about 10 feet between each group. I want to arrange it so as to be able to use either hot water or steam. I have some 2-inch pipe and a quantity of 1-inch pipe that I would like to utilize. What should be the size of the outflow and entrance from the boiler? The pipes will be on center and side posts of houses, as they will be ground beds. I want to maintain a temperature of 50° to 60° with outside temperature of 15° below zero.

W. H.

It is often possible to arrange a heating system so that steam can be used in severe weather and hot water during the months when but little heat is necessary, but it is seldom desirable to put in sufficient radiation to furnish the required heat with hot water for zero weather and at the same time arrange the system so that steam can be used. One difficulty with the present problem comes from the fact that one and one-half inch pipe is as small as should be used with hot water and for houses more than 75 feet in length; 2-inch pipe is better. The 1-inch pipe could, however, be used for steam heating by putting in three 2-inch pipes for flow and using nine 1-inch returns in each house, although it would be better to use two 2-inch flows and eight 1¼-inch returns.

For heating the houses with hot water, four 2½-inch flow pipes and ten 2-inch returns should be used. From the fact that there is to be a 10-foot fall in the houses and presumably the boiler will be below the surface, hot water might be used in the steam system even with the 1-inch pipe in mild weather.

L. R. T.

Sets World Smoking Record.

London, October 27.—At the pipe smoking competition at the brewers' exhibition in Islington yesterday, the world's record for a nonstop smoke was broken by a Highgate gardener named Catling, who kept an old briar root pipe alight an hour and fifty-three minutes.

Each of the numerous competitors took his own pipe and was supplied with an eighth of an ounce of tobacco, and at the word "Go" the matches were struck. Six seconds were allowed for lighting and after that no re-lighting was allowed.

The second place winner kept his pipe going an hour and fifty minutes and the third one hour and thirty-five minutes.—Chicago Tribune.

Illinois State Florists' Association.

A meeting of the executive committee of the Illinois State Florists' Association will be held in Chicago during the flower show on Thursday, November 8, at 2 p. m., in the Coliseum building. These meetings are beginning to show good results. The final arrangements will be made for our annual meeting to be held at Bloomington on the second Tuesday in February. All florists are requested to attend this meeting. A visit to the great Chicago flower show is well worth your while, so come and do not miss either.

J. F. AMMANN, Pres.

EXHIBITIONS.

Kansas City Flower Show.

At a meeting in Kansas City, last spring, of convention hall directors, under whose auspices recent flower shows have been held, the decision was reached, that no show would be given this fall. Of most importance among the reasons given, was the question concerning attendance. Recalling previous exhibitions which were given in consecutive years, it was shown that the attendance fell considerably short. Compared with recent shows which have been held every two years, it was cited that a greater amount of appreciation and public interest was manifested.

The show given last fall was a brilliant success from every standpoint. In beauty it was invariably admitted by prominent business men of the trade to have surpassed anything ever attempted. From a financial standpoint it was very satisfactory, the attendance for the week reaching the large total of 31,536 paid admissions. In the number of exhibits, it was equal to, and in many classes the number of entries exceeded those of shows held in eastern cities.

A good feeling was established toward the management on account of its promptness in making settlements; all awards as previously announced were made on the last day of the show, regardless of the gate receipts.

Expressions have been made by some florists, in regards to next year's show of their preference for an exhibition to be given by florists. Several good reasons may be brought forward against such a movement. If the show be conducted on that basis, it is to be considered that public opinion would very likely indicate such a feeling that the affair was being carried on altogether as a money making proposition. Further the mere fact of having the affair in convention hall, and the responsibility resting with convention hall directors, men who comprise the business of the community, is pretty good assurance of success. Again the item of expenses, if conducted by the florists, would greatly exceed those under convention hall management.

Our last show illustrated that the consolidated efforts of the local florists and the management of the hall resulted in "the best show ever held in America." An early decision should be met with in reference to holding a bigger and better show next year which would be much to the advantage of the affair.

K. C.

Massachusetts Horticultural Society.

The annual chrysanthemum exhibition of the Massachusetts Horticultural Society will be held at Horticultural hall, 300 Massachusetts avenue, Boston, on Friday, Saturday, and Sunday, November 2-4. This is the society's greatest show of the year and it is expected that the display of this queen of autumn flowers on this occasion will surpass in magnificence any previous exhibition.

In addition to chrysanthemums there will be a fine showing of other flowering plants, orchids, fruits, and vegetables, from many noted gardens and greenhouses in the vicinity of Boston.

A special feature will be the competition for decorated dinner tables for which three large prizes are offered.

A LARGE peanut dealer in Norfolk, Va., says that the peanut crop in the United States now amounts to 11,000,000 bushels annually. The total sales amount to between $8,000,000 and $10,000,000.

Lenox, Mass.

The annual chrysanthemum exhibition of the Lenox Horticultural Society took place in the town hall October 24 and 25. This was hardly as good an exhibition as in former years, owing to the lack of cut chrysanthemums, which are unusually late this year.

The F. R. Pierson & Co.'s Silver Cup, offered for chrysanthemums, six varieties, three blooms of each, selected from their novelty list, for 1906, was won by E. Jenkins, with Morton F. Plant, Beatrice May, Mrs. Geo. Heaume, Mrs. Henry Partridge, W. W. Wells, and Glenview. A. F. Boddington's prize for 24 blooms, distinct varieties, was also won by E. Jenkins. Chas. Totty's prize for six blooms on long stems, of Beatrice May, was won by E. Jenkins, 1st; Thos. Proctor, 2nd, and S. Carlquist, 3rd. Howard & Morrow's prize for vase of 36 blooms went to R. Spiers, 1st; A. H. Wingett, 2nd., and E. Jenkins, 3rd. The other chrysanthemum classes were won by E. Jenkins, Robt. Spiers, A. H. Wingett, S. Carlquist, A. J. Loveless, Thos. Proctor, J. J. Donahue, D. Dunn and F. Heeremans.

The Bay State Nursery prizes for three specimen plants and one specimen plant were won by E. Jenkins and R. Spiers.

F. Heeremans was first in the group of miscellaneous plants arranged for effect, with a superb group, the background of which was made up of three good specimen kentias, two plants of Licuala grandis, some excellent colored crotons, Adiantum Farleyense, Begonia Rex and Cattleya labiata; the ground of the group was wavy, and consisted of Adiantum Farleyense, Lilium longiflorum, Cattleya labiata and various stove plants; on each corner was a plant of Chamædorea Arenbergiana, from which was hung Phalænopsis amabilis, and in the middles was an extra fine piece of Croton Prince of Wales, surrounded by Cattleya labiata Phalænopsis amabilis and lily of the valley. E. Jenkins was second in this class, with a magnificent group also; his background consisted of some fine plants of Areca lutescens, Cocos flexuosa, some large trellises of English ivy, on which were hung Begonia Glorie de Lorraine and Oncidium varicosum; the ground work consisted of mounds of Croton superbissimum and C. Prince of Wales, around which were Begonia Turnford Hall, lily of the valley, Lilium speciosum album, Adiantum Farleyense and Cattleya labiata with Cocos flexuosa gracefully drooping over the whole.

F. Heeremans put up a good group of orchids on a round table in the middle of the hall. Roses were well shown. Thos. Proctor's Richmond blooms were excellent. The principal winners in these classes were Thos. Proctor, E. Jenkins, F. Heeremans, Thos. Page, J. J. Donahue, R. Spiers, A. H. Wingett, Thos. Dixon and D. Dunn.

The carnation tables the judges found a hard proposition, for competition was very close. The winners were the ones above, with E. Dolby, H. P. Wookey and L. W. Acheson added. In E. Dolby's vase of 50 blooms was an excellent white seedling of his own raising which promises fair to become a winner. The Vaughan's Seed Store prize for collection of 18 varieties of vegetables was won by E. Jenkins. In the class for 12 varieties of vegetables the judges met another hard proposition. Thos. Page was first, with S. Carlquist second and D. Dunn third.

Lager & Hurrell staged a nice group of orchids and were awarded a first-class certificate, as also was F. I. Drake, of Pittsfield, for a bunch of Gov. Herrick violet. Jas. Crawshaw of Olneyville, R. I., was also awarded a first-class certificate for his new Asparagus plumosus Crawshawi.

The judges were A. Herrington, C. H. Totty, W. Duckham of Madison, N. J., and G. H. Hale of Oceanic, N. J.

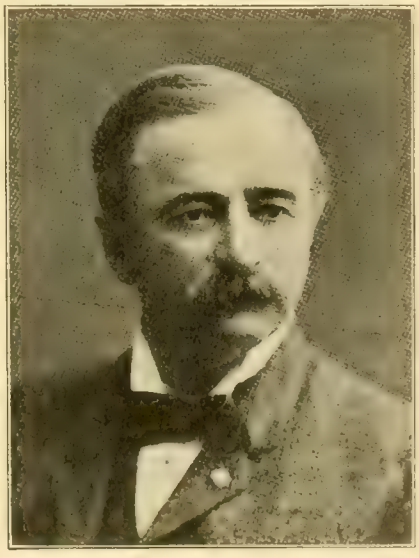
OBITUARY.

J. L. Dillon.

J. L. Dillon, of Bloomsburg, Pa., one of the best known and most highly respected men in the trade, was killed October 30, at 9 a. m., at East

The Late J. L. Dillon.

Bloomsburg station on the Pennsylvania railroad. With his men he went to the station to direct the unloading of a car of coal. The car not being in the right position, he asked his men to start it and being on a down grade it moved off quite lively. Mr. Dillon stepped in front and was caught by the car, which ran over his



The Late Lewis Ullrich.

legs. A bolt caught in his coat collar, dragging him on his face five feet and when removed 15 minutes later he was dead. The lamentable accident is doubly sad for Mrs. Dillon, as her father, Mr. Hutching, of Kingston, Pa., was to be buried October 31.

Mr. Dillon was well and favorably known in the trade and he had an extensive greenhouse establishment at Bloomsburg. His specialties were verbenas and carnations. One of the carnations which we believe was introduced by him some years ago, was very popular and is still grown very extensively, namely Queen Louise. In addition to this for some years, he carried on an extensive business in greenhouse building under the title of the Dillon Greenhouse Mfg. Co. Mr. Dillon was a charter member of the Society of American Florists and regular in his attendance at the annual conventions. He was always ardently identified with every movement for the advancement of horticulture and floriculture, and well liked by all those who came in contact with him either in a business way or socially. Mr. Dillon was 55 years of age and Mrs. Dillon with three sons and one daughter survive.

Lewis Ullrich.

Lewis Ullrich, of Tiffin, O., died October 29. Mr. Ullrich had been in rather poor health for some time. He was well known in the trade, being a member of the American Carnation Society and since 1896 a member of the Society of American Florists. At the St. Louis convention in 1904 he was a candidate for the presidency of the latter society, receiving 99 votes. Mr. Ullrich was a native of Bavaria and was born at Kerweiler in 1848, coming to this country with his parents when a child. He finally located at Tiffin in 1862, and was educated at the public schools, completing his course at Heidelberg, Germany. At one time he was engaged in the druggist business and in 1880 built his first commercial greenhouses in the suburbs of the city. Since that time he built up a very considerable business in the wholesale trade, making a specialty of bedding plants. Mr. Ullrich served several years as a member of the city council and three terms as county clerk. He was a prominent member of the Knights of Columbus. The family includes two sons who will probably continue the business. Funeral services will be held at 10 a. m., November 2.

R. S. Mendenhall.

R. J. Mendenhall, of Minneapolis, Minn., one of the early settlers in the northwest, died October 19. Mr. Mendenhall located in Minneapolis at the time of the boom there in real estate and was prominent in the business circles. For many years he carried on an extensive greenhouse business, but ill health compelled him to give it up. Mr. Mendenhall in the early days occupied a number of important public offices, and with Mrs. Mendenhall was quite prominent socially, being members of the Quaker church.

TRAVERSE, MICH.—F. M. Paine is making a large addition to his greenhouse, and when all is completed he will have the finest and largest greenhouse north of Grand Rapids, Mr. Paine is more than doubling the size of his present quarters.

THE AMERICAN FLORIST

TWENTY-SECOND YEAR.

Subscription, $1.00 a year. To Europe, $2.00 Subscriptions accepted only from those in the trade.

Advertisements, on all except cover pages, 10 Cents a Line Agate: $1 00 per inch. Cash with Order.

FROSTS likely to put that stock in good shipping condition are reported in the holly woods.

EXHIBITORS should note that the date of the Providence, R. I., show has been changed from November 9 and 10 to November 13 and 14.

SNOW has fallen at this writing in the Wisconsin woods, following continued rains, and the amount of bouquet green picked so far is exceedingly limited.

ACCORDING to recent decisions of the board of general appraisers at New York terra cotta grass growing heads and figures are dutiable as common brown earthenware under Paragraph 94, Tariff Act of 1897. Sea moss, which has been dyed for the purpose of preserving its natural form and color, such process of dyeing not having changed its name or character, is dutiable at 10 per cent ad valorem.

American Carnation Society.

CARNATION REGISTERED.

By Malachy Tierney, gardener to Robert Hartshorne, Highlands, N. J. Mrs. Robert Hartshorne, a cross between Gen. Maceo and Mrs. T. W. Lawson; color, bright scarlet; size, three to three and one-half inches, with a good strong calyx that does not burst, and on strong stiff stems two to three feet long. An exceptional keeper, flowers having kept fresh from 12 to 15 days, and has a strong clove odor. A good clean grower producing an abundance of bloom.

ALBERT M. HERR, Sec'y.

Examiner of Plants.

CUSTOM-HOUSE SERVICE, NEW YORK, N. Y. NOVEMBER, 14, 1906.

The United States civil service commission announces an examination at Brooklyn, N. Y., on November 14, 1906, to secure eligibles from which to make certification to fill a vacancy in the position of examiner of plants, bulbs, nursery stock, fresh flowers, seeds not medicinal, fresh vegetables, etc., at $1,800 per annum, in the office of the appraiser of merchandise at the port of New York, and similar vacancies as they may occur there in the custom house service.

The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Practical tests	70
2. Arithmetic (fundamental rules, fractions, percentage, interest, discount, analysis, and conversion of currency)	15
3. Penmanship (the handwriting of the competitor in the subject of letter writing will be considered with special reference to the elements of legibility, rapidity, neatness, general appearance, etc.)	5
4. Letter writing (a letter of not less than 150 words on some subject of general interest. Competitors will be permitted to select one of two subjects given)	10
Total	100

Competitors who fail to attain a rating of 70 per cent in the practical tests will not be rated upon the remaining subjects of the examination.

Age limit, 20 years or over on the date of examination.

This examination is open to all citizens of the United States who comply with the requirements.

Applicants should at once apply to the secretary of the board of examiners, custom-house, New York, N. Y., for application Form 1371. No application will be accepted unless properly executed and filed with such secretary prior to the hour of closing business on November 9, 1906. In applying for this examination the exact title as given at the head of this announcement should be used in the application.

Are Set Designs Popular?

ED. AMERICAN FLORIST:—

At the recent convention I heard it remarked that set designs were not so much used as formerly, and that some florists are not encouraging their use. This is a great mistake. As florists we should keep up every branch of the retail business as much as possible, and it would certainly be unwise to give any customer the idea that set designs, or any other floral creations, are out of date.

We must sell all and every kind of arrangement possible, for we follow only one line, and it is necessary to develop and cultivate this to the fullest possible extent. Florists ought to keep in mind the increasing demand for birthday bouquets, and push these wherever possible. Think of the great trade that might be built up of this alone should the giving of birthday bouquets become a general custom. Orders for them should reach every prominent florist daily.

V. J. G.

Greenhouse Building.

Akron, N. Y.—Mrs. Newman, three new houses, 26x120 feet.

Pine Hill, N. Y. — Reichert Bros., three new houses, 20x100 feet.

Watervliet, N. Y.—Julius Gabriels, two greenhouses on the Spring street road.

Olyphant, Pa.—E. J. Hull, one new greenhouse.

Sterling, Ill.—Robt. Lundstrom, large additions to greenhouses.

Brooklyn, N. Y.—M. Schulze, one greenhouse, 19 x 48 feet, to cost $5,000.

Pittsfield, Mass.—R. Engelman & Son, several new greenhouses.

Buffalo, N. Y.—Humboldt park, one 80-foot greenhouse with two 100-foot wings.

Sterling, Ill.—J. A. Swartley, one new greenhouse, 46 x 200 feet, for carnations.

Tacoma, Wash.—Louis Tschunko, three greenhouses, 20 x 100 feet to cost $1,500.

Greenfield, Ind.—Jacob Forest, addition to greenhouse.

Belfast, Me.—Willis E. Hamilton, one rose house, 32 x 62 feet.

Philadelphia, Pa.—Geo. L. Grand, one greenhouse, 18 x 27 feet, to cost $400.

West Newton, Mass.—Wm. Folsom, one new greenhouse.

Saratoga Springs, N. Y.—T. J. Totten, one new greenhouse, 30x100 feet.

Meriden, Conn.—R. W. Barrow, one new greenhouse under 25,000 feet of glass.

Flatbush, N. Y.—John Scott, three new greenhouses.

Washington, D. C.—J. Louis Loose, one modern greenhouse.

Lisbon Falls, Me.—H. W. Blenthen, an addition of 150 feet.

Franklin, Mass. — Kelley Bros., one greenhouse, 22x70 feet.

Iowa City, Ia.—Iowa university, one greenhouse 18x60 feet to cost $3,000.

Danbury, Conn.—Lester O. Peck, one new 90-foot greenhouse.

New York.—Central park, one new greenhouse.

Springfield, Mass. — F. S. Pearson, three greenhouses.

Waterbury, Conn.—W. E. Sessions, greenhouses 20x150 feet.

Coming Exhibitions.

(Secretaries are requested to supply any omissions from this list.)

BOSTON, MASS., November 2-4, 1906.—Chrysanthemum exhibition Massachusetts Horticultural Society. Address Wm. P. Rich, Horticultural hall, 300 Massachusetts avenue, Boston, Mass.

CHICAGO, November 6-11, 1906.—Annual exhibition Horticultural Society of Chicago. Address Willis N. Rudd, Blue Island, Ill.

DENISON, TEX., November 8-10, 1906.—Annual flower show Denison Civic Improvement League. Address T. W. Larkin, Denison, Tex.

NEW HAVEN, CONN., November 6-8, 1906.—Annual exhibition New Haven County Horticultural Society. Address Thos. Pettit, 90 Prospect street, New Haven, Conn.

ORANGE, N. J., November 5-6, 1906.—Twelfth annual flower show New Jersey Floricultural Society. Address Joseph B. Davis, Orange, N. J.

PROVIDENCE, R. I., November 13-14, 1906.—Chrysanthemum and carnation exhibition Rhode Island Horticultural Society. Address C. W. Smith, 27-29 Exchange street, Providence, R. I.

TORONTO, ONT., November 6-10, 1906.—Annual Ontario Horticultural exhibition. Address H. B. Cowan, Parliament building, Toronto, Ont.

WORCESTER, MASS., November 8, 1906.—Chrysanthemum exhibition Worcester County Horticultural Society. Address Adin A. Hixon, Horticultural hall, 18 Front street, Worcester, Mass.

LAKE GENEVA, WIS., November 9-10, 1906.—Chrysanthemum exhibition Lake Gevena Gardeners' and Foremen's Association. Address Alex. Johnson, Lake Geneva, Wis.

Meetings Next Week.

Butte, Mont.—Montana Florists' Club, Columbia Gardens, November 9.

Chicago.—Chicago Florists' Club, Handel hall, 40 Randolph street, November 8, at 8 p. m.

WANTED.

A young man between 25 and 35 years of age who has had some experience on an ornamental nursery and who is interested in the work. Applicants must be of sober habits, industrious, not afraid of work, and possess executive ability. A German, Hollander or Swede preferred, but any hustler will be considered. For the right party this will be a very good position, on one of the largest ornamental nurseries in the country. Location: 60 miles from New York, 30 miles from Philadelphia and one mile from a city of 85,000 inhabitants. Reference required. Apply at once, stating nationality and religion and whether married or single, last employer and wages expected. Address Key 825, care American Florist.

GLASS FOR SALE.

We have for sale a quantity of A. and B. double thick, Pennsylvania hand made, tank glass, all of which runs exceptionally uniform in quality and thickness. Terms cash. Inquiries solicited.

King Construction Co.
NORTH TONAWANDA, N. Y.

It is good business policy to mention the *American Florist* .....when writing to an advertiser.

VISITING FLORISTS: We RESPECTFULLY INVITE you, while in Chicago attending the flower show, and upon your tour of inspection of the various greenhouses, to visit OUR GREENHOUSES, and we will take pleasure in showing you about, at the same time CONVINCING you that WE SHALL this season cut stock of the HIGHEST QUALITY. From the evidence of our plants, the cuts therefrom will be UNEQUALED on this market.

SEEING IS BELIEVING and is the strongest proof, therefore to fully CONVINCE you that our cuts of BEAUTIES, RICHMONDS, BRIDESMAIDS, BRIDES and CARNATIONS will be such as we claim, HIGHEST QUALITY, we invite you one and all to COME OUT TO OUR GREENHOUSES and judge for yourself where the BEST STOCK may be obtained.

Greenhouses located at Bowmanville, at terminus of Lincoln avenue electric cars.

For further particulars call at our Chicago store

J. A. BUDLONG

37-39 Randolph Street, CHICAGO.

Roses and Carnations A Specialty.....

WHOLESALE GROWER of **CUT FLOWERS**

Chicago Notes.

Grandpa Vaughan.

Patrick Buckley, a fern peddler, arrested in Oak Park charged with trying to extort money from his patrons, was fined $15 and costs by Justice Kendall, October 29. Buckley, who claimed to be a florist, was selling ferns in the town.

The popularity of the orchid is rapidly increasing. The number of society people wearing them at the opening day of the horse show was very large, while hand bouquets and box decorations of the beautiful blossoms were also numerous.

Albert T. Hey, of Springfield, was elected grand master of the grand council of royal and select masters of the state of Illinois. The position is that of presiding officer, and the body is one of the higher bodies of Masonry. It is thought that this is one of the highest honors ever conferred upon a florist.

The Ernest Weinhoeber Co. has issued a very neat "Engagements" booklet which it is mailing to its customers. It is a very dainty affair, containing no advertising matter except the firm's name, business and address on the title page. The blank pages are each dated for two days, from October 15 to June 30.

Work on the new public golf links at Garfield park has been begun. The grading necessary to remove what was left of the old cement bicycle speedway has progressed so far as to leave no doubt about the lawn being in shape early next season. All the lawns will be sowed with the best quality of bent grass seed.

The new firm of Schroeder & Meyer, who recently opened a stand in the Flower Growers' Market, is planning some extensive improvements on their plant at South Holland. Shortly after Christmas an addition, 20x100 feet, will be built as well as a new boiler house and several new sheds. Their carnation plants are in fine shape and are just about to yield what is expected to be a fine crop.

St. Louis.

The market continues strong with clear, cool weather. Nothing is very plentiful. Carnations were perhaps a little more plentiful but demand is such that everything is cleaned up, in fact it has been some time since any of the wholesale houses had anything left over to amount to anything. Chrysanthemums do not seem to be over abundant. There has been a steady demand for fine and medium grades. Quite a large quantity of flowers were used last week Saturday for the Faust funeral. Almost every prominent store had orders from the different tradesmen having connection with the Tony Faust firm. Violets are increasing and are much improved in color and length of stem. Roses are not over abundant, white especially were in demand last week. Greens are selling well.

THE ST. LOUIS HORTICULTURAL SOCIETY.

Thursday, October 25, a meeting of the St. Louis Horticultural Society was held at the home of the society's president, the members assembling at the greenhouses of C. Young & Sons. After a tour of a very profitable inspection the party was guided to the home of President Harry Young who with well chosen and feeling words declared the meeting duly opened for the transaction of business. After the hearing of the reports the assembly by vote unanimously adopted the name of the St. Louis Horticultural Society, by vote, also a committee, comprising F. C. Weber, C. C. Sanders and Otto G. Koenig, was appointed to present at the next meeting a complete set of by-laws. Interesting topics, such as how to take care of plants in a residence, etc., were discussed. Judging from the very enthusiastic start the society has made it bids fair to be one of the brightest stars in the horticultural firmament. After the meeting was closed the members adjourned to the most enjoyable event that has so far occurred during the life of this infant society. It enjoyed the hospitality and kindness of its president, Harry Young, to whom a hearty vote of thanks was given. The members went to their homes anxiously awaiting the call for the next meeting.

NOTES.

The St. Louis Florists' Club will hold a chrysanthemum exhibition November 8, at 2 o'clock, in its meeting rooms, Strausberger's hall, C. S. A. scale of points to be used. Prizes are open only to local growers. The regular monthly meeting will take place at the same time. Matters of great importance to all members will come up, one in particular of holding a big flower show next year.

Fifty dollars in prizes are offered by the St. Louis Florists' Club, as follows: best 12 cut blooms, white, $7.50, $5.00, $2.50; yellow, $7.50, $5.00, $2.50; pink, $7.50, $5.00, $2.50; best specimen plant, any color, $5.00.

Ostertag Bros. had their hands full last Friday. They worked all night having the bulk of the funeral work for the Faust funeral. They made a very handsome pall of lily of the valley, double violets and orchids, one flat bunch of 100 American Beauty, one big gate made of rustic oak eight feet high, a large heart of Enchantress carnations with German letters of double violets.

Among the earliest arrivals with sweet peas are those from the greenhouses of Arnold Scheidegger, Kirkwood. He expects to have a fine crop of sweet peas, violets and carnations in the near future.

Young & Sons are cutting some fine white and yellow chrysanthemums from their greenhouses. They have at their down town store a grand window display entirely of bulbs.

Andrew Meyer was very busy last Saturday. He had several very handsome designs and bunches for the Faust funeral.

W. C. Smith & Co. are disposing of large quantities of flower pots, also Boston ferns and Asparagus plumosus.

Quite a curiosity was seen at Angermueller's last week, a bunch of purple outdoor lilacs from Mississippi.

C. A. Kuehn is receiving some fine roses from Miss Belle Miller, Springfield, Ill.

Gullett & Sons, of Lincoln, Ill., are shipping some good roses to this market.

Thompson & Co. are building three greenhouses at Forest park for the city.

POEHLMANN BROS. CO.

WHOLESALE GROWERS OF CUT FLOWERS

'Phone Central 3573. **33-37 Randolph St., CHICAGO.**

Baltimore.

STOCK SCARCE.

Rain and rain, mist, drizzles, and down-pours, made up the programme of October weather. Instead of blue skies and inspiring airs with the brisk clear atmosphere of early autumn, there have been leaden clouds and dreary November-like fogs and almost unremitting showers and floods. Now we are hoping, as a consolation, for the crisp delicious Indian summer which normally makes in this latitude life worth living. The sharp freeze which without notice snapped all the life out of outdoor flowering plants seems to have stimulated the business in inside stock and the demand in some materials is greater than the supply. For a week there has not been anything like enough carnations and chrysanthemus to satisfy the market. Roses are more abundant, but in all lines there are not enough really good flowers to go around.

NOTES.

Edwin A. Seidewitz, whose lease on the premises on Lexington street which he has long occupied is expiring, will remove about November 10 to the store 323 North Charles street. Here he will be in the very thick of the flower trade, the Halliday Bros., Feast & Sons, John Cook and Wm. J. Halliday being all congregated in the same block and within a few doors of his new location. Competition makes business, according to the old adage, and Mr. Seidewitz is energetic and resourceful and will doubtless get his own share of the traffic.

The new Latrobe park, one of the units in the new chain of municipal pleasure grounds which are in course of preparation, will differ from the usually accepted type in that there will be no flower beds, the use of flowering and decorative shrubs replacing the old style of bedding out. The same course is adopted at the stations along the lines of the Pennsylvania railroad, the effect being considered quite as impressive and the cost less.

The Gardeners' Club will hold its chrysanthemum show on November 13, 14, 15 and 16, in the new building of the Florists' Exchange, corner of Franklin and St. Paul streets, which will be far enough advanced for that use, though still not near completion. An unusually fine display seems to be counted on.

Sam'l Feast & Sons will open a branch store in the garage on North Charles street, near Mount Royal avenue. This is immediately opposite The Fernery and in a location which is rapidly becoming the center of a constantly increasing retail business.

J. A. Ritter has rented a store on North near Linden avenue and will conduct it as a branch of his store on Charles street as soon as the necessary alterations and decorations are completed.

S. B.

Indianapolis.

Trade in the stores has been good and on the market it showed a great improvement over last week. Chrysanthemums, however, did better than most expected, although plentiful. None have yet gone to waste. Roses are about equal to demand. Home-grown Marie Louise violets have made their appearance, but are not yet up to the standard. Good carnations are rather plentiful now, and prices are declining.

NOTES.

Bertermann's Hallow'een window, a cornstalk and pumpkin creation by Clarence Thomas, is a pleasing departure from the conventional; it shows how much a true artist can do with simple material.

Baur & Smith have many fine seedling carnations. No. 8, a scarlet, is likely to prove a winner, and if one is looking for a real good crimson, one should see their house of Pocahontas.

There is good fishing in Eagle creek for the man who knows how. E. A. Nelson, one afternoon last week, caught a fine string containing a few better than three pounds.

Phillip Conway is very eager to make the acquaintance of some of the boys that threw stones through his greenhouse glass from trains passing his place.

W. W. Coles, of Kokomo, is anxious to show his Indianapolis friends through his new mammoth carnation house. Who is going?

Chas. Wheatcraft has returned from Texas. He had an excellent time and gained considerable in weight.

Recent visitors were Mr. Barnett, of Reed & Kellar, and W. W. Coles, of Kokomo.

E. A. Nelson is going to install a Moorehead return trap.

A. Pahud has a couple of benches of fine poinsettias.

J.

CHRYSANTHEMUMS.

1,000 Plants, mostly grown to single stems, all colors and in any quantity. Very large, **$3.00** per doz.; Medium, **$2.00** per doz.; Small, **$1.25** to **$1.50** per doz.

Also Fine Beauties, Tea Roses and Carnations.

WIETOR BROS., 51 Wabash Avenue, CHICAGO.

Kansas City.

TRADE BRISK.

Business still maintains all the activity and snap one might desire. Each weeks shows a favorable increase in volume of trade. The number of social affairs which have occurred during the past week is unusually large. Most of the society people, having just returned for the winter, are anxious to begin all at once in a belated acknowledgement of their social indebtedness. October weddings, many of them and the majority of good proportion, have served to add much zest to the firms who handle decorations. Chrysanthemums are arriving in larger quantities, and find a ready demand. Roses show a creditable improvement in both quantity and quality. Bridesmaid, Killarney, Richmond and Chatenay are especially good. The demand for carnations exceeds the supply at all times; Lady Bountiful and Norway are the best in white sorts. In pinks, Nelson Fisher and Enchantress appear to be in best condition. All varieties, however, will soon be up to the standard. The few violets that find their way to the market meet a good demand. Greens are more plentiful.

NOTES.

The bowling club held its regular meet last Wednesday evening. A prize was offered for the lady bowlers which resulted in a spirited contest, Mrs. E. D. Ellsworth, making the best score, with Mrs. Bastain and Mrs. Faulk close seconds. The game between the Kelloggs and the retailers, resulting in a victory for the former was well matched, Ellsworth, making the best score. In the retailers, Max. Eller rolled the highest 10 and the highest 30 frames.

Among those who were losers in the carnival fire in Kansas City, Kans., was Miss Moseley. In her display booth were to be seen many fine plants, baskets, ribbons and a nice display of cut flowers; in fact the best of everything she had was lost. This is the second fire within a few months in which she has lost heavily. Miss Moseley is one who makes the best of such situations, and we all wish her better luck in the future.

Miss Hayden, of Samuel Murray's, reports many large wedding decorations. A large affair at Leavenworth kept this firm busy the first of the week.

The store of the Alpha Floral Co. was entered by burglars one night last week. They succeeded in getting away with the contents of the safe.

Chas. Heite is sending in some fine chrysanthemum plants. The foliage this year is perfect and the plants are clean and healthy.

Edward Hunt, formerly manager of the floral department of the Owl Drug Co., has accepted a position at Geo. M. Kellogg's.

Miss Jennie Murray reports a good trade. An attractive display is maintained at all times in her store.

D. Fruedenthal reports quite a run of funeral work and an increasing counter trade.

Chas. M. Wise is in charge of the floral department of the Herndon Seed Co.

M. E. Chandler says shipping trade this season is the best for years.

K. C.

Buffalo,

STOCK SCARCE.

Cool and fair weather was our luck the past week, but the increase in supply of stock is not noticeable as yet. The first crop of chrysanthemums is far from being as good as last year. The local growers in trying new varieties for early flowering evidently discarded too many of the older kinds, and consequently the stock the past week has not been what it should have been. This is the case with nearly all the growers, and the few good flowers that have been on sale have been shipped here from other places.

NOTES.

Trade the past week has been fair, no very large weddings or receptions being recorded, except a very large banquet tendered the Hamilton, Ont., lodge of Free Masons by Washington lodge of this city. It was a very elaborate affair, Anderson supplying the decorations.

The stores of W. J. Palmer & Son and S. A. Anderson are prettily decorated with pumpkins, corn stalks and rail fences, depicting in every way the approach of Halloween.

Recent visitors were A. E. Boyce, Wellsville, N. Y.; R. J. Irwin, Vaughan's Seed Store, New York; J. Dilloff, of Schloss Bros., New York; S. S. Skidelsky, Philadelphia, Pa.

BISON.

MULHALL, OKLA.—C. H. Wisner is about to build a new greenhouse.

HEADQUARTERS FOR

Pandanus Veitchii, 5-in. pots, $4.00 per doz.; 6-in. pots, $6 00 per doz.; 6½-in. pots, $9.00 per doz.; 7-in., $18.00 per doz.; 8-in., $2 00 each.

Primula Obconica, $2.00 per doz., $15.00 per 100.

Rubbers, 6-in. pots, $6 00 per doz.; 6½-in., branched, $9.00 per doz.; 6½-in., single stem, $8.00 per doz.; 7-in., branched, $9.00 per doz.; 10-in., 3 in a pot, $2.00 to $2.50 each.

Surplus of **Ardisia Crenulata** for next year fruiting, very fine, branched, 4-in. pots 1 ft. tall, spread 8 in. to 10-in., $40.00 per 100; 4½-in., $50.00 per 100.

Asparagus Sprengeri, $5.00 per 100.

Anton Schu'theis 19th St. and 4th Ave., College Point, L. I., N. Y.

SPRINGFIELD, MASS.—For the care of her tropical plants, Mrs. John M. Smith has just built another greenhouse at a cost of $5,000. An Italian pergola has also been erected over the fountain on the lawn. This pergola will next summer be covered with climbing roses.

WINONA, MINN.—The Fuhlbruegge Bros. have pulled down the greenhouses at 40 W. Fourth street and have consolidated their entire plant at their Fifth and Kansas streets place. They have just completed three new houses here and now have a total of 10,000 feet of glass.

Carnations, Lilies, Roses, Valley,
Adiantum Hybridum, Violets,
Box Wood Sprays, Wild Smilax.

22 Oliver Ave., PITTSBURG, PA.

Toronto.

BUSINESS ACTIVE.

Business for the past week has been very active and large quantities of cut flowers were used for a number of large funerals and fall weddings. Chrysanthemums have been coming in very heavily and roses are in very large supply. Carnations with some of the growers are not yet producing in quantity but with the exceptional supply of chrysanthemums this scarcity is not noticed. Most of the retail stores are using quantities of foliage for the decorations and some very fine cattleya and lily of the valley arrangements are used.

NOTES.

Robert Abbs has made a great improvement at his establishment this season. He has torn down five houses and replaced them with three more modern houses which are just about completed. Other years he has grown mostly roses but this year they have been dispensed with entirely. Carnations now predominate. With the good houses and excellent appearance of the stock the place looks very promising.

J. H. Dunlop's American Beauty range is a sight to behold. The plants are very healthy and vigorous, with beautiful dark green foliage and the flowers that are being cut have all long pointed buds so desirable in this variety. Their roses and carnations are in excellent shape and with the chrysanthemums and other flowers now in bloom the establishment is well worth a visit.

Wm. Jay, Jr., met with a severe accident returning to his home from business Monday evening. While alighting from a car the car gave a jerk and his hands being full of parcels, he had no control of himself and struck his head on the curb. He remained unconscious three days and at this writing his chances of recovery look dubious to his medical advisors.

Thomas Manton, of Eglington, has a very good sport of Kalb chrysanthemum. This is a very pretty shade of yellow and its early blooming qualities should make it very desirable.

Grobba & Wandrey, of Mimico, have a patch of 10,000 Lager chrysanthemums which are just beginning to bloom and certainly make a very imposing sight.

In seedlings, Geo. Hollis has a shell pink, very fully petalled and strong stemmed. H. G. D.

Louisville.

BUSINESS GOOD.

Business the early part of the week was very good, and the average for the week was probably satisfactory to all. The weather is very seasonable, and the florists' profit can be seen rising gently above the smoke stack. Chrysanthemums are with us in great quantities, and although they are having a very heavy demand, the supply is so great that a great deal additional business could be easily accommodated. Pink is the only color a little scarce, but these will soon be with us in quantities. The usually good demand continues with roses. The quality is generally satisfactory, and the supply about equal to the demand. Carnations of good quality are now to be had in better quantities, and find a very heavy demand. Violets are plentiful, and are having a satisfactory demand. The quality is very good. Lily of the valley continues to have a good demand, but is very hard to get in quantities. The quality is very good. Green goods have been in satisfactory supply. F. L. S.

NEWTON HIGHLANDS, MASS.—A. H. Fewkes is building another greenhouse on Hyde street.

WALDEN, N. Y. — Mrs. Margaret Wood is erecting a greenhouse at her home on Montgomery street.

WOODHAVEN, N. Y. — G. F. Neipp, having been compelled to vacate his premises in the interest of the water department, has located at Chatham, N. J.

RATON, N. M.—A. E. Gillum reports that chrysanthemums are coming in nicely. Fall has been fine and open till October 4 when six inches of snow fell. The sky was almost clear and the storm came up without any warning.

SPRINGFIELD, MASS.—F. S. Pearson is having plans made for three large greenhouses to be built at Edgewood farm. The houses will be very large and one will be devoted entirely to the use of tropical birds. The other two will be for the use of exotic plants.

MARION, O.—B. K. Wagner, the landscape artist of the Wagner Park Conservatories, of Sidney, has completed his work of staking off the sites of the three city parks and preparing plans and specifications. He has returned to Sidney and will come back only in case of emergency.

THE BENTHEY-COATSWORTH CO.

35 RANDOLPH ST. WHOLESALE FLORISTS CHICAGO.

Chicago.

MARKET VERY ACTIVE.

Trade early this present week more than resumed the lively tone usual at this time of year. As was to have been expected the horse show has livened up things to a marked degree locally. The Vanderbilts and other wealthy New Yorkers coming to town, beside the return of several of our own most prominent society folks, has meant numerous dinners, receptions and decorations. All Saint's day has caused the shipment of regular Decoration day orders to all points south, especially New Orleans. But with this increased demand has come a more or less general scarcity of stock. Chrysanthemums have the center of the stage and are in great demand to supply the lack of roses and carnations. American Beauty is fairly plentiful, but other roses are hard to get. Carnations are holding up rather stiffly, due to the increased demand together with the dull weather of the past few days and the fact that many plants died off in the field before they could be transferred to the houses. The shipping trade is readily taking all that are offered. Lilies are not numerous as yet. Lily of the valley is being taken about as fast as it comes in. Some gardenias are seen on the market, also the average supply of orchids. Green goods are being received in quantities and the demand is satisfactory.

AT THE WHOLESALE HOUSES.

The first annual reception of the wholesale florists' employes came off Wednesday evening as planned and was greatly enjoyed by all in attendance. The hall had been beautifully decorated previous to the occasion at a cost of $400. The overhead work consisted of artificial morning glory vines. White chrysanthemums were used in profusion about the hall. Fitzgerald's orchestra was half hidden behind a bank of palms. Each lady wore a rose, each gentleman bore in his coat a white carnation. The Geo. Wittbold Co. had charge of the floral features.

The A. L. Randall Co.'s new catalogue, attractively printed in two colors, is just out. The extra work, due to the double printing as well as some unforseen obstacles, has delayed the issuing of this at the time intended, but will now shortly be in the hands of customers and inquirers. The booklet is entirely unique in the way of florists' catalogues. Mr. Randall is receiving some novel designs in baskets, fern pots and pot covers from the other side.

Weiland & Risch are showing some exceptionally fine violets, both single and double. In fact the entire general line of this firm is in excellent shape. It takes time to sort out the stems and blooms of roses, but it pays. Taken into the cooling room one is shown jars of roses and carnations; the tops are all even and the ends of the stems no less so.

E. C. Amling is an exponent of the maxim which says, "don't shove, but keep pushing." He says business was just a little better last year than the year before, and this year sees another perceptible gain. This is a house that believes in keeping last year's books open beside the current set. "Something is wrong," says Mr. Amling, "when there is not some progress."

"THE BUSIEST HOUSE IN CHICAGO."

J. B. DEAMUD, Pres.
W. P. KYLE, Vice-Pres.
ALEX. NEWETT, Mgr.

J. B. DEAMUD CO.,
51 and 53 Wabash Ave., CHICAGO.

The Poehlmann Bros. Co. was put to some inconvenience by the explosion of a boiler on a fast Milwaukee & St. Paul freight at Morton Grove the morning of October 24. The blockade lasted from 6 o'clock until nearly 4 p. m. Flowers had to be reshipped by way of Niles Center. This firm is showing some of the finest chrysanthemums seen in the market.

Henry Wietor is up and around again after a month in bed with a lame foot. About a month ago he was standing on a railway track when lightning struck the rail nearly a mile away. Mr. Wietor was thrown to the ground and suffered severely as a result of the shock and fall.

E. H. Hunt is shipping some extra fine grades of chrysanthemums. In view of the shortage in other stocks this firm is going in more heavily for this queen of autumn flowers. They report receipts of a good grade of both eastern and locally grown violets.

J. A. Budlong Tuesday afternoon could well smile on a market which was about as short of roses as it was of carnations. In some manner or other he managed to lay his hands upon an enviable stock of desirable varieties.

The E. F. Winterson Co. last week received the first shipment this season of robin berries. This firm also reports receiving plenty of Lawson, Flora Hill and Boston Market carnations. Enchantress is rather scarce.

The shipping business of Vaughan & Sperry is growing apace, this past week taking the banner in that regard. This firm was showing violets of superior quality Tuesday, received from eastern growers.

Chas. W. McKellar received a fine lot of gardenias Monday for the horse show. He also received an unusually fine collection of miscellaneous orchids in addition to his usual supply of cattleyas.

The Kennicott Bros. Co. received an order for 10,000 violets Tuesday afternoon from Honaker "the Florist," of Lexington, Ky. Six thousand were shipped, but the firm was shy the other 4,000.

The Benthey-Coatsworth Co., is showing a quantity of excellent Killarney, consigned from their New Castle (Ind.) establishment. Bride, Bridesmaid and Richmond are also giving good satisfaction.

Wietor Bros. do not dread the advent of cold weather as they already have on hand 2200 ton of coal, a part of their winter supply. This firm disposed of 3000 chrysanthemums last Monday.

Sinner Bros. are getting a satisfactory proportion of the business that comes into the Flower Growers' Market. Trade has been on the jump and presages a most prosperous season.

Scheiden & Schoos, report a swelling trade in wholesale cut flowers. They say that if everything continues as it has begun this season they will be more than satisfied.

The growers are complaining of small cuts of carnations. Mrs. N. C. Moore, whose usual cut is from 1200 to 1500, only brought 450 blooms to market on Monday.

Bassett & Washburn had a tremendous run on all lines of stock from southern points for All Saints' day demand. Regular Decoration day orders were received.

The J. B. Deamud Co. early this week received a fresh stock of southern smilax and leucothoe.

Peter Reinberg has an excellent crop of Perle roses. They show fine form and color.

Zech & Mann report the receipt of some excellent Harrisii lilies.

BUSINESS GOOD.

The past week was satisfactory, weddings, teas and other seasonable entertainments keeping all hands on the jump most of the time. The chrysanthemum is now the favorite flower and some fine stock is seen. One of the best just coming in is Wm. K. Harris' Florence Harris. It is a very fine large light yellow, shading lighter from center of flower to outer edge of petals. The stem is strong and the blossom has a vigorous look. Mr. Harris grows them two to three flowers to a plant. He has never placed the plants on the market, but if some of the exhibition growers get a chance at this variety they would produce blooms the equal of anything yet seen. Varieties now in bring from $2 to $3 for the fancies, lower grades $1 to $1.50. Owing to the competition American Beauty roses are lagging a trifle and quite a few ready for use were seen in the commission houses Monday morning last. Prices range from $1 to $3 per dozen. The quality is excellent. The dull weather of the past week affected Killarney, the flowers coming in very pale in color. White roses are very plentiful and seem hard to move. Carnations are more plentiful, some very choice Enchantress being seen. Prices are easier than last week, $2 to $4 according to quality. Robert Craig is showing up as a fancy red. Violets are still improving. Something choice in La France is now seen in the market. Lily of the valley is in very good demand at from $3 to $5.

NOTES.

The improvements at the Century Flower Shop are now completed. The greenhouse or conservatory in the rear is a great addition and gives a much needed show room for plants. A greenhouse adds greatly to a plant display, the light and moist atmosphere making it doubly attractive. The interior of the store is much improved with the added room obtained. Tall latticed arches extending up to and across the ceiling give an arbor effect which is enhanced by blossoms of wistaria and hanging Japanese vases. Cut flowers are kept on shelves in the rear of the counter, with prices on each jar, in fact each plant or other article for sale has a price prominently attached. "Low prices" is the feature of the store and while the grades of flowers handled are not high yet they must be fresh. The ice box is conspicuous by its absence. "We do not buy flowers to keep; we aim to have the stock constantly on the move so that it is always fresh," says Mr. Battles, "and save the room of this cumbersome fixture for a better purpose." The popular price business has grown to large proportions, while the high class trade established by Mr. Battles and conducted by him so successfully for years in the adjoining property keeps forging ahead. Such examples show the possibilities of the business in this and every other large city in the country.

John Welsh Young, of Germantown, is critically ill with appendicitis. An operation which afforded relief was performed last Saturday. He is in the Germantown hospital and his many friends in the trade are deeply solicitous for his welfare. If their wishes for his recovery help any he will soon be out again, so often are they expressed.

The news of the accidental death of J. L. Dillon, of Bloomsburg, was a great shock to the trade here. Mr. Dillon was long a member of the Florists' Club and was very popular with his associates.

K.

Boston.

LULL IN THE TRADE.

For the past week business conditions have been below normal and stock of all kinds has consequently accumulated. No cause is apparent, simply a lull in trade which in the early season is quite frequent. Funeral work has fallen off considerably and with the October weddings all negotiated the cut flower trade has occupied the center of the stage. Stock of all kinds has dragged lightly but no serious losses have resulted. As the season advances the more noticeable is the usually choice attractive displays of chrysanthemums. Quantities of inferior stock of different colors are on hand, but the supply of extra fine blooms is greatly deficient. Heretofore there has been a surplus of this grade which sold well at fancy prices; however, this season's stock is so far very ordinary indeed. But for the beautiful selection of roses obtainable the consequences would no doubt be more serious, as carnations are very slowly improving and by no means as yet up to the standard. Worthy of especial mention are the magnificent Richmond roses coming to market now. American Beauty is plentiful, and, although principally of medium grades, the blooms are first class in color, size and substance. Carnations are improving but slowly. Enchantress bids fair to retain the popularity attained last season, but with Fair Maid at its best very little choice lies to its credit.

NOTES.

A select bowling league has been formed by representatives of the wholesalers on one team and the salesmen of the Waban Rose Conservatories on the opposing team. At the Haymarket alleys, October 23, the wholesalers were victors after several hours of strenuous bowling. The wholesalers are captained by Christopher Donovan and on the team are Messrs. Fallon, Reynolds, Free and Campbell. Patrick Donahue is leader of the Waban Rose men and Messrs. Cartwright, Leamey, Hannon and White on the team. The league will bowl every Tuesday in the future at McCarthy's alleys and interesting scores are awaited.

The stockholders of the Park Street Market held their annual banquet and election of officers October 27 at Young's hotel. After dinner the routine business was transacted, following which came the election of officers. The only change in the personnel was the retiring of Arthur Kidder. To fill the vacancy Andrew Christiansen was elected to a seat on the board of directors. A large attendance was recorded and the chief topics under discussion were all related to the successful handling of cut flowers to the best advantage of the purchasers.

The new establishment of Henry M. Robinson & Co. at 15 Province street and 9 Chapman place was formally opened to the public October 29. In the evening refreshments were served to a large number of tradesmen who had called to extend their best wishes for the success of the firm in their new undertaking. Open house was the programme for the evening, which was very much enlivened by an orchestra furnishing suitable music for the occasion.

W. H. Elliott has succeeded beyond all expectations in his cultivation of the Richmond rose. For the last month he has daily cut a good crop of this variety, which has become the greatest attraction on the rose market. With superb blooms of grand color and wonderful formation, and good strong stems three feet long, little could be desired to make this rose more attractive.

Antoine Leuthy, the extensive palm grower of Roslindale, spent last week inspecting the leading establishments of New York and New Jersey. Mr. Leuthy is one of the most successful of our local growers, having begun at the bottom of the ladder and by diligent study and labor has achieved great renown.

Frank H. Houghton, of Houghton & Clark, was at his place of business October 26 for the first time in three weeks. He has had a severe attack of the grippe and his re-appearance has greatly relieved his friends.

MARKET DULL.

The market is dull and there is nothing which might make business good. Roses are in abundance and general varieties do not appeal to the trade as staples. American Beauty is rather scarce, but the buying does not go beyond 20 cents for top grades. Carnations are not plentiful, and Enchantress is easily the best of the offerings. Chrysanthemums are the best thing in the market, and with the late varieties now in evidence other staples are hard to move. Orchids are very plentiful, and Cattleya labiata is to be seen everywrere, sales running as low as 25 cents per bloom. Violets are a good thing, prime arrivals running to 75 cents per hundred. Lilies are scarce and such as arrive bring easily $2.00 per dozen. Lily of the valley is short in supply, and the maximum of quotations shows about what it is bringing. Calla lilies are shown here and there and sell well, mainly for church effects.

The Market, October 31.—The market is rather dull today and arrivals in excess of demand.

NOTES.

Chas. H. Totty was in town last Saturday with a grand vase of his new chrysanthemum White Duckham, which he exhibited before the examining committee of the Chrysanthemum Society of America. It is an exact counterpart of the pink Wm. Duckham in all but color. It will be exhibited at the Chicago show, Mr. Totty entering quite an extensive exhibit which he will personally look after. Show chrysanthemums are very late in acquiring the desired form this year, and exhibitions are suffering somewhat in consequence.

Julius Lang, the Thirtieth street wholesaler, has gone out of business and the business is discontinued. Mr. Lang had been located in the abandoned quarters 12 years, and was the last of the Thirtieth street commission men. The street no longer figures in the cut flower district.

The Hinode Florist Co., of Whitestone, L. I., has taken a stand at the New York Cut Flower Exchange, and is handling some very fine chrysanthemums there every morning.

The fall shows are opening in this section, those at Madison and Tarrytown drawing many trade visitors from New York.

C. C. Matthies of Woodside, L. I., is lying at the Polyclinic hospital, seriously ill with a cancerous growth in the neck.

Paul and Henry Dailledouze will be among those in the trade who will attend the Chicago show.

Albany, N. Y.

F. A. Danker, the Maiden Lane florist, spent two days last week in attendance at the chrysanthemum show at Lenox, Mass. He returned quite enthusiastic over what he saw and believes that the chrysanthemums on exhibition were forced considerably earlier than by the average commercial grower. During the trip he paid a visit to the large private conservatories of W. D. Sloane and Gerard Foster where he saw chrysanthemums with the main and only stock as thick as one's thumb, towering aloft for about 11 feet and bearing at the summit a single blossom that would put an ordinary hat to shame for size. Lenox is the abode of many wealthy people who own vast estates adjoining one another for miles in the fair region of the Bershires. In the conservatories he saw luscious peaches, grape vines bearing immense clusters and other fruits that one sees ordinarily only in the late summer.

Whittle Bros. furnished the decorations for the New Hampton hotel which opened for business October 29. The firm sent from its store and greenhouses a large collection of foliage plants of all kinds which were distributed in the lobbies, office, dining rooms and principal places of public assembly. The dining tables were tastefully decorated with roses and carnations. The new hotel is a first class addition to the city's list of hostelries.

Patrick Hyde and a number of local florists are planning to hold a beefsteak supper in Hyde's new office building as soon as the edifice shall have been completed. R. D.

Washington.

STOCK SCARCE.

The condition of trade has varied but little within the past week. There were a few wedding decorations and about the average amount of funeral work and counter sales. There is a noticeable increase in the quantity of chrysanthemum stock. Some large sized blooms are to be seen, but most of the business is being done with those that sell at from $1.50 to $3.00 per dozen. The weather of this season was not of the kind that puts constitution in plants; it is therefore safe to say that the finish of the chrysanthemum season is not yet "but soon." Carnations continue scarce and of the blooms that do come in a considerable proportion are poor. Enchantress, as a rule, is sustaining its reputation but Lawson seems to be going backward. In white, Lieut. Peary and White Perfection seem to be among the most promising of the newer varieties. In scarlet Robert Craig, Victory and Cardinal are all doing very well. Cardinal is now more promising than when it was first tried in this locality. The writer, in the matter of the Killarney roses, feels justified in saying "I told you so." The Killarney has made a hit here and everybody wants it.

THE GOVERNMENT GREENHOUSES.

At the propagating gardens may be seen a fine collection of chrysanthemums. Among the most noteworthy specimens are Baden-Powell and Amorita, pink; Lord Alverstom, variegated; O. P. Bassett, Donald McLeod, and De Italie, yellow. W. J. Bryan is a fine white, while Casco is a crimson such as should delight the eyes of those who admire that color. In carnations, the Flamingos grown at the gardens are noteworthy, not only for their excellence but from the fact that many growers have not been successful with it. Cardinal is also grown with success.

At the Department of Agriculture there is a promising exhibit of carnations. Enchantress, Lawson, Robert Craig, Lieut. Peary and other varieties are here grown in addition to a large lot of seedlings. Mr. Furmage, rose grower at the propagating gardens, who had three ribs fractured, about a month ago, has recovered sufficiently to resume work. Noteworthy improvements in landscape work, have this year been made along the speedway and the part of the Potomac embankment adjacent to it.

NOTES.

At Alex. B. Garden's, where the carnations are all grown on solid beds, stock is looking fine. While Mr. Garden does not claim that the beds are superior to benches he thinks they are just as good, and that the saving in lumber compensates for the slight decrease that may occur in the number of blooms. Next year he intends to substitute concrete for the boards that are now used around the sides and ends of the beds. At the rate that the fashion is spreading it looks as though we would soon have celebrated politicians and lobbyists, "done," not as they now are in bronze and marble, but in concrete.

John Robertson, Henry Pfister and others have recently received from Dreer's consignments of fine decorative palms. The genial Mr. Gowdy, drummer for the last named firm, is a quiet man but he gets the orders.

The feature of Z. D. Blackistone's window, this week, is a large basket and vases of cattleyas, from Geo. Field's range. The flowers run 5 and 6 to a spray and finer specimens could not be found.

Davis Bros. are sending in a fine quality of Princess Louise violets. They have also an equally good quality of white violets.

A. T. De La Mare, New York, made a business trip to this city during the past week. S. E.

Pittsburg.

MARKET ACTIVE.

The abundance of chrysanthemums coming in affects all other lines except carnations. All growers seem to be cutting heavily in Ivory. Viviand-Morel is selling well, while Appleton holds the board in yellow. Roses are quite plentiful especially the smaller grades. Lilies are more plentiful but on account of the chrysanthemums are slow sale. Greens are over plentiful.

NOTES.

At a meeting of the wholesalers it was agreed not to handle any stock of growers who sell directly to the retailers and dump the balance in the wholesale houses, as they never can be depended on.

The wind storm on Saturday caused considerable damage to greenhouse men. Ernest Fisher was fortunate in getting a wind breaker erected in time to prevent serious loss.

The Florists' Club will meet November 6. Chrysanthemums will be exhibited and discussed.

J. B. Murdoch & Co. are handling some very nice American Beauty.

The Pittsburg Florists' Exchange is handling some select carnations.

The Pittsburg Cut Flower Co. is busy moving into its new quarters.

Visitors: J. S. Crall, Monongahela City; Geo. L. Huscroft, Steubenville, O., and S. S. Pennock, Philadelphia.

The Seed Trade.

American Seed Trade Association.
H. W. Wood, Richmond, Va., Pres.; C. S Burge, Toledo, O., First Vice-Pres.; C. E. Kendel, Cleveland, O., Sec'y and Treas. Twenty-fifth annual convention at New York, 1907

THE Elgin Seed Co., it is stated, has been forced into the hands of a receiver by one of its creditors.

CHICAGO.—Leonard H. Vaughan is rejoicing in the arrival of a son at his home, a Halloween baby.

THE Southern Shippers' Guide is offering a packet of Burrell's Gem cantaloupe seed free with every 50 cent subscription.

VISITED CHICAGO: E. J. Sheap, of S. M. Isbell & Co., Jackson, Mich.; Alfred Emerich, representing Vilmorin-Andrieux & Co., Paris.

The Question of Discounts.

We read with a great deal of interest the open letter under the heading as above, and wish to say that, to us, the matter of discounts and premiums is a practice that there is absolutely no excuse for. Who ever heard of a discount on postage stamps or who ever bought Ivory soap for the premium? Invariably the child buys the peanuts for the prize and not for the peanuts, but we are not dealing with children.

We cannot agree with our friend who took the look through "the various catalogues for inspirations, etc.," when he argues that "we are giving away altogether too much." A further look "for inspirations" will reveal the fact that the $1.25 worth of seed for $1—for every $1 worth of seeds ordered in packets you may select 50 cents worth extra, etc., etc.,—has been amply provided for in the original price asked.

This practice may not be intended to deceive the innocent buyer, but the copy for these glittering offers was surely not written on the fly leaves of the good book.

It is not naturally supposed that the rank and file of people who plant seeds are as capable of discerning a deceptive offer as the man who writes the copy for the average seed catalogue. For this reason, if no other, a misleading statement or an offer purporting to give more than a dollar's worth for a dollar, approaches an act of criminality.

We believe that the time is now here when every man should ask just what he expects to get for any commodity which he may have to offer, and not employ any subterfuges in order to make the sale.

ANOTHER SEEDSMAN.

French Seed Crops.

Paris, October 9.—Since sending you my last notes several weeks ago, the situation in the leading growing districts of France has far from improved. Although in a few regions they were favored with some light thundershowers, the quantity of rain falling during the summer was so trifling that it can be said that the drought remained unbroken from May to October, while during all that time the weather was unusually warm.

The great seed growing districts of western and southewestern France suffered most of all, and have had very poor crops of everything, peas, beans, potatoes, forage, etc. Not since 1893 has such a protracted drought been experienced there, and agriculture will lose heavily. The soil having been dust dry for several months, no forage plants, no cabbages or kales, no turnips, no mangels could be planted or sown at the right time. The pasture, on the other hand, having been in a parched or withered condition for many weeks, the farmers had to fall back on their usual winter supply to prevent cattle from starving, which in many cases is already exhausted or greatly reduced. This is quite a serious matter, if we consider that the districts referred to (west and southwest) are also centers in the rasing of cattle, of which they possess 1,500,000 head. If for want of the necessary food farmers will have to sell their annuals during winter, it can only be at ruinous prices, while they may have to pay famine prices in the spring for buying some cattle back.

The drought will have a disastrous effect on the biennials grown for seed for 1907. In the regions where they have had some rain in September, and where the soil is light and permeable, the farmers profited by the little moisture to put out their cabbages, beets, carrots, etc., but the young plants had suffered so long in the seed beds that most of them could not withstand the dryness which succeeded afterwards. The plants which were left are weak, and should weather not prove most favorable during the whole winter, many of them will go further under. Heavy land was too dry, even after the few showers, to admit of its being worked and receive the young plants. We may, therefore, claim without fear of being

mistaken, that the acreage planted in western France for seed purposes for next year in beets, mangels, cabbages, carrots, parsnips, onions and leeks, is very much reduced, and will be still more so if the weather during the winter is not quite favorable.

Taking the above situation into consideration, and considering besides that we have now had three or four short beet crops, that not a single pound of the leading sorts, such as Detroit, Crosby's Egyptian, Eclipse, Dewing, Edmand's, will be left over at the end of the present season, and that the plantations in southern France have also been very much reduced by the protracted drought, we can positively aver that beet seed, particularly, will again be very short in the fall of 1907, and most probably high priced.

In the face of such discouraging crop conditions, some growers threaten to refuse to grow on contract in future, unless it be at a great advance in price.

Regarding this year's deliveries, the receipts from the growers are very disappointing. Beets and radishes are falling short of even the gloomiest predictions. Some varieties are absolute failures. French market gardeners will have to be satisfied with some yearling radish seeds, showing a vitality of only 50 per cent., or do without the seed.

To judge from the orders received from seedsmen, they are contented with such a low germination; but what else can they do if they wish to sell radish seed? Our gardeners prefer seed of good quality showing a somewhat low vitality to the reverse. The only thing for them to do is to sow a little thicker.

PARISIAN.

Big Deal in Cobalt Stock.

It is announced that Hiram W. Sibley, a seed merchant, of Rochester, who has been in control of the McKinley-Darragh - Savage Mining Co., at Cobalt, transferred October 27, at private sale 500,000 shares of the stock at a price considerably above the market. The purchaser is a director and officer of one of the biggest industrial corporations in America, and it is expected that several new directors will enter the McKinley-Darragh board in the near future as a result of the deal. —New York Herald.

The Nursery Trade

American Association of Nurserymen.
Orlando Harrison, Berlin, Md., President; J. W Hill, Des Moines, Ia., Vice-President; George C. Seager, Rochester N. Y., Sec'y.
Thirty-second annual convention, Detroit, Mich., June, 1907.

THE retail demand for peony roots has been exceedingly lively this fall.

AUTUMN foliage is very beautiful as long as it lasts but in dead of winter we have only bare stems to look at on deciduous trees and shrubs. Here is where the red stemmed dogwoods and yellow willows come in. On a bright winter day these light up beautifully in the sun, especially if planted in front of evergreens and grouped in sufficient numbers to be effective. When dull this kind of thing is about the only relief we have from the somber effect of the landscape.

American Civic Association.

The annual meeting of the American Civic Association was held at Milwaukee, Wis., October 24-26, the headquarters of the association being the Hotel Pfister. The morning of the first day was devoted to the address of welcome by Hon. Sherburn M. Becker, mayor of Milwaukee, responded to by President J. Horace McFarland; the annual review, and the reading of the treasurer's annual report. In the afternoon the following reports from the departments were read: "Arts and Crafts," by Mrs. M. F. Johnston; "Children's Gardens," by Dick J. Crosby; "City Making," by Frederick L. Ford, read by C. H. Barber, Hartford; "Factory Betterment," by E. L. Shuey; "Social Settlements," by Graham R. Taylor; "Press," by Frank Chapin Bray; "Public Nuisance," by Harlan P. Kelsey; "Parks and Public Reservations," by Andrew Knight Crawford; "Railroad Improvements," by Mrs. A. E. McCrea, and "Rural Improvement," by O. C. Simonds.

At the evening session "Milwaukee's Share," an illustrated paper by R. B. Watrous and A. C. Clas was given, followed by "The Travelling Library, and Civic Improvement in Wisconsin" by Miss L. E. Stearns, and the reception to delegates. The following officers were elected for the ensuing year: J. Horace McFarland, Harrisburg, president; James D. Phelan, San Francisco, and L. E. Holden, Cleveland, vice presidents; W. B. Howland, New York, treasurer; R. G. Ogden, New York, chairman of the advisory committee.

The chairmen of the departments were chosen as follows: Mrs. M. F. Johnston, Richmond, Ind., "arts and crafts;" Miss Mary M. Butler, Yonkers, N. Y., "children's gardens;" F. L. Ford, Hartford, "city making;" Miss G. Becks, New York, "factory betterment;" Miss Mary E. Ahern, Chicago, "libraries;" W. H. Manning, Boston, "outdoor art;" Joseph Lee, Boston, "public recreation;" H. M. Watts, Philadelphia, "press;" K. P. Kelsey, Philadelphia, "public nuisances;" A. C. Clas, Milwaukee, "parks and public recreation;" Mrs. A. E. McRea, Chicago, "railroad improvement;" D. W. King, Maitland, Mo., "rural improvement;" O. J. Kern, Rockford, Ill., "school extension," and Graham R. Taylor, Chicago, "social settlement."

"Civic Beauty and Civic Safety," by F. J. Stilson, Los Angeles; and "Architecture and Civic Progress," by F. D. Mann, St. Louis, were the morning papers on October 25, this being followed by a discussion in which the speakers were limited to five minutes each. The afternoon papers were: "What Women Are Doing for Civic Improvement," by Mrs. Edward L. Upton, Waukegan, Ill.; "Cleaning Up Days," by Mrs. Edwin F. Moulton, Cleveland, O.; "The Richmond Story," by Mrs. M. F. Johnston; "The Niagara Campaign," by J. Horace McFarland; and "The Billboard Nuisance," by Harlan Kelsey. The election of officers for the "Woman's Outdoor Art League" was held with results given: Mrs. Edwin F. Moulton, Ohio, president; Mrs. A. W. Sanborn, Ashland, and Mrs. J. C. Haynes, Seattle, first and second vice presidents respectively; Mrs. Agnes McG. Pound, Ashtabula, secretary; Miss A. J. Rogers, corresponding secretary; Miss Myra F. Dock, Pittsburg, treasurer; Mrs. Thos. H. Brown, Milwaukee, Mrs. C. H. Millspaugh, Chicago, Mrs. Arthur Noble, Santa Monica, Cal., Mrs. A. W. Griffith, Miss Helen A. Whittler, Boston, and Mrs. E. P. Turner, Dallas, Texas, directors.

The morning of October 26 was taken up by papers on "The Appalachian Reservations," by Ernest A. Sterling, of the Forest Service, Washington, D. C., and Dr. J. T. Rothrock, secretary of state forestry reservation commission, of Pennsylvania, read by Graham R. Taylor; "Mosquito Extermination," by Prof. F. L. Washburn, Minneapolis; and the discussion of improvement topics with speeches limited to five minutes each. In the afternoon the delegates were conducted to various points of interest, including the art gallery, the seventh district school, and the city parks. As the guests of the city parks commissioners the association passed resolutions thanking the Milwaukee hosts for their generous hospitality and courteous treatment, especially the Citizens' Business League and its secretary, R. B. Watrous. Minneapolis is said to be very desirous of being the venue of the next meeting.

Cleveland.

THE MARKET.

The warm turn in the weather the past week has increased the cut in all lines and with quantities of chrysanthemums in market other stock has suffered accordingly. Carnations are still in great demand and roses are to be had in quantity, especially white which always drags in chrysanthemum season. American Beauty is coming in fine, but the demand is not strong at this time.

NOTES.

A visit to the establishment of A. Graham & Son found everything in first class shape. Three houses of chrysanthemums that were just coming in give promise of producing fine flowers. Carnations, of which there are several houses, were all looking fine, also a house of poinsettias, which could not be improved upon. This firm may well be proud of its place, as it is up to date in every respect and second to none in this section.

Smith & Fetters have been showing the latest in violet boxes the past week. They are of gilt paper and have violet lettering.

A. M. Coe is cutting some fine early chrysanthemums for the Cleveland Cut Flower Co.

W. A. Calhoun is sending in some fine Gov. Herrick violets to this market.

OHIO.

ELGIN, ILL.—Business has been good here the past season and the florists have shared in the general prosperity. All the florists have been rebuilding and repairing and they are all looking for good fall and winter seasons.

FLORISTS' CLUB MEETING.

The Florists' Club has at last decided to move to better quarters. The new room is much better situated, is furnished nicely, and hereafter the club will have the use of a piano, a fact which will be appreciated by all. It is hoped that more cheerful quarters will have a tendency to increase the average attendance, which of late, has been rather discouraging. At the last election of officers, held October 16, the following were elected: Sherman Stephens, president; Mr. Curry, vice president; Jas. McKellar, secretary; Jacob Reichert, treasurer; and Messrs Knopf, Drobisch, Bruce, Bauman and Woodroe, trustees; John Williams, sergeant-at-arms.

John Hellenthal has a large, new, strictly modern house on his place and is producing some of the finest carnations in the city. His Lawson is especially good and is attracting some attention in local circles.

Geo. Bauman, who took first prize for asters at the state fair, also ranks first as a reliable fern man. He is bringing in some fine stock from his southern fields, which, he claims, are practically inexhaustible. CARL.

Fall River, Mass.

MILL PREMISES BEAUTIFIED.

A revival of interest in the plans for beautifying mill and factory premises in this section of the country is apparent. Through the Blackstone valley for instance many of the manufacturing corporations have engaged landscape gardeners to grade the grounds surrounding their factories, and lay out shrubberies, lawns and flower beds. At Marshall Bros.' hat factory the work has been going on for 10 or 12 years, a gardener being constantly employed, and the massed shrubberies and rich looking hedges around the grounds make them very attractive.

The King Philip mills commenced similar operations last year, the Tupelow Hill nurseries, Meshanticut, R. I., manager E. R. Robbins, being entrusted with the work. Elliptical and other curvilinear flower beds form part of this scheme. Very interesting will be the beautifying of the old mill pond at the Granite mills, Twelfth street. The rough stone borders will be planted with honeysuckle and other vine-like flowering plants and a series of flower beds in star formation will be laid out. Vine planting against the walls is frequent, and the effect of the fruit and foliage in autumn is very striking.

LOWELL, MASS.—Adolph E. E. Koch, for some time with C. J. Riley & Co., has severed his connection with that firm.

HOME AGAIN FROM EUROPE.

ROOM WANTED to place the big importation of plants I bought in Belgium and Holland. Prices greatly reduced, for a short time only. Buy now while the weather is warm enough for shipping, and while prices are low.

ONE OF THE LARGEST IMPORTERS OF ARAUCARIAS

These sizes were taken 2 months ago and plants are now much larger, but no advance in price.

ARAUCARIA EXCELSA

12 to 14-in., 5½-in. pots, 8 to 4 tiers, 2 years old, 50c; 14 to 16-in., 5½-in. pots, 3 to 4 tiers, 2 years old, 60c; 16 to 18-in., 5½ to 6-in. pots, 4 to 5 tiers, 3 years old, 75c; 18 to 20-in., 6-in. pots, 5 to 6 tiers 4 years old, $1.00; 20 to 24-in. 6 to 7-in. pots, 5 to 6 tiers, 4 years old, $1.25; 36, 40 to 50-in., 7-in. pots, specimen plants, from $2.50 to $3.00 each.

ARAUCARIA COMPACTA ROBUSTA—have several thousand of them: can supply all wants. These plants were never so fine in shape and condition as this year. The pet of the greenhouse: as broad as long: 20 to 25 in. in height 3 to 4 perfect tiers, 20 to 25 in. across. 3-4-5 years old, 6 to 7 in. pots, $1.25, $1.50, $1.75, $2.00, $2.50 to $3.00 each.

ARAUCARIA EXCELSA GLAUCA—this variety on account of its beautiful green-bluish tiers, dwarf habit, fine compact shape gives it a striking appearance, and anybody seeing the plants must undoubtedly fall in love with them at sight. Plants, 6 to 7-in. pots, 3, 4 and 5 perfect tiers, 3 to 4 years old 20 to 30 in. high, from 20 to 30 in. across, $1.25, $1.50, $1.75 $2.00 to $2.50 each.

KENTIA FORSTERIANA, 7-in. pots, made-up plants, 1 large in center 3 smaller sizes. 22 to 25 in. high around, gives them a good appearance, $2.00 each; 6-in pots, single plants, 35 to 40 in. high, 5 to 6 good leaves 4 years old, $1.25 to $1.50 each; 6-in. pots, 30 to 35 in. high, 4 years old, 5 good leaves $1.00; 5½-in. pots, 3 years old, 25 to 30 in. high, 5 good leaves, 75c. Made-up plants, 3 and 4 in. pots, 18 to 20 in. high, 25c to 30c each.

ARECA LUTESCENS, 5-in. pots, 24 in. high, made-up with 3 plants, 35c; 4-in. pots, 20 to 24 in high, made-up with 3 plants, 25c.

ARECA SAPIDA, just imported from Belgium, something new, very attractive, looks like Kentia, 25 in. high, $1.00.

COCOS WEDDELLIANA, 15c.

ASPARAGUS PLUMOSUS NANUS, 4-in. pots, large, bushy, 10c to 12c.

OUR LITTLE PETS.

ASPARAGUS SPRENGERI, 4-in. pots. 10c.

FICUS ELASTICA, 6-in., 50c.

FERNS, all raised in pots and not on benches as follows:

NEPHROLEPIS BARROWSII, 7 in. pots, as big as a bushel basket, 75c to $1.00 each; 6-in. pots, large, ready for 7-in., 50c; 5½-in., 40c; 5-in., 35c; 4-in., 25c.

NEPHROLEPIS SCOTTII, 8-in., as big as a wash-tub, worth $2.00, now $1.25; 7-in., as big as a bushel basket, worth $1.25, now 75c; 6-in., 50c; 5½-in., 40c; 4-in., 20c.

NEPROLEPIS ELEGANTISSIMA, 5-in. pots, 30c.

BOSTON FERNS, 7-in., very bushy, only 75c; 6-in., 50c or $5.00 per doz.; 5-in., 30c to 35c; 4-in., 20c.

FERNS—A fine assortment of Ferns for dishes, large, bushy, out of 2½-inch pots, $5.00 per 100; 3-inch, 6c each.

JERUSALEM CHERRIES, (or Solanum), 6-in. pots very bushy, full of berries, from $3.00 to $6.00 per doz.

DRACAENA BRUANTI, (imported), 30 in. high, 6-in. pots, 50c, $5.00 per doz.

CYCLAMEN, will bloom for Christmas, 5-in. pots, 20c; 4-in., 12c.

PRIMULA OBCONICA, best strain, 4-in. pots, 10c.

CHINESE PRIMROSES, in 4-in. pots, ready to shift into 5-in. pots, will bloom for Christmas, $8.00 per 100.

HYDRANGEA OTAKSA, only pot-grown is offered, sure success for Easter forcing, 6-in. pots, 25c; 7 to 8-in., 50c.

AZALEA INDICA, just arrived, selected by myself on my recent trip to Belgium. Have all leading varieties such as Deutsche Perle, Simon Mardner and Vervæneana. These three sorts are good for Christmas forcing. Later varieties: Empress of India, Oroff, Wolters, Niobe, Bernard, Andreas Alba, Mme. Van der Cruyssen and many others, prices as follows: 35c, 40c, 50c, 60c, 75c, $1.00, $1.25 to $1.50 each.

BEGONIA GLOIRE DE LORRAINE, 6-in-pots, 50c; 3-in., 20c.

BEGONIA FLAMBEAU, sells on sight, 4-in., ready for a shift into 6-in., 20c.

BEGONIA ERFORDII. New Improved, blooms all winter through, 4-in., 15c.

—CASH WITH ORDER.—

Fredericton, N. B.

TRADE GOOD.

Trade this year has been better than ever before, and there is every probability that not only here, but all over New Brunswick, and the maritime provinces, a busy and prosperous time is at hand. The fall so far has been very open, though everything in the way of flowers outside were cut off on the night of October 12. Previous to this, trade in the better grade of cut flowers had been rather dull, but now that the only source of supply is the greenhouses, good prices are the rule.

NOTES.

The Scotchmen had a big day when the Robert Burns memorial monument was unveiled. This had been subscribed for by the various Scotch societies, $6,000 being the amount expended on it. The decorations at the dinner held at the Queen's hotel were well carried out by John Bebbington & Sons, who also supplied the handsome bouquet presented to the lady who performed the ceremony of unveiling the monument. The ceremony was an imposing one, the piper in uniform belonging to the St. Andrew's Society, and other Scotch clans adding greatly to the general effect. Visitors to the town on the occasion included Adam Shand, of Coldbrook, N. B., and his foreman; Homar Cruikshank of Lancaster Heights, St. John, N. B., and his son, all of whom took part as pipers in the above noted event.

John Bebbington & Son have built a new house for lettuce, also a root cellar to be used principally for celery. Lilium lancifolium and L. lancifolium album, roses, chrysanthemums, and carnations are among the flowers now being cut at this place, these and all other stock looking remarkably well.

NEW YORK.—A large new greenhouse will be built adjoining the others in Central park, at One Hundred and Fifth street.

PALMYRA, N. J.—F. R. Matsinger says he has found summer business better than usual. He has cut more asters from fewer plants than for the past five years put together. His plant is in first class condition, repair work having taken considerable time.

DON'T SAY THERE IS NO MONEY IN

CHRYSANTHEMUMS

until you have tried **Clementine Touset.** the finest, largest, earliest white to date; every florist in the country should grow a batch, or a bench, or a houseful of this fine 'mum next year. I have the largest and best stock in the country and will sell you stock plants, fine large clumps full of runners at

15c each: **$1.50** per dozen;
$12.00 per 100.

Hurry up and order at once; even this stock will not last long when florists find out how valuable a variety this is. **Moneymaker,** the early white English variety, and **Jeanne Nonin,** the late white French variety, will go at the same price as long as stock lasts. Now is the time and chance to make money.

Other varieties at 10c each; $1.00 per doz.; $6.00 per 100; such as Monrovia, white and pink Pacific, white and yellow Bonnaffon, white and yellow Eaton, Mrs. Weeks, Viviand-Morel, J. K. Shaw, Alice Byron, Dr. Galloway, Ben Wells, Dr. Enguehard, Col. Appleton, Yanoma, Chadwick, etc. Cash with order.

GUNNAR TEILMANN, Marion, Ind.

H. R. CARLTON, Willoughby, O.

INTRODUCER and ORIGINATOR.

MABELLE, New Pink Carnation for 1907.

Color—A peculiar shade of lovely pink, with a faint yellowish cast; several shades lighter than the Lawson. Unlike most pinks, the brightest sun does not injure the color. Size—3 to 4 inches in diameter when established. Odor—Pleasing, but not strong. Stems—Invariably strong, but always graceful, ranging from 12 to 30 inches during the season. Habit, etc.—A very quick, active grower, making specimen plants in a short time, even from late cuttings. On account of its rapid growth, requires supporting very soon after benching. Gets away rapidly, blooms early and gives long stems right from the start. Productiveness—Prodigious is the best word we know of to use here. It is the most incessant bloomer, early and late, we have ever grown. Stock limited. Delivery January 5 to 10 and later. Price, $12.00 per 100, $100.00 per 1000.

Supplies, flower baskets, novelties. Riessner Bros., Lichtenfels, Bavaria.

If you do not find what you need in our Ready Reference Department, write us about it.

Los Angeles.

Flowers are beginning now to be plentiful, such as indoor carnations, roses and lily of the valley, and there is a fair demand for same. Chrysanthemums are poor, owing to a heavy wind we had last week. Violets, just beginning to come in the market, are poor owing to the warm weather we have been having during the last month.

J. W. Wolfskill will open up a handsome floral palace on Fourth street, two doors east of Wright's Flower Shop, about the middle of November and from what has been seen of the plans of the interior of the store, it will be one of the finest stores in the west or middle west.

The florists of this city were kept very busy October 20 and 21 on funeral work for one of our leading bankers, H. W. Hellman. There were in the neighborhood of 217 pieces of all descriptions and from the writer's observation J. W. Wolfskill got the bulk of the work.

Chas. W. Reimers, formerly of Louisville, Ky., but now of this city, says "No more florist business for me." He is wrapped up in buying and selling Los Angeles real estate.

Mr. Weizel of Barteldes & Co., Denver, Col., is in the city looking up business for his firm. O.

Prescott, Ariz.

With the return of the fall season, the florists' business is improving, although there is considerable done all through the summer on account of this place being quite a summer resort. This is due to its high altitude and cool, dry climate. Through the winter social season the Whipple military post nearby makes a considerable additional demand for flowers. The leading home-grown flowers for the trade are violets, sweet peas and Shasta daisies. There is also a considerable market for roses. Other flowers are largely imported from California.

Mrs. H. E. Armitage, the wife of a prominent mining man, has built up a good floral business in an amateur way—or, it would be more correct to say, that the business has come to her of itself. She handles the leading kinds of local grown flowers in season and does a considerable importing business from California, especially through the winter. Carnations are prominent among the flowers imported. Mrs. Armitage has one greenhouse.

Mrs. W. N. Kelly has three greenhouses. She prides herself on her cut work and floral designs.

C.

Patience.

A clergyman in the country was nailing a creeper to a piece of trellis work near his front gate, when he noticed that a boy was intently watching him.

"Well, my young friend," he said, "are you looking out for a hint or two on gardening?"

"No," said the boy, "I am waiting to hear what a parson says when he hammers his thumb."—New York Herald.

Use Wilson's Plant Oil

NO ALKALI. NOTHING DELETERIOUS. DRIES AT ONCE.

RUTHERFORD, N. J., June 28, 1906.

We have thoroughly tried your Plant Oil with very striking results. We may say this is the first insecticide we have tried on our palms that will remove the scale with the first application. We would like to say this is one of the few things that the florists cannot afford to be without especially those who are growing palms and other decorative plants After one application of your oil the plants take on an entirely new appearance. We would be pleased to have prospective buyers visit our nurseries and inspect the palms on which we have used your oil. BOBBINK & ATKINS.

NEW YORK BOTANICAL GARDEN, Bronx Park, New York City, September 5, 1906.

MR. ANDREW WILSON:—Having used your insecticide here, I can testify to its efficiency in destroying scale and other insects infesting plants.
Yours very truly, GEO. A. SKENE.

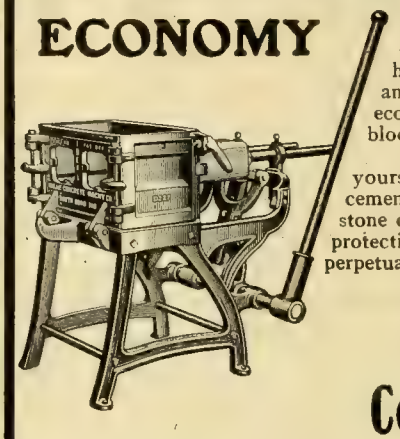
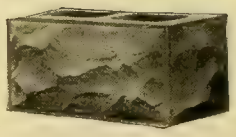
FROST-PROOF ECONOMY





Ideal Hollow Concrete Block construction will protect your greenhouse from frost and secure greatest economy in fuel. The illustration of hollow block explains it's resistance to frost.

With the Ideal Concrete Machine you can yourself make these blocks from sand, gravel and cement at little cost—far below the cost of brick, stone or lumber. Ideal Blocks not only give frost protection, but are absolutely fire-proof, and effect a perpetual saving in insurance.

IDEAL Concrete Machines

May be operated by any man without previous experience. The process of making blocks is simple as making mortar. Blocks for every building purpose, with plain, tooled, ornamental face or natural stone effect made with the same machine. Simple, durable and adaptable to any size block within capacity.

Our catalogue will show you how to secure frost protection and fuel economy, as well as initial saving over cost of other materials. Write for it and it's freely yours.

THE EXHIBITIONS.

Chrysanthemum Society of America. Horticultural Society of Chicago. Nov. 6-11, 1906. Poehlmanns Win National Cup.

The greatest flower show ever held was the unanimous opinion of all who were competent to judge, on the opening day of our grand exhibition, combining the joint efforts of the Horticultural Society of Chicago and the Chrysanthemum Society of America. In all respects the show is a distinct advance on any previous one. The quality of the plants and cut flowers shown, the number of new and rare varieties, the number of entries and the general fine appearance of the hall, are all better than last year, so what more need be added?

The work of decorating the immense Coliseum building is no light one but it was well carried out in every particular and this part of the show is also an unqualified success. To obtain a full view and get the best idea of the beauty of the show as a whole, one should go into the gallery and look down upon the whole thing from above. The refreshing green banks of palms, ferns and foliage plants, the bright colors of the chrysanthemums and other flowers, the moving spectators examining the exhibits, and the constantly changing hues of the electric fountains in the center of the hall make up an animated and beautiful scene difficult to describe. Never were the trade exhibits so fine and well displayed; the retail florists have excelled themselves in the elegance and richness of their floral booths, while the competitive classes have brought out the finest efforts of the most successful growers and exhibitors in America. It is difficult to particularize when the exhibits are so uniformly excellent, but the competitive classes for 100 blooms of one variety in several different colors, the ornate model gardens by Vaughan's Seed Store, and the immense white Japanese specimen chrysanthemum plant, sent by the Chrysanthemum Society of America, certainly seem to call for more than ordinary mention for they are truly exhibits quite out of the ordinary run of such things.

The chrysanthemums on the first day were truly a grand sight, immense numbers of fine flowers, all well up to exhibition standard being shown. The large vase classes of 100 flowers in each were a distinct success, bringing out a spirited competition and making a grand display. The prize winning white, Fidelity, from Nathan Smith & Son, is a fine long petalled incurving Japanese, its only weak point being a slight disposition to sag in the stem. Alice Byron in the second prize lot, from the E. G. Hill Co., was hardly developed but had grand stiff blooms. Nathan Smith & Son have evidently a fine thing in their new pink Mayor Weaver. It should prove a grand commercial kind owing to its fine build, splendid petals, and great stiff stems. Poehlmann Bros.' grand Colonel Appleton both in the silver cup class and the big vase class, will be remembered for their great excellence and finish. C. H. Totty's 40 blooms in 40 varieties were grand flowers; all that was lacking in this superb exhibit being one or two more dark colors. Bassett & Washburn's Appleton blooms were of the highest quality and Wietor Bros. were well to the front, their vase of the pink Mrs. G. A. Dana being unusually fine. The fine specimen plants were a notable feature of the show, especially the grand specimen sent by the Chrysanthemum Society of America and those exhibited by Vaughan's Seed Store.

Prominent among the newer varieties are Beatrice May a fine solid white, the beautiful white sport from Wm. Duckham exhibited by C. Totty, and Miss Miriam Hankey. A very

large proportion of the better new kinds continue to be sent from European and Australian sources and there is still room for home enterprise in this direction. American sorts are more than holding their own in the commercial varieties, but by far the great majority of the exhibition kinds are imported. Single and pompon varieties are not as freely shown as they might be for these are charming both for growing in pots and for cut flower decorations.

The cut roses on the second day made a grand display. A finer class than that for 100 blooms of American Beauty was never seen in any show. This is the confident opinion of a noted grower and exhibitor. The winning vase by Poehlmann Bros., could not be surpassed, the great length of stem enabling the decorator to arrange them so lightly that each stem and flower could be distinctly seen. The quality and color of the blooms was perfect, a superb exhibit. Liberty beat Richmond all along the line, its grand color and substance being well shown in the superb bunches set up in the various classes by Peter Reinberg. The new sport from Madame Chatenay shown by Poehlmann Bros. is very distinct, and deeper in color. The growth too is even stronger than that of its parent, as seen in Poehlmann Bros.' greenhouses. The E. G. Hill seedling No. 30 is a promising one, the flower full, deep pink, the foliage and stems fine. "The flowers of Lamarque with the foliage of Clothilde Soupert" is how one well known horticulturist sized it up. The Bassett & Washburn candidate is a very beautiful flesh tinted rose, with stiff stems, and deep shining green foliage.

Peter Reinberg's large vase of the now famous Mrs. Marshall Field was much admired. This is certainly a classic among roses. As to the quality of what may be termed the more ordinary roses such as Bride, Bridesmaid, Kaiserin Augusta Victoria and others there is only one word for them. They are excellent in every particular. One thing only we could wish for in this grand rose show, and that is a larger number of competitors. This is in no sense a slight to those who did show, for their flowers were in every case a credit to the names of the exhibitors, and better than this cannot be said.

The orchid display was very fine especially the cut flowers from E. G. Uihlen and the collection of plants from the H. Selfridge and Lincoln park collections. In the latter particularly fine Cattleya labiata, Cypripedium Charlesworthi, C. insigne, C. Leeanum and C. Chamberlainianum were noted. In the cut flower stand Cypripedium Sedeni, C. grande and C. insigne, Vanda tricolor, V. suavis, and Lælia Perrini were very fine as well as some very interesting botanical species.

The show of carnations on the third day was very fine for this season of the year, and so close in point of merit were a number of the exhibits that the judges must have had some difficulty in giving the awards. The newer forms of rose pink Enchantress are fine in color, but the number of new kinds shown was not large. The table decorations were very fine, consisting largely of roses, orchids and lily of the valley. The bouquets for bride and bridesmaid were really beautiful, choice material tastefully arranged being shown. Violets and lily of the valley were not very largely shown but the quality was excellent.

Fine banks of ferns, palms and foliage plants came from the west side, south side, and Lincoln parks, and were much admired by visitors. In each case the plants were well arranged and in good cultural shape. A large specimen of the dwarfed Japanese cedar labeled Thuya obtusa, and said to be 500 years old, was exhibited by J. Rosenwald, Chicago.

The beautiful new Asparagus Crawshawii, exhibited by James Crawshaw, Providence, R. I., is quite distinct from the older A. plumosus nanus. The foliage is deep rich green and owing to the very fine leaflets the fronds have a soft filmy appearance, that will certainly fit it for some decorations where the older form would be unsuitable.

Chas. A. Samuelson.

Chairman of the committee which had charge of the elaborate and highly artistic decorations at the Chicago flower show.

THE RETAILERS' BOOTHS.

These are a decided success, and in point of excellence of material used and originality in design leave nothing to be desired. Many of the booths are exquisitely designed, and many are the encomiums heard both from the public and interested florists.

Kidwell.—A greenhouse fitted up, the sides, roof and back being draped with climbers, and fine Boston ferns are suspended from the roof. Palms occupy the center and sides of the background, and an undulating bank of ferns, Pandanus Veitchii, Ficus pandurata, flowering chrysanthemums in pots and ornamental baskets occupy the central space.

Samuelson.—A decidedly unique and pretty feature of this booth was the cyclamen and Primula obconica in baskets, that were used on the top of the pillars, and on the tables. The front pillars had chains of bay, and inside the booth was a superb exhibit of flowers. American Beauty roses and yellow and white chrysanthemums occupied the side tables, the center table having a fine epergne filled with Oncidium varicosum. From the roof depends an inverted cone of asparagus, and at the back of the booth there are fine palms, with huge vases of white, yellow and pink chrysanthemums in front. This booth is really a triumph of the florists' art and it would be difficult to suggest an improvement on it.

Smyth.—In this booth the roof was hung with southern smilax, and had a background of fine palms. The center table had a fine palm, surrounded with Adiantum Farleyense, with baskets of ferns around and a fringe of asparagus. Fine blooms of white, yellow and pink chrysanthemums were used with excellent effect at the back and sides, and on the outside corners Ciboteum Schiedei and the Boston fern were well displayed.

Eaton Floral Store. — A decidedly novel and pleasing booth was put up by C. H. Grant, consisting of a trellised booth, painted green, and finely lit inside. Very little material was used but so well was this displayed that the effect was most pleasing and effective. The sides were hung with orchids, and festoons of asparagus carried the electric lamps. In the center was a large stone table, and outside fine dracænas and pandanus. At the side a pretty Japanese garden was laid out, with dwarf trees and water, altogether a very artistic and pleasing exhibit.

McAdams.—A pretty booth lightly festooned with smilax. The center table had pink chrysanthemums and asparagus. At the side was a charmingly arranged block of a fine pure white anemone flowered chrysanthemum, pink and white, large flowering sorts being used at the back. An undulating line of Begonia Gloire de Lorraine and Boston fern gave a finish to this booth.

Simmons.—A greenhouse covered with smilax and filled with ferns, palms and flowering pompon chrysanthemums. Some fine Boston ferns and Adiantum Farleyense were shown.

Hobbs Co.—The arrangement of Boston ferns and palms at the back of this booth was really fine, and reflects great credit on the taste of the florist. Baskets of ferns and pompon chrysanthemums were also used with good effect, and the center table of flowers, foliage and small ferns was in excellent taste.

Granger & Gormley.—An attractive booth, hung with southern smilax, and with kentias displayed in appropriate positions. A dining table in center was laid with glass, china and silverware complete, the decorations on the opening night being Killarney roses in the vases, with fronds of adiantum and rose buds on the cloth.

Schiller.—A tastefully arranged booth with palms, pandanus Boston and other ferns, chrysanthemums and basket plants liberally introduced. A chimney piece and grate at the back is prettily covered with ferns and Gloire de Lorraine begonias.

Central Floral Company.—A well arranged exhibit having fine chrysanthemums and roses, with decorated baskets and other objects of the florists' art.

Lange.—A fine open display with

GENERAL VIEW OF INTERIOR OF COLISEUM, CHICAGO, NOVEMBER 6-11, 1906.

palms and the usual variety of ferns well arranged. Killarney roses, single white and anemone flowered chrysanthemums on pedestals had a fine effect.

George Wittbold Company.—This was a grand booth, the decorations carried out in the well known bold style this firm adopts. High in front, the beauty of this booth does not all appear at a casual look. In the center front fine Boston ferns are suspended; graceful kentias at the back overtop Anthurium crystallinum and other fine foliage plants, and excellent cut American Beauty roses. A long table in front is covered with cut orchids, sweet peas, violets, lily of the valley and others, a very choice display.

Frauenfelder.—A well arranged exhibit, the roof of the booth covered with colored oak foliage, a tasteful group of cut flowers palms and foliage plants in front.

Wienhoeber Company.—A thinly furnished and very effective booth, the walls of green cloth serving to show up the vases of fine chrysanthemums, Killarney and Richmond roses and orchids that adorn them. A fine basket of orchids and some exquisite little table plants are also included.

The Model Gardens.

Vaughan's Seed Store.—This was a really superb exhibit, in freshness and color perhaps eclipsing anything else in the show. Two of the columns at the south end of the hall were covered with bark, and branches were attached looking exactly like two large pines. Between these there is a box hedge and walk and the front of the garden is balustraded. The lawn is pierced for flower beds, one on either side being planted with Baby Rambler roses edged with pyrethrum. At the back, a fine group of flowering and foliage plants, backed up with climbers and flanked with various trees and palms was very fine, a number of finely grown French marigolds of the Legion of Honor type and dwarf pot asters brightening up the whole. The whole scheme is well conceived, and carried out with a wonderful perfection of detail.

Porter Nurseries.—A very fine lot of conifers and deciduous trees are shown here and the exhibit is noteworthy as showing what may be done with outdoor material in winter. The plants of Indian coral berry and spindle tree are finely berried, also the various snowberries and privets. Berberis Thunbergi was fine, also the globosa variety of Arbor-vitæ and a variegated Yucca.

Hill's Dundee Nursery.—A very varied and interesting display of conifers. Also a large number of deciduous and fine leaved trees.

Trade Exhibit.

Robert Craig Co., Philadelphia, Pa., put up a very fine and interesting exhibit of foliage plants, including tall handsome specimens of Ficus pandurata, a coming foliage plant, which W. P. Craig says is just about as lasting as an aspidistra; this fact and its undoubted fine appearance will make it very popular. Finely colored crotons, and healthy adiantum and other ferns are well shown, also the lovely little Maranta rosa lineata, with its deep green leaves, striped in a novel manner with bright rose, and the variegated Dracæna Sanderiana. The Otaheite orange, introduced by this firm is in fine shape, one plant in particular being worthy of note as showing how free fruiting the variety is. It is only 24 inches high and is carrying 29 fruits. This elegant and interesting display should not be missed.

The Janesville Floral Co., Janesville, Wis., exhibited a number of small plants of their new Nephrolepis Amerpohlii which is to be distributed by them in 1907. It is certainly a beauty, much the best of the varieties of the Boston fern to date. Perhaps no better description of this remarkable variety can be given than to say it closely resembles the beautiful filmy fern, Todea Africana. It is bound to become very popular.

H. H. Barrows & Son, Whitman, Mass., showed a number of fine plants of Nephrolepis Whitmani, indicating the beauty of this superb variety when grown to large size.

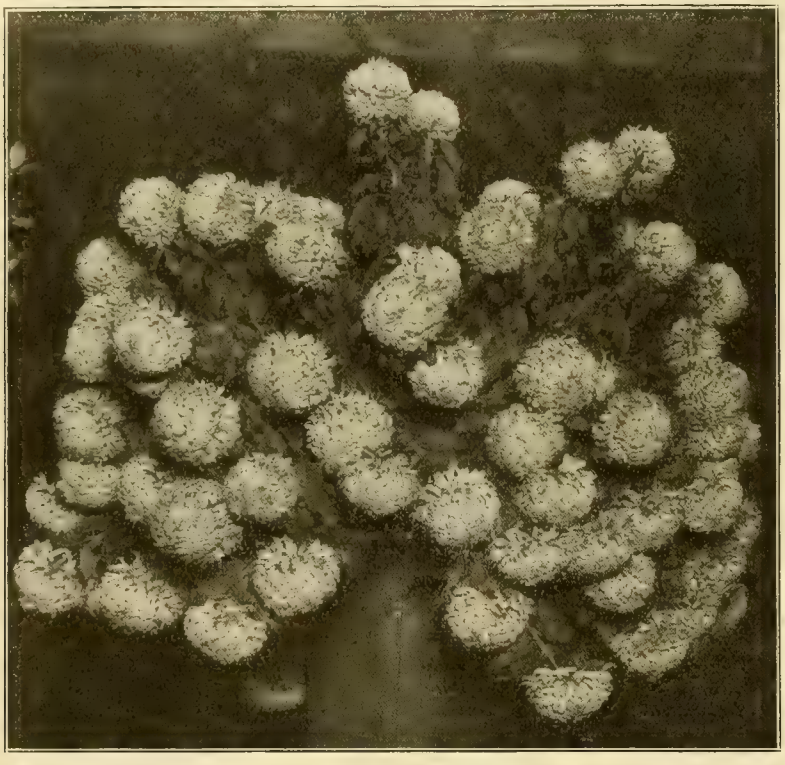
Vaughan's Seed Store has a very varied and choice exhibit of dwarf Japanese trees.

The John C. Moninger Co. had a model greenhouse in a booth and a very interesting collection of shrubs in pots and tubs.

A glass case with various seeds growing on absorbent paper, exhibited by Vaughan's Seed Store, was the center of an interested crowd on the third day. The number of seeds growing showed that their germinating power was excellent. A fine table of roses consisting of about 20 vases of the leading kinds was shown by Peter Reinberg. A magnificent specimen Boston fern was shown by Richard F. Gloede, Evanston, Ill.; this plant must have been nine feet through, with long, drooping fronds almost touching the floor from a height of six feet. A representative collection of trees and shrubs, including conifers, was exhibited by the Swain, Nelson & Sons Co., Ltd., Glenview Nurseries, Glenview and Chicago, Ill.

A number of interesting well grown novelties in foliage plants, arranged in a circular group, came from the Eden Nurseries, Port Allegany, Pa. Aglaonema costata has bright, glossy green leaves with a white midrib and splashed with a distinct white variegation, a very striking little plant. Acanthus Montana

is a deep green ornamental spined plant, the specimen shown being about two feet high. Pandanus Luzonensis is a new species with deep green leaves, very light and graceful in appearance. Beautifully colored crotons, both wide and narrow leaved, green and colored dracænas and other foliage subjects were also included.



AT THE CHICAGO SHOW.
Poehlmann Bros.' vase of Col. Appleton chrysanthemums.

Chrysanthemum Society Prizes.

Class A.—Chrysanthemum society's silver cup for best ten flowers, one variety. This was awarded to Poehlmann Bros. for a superb lot of Col. Appleton.

Class B.—Prizes of $50, $25 and $10 for best 12 blooms on 24 inch stems of a sport or seedling not yet in commerce; the color to be white, pink or yellow, the name to be given by the donor of the prize. First, C. H. Totty for a white sport from Wm. Duckham; second the E. G. Hill Co. for a pink seedling.

Class D.—Chas. H. Totty's prizes of $12, $8 and $5 for 12 blooms in 12 varieties, stems not over 12 inches, introductions of 1906—First R. D. Foote (R. Vince, gardener) for Madame G. Rivel, Mrs. D. Willis James, Mrs. F. F. Thompson, Morton F. Plant, Beatrice May, G. J. Brooks, Mrs. Geo. Heaume, Merstham Crimson, Mrs. John E. Dunne, W. Wells, and Mrs. Henry Partridge; second the E. G. Hill Co.

Class E.—F. R. Pierson's silver cup for 36 blooms in six varieties, six blooms of each, introduced in America in 1905 and 1906. Awarded to R. D. Foote for Mrs. E. D. West, Morton F. Plant, Beatrice May, Sunburst, Mrs. Wm. Duckham and Professor Galloway.

Class F.—Nathan Smith & Son offer $25 for best 24 blooms of American origin in 1904, 1905 and 1906 three varieties, white, pink and yellow, eight of each. First Nathan Smith & Son for Mayor Weaver, Sunburst and Fidelity.

Class H.—The E. G. Hill Co. offer $15 for the best 25 blooms of Mary Mann. Awarded to the B. K. and B. Floral Co., Richmond, Ind.

There were no entries in classes C, F, G and I.

Tuesday's General Awards.

CUT FLOWERS.

The following are the awards made on the opening day:

Best vase of 100 blooms, white.—First, Nathan Smith & Sons, Adrian, Mich., with Fidelity; second, the E. G. Hill Co., Richmond, Ind., with Alice Byron; third, Bassett & Washburn, Chicago, also with Alice Byron.

Best vase of 100 blooms, pink.—First, the E. G. Hill Co., with Mary Mann; second, Nathan Smith & Sons, with their new Mayor Weaver; third, Poehlmann Bros., Chicago, with Dr. Enguehard.

Best vase of 100 blooms, yellow.—First, Poehlmann Bros., with fine Col. Appleton; second, Bassett & Washburn; third, E. G. Hill Co., both showing Col. Appleton.

Best vase of 100 blooms, any other color.—First, Wietor Bros., Chicago, with Mrs. J. E. Dunne.

Best six blooms one variety, white.—First, D. Willis James (Wm. Duckham gardener) with grand flowers of Beatrice May; second, the E. G. Hill Co.; third, Nathan Smith & Son, both with Beatrice May.

Best six blooms yellow, not darker than Major Bonnaffon.—First, D. Willis James; second, the E. G. Hill Co., both with F. S. Vallis; third, Nathan Smith & Son.

Best six blooms one variety yellow, darker than Major Bonnaffon.—First, Poehlmann Bros.; second, Nathan Smith & Son, both with Col. Appleton; third, D. Willis James, with G. W. Hutton.

Best six blooms one variety, pink, lighter than Viviand Morel.—First, D. Willis James, with Wm. Duckham; second, the E. G. Hill Co.; third, Nathan Smith & Son.

Best six blooms, one variety, not lighter than Viviand Morel.—First, D. Willis James, with superb flowers of Miriam Hankey; second, Nathan Smith & Son; third, H. Schmidt.

Best six blooms, one variety, red.—First, the E. G. Hill Co.; second, Nathan Smith & Son.

Best six blooms, one variety, bronze.—First, D. Willis James; second, Nathan Smith & Son; third, R. H. Alleston (James Livingston gardener).

Best six blooms, one variety, any other color.—First, D. Willis James; second, Nathan Smith & Son; third, the E. G. Hill Co.

Best 12 blooms distinct varieties.—First, R. D. Foote (James Vince gardener), with E. J. Brooks, Mrs. D. J. West, Mary Inglis, Beatrice May (grand bloom), F. S. Vallis, Lady Hopetoun, Mrs. J. A. Miller, Valarie Greenham, Gen. Hutton, Wm. Duckham, Mrs. Geo. Heaume, and a beautiful light yellow variety not named but a good deal like the yellow Mrs. F. F. Thompson; second, Nathan Smith & Son; third, R. H. Allerton.

Best 40 blooms distinct varieties.—First, Chas. H. Totty, Madison, N. J. This grower's front row blooms were Gen. Hutton, Wm. Duckham, Mrs. F. F. Thompson, Jeanne Falconer, H. J. Jones, Mrs. D. J. West, Viola, Geo. Lawrence, Lady Hopetoun and Montigny; second row, Leila Filkins, Mrs. H. Partridge, Ben Wells, President Viger, Mrs. E. Crossley, Mrs. W. Knox, Mrs. A. T. Miller, Cheltoni, Merza and Mrs. Henry Barnes; third row, Mrs. A. L. Stevens, Morton F. Plant, F. S. Vallis, Mrs. F. F. Thompson (yellow), Valarie Greenham, Moneymaker, Yellow Eaton, White Wm. Duckham, Nellie Pockett and Mary Inglis; back row, Mrs. W. Duckham, Beatrice May, Mrs. Geo. Heaume, Mrs. J. E. Dunne, Mrs. Geo. Hunt, D. McLeod, Col. Appleton, Mrs. A. J. Miller, Harrison Dick, and Miss Marion Hankey; second, the E. G. Hill Co.; third, Nathan Smith & Son.

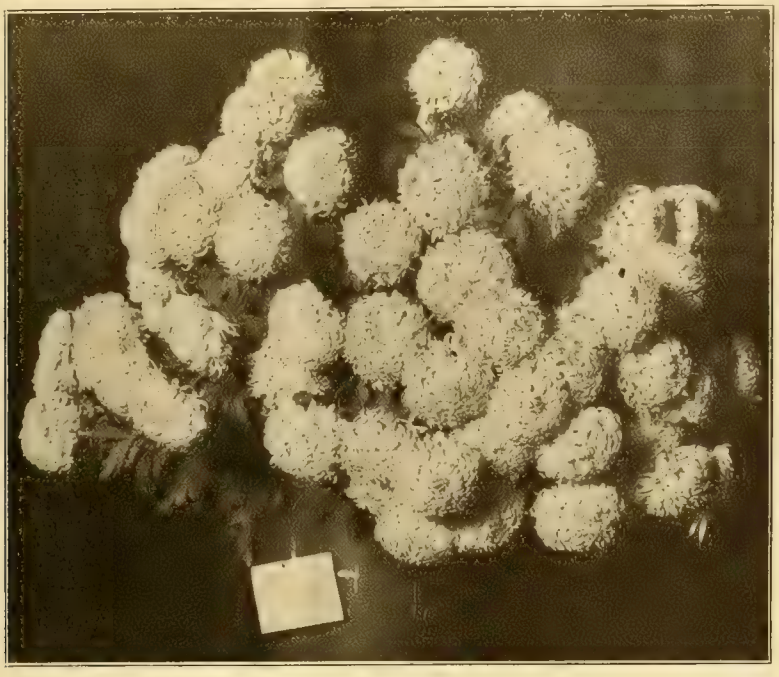
Best 40 blooms distinct varieties to be shown on mossed boards.—First, D. Willis James, with a fine heavy and even stand; second, E. G. Hill Co.; third, Nathan Smith & Son.

Best 12 varieties, to be shown on mossed boards.—First, R. D. Foote; second, the E. G. Hill Co.; third, Nathan Smith & Son.

Best display pompon varieties.—First, the E. G. Hill Co., with one large vase and two smaller ones filled with a great variety of these pretty sorts.

PLANTS.

Best specimen plant, white.—First, J. J. Mitchell (Geo. Woodward, gardener), with a fine and profusely flowered Mutual Friend; second, Vaughan's Seed Store; third, Martin A. Ryerson (J. Reardon, gardener).



AT THE CHICAGO SHOW.

Hill's vase of Mary Mann chrysanthemums.

Best specimen plant, yellow.—First, Martin A. Ryerson; second, Vaughan's Seed Store.

Best specimen plant, pink.—First, J. J. Mitchell; second, Vaughan's Seed Store; third, Martin A. Ryerson.

Best specimen plant, any other color—First, Vaughan's Seed Store, with a fine plant of Mrs. J. Heaume; second, J. J. Mitchell; third, Martin A. Ryerson.

Best specimen plant, single flowered.—First, Vaughan's Seed Store; second, Martin A. Ryerson.

Best specimen plant anemone.—First, Vaughan's Seed Store, with a fine plant of Garza.

Best three standards, not less than 30-inch stems.—First, Vaughan's Seed Store, with fine plants of Amorita, Mere R. O. Burtheis and Golden Age; second, A. S. Trude (R. Mueller, gardener).

Best five standards, not less than 12 or more than 24-inch stems.—First, Vaughan's Seed Store; second, A. S. Trude.

Best five specimen plants, distinct varieties, not over 10-inch pots.—First, Vaughan's Seed Store; second, A. S. Trude; third, Martin A. Ryerson.

Best five specimen plants, single varieties, not over 8-inch pot.—Second, Vaughan's Seed Store.

Best five specimen plants pompon varieties, not over 10-inch pot.—First, Vaughan's Seed Store.

Best 25 plants, single stem, not over 36 inches in height above pot, not over 6-inch pots, one color.—First, Vaughan's Seed Store, with nice even lot of Mrs. Robinson.

Most interesting grafted specimen with three inches clear stem above soil.—First, Vaughan's Seed Store, for a plant with about 24 sorts grafted upon it.

Best ten palms.—First the George Wittbold Co., Chicago.

Best one palm—First the George Wittbold Co.

Best Boston fern.—First C. A. Samuelson; second Vaughan's Seed Store.

Best basket Asparagus Sprengeri.—First Anton Then; second Vaughan's Seed Store.

Best ten araucarias.—First Vaughan's Seed Store; second A. McAdams, Chicago.

Best ten Gloire de Lorraine begonias.—First J. A. Peterson, Cincinnati.

Best six Boston ferns.—First C. Samuelson; second Vaughan's Seed Store.

Best group of foliage plants.—First Vaughan's Seed Store; second J. J. Mitchell, Chicago.

Best group of palms and decorative plants for effect. — First the George Wittbold Co.; second E. G. Uihlein.

Best five tobacco plants.—Second Martin A. Ryerson.

Best fern dish.—First E. G. Uihlein; second C. Frauenfelder, Chicago.

Best hamper of plants.—First C. Frauenfelder; second A. McAdams.

Best display of cut greens.—First A. F. Amling, Maywood, Ill.; second Poehlmann Bros., Chicago.

Wednesday's Awards.

Best 25 American Beauty.—First, Poehlmann Bros.; second, Bassett & Washburn; third, Peter Reinberg.

Best 40 Liberty or Richmond.—First, Peter Reinberg, with Liberty; second, Poehlmann Bros., with Richmond; third, Bassett & Washburn, with Richmond.

Best 40 Golden Gate or Uncle John.—First, Poehlmann Bros.; second, Peter Reinberg, both with Uncle John.

Best 40 Madame A. Chatenay.—First, Poehlmann Bros.; second, Peter Reinberg.

Best 40 Bride.—First, Bassett & Washburn; second, Poehlmann Bros.

Best 40 Bridesmaid.—First, Poehlmann Bros.

Best 40 Killarney.—First, Poehlmann Bros.

Best 40 any other variety.—First, Poehlmann Bros., with Kaiserin Augusta Victoria; second, Peter Reinberg, with Ivory.

Best 100 American Beauty.—First, Poehlmann Bros.; second, Bassett & Washburn; third, Peter Reinberg; fourth, William Dittman, New Castle, Ind.

Best 100 Liberty or Richmond.—First, Peter Reinberg, with Liberty; second, Poehlmann Bros., with Richmond; third, Wietor Bros., with Richmond.

Best 100 Golden Gate or Uncle John.—First, Poehlmann Bros.; second, Wietor Bros., both with Uncle John.

Best 100 Bride.—First, Poehlmann Bros.; second, the Benthey-Coatsworth Co.; third, Wietor Bros.

Best 100 Bridesmaid.—First, the Benthey-Coatsworth Co.; second, Poehlmann Bros.

Best 100 Madame A. Chatenay.—First, Peter Reinberg; second, Poehlmann Bros.; third, Wietor Bros.

Best 100 any other variety.—First, the

AT THE CHICAGO SHOW.

Wietor Bros' vase of Mrs. J. E Dunne chrysanthemums

NATHAN SMITH & SON'S NEW CHRYSANTHEMUM ONGAWA.
Awarded certificate by the Cincinnati committee.

Benthey-Coatsworth Co., with Killarney; second, Poehlman Bros., with Perles des Jardins; third, Peter Reinberg, with the same variety.

Best 12 blooms of a new rose; never exhibited in this country previous to this season; a silver cup valued at $25; second, $15; third, $10.—First, Poehlmann Bros, with their new sport from Madame A. Chatenay; second, the E. G. Hill Co., with seedling No. 30; third, Bassett & Washburn.

Best 25 blooms any variety not in commerce.—First, the E. G. Hill Co., with Seedling No. A 1, a light crimson rose, fine in the bud.

Best collection of cut orchid blooms.—First, E. G. Uihlen, Chicago.

Thursday's Awards

The following awards for carnations were made on the third day:

Best 50 blooms, white Lawson.—First, Anton Then, Chicago; second, Poehlmann Bros.; third, Peter Reinberg.

Best 50 blooms, White Cloud.—First, Bassett & Washburn.

Best 50 blooms, Boston Market.—First, Peter Reinberg.

Best 50 blooms, Lady Bountiful.—First, Anton Then; second, Poehlmann Bros.

Best 50 blooms, Lieutenant Peary.—First, Poehlmann Bros.

Best 50 blooms, any other white.—First, the Chicago Carnation Co., Joliet, Ill.; second, Gunnar Tielmann.

Best 50 blooms, Cardinal.—First, Anton Then.

Best 50 blooms, red Lawson.—First, Poehlmann Bros.; second, H. N. Buckbee.

Best 50 blooms, any other red.—First, Chicago Carnation Co., with an unnamed seedling; second, Poehlmann Bros., with Victory.

Best 50 blooms, Harlowarden.—First, Bassett & Washburn; second, Anton Then.

Best 50 blooms, Enchantress.—First, the Chicago Carnation Co.; second, Poehlmann Bros.

Best 50 blooms, Mrs. T. W. Lawson.—First, Bassett & Washburn; second, Poehlmann Bros.

Best 50 blooms, Fiancee.—First, the Chicago Carnation Co.; second, Anton Then.

Best 50 blooms, Nelson Fisher.—First, A. C. Brown.

Best 50 blooms, any other pink, Daybreak class.—First, the W. C. Hill Floral Co., with Melody; second, Poehlmann Bros., with Phyllis.

Best 50 blooms, any other pink, Scott class.—First, the Chicago Carnation Co.; second, E. H. Blameuser, Niles Center, Ill., both with pink Enchantress.

Best 50 blooms, any other pink, Lawson class.—First, the Chicago Carnation Co.; second, the J. D. Thompson Carnation Co., Joliet, Ill.

Best 50 blooms, Mrs. Patten.—First, Sol. Garland; second, Poehlmann Bros.

Best 50 blooms, Prosperity.—First, Poehlmann Bros.; second, H. N. Buckbee.

Best 50 blooms white, introduction of 1906.—First, the Chicago Carnation Co.; second, Bassett & Washburn, with white Perfection.

Best 50 blooms pink, introduction of 1906, Scott class.—First, the Chicago Carnation Co., with rose pink Enchantress; second, J. C. Ahrenfeld.

Best 50 blooms pink, introduction of 1906, Lawson class.—First, Gunnar Tielmann.

Best 50 blooms red, introduction of 1906.—First, Sol. Garland, with Robt. Craig; second, the J. D. Thompson Carnation Co., with Robt. Craig.

Best 50 blooms, any other color, introduction of 1906.—First, Poehlmann Bros., with Glendale.

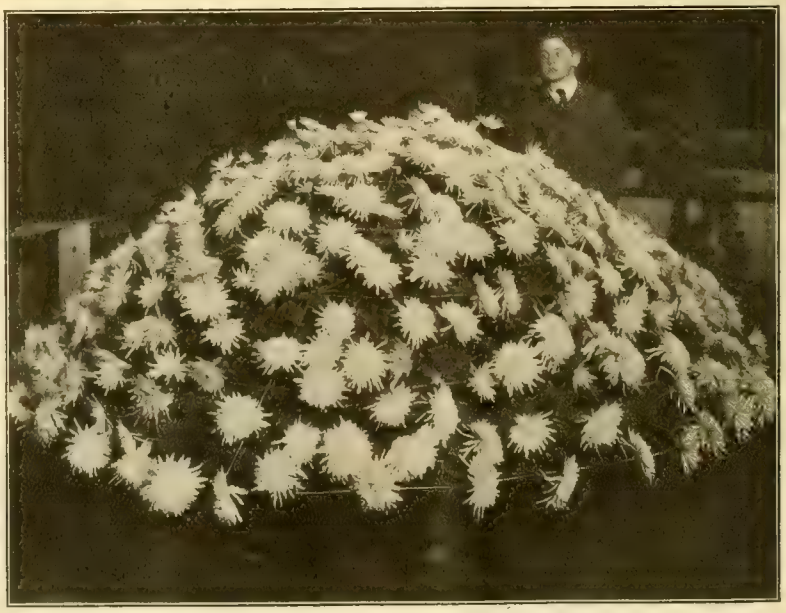
Best 100 blooms, white.—First, the Chicago Carnation Co.; second, Poehlmann Bros., with Gov. Wolcott.

Best 100 blooms pink, Daybreak class.—First, the Chicago Carnation Co.; second, Poehlmann Bros., with Enchantress.

Best 100 blooms, pink, Scott class.—First, the Chicago Carnation Co., with rose pink Enchantress.

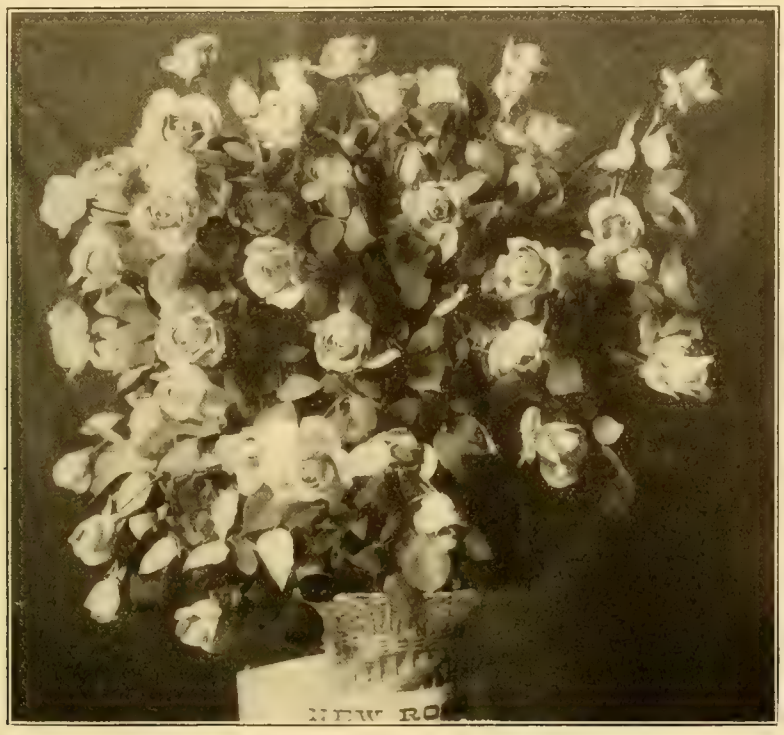
Best 100 blooms, Lawson class.—First, the Chicago Carnation Co., with Aristocrat; second, Poehlmann Bros., with pink Lawson.

Best 100 blooms, red.—First, the Chicago Carnation Co., with seedling 49; second, Poehlmann Bros., with Victory.



THE LARGEST PLANT AT THE CHICAGO SHOW.
Mrs. J. R. Tranter eight feet through and bearing over 500 flowers.

Best 100 blooms, any other color.—First, Poehlmann Bros., with Prosperity.



PETER REINBERG'S NEW ROSE MARSHALL FIELD.
Exhibited at the Chicago show.

Best display of violets, not less than 800 blooms.—First, the Eaton Floral Co., 86 Jackson boulevard, Chicago.

Best display of lily of the valley, not less than 500 blooms.—First, A. Jurgens, Chicago.

Best bride's and bridesmaid's bouquets.—First, Henry E. Klunder; the bride's bouquet was composed of lily of the valley, the bridesmaid's of pink bouvardia; second, R. Jahn, lily of the valley and orchids for the bride and Chatenay roses for the bridesmaid; third, Eaton's, with lily of the valley and Bridesmaid roses.

Best dinner table decoration for 12 covers.—First, C. Frauenfelder & Co.; second, John Mangel; third, Henry E. Klunder.

Notes.

C. B. Whitnall, of Milwaukee, Wis., who was down for a public lecture on Wednesday evening, was unable to be present. Phil. Foley at once stepped into the breach to speak of "Park Utility." There is not one thing small about our Phil, but when he found, after being well started on his discourse, that the stereopticon man was using the wrong set of plates, showing unimproved back yards and filthy alleys instead of the gardens beautiful the speaker was describing, Phil. says he felt just some smaller than the "littlest" thing on earth.

Chas. A. Samuelson and his corps of assistants must be given great credit for the very artistic interior decoration of the exhibition building.

The work of Judges Burton, Cowell and Temple was prompt and thorough.

The fine vocal and instrumental music proved very popular with the visitors.

Fritz Bahr, as chief of the information bureau, was the right man for the place.

"If that tree is 500 years old it must have been very badly grown," was the comment of one of the great general public when looking at the Japanese thuya near the entrance.

Prof. Blair's wife met with an unfortunate accident on Thursday. Shopping at Marshall Field's, Mrs. Blair fell on one of the stairways and was severely bruised.

Will Craig had an easy time convincing trade visitors of the merit of his line of goods and it is said he booked some handsome orders.

S. S. Skidelsky failed to enter for competition two very excellent exhibits of his specialties, Nephrolepis Whitmani and Rose Pink Enchantress carnation.

The eastern growers showed a lot of fine blooms, but the Poehlmanns had an eye on that national cup and simply couldn't let it get away.

Chas. H. Totty left Friday evening for Denver to attend to his mining interests there.

The Banquet.

Nearly 200 members of the local Florists' Club and Horticultural Society and guests sat down to an elaborate banquet at the Auditorium hotel shortly after 9 o'clock Thursday evening, November 8. All phases of horticulture and the more important horticultural centers of the country were well represented. Among the visitors present we noted President Kasting and Secretary Stewart of the Society of American Florists, President Montgomery of the American Rose Society, President Duckham of the Chrysanthemum Society of America, John N. May, John Burton, E. V. Hallock, John T. Temple, J. D. Carmody, J. F. Sullivan, J. A. Valentine, J. F. Cowell, F. Weber, J. J. Hess, Theo. Miller, Otto Koenig and A. Herrington. Just before the cigars were passed President Hauswirth of the Chicago Flor-

POEHLMANN BROS. CO.'S AMERICAN BEAUTY ROSES AT THE CHICAGO SHOW.

There is just as great contrast between Nephrolepis Amerpohli and any other variety of Boston fern, as between a fine piece of Brussels lace and a common window curtain. So says W. P. Craig of the Robert Craig Co., and he ought to be a fair judge.

ists' Club introduced J. C. Vaughan as toastmaster.

Mr. Vaughan said he was pleased to see such a representative body of men and called on President Kasting of the Society of American Florists. Mr. Kasting referred to the gathering as being one of the most noteworthy within his knowledge, there being present the first, last, present and incoming presidents of the Society of American Florists, not to speak of the ex-presidents. He had much praise for the exhibition and said that Chicago was the only city in the United Staets which could make a success of a national flower show, such as is to be held in this city under the auspices of the Society of American Florists in 1908.

President Duckham of the Chrysanthemum Society of America was next called upon and he spoke for the private gardener. He was disappointed in the number of entries at the local show, but found the flowers much superior to those seen on his previous visit, two years before. He urged that both private and commerical growers take more interest in the development of the chrysanthemum and hoped the day would soon come when the Chrysanthemum Society of America would reverse the present order of things and invite the Horticultural Society of Chicago to cooperate in its national meetings.

Secretary Stewart of the Society of American Florists referred to the development of the business, stating that 25 years ago he frequently shipped roses to Chicago from Boston, this condition being now vastly changed. He urged those present to make all efforts to bring out a good attendance at the national convention next August and assured the audience that the Philadelphia trade would make the occasion well worthy of the trip.

John N. May spoke of flower shows and their influences. He urged the trade to take greater interest in school gardening and the horticultural and floricultural exhibitions of school children. The interest awakened in the child he claimed was continued in after life.

John Burton referred to the splendid work of the retail florists in the local show, attributing much of its success to them.

Among the other speakers were John T. Temple, J. D. Carmody, A. Herrington, E. V. Hallock, Prof. Cowell, J. A. Valentine, P. J. Hauswirth, Geo. Asmus, J. F. Klimmer and J. F. Ammann.

The procedings terminated at an advanced hour and the occasion was generally voted one of the most important and enjoyable of recent years.

BASSETT & WASHBURN'S AMERICAN BEAUTY ROSES AT THE CHICAGO SHOW.

MENU.

Blue Points
Cream of Chicken
Radishes Olives Celery
Whitefish, St. Malo
Potatoes Marquise
Tenderloin of Beef, Bordelaise
French String Beans
Maraschino Punch
Roast Squab on Toast
Salad
Meringue Glace
Cakes Cheese
Coffee

NOT EASILY SATISFIED.

"What was wrong with those pansies I bought here last spring?" said an exacting customer. "They flowered beautifully all last summer, but did not come up this spring. Won't they live out the winter?"

The florist rallied just in time. "Well, didn't you get your 10 cents worth last summer?" he gasped.

WILLING TO OBLIGE.

A lady customer after a vain search among the stock of verbenas for the required shade of pink, at last appeals to the florist, saying she wants a pink to match the dress she is wearing.

"Very sorry, madam," says the florist. "You see flowers are not made, they grow. I can only suggest that you buy some flowers and then get a dress made to match them."

RATHER DRY.

Customer: "Those alyssums I had of you two weeks ago are all dead."

Florist: "Have you watered them?"

Customer: "No."

Florist: "Well, if you hadn't a drink in two weeks it's likely you would be dead, too."

Those Present.

Among the trade visitors, the following registered:

Edw. Amerpohl and wife, Janesville, Wis.
G. F. Baermann, Milwaukee, Wis.
W. J. Barnes, Kansas City, Mo.
Carl Baumann, Terre Haute, Ind.

The Pennsylvania Horticulural Society.

The opening date of the chrysanthemum show was just about one week too soon as, owing to the backward season, both plants and flowers would have been the better for another week in the greenhouse. Last Tuesday was also election day and as the city contest had been the most exciting for years, many timid persons were afraid to be on the streets and this interfered considerably with the attendance.

The feature of the show was the large collection of fine pot plants, the best seen here since the time of the Drexel exhibits some years ago. The entries of Joseph Hurley, gardener to James W. Pane, were particularly large and well grown specimens and attracted much attention. These pot chrysanthemums occupied almost the entire space in the large hall.

In the foyer were displayed the specimens and collections of foliage plants, many among them being very choice and rare. Between the foyer and main hall all around the grand stairway were low tables containing the cut blooms. There were also large vases on the steps on either side of the stairway. These contained the collections of 25 of a kind. Large specimen palms graced the balconies looking on the grand stairway from the main hall.

The exhibition of cut blooms, while not quite so large as last year, owing to the late season, many of the varieties not being ready to cut, was very fine, some of the classes having six entries. In the class calling for the largest flowers, Wm. Kleinheinz, of Ogontz, was first. His best flower was Beatrice May, which measured 27 inches in circumference without being spread out. Mrs. F. S. Vallis, a huge tasseled yellow, measured 25 inches in circumference, while Gen. Hutton was but little behind. The E. G. Hill Co., of Richmond, Ind., was awarded first for six pink with Mlle. E. Clabourne, a fine light pink of perfect form. James Coleman was first for six yellow with Appleton. Six other entries were all Appleton, showing its popularity. Wm. Kleinheinz took the

AT THE CHICAGO SHOW.
Some of the blooms exhibited by Totty, Smith and Hill

first for pink with six Wm. Duckham. Six other competitors all entered the same variety. John McCleary was first for six vases, six of a kind. Wm. Gaynor was second. Andrew Morrison was first for any other color with six Brutus. For 20 single blooms all different, Wm. Kleinheinz was first, Joseph Hurley, second. For the vases on the stairway, 12 of a kind, Wm. Kleinheinz took first for best three with Mrs. Wm. Duckham, Wm. Duckham and Merza; Wm. Batchelor was second. Thos. J. Holland had two trained plants nicely flowered which attracted considerable attention. Chas. Hickey was first for 20 yellow, with Appleton; Andrew Morrison, second for same, also with Appleton. Wm. Kleinheinz was first for best 12 blooms with Gen. Hutton, a truly magnificent flower; the E. G. Hill Co., second, with Beatrice May, and Andrew Morrison, third, with Mrs. G. Beech.

When the pot plants were arranged they were found to be a very fine lot, there not being a weak one in any of the exhibits. The display was larger than for some years. The single stemmed plants in 6-inch pots were quite a feature and attracted considerable attention. Standing in rows, six of a kind, like soldiers on inspection; Merza, Nellie Pockett, Wm. Duckham, Appleton and Mrs. Wm. Duckham were the principle sorts in this class. In the large potted plants Joseph Hurley swept all before him in his entries. He was first for three plants, also six plants. For single specimens Gordon Smirl was first for four plants. Gordon Smirl was second for six plants and John McCleary third for the same.

There were the usual exhibits of choice foliage plants, the center of the hall being taken up with Thos. Long's magnificent specimen of Gleichenia glaucescens, 10 feet in diameter by six high. This was surrounded by six enormous pots and pans of ferns. The stage was occupied by Henry A. Dreer with a large collection of new and rare greenhouse plants and ferns all conspicuously labeled. This was a very interesting exhibit. John McCleary was first for 12 foliage plants, a very well grown lot. John Hobson exhibited his new croton, extra fine specimens, for which he received first prize, and in the foyer, won first for eight foliage plants, the center of the group being a fine Ficus pandurata. John Hobson was first with six varieties of foliage plants with John Thatcher second, both very fine collections. John Hobson was also first for specimen croton. John Thatcher won first for his specimen plant of Dracæna Godseffiana, and Joseph Hurley second with Dracæna Sanderiana. A fine plant of Pandanus Sanderi was also staged by the same exhibitor. For the best eight dracænas, Wm. Batchelor was first and Wm. Roberston second. A new plant of promise was Asparagus Ducheni, a very striking novelty. The lines are long with bright glossy foliage. It looks all right commercially as the cut sprays would work up nicely with cut flowers. Wm. Batchelor staged this as well as a new coleus having a yellow center with a wide dark green edge, a new departure in this class of plants and surely a great novelty. In the lower hall, H. A. Dreer made a grand exhibit of tall kentias and bay trees of all sizes, much the finest ever seen here. These were arranged along the entire side of the grand staircase. A large gleichenia and a fine specimen cibotium flanked the entrance and at the newel posts of the main stairway stood two fine plants of Ficus pandurata from the Craig nurseries. In the rear lower hall the same exhibitors filled a table with choice ferns, dracænas, Ficus pandurata, all well grown commercial plants. W. K. Harris staged Saintpaulia, the African violet. This is a fine thing which will sell readily in all first class stores. He also had choice hybrid Begonia Gloire de Lorraine and four-leaved clover. Several fine exhibits of Begonia Rex were also seen. Thos. Meehan & Sons made a pretty exhibit of cut pompon chrysanthemums as did R. Vincent, Jr., & Son through H. F. Michell. This latter company had their usual large collection of garden and greenhouse requisites. They also made a special display of jardinieres surrounding a table set with bulbs. This exhibit was illuminated with small electric lights and received much attention. The H. A. Dreer Co. made a display of grass seeds and H. Waterer a display of bulbs, mushroom spawn and other requisites. There was a good showing of fruits and vegetables though not as large as last year, but the quality was of the best.

K.

AT THE CHICAGO SHOW.

Totty's vase of White Duckham chrysanthemums.

Massachusetts Horticultural Society.

The annual chrysanthemum exhibition of the Massachusetts Horticultural Society was held in the halls of the society in Boston November 2, 3 and 4. That the season for the queen of autumn had been very backward was very manifest from a look into the halls, for it was the smallest show held by this society in a number of years. The large, beautifully grown plants which have made the Boston show famous were missing. Only one exhibitor showed any number of those immense plants which have formerly been the pride of the exhibition and his were hardly in condition to be staged, being barely more than half in bloom and one or two just showing color. The smaller plants in 8-inch pots, shown by W. H. Elliott, were much more advanced and made a very creditable showing.

What the reason is that this important feature of this important show is deteriorating is problematical. It may be that the year, as some say, when it is so pronounced, that the date is too early, but certainly the plants of the last few years have not compared with those that were exhibited for the 10 or 12 years previous. Some say that the prizes are not commensurate with the expense of growing and transporting such specimens as used to adorn the exhibitions of this society. But it can be easily discerned that after a gardener has attained an excellence that wins for him the first premium for one or two years he withdraws from competition and leaves the field open to other growers.

GENERAL VIEW OF THE PHILADELPHIA FLOWER SHOW, NOVEMBER 6, 1906.

Others think that the management at present is not taking the interest in this feature that was formerly taken. Of course, the gardeners on the private estates must be depended upon to furnish these beautiful plants, for no commercial grower could afford to give the space in his houses necessary to produce the large specimens, but some effort should be made to encourage their growth, and increase the competition in this class to the extent that was manifest some 10 years ago when the hall would be filled with specimen plants that were admired by all those attending the exhibition at that time.

The exhibition of cut blooms while not as large as in some years was fully up to standard in quality of those of the years previous and the blooms staged by R. W. Paterson, of Lenox, in the opinion of many have never been equaled at this society's exhibition, and certainly, with the exception of the blooms shown by Wm. Duckham two years ago which these blooms rivalled, no better 25 were ever shown in Boston. The blooms were beautifully finished and the collection embraced the following varieties: J. E. Dunne, Leila Filkins, Mafeking Hero, C. J. Salter, J. A. Miller, Nellie Pockett, Australe, Wm. Knox, Mary Inglis, Mrs. Wm. Duckham, Beatrice May, Morton F. Plant, Donald McLeod, Greenfield, Maynell, Ben Wells, Henry Partridge, Merza, Brighthurst, George Heaume, Wm. Duckham, F. S. Vallis, Marie Liger, Cheltoni and Geo. Mileham. Peter B. Robb was a good second and in his collection were noted fine specimens of Mme. Von Audre, Lady Hopetoun, H. A. Etherington and G. A. Miller. The third in this class went to Wm. Whitman, Michael Sullivan, gardener, who showed extra good blooms of Wm. Knox, Brighthurst, Mme. Carnot and Fidelity.

In the 12 blooms, 12 varieties, Peter B. Robb captured first, and particularly noticeable were Wm. Duckham and Gen. Hutton. The second went to Mrs. Lester Leland, E. H. Welterlow gardener, and in the collection were beautiful blooms of F. F. Thompson, Mlle. Marie Liger and Merza. In the best 10 white first prize went to Wm. Whitman with Merza and second to the same exhibitor with Nellie Pockett and third to G. F. Fabyan, James Stewart gardener, with Beatrice May. In 10 reds Wm. Whitman was first and G. F. Fabyan second. For 10 pink G. F. Fabyan was first Beatrice May. In 10 red Wm. Whiting second with Wm. Duckham and E. M. Gill third with Dr. Enguehard. The 10 yellows brought out the best competition for vase of Col. Appleton and one of Cheltoni. The latter, exhibited by Arthur F. Whiting, took first, Seth A. Borden second and Wm. Whitman third.

In any other color three bronzes were shown. Geo. F. Fabyan took first with Donald McLeod, James Nicol second with Harrison Dick and Wm. Whitman third with Kate Broomhead. In six varieties, six blooms each, Wm. Whitman showed well grown Wm. Duckham, John Pockett, Peter Kay, Leila Filkins, Cheltoni and Merza. The thing most noticeable to the close observer was that the large well finished blooms were in the majority of cases those varieties of Australian origin, very few American varieties finding a place on the tables.

The groups of foliage and blooming plants which were staged in the large hall were a beautiful feature and added quality to the effect of the hall. Wm. Whitman was first, Edward MacMulkin second and Sidney Hoffman third.

The prizes for six plants, six blooms on each, brought out a large exhibit, the blooms on the first and second prize winners being nearly as large as those on the tables. Mrs. Lester Leland was first, and A. W. Blake, J. L. Smith, gardener, second. A table which attracted a great deal of attention was the large exhibition of single chrysanthemums exhibited by E. Jackson Clark, John Ash, gardener. It consisted of a very large variety, many of the blooms being of beautiful color. This was awarded the society's silver medal. E. A. Clark staged a beautiful row of blooms that occupied the center of the hall.

The display of orchids was exceptionally large and fine, beautiful exhibits being made by James E. Rockwell, Edward MacMulkin, John L. Gardner, Lager & Hurrell, Julius Roehrs Co. and E. O. Orpet.

The display of carnations was very small, but the blooms shown of very good quality. Backer & Co. made an extensive exhibit, securing the majority of prizes. Some very handsome novelties were shown. Peter Fisher exhibited Beacon and Evangeline, F. R. Pierson, Winsor, Backer & Co., a fine scarlet, No. 36, and H. A. Jahn, Jahn's white and Jahn's crimson.

The special premiums offered on Saturday for the best arranged dinner decoration for four furnished a spirited contest between eight exhibitors, and made a most attractive and interesting display. Sidney Hoffman took the first prize with an artistic table of cattleyas. The Rosary was second with a decoration of violets and Houghton & Clark

were third, using Odontoglossum varicosum and cypripedium.

The judges for the competition were three ladies chosen by the trustees: Mesdames Nathaniel Thayer and C. S. Sargent and Miss May S. Ames. Following is the list of prizes:

AWARDS FOR PLANTS AND FLOWERS.

Special prizes of the Henry A. Gane memorial fund for chrysanthemums were awarded as follows:

For the best specimen plant of Marcia Jones, Henry A. Gane, Mrs. Henry A. Gane, or any of the sports or seedlings of these three varieties, Edward J. Mitton, second.

The H. H. Hunnewell fund was awarded as follows: Hardy coniferous trees, display in pots and tubs, named: R. & J. Farquhar & Co., first.

The society's prizes were awarded as follows:

Chrysanthemums: Display of eight named plants in not over 12-inch pots, any or all classes, distinct varieties: First, J. S. Bailey; fourth, Wm. H. Elliott. Two Japanese incurved: First, J. S. Bailey; third, Wm. H. Ellliott. Two reflexed: First, J. S. Bailey; third, Wm. H. Elliott. Specimen Japanese incurved: First, J. S. Bailey; second, Edward J. Mitton; third, Wm. H. Elliott. Specimen reflexed: First, J. S. Bailey; third, Wm. H. Elliott. Specimen pompon: Second, Wm. H. Elliot. Specimen plant of any variety, not included in above classes: First, Geo. F. Fabyan; third, Wm. H. Elliott. Six plants of six varieties grown to six stems with one bloom to each stem: First, Mrs. Lester Leland; second, Mrs. A. W. Blake; third, Wm. Whitman.

Begonia Rex: Ten pots of 10 varieties: First, Mrs. John L. Gardner; second, Mrs. A. W. Blake.

Best arranged group of foliage and flowering plants covering 200 square feet: First, Wm. Whitman; second, Edward MacMulkin; third, Sidney Hoffman.

Orchids: Display arranged for effect, with foliage plants: First, Mrs. John L. Gardner; second, Edward MacMulkin.

Special prizes of the Josiah Bradlee fund, were awarded as follows:

Chrysathemums: Twenty-five blooms, of 25 distinct varieties named: First, R. W. Paterson; second, Peter B. Robb; third, Wm. Whitman. Six vases of six named varieties, 10 blooms each: First, Wm. Whitman.

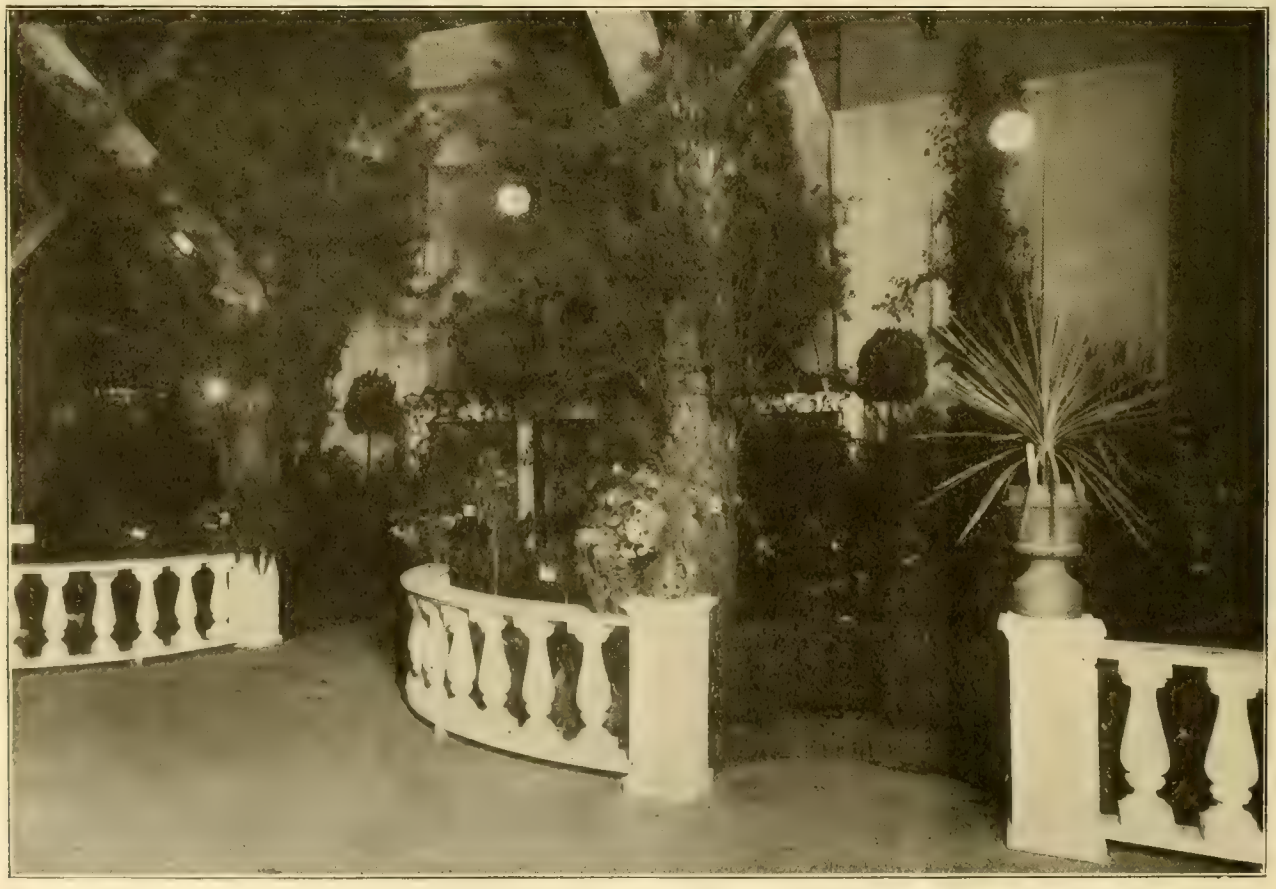
The Henry A. Gane memorial fund was awarded as follows: Chrysanthemums, for the best six specimen blooms of Mrs. Jerome Jones, Yellow Mrs. Jerome Jones, or any of the sports of seedlings of these two varieties: First, Arthur F. Whitin; second, James Nicol.

The society's prizes were awarded as follows:

Chrysanthemums: Twelve blooms, incurved, named: First, Mrs. C. C. Converse and Mrs. Lester Leland. Twelve blooms, Japanese, named: First, Peter B. Robb; second, Mrs. C. C. Converse and Mrs. Lester Leland. Twelve blooms, Japanese incurved, named: First, Mrs. Lester Leland. Twelve blooms, reflexed, named: First, Mrs. C. C. Converse and Mrs. Lester Leland. Twelve blooms, anemone, named; First, Mrs. C. C. Converse and Mrs. Lester Leland. Twelve sprays, pompon, distinct: First, Peter B. Robb; second, Mrs. C. C. Converse and Mrs. Lester Leland; third, Mrs. C. C. Converse and Mrs. Lester Leland. Six best varieties, named, introductions of the current year: First, Wm. Whitman; second, Mrs. C. C. Converse and Mrs. Lester Leland. Vase of 10 blooms on long stems, pink, named: First, Geo. F. Fabyan, Mrs. Morton F. Plant; second, Arthur F. Whitin, Wm. Duckham; third, Mrs. E. M. Gill, Dr. Enguehard. Red: First, Wm. Whitman, John Shrimpton; second, Geo. F. Fabyan, the same. White: First, Wm. Whitman, Merza; second, Wm. Whitman, Nellie Pockett; third, Geo. F. Fabyan, Beatrice May. Yellow: First, Arthur F. Whitin, Cheltonii; second, Seth A. Borden, Col. Appleton; third, Wm. Whitman, the same. Any other color: First, Geo. F. Fabyan, Donald McLeod; second, James Nicol, Harrison Dick.

Orchids: Display of named species and varieties, filling not less than 20 bottles: First, James E. Rothwell, the Appleton silver gilt medal; third, Edward MacMulkin, the Appleton bronze medal.

Carnations: Twenty-five blooms of any named crimson variety: First, Backer & Co. Twenty-five blooms any named Daybreak colored variety: First, P. Dexter; second, Exeter Conservatories. Twenty-five blooms, dark pink: First, Backer & Co. Twenty-five blooms light pink: First, Backer & Co. Twenty-five blooms scarlet: First, Backer & Co.; second, ditto; third, ditto. Twenty-five blooms white: First, Peter Fisher; second, Backer & Co. Twenty-five blooms yellow variegated: First, Back-



AT THE CHICAGO SHOW.

Model garden of Vaughan's Seed Store, Chicago

er & Co.; second, ditto; third, ditto. Twenty-five blooms white variegated: First, Backer & Co.

Gratuities: E. A. Clark, vase of chrysanthemums; Mrs. E. M. Gill, display of chrysanthemums; Wm. H. Elliott, display of chrysanthemums; Dr. C. G. Weld, five standard chrysanthemums; F. R. Pierson, 2 vases Carnation Winsor; Peter Fisher, vase of Carnation Evangeline; Wm. H. Elliott, two vases of roses, Richmond and Wellesley; Waban Rose Conservatories, two vases of roses, Wellesley and American Beauty; Julius Roehrs Co., display of orchids; Lager & Hurrell, display of orchids; Wm. Whitman, Cattleya labiata; N. Allen Lindsay, display of dahlias; Geo. H. Walker, dahlias; Wm. C. Winter, dahlias; C. D. Sias, six specimen plants Begonia Gloire de Lorraine; Edward MacMulkin, display of palms; R. & J. Farquhar & Co., palms; Geo. F. Fabyan, palms; Mrs. John L. Gardner, palms.

Silver medal: Miss E. Jackson Clark, collection of single chrysanthemums.

First class certificate of merit: Chas. H. Totty, chrysanthemum sport from Wm. Duckham.

Honorable mention: H. A. Jahn, carnations, No. 1, Jahn's white; and No. 2, Jahn's crimson; Wm. Sim, vase of new violet, sport from Princess of Wales; Cobbett School, Lynn, display of pompon chrysanthemums; F. R. Pierson Co., new fern; Peter B. Robb, seedling Cattleya Louise; F. W. Fletcher Co., Ficus altissima; E. O. Orpet, seedling cattleyas and laelias; Julius Roehrs Co., Tillandsia Duvalliana; Julius Roehrs Co., new Begonia Rex, the Marquis.

Special prizes for decorated dinner tables were awarded as follows:

For the best decorated dinner table, laid for six covers: First, Sidney Hoffman; second, J. J. Casey; third, Houghton & Clark. Highly commended, G. A. Severy & Co.

Gratuities: Mrs. John Shepard, display of chrysanthemums.

First class certificates of merit: W. A. Riggs, superior vase arrangement of specimen blooms of chrysanthemums.

Honorable mention: John Nilan, seedling Impatiens; J. S. Bailey, new fern; Louis Doupy, new chrysanthemum.

Tarrytown Horticultural Society.

The eighth annual exhibition of the Tarrytown Horticultural Society was held in the music hall, Tarrytown, N. Y., October 30-November 1, and was pronounced a greater success than any of the society's previous exhibitions. Chrysanthemums were an important feature of the show and the classes brought out much competition.

The event which perhaps evoked most interest was the competition for a splendid silver cup for the best arranged floral decoration for a circular dinner table seating 12 persons. White china plates were used, and no silver was allowed. Both tables and plates were furnished by the exhibition committee, but competitors were required to supply the necessary table linen. The table taking first prize was decorated with Adiantum Farleyense and cattleyas, corsage bouquets also of cattleyas, and boutonnieres of gardenias. The second best table was decorated with leaves of Ampelopsis Veitchii, berries of Berberis Thunbergii and crimson chrysanthemums, with crimson carnations for boutonnieres. This table was a very close second. Another table was decorated with Killarney roses, and a fourth with yellow pompon chrysanthemums. Others were of white and yellow chrysanthemums, and there was one decorated with Begonia Gloire de Lorraine, but this showed too much foliage. There were seven entries altogether.

VASE OF CHRYSANTHEMUMS AT BOSTON.
Exhibited by E. A. Clark, W. A. Riggs, gardener.

The groupings of plants were fully up to the standard of the society, and fine specimen plants were very much in evidence. While the exhibition was very largely open to all, commercial growers' entries were not very conspicuous. The F. R. Pierson Co., Tarrytown, had a fine exhibit, not for competition, composed of American Beauty roses, cornations, palms, ferns and other decorative and foliage plants. Among their carnations the variety Winsor, which they will send out next year was prominent and much admired. Charles H. Totty showed White Duckham, his principal chrysanthemum novelty for this season, and was awarded a certificate of merit. Lager & Hurrell of Summit, N. J., were also awarded a certificate for a nice display of orchids.

With the resources of the society for getting up a splendid exhibition it is a misfortune that a larger exhibition hall is not available in the town, exhibits in the music hall, the largest obtainable, being necessarily very much crowded.

Following are the awards: Chrysanthemums in pots, best bush plants, Frederick Potter, first; 12 plants, single stem and bloom, pots 6 inches or less, D. E. Oppenheimer; group of palms, foliage and miscellaneous plants, for effect, 100 square feet space, Mrs. J. B. Trevor, first. Best specimen palm, E. H. Weatherbee, first, Mrs. J. H. Hall second. Fancy foliage plant, other than palm, Mrs. Geo. Lewis first, Miss Blanche Potter second. Best specimen flowering plant, Mrs. Henry Siegel first. Six plants for table decoration, H. M. Flagler first, Theodore Trevillian second. Best six ferns for table decoration, Wm. Neidig first, Theodore Trevillian second. Best specimen fern, Mrs. J. B. Trevor first, E. H. Weatherbee second. Best pair of adiantums, other than Farleyense, Mrs. Geo. Lewis first, H. M. Flagler second. Best specimen A. Farleyense, Mrs. J. B. Trevor. Best six cyclamen plants, Frederick Potter first, Mrs. Geo. Lewis second. Best plant Begonia Gloire de Lorraine, Mrs. Henry Siegel first, J. Scott McComb second.

Chrysanthemums, cut blooms, best 25 blooms, distinct varieties, Giraud Foster first, Wm. Rockefeller second. Best 6 blooms, distinct varieties, E. C. Benedict first, Frederick Potter second. Best 6 blooms, white, Frederick Potter first, A. Hecksher second. Best 6 blooms, yellow, Winthrop Sargent first, Frederick Potter second. Best 6 blooms, pink, Frederick Potter first, A. Hecksher second. Best 6 blooms, crimson, Frederick Potter first, A. Hecksher second.

Cut roses, best 12 American Beauty, Mrs. Geo. Lewis first, Mrs. J. B. Trevor second. Best 12 pink, Mrs. H. F. Osborn first, Frederick Potter second. Best 12 white, Miss Blanche Potter first, Howard Willets second. Best 12 yellow, Mrs. J. B. Trevor first, Frederick Potter second. Best 12 crimson, A. Hecksher first, Mrs. Geo. Lewis second. Best 12, any other color, Mrs.

GROUP CHRYSANTHEMUM AND FOLIAGE PLANTS AWARDED FIRST PRIZE AT BOSTON

Exhibited by Mrs. J. L. Gardner, Wm. Thatcher, gardener.

Geo. Lewis first, Frederick Potter second.

Carnations, cut bloom, for private gardeners only, best 18, three varieties, six of each, E. C. Benedict first, Frederick Potter second. Best 12 blooms, white, Frederick Potter first, Mrs. O. B. Jennings second. Best 12 blooms, scarlet, E. C. Benedict first, Mrs. O. B. Jennings second. Best 12 blooms dark pink, Fred'k Potter first, Mrs. O. B. Jennings second. Best 12 blooms, light pink, J. J. Riker first, Mrs. Henry Siegel second. Best 12 blooms, streaked, Fred'k Potter first, Mrs. H. F. Osborn second. Best 12 blooms, crimson, Mrs. O. B. Jennings first, Fred'k Potter second.

Carnations, cut blooms, for commercial growers only. Best vase, 50 blooms, one variety, F. R. Pierson Co. first.

Violets. Bunch of 50 double blue, Howard Willets first, the Misses Masters second. Bunch of 50 single blue, Miss B. Potter first, Mrs. J. B. Trevor second. Bunch of 100 double blue, Herman Bowman first, Richard Langle second. Bunch of 100 single blue, Herman Bowman first, Richard Langle second.

Special prizes for the best new decorative plant not now in commerce, society prize, silver medal, Scott Bros., Elmsford nurseries, first, with a new dracæna; Theodore Trevillian second, certificate of merit for a new dwarf fern. Best 12 blooms of chrysanthemums, Glenview; F. R. Pierson's prize, silver cup. Wm. Rockefeller first, Emil Berolzheimer second. Most effectively arranged table of decorative plants, 3½x12 feet, for private gardeners only, prizes by Pierson U. Bar Co., Emil Berolzheimer first. Best vase of 25 carnations, any one color, one variety, for private gardeners only, prizes by Vaughan's Seed Store, Wm. Rockefeller first, Mortimer L. Schiff second. Largest chrysanthemum bloom selected from all exhibits, prize by Charles Vanderbilt, Winthrop Sargent. For the best vegetables grown out of doors, 12 species, one variety of each, prize by Arthur T. Boddington, Giraud Foster first, Miss McCormick second. For the best essay on growing vegetables in the garden, prize by Peter Henderson & Co., James Donald. For the best arranged floral decoration for circular dining table seating 12 persons, prize by Mrs. Stuyvesant Fish, silver cup, Mrs. Geo. Lewis first, Emil Berolzheimer, certificate of merit. For the best miniature flower garden, 2½x3½ ft., for assistant gardeners only, prize by Wm. F. McCord, Wm. Rockefeller first, Joseph Eastman second. Best 12 cut Richmond roses, prizes by Mrs. Osborn, Mrs. Geo. Lewis first, silver cup; Edw. Cosgrove second. Best two chrysanthemum plants, bush form, Wm. Rockefeller first, Frederick Potter second. Best 12 blooms chrysanthemums, distinct varieties, Giraud Foster first, Wm. Rockefeller second. Best collection pompon chrysanthemums grown outdoors, Mrs. O. B. Jennings first, Frank H. Presby second. Best three plants Baby Rambler roses, President Joseph Mooney's prize, Mrs. H. F. Osborn first, Mrs. J. H. Whitehouse second. Best 36 blooms chrysanthemums, six varieties, six of each, Emil Berolzheimer first. Best 36 carnations, six varieties, six of each, Wm. Rockefeller first, Mrs. Osborn second. Best vase 25 blooms of chrysanthemums, Mrs. J. B. Trevor first, D. E. Oppenheimer second. Best Kentia palm, Mrs. Geo. Lewis. Best arranged centerpiece for table, Mrs. Lewis first, Mrs. Trevor second.

Monmouth County Horticultural Society.

The eleventh annual show of this society was held at the town hall, Red Bank, N. J., October 31 and November 1. The show was up to date in every particular. Wm. Turner, superintendent at the M. C. Borden estate, Oceanic, N. J., was placed first in the class for 25 cut blooms, showing T. Carrington, Henry Barnes, Salter, Merstham Red, Montigny, Mrs. Duckham, D. Willis James, Merza, Donald McLeod, Appleton, Heaume, Cheltoni, Ethel Fitzroy, Mrs. H. Partridge, Ben Wells, Mrs. J. E. Dunne, Wm. Duckham, F. S. Vallis, Beatrice May, F. A. Cobbold, Loveliness, Nelly Pockett, Mrs. W. Knox, H. J. Jones, and Morton F. Plant. The same grower won in the class for 36 blooms, six varieties showing Wm. Duckham, Ben Wells, Ethel Fitzroy, Morton F. Plant, Nelly Pockett and Cheltoni.

Geo. H. Hale, superintendent at E. D. Adams' estate, Seabright, N. J., was first for 12 blooms, distinct varieties, closely followed for second place by Anton Bauer of the Daniel O. Day's estate. In the class for 18 blooms in six varieties G. H. Hale was first, N. Butterback, superintendent at the C. N. Bliss estates, second. For six yellow, six white, six pink, six crimson, six bronze and six any other color, Wm. Turner and Geo. H. Hale took first and second prizes respectively in all the classes. This order was just reversed in the class for 25 flowers arranged for effect, Geo. H. Hale being first and Wm. Turner second. Anton Bauer was first, and N. Butterback second, for groups of chrysanthemums. For single specimen plant Geo. H. Hale was first, H. S. Kettel, superintendent at the James Loeb estates, Fairhaven, N. J., second. Bush plant: Geo. H. Hale, first; Wm. Dowlen, Seabright, N. J., second. Anemone: Geo. H. Hale, first; H. S. Kettel, second. For a group of foliage plants. H. S. Kettel was first; N. Butterback, second; this order being reversed for the specimen palm. For foliage plants: Wm. Turner, first; Geo. H. Hale, second. For 6 distinct ferns: N. Butterback was first; Geo. H. Hale, second. For 25 American Beauty roses, W. W. Kennedy, of the A. Freedman estate, was first; Geo. H. Hale, second. In the classes for vase of Bride, Bridesmaid and any other variety N. Butterback was first, the second in each case being taken by W. W. Kennedy.

In the carnation classes the chief prize winners were Wm. Turner, H. S. Kettel, W. W. Kennedy and Wm. Tierney, of the A. R. Bradley estate, Montclair. In those for fruit the prizes were taken by W. W. Kennedy, Geo. H. Hale, H. S. Kettel and Geo. Kuhn of Dr. E. Parmley estate, Oceanic, N. J. For greenhouse grapes, both white and

MORRIS COUNTY GARDENERS' AND FLORISTS' SOCIETY, MADISON, N. J.

General exhibit of roses at flower show.

black, Wm. Turner and Geo. H. Hale took first and second prizes respectively. Geo. Kuhn, Jas. Kennedy, N. Butterback and Geo. H. Hale divided the vegetable prizes. W. W. Kennedy exhibited a fine seedling of Gaza x T. Carrington.

C. Totty, Madison, N. J., exhibited some fine white Duckham chrysanthemums. This is a sport from Wm. Duckham equal to the parent form. A certificate of merit was given. Lager & Hurrell, Summit, N. J., had the same award for a fine display of orchids, and W. W. Kennedy, Red Bank, N. J., also received it for his new seedling chrysanthemums.

B.

Morris County Gardeners.

The eleventh annual flower show of the Morris County (N. J.) Gardeners' and Florists Society was held in the assembly rooms at Madison, N. J., November 1-2, and was a notable success. The exhibits of both commercial and private growers were up to the usual high standard seen here, and the show was more than ordinarily well attended. The general arrangement of the floor was, with few exceptions the same as last year. The vegetable and fruit department was but scantily patronized, owing no doubt to the fact that it was overcrowded at the last exhibition, and intending exhibitors were not aware of the fact that this difficulty was to be obviated on this occasion. A cone-shaped group in the center of the hall was very cleverly arranged, the composition being pom pom chrysanthemums based with begonias and Asparagus plumosus, and topped with crotons surmounted by a tall specimen kentia. The large stage was banked with a splendid grouping of chrysanthemums and foliage plants. The staging of roses was exceptionally good for the time of year and despite the fact that roses are only recovering from a hard season. The Bride and Bridesmaid roses, also American Beauty, shown were quite worthy of the representation of the growers in the Madison district. Killarney was a strong candidate for favoritism, and Richmond, as shown here, proved that it had far from forfeited the good opinion of its growers and could well compensate for its rather poor commercial showing during the summer months. The carnation classes showed some good stagings for the time of year, Enchantress rather leading in length of stem and size of flower. Victory was easily ahead among the crimsons, and Winsor, the new pink, which was not entered for competition, made a fine showing. Fiancee and Robert Craig were other new varieties to be seen. The stagings of chrysanthemums were elaborate, notwithstanding the backwardness of the season. There were not so many new varieties on exhibition as have been noted previously. A decided novelty was White Duckham, presented by C. H. Totty, of Madison. With the exception of color it is an exact counterpart of pink Wm. Duckham. Among other new varieties shown by Mr. Totty were Mrs. A. T. Miller, a beautiful white, large flower, incurved; Miriam Hankey, a fine pink; Mrs. Henry Barnes, old rose. There was a fair showing of bush chrysanthemums, the most distinctive bush probably being one exhibited, but not in competition, by Arthur Herrington, the variety being Mrs. Tranter, appearing in a 12-inch pot and bearing over 300 flowers. The staging of most of the short-stemmed specimens of chrysanthemums was backed with a bank of adiantum, which minimized the effect of bareness usually observed in such staging. Among the specimen plants exhibited was a grand pot of Adiantum Farleyense, the fern being 3x3 feet in area. The following were the awards:

CHRYSANTHEMUMS.

Thirty-six flowers in six varieties, six of each.—R. D. Foote, Morristown, N. J., R. Vince, gardener, first.

Eighteen flowers in six varieties, three of each.—O. H. Kahn, Morristown, N. J., Jas. Fraser, gardener, first; Brooklawn Farms, Morristown, John Downing, gardener, second.

Twelve flowers in twelve varieties, in one vase.—R. D. Foote, first; O. H. Kahn, second.

Ten flowers, and pink variety, Stumpp & Walter, special prize.—O. H. Kahn, first.

Twenty-four flowers, in 24 distinct varieties, stem not to exceed 12 inches, shown in single vases.—R. D. Foote, first.

Twelve flowers in 12 distinct varieties, stem not to exceed 12 inches.—Brooklawn Farms, first; O. H. Kahn, second.

Six flowers in six distinct varieties, stems not to exceed 12 inches.—Geo. E. Kissel, Morristown, N. J., H. Vyse, gardener, first; A. R. Whitney, Morristown, G. Heereman, gardener, second.

Six flowers, any pink variety.—O. H. Kahn, first; A. R. Whitney, second.

Six flowers, any white variety.—A. R. Whitney, first; Brook Lake Farms, Madison, N. J., A. R. Kennedy, gardener, second.

Six flowers, any yellow variety, Geo. E. Kissel, first; Stewart Hartshorn, Short Hills, N. J., R. T. Caparn, gardener, second.

Six flowers, any color except pink, white or yellow.—Brook Lake Farms, first; Geo. E. Kissel, second.

Six flowers of Glenview, special prize by F. K. Pierson Co., Tarrytown, N. Y.—R. D. Foote, first; A. R. Whitney, second.

Six flowers, 1905 introduction, in six distinct varieties, short stem in single vases.—R. D. Foote, first.

Six flowers, 1906 introduction, in six varieties, short stem in single vases.—R. D. Foote, first; Brook Lake Farms, second.

Vase of flowers with other foliage, arranged for effect.—L. A. Theband, Morristown, N. J., Edward Reagan, gardener, first; O. H. Kahn, second.

Best display of pompon chrysanthe-

FICUS PANDURATA IN FRUIT.

Grown by the Robt. Craig Co., Philadelphia, Pa.

mums, number of vases not to exceed 10.—J. N. May, Summit, N. J., first; C. H. Totty, Madison, N. J., second.

Ten flowers, any white variety.—C. H. Totty, first; C. A. Work, Madison, N. J., Wm. Muhlmichel, gardener, second.

Ten flowers, any yellow variety.—Frank L. Moore, Chatham, N. J., first; C. A. Work, second.

ROSES.

One vase, 25 blooms, Richmond, vice-president's special prize.—C. H. Totty, first; C. A. Work, second; Lyman B. Coddington, third.

Eighteen American Beauty—L. M. Noe, Madison, first; H. Hentz, Jr., Madison, second.

Twenty-five Bridesmaid.—H. A. Neuner, Chatham, first; Hy. Hentz, Jr., second; D. Falconer, Madison, third.

Twenty-five Bride.—L. A. Noe, Madison, first; D. Falconer, second; Wm. D. Badgley, Chatham, third.

Twelve Bridesmaid.—J. T. Wagner, Madison, E. C. McDaniel, gardener, first; L. V. Badgley, New Providence, N. J., second.

Twelve Bride.—L. M. Noe, first; L. V. Badgley, second.

Six Bridesmaid.—C. H. Totty, first.

Six Brides.—A. R. Whitney, first; C. H. Totty, second.

Six American Beauty, W. E. Marshall & Co.'s prizes. — Brook Lake Farms, first; D. Willis James, Madison, Wm. Duckham, gardener, second.

Six teas, any variety, Marshall prizes.—Brook Lake Farms, first; G. M. Millan, Morristown, A. Brown, gardener, second.

CARNATIONS.

Two vases, 25 blooms each, one variety white, other any variety, one color competition, open to private gardener members only, silver cup by R. & J. Farquhar, to be won twice for ownership, Wm. Duckham, first; R. Vince, second.

One vase, 25 blooms in variety, special prize by Vaughan's Seed Store, open to private gardeners only.—R. Vince, gardener to R. D. Foote, first.

One vase, 25 blooms, any one variety, introduced prior to 1905, special prize by A. H. Secker.—J. N. May, first; R. M. Schultz, Madison, second.

Three vases, in three varieties, 12 blooms each.—R. D. Foote, first; A. R. Whitney, second.

One vase, 12 blooms, one variety.—O. H. Kahn, first; R. D. Foote, second; C. H. Totty, third.

Vase of Victory carnations, special prize by Alex. J. Guttman.—C. H. Totty, first; A. R. Whitney, second.

VIOLETS.

One bunch single blue, 50 flowers.—John Crosby Brown, Orange, N. J., Peter Duff, gardener, first; R. D. Foote, second; one bunch double blue, 50 flowers.—Wm. Morstatt, New York, certificate of merit.

GROUPS.

Chrysanthemum plants in flower, with foliage plants, space not over 50 square feet, special prize by Pierson U. Bar Co.—A. R. Whitney, first; D. H. McAlpine, second; Geo. E. Kissel, third.

Three specimen chrysanthemum plants in flower, 12-inch pots or less.—John Crosby Brown, first.

Best specimen chrysanthemum plant in flower, John Crosby Brown.

Twelve chrysanthemum plants in flower in 12 varieties, single stem, limit 6-inch pots.—J. C. Brown, first; R. D. Foote, second.

Six chrysanthemum plants in flower, in six varieties, single stem, pots limited to six inches.—A. R. Whitney, first.

VEGETABLES AND FRUIT.

Best display of vegetables in 12 kinds—special prize by Arthur T. Boddington.—D. Willis James, Wm. Duckham, gardener.

Best collection of 12 distinct kinds—special prizes by Peter Henderson & Co.—A. R. Whitney, first; Stewart Hartshorn, second.

Best collection of six distinct kinds.—special prizes by Weeber & Don.—Geo. E. Kissel, first.

Six heads of celery, one variety.—D. W. James, first; R. D. Foote, second.

CERTIFICATES OF MERIT.

F. R. Pierson Co., Tarrytown, N. Y., Winsor carnation.

Lager & Hurrell, Summit, N. J., display of orchids.

D. Willis James, specimen Pandanus Sanderi.

C. H. Totty, collection of pompon chrysanthemums.

Henry Hentz, Jr., vase of Killarney roses.

L. M. Noe, vase of Meteor roses.

R. D. Foote, specimen plant Adiantum Farleyense.

Nassau County Horticultural Society.

The second annual exhibition of the Nassau County Horticultural Society was held October 31 in the Pembroke hall, Glen Cove, L. I. The display was very fine and included exhibits from as far away as Lenox, Mass. Roses and carnations were excellent and made a fine display. There was a fine exhibit, not for competition, of orchids by Lager & Hurrell, Summit, N. J., and of fruit, by Jas. Holloway, gardener at the Pratt estate.

The Troy cup, presented for the best collection of outdoor roses, was won for the year by L. I. Forbes, gardener to R. J. Preston, Jericho. The Ladew silver cup, presented by Mrs. B. W. Ladew, went to Mr. Harrison, superintendent at Elsinore. W. Eccles, gardener to Mortimer Schiff, won the Mrs. Percy Chubb cup for the best collection of carnations. The special prizes presented by Vaughan's seed store, New York, for the best six heads of celery went to J. Hennessy, G. H. Morgan, Lenox, Mass., and H. F. Johnston, gardener at the Dana estate. Mrs. Paul Dana's special prizes went to Alexander MacKenzie and H. F. Johnston. The Weeber & Don prize, for six varieties of chrysanthemums, went to A. MacKenzie. Mrs. J. K. O. Sherwood's special prize of $10 was won by Felix Mense for violets.

Rickards Bros.' special prizes for foliage plants were won by Mrs. Ladew's and J. R. Maxwell's exhibits, and A. MacKenzie won the F. R. Peterson prize for the best 12 Glen Cove chrysanthemums. The association's prize, for the best collection of carnations shown by a commercial grower, went to C. F. Bartanzel, this grower also winning in the floral design class, F. G. Boulen second. F. G. Boulen was first for a bridal bouquet.

In the regular classes A. MacKenzie, H. F. Johnston and Peters & Son, of Hempstead, were among the winners. W. Eccles, gardener at the Mortimer Schiff estate, Oyster Bay, was also a prize winner. Other fortunate private exhibitors were F. S. Smithers, L. J. Busby, G. R. Sheldon, E. R. Ladew, E. H. Sayer and J. A. Young, while the best commercial exhibits came from F. Bonlen & Son, Peters & Son, J. Hennessey and Jacob Bracher, East Williston. For 12 varieties of vegetables G. H. Morgan was first, Paul Dana and G. R. Sheldon second and third. In the children's exhibits Augusta Matz, F. Matz, Gertrude Trepass, W. Meyer, Margaret MacKenzie, Walter Hahn, David Burns and Leon Homan were successful.

Bay Shore Horticultural Society.

The fifth annual exhibition of the United Bay Shore Horticultural Societies, which opened November 1 in the Carleton opera house, was bigger and better than any of its predecessors. The display was magnificent, and was so arranged as to make the effect even more pleasing than ever before.

The display of chrysanthemums was, as usual, the center of attraction. The finest came from the county seat of S. T. Peters, William McCullom, gardener. Another rare exhibit from the Peters place was a fine collection of stove and greenhouse plants. These occupied a position on the stage, but the group was finer than any yet shown, and included many rare and costly plants. Mr. Peters was the heaviest winner of the day, taking 36 awards. The Bossert-Timmerman-Wagstaff places also made a fine showing. The Central Islip hospital exhibit of vegetables was, as usual a feature. The following is a partial list of the awards:

Largest collection of vegetables, not more than one variety of a species, prize $6, donated by Henderson & Co., won by S. T. Peters.

Collection vegetables, 12 distinct species, purse $6, donated by Arthur T. Boddington, won by S. T. Peters.

Collection vegetables of six distinct species, first prize $5, second $3, won by the Hon. C. A. Schieren; William Andrews, second.

Best four heads celery, prize $2, donated by John Rogers, won by Mrs. E. S. Knapp; S. T. Peters, second.

Best 12 blooms chrysanthemums, not less than four varieties, first prize, $6, second $4, won by Cola Wagstaff; S. T. Peters, second.

Best six blooms chrysanthemums, first prize $6 donated by Chas. H. Totty, won by S. T. Peters.

Best 12 blooms chrysanthemums, distinct varieties on boards, prize $6, donated by Slumpp & Wallon Co., won by S. T. Peters.

Best 12 stove or greenhouse plants, $6, won by S. T. Peters.

Best vase roses, prize $5, donated by Mrs. P. J. O'Neil, won by S. T. Peters.

Best three bush-grown chrysanthemum plants, first prize, $7, donated by C. E. Coddington, won by S. T. Peters.

Best 24 blooms chrysanthemums, first prize $6, second $4, donated by J. Adolph Mollenhauer, won by Col. A. Wagstaff; Louis Bossert, second.

Best 25 chrysanthemums, first prize, $5, second $3, donated by James Kempter, won by Louis Bossert; Eugene P. Strong, second.

Group stove or greenhouse plants, prize $10, won by S. T. Peters.

Largest six chrysanthemum blooms, distinct varieties, prize $6, donated by W. D. Peck, won by S. T. Peters.

Best 25 blooms chrysanthemums, distinct varieties, prize $10, donated by Mrs. M. K. P. Fuller, won by S. T. Peters.

Best bush plant of chrysanthemums, white, first prize $3, donated by W. A. Hulse, won by Edwin Thorne.

For best bush plant, pink, prizes $3 and $2, donated by S. F. Rothschild, won by E. Thorne, first; S. T. Peters, second.

Best bush plant chrysanthemums, yellow, prize $3, donated by E. C. Blum, won by E. Thorne; S. T. Peters, second.

For best group chrysanthemums in pots to occupy 50 square feet, first prize $15, second $10, donated by W. L. Andrews; first prize, S. T. Peters; Louis Bossert, second.

Largest chrysanthemum bloom in show, prize $5, donated by Francis Gibson, won by S. T. Peters.

Best six three-stemmed chrysanthemums, Mrs. E. S. Knapp, first; W. L. Andrews, second.

Special society prize for best 12 blooms chrysanthemums, any one variety, first premium each year to count as one leg on a silver cup, to be given by the society, which must be won three times before it becomes the property of the successful winner. The winner must be the actual cultivator of the plants, won by S. T. Peters.

Stove and greenhouse plants, best specimen palm, L. Bossert, first.

Best two adiantum ferns, Louis Bossert, first.

Six geraniums, any variety, E. P. Strong, first.

Chrysanthemums in pots, best yellow and pink, L. Bossert.

Six plants, single stem, six varieties, S. T. Peters, first; L. Bossert, second.

Six plants, single stem, Louis Bossert, first; S. T. Peters, second.

Six plants, single stem, yellow, L. Bossert, first; E. P. Strong, second.

Chrysanthemums, cut blooms, six each, white, first, L. Bossert; second, S. T. Peters; pink, S. T. Peters, first; L. Bossert, second; yellow, C. T. Harbeck, first; S. T. Peters, second; crimson, S. T. Peters; any other color, S. T. Peters, first; W. L. Andrews, second; pink, yellow, white, E. P. Strong.

Roses, 12 American Beauty, S. T. Peters.

Twelve white, F. H. Kalbfleisch, first; S. T. Peters, second.

Twelve yellow, F. H. Kalbfleisch, first; H. L. Patthey, second.

Carnations, 12 blooms scarlet, H. G.

Timmerman, first; S. T. Peters, second; crimson, H. G. Timmerman, first; E. Thorne, second; light pink, E. Thorne, first; H. G. Timmerman, second; pink, H. G. Timmerman, first; L. Patthey, second; dark pink, L. Bossert, first; L. Patthey, second; white and seedling, E. Thorne.

Southern California Horticultural Society.

The annual chrysanthemum show of the Southern California Horticultural Society was given October 31 to November 3, at Los Angeles, Cal. On the whole the chrysanthemums shown were first class for outside flowers. Varieties, such as Queen, Saunders and Golden Wedding, were very good. There were some very good field-grown carnations shown. One of the best features of the show was an artificial pond showing the pond lilies in their natural state.

Edward H. Rust of Pasadena showed some very fine palms and ferns. Howard Smith had a good collection of palms, also a fair collection of stove plants. Dietrich & Houston showed up well in palms and ferns.

E. Meserve had a fine collection of 10 different varieties of field-grown carnations. The Hollywood Rose Co. made a fine exhibit of field-grown Mme. Cochet and Chatenay roses.

One thing the writer noticed was that they are a little behind here in rules regarding exhibits, and also judging. For instance, two of the florists sent to San Francisco for roses and carnations. One man the writer knows has not a foot of glass and the society allowed him to exhibit these as his own grown and awarded prizes on same. In judging the floral decorations some remarkable decisions were given.

A. Wiegand, of A. Wiegand and Sons, of Indianapolis, was a visitor in this city a few days ago homeward bound from Honolulu. O.

Society of American Florists.

EXECUTIVE COMMITTEE MEETING.

A meeting of the executive committee was held at Chicago, November 8, there being present Wm. F. Kasting, president; J. C. Vaughan, ex-president; H. M. Altick, vice-president; Wm. J. Stewart, secretary; Theo. Wirth, E. V. Hallock, W. H. Elliott and P. J. Hauswirth. It was decided to proceed with the international exhibition to be held in Chicago in 1908, according to instructions, completing the guarantee fund. The committee having the matter in hand was increased to 50 members. At the following day's session Mr. Elliott was absent and John N. May and A. Herrington, who were in the city, were called upon to participate. The session was devoted largely to the completion of the committee and the appointment of those sub-committees whose work should commence fully two years in advance of the event. In the selection of suitable men it was aimed to make the general committee thoroughly representative geographically and in the way of covering every important department of horticulture.

THE LADIES' AUXILLIARY.

Under date of November 4, we are requested to publish the following so that no one may be overlooked:

"While at the S. A. F. convention at Dayton, O., a few ladies seeing so many with whom they were not acquainted, took it upon themselves to call a meeting on Friday, August 24, to consider a pin for identification. Mrs. W. J. Vesey, of Fort Wayne, Ind., was chosen chairman, and four ladies to confer with her, Mrs. E. A. Scribner, Detroit, Mich., Miss Tillie Meinhardt, St. Louis, Mo., Mrs. John Sibson, Philadelphia, Pa., Mrs. Charles H. Maynard, Detroit, Mich., and it was voted to leave the selection of the pin with them.

"On September 11 another meeting was held at the home of the chairman, Mrs. W. J. Vesey, where the auxiliary question was put under the same committee. Mrs. Scribner was appointed treasurer, Mrs. Maynard secretary. It was voted to call a meeting at Philadelphia next summer at the date of the S. A. F. convention. In the meantime we wish to get as many ladies to join as charter members before January 1, as possible. Fee for joining, including pin, $3, annual dues thereafter $1. First year to end January, 1908. We wish your hearty co-operation in forming a society of our own, where we can get to know each other socially and educationally. We have quite a list of members as a start, and prospects are good for a large society. Applications for membership and pin may be sent to the secretary, Mrs. Charles H. Maynard, 219 Horton avenue, Detroit, Mich,."

OTAHEITE ORANGE.
Grown by the Robt. Craig Co., Philadelphia, Pa

PROTEST AGAINST EXPRESS RATES.

The following is the text of the petition filed with the interstate commerce commission against the United States Express Co.:

The petition ot fhe above named complainant respectfully shows:

1.—That complainant is a corporation organized and existing under the laws of the United States by virtue of an act of congress of March 4, 1901, having its principal office at the city of Washington, in the District of Columbia, and is engaged in the development and advancement of floriculture and horticulture throughout the United States. That one branch of its duties is to protect the interests of its members in regard to transportation rates and facilities; and this proceeding is brought on behalf of its members located at certain points in the states of New Jersey and Pennsylvania who are engaged in interstate shipments of flowers to the city of New York, in the state of New York, over defendant carrier's express lines.

2.—That the above named defendant is an express company engaged in interstate commerce as a common carrier by express over various lines of railroad in different states of the United States, more particularly between points in the states of New Jersey and Pennsylvania and points in the state of New York, and as such common carrier is subject to the provisions of the act to regulate commerce, approved February 4, 1887, as amended by the act of June 29, 1906, entitled "An Act to Amend an Act entitled 'An Act to Regulate Commerce,' approved February 4, 1887, and all acts amendatory thereof, and to enlarge the powers of the Interstate Commerce Commission."

3.—That in the course of their business members of complainant association located at various points in New Jersey and Pennsylvania make shipments of flowers from such points to the city of New York. That quick handling of these shipments is so essential that the use of defendant's express line, even at higher rates than those of railroad companies, has been and is absolutely necessary. That on or about the first day of May, 1906, defendant arbitrarily and unjustly increased its express charges on flowers

from the points named to New York city. That the following table shows the places, the express charges prior to May 1, 1906, and the advanced express charges of defendant, in cents per 100 pounds:

From—	Charges prior to May 1, 1906.	Charges since May 1, 1906.
Somerville, N. J.	50	100
Chatham, N. J.	50	100
Allentown, Pa.	60	100
Philadelphia, Pa.	75	100
Hillside, Pa.	75	100
Dorranceton, Pa.	75	100

That said advance in charges by defendant was altogether unwarrantable and unjustified by the circumstances of the case, and the present charges are unjust and unreasonable of themselves and generally. That complainant's members at said points are willing to pay express charges largely in excess of what carriers by railroad would be likely to charge on such commodity between the same points, but it alleges that the above named advanced rates are so unjust and so much in excess of what they should be that their exaction is very nearly ruinous. That prior to May 1, 1906, the empty boxes or cases which contained the flowers were either returned free or at a nominal charge by defendant from New York city to said points, but that since said date defendant unreasonably exacts the same charges per 100 pounds for the return of the emties as it exacts for the flowers themselves. That this additional burden placed on such shippers is unjustified and should be changed. That these flower shipments are, in a majority of cases, delivered by complainant at the railroad stations, and the defendant is not required to call for them at the greenhouses. That the markets in New York city are bunched in a very circumscribed area so that in cases of delivery to places of business defendant is not required to cart shipments long distances. That the express carriage of flowers does not call for any special service other than promptness of delivery, and much of the cost which defendant has to assume in collecting and delivering ordinary merchandise is eliminated.

4.—That by reason of the premises defendant has been and is subjecting complainant's members at said points in New Jersey and Pennsylvania and their shipments of flowers to the payment of unjust and unreasonable express charges, as above set forth, and has been and is subjecting such members, the places in New Jersey and Pennsylvania, and the traffic in flowers, to unjust discrimination and unreasonable prejudice and disadvantage, in violation of the provisions of the act to regulate commerce, as amended, and more particularly sections one, two and three thereof.

Alderman Peter Reinberg.

Wherefore, complainant prays that the defendant be required to promptly answer the charges herein; that after due hearing and investigation an order be made requiring said defandant to wholly cease and desist from the aforesaid violations of the provisions of said act to regulate commerce, as amended; that a further order be issued fixing reasonable and just rates for the transportation of flowers by defendant between said points in New Jersey and Pennsylvania and the city of New York, N. Y.; that the commission also prescribe such rules or regulations, in lieu of those now existing over defendant's line, as will in the future operate to prevent the continuance of any unjust discrimination or undue or unreasonable prejudice or disadvantage to said New Jersey and Pennsylvania points and to complainant association's members, in the matter of the transportation of flowers from said points to New York city; and that such other and further orders may be entered as the commission may deem necessary in the premises and complainant's cause may appear to require. Dated at Boston, Mass., October 5, 1906. WM. J. STEWART, Sec'y.

WITH THE GROWERS

Reinberg's Twenty Years of Progress.

The development of the flower business in America has been phenomenal all around, but nowhere, perhaps, has there been a more striking rise from small to great things, than in the colossal business built up during the last two decades by Peter Reinberg, of Chicago. Twenty years ago this noted florist started business in a very modest way as a lettuce grower, the entire glass plant at first consisting of three small houses each 25x125 feet. A year afterwards the plant was increased by the erection of four more houses of similar size, still for the growing of lettuce.

Having been successful with this, and noting the advancing popularity of the rose and carnation as commercial flowers, a rose section, consisting of four more houses, was the next year's venture. Roses were planted in all but one bench, and this was devoted to carnations. It was seen that there were great possibilities in the cut flower business, and out the lettuce had to go. The

GREENHOUSES OF PETER REINBERG, CHICAGO, NEW AMERICAN BEAUTY ROSE SECTION IN BACKGROUND.

ensuing season found all the houses filled with roses and carnations, another four having meanwhile been built.

After this houses were added every year, and from that time to the present the story of the place has been a steady, consistent, and very rapid rise, until today there are 110 houses, all of modern construction, covering 25 acres of land, and containing in the aggregate in the neighborhood of 1,500,000 feet of glass. During the present year a large section has been added to meet the ever increasing demand for American Beauty roses, 11 houses, covering five acres, having been erected and filled with the popular favorite. Just now these plants are looking very happy and well content with their new quarters, and a healthier or cleaner lot it would be difficult to find. Foreman Collins when asked what he did for black spot, that frequent foe of the Beauty grower, said "Keep it out." No doubt he is right, but this it seems is just what some growers cannot do. It is evident by the condition of these plants that they were clean when planted, put into clean quarters, and kept clean by careful and judicious attention to cultural details.

MAIN BLOCK OF GREENHOUSES AT PETER REINBERG'S, CHICAGO.

From such an acreage of glass very select flowers in immense quantities are gathered, and as it is the invariable rule to send out nothing but perfectly fresh blooms it is no wonder that the demand for Peter Reinberg's stock is so good. "No fear of our shipping stale blooms," says Leonard Kill, the genial manager of this great place, "for we are sold out every day, and often put to it to find sufficient for the numberless orders we get. The flowers go practically from shore to shore, east and west, north and south, demanding their quota, and all give such universal satisfaction that repeat orders are the inevitable result.

It is evident that the great increase has been a surprise even to Peter Reinberg himself, for it is noteworthy that on every occasion of a large addition to the glass area no facilities for a further extension were provided, and each great block of houses was made practically complete in itself. But they are quite big enough to handle as it is, and if larger they would possibly be less handy. Naturally the varieties are grown here very largely, the lists given below being the figures for the present season.

ROSES.

American Beauty	110,000
Richmond	38,000
Bride	35,000
Bridesmaid	35,000
Uncle John	30,000
Madame A. Chatenay	27,000
Liberty	15,000
Ivory	15,000
Perle	14,000
Mrs. Marshall Field	7,500
Sunrise	5,000
Killarney	3,000

Here we have a grand total of 334,500 plants in all and the figures are instructive. It is not suprising to see American Beauty top the list, though the number is prodigious. It is a great tribute to the worth of the comparitively new Richmond to see it holding second place, and those who are decrying this fine rose for lack of substance cannot surely be in the majority. The value of the sister varieties, Bride and Bridesmaid, is well shown by their running a dead heat for third place. It will be long before these superb roses are beaten for general utility. Uncle John has a good place, this sport from Ivory having evidently a good hold on the public favor. The beautiful Mme. A. Chatenay deserves its position, its fine habit, long stems, and sweetly scented flowers and foliage all being points in its favor. The new Mrs. Marshall Field which has not yet been placed on the open market will doubtless be much more largely grown as stock of it can be worked up. Those who have seen it in the stores and decorations cannot but admit its exquisite character. Bright rosy pink flowers, with long leafy stems, and a fragrance equal to that of American Beauty are its principal characteristics.

CARNATIONS.

Mrs. Lawson	20,000
Boston Market	20,000
Enchantress	10,000
White Lawson	7,000
Cardinal	7,000
Nelson	5,000
Nelson Fisher	5,000
Bountiful	5,000
Patten	3,000
Estelle	2,000
R. Craig	1,000

This makes a total of 85,000 carnations benched for cutting from, and to anyone interested the sight of the great houses filled to repletion with fine healthy plants is one to be remembered. This by no means represents the total number handled here, as over five acres of field plants are annually grown. No less than 50,000 Enchantress alone were planted, and so keen is the demand for this popular sort that every plant available has been sold. In fact Mr. Reinberg told the writer that he wishes he had both planted and benched a great many more. Not only has the demand for this kind been exceptional this year; it has been the same for all the popular varieties, and has constituted a record even for this busy place.

Besides the above nearly 13,000 chrysanthemums are grown in all the leading commercial sorts including among others Dr. Enguehard, Glory of the Pacific, Timothy Eaton (The Commercial Traveler), and the yellow Major Bonnaffon. The plants are typical commercial examples, every one a model of high culture, reflecting great credit on all concerned. Three very large houses

SALES DEPARTMENT OF PETER REINBERG, CHICAGO.

of Asparagus plumosus nanus are also grown, producing an immense number of strings and fronds of the pale green color now so popular.

These notes would not be complete unless we expressed our admiration of the excellent cultural condition of the whole of the stock grown in this unique and immense establishment.

Growers for the New York Market.

Herman Schoeltzel, of New Durham, N. J., has his houses in order for fall trade, and has a grand lot of ferns, both Scottii and Boston, the former predominating. In one house is to be seen a fine bench of Whitmani, a variety which is becoming deservedly popular with growers. Araucarias, many of them of unusually large size, take up the major portion of a house, and cyclamen and primula are being brought in for forwarding. Mr. Schoeltzel made something of a specialty of hydrangeas last season, and his young stock at the present time is excellent.

Emile Savoie, of Secaucus, N. J., has just completed a new greenhouse and is stocking it with plants which he will bring in for the holiday season. In one of his houses are many nice plants of bougainvilleas, shapely and well grown, which will doubtless go off well before the holidays. The establishment is being rapidly set in order, and, with the alterations and improvements contemplated carried out, will be thoroughly up to date.

R. Dreyer, of Woodside, N. Y., has disposed of the stock of Bertha Rath carnations, formerly a feature of the Woodside establishment. The carnation houses are now utilized for plants. There is no dearth of kentias here, and a complete stock in all sizes is to be seen. Standard and branching plants of Ficus elastica take up a liberal share of house room and are in fine condition.

A. Von Asche, of Woodside, N. Y., has three houses 22x100 feet planted entirely with carnations, and his crop is well in cut. He has benched Joost, Scott, Boston Market, Harlowarden, Bertha Rath, and Enchantress, and the quality of the flowers is very good. He ships to John I. Raynor, who has handled his product for many years.

Growers at Ashtabula, O.

Among the largest in extent and importance of the commercial building operations and improvements which are in progress in Ashtabula, O., this year are the enlargements and additions to the various greenhouses, both west and south of the city. The business done by the many concerns now engaged in growing crops under glass in Ashtabula, is surprisingly large and constitutes one of the principal industries of the city. The product of the Greenhouses is almost entirely shipped to the Pittsburg market.

DUNBAR & HOPKINS.

The largest of the operations which are being realized are those of Dunbar & Hopkins, who when they have finished the work now in progress will have an entire new plant equal in size to the former plant and modern in every detail.

This firm commenced building 13 new houses last year. Nine more are being added this season. All the houses will be heated from the one source, a powerful and up-to-date system of vacuum heating being employed to this end. One additional boiler was placed in commission last year, and another will be added this year. The apparatus of the engine house will then be of 300 H. P. and capable of successfully handling all the houses dependent upon it. The new work covers an expanse of three acres.

Dunbar & Hopkins limit their products to tomatoes and lettuce which are grown in the fall, and cucumbers, which are grown in the spring. They are members of the Ashtabula Lettuce Growers' Association and dispose of their output in common with the others through their agent, Fred Humphrey at Pittsburg.

THE GRISWOLD GREENHOUSE CO.

The new plant of the Griswold Greenhouse Co., which is being constructed entirely new from the ground up, is a splendid example of careful and accurate workmanship, being built according to approved plans and specifications. The plant is not as yet near completion, though a large force of workmen is constantly employed. A huge stack is being erected for the engine house which is 90 feet in height and four feet in diameter on the interior. Fifty thousand feet of glass will be required for the houses.

ROGER GRISWOLD, JR.

The extensions which are under way at the plant of Roger W. Griswold, Jr., which is situated on the east side of the C., P. & A. tracks at the city limits and across from Dunbar & Hopkins, carry an enlargement of the old plant by 25 per cent, and taken in connection with what was built last year, give an addition of 150 per cent during the past two years.

This plant entire is comparatively new, 1200 boxes of glass being put in at the start. Last summer this amount was doubled by the building of extensions, and this year 800 more boxes of glass are going in. The new houses are being erected to the south of the main plant and will be heated from the same source.

THE E. A. ADAMS' SONS.

To the north of Prospect street are found the greenhouses of the E. A. Adams' Sons. Their improvement this season is restricted to the addition of only a few houses embracing the outlay of 400 boxes of glass.

F. C. BAIL.

The greenhouses of F. C. Bail on Maplewood Heights were built two years ago and are four in number each 26x175 feet. This year a fifth house of equal size has been added, which will give the firm about 500 boxes of glass. Last year Mr. Bail entered into the raising of bedding plants and flowers to some extent and this year toward spring proposes to go into this line to a larger extent than ever. This is a feature which the other greenhouses have neglected.

THE ASHTABULA GREENHOUSE CO.

The Ashtabula Greenhouse Co., at the top of Bunker hill is entirely rebuilding its plant and adding to the capacity.

THE ROSE.

BLACK SPOT will be troublesome to growers of Richmond rose either on its own roots or on the manetti just as long as they insist on keeping the soil always moist on the surface.

CANADIAN QUEEN rose is probably not as well known as its merits entitle it to be. It is a money maker without a doubt and superior to any other of the Mme. Cuisine sports in its color. It is an excellent grower and almost mildew and insect proof.

A Few Reminders.

Taking a general view of indoor rose culture there is seldom more serious thinking and planning necessary than at the present time. The rose specialist is often better prepared to meet the requirements of the rose the season through, for his work, time and thoughts are devoted to one class of plants, taking more or less the same treatment. On the other hand the growers that may have from two to 10 houses devoted to roses, and as many others in which are grown a miscellaneous lot of plants this class of grower is compelled in a manner to neglect his roses in the rush that occurs in order to house many outside plants threatened by an early frost, but if the rose houses must be neglected for a few days there should always be enough help left to do the syringing, ventilating and watering for this must be handled judiciously at all times. The buds should be cut just as early as possible, followed up by watering and syringing, two separate operations. This will require first the watering that is necessary and syringing afterwards.

The houses should be ventilated gradually and at this season, the ventilators or sashes should be left partly open at night. Then as the heat increases in the morning gradually raise the sashes so that no sudden change of temperature is noticable in the thermometer. None of the rose houses should be allowed to get above 70° before airing, and syringing should not be attempted until they reach the same temperature, of 70°. If one has a water heater the work of syringing can be done a little earlier, as the water can be tempered according to temperature of the house. For instance, if the house has reached a temperature of 65° and the water is tempered to 70° the plants will not be chilled in the least, but one must be careful never to allow the water to become warmer than 70°. For general use the water should not exceed 60°. In some sections the installation of a water heater owing to the extremely low temperature of the water naturally in winter is indispensable, and there is nothing that will turn out a better investment to any grower than one of these most valuable contrivances. Try one and be convinced. They can be readily applied to either high or low pressure boilers with equal success.

But to go back to ventilating: remember the same care should be used in lowering the sash in the afternoon as in raising them in the forenoon. The highest temperature with the air on should not exceed 75° to 78° on bright days and reduced gradually to 60° at sun-

down, and for the general indoor forcing varieties, such as Bride, Bridesmaid, Golden Gate, American Beauty, Richmond and Killarney, 60° should be the night temperature when the weather permits of ventilating, and when the sashes are closed from 50° to 58° will suit Bride, Bridesmaid, Killarney and Richmond. Golden Gate and Ivory seem to do better at a temperature of 54° to 56°, while Papa Gontier or Bon Silene, which we still find grown in some section, will thrive at a temperature of 52° to 54°. Then there is American Beauty. Some prefer to grow this variety at 60° as a night temperature, but I think firmer wood is the result if an even temperature of 58° is kept. The flowers will also be in better color. Then there is Meteor. This old standby requires 70° at night while Liberty at 68° seems to keep awake. The principal thing about temperature, either day or night, should be to keep it from changing; the steady maintenance is what will count. The cloudy day temperature for Bride and Bridesmaid should not exceed 65°.

There is just another little matter of importance worth mentioning, that is the housing of potting material and the necessary manure required for mulching or soil mixing. Sufficient soil should be placed where it will not freeze and where it can be had at any time, and this should be attended to at once; also the hauling of the compost soil if one has time now that he will not have in the spring. It should be mixed in the early spring, though, in preference to stocking it now in order to reap the full benefit of the manure. E.

New European Roses.

A number of new roses are now being offered by well known European growers. Wm. Paul & Son, Waltham Cross, Eng., offer the following, the descriptions being those of the introducers:

WARRIOR (Hybrid Tea).—Buds blood-red, long and handsome; opening flowers vivid scarlet crimson, large, double, with broad handsome petals loosely displayed as the blooms expand. The habit of growth and flowering resembles Papa Gontier, but the color of the flower is much deeper and richer than in that variety. As a decorative rose for the garden, whether in standard or dwarf form, Warrior stands out pre-eminent, as it furnishes large quantities of beautiful flowers of a shade of color not plentiful among the hybrid teas, from early summer until the frosts of autumn, ranking in this respect with Corallina and other Waltham Cross roses which are now so well known and appreciated for their free and continuous habit of flowering. As a forcing rose it is unexcelled, and the buds under glass are produced on extra long stems, a most valuable trait for cutting purposes. The flowers expand well under glass in autumn, so that plants in pots that have been forced in spring may be easily managed to give a good second crop of blossom during October and November, when the outdoor flowering of roses is uncertain. The growth of the plant is vigorous and the foliage good.

CELIA (Hybrid Tea).—Flowers bright satin pink, centers somewhat deeper, large, full, of circular outline, the centers well raised and the petals reflexed. A very distinct novelty and most attractive in all respects, the extraordinary freedom with which the flowers are produced causing it to rank in value as a decorative rose with such varieties as Caroline Testout and Madame Jules Grolez; whilst by judicious thinning and disbudding exhibition flowers of a high quality are obtained. The habit of growth is vigorous and upright; it is a good autumnal bloomer, and also excellent for pot culture under glass.

DORA (Hybrid Tea).—Of hybrid tea parentage, although somewhat resembling the hybrid perpetuals; opening flowers the color of peach blossoms, with deeper centers, changing as the blooms expand to a uniform shade of silvery blush, very large and full, of perfect circular form, with the petals evenly arranged to the center of the flower, and lasting a long time in fine condition on the plants; growth vigorous. A very distinct novelty, producing its clusters of fine flowers outdoors early and late in the season, whilst pot-grown plants produce blooms of magnificent quality and effect; a fine exhibition rose both for indoor and outdoor cultivation.

NYMPH (Summer-Flowering Hybrid).—Beautiful and distinct in both flower and foliage, this rose will prove a most valuable and attractive addition to the garden for forming large bushes on lawns and in shrubberies, or for bold masses in the landscape. The flowers are single and of the color of apple blossoms, the ivory white ground color being sometimes tipped with carmine and sometimes flushed with tender pink; they are produced in profusion, the shoots of the plants being completely wreathed and covered with them, whilst the glistening dark green foliage renders the plant an attractive object at all times. It flowers early in summer, at the same time as Waltham Bride, the Penzance briars, and other early flowering roses, for which it is an excellent companion.

NEW ROSE ANNY MULLER.

Ottolander & Hooftman, Boskoop, Holland, describe their two new roses as follows:

ANNY MULLER.—This excellent novelty is the result of a cross between Crimson Rambler and George Pernet. The freely branching plants attain a height of 1½ feet and in growth are similar to Mme. N. Levavasseur. The shining brilliant rose flowers are produced in

great profusion in large clusters from June until late in the fall. Each individual flower measures about two inches in diameter. The petals are sometimes twisted. Like all polyantha roses Anny Muller is immensely valuable for pots and open ground culture. It is a grand rose in every respect and sure to gain the admiration of gardeners as well as amateurs.

TAUSENDSCHON.—Raised by several crossings between the well known Crimson Rambler, tea and polyantha roses, this beautiful novelty surpasses all other climbing roses of this section in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till the end of July. Each individual flower measures about 1½ inches across and is of a beautiful soft pink color, later changing to rosy carmine. The plant is of strong vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. The wood is nearly thornless. The shining dark green foliage is perfectly hardy and never attacked by any disease or insects. These qualifications render it a first-class rose for covering walls, verandas, etc.

THE CARNATION.

Seasonable Notes.

At this time a little feeding applied to some of the carnations would be a step in the right direction. By that I do not mean to give them a general feeding, but such stock as has been kept indoors all last summer can stand a little feeding either in the form of mulching or liquid manure, if applied judiciously and the condition of the plants taken into consideration.

Just what kind of manure would be best suited for any given plants it is impossible to tell as it depends greatly on the ingredients and makeup of the soil. Bone meal is used by a good many and is all right if the genuine article is secured, but it seems almost impossible to obtain the pure unadulterated article. It does not show the result as quickly as many other fertilizers, but adds greatly in the building up of the plants.

For quick results it is hard to beat cow manure in liquid form, but it must be applied sparingly and the condition of the plants studied carefully before applying it. As overfed carnations are next to worthless one had better be a little careful.

Little can be said about carnations at this time of the year except to repeat what I have said in my former notes. The principal work is watering and tying up and of course one must be on the lookout for spider and green fly at all times as they belong to the class that never rest. It will very soon be time to have fire all night or at least have a night man on duty in case the weather should change suddenly, and a light firing with a little ventilation is ideal for carnations.

Another thing I might mention to advantage is the cutting of carnations in the fall. Most varieties are inclined to rather short stems in the beginning, and in order to get them with a fair stem one is sometimes inclined to cut them lower on the plants than is advisable, and if the cutting of the flowers is done by inexperienced or careless help it sometimes spoils a whole crop later on. When cutting the blooms one should cut them so as to leave at least two or three shoots on the bottom of the stem to insure a steady crop later, as the little additional stem one might be able to cut them with now and the price to be obtained for same at this season of the year will not warrant sacrificing any of the growth when you need all the wood for building up the plants.

J.

Carnation Imperial.

The illustration herewith shows Carnation Imperial, originated by John E. Haines, of Bethlehem, Pa. Imperial is the result of crossing one of Mr. Haines' red seedlings with Lawson, and it was registered in 1903. Mr. Haines has found it an exceptionally good seller. It has been shown extensively and received numerous diplomas and certificates of merit. The color is a variegation of delicate pink similar to the shade in Enchantress and a deeper shade of a pleasing pink. It is described as a splendid keeper and fine shipper. The flowers are from three to four inches in diameter, nicely formed, very fragrant, with an exceptionally strong calyx, less than a half dozen splitting last season. The stems run as much as four feet in length, while 30-inch stems are produced as early as November. It is very early, free and continuous bloomer from October to July, a vigorous grower with no extra grass, every shoot making a flower.

Pink Imperial, another of Mr. Haines' novelties, sported from Imperial in 1904 and has been registered this year. Mr. Haines is introducing both these novelties himself, and all orders will be filled direct.

JOHN E. HAINES' NEW CARNATION IMPERIAL.

Enchantress Carnation Leaves Drying Up

ED. AMERICAN FLORIST:—

My Enchantress carnation leaves are drying at the bottom of the plants, although I am securing a fine crop of blooms at present. Is there anything alarming about this, if so what remedy will apply to the case? If fumigation with tobacco stems is used how long should the houses be kept closed?

M. C.

The drying of the leaves may be caused by different means. It is often the result of topdressing the benches with horse manure and giving insufficient air afterwards. This is owing to the large amount of ammonia in the manure. It may also be caused by planting too closely or by watering too late in the afternoon and not giving the plants a chance to dry before night. There is nothing really alarming about it except that it spoils the looks of the plants. It is also likely to harden the wood and prevent the production of young shoots.

When fumigating with tobacco stems the houses should be kept close all night, and the plants syringed early the next morning but I would advise M. C. to try some of the nicotine preparations in preference. If the labor and cost are figured out and the result compared he will probably not use tobacco stems any more.

J.

Carnation Comment.

PROPAGATION.

Though plants that are propagated late sometimes do well, there is no doubt that early propagation is the best. It is not too early to begin now. The plants should not be robbed but with some varieties there is already a promising crop of side shoots that are likely to be taken off in disbudding and it pays to save such of them as are fit for cuttings. The objection may be raised that it is a long time to keep them in the house and care for them, but to obtain good results in carnation growing we must look far ahead. The propagation and care of the young plants is a feature that has in the past, by some growers been sadly neglected.

The propagation of carnations, or any other plants for that matter, does not call for vast knowledge in the workman, but it does require painstaking care and

an eye quick to see little things. The cuttings that are now taken do not need the knife, in fact, no cuttings need it unless to trim off the fiber that will adhere to the base of a chance one, or, later in the season it may be necessary to use shoots that must be topped to prevent them from shading the sand.

I have sometimes noticed that advertisers with young plants to sell, claimed that their's were propagated "without bottom heat," as though that were a recommendation. I am an advocate of both bottom heat and a north side propagating house, though in this I may disagree with some good growers. The heat should be mild but sufficient to keep the temperature of the sand well up to 60°; the overhead temperature, at night, should be about 50°, and as a choice I would rather have it a little below than above that. Unless in severe weather, it is advisable to shut off steam to the minimum, or altogether in day time.

The house should have plenty of air, both day and night if possible, but not enough to dry out too quickly, for the atmosphere should be moist. In support of a north side house I will say that a rooted and well grown plant and a small cutting without roots are entirely different propositions. The former, in day time, we want all possible sunlight to reach because it is making flowers and new shoots, when the sun beats upon it the roots take firmer hold of the soil. The cutting, however, may be termed an infant that requires, not so much nursing, as careful treatment. Cleanliness, sunlight but not sun-rays, careful watering and ventilation, all of which, to my mind, make up the sum total of the art, if art it be.

I may add, that it is good to note that more care is now being taken with propagating houses than formerly. In the past I have been on places when a chicken coop style of house was considered good enough in which to propagate. Whatever the form may be, a house for propagating should he high enough for a tall man to stand straight in, both for a good circulation of air and the convenience of the workmen. SPECIALIST.

THE RETAIL TRADE

SOMETHING quite new in wedding bouquets is a "granny" muff to be carried by the bride upon her left arm. The foundation is white tulle. The flowers nestle in the tulle amid falling showers of looped gauze ribbon. Orchids, lily of the valley, sweet peas, roses and orange blossoms are woven thickly into the muff and mingle their perfumes.

The Anglais Table Decoration.

The Anglais table decoration is made of two units each containing a Japana holder, one unit crescent in form and one rectangular. Each piece is 5½ inches high and 2½ inches deep, and being made up of sections, many combinations of form can be arranged and adapted to any style of decoration. Each section containing a Japana holder it affords a practical and simple method of arranging flowers in an artistic manner, and being only 2½ inches high, it permits of low treatment, the flowers not interfering with the view across the table. The illustration herewith shows the new design in use. It will be placed on the market by the introducer of the Japana vase, M. V. Garnsey, La Grange, Ill.

CHRYSANTHEMUMS

Chrysanthemums at Buffalo.

Although there is to be no flower show in Buffalo, this year, a run through some of the greenhouses shows that there are some good chrysanthemums in sight. At J. J. Albright's place, Chas. Sandiford, who is one of our best growers, has some excellent ones, both single blooms and bush plants. Among the newer varieties here, we noted; Beatrice May, M. F. Plant, Mrs. George Heaume, Mrs. Henry Partridge, and of the older kinds, extra good Viviand Morel, Brutus, Cheltoni, Mrs. Wm. Duckham, and Merza. In bush plants, very well grown plants of Brutus, Garza, Mutual Friend, Golden Age, A. J. Balfour, and Georgiana Pitcher were seen. All would be a credit to any show.

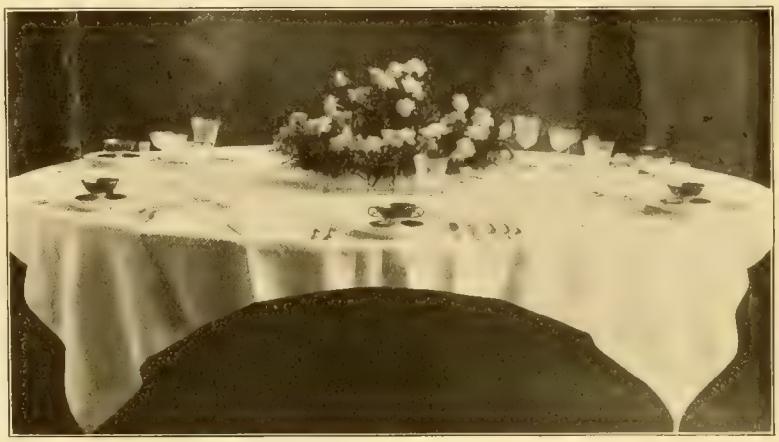
We are told that there are some good things at Geo. Urban's place at Pine Hill. At the botanic garden, at South park, where the usual fall exhibition will be held, there are quite a lot of new chrysanthemums in training, and a good selection of the older varieties. Of the varieties now in condition (October 20) for cutting, we noted; Mrs. Wm. Knox, Chrysanthemiste Montigny, Mrs. Wm. Duckham, F. S. Vallis, Mme. Von Andre, H. Sunderbruch, in yellow; Alice Byron, Mrs. Henry Robinson, Beatrice May, in white; Morton F. Plant in pink, and Edgar Saunders and Brutus in bronze. Coming on, but not yet finished, were Mrs. Henry Partridge, Mrs. Geo. Beech, Mrs. D. V. West, Merza, Mrs. Swinburne, T. Richardson, Gen. Hutton, Golden Age, and a host of others. A large number of bush plants, in from 6 to 15-inch pots, and carrying from 12 to 200 blooms, will add materially to the effect of the show.

Judging from what is now in sight here, the cream of this year's introductions will be Morton F. Plant and Beatrice May. Both of these are good growers and easy doers, and promise well as commercial cut blooms. Mrs. Geo. Beech, ought to be a good late by the appearance of the bud. G. J. Brooks will make a grand exhibition bloom if it can be grown without an eye.

JOHN F. COWELL.

Notes on Varieties.

Next to Monrovia, Clementine Touset, has been the biggest moneymaker on this place this year. I planted 1,000 plants and cut from them about 1,200 salable blooms, most of which fetched $4 per dozen; it comes in at a time when there is nothing in the market to compete with it for size, which makes up for the different shades in color from clear white to nearly Daybreak shade. It is certainly one of the very best, if not the best, of later introductions. Alice Byron is in next, coming right after Touset, and this is the finest white for commercial purposes I have grown yet, its color being the clearest, and prettiest of all of them, while its form and foliage leave nothing to be desired. It will stay with us for a good many years to come and has displaced Mrs. Robinson and many other whites in most places.



THE ANGLAIS TABLE DECORATION.

Nathan Smith & Son's Lanana is now ready to cut; it is a beautifully shaped flower, one of the most artistic seen yet, and if left long enough on the plant is white enough to suit anybody; it is worthy another year's trial. Tioga from the same firm is also fully developed and is a substantial, pretty flower if only the color was more decided. It is neither a white nor yellow, something between, the tips or outer ends of the petals being white, while the heart or the bottom shades to light yellow. It will probably have to go in the any other color class. Venettar, also Smith's, is a very poor yellow, large neck and small flat flower; it is not good enough to give another trial. President Roosevelt is not living up to its namesake or to the boosting it got last year; it is not fully developed yet, but its general habit is not good. A short growing plant producing a number of small flowers of poor color is not good enough to make it worth growing another season.

Mayor Weaver as a pink is looking fairly well; you can see the Mlle. Perrin blood in it, but I don't think it will prove a very valuable variety as it is not large enough, and both Dr. Enguehard and Mary Mann has it beaten by long odds. I am still trying a few of the old standby, Major Bonnaffon, on which variety I made my reputation as a chrysanthemum grower, but they do not seem to have the same vigor as

in the old days. I have changed stock and tried them over and over again, but they have not the size and finish they had with me five years ago, when I grew whole benches of them. I am afraid it will have to go to the background as so many other fine varieties have done.

Col. Appleton is the best yellow on the place this year and is hard to beat as a commercial variety. I understand the E. G. Hill Co. is sending out a new variety this year with the color of Col. Appleton and the shape of Bonnaffon, so I expect we will all have to get this. October Frost, which showed color very early, is slow in developing, and it will have to hustle to keep its place as the first white in the market.

G. T.

To Be Done Now.

IN THE GREENHOUSES.

Keep poinsettias cool and allow abundance of fresh air. The more slowly the bracts form the better they will be both in color and substance.

Never allow cinerarias to become pot bound before giving the final shift into the flowering pots.

Keep the young stock of sweet peas healthy and hard, avoid overwatering and keep them regularly tied to prevent falling over.

In stopping geraniums or taking cuttings never cut to the joint from which a flower spike springs, as such rarely break into good growth.

To save room many of the most useful orchids may be suspended from the roof in palm and fern houses.

Few plants are more subject to attacks of red spider than tuberoses. Spray them right along to keep the stems and foliage clean.

Good varieties of Primula obconica do not always come true from seed, and may be propagated by division.

The freedom allowed the roots of gardenias when planted on a bench makes their culture easier than when grown in pots.

Tabernæmontanas and the double Jasminum Sambac make fair substitutes for gardenias.

IN THE STORE.

Change your displays of pot plants frequently; even if the same plants are used arrange them differently and keep them clean.

The old Hibiscus rosa—sinensis, in its variegated form, has been very pretty in some recent basket decorations.

The paper collars that are again appearing around the necks of chrysanthemums and other flowers should be thrown out. They are neither pretty nor necessary.

A very effective window display recently noted consisted of suspended baskets of roses, the mirrored back of the window being draped in pink with Killarney buds dotted about.

Always deliver orders punctually on time, employing a civil messenger.

Tightly packed wreaths and designs are wasteful of material, and less effective than those more thinly arranged.

Large white chrysanthemums and Beauty roses make a very effective and striking display loosely arranged.

Cut flower receptacles quite plain are better than those having flowers painted or otherwise figured upon them. As a rule the colors of these flowers clash with those arranged in the bowls or vases.

Violets lose their fragrance very quickly after a long journey in wooden boxes.

OUTDOORS.

Wet days and any odd spare time may well be spent in sorting pots and boxes to size, repairing the latter and siding up generally.

Frequent sweeping improves the lawn, but leaves allowed to lay thickly weaken the turf.

Where it is desired to keep a loose mulch on plants in wind swept positions fowl netting pegged over the surface is useful.

Push on with the fall bulb planting at every opportunity, while the soil has yet some of the latent summer warmth in it, and before frosts render it impossible to do so.

Rhododendrons and kalmias like a peaty light soil and if on the wet side all the better.

Before covering up bulb flats or pots carefully label each row, and let the labels be high enough to be distinctly seen without stooping.

Avoid turning up the soil when cleaning the herbaceous borders. Just move the surface and add a little old mushroom bed or potting soil if this can be had.

Never cover Eremurus Himalaicus in winter. In spring when growth is pushing is the time to protect this fine plant.

European Horticulture.

FROM THE BRITISH TRADE PAPERS

SCHIZANTHUSES.—The new strain of Schizanthus grandiflorus, known as Garaway's strain, promises to become even more useful than the light and dainty forms of S. Wisetonensis. The plants possess more vigor, combined with a taller habit, which greatly enhances their value for cutting, and adds to their effectiveness in grouping. So far, among this strain, I have not had many light shades of color, but from a batch of young plants now growing I hope to find the lighter colors in quantity. There is considerable diversity of color among them, but the light shades being more in request here, I am anxious to have them. Probably James Garaway & Co., of Bristol, will offer the strain both in light and dark shades of color separately, as then one could grow those most suitable for his particular purpose. Our last batch is now passing out of flower, and they have been of great service to us for table and other decorations. With several sowings schizanthuses may be had in bloom all through the year, and in these days they are of great service; after doing duty in the house the plants can be consigned to the rubbish heap and another batch raised to continue the supply. I think the autumn sowings produce the best plants for spring blooming, but those sown to flower in the autumn are very useful. During the hottest weather the flowers do not last so long in the cut state as in cool weather, but in this respect the new strain is superior to S. Wisetonensis.

WATSONIA ARDERNEI ALBA.—This species of bulb from the Cape is likely to become a much-valued flower for cutting, and in the making of bouquets, wreaths, buttonholes, and personal adornment in various ways. The plant is of the easiest culture, and the flowers of the purest white. When planted in the month of May, in good soil, in a warm situation, it will flower from the first week in July till the last week in September. The bulb is amenable to pot culture in the manner of gladioli, and by choosing cool positions for these, and extending the potting season, it can be had in bloom till a much later date. The value of this species of watsonia is becoming generally recognized, and the demand for the flowers is greatly in excess of the supply, and must increase as time goes on. No gardener in a private establishment, where cut flowers are valued, or market grower, can afford to neglect its cultivation; and it is a matter for congratulation that the bulb is not liable, like the gladiolus, to any diseases, so far, and it is cheap. This, and Gladiolus The Bride, are two of the best white florists' flowers introduced in recent years into this country.

ORIENTAL POPPIES.—Among the best varieties are: Royal Scarlet, very bright, and suitably named; Blush Queen, a very soft pale and pleasing color, beautiful; Semi-duplex, very large blooms, good habit, and fine color; Mrs. Marsh, scarlet and white, very varied, one of the best; Brightness, a fine deep orange; Medusæ, a delicate satin pink, quite distinct, and fine; Prince of Orange, distinct and beautiful, very free; Duke of Teck belongs to the bracteatum type, very deep crimson; Monarch, also belonging to this type, a capital dark red; Salmon Queen, a lovely salmon-red; Menelik, good; Mogul, very effective; Lady Roscoe, one of the very finest, a pleasing soft red; Silver Queen, silvery salmon, very pretty; Rembrandt, very large and showy; Queen Alexandra, in the way of Lady Roscoe, but quite distinct, a grand variety; Psyche, very pale in color, fine and distinct; Fringed Beauty, dark crimson; Mahony, color dark mahogany, free and good.

LOBELIA TENUIOR.—This proves to be a most useful addition to our flowering plants. Its needs are not exacting, and it cannot fail to be appreciated by the amateur. Seeds sown early in spring and placed in a temperature of about 55° germinate quickly. To avoid the plants becoming drawn and weak place them on a shelf near the glass as soon as they are seen. Prick off into a moderately rich soil when large enough to handle. They grow fast, and may be potted into 3-inch pots, taking care to lift the plants with a ball of soil attached. Finally pot off into 4½-inch pots, which are usually of sufficient size. A few of the strong plants may be placed in 6-inch pots if larger specimens are required. This lobelia, if grown in too poor a soil, is apt to cast its flowers much sooner than if treated more liberally. With good treatment the flowers are of a very rich color and lasting. This plant should also prove useful as a bedder. A batch of plants placed outside is looking very promising. The flowers exhibit a great variety of shades of carmine, crimson-magenta, purple, and a very rich purple-blue, and are produced very freely. The attractive plants of this lobelia staged at the Temple show should prove an inducement to all plant lovers to try this new strain of hybrid lobelias.

GONE.—Two years ago the whole world was ringing with the fame of Findlay, Markinch, whose Eldoradoes were producing 30 tons per acre and selling at £160 per pound, so that he was in a fair way of becoming a billionaire and buying up the kingdom of Fife for the growing of Eldoradoes. "Findlay, Fife," would have been perfectly sufficient address for a letter or telegram to the potato king then. But a change has come o'er the spirit of the dream since then, and last week a departmental letter bearing the legend "On His Majesty's Service," was sent by post addressed to "A. Findlay, Esq., Markinch, Fife, Scotland," and was returned by the Markinch postal authorities to the department as being "undelivered for the reason stated," the reason in question being expressed in the laconic but significant word "Gone."

DOUBLE FLOWERED CINERARIAS.—There are many people to whom double-flowered cinerarias are an abomination; who regard these rounded, featureless heads as perversions of nature's wonderful grace, which she evidences in the star cinerarias, or in the newer cactus varieties. The florist has pursued the sportive and doubling tendency of the greenhouse cineraria, however, and has fixed her full-completed labors in this direction into these ball-shaped clusters. Not many firms exhibit them, though perhaps all can offer seeds. One great virtue of this type of cineraria is that it endures for a long period, and when grown "hard," it furnishes a good room or hall decorative plant.

Asparagus Crawshawi.

Asparagus Crawshawi, raised by James Crawshaw, of Providence, R. I., and exhibited on several occasions during the past year, and on every occasion given an award of merit, as a variety is distinct and an improvement on Asparagus plumosus nanus inasmuch as it is softer in texture, of a darker green and more fully furnished. This variety has, it is said, the additional favorable characteristic of each growth or string running up without getting in the least entangled with another string or with any thing else. It is fully as rapid a grower as the older variety and looks like something worth having, at least worth testing. B.

OBITUARY.

William Doogue.

Wm. Doogue, who for more than 28 years was superintendent of public grounds of the city of Boston, died at his residence, 116 East Cottage street, Dorchester, a section of the city, November 2 at nine p. m. By his death a familiar figure has been taken away, one whose friends and acquaintances are numbered in the thousands and whose place it will be difficult to fill.

Mr. Doogue was born June 24, 1828, in Stradbally, Ireland, coming to this country with his parents in 1840 and settling at Middletown, Conn. Here he received a public school education, completing his studies which he had taken while attending a private school in the old country. When 17 years of age he was apprenticed to the firm of Affleck, Whitmore & Co. of Hartford, Conn., at that time one of the most extensive nursery and greenhouse establishments of New England.

After five years' work with this firm, the senior partner of which had become deceased, Mr. Doogue, who had for three years been studying botany under Prof. Comstock of Trinity college, Middletown, he was admitted to the firm, which was afterwards titled Whitmore & Co. Severing his connection with this concern, Mr. Doogue established himself in the cut flower business in Boston in the early sixties, where he met with immediate success. He first opened a store for the sale of flowers and plants in the rear of his dwelling-house on Floral Place, a small byway leading from Washington street to Warrenton street. While conducting this business, which was started on a miniature scale, his fame as an artistic decorator of halls, churches and other public buildings, became widespread, and when the office of city forester, as it was then termed, became vacant, Mr. Doogue's name appeared first on the list of the men sought. In 1878 he was appointed to the position, which was then but a minor one to what it has since grown.

At that time, as no municipal greenhouses were maintained, the city relied upon the few growers in this section for all its supplies, but Mr. Doogue, at small cost to the city, utilized his own houses for propagating purposes. However, these in time were wholly inadequate to supply the needs of the department and of his desires to place the Public Garden among the most beautiful as regards ornamentation in the country, an accomplishment in which he well succeeded. It not only won the admiration of the local citizens, but was also among the greatest attractions the city displayed to visitors.

It was not until seven years later that his untiring service in explaining the necessity of sufficient means and buildings for suitably growing and caring for the plants of his department, were at last rewarded and a piece of land was granted. This land being needed for hospital purposes, a new site, where the city greenhouses

The Late R. J. Mendenhall.
See obituary in last issue, page 681.

are at present located, was secured, in all containing three and one-half acres. Here the ornamental trees and shrubs were cared for and also the quantities of bulbs annually used in beautifying the public grounds. Under his able directions the department has grown to be one of the largest and most important of the municipality. A wonderful collection of rare plants and exotics is now the property of the city, acquired at a nominal figure; it is now worth many times what was invested. Among the most difficult problems with which Mr. Doogue had to deal was that of raising the roots and necessary soil of trees which had been injured during the construction of the subway. In many cases the trees were raised from four to eight feet and it is of great credit to Mr. Doogue's ability as an engineer that these trees have lived and flourished.

In 1876 on the centennial grounds at Philadelphia his excellent display of tropical and sub-tropical plants was accorded especial honor. As each year different conventions assembled in Boston there was always a welcome for them in the way of flowers awaiting. On the public gardens original and complimentary designs and figures always were the talk of the visitors. One of his greatest successes was at the G. A. R. convention two years ago, when his efforts were productive of unusual effects. Mr. Doogue leaves a family of two sons and three daughters, all of whom are married. B.

Joseph D. Phillips.

Joseph D. Phillips, for many years one of the best known fruit men in California, died October 24 in Marysville, Cal. Deceased was a native of Scotland, aged 76 years. Formerly he was in partnership with A. F. Abbot, and they planted 60 acres of peach trees 10 miles below Yuba City near the Feather river. These were rapidly increased until the acreage reached 400, many other kinds of fruit now being grown.

Dissolving partnership with A. F. Abbot, we find J. Phillips laying out orchards in various sections for different people, among others, for Fred Hauss, at Oswald; C. J. Hastings and Mrs. Bolles in Linda township, Yuba county. Mr. Phillips devoted many of the best years of his life to fruit culture; he was a genial man and was always willing to give of his vast store of knowledge to those who were beginners in the business. Unfortunately his last years were not as happy and prosperous as his friends might have wished for him, mainly owing to unsuccessful law suits in which he was interested. The famous Phillips cling peaches will keep green the name of this honest and bluff old fruit grower, possibly long after his interesting personalty is forgotten.

Samuel Seabury Graves.

Samuel Seabury Graves, a former nurseryman, one of Geneva's oldest and most respected citizens, died October 30 at the home of his son, Henry B. Graves, 469 Castle street, Geneva, N. Y., aged 85 years. Mr. Graves celebrated his birthday October 19. Death came after an illness of 10 days.

Mr. Graves was born in Auburn, in 1821. He went to New York and after living there a short time he moved to Geneva in 1864. He engaged in the nursery business and became a member of the firm of Bronson, Graves & Selover. He remained in the nursery business until 1878, when he became superintendent of the Geneva Gas and Water Co. The waterworks was purchased by the city in 1896, and he continued as superintendent of the gas plant until December 1, 1904, when he retired from active life. He is survived by three sons, Bishop F. R. Graves, of Shanghai, China; Henry B. Graves, of Geneva and Samuel S. Graves, of Chicago; two daughters, Mrs. Lewis W. Keyes and Miss Clara B. Graves, of Geneva; and one sister, Miss Hannah F. Graves, of San Francisco.

John Sommerfield.

John Sommerfield, a florist with greenhouses and residence on Cedar avenue, Darby, Pa., near the Holy Cross cemetery, dropped dead on the morning of October 18 while wheeling a barrow. The deceased was 71 years old, a worthy German citizen, and had in the last few years built up a fine business among the cemetery visitors.

Muncie, Ind.—The Muncie Floral Co. decorated an automobile and vehicle for the fall festival, October 31; each received first prize.

ORGANIZE.

THE date of Easter is March 31.

THE Japanese dwarf trees, as shown at the Dayton convention, are great favorites with the retail buyers.

THE new location of the Pittsburg Cut Flower Co. is 222 Oliver avenue, not 22 as given in that firm's advertisement in our last issue.

AN Austrian species of hibiscus is used for blacking, the juice squeezed from four blossoms giving enough liquid to coat a shoe with a fine luster.

WE are in receipt of Part 1 of the "Transaction of the Massachusetts Horticultural Society" for the year 1906, containing papers and transactions of the year.

JAPANESE chrysanthemums that make good pot plants of a suitable class for market are not plentiful, and most growers pin their faith to pompon and single flowering varieties.

YELLOW CALLAS.—The issue of the Rural New Yorker for September 1 gives very interesting descriptions of the newer kinds of yellow flowered callas as tested at the grounds.

IN writing advertisements be careful to note that the quantities and prices are given correctly and clearly. We can not always know whether a given advertiser wishes to sell his stock or give it away.

THE date on the yellow address label on your copy of THE AMERICAN FLORIST will show when your subscription expires. Please renew subscriptions promptly on expiration to make certain of receiving your copy of each issue.

AMERICAN CARNATIONS are inquired for in the English papers, apparently by the commission men. Is it possible that English business men are more alive to the value of our varieties than the learned societies? It appears a little like it.

ALL such plants as the double peach and cherry, lilacs, hydrangeas, deutzias, and hardy azaleas in pots that are to be lightly forced in spring must now be put in order. Any that need it may be cut into shape a little but not much, as it means in most cases cutting away flowers. Clean the pots, topdress the plants with a little rich soil, and place them in a quite cool house or frame.

NOTES of profusely flowered orchids and extraordinary numbers of blooms produced on the spikes are followed laconically by the information that "it killed the plant" or "the plant didn't survive the ordeal" in some quarters where orchids are professedly understood. But this needs some explaining. Usually a cattleya or similar plant that produces an extra fine spike is itself in splendid health, and the fine spike is the result. Why such plants should die after their effort, unless indeed they were exposed while in flower to exceptionally unhealthy conditions, it is difficult to understand. There are often instances of a dying plant making great efforts to reproduce its kind by a last flicker as it were of flowering. This is a frequent condition of unhealthy plants in the evergreen section of dendrobiums. But such flowers as these produce are not the vigorous kind, and a reason should be looked for when healthy stout plants die after flowering.

Presidents of Florists Clubs.

The presidents of leading florists' clubs shown on our front page are as follows: John Scott, New York; S. S. Pennock, Philadelphia; P. J. Hauswirth, Chicago; Peter Bisset, Washington; James Wheeler, Boston; H. C. Irish, St. Louis.

A Sign of the Times.

Division Passenger Agent Pascault of the Buffalo, Rochester & Pittsburg, announced yesterday that an excursion will be run into Pittsburg November 4 from points on his line to the chrysanthemum exhibits at the Phipps and Frick Conservatories.—Pittsburg Times.

September Daffodils.

An English journal calls attention to the fact that it received on September 20 two blooms of Emperor daffodil which were produced by bulbs planted outdoors in June. These two blooms were cut from bulbs sent from Australia. The bulbs reached England in June and were planted immediately.

American Carnation Society.

CARNATION REGISTERED.

By Stevenson Bros., Govanstown, Md., Debutante, a cross between Mrs. T. W. Lawson and Queen Louise; color soft pink, similar to Joost, but brighter. A very early variety and a grand keeper. The flowers are borne on stiff, yet graceful, stems, and have a calyx that allows the flower to expand fully without bursting.

ALBERT M. HERR, Sec'y.

Crepe Paper Duty High.

In a decision by I. F. Fischer the board of general appraisers has overruled the claim of Wm. Fegel and others of New York, it being held that crepe paper is properly dutiable at 5 cents per pound and 15 per cent ad valorem. It was claimed by the importers that the paper was of a character warranting its classification as paper not specially provided for in the tariff with duty at a rate of 25 per cent. After consideration of the testimony the board denied the contention of the protestants.

Personal.

J. M. Gasser, the well known florist of Cleveland, O., has broken down under the too close application to business and constant worry over labor troubles which he greatly magnified and consequently brought on such a state of mental worry bordering on a total collapse that his friends interposed, and at the suggestion of several physicians he was prevailed upon to take a complete rest as an only hope of restoring him to health. He left last Saturday for a private sanitarium at Walnut Hills, Cincinnati, O., where a complete change of scene and surroundings is hoped will restore him to health in a few months, when he will either return to active work for the Easter season, or pay a long visit to relatives in Texas.

Coming Exhibitions.

BALTIMORE, MD., November 13-16, 1906.—Chrysanthemum show, Gardeners' Club of Baltimore. Address J. J. Perry, Florists' Exchange Bldg., St. Paul and Franklin streets.

PROVIDENCE, R. I., November 13-14, 1906.—Chrysanthemum and carnation exhibition Rhode Island Horticultural Society. Address C. W. Smith, 27-29 Exchange street, Providence, R. I.

We have for sale a quantity of A. and B. double thick, Pennsylvania hand made, tank glass, all of which runs exceptionally uniform in quality and thickness. Terms cash. Inquiries solicited.

King Construction Co.
NORTH TONAWANDA, N. Y.

Always mention the American Florist when you order stock.

Chrysanthemum Society of America

The annual meeting of the Chrysanthemum Society of America was called to order by President Duckham at 3 o'clock Wednesday afternoon, November 7. There was a fairly good attendance and it was a thoroughly representative gathering. In the audience we noted Wm. H. Elliott and Alex. Montgomery, of Boston, Mass.; C. H. Totty and A. Herrington, Madison, N. J.; John F. Sullivan, Detroit, Mich.; Fred Lemon, Richmond, Ind.; John Bertermann, Indianapolis, Ind.; Wallace Pierson, Cromwell, Conn.; Paul and Henry Dailledouze, Flatbush, N. Y.; Elmer D. Smith, Adrian, Mich.; David Fraser, Pittsburg, Pa.; John N. May, Summit, N. J.; Otto Koenig and Fred Meinhardt, St. Louis, Mo., etc. The president read his annual address and a number of the points made therein were discussed. Secretary Fraser followed with his report, making a number of excellent recommendations with regard to the membership, the recording of varieties and the publication of an annual report. Treasurer John N. May's report showed a substantial balance on hand. In the discussion of these recommendations the society decided to issue an annual report. Elmer D. Smith promised to give the society and its members all available information at any time with regard to the dates, source, etc., of varieties introduced and imported. He will be glad to rec ive full particulars of new varieties for the purpose of maintaining this record complete and up-to-date. It should be understood that this record is at the service of members of the society at all times through Mr. Smith's courtesy. All those interested in the welfare of the chrysanthemum, especially members of the society, should aid Mr. Smith to the fullest extent by sending him all available information pertaining to new varieties, sports, seedlings or importations. The work is gratuitous on Mr. Smith's part and he should have all the aid possible.

In the election of officers, Alfred J. Loveless, of Lenox, Mass., was chosen president; Wm. Kleinheinz, Ogontz, Pa., vice-president; John N. May, Summit, N. J., treasurer; David Fraser, Pittsburg, Pa., secretary. Three invitations were received for the next annual meeting, Jamestown, Va., St. Louis, Mo., and Indianapolis, Ind. The selection of the place of meeting, however, was left to the new board of officers.

A paper on the "Influence of Climatic Conditions on Chrysanthemum Culture" by E. G. Hill was then read and provoked some interesting discussion, chiefly as to the action of frost on the buds and wood. It was claimed that when frost occurred early the plants bloomed early and vice versa, W. R. Pierson, Elmer D. Smith, C. H. Totty and A. Herrington participating in the discussion.

President Duckham's Address.

Gentlemen and Fellow Members of the Chrysanthemum Society of America:

It affords me great pleasure to greet you and bid you welcome. When last you assembled in annual session I had gone across the ocean and had to leave a written word to represent me in my absence. It is now my pleasure and privilege to meet with you, to see your interest and join in your enthusiasm, to counsel with you as to the future, and to take record of the past, with its trials and triumphs.

I must begin my address by a very sincere expression of thanks for the honor you have done me in a re-election to the office of president. I wish I might count myself worthy of this endorsement. There are perhaps few pleasures in life superior to that of a kind recognition from the men who work with one in the business of life. I fear that I must reckon to friendliness, kindliness and generosity rather than to judgment the honors you have been pleased to confer on me.

And now when I come to such message as I have to deliver let me begin by expressing my sincere pleasure that we are meeting in this magnificent city, abounding in vigorous, developing life. I deem it truly an ideal city for our exhibition and meeting. Nowhere else in America, I may truly say, are there such quantities of material on which to draw. We who hail from the eastern part of the country are amazed at the strides and progress made in horticulture in and about Chicago; and no little of this success is due the members of the Horticultural Society of Chicago. We are happy, thrice happy, to meet in such an atmosphere of success. It is good to be among people who are doing things, who are going ahead by leaps and bounds. But great as is your progress, I must own it is not great enough in some ways. The ultimate basis, in America at least, of all great progress must be the commercial basis; you have that basis magnificently laid.

Four years have passed since we last met in Chicago, and the commercial progress hereabout since then is perfectly staggering. I had an opportunity of viewing some of it at the time of the St. Louis fair, for I passed through your great city at that time. There seems no end to your development, to the founding of new firms and to the enlargement of old ones.

But I am not quite sure that the development of a higher culture of the chrysanthemum has quite kept step with the commercial development. We have seen a fine development in culture undoubtedly, but whether it is as large as it ought to be is not quite clear in my mind. We must do better, or in a real sense we are not doing all that might be done.

However that may be, it is perfectly certain that the growth of the society in membership is disappointing. I suggested in my message last year that personal solicitation was the surest method of increasing membership. I am still of that opinion. There are far too many growers, both amateur and professional, who are not in the society. We need a little more judicious "buttonholing." Will you let me make another suggestion? Would it not be possible for us to impose on our admirable committees at Chicago, Cincinnati, Philadelphia, New York and Boston the slight additional burden of increasing our membership list? I hope you will not consider the suggestion indelicate.

Well, we are here, and perhaps our chief business after all is to take an account of stock and ask where we stand in relation to the real progress—the development of newer varieties. The newer ones are obviously a great improvement on their predecessors. We are going forward, every one of you will concede; especially does this apply to exhibition varieties. But we are still too much dependent upon Europe and Australia. Furthermore, it seems to me that private gardeners are too much dependent on their commercial friends, and are indifferent, more or less, where or how the newer varieties are obtained. Yet each year how eagerly some of us are looking for striking novelties over those of the preceding year.

Our progress in America, as far as new varieties is concerned, is almost wholly made by these great houses who have laid such broad and deep commercial foundations. Such men as Smith, Hill, May, and, in the last few years, Totty, have all done much to raise the standard and create a love for the flower we at this time represent.

It is fully time for the private gardeners to have a bit bigger try at hybridizing and raising new varieties. It is the most fascinating of all works, and once entered upon is sure to be an increasing delight and a practical enterprise. Somebody may smile and point at me and ask me to take my own medicine. Well, perhaps I may have a try. Meantime I commend and urge this upon others who may have better opportunities in some ways than are mine.

In the message sent you last year I ventured to say that perhaps during my absence I might see something worthy of comment this year. I had the great pleasure of attending the Edinburgh (Scotland) show, and I must confess I was completely overwhelmed by it, both by the magnificent blooms shown and the attendance. There were over 70,000 paid admissions in three days. Think of that, and be humble! Nay, think of that, and lay plans day and night to rouse our people to a similar interest! What could we accomplish if we had a constituency like that?

Perhaps I may say a word about the varieties that reigned supreme at Edinburgh. They were Elsie Fulton, Mrs. Barclay, J. A. Salisbury, Mrs. T. W. Vallis. Are you not surprised? The finest flower I have ever seen was a Mrs. T. W. Vallis. You know how poor a performer it is here. I saw also the variety Lady Conyers, which, as you know, is small and hard under our conditions, and after several unsuccessful trials many have discarded it. But this same variety at Edinburgh was wonderful in size, delicate in color and with long trailing petals. It seems impossible, but it is true, that the Scotch climate appears to suit the flower, for many varieties that with us are usually dull and unattractive were brilliant, showing at once that climatic conditions play no small or unimportant part in the culture of the chrysanthemum.

One word more and I shall cease to tax your patience. The Germans and French have both gone into the growing of the chrysanthemum with great energy, especially the latter; and many fine varieties can be traced to the handiwork of the French hybridist. Therefore, it behooves us to be up and doing. Nay, I would say it is our duty to see to it that we raise such varieties as we can give to the world.

That our society is very grateful to the Horticultural Society of Chicago for the courteous and generous treatment received you will all agree, and I feel sure I voice the sentiments of all members of the national society in expressing our thanks and appreciation for the privilege and honor of meeting here.

I thank you, gentlemen, for your kind attention and I wish you increasing success.

EXAMINING COMMITTEES.

President Duckham has announced the committees to examine seedlings and sports on dates as follows: October 6, 13, 20, 27 and November 3, 10, 17 and 24, 1906. Exhibits to receive attention from the committees must in all cases be prepaid to destination and the entry fee of $2 should be forwarded to the secretary not later than Tuesday of the week preceding examination or may accompany the blooms. Special attention is called to the rule requiring that sports to receive a certificate must pass three committees.

New York, Eugene Dailledouze, chairman, 55 and 57 West Twenty-sixth street, Thos. W. Head and Wm. Turner.

Philadelphia, Pa., A. B. Cartledge, chairman, 1514 Chestnut street, John Westcott and Wm. K. Harris.

Boston, Mass., E. A. Wood, Chairman, Wm. Nicholson and James Wheeler. Ship flowers to Boston Flower Market, care of John Walsh.

Cincinnati, O., R. Witterstaetter, chairman, James Allen and Wm. Jackson. Ship flowers to Jabez Elliott Flower Market, care of janitor.

Chicago, J. S. Wilson, chairman, J. B. Deamud and Geo. Wienhoeber. Ship flowers care of J. B. Deamud, 51 Wabash avenue.

OFFICIAL JUDGING SCALES.

The official scales of the society are as follows:

FOR COMMERCIAL PURPOSES.

Color	20
Form	15
Fullness	10
Stem	15
Foliage	15
Substance	15
Size	10
Total	100

FOR EXHIBITION PURPOSES.

Color	10
Stem	5
Foliage	5
Fullness	15
Form	15
Depth	15
Size	35
Total	100

Chicago, October 27. Mme. Loissean Rosseau, pink, exhibited by the E. G. Hill Co., Richmond, Ind., scored 82 points exhibition scale.

Cincinnati, November 3. Ongawa, bronze, Japanese incurved, exhibited by Nathan Smith & Son, Adrian, Mich., scored 88 points exhibition scale.

DAVENPORT, IA.—Ed. Littig, of the firm of Littig Bros., taking part in some horse-play after a football game November 3, was accidentally killed by colliding with a passing vehicle.

CAMDEN, N. J.—Wm. S. Maull, receiver of L. K. Peacock, Inc., will expose for sale at public auction the book accounts remaining uncollected, amounting to a total of $507.62, at 311 Market street, this city, November 12, at 10 a. m.

NEWS NOTES.

NORTH ABINGTON, MASS. — The Bay State nursery company are adding to their new greenhouses on Adams street.

IOWA CITY.—A new botanical laboratory and greenhouse will be built at the State University. The laboratory building is to be two stories 30x30 feet, the greenhouses 12x48 feet.

OKLAHOMA CITY, OKLA.—The Stiles Co. has leased the room in the Lee building, now occupied by the Jenkins Music Co., retaining their present quarters on Grand avenue exclusively as a seed store.

ADAMS, MASS.—A. J. Boothman has just had a new greenhouse built. It is to be ventilated, sprinkled and heated automatically; also equipped with electric light. It is one of the best commercial greenhouses in the country, and will be used for roses.

NORTH ABINGTON, MASS.—W. H. Wyman has just acquired and has started to cultivate a large plot of land east of the railroad track, near the South Weymouth land. This makes several hundred acres now under cultivation by this successful nurseryman.

LOS ANGELES, CAL. — Liabilities amounting to $5,111.25 and assets only $135 are reported as being the condition of the estate of J. W. Armstrong, a Watts nurseryman. The petition has been filed in the United States district court.

MILLBROOK, N. Y.—Chrysanthemums are doing fairly well in this part of the state, but dahlias were late coming into flower and were cut by frost October 12 when very few were in bloom. H. H. Flagler is having a 35x100 foot greenhouse built.

HARTFORD, CONN.—C. H. Sierman has been employed to improve the grounds of the Hart & Hegeman Manufacturing Co. The premises have been leveled off and surrounded by a neat hedge. Between 4,000 and 5,000 plants and shrubs will be required before the work is finished.

ANDERSON, IND.—Stuart & Haugh have rebuilt two of their houses and put up two new ones, each 20 x 100 feet. They report business improving, many fashionable weddings helping out. Five houses are planted to carnations and good blooms are being cut. Mr. Haugh is away for a month's vacation.

DUTCH BULBS

AT BARGAIN PRICES TO CLOSE OUT

We offer subject to prior sale:

HYACINTHS, Dutch Roman, About $2.00 per 100

The best forcers, as follows:

OUR ENTIRE STOCK FOR SALE

That's what we are in business for, to sell you all **FLORISTS' SUPPLIES** and greenhouse requisites. We meet all demands if the demands meet us. **LEADERS IN OUR LINES.**

C. C. POLLWORTH CO., MILWAUKEE.

Salt Lake City.

DEMAND GOOD.

There has been a big demand for flowers here for the past 10 days and as a consequence all the florists have been kept on the jump "rustling" flowers. Asters and sweet peas are about done while carnations are coming in rather slowly. There are a few chrysanthemums on the market which sell readily at from $3 to $5 per dozen.

NOTES.

Walter King, of the Salt Lake-Huddart Floral Co., is making quite a number of improvements at his place, such as painting the interior and exterior, and remodeling his ice box, putting in a plate glass front, and fixing it up generally. It is a decided improvement.

"Chick" Alt, of the Huddart Floral Co., reports that it has been keeping them hustling day and night in order to handle the funeral and wedding orders.

A peculiar coincidence happened to the Lambourne Floral Co. a short time ago. One day they had five funerals and the next day they handled five weddings.

Mr. Smith, of the Sugar House Floral & Seed Co., surprised his many friends lately by going off quietly and getting married. Congratulations.

Professor Pfau has got his establishment all glazed and planted ready for the winter rush.

D. E. and L. M. Law have returned from Ohio where they went to attend the funeral of their father.

Ralph Rieben must have crawled into a hole for the winter as no one has seen him up town lately.

Jack Kraus has departed for Alta, Utah, where he is going to engage in mining.

UTAH.

Chicago.

MARKET SOMEWHAT EASIER.

Monday saw the beginning of the reaction from conditions of last week. Then stock was scarce and demand seemed correspondingly active. Carnations were going at rose prices, and not enough at that. Roses were scarce and sold as fast as received, fair receipts of American Beauty not seeming to make an impression on the gap. Chrysanthemums were exceedingly good property, and are still so considered for that matter, and violets took care of themselves. This week, however, receipts were somewhat heavier and the demand somewhat lighter; as a consequence prices have slightly weakened. Both roses and carnations responded to the few bright days of last week and good cuts were made and placed on the market. American Beauty is still being received in quantities and is meeting with a satisfactory demand. Quantities of small chrysanthemums have been offered and readily taken. Medium and fancy grades also had an active call. Really good chrysanthemus were until this present week a bit scarcer than might have been expected, but fancy stock is now coming in more freely. The big show now on will undoubtedly stimulate a demand that will largely offset the greater receipts. Violets, now that the early crop is out of the way, are showing improved color and length of stem, most of them being of really excellent quality. Lily of the valley is in fair supply, but goes about as fast as offered. Gardenias continue to come in limited quantities. Lilies of all sorts are holding back, though some excellent blooms are seen in the market. Green goods are being received in large quantities, but the demand is entirely satisfactory.

Latest reports are to the effect that there is an abundance of stock of all sorts with perhaps the exception of violets, and prices generally are easier. Eastern violets, the main dependence, seem to be taken care of in the eastern market.

NOTES.

We were shown the other day the plans of the Foley Manufacturing Co.'s new plant, to be located after March 1 at Twenty-sixth street and Western avenue. The grounds will embrace about three acres, having a frontage of 175 feet on Western avenue and stretching back a block and a half to the C. B. & Q. tracks from which will be run their own switching track. The main building will occupy seven city blocks and be four stories high. The firm at this new location will have unexcelled facilities for the prompt handling of all orders.

Wietor Bros. were showing some mammoth blooms of Chrysanthemum T. Richardson, a light pink in color and one of the Wells-Pockett editions. This same firm has just received a shipment of chrysanthemum plants of this season's introduction from the E. G. Hill Co., of Richmond, Ind.

It is rumored that another ball may be given (possibly in February) by the wholesale florists' employes, so popular was the affair of last week in which 185 couples participated. It is also rumored that an organization may result, under whose auspices such social affairs may be given.

Zech & Mann were displaying some beautiful white blooms of the Vesper carnation. Maude Eaton, Timothy Eaton and Major Bonnaffon chrysanthemums were also seen, all of fine form and good size.

A gas explosion occurred last week in a flat building owned by, and next door to the establishment of Albert Fuchs on the north side. Three men were seriously injured, but Mr. Fuchs escaped.

C. L. Washburn, of Bassett & Washburn, says that there seems to be a more or less general complaint among commercial growers that the mere arrangement of vases should cut the figure it does at flower shows.

The Benthey-Coatsworth Co. has been receiving 6000 tea roses per day for the past six weeks, including Sundays, from their 100,000 feet of glass, and their cut is at present bigger than ever.

Peter Reinberg reports a fine crop of Mme. Chatenay and Liberty roses just coming on. These are in better form than last year, and a quantity of exceptionally fine blooms are expected.

The Poehlmann Bros. Co. have a quantity of extra fancy Major Bonnaffon chrysanthemums, magnificent blooms of exceptional form and color.

The Fleischman Floral Co., State street, has been making fine displays of violets and orchids. Some fine varieties of Cattleya Dowiana and C. labiata were included.

Clifford Pruner is representing the E. F. Winterson Co. on the road, and has been very successful. This firm is exceptionally busy in its wire design department.

Robt. Shank, late of Youngstown, O., who formerly conducted a retail store at the corner of Thirty-first street and Cottage Grove avenue, is in town again.

The foundations of the John C. Moninger Co.'s large new addition are now going in. By spring this firm will have a plant just double its present size.

Billy Graff, of the Graff Bros., Columbus, O., is in town, much to the satisfaction of the boys with whom he was so popular before he left this city.

H. R. Hughes distributed during flower show week a new booklet entitled "The Story of the Chrysanthemum." It is both attractive and timely.

Victor Bergman, of the E. Wienhoeber Co., lost a $65 overcoat Tuesday evening while arranging that firm's exhibit at the Coliseum.

Vaughan & Sperry report satisfactory trade conditions. Their stand in the Flower Growers' Market has been an unusually busy center.

The Chicago Rose Co. is in line with that immensely popular Irish beauty, the Killarney of fine size and color.

J. A. Budlong has been exhibiting some of the finest Richmond and Bride roses yet seen on the market.

Bassett & Washburn were in receipt of a quantity of that fine yellow chrysanthemum, Col. Appleton.

The A. Dietsch Co. reports an exceptionally good year and is preparing for another active season.

Some unusually fine Enchantress carnations were seen at E. H. Hunt's this week.

It is said the retail employes will soon give a ball.

Indianapolis.

TRADE GOOD.

Retailers have been fairly busy the past week, but there was no rush at any time. Towards the end of the week southsiders had a good deal of funeral work. Business in the Tomlinson Hall Market was declared satisfactory, chrysanthemums selling at good prices. There is a good demand for chrysanthemum sprays, especially white; medium sized plants in bush form also sell well.

NOTES.

Mr. Hasselman, owner of the Indianapolis Flower and Plant Co., is well pleased with this season's real estate sales. He has plotted and sold 15 acres at very good figures and still owns over 100 acres in the best residence part of this city. "Land around here is getting rather valuable for greenhouses," Mr. Hasselman says, "and my neighbors, residing in $10,000 and $15,000 homes, are beginning to glance meaningly toward my smoke stack."

John Hartje, our well known carnation hybridizer, has succeeded in breeding a new dwarf variety of green fly on some of his chrysanthemums. They are very beautiful and distinct and quite hardy and will be offered to the trade in due time.

A. Wiegand and wife have returned from Honolulu. Mr. Wiegand, who has traveled extensively, is well pleased with his latest trip and very enthusiastic about the Hawaiian islands.

A. Wiegand & Sons have a white pine hotbed sash, which has been in use for over 60 years and is still serviceable.

H. W. Rieman is on a trip to Nathan Smith & Son, Adrian, Mich., to inspect their chrysanthemums.

Baur & Smith, so far, have rooted 30,000 geranium cuttings.

J.

TOLEDO, O.—Geo. Heinl is at Mt. Clemens, Mich., treating his rheumatism.

BEATRICE, NEB.—Carl Sondregger, proprietor of the German Nursery & Seed Co., is planning the erection of an upper floor to his tree cellar. It is to be used as a seed room and has been rendered necessary by the increase in this branch of the business.

ALTON, ILL.—An interesting ceremony took place November 5 at St. Mary's church at a nuptial high mass, when the golden wedding of Joseph Krug and wife, and the wedding of their niece, Miss Josephine Merkle, to Peter T. Reyland, was celebrated. Joseph Krug was the founder of the well known Krug gardens 45 years ago, and the aged couple have lived there ever since. Krug's has quite a local fame and every one knows that if anything specially good is required, that Krug's is the place to get it. J. Krug was born in Middletown, O., in 1836.

S. S. PENNOCK-MEEHAN CO., 1610-1618 LUDLOW ST., Philadelphia, Pa.

Philadelphia.

DEMAND KEEPS ALL HANDS BUSY.

Chrysanthemums now occupy the center of the stage under the limelight and are a most important factor at this time. They are in good supply, while an equally brisk demand keeps all hands busy filling orders. Prices range from $1 to $5 per dozen, the latter being an extreme figure for a few fancies. The great majority of the stock sells for $1.50 to $3 per dozen, the fancies running as high as $4. Halliday, Appleton, Florence Harris and Yellow Eaton are the best yellows, with White Eaton, Ivory and Alice Byron for white, while Pink Ivory, Pacific and several others make up the pinks. There are also some very pretty pompon varieties which sell readily. The chrysanthemums do not seem to interfere to any great extent with the sale of roses and carnations, all of which seem to move off at fair prices. American Beauty roses are now very fine and range from $1 to $4 per dozen. Teas are getting better. Some of the eastern stock brings as high as $10 per 100 for the fancy Bridesmaid and Killarney. Carnations are more plentiful and better in quality, some very nice stock being seen. Four dollars is high as yet. Single violets were very scarce the past week, the cool weather shutting off the supply. In many cases the plants are still outside and only flower on sunny days. Lily of the valley is in good demand. More is now grown annually for this market, but a steadily increasing trade takes it all. All kinds of greens appear to sell well. The new Whitmani fern in bunches has established itself as a standard and no stock is now complete without it. Chrysanthemums in pots are now in and are quickly grabbed up for decorations and store trade.

NOTES.

H. Bayersdorfer & Co. expect to get into their new store and warehouse in a short time, as alterations are rapidly approaching completion. Their main floor show room will be one of the finest in the country and with the other stories and basement will make this a model establishment.

There are two conspicuous signs hanging on the walls of the S. S. Pennock-Meehan Co. One reads: "Positively no donations given," the other, "No flowers sold at retail," both very good commission house mottoes.

The S. S. Pennock-Meehan Co. is receiving fine white and yellow Eaton from Weber, of Deer Park, Md. Evergreens are handled in quantity for window-box work. E. J. Fancourt has this department in charge.

The Leo Niessen Co. is handling quantities of chrysanthemums and this firm says it finds a ready sale for them. Double violets are added to the stock, some good Lady Compbell being seen.

The last accounts from the Germantown hospital report John Welsh Young on the mend. No serious complications have appeared and he is now considered out of danger.

Wm. K. Harris has a stock of the new large flowered red begonia which should make a hit at the holidays. His Begonia Gloire de Lorraine is also very fine.

Herman Zimmer of Collingwood has a new wagon on the street which will make a fine addition to his delivery service.

Wm. McKissick says trade is good. He is having a run on his Liberty roses, which are a No. 1 stock. There is also a fine line of carnations.

Edward Reid is handling something choice in double violets from up in the Hudson river district. K.

Boston.

The chrysanthemum season is now in full swing, with a stock that is far below the ordinary standard of these celebrated flowers. With the retiring of several of the largest growers of this favorite bloom the supply has been vastly deficient both in quality and quantity. The excellent stock of roses of various kinds with which the market has been well supplied for the last three weeks, is still maintained and has been the backbone of the cut flower trade. All of the varieties grown by local growers are in crop with one or two exceptions, and these are not of the most desirable types. American Beauty and Chatenay are the leading favorites. The outlook for carnations has improved considerably and they are now nearing the quality of this stock that it is usual to display during the autumn. Many new varieties are noticed, but none has yet outshone the old favorites. A good supply of excellet Enchantress carnations are being received from various sources. The supply for lily of the valley, orchids and gardenias is rapidly increasing and at present the demand is greater than ever. But small proportions of these fancy flowers are grown locally, the larger concerns throughout the country being relied upon for the supply which carries itself frequently to either one extreme or the other.

NOTES.

Thos. J. Benwell on October 30 completed 25 years of continuous service with the H. H. Hews Co. During his term of employment many improvements and new ideas have in general transformed the whole business, which has grown to be among the most extensive in this country. Mr. Benwell's acquaintances have numbered all the leading horticultural men throughout New England, through which section he of late years has confined his work, and he also is well known in the eastern section of the United States, where he formerly traveled.

Among the few growing fancy chrysanthemums this season John Streiferd, of Weymouth, has been remarkably successful. Among his best blooms, which are the equal of the best, are found Broomhead, Coombs, Enguehard, Bryon, Queen and Bonnaffon. Of other varieties of smaller size he has also a good supply, his stall presenting a very animated appearance when he arrives mornings.

The increase in trade generally for which the establishment of Welch Bros. was especially prepared and so well fitted to transact the volume of business which each day passes through the hands of the firm, is already of sufficient importance to warrant the great expenditure of money which was necessary to accomplish the requirements desired.

Pennsylvania, that beautiful yellow chrysanthemum which for many reasons is preferred over others of the same color, is being cut with great success by Wm. Nicholson. His stock which annually includes a supply of this variety, is larger than he has produced for several seasons.

Miss J. T. Coyle, for many years connected with the office of Thos. F. Galvin, has undergone on operation, from which she is rapidly recovering. Her numerous friends will be pleased to hear that it is a matter of two or three weeks before she will reappear at her post of duty.

John Walke, of Salem, has begun rather early to send to market his flowering plants. He is at present shipping a fine stock of cyclamen and Begonia Gloire de Lorraine.

Visitors: Roger Peterson, Cleveland, O.; H. A. Dreer and W. F. Dreer, both of Philadelphia, Pa.

MARKET QUIET.

The market is settling itself for the business which everybody has believed would be good after the election. With a fight such as has been New York's experience for some weeks, the flower business has lost the patronage of hundreds of buyers and it will be late in the week before the expected demand can materialize. Chrysanthemums are the main problem just now, and while there has been no glut to speak of, clearances are no less hard to make. Selection is a great thing and finer sorts bring much more than maximum quotations, which are for average sorts. Late varieties are coming in freely, and the best will occasionally reach fancy figures. Roses are much improved in quality and sell pretty lively. Once or twice a week arrivals are greater than the market can absorb, but clearances are made at some price or other. American Beauty is a little scarcer in the higher grades, and values are a trifle higher. Quality, too, is a little better, particularly in regard to color. Bride and Bridesmaid are lengthening in stem and top prices in grades approaching this condition are easily attained. Richmond, among the reds, is redeeming itself, and long stemmed stock brings a fair price. Killarney comes in fine condition, and is a good seller. Violets have moved up a notch, possibly because quantity is not a factor. In quality little is attained over previous weeks. Lilies continue in good demand and bring good prices because arrivals are light. Some good callas are noted, and fill demands at fancy figures. Carnations are very abundant, and the shipments on election day were rather bothersome. Prices fell a little because of quantity, growers not realizing that this particular holiday had no stimulation as far as demand was concerned.

The Market, November 7.—The market is very slow today and cleaning up difficult.

NOTES.

The rumor in circulation that the business of J. M. Hodgson & Co., 718 Fifth avenue, had been discontinued and that the business would lapse has been proved to be unfounded. There is much satisfaction in the trade that this business, probably the oldest, and certainly at one time the most prominent, will go on as usual. Many of the leading retail florists in business today graduated from the Hodgson establishment, including Geo. M. Stumpp, and Chas. A. Dards, and among the departed, the late Henry Butler and John Scallen. Richard Merritt, for many years with the concern, has severed his connection with it, and is now looking after the flower department of the Siegel Fourteenth street store and other interests.

J. R. Fotheringham, of the F. R. Pierson Co., left on the closing night of the Tarrytown show, for Boston, with a fine staging of Winsor carnations for the show to be held there. He also took with him the exhibit of this carnation which had been on the Tarrytown exhibition three days and staged it side by side with the fresh exhibit in Boston to show its rather remarkable keeping qualities. He also had with him one of the two new ferns which the Pierson Co. are about to introduce, and which has excellent claims for a place as a decorative fern.

Monday night, November 12, will be ladies' night at the New York Florists' Club, also chrysanthemum night. An elaborate programme of entertainment has been prepared for this evening, including glees by a Brooklyn glee club, and some stunts by florists who have not hitherto appeared on New York boards. In addition will be the solid entertainment which the house committee will offer. There should be an unusually large attendance.

John Bingham, the Oyster Bay florist, floats into town once in a while. He is senior warden of the Masonic lodge at Oyster Bay, which rejoices in having on its roll of members President Roosevelt. The president visited the lodge a few evenings since and both as member and man further endeared himself to his chosen. Fraternally, Mr. Bingham feels quite proud of his office, and his position in the lodge.

In the wave of sympathy which ever beats for a member of the New York Florists' Club suffering bereavement, Phil Kessler is receiving condolence on the death of his father last week. The deceased was a man highly respected in the Woodside community and well known in the florists' trade.

The Specimen Tree Transplanting and Construction Co. of New York is a concern which was incorporated at Albany last week, with a capital of $10,000. The directors are J. L. Lockwood, Jr., New York; G. B. Pettit, Brooklyn, and A. S. Hopper, Paterson, N. J.

Siebrecht & Son are comfortably settled in their new store on East Thirty-eighth street, adjoining their old quarters. The store is small, but very nicely furnished, and possesses an excellent show window which is at all times well arranged.

Gunther Bros. are making a specialty of orchids, and the recent showings they have made of Cattleya labiata have drawn many buyers to their Twenty-ninth street store.

Arthur Herrington, of Florham Farms, was busy last week with the shipment of a fine bush chrysanthemum plant to the Chicago show. It had over 500 flowers on it.

Among those disappointed through inability to attend the Chicago Flower Show is F. R. Pierson, of Tarrytown, a member of whose family is lying seriously ill.

August Millang, formerly well known as a wholesale florist, is receiving the sympathy of the trade in the death of his wife.

With gardenias in short supply the establishment of John Young is the mecca of those in want.

H. Mallstrom, the New York agent of Sander & Son, England, left this week on a trip west.

Charlie Schimmel, for a long time lieutenant of Julius Lang, is now with Ford Bros.

Julius Roehrs was a visitor at the Boston show last week.

Visitor: E. Howard Smith, Hazleton, Pa.

ONION SET prices are tending higher.

ASPARAGUS and rhubarb roots for forcing are much in demand.

NASTURTIUM QUEEN OF TOM THUMBS is as usual among the short items.

THERE is considerable inquiry from abroad for the newer sweet peas.

CHICAGO.—Alderman Thos. M. Hunter was elected municipal court bailiff last Tuesday.

THE clay grass growing heads sown with grass seed have been good sellers during summer and fall.

KOCHIA TRICHOPHYLLA, the summer cypress or burning bush, will prove a most attractive item in the 1907 catalogues.

VISITED CHICAGO: A. B. Clark, representing the Everett B. Clark Co., Milford, Conn.; Max Wilhelmi, Lawrence, Kans.

MICHIGAN beans are not turning out such a bountiful crop as was expected when harvesting began, according to Mr. Sheap of S. M. Isbell & Co.

WAKEMAN, O. — C. S. Clark has bought the Campbell place near his seed warehouse and is having horse sheds built for the convenience of growers' teams and building a large storeroom overhead.

TWO-CENT letter postage for each half ounce will go into effect between New Zealand and the United States on November 1. This arrangement will no doubt bring the two countries into closer business relationship.

NICOTIANA AFFINIS hybrids are among the best and most meritorious novelties of the past season and will again be pushed prominently. On account of their sweet odor and less rampant growth they are preferable to N. Sanderæ.

PROVIDENCE, R. I.—Rennie & Thompson is the name of a new firm located at 135-137 Washington street. Mr. Rennie has been identified with the trade in this locality for the past 20 years, and Geo. C. Thompson for a like period with the leading houses in this country, more recently for eight years with R. & J. Farquhar & Co., Boston, Mass.

Death of Mrs. D. M. Ferry.

Illness originating in a chill last June resulted in the death of Mrs. Addie E. Ferry, wife of Dexter M. Ferry, Detroit, Mich., at her summer home, Unadilla, N. Y., November 2. Her acute sickness had covered a period of three weeks. Mrs. Ferry had a severe illness in June and was taken to her old home the first of September to recuperate. She seemed to gain strength and celebrated her wedding anniversary October 1 in the midst of her friends and seemingly in good health. Shortly after she became worse and continued so to the end. Mrs. Ferry was born in 1841 at the Milfer homestead, where she was married to Mr. Ferry October 1, 1867, locating immediately after in Detroit, where she was known by many acts of quiet philanthropy.

Yours very truly,

JOHN SCHEEPERS & CO.
2, 4 and 6 Old Slip, NEW YORK.

Ghent's Trade in Plants and Bulbs.

The year 1905 proved favorable to the horticultural industry, according to Consul Atwell. Sales were made in large numbers and an immense amount of plants was sold. The exports of all kinds of plants and bulbs to France, Denmark, Holland, Italy, and several other European countries were more important than in 1904. The exports of these articles to the United States amounted to $235,222, an increase of $28,415 over 1904. The exportation of cut flowers, principally orchids, is becoming very important. Nearly all of the large cities of Germany are heavy purchasers of flowers, especially those cities situated along the Rhine. Holland also buys in large quantities.

The Seedless Water Melon.

The seedless apple hysterias are over so far as practical horticulturists are concerned and next on the list to demand the attention of the wandering public is the seedless water melon. A New Mexico melon man is reported as saying: "After the vine has grown three or four feet in length the end is covered with earth. When this end takes root it is cut loose from the old roots and the early blooms are pulled. Melons grown from the second blooms are seedless."

[A well known melon expert says the New Mexico man has been "gazing."—ED.]

WIBOLTT'S SNOWBALL CAULIFLOWER-SEED

VAUGHAN'S SEED STORE, 84-86 Randolph Street, CHICAGO. 14 Barclay Street, NEW YORK.

Greenhouses and Nurseries and Trial Grounds, Western Springs, Illinois.

The Nursery Trade

American Association of Nurserymen.
Orlando Harrison, Berlin, Md., President; J. W Hill, Des Moines, Ia., Vice-President; George C. Seager, Rochester N. Y., Sec'y.
Thirty-second annual convention, Detroit, Mich., June, 1907.

HAVE all stations that are to be used for permanent beds of shrubs well prepared before planting. It is good practice to wait until spring to plant unless the soil is in really good condition.

NOT many of the outdoor shrubs and trees bloom in late summer and autumn, and this is where the althæas come in. They can be had in quite a large range of colors, and intending planters should certainly keep them in mind.

RHUS COTINUS, or the smoke tree, though a native of lower Europe, does well and is perfectly hardy in many parts of America. The feathery flowers and seed vessels gve a smoke-like effect that is very pleasing in a large specimen. It grows to a large size if given room and good soil.

THE long stems of Forsythia intermedia, covered in spring before the leaves appear, with the pretty bright yellow blosoms are very attractive. A position where they are screened from very cold winds in spring is all the protection needed. The plant likes a fairly rich soil.

THOSE who like purple leaved trees ought to take note of Prunus Pissardi, the purple leaved plum. It is a fine grower, the leaves keeping their color from early spring until they drop, while the trees in spring are simply covered with the pretty white flowers. Standard trees are fine.

CORNUS SIBERICA SPAETHEI is one of the finest of variegated shrubs, for not only is the foliage very fine in summer, but the red stems are almost equally attractive in winter. Its great hardiness is a point in its favor, the only injury at all likely to happen to it being the cutting of the early foliage by frosty winds.

THE golden elder is fine for making a lively display in the landscapes, its bright yellow foliage showing up at a long distance. The common elder is perhaps the toughest plant in America, and its yellow variety is almost equally hardy, thriving best, of course, where the soil is good. Standing alone on a lawn, and cut down annually, it throws up fine strong and well colored shoots. But the deepest color occurs on poor soil.

IT is a pity that the aubretias, the alyssums, forget-me-nots and such plants are not more grown. They are fine for planting as a carpet under bulbs, while for any position on rockeries or in any rough corner they give grand spring effects with practically no trouble. Alyssum saxatile compactum, for instance, may be raised in hundreds from a small pocket of seed, sown in June or July, and although the aubretias give a little more trouble, they are certainly worth it.

Shippers Table for Nurserymen.

The American Association of Nurserymen has issued to their members a most useful shippers' table and classification list, revised and corrected to date. The reduction of rate on L. C. L. and C. L., carload, rates on various kinds of stock and merchandise are given in tabulated form. Goods not accepted by the railroad companies in less than carload lots are given, and important railroad rules are quoted. The minimum weights of goods in cases, recognized as loads of varying sizes of cars are also given. Official western and southern classifications are given, also full table of import freight rates from British and continental ports to the principal American cities. Examples of over charge, and advice to shippers are given, and W. C. Reed, chairman of the transportation committee, American Association of Nurserymen, Vincennes, Ind., announces that extra copies of these tables will be sent to members on application.

The Nut Growers' Convention.

The fifth annual convention of the National Nut Growers' Association, convened at Scranton, Miss., October 31. The meeting was well attended from the opening session to adjournment at noon on November 2, when the party left for Ocean Springs and other points to examine groves and nurseries. The programme was followed closely, and interest throughout all the sessions was marked.

This meeting was distinctly a business convention, many matters of concern to the industry received attention, after having been well prepared by the various committees. A number of important papers were read by title and will appear in the proceedings. Scranton entertained royally, and Hon. H. B. Everett in his address of welcome exploited the advantages of Pascagoula harbor and the resources of surrounding country.

Hotel accommodations for the entire party which assembled from 12 different states, was furnished at the Cottage by the Sea. The oyster roast on the beach Thursday evening, with its attendant surroundings of music, electric lights and speeches, was a novel and much appreciated feature of the meeting.

President Kirkpatrick, of Texas, declined a reelection, and Prof. F. H. Burnette, of Louisiana, succeeded him. H. C. White, of Georgia, was elected a vice-president, while the other officers were all reelected. Guy P. Stubbs, of Louisiana, was added to the executive committee.

Proceedings of the convention will be published soon. The next meeting will be held in Virginia about the date of the horticultural congress.

Boston Department of Parks.

The twenty-first annual report of the board of commissioners for this department has been issued. The commissioners' report to the mayor notes sundry small improvements in the various playgrounds, the uncertain tenure by which the Commonwealth playground is held by the city preventing the board from considering further work there. Lack of appropriation, for maintenance and upkeep, delays improvements and prevents the requisite cultural attention being given to trees and shrubs.

Superintendent J. A. Pettigrew reports an increasing improvement in the condition of the woodlands in Franklyn park, but smoke conditions are increasingly troublesome and more loam is required for top dressing. Pheasants and other birds are being bred, some of which still remain to interest park visitors. The condition of most of the other parks and playgrounds was reported satisfactory. Owing to the mild winter the skating, curling and tobogganing visitors were fewer than usual, but an increased number of football and baseball visitors was noted.

Statistics of expenditures are given a total of $44,780.70 having been spent on roads and drainage, grading, general work, plantations, water supply, buildings, gymnasium apparatus and fences, walls, land and expenses. For the maintenance of these $241,549.16 was spent during the year ending January 31, 1906. The parks and grounds contain an area of 2,381.15 acres, there are

TRADE GOOD.

We have been having charming autumn weather, with the customary stimulating effect on trade. Material has been fairly abundant and of fair quality, and was easily moved, and Saturday night found stocks pretty well cleaned out without much pressure.

One of the largest decorations of a business house ever seen in this city was an accompaniment of the removal into their new quarters at Baltimore and Hanover streets of I. Hamburger & Son, whose friends simply overwhelmed the store with floral testimonials of kind feelings of every form and device. There were horseshoes, baskets, bouquets and all kinds of designs, and good wishes entertained for this old-established house, both in this city and from abroad. Pennock Bros., of Philadelphia, sent down a force to construct a facsimile in flowers of the first house in which business was started by the firm many years ago, and succeeded in making an unique and attractive picture. Nearly every store in town had orders for decorative contributions besides those sent from other places and it is said 10,000 visitors passed through the doors of the new establishment to see the handsome structure and the innumerable floral embellishments.

The growing business of the Florists' Exchange has necessitated an addition to the force, and Charles Fieck, who has had considerable experience in the retail end of the florists' trade, has been appointed as assistant to Mr. Perry, the busy manager of the establishment.

Philip B. Welsh is sending in daily shipments of Amorita chrysanthemums, perfect in every point, and considered by him as the best of its class, an opinion sustained by the sales at the Exchange.

Violets are becoming abundant and are of superior quality. John Cook, who makes a specialty of them, has house after house, and frame upon frame, all in the pink of condition, and finds the market promptly assimilates the entire product. S. B.

SALT LAKE CITY, UTAH.—The B. C. Morris Floral Co. lost two houses, each 20x100 feet, by wind storm October 21 and the other six houses on the place were badly damaged.

MARKET FIRM.

The market this week still continues very firm. At no time during the week was there any abundance of stock, in fact in many instances there has not been enough flowers to fill orders. This was especially the case with carnations, violets and extra fine chrysanthemums. Thursday there was quite a scramble to get flowers, the large store openings taking everything in sight. The openings of Kline Bros.' cloak house and the Shoe-Mart Co. meant not only the giving away of many flowers, but also some very beautiful designs. Horse shoes, flags, hampers, baskets of every shape, were in great numbers, but also there were furnished palm and plant decorations by the most prominent florists in the city. This new fad at openings should be encouraged as it certainly helps the flower business in general to a very great extent.

NOTES.

Andrew Meyer, Jr., city forrester, is very much interested in the new ordinance in regard to the planting of trees, etc., on the highways, this work to be done only by legitimate and competent parties, thus securing a better and a more systematic way of planting and a better grade of stock.

The Florists' Club meeting, it is expected, will have a large attendance. Professor Irish has widely advertised the show to be given at the close of the club meeting. The young members of the club are up and doing and are hustlers. They are talking show for next year on a big scale.

We regret to announce the sad loss that came to Geo. Walters, the wire design manufacturer, in the untimely death of his little three-year-old daughter who fell accidently into a tub of boiling water. Sympathy to himself and wife is extended by everyone.

Will Adels and Chas. Schoenle, the terrible twins, can be seen daily talking about the good old times when they did not have to wait around looking for stock, but the sellers were looking for them. Now the tables are turned.

It is reported that an entire new boulevard system will be introduced through Kings Highway to all points of the city. This will cause the making up of several new parks. This drive will be several miles in length.

At Berning's everything is moving at a lively gate. Henry is a hustler ably assisted by Otto Bruenig and Julius Koenig. They have handled during the past week a great many chrysanthemums in all grades.

Quite a number of florists left for Chicago Tuesday evening to take in the show. F. C. Weber, Chas. Juengel, Will Young, Otto Koenig, Fred Meinhart and Geo. Windler were among them.

Miss Krug, of Alton, Ill., visited St. Louis to buy flowers. Her father celebrated his golden wedding November 5. Congratulations are in order.

Henry Emunds, of Belleville, Ill., has completed a house, 36x150 feet, for carnations, making a specialty of Enchantress and Lady Bountiful.

Geo. Ostertag, superintendent of parks, and Henry Ostertag has left for Chicago to take in the flower show.

The Ostertag Bros. have one of the largest weddings of the season next week.

W. C. Smith entertained Wm. Edelfsen, of Milwaukee, the past week.

The Ellisson Floral Co. has been very busy during the past week. W. F.

Louisville.

TRADE HEAVY.

The past week was the busiest experienced for some time, everything being cleaned up. Chrysanthemums had probably the greatest demand of any flower, and anyone having a white one Sunday had something which attracted a great deal of admiration. In pink the supply was adequate, as it was with yellow. The outlook is promising for a good supply from now on. Carnations have had a very heavy demand, and were hard to get at any price in quantities. The quality is very good now, and no doubt the supply will be much better very soon. Roses have had an excellent demand, and these, too, will be plentiful soon; the quality averages good. Violets can be had in satisfactory quantities of good quality, and sell well. Lily of the valley is still hard to secure in quantities of good quality, and has a good demand. Green goods are in satisfactory supply.

The regular meeting of the Florists' bowling club was held on the evening of November 6 in the usual alley.

F. L. S.

ST. PAUL, MINN.—Holm & Olson are now in their new store, perhaps the best and largest flower store in the country.

" Medium	1.00 to 2.50

As a matter of course you are looking for the best and most profitable Pink Carnation. What shall it be? Our answer is: Invest in the

Rose Pink Enchantress

TO still further satisfy you that we make no groundless claims, we call upon the hundred and odd growers in various sections of the country, among whom we disseminated during the past season about 50,000 rooted cuttings (all we had), to bear witness to our assertion, namely: That our **ROSE PINK ENCHANTRESS** is the **BEST** and the **FINEST** sport of them all. And so, "lest you forget," we say again: **Don't hesitate,** don't doubt, don't delay mailing your order. The **ROSE PINK ENCHANTRESS** is an ideal variety, viewed from whatever standpoint.

Price for strong rooted cuttings, January and later delivery,
$7.00 per 100; $60.00 per 1000.

A letter from W. J. PALMER & SON: We are very much pleased with the Rose Pink Enchantress. We grew it under glass summer and began to cut in August. It was a little light early, but far superior to Enchantress, which was a washy color. The color is fine now, just the shade the public wants. We shall grow 5,000 of them next season. W. J. PALMER & SON.

We are much pleased with the Rose Enchantress bought of you last season. We find it strong and healthy, coming into bloom early, and being a clear pink, just the color needed. Shall plant more of it next year. We consider it among one of the best varieties sent out the last few years. PATTEN & CO.

S. S. SKIDELSKY,

Pittsburg.

TRADE ACTIVE.

The warm weather is filling up chrysanthemums at a great rate. There are quantities of all grades and colors. Carnations are still very scarce, prices remaining high. Roses of a fine quality are very plentiful. Lily of the valley was rather hard to obtain. Violets are good and selling nicely. Yellow daisies have made their appearance.

FLORISTS' AND GARDENERS' CLUB.

The Pittsburg and Allegheny Florists' and Gardeners' Club met Tuesday evening. There was a large exhibition of chrysanthemums. Among the exhibitors were: Chas. A. Totty, Madison, N. J.; L. K. Peacock, H. L. Blind, Phipps Conservatories, all of this city; Thos. Meehan & Sons, Philadelphia; R. C. Goodwin, Bridgeville; R. Vincent, Jr., & Sons, White Marsh, Md.; McRea-Jenkinson Co., Cheswick; Chas. Peterson, East Liverpool, O.; Fred Burki, Bakerstown; E. G. Hill Co., Richmond, Ind.; F. H. Westhoff, De Haven, and D. C. Noble, Columbia City, Ind. Taken in all it was the finest exhibit ever in this city.

The E. G. Hill Co. had a collection of new varieties. Truffort was voted the best yellow in his collection. A pink variety named Detroit was measured by Mr. Rineman and found to be 11 inches in diameter and 15 inches over the top. Mr. Jenkinson sent in some very fine T. W. Pock yellow for Mr. Peacock. Chas. Peterson showed a fine collection of Yellow Queen which he originated. He grows this in preference to any other yellow.

F. Burki showed Robison, Wm. Duckham, Alice Byron, Buckbee, Balfour, Mary Manning and Mrs. Wm. Duckham. McRea-Jenkinson Co. showed some fine specimens of Col. Appleton. R. C. Goodwin had a variety of his own which he named Pearl; he also showed Robinson, Morel, Queen, Bonnaffon, Dr. Enguehard, Nebius and Adelia.

Supt. Jones, of the Phipps Conservatories, had a fine collection of show blooms; one yellow variety, F. S. Vallis, measured 10½ inches in diameter and 18 inches over the top. D. C. Noble had Dr. Enguehard, Robinson, Morel, Perine and Appleton, all good commercial varieties. H. L. Blind showed yellow Eaton, Halliday, Maud Dean, Ivory, Duckham and Touset. F. H. Westhoff showed a fine collection of Ivory, Balfour, Appleton, white and yellow Bonnaffon and Robinson, also some select Lawson and Lady Bountiful carnations.

NOTES.

E. M. Hall, of Fairmont, W. Va., intends opening a first class confectionery in connection with his flower store.

Gilbert Wicklin, manager for Randolph & McClements, is laid up in bed as a result of an automobile accident.

F. H. Westhoff, of De Haven, is sending in an unusually nice cut of Ivory chrysanthemums.

It's a boy. Ask Albert Lorch for further particulars.

Visitors: I. S. Crall, Monongahela; Chas. Peterson, East Liverpool, O.; G. L. Huscroft, Steubenville, O., and E. M. Hall, Fairmont, W. Va.

J.

Washington.

TRADE BRISK.

Trade conditions steadily improve and day by day prospects brighten for a good season. While there is a brisk movement in chrysanthemums they have not put roses, carnations and violets on the shelf. The quality of these stocks continues to improve, weather conditions being now favorable. There is an abundance of good chrysanthemum stock coming in from the local growers.

NOTES.

The Washington Florists' Co. will, about December 1, take possession of the new store at Fourteenth and R street, N. W., located in the large building being erected by J. Louis Loose, president of the company, whose extensive range at Alexandria, Va., is now producing great quantities of chrysanthemums. Directly in the rear of the new store a conservatory containing 5000 square feet of glass is being erected and will be finished in strictly modern style. In greenhouse building and store furnishing Mr. Loose is entitled to write specialist after his name.

W. F. Gude has just returned from a visit to Philadelphia and vicinity. While favorably impressed with horticultural features in the city of brotherly love, he still thinks that Washington is not a bad place in which to grow flowers. He is justified in this as his firm has now at its greenhouses an exceptionally fine stock of American Beauty and tea roses, chrysanthemums and carnations.

J. H. Small & Sons are offering a very fine lot of chrysanthemums, grown

THE SEASON TO SELL POT PLANTS

Just right for Xmas. Place your orders at once.

Plants with from 5 to 20 fruit.....25c a fruit

ROBERT CRAIG COMPANY, Market and 49th Streets, **Philadelphia**

at their Washington range. This firm recently made a very heavy purchase of pot stock from one of the leading wholesale houses of the country and it is believed that they have some big surprises in store for the Christmas trade.

Will Arnold, formerly a successful rose grower of this vicinity, has been heard from as now holding a good position at George Rienberg's range in Chicago. We wish him success, but he has our sympathy in being so far removed from Potomac river oysters.

On Saturday both the stores and the market dealers did a thriving business. In addition to many fine cut flowers, the market men are showing good stocks of pot chrysanthemums, ferns and foliage plants.

Friday and Saturday last were real Indian Summer days that brought out the shoppers in force, and great numbers of chrysanthemums were disposed of, in fact, all the stocks sold well.

David Grillbortzer, a very enterprising young grower of Alexandria, Va., is sending in to local retailers a heavy cut of chrysanthemums.

The attraction for this week is the chrysanthemum show at the U. S. Propagating gardens. S. E.

New Castle, Pa.

Business the past week was satisfactory, there being plenty of weddings and funerals to keep all hands busy, and chrysanthemums being the chief cut here were used to great advantage. Carnations and roses are scarce on account of the recent dull weather, and not enough to supply the demand.

A visit to H. Weinchank's vegetable plant shows everything in that place in good condition for the winter. He has one house 82x200 feet planted to lettuce, of which half of the crop is ready to market. To save time this house is watered with the Skinner watering apparatus, which works perfectly. The next house is 56x100 feet, where he grows cucumbers, which are in fine condition and yielding a large crop. He is now grading for a new house which will be 120x600 feet. H. E. M.

PEABODY, MASS.—J. M. Ward & Co. have some exceptionally fine violets in their greenhouses just now.

Syracuse, N. Y.

Wheadon & Hencle have one window filled with as fine carnations as have been seen here this season. Green moss, asparagus vine and ferns set out the display so that it attracts much attention. In the other window are chrysanthemums and asparagus. They have raised the price of carnations, on account of the extra fine stock, from 50 cents to $1.00. There is no change in chrysanthemums. Good stock is moving rapidly. The firm made for the funeral of Charles H. Pierce, an immense blanket, 7 by 5 feet, of white chrysanthemums and asparagus vine with a cluster of American Beauty in the center. Wheadon & Hencle recently bought a large stock of Chinese sacred lily bulbs. As they did not move rapidly, Mr. Wheadon started some of them growing in dishes, with a little water in the bottom. This awakened the interest of his customers and nearly all the bulbs have been sold.

The building of new carnation houses in which the P. B. Quinlan & Co. have been engaged, has been done according to the King construction system. There is a new American Beauty house 36 by 200 feet, 6 carnation houses, and an azalea house extends 50 feet. Quinlan's chrysanthemums are showing up finely and the stock at both the South Salina street and Warren street stores has moved off satisfactorily.

Henry Morris reports that the change in the weather is improving stock. Numerous college foot ball games and some society events have furnished an outlet for chrysanthemums.

L. A. Guilliame expects to build some new carnation houses next summer. Mr. Guilliame is bringing in some excellent carnations to his city trade.

Edward Wood, of Lexington, Mass., formerly a foreman for P. R. Quinlan & Co., and now in business for himself, was a visitor here last week.

A. O. Grassel, of Barnevelt, N. Y., near Utica, is sending in some excellent carnations. A. J. B.

Orange, N. J.

The regular monthly meeting and floral display of the New Jersey Floricultural Society was held on November 2. Orchids and chrysanthemums were in force. Of the first, the table of Lager & Hurrell contained the season's flowers of cattleyas and cypripedium. John N. May contributed pompon and the usual run of flowers, fruit and vegetables from the neighboring estates. The topic for the evening was "Our Fall Show" and the reports from all sources promise a most successful exhibition at the new hall of the Woman's Club, in East Orange, November 5 and 6. Contributions of various prizes from Vaughan's Seed Store, J. M. Thorburn & Co., Peter Henderson & Co., Chas. H. Totty, F. W. Kelsey and others were announced. J. B. D.

BUTZTOWN, PA.—W. H. Coleman is enlarging his greenhouse and intends to install a steam heating plant.

WHITMAN, MASS.—W. B. Bowen has commenced work on a new greenhouse at Harvard street. He intends further additions in the spring.

Prepare for Thanksgiving and the Holidays.

WATCH ☛ PROSPERITY ☚ LOOK

Election is over, the country is settled to its normal condition. **Great prosperity** is in sight for us all. Why not for you? A little **fortune lays before your door.** Grab it now where there is a **chance for you. Look** at others; see how successful they are. Why? Because they are **wideawake.** They watch every opportunity and take advantage when bargains are offered.

A big demand is in sight now and for the ensuing holidays for the so much admired **decorative plants,** the **Araucaria Excelsa, Araucaria Excelsa Glauca,** and the **Araucaria Compacta Robusta.** What do you think? Where will you buy them? Surely from a man who makes a specialty in **importing Araucarias,** and who can offer you **bargains.** Godfrey Aschmann is the man who has the reputation for the last ten years as the great **importer** and **dealer** in **Araucarias** of America.

PRICES SLAUGHTERED ONE-HALF THE NORMAL.

Prices **never** offered so low in the history of Araucaria cultivation. Why is that? For the simple reason, to obtain room to cultivate our great Easter stock. About 5,000 Araucarias, with an immense lot of Palms, Ferns, Azaleas, Rubbers, Begonia Gloire de Lorraine, etc., must be sold by Christmas.

☞ Please take notice. In all the Araucarias only spring importations are offered: raised in pots all summer, and can be shipped any distance safely without drooping

ARAUCARIA EXCELSA

5½-in. pots, about 15-in. high, 4 to 5 tiers, 3 years old, 50c; 5½-in. pots, 15 to 18 in. high, 4 to 5 tiers, 3 years old, 60c; 5½ to 6-in. pots, 18 to 23 in. high, 5 to 6 tiers, 4 years old, 75c; 6-in. pots, 23 to 25 in. high, 5, 6 to 7 tiers, 4 years old, $1.00; 6 to 7 in. pots, 25 to 30 in. high, 5, 6 to 7 tiers, 4 years old, $1.25; 7-in. pots, specimen plants, from $1.50, $1.75 to $2.00 each.

ARAUCARIA COMPACTA ROBUSTA—have several thousand of them: can supply all wants. These plants were never so fine in shape and condition as this year. The pet of the greenhouse: as broad as long. 6-in. pots, 3 tiers, 12 to 14 and 16 to 18 in. high, same wide, 3 years old, $1.00 to $1.25 each: 6 to 7 in. pots, 4 to 5 tiers, 18 to 20 and 22 to 25 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7-in. pots, specimen, 6 to 7 tiers, and 25 to 30 in. high, same wide, 5 years old, $2.00 to $2.50 each.

ARAUCARIA EXCELSA GLAUCA—this variety on account of its beautiful green-bluish tiers, dwarf habit, fine compact shape, gives it a striking appearance, and anybody seeing the plants must undoubtedly fall in love with them at sight. 6-in. pots, 3 tiers, 14 to 16 and 18 to 20 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 20 to 25 and 25 to 30 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7 in. pots, specimen, 5 tiers, 30 to 35 in. high, same wide, 5 years old, $2.00 to $2.50 each.

All these plants are as broad as long: the finest you have ever seen.

KENTIA FORSTERIANA, 7-in. pots, made-up plants, 1 large size, about 45 to 48 in. high in the center, and 3 smaller sizes, 25 x 30 in. high around, which gives them a good appearance, $2.00 to $2.50 each: 6-in. pots, single plants, 36 to 45 in. high, 5 to 6 good leaves 4 years old, $1.25, $1.50 to $1.75 each: 6-in. pots, 32 to 36 in. high, 5 to 6 good leaves, 4 years old, $1.00 each: 5½ to 6 in. pots, 4 years old, 30 in. high, 5 good leaves, 4 years old, 75c: 4-in. pots, made-up plants, 3 plants in a pot, 18, 20 to 25 in. high, 25c, 30c to 35c each.

ARECA LUTESCENS, 5-in. pots, 24 in. high, made-up with 3 plants, 35c: 4-in. pots, 20 to 24 in. high, made-up with 3 plants, 25c.

ARECA SAPIDA, just imported from Belgium, something new, very attractive, looks like Kentia, 25 in. high, 50c.

OUR LITTLE PETS.

COCOS WEDDELLIANA, 15c.

ASPARAGUS PLUMOSUS NANUS, 4-in. pots, large, bushy, 10c to 12c.

ASPARAGUS SPRENGERI, 4-in. pots, 10c.

FICUS ELASTICA, or **Rubber Plant,** 6 in. pots, 25 to 30 in. high, 40c to 50c each.

FERNS, all raised in pots and not on benches as follows:

NEPHROLEPIS BARROWSII, 7 in. pots, as big as a bushel basket, 75c to $1.00 each; 6-in. pots, large, ready for 7-in., 50c; 5½-in., 40c; 5-in., 35c; 4-in., 25c.

NEPHROLEPIS SCOTTII, 8-in., as big as a wash-tub, worth $2.00, now $1.25; 7-in., as big as a bushel basket, worth $1.25, now 75c; 6-in., 50c; 5½-in., 40c; 4-in., 20c.

NEPROLEPIS ELEGANTISSIMA, 5-in. pots, 30c.

BOSTON FERNS, 7-in., very bushy, only 75c; 6-in., 50c or $5.00 per doz.; 5-in., 30c to 35c; 4-in., 20c

FERNS—A fine assortment of Ferns for dishes, large, bushy, out of 2½-inch pots, $5.00 per 100 3-inch, 6c each.

JERUSALEM CHERRIES, (or Solanum), 6 to 7 in. pots, very bushy, full of berries, from $3.00 to to $6.00 per doz.

DRACAENA BRUANTI, (imported), 30 in. high, 6-in. pots, 50c, $5.00 per doz.

CYCLAMEN, will bloom for Christmas, 5-in. pots, 20c; 4-in., 12c.

PRIMULA OBCONICA, best strain, 4-in. pots, 10c.

CHINESE PRIMROSES, in 4-in. pots, ready to shift into 5-in. pots, will bloom for Christmas, $10.00 per 100; 5¼-in. pots, $2.00 per doz.

HYDRANGEA OTAKSA, only pot-grown is offered, sure success for Easter forcing, 6-in. pots, 25c; 7 to 8-in., 50c.

AZALEA INDICA, just arrived, selected by myself on my recent trip to Belgium. Have all leading varieties such as Deutsche Perle, Simon Mardner and Vervæneana. These three sorts are good for Christmas forcing. Later varieties: Empress of India, Oroff, Wolters, Niobe, Bernard, Andreas Alba, Mme. Van der Cruyssen and many others, prices as follows: 35c, 40c, 50c, 60c, 75c, $1.00, $1.25 to $1.50 each.

BEGONIA GLOIRE DE LORRAINE, 6-in-pots, 50c: 3-in., 20c.

BEGONIA FLAMBEAU, sells on sight, 4-in., ready for a shift into 6-in., 20c.

BEGONIA ERFORDII. New Improved, blooms all winter through, 4-in., 15c.

—CASH WITH ORDER.—

When ordering, say whether the plants should be shipped in the pots or not.

Kansas City.

BUSINESS GOOD.

No perceptible change of any importance has occurred during the past week, save a slight increase in counter trade among the smaller stores. Weddings are still as numerous, one store reporting five good sized orders last Saturday. Funeral work also has been very plentiful. The deaths of three of our foremost citizens, during the week, brought about many nice orders for large designs and bunches. Among the wholesalers, a general feeling of satisfaction is expressed, and all report a marked increase in shipping trade. In most lines, stock is fairly plentiful. An increase in quantity of chrysanthemums is noticeable, as well as an improvement, as the season advances and brings forth the later varieties. Such varieties as; Appleton, Robinson, Halliday, Monrovia, Omega and Viviand-Morel are about the extent of the present supply. This week has seen on the market some of the best roses so far this season. American Beauty is in fine condition, but the presence of chrysanthemums to a certain extent retards their sale. Bride, Bridesmaid and Chatenay are good. Killarney is gaining popularity every day, on account of it's splendid keeping qualities. We might venture, that carnations are improving, but very slowly indeed. Enchantress bids fair to again attain the popularity of last season. Other obtainable stock worthy of note consists of orchids, violets, lily of the valley and Easter lilies. Ferns are scarce everywhere.

NOTES.

November 17 is the date of the next meeting of the Missouri Valley Horticultural Society in the club rooms at the Coates house. This is the first meeting of the season to be held in the city, and should develop a large attendance. A discussion regarding greenhouses and cold frames should bring out many points of value to small growers.

A sale of importance was transacted at Independence last week by A. L. Broman who has been in business there a number of years. The buyer was an ice dealer of that city. Mr. Broman expresses his intentions of devoting his time to the erection of several residences on some property which he has acquired.

Edward Quinn, of Springfield, was a caller last week. He recently disposed of his place in that city to the Springfield Seed Co. Mr. Quinn is on the lookout for another location.

We deeply regret to learn of the death of the small son of Jacob Tobler. The trade is unanimous in an expression of deepest sympathy in his bereavement.

C. F. Eltzholtz, manager of the Oklahoma Seed House, Oklahoma City, was a recent caller. He reports a very healthy state of trade in that section.

Edward Hunt is becoming quite an enthusiastic bowler. In last week's meeting he was awarded honors for making the highest score.

Sam'l Murray had a very attractive window display last week. It consisted of very pretty arrangements of lily of the valley and cattleyas.

Walter Heite may be seen each day making the rounds with a nice stock of chrysanthemums.

The Wm. L. Rock Flower Co. will hold its annual opening during the week of November 18.

Frank Stuppy, of St. Joseph, was a visitor.

K. C.

CANTON, O.—Near the entrance of floral hall, the Zettler Co. has a large exhibit. The company has been long and widely known as florists and nurserymen, of 405 North Clarendon avenue. They do an extensive business in potted plants, trees and shrubs and this year are making a specialty of carnations, roses and ferns.

BALLSTON, VA.—Geo. J. Hess will remove to his new place, at Suitland, Md., outside of Washington, D. C., in the spring. He has planted a large block of peonies on his new place. The greenhouses will not be built until April. A general line of pot plants and cut flowers will be grown for the Washington market.

The Best Way to Collect an Account

is to place it with the

NATIONAL FLORISTS' BOARD OF TRADE, 56 Pine St., New York.

Why? Because many debtors will pay the Board, fearing otherwise a bad rating in our Credit List. Full information as to methods and rates given on application.

...CARNATIONS...

NATHAN SMITH & SON,
ADRIAN, MICH.

THE NEW Cyclopedia of American Horticulture.

BY PROFESSOR LIBERTY H. BAILEY.

Over 4,357 articles in all by 450 expert writers, including practically all the best botanists, nurserymen, seedsmen, florists, market gardeners and experimental station horticulturists. Occupying 2,100 pages and covering 24,434 plant names, 2,800 detailed illustrations, enormously increasing the ease of identification, and 146 beautiful full page illustrations.

Every reader of this paper who is interested in farming, in gardening, in trees, in shrubs, and all out of door matters, absolutely needs this set. It takes the place of all others combined on American gardening.

In Six Great Quarto Volumes of 2,100 Pages You Find:

Descriptions alphabetically arranged of all—over a thousand—of the native trees, plants and flowers worth cultivating, with keys enabling you to name any species, as well as to find all information regarding it. Practical articles by leading experts of the country on all phases of commercial plant production and greenhouse management—cut flowers, vegetables, etc.

Fullest cultural instructions for every flower, fruit and vegetable, tree and ornamental plant you may wish to grow.

SPECIAL OFFER.

The regular price is ***$30.00.*** For a few weeks we are able to offer this new and revised edition with the new material added at ***$22.80*** cash. This offer will be withdrawn January 1, and the price increased.

American Florist Company,
324 Dearborn Street, CHICAGO.

Cleveland, O.

THE MARKET.

Stock the past week has been remarkably scarce for this season of the year. Never before in chrysanthemum season has there been such a shortage in all lines of stock. Violets are coming in more freely and the quality of both single and double is fine for this time of year. Roses are a little off crop and carnations seem to be in about the same condition with most growers, but this is a good sign, as it insures a larger cut for the holidays.

NOTES.

The Carl Hegenberger Co. has opened its new store on Fifty-fifth street, near Woodland avenue, and the opening proved to be a great success. Considerable credit is due Miss Getz who planned the new store. The walls are of leaf green with gold and white trimming and when lighted is most beautiful. We all join in wishing them every success in their new venture.

Peter Nichols, the Arcade florist, has been on the sick list the past week. We are glad to say that he is fast improving and will be on deck shortly.

F. W. Griffin, of Euclid avenue and Fifty-fifth street, reports the sale at his Sabin plant stand as most gratifying.

J. M. Gasser, whose health has been failing for the past year, has left for Cincinnati to take treatment in a private sanitarium.

H. R. Carlton is sending in some fine Gov. Herrick violets to the Cleveland Cut Flower Co.

Visitor: B. Eshner, of M. Rice & Co., Philadelphia. OHIO.

Oakland, Cal.

This city has made great strides forward since the earthquake at San Francisco, its population having more than doubled. Naturally the florists are keeping ahead and getting their share in the general prosperity. For a few weeks after the calamity, supplies of every kind were over abundant, the growers this side of the bay having lost the market for their production. But this soon became normal again, the large growers shipping to Portland, Ore., Salt Lake City, Utah, Reno and other points, also the unburned section of San Francisco. Growers in this vicinity have fine stock and the outlook for a very prosperous winter and spring trade was never better.

NOTES.

The German gardeners' club "Hortensia" gave a very enjoyable and successful dance and entertainment to its members, their friends and families on October 17. It was shown that the club is very much alive.

Visitors include H. Plaith, of the Pacific Coast Horticultural Society, and Henry Kessel, of San Francisco, both prominent fern growers of this section.

E. B.

EATON, O.—The business of S. J. Galloway, who is engaged in the culture of hardy flowers, is increasing so rapidly that he has been compelled to enlarge his propagating houses on North Maple street. The old houses have been torn down and a new one, 16x50 feet, has been erected.

GERANIUMS 2½in. Pots, Ready for Immediate Delivery

H. R. CARLTON, Willoughby, O.

INTRODUCER and ORIGINATOR.

MABELLE, New Pink Carnation for 1907.

Color—A peculiar shade of lovely pink, with a faint yellowish cast; several shades lighter than the Lawson. Unlike most pinks, the brightest sun does not injure the color. Size—3 to 4 inches in diameter when established. Odor—Pleasing, but not strong. Stems—Invariably strong, but always graceful, ranging from 12 to 30 inches during the season. Habit, etc.—A very quick, active grower, making specimen plants in a short time, even from late cuttings. On account of its rapid growth, requires supporting very soon after benching. Gets away rapidly, blooms early and gives long stems right from the start. Productiveness—Prodigious is the best word we know of to use here. It is the most incessant bloomer, early and late, we have ever grown. Stock limited. Delivery January 5 to 10 and later. Price, $12.00 per 100, $100.00 per 1000.

BURNLEY, ENGLAND.

DON'T SAY THERE IS NO MONEY IN CHRYSANTHEMUMS

until you have tried **Clementine Touset**, the finest, largest, earliest white to date; every florist in the country should grow a batch, or a bench, or a houseful of this fine 'mum next year. I have the largest and best stock in the country and will sell you stock plants, fine large clumps full of runners at

15c each; **$1.50** per dozen;
$12.00 per 100.

Hurry up and order at once; even this stock will not last long when florists find out how valuable a variety this is. **Moneymaker**, the early white English variety, and **Jeanne Nonin**, the late white French variety, will go at the same price as long as stock lasts. Now is the time and chance to make money.

Other varieties at 10c each; $1.00 per doz.; $6.00 per 100; such as Monrovia, white and pink Pacific, white and yellow Bonnaffon, white and yellow Eaton, Mrs. Weeks, Viviand-Morel, J. K. Shaw, Alice Byron, Dr. Galloway, Ben Wells, Dr. Enguehard, Col Appleton, Yanoma, Chadwick, etc. Cash with order.

San Francisco.

The Pacific Coast Horticultural Society was entertained October 28 by Henry Maier, head gardener to W. L. Tevis, who was kind enough to give this invitation some time ago. It was a very fine day, a regular San Mateo day, and some 100 members and their families of the society and some 25 of the Oakland Society, Hortensia, gathered on the large and beautiful grounds in the forenoon and after the welcome were at once invited to a fine repast, after which the grounds and conservatories were inspected. Everything was in A No. 1 condition, showing that Mr. Maier had not been idle these last three or four years to produce from the barren hills such beauty. In the conservatories a very fine collection of ferns, coleus and cyclamen showed exceptionally well. Four frames were filled to overflowing with cyclamen at different stages of development. About 4 o'clock coffee and cake were served. After that anybody that was still dry could quench his thirst with imported lager and smoke genuine Havana cigars. Speechmaking and singing brought the visit to a close with many thanks to the donor. It is too bad we do not have some more of these visits to other places. They would do a lot of good among the members and will serve as a sticking plaster to the society.

At P. C. Meyer & Co., the Glenwood Nursery, things are shaping themselves for a successful season. Quite a number of carnations are being cut and sent here where a good market is awaiting them. A few pet seedlings, a white and a pink one, seem to have a future ahead of them. One is large, of good pleasing pink, fragrant and stiff, with a long stem, the other white a form of Prosperity, only fuller and larger. Of four houses of American Beauty one is in flowering condition, one will be in, in two weeks, the other two still two weeks later, clean and healthy. Two houses of Liberty and two of Bridesmaid are in as good condition and will be in time as usual.

Messrs. Angus & Murray, in Redwood City, former rose specialists have dissolved partnership, Mr. Murray acquiring part of the land and all the glass and other buildings. Mr. Murray is now hard at work repairing the damage done by the earthquake and has planted two houses in carnations. Stocks and candytuft will fill the balance and a new start will be made with roses next season.

At M. Lynch's all hands are hard at work replanting carnations. Chrysanthemums are not quite up to previous years, but still a good size cut is coming in, large enough to satisfy almost anybody. The same is the case at Frank Mill's, Palo Alto, and Sidney Clark's, of Menlo. San Mateo county seems to be right in it for a good winter supply of cut flowers and not much behind other years.

At Henry Goertzhain's chrysanthemums are the feature at present and he has them as good as usual and a little better. They are a very scarce article this year and bring fancy prices and Henry's bank account will show up well after the cut. Houses of carnations are also looking fine. Freesias, lilies and cucumbers will be forced after the chrysanthemums are cut.

At Chas. F. Fick's, carnation specialist, carnations are settling down for a steady cut and all kinds of money can be looked for in the near future. One house of tomatoes and cucumbers is starting up well and the next couple of months should mean success or failure.

At John O'Hearn's, the carnation houses are putting on their winter dress and a first class cut may be expected from now on. His palms, kentias especially, are in fine form.

At W. E. McLellan's the stock is somewhat behind previous years. A late start and a shortness in help seems to have been the fault.

At Hermann & O'Hearn's, in Belmont, carnation plants are being carried over the second year and are full of blooms now. C. F.

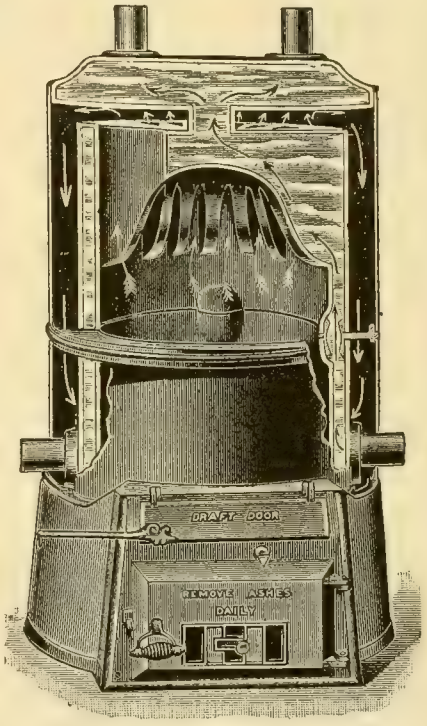
NASHUA, N. J.—W. W. Powers furnished the wedding decorations at the Fuller-Chase wedding October 20.

HIGH GRADE HEATERS!

MODERN

CONSTRUCTION

Secures great Efficiency with Great Reduction of Cost; Secures Economy of Fuel and Little Labor.



We Manufacture

STEAM

and

HOT WATER

Boilers suitable for Residences and Green Houses, and our record of fifteen years has proven the great Superiority of our Heaters.

We have thousands of these Boilers in use, and where known they are thoroughly appreciated. There are many places, however, where they are not known and we want to sell one in each of these places, and will sell the first one at a VERY LOW PRICE. For the purpose of introducing our Boilers where they are not known we will sell at

WHOLESALE Price, one Boiler to the person first ordering from such a place, and will

DONATE 25 PER CT. of the net price as a premium on first order. This will save the buyer

$25.00 to $100.00, according to the size bought. Our catalogue giving full details of our Heaters is furnished **FREE,** and a net price on Heaters will be given, delivered at any station in the United States. Our Boilers are **HIGH-GRADE** Heaters; they have been made for the past fifteen years; thousands are in use, and they are specified by the leading Architects and Heating Engineers throughout the country.

EXTRACT FROM LETTER RECEIVED FROM J. J. LAMPERT & SONS, XENIA, OHIO.

"We have the larger house planted to 'mums now, and they have outgrown considerable stock that was planted a month earlier in this locality. Also we have one house planted to roses, which are doing nicely. We like the houses ever so much and would not have anything else again."
(Signed), J. J. LAMPERT & SONS.

THE KING GUTTER is a great advance on anything else of the kind. The E. G. Hill Company, who have used them in their new range of 100,000 feet, just completed, write: "Everything fits admirably and we are much attached to the King Gutters. We think that the next time we build we will use the entire King Construction."

BUSINESS FINE.

Never in this city has society made such an early start on the giddy round as this season. Already, though November only dawns, there are parties, balls, and debut teas innumerable, and not least, the chrysanthemum show which will be held next week in the spacious Massey hall. Predictions are that the show is too early for the blooms, but it is wonderful how the flowers all turn up at the last moment. Business is fine at present, but with the large quantities of stock which are now on the market it is hard to see where any inroad has been made on the surrounding stock. The rose crop is very favorable, not very heavy but just right for the season. Carnations are plentiful enough in all varieties to meet the demand, while chrysanthemums seem to be overdone, consequently the prices of the latter are not as good as they have been in some other seasons. Violets, lily of the valley and orchids are plentiful in the daily show and predominate all other sales. This is the season for palms, the prices having been so considerably increased by the distributors that a number of our importers have this year stopped that portion of their business, and those few fortunate ones who have palms are realizing fairly good prices on their stock. Ferns, in the Boston, Piersoni and other vigorous growing varieties are much in demand, though there are plenty to supply all ordinary wants.

John Regall, foreman for the Steele Briggs Co., has just returned from a country trip where he has been purchasing onion sets. The past season has been very favorable for these and at present it is difficult to find adequate storage.

Charles Turpe is off on a hunting jaunt through the northern wilds looking for deer.

H. G. D.

...REMOVAL NOTICE...

Herewith we would like to advise the trade in general and our friends in particular, that we have removed our place of business to

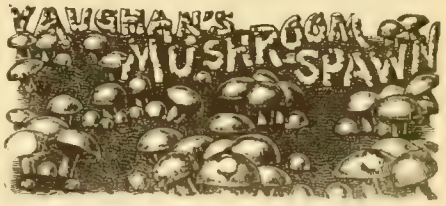
125 North Tenth Street,
ABOVE ARCH STREET.

Thanking you for your past favors and hoping for the continuance of the same in the future, especially as we will be able with more accommodation and with a larger stock to fill your orders more promptly than heretofore. We are Yours very truly,

Philadelphia, Pa. J. STERN & CO.

CAMDEN, N. Y.—The rumor that A. B. Powell is about to erect a greenhouse and enter the floral business, is without foundation.

OWENSBORO, KY. — The Manz Floral Co. has added a greenhouse 28x117 feet to their plant and a 30 H. P. boiler has been installed and successfully tested. All the stock is in good shape, chrysanthemums making a fine show, and 50,000 cannas are just coming into bloom. The company will shortly open a down town office in charge of Miss Katie Manz; R. W. Manz will be supervisor of the whole business, and Ben D. Manz is to have active charge of the greenhouses.



ENGLISH SPAWN. Imported fresh every month. Quality unsurpassed. Our English manufacturer has been in the business over thirty years. He knows all about pure culture. Do you think you can purchase as good a quality at twice the price from "greenhorns" who have made spawn two or three years. Price: Per 100 lbs., $6.00, f. o. b. New York; $6.50, f. o. b. Chicago. Write for prices in quantity

AMERICAN PURE CULTURE. From the best American manufacturers. Its chief value is its being in a moist condition, ready to start, and therefore earlier than English spawn. Sold by the brick: 10 bricks, $1.75; 25 bricks, $3.50; 100 bricks, $12.00; cream-brown, brown, or white varieties.

Fumigating Supplies, tobacco dust for fumigating. Edwin L. Koppelman & Co., 81 Pine St., New York.

Fine, pure tobacco dust $2 per cwt.; $30 per ton. Wm. C. Smith & Co., St. Louis, Mo.

Fumigating Supplies, tobacco powder and stems. The H. A. Stoothoff Co., 116 West St., New York.

LAWN MOWERS.

Lawn Mower. The Clipper lawn mower, No. 1, 12-in., $5; No. 2, 15-in., $6; No. 3, 18-in., $7; No. 4, 2-in., $8. Draft, money order or reg. letter. Clipper Lawn Mower Co., Dixon, Ill.

METAL DESIGNS.

Metal signs, send for prices. A. Herrmann, 404-12 E. 34th St., New York.

MISCELLANEOUS.

Florists' overdue accounts and bad debts collected by the National Florists' Board of Trade, 56 Pine St., N. Y.

Engravings, best engravings and illustrations of every description for catalogues. Send for estimates. Globe Eng. & Elec. Co., 427 Dearborn St., Chicago.

Printing, large runs of catalogues a specialty. Write for figures. Regan Printing House, 89-91 Plymouth Place, Chicago.

PAINT, PUTTY, ETC.

Paint, Ideal Greenhouse Lead; Special Greenhouse Putty. Lord & Burnham Co., 1133 Broadway, N. Y.

Paint, Putty, etc. H. M. Hooker Co., 59 W. Randolph St., Chicago.

Paint, Putty, etc. The Jas. H. Rice Co., 80-82 Wabash Ave., Chicago.

PIPE, FITTINGS, ETC.

Pipe, iron fittings, etc., galvanized iron sash hinges, screw eyes, screw hooks, U bolts, galvanized iron buckles and wires. Fittings for purlin and ridge supports. Foley Mfg. Co., 471 W. 22d St., Chicago.

Iron Fittings, patent iron bench fittings and roof supporters. Diller, Caskey & Co., 6th and Berk Sts., Philadelphia.

Pipes, valves, fittings of all kinds. Chicago House Wrecking Co., 35th and Iron Sts., Chicago.

A Bargain, 4-in. cast iron pipes, 5 foot lengths at 12c per foot. C. C. Pollworth Co., Milwaukee.

Iron Fittings, etc.; send for prices. Lockland Lumber Co., Lockland, O.

POTS, PANS, ETC.

Pots, standard flower, 1½-in., $2.77 per 1,000; 2-in., $3.33; 2½-in., $3.88; 3-in., $5.27; 3½-in., $6.10; 4-in., $7.77; 4½-in., $10; 5-in., $13.60; 6-in., $22.20; 7-in., $4 per 100; 8-in., $6; 9-in., $8.88; 10-in., $13.33; 12-in., $22.22; 14-in., $38.88; 16-in., $66.66; 20-in., $1.25 each. Azalea pots and bulb pans same price. 2x2½-in rose pots, $3.50 per 1,000. A. F. Kohr, 1521 N. Leavitt St., Chicago.

Pots, standard, seed pans, cut flower cylinders, hanging baskets, lawn vases, etc. Hilfinger Bros. Pottery, Ft. Edward, N. Y.

Pots, standard flower pots. The Whildin Pottery Co., Philadelphia, Pa.; Jersey City, N. J.; Long Island City, N. Y.

Pots, before buying write for prices. Geo. Keller & Son, 361-63 Herndon St., near Wrightwood Ave., Chicago.

RAFFIA.

Raffia, samples free if you mention the American Florist. Large assortment of colors. R. H. Comey Co., Camden, N. J., 810-24 Washburn Ave., Chicago.

SUPPLIES.

Red Bells, bright color tissue paper, 6-in., best seller, 60c per doz.; gross, $5. Other sizes in proportion. We have the goods. Write us. Barteldes Seed Co., Denver, Col.

Supplies, wire designs. Pittsburg Florists' Ex., 228 Diamond St., Pittsburg, Pa.

Supplies, flower baskets, novelties. Riessner Bros., Lichtenfels, Bavaria.

THE EXHIBITIONS.

Horticultural Society of Chicago.

CONTINUED FROM LAST WEEK.

The fourth day of the show was largely devoted to private gardeners, and the interesting nature of the exhibits brought out by this competition should insure even greater encouragement to the private men another year. The foliage plants were very good indeed. Ficus Parcelli is fine, the plant being in fruit; the leaves are soft green distinctly splashed with white. Sanchezia nobilis variegata has large green leaves striped with yellow. Both are fine plants, included in J. J. Mitchell's first prize lot of five. Dracæna Goldei is distinct, the glossy green leaves barred with white, and this plant won for Martin A. Ryerson.

Polypodium goniophlebium subauriculatum is a very cumbersome name, but it is a fine plant, the long drooping fronds attaining a length of five to six feet; this was from E. J. Uihlein. Several fine crotons were also shown. Fine American Beauty roses, very effectively arranged, came from three competitors; the second prize lot, in an upright pedestal-like basket, from C. Frauenfelder, being exquisite.

Among the sports and seedling carnations Red Chief shown by F. Dorner & Sons Co., Lafayette, Ind., takes a foremost place. The color is clear red, the blooms standing well, and it should be heard of in the near future. Winsor, shown by the F. R. Pierson Co., Tarrytown, N. Y., is a gem. The color is quite distinct, a lovely flesh pink, not unlike the old Grace Wilder in this respect. Valentine, from the Chicago Carnation Co., is very fine, with a smooth edge to the petals, and lighter in color than rose pink Enchantress. Seedling 49 from the same firm is also good. A rule compelling exhibitors to name all varieties coming before the judges would be an advantage, and the judges should also be empowered to throw out all sorts that are not an improvement on existing kinds; or if they have the power they should use it. Certainly some of the kinds entered and awarded prizes were not improvements. It is not our province or wish to criticise unduly the judges' awards, but the ridiculous standard set for judging exhibition kinds should be altered. There are 35 points given for size and 15 for depth, out of 100, while color counts only ten. Surely comment on this is not needed. Why was that lovely seedling No. 26 from the F. Dorner & Sons Co. left out? The winning variety was certainly fine, but there is a distinction about the unplaced one that appeals to all lovers of a beautiful flower. The color is a lovely chrome yellow shading to a lighter tint, and possibly it is unique in this respect. It is a fine globular flower and no doubt will win out in the near future. Alice Roosevelt, from the E. G. Hill Co. is a large and very solid white flower, perfectly incurved and apparently as hard as a ball. Detroyat, from the E. G. Hill Co., is an immense pink flower not unlike the old Etoile de Lyon, but more refined than this old sort.

The premiums offered on Saturday for floral devices called forth a fine display of original and striking designs, which were in every way a credit to our local retailers. Perhaps the most interesting of all were the devices for carrying in a bridal party, outside of the regulation bouquets. In the first prize exhibit from the F. E. Butler Floral Co., Old Colony building, Chicago, a muff decorated with lily of the valley and white orchids, and a straw hat trimmed with Killarney roses were the selected objects, and they were beautifully treated. The second prize exhibit consisted of three baskets, the largest having Killarney roses, the others pink sweet peas and lily of the valley, respectively. In every case the blending of the colors of the flowers and ribbons was exquisite. The same excellent taste was exhibited in the arrangement of the baskets of roses, Liberty being the selected variety in the first prize basket, and Killarney in the second. The baskets of carnations and chrysanthemums, in their respective classes, were of fine design, red and pink being used in the first and second prize designs of the former flowers, yellow and white in the latter.

Peter Reinberg well deserved the premium awarded his exhibit as the best tended display throughout the

show, for the blooms in every case were fresh and beautiful to the last. John N. May's choice exhibit of pompon and other chrysanthemums was also interesting right along, especially the large number of outdoor grown varieties.

Friday's Awards.

Best five geraniums in not over 10-inch pots.—First, A. Strude (Robert Mueller, gardener), Chicago; second, Martin A. Ryerson (John Reardon, gardener), Chicago.

Best palm.—First, E. G. Uihlein (H. Skigoldeger, gardener), Chicago; second, J. J. Mitchell (Geo. Woodward, gardener).

Best croton.—First, Martin A. Ryerson; second, J. J. Mitchell.

Best dracæna.—First, Martin A. Ryerson; second, E. G. Uihlein.

Best pandanus.—First, Martin A. Ryerson; second, J. J. Mitchell.

Best decorative plant other than above.—First, J. J. Mitchell; second, Martin A. Ryerson.

Best Boston fern or sport.—First, J. J. Mitchell.

Best five foliage plants.—First, J. J. Mitchell; second, E. G. Uihlein.

Best grafted specimen plant.—First, J. J. Mitchell; second, A. S. Trude.

Best new or rare plant.—First, J. J. Mitchell; second, E. G. Uihlein.

Best 12 ferns.—First, J. J. Mitchell; second, E. G. Uihlein.

CHRYSANTHEMUMS.

Best 12 blooms yellow.—First, E. M. Barton, Hinsdale, Ill.; second, J. J. Mitchell.

Best 12 blooms pink.—First, J. J. Mitchell; second, E. M. Barton.

Best 12 blooms any other color.—First, E. M. Barton.

Prizes for chrysanthemums, seedlings, sports and undistributed importations, to be shown on 18-inch stems:

Best six blooms yellow, not darker than Major Bonnaffon.—First, E. G. Hill Co.

Best six blooms white.—First, E. G. Hill Co.

Best six blooms pink, lighter than Viviand Morel.—First, E. G. Hill Co.

Best six blooms, not lighter than Viviand Morel.—First, E. G. Hill Co.

Best six blooms any other color.—First, E. G. Hill Co.

Best 100 American Beauty roses arranged for effect.—First, C. A. Samuelson, Chicago; second, C. Frauenfelder, Chicago; third, Eaton's Flower Shop, Chicago.

CARNATIONS, SEEDLINGS AND SPORTS.

Best 20 blooms red.—First, Chicago Carnation Co., Joliet, Ill.

Best 20 blooms Daybreak class.—First, Chicago Carnation Co.

Best 20 blooms Scott class.—First, F. R. Pierson Co., Tarrytown, N. Y.

Best 20 blooms Lawson class.—First, B. K. & B. Floral Co., Richmond, Ind.

Sweepstakes, best seedling chrysanthemums entered in above five classes.—First, E. G. Hill Co.

AT THE CHICAGO SHOW.

The Chicago Carnation Co's vase of White Perfection carnation.

Saturday's Awards.

Best basket of roses.—First, C. Frauenfelder & Co.; second, the Butler Floral Co.

Best basket of carnations.—First, the Eaton Flower Shop; second, C. A. Samuelson.

Best basket of chrysanthemums, no bloom to exceed three inches in diameter.—First, C. A. Samuelson; second, Anton Then.

Best arrangement for bridal party other than bouquet; suitable for carrying.—First, F. E. Butler Floral Co.; second, C. A. Samuelson.

Premium offered by Benj. Hammond for the exhibit presenting the best appearance throughout the run of the show.—First, Peter Reinberg; second, John N. May, Summit, N. J.

Special Awards.

Highly Commended: Poter Nurseries, Swain, Nelson Sons & Co., Ltd., Vaughan's Seed Store and Hill's Dundee nursery; for nursery stock.

Honorable mention: W. J. Smyth, Chas. A. Samuelson, Schiller, Kidwell, Wienhoeber, Ganger & Gormley, Hobbs & Co., Simmons, Frauenfelder, A. Lange, McAdams, Central Floral Co., and Eaton's Flower shop for booths; Robert Craig Co., Philadelphia, Pa., for exhibit of foliage plants; Foley Mnfg. Co. and John Moninger Co., for model greenhouses; J. J. Mitchell, for seedling chrysanthemum.

First prize: Ernest Oechslin, Oak Park, Ill., for cyclamens; prize $15, J. Rosenwald for Thuya obtusa.

First class certificates: H. H. Barrows & Son, Whitman, Mass., for Nephrolepis Whitmani; Chas. H. Totty, Madison, N. J., for new single seedling chrysanthemum.

The Lectures.

The lecture feature with stereopticon views proved very popular. The programme included the following: "Making our Homes Attractive," by E. G. Routzahn, secretary Bureau of Civic Co-Operation, Chicago; "Park Utility," by C. B. Whitnall, Milwaukee, Wis.;

AT THE CHICAGO SHOW.

Floral booth of Chas. A. Samuelson, Chicago.

AT THE CHICAGO FLOWER SHOW BANQUET.
Auditorium hotel, November 8, 1906.

"Ornamental Gardening," by J. C. Blair, professor of horticulture, University of Illinois; "Welfare Work," by National Cash Register Co.; "School Gardening for Children," by Miss Susan B. Sipe; "Practical Home Ground Planting," by Frederic Cranefield, secretary State Horticultural Society, Madison, Wis.

Carnations at the Chicago Show.

I was much impressed with the display of carnations at the Chicago show. Many of the exhibits would have done credit to a February show. Perhaps the most sensational variety in the show was White Perfection. This variety is certainly rightly named for it is as near perfection in a white carnation as seems possible or reasonable to expect at present, and in all probability it will be many years before it will be outclassed. Judging from the reports it has made the same first class showing in all parts of the country where it has been tried. A well known grower remarked that it was no use to put up any other variety against White Perfection. I believe that it will hold the same place among whites that Lawson and Enchantress have held among the pink varieties.

Perhaps the varieties that next received the most favorable comment were Aristocrat and Winsor. The former is a dark or cerise pink of perfect form on long stems. Winsor is a very pleasing and beautiful shade of light pink, quite distinct. The keeping qualities of this carnation are truly wonderful. It shows much of the Lawson type and I and told, by people not financially interested, that it is a very free and healthy variety.

There were more entries of Enchantress than any other variety and there was not a poor vase in the whole lot. It was so close between the first and second that the judges were fully 30 minutes deciding and then they said that there was less than a point's difference between the two. Rose Pink Enchantress looked well and many people think that it will be as popular as the light variety in a few years. White Lawson as shown by Anton Then was grand for November and proved that when well grown it is hard to beat. Gov. Wolcott, as shown by Poehlmann Bros., were also extra fine.

Seedlings were not shown very extensively. The writer noticed a few that looked good but it is not very safe to judge a seedling without seeing it growing. A pink variety of the Lawson type from the B. K. and B. Floral Co., and a light pink about the same color as Rose Pink Enchantress, named J. A. Valentine, from the Chicago Carnation Co., looked very promising.

To sum it all up it is my opinion that the two new varieties of last year, Rose Pink Enchantress and White Perfection, have come to stay and that the demand for them will be greater than the supply; that Pink Lawson is still the best dark pink, and Enchantress the best light pink variety. Among the reds it is hard to choose between Robert Craig, Victory and Cardinal.

W. W. COLES.

NOTES.

The Hartshorne benefit booth netted $572.41. Much credit is due to W. P. Kyle for his persistent attention to this laudable work, and the heartiest thanks of the trade are due to Orr & Lockett, Chicago hardware merchants, for placing at the disposal of the committee a $400 ice box specially made for the occasion.

Reinberg's table of cut roses in variety, distinctly labeled, was one of the most attractive features of the show to the general public. A similar table of carnations in variety, well maintained throughout the week, would have proved equally popular.

Manager Asmus had the week of his life so far as work is concerned and he was badly handicapped toward the close by a bad foot, but he kept the ball rolling swiftly until the big hall was completely cleared.

One of the flower show managers instructed visitors how to make their back yards beautiful at a slight cost. Just as though we did not know enough to write to our congressman for seeds.—Chicago Daily News.

The American Rose Society did not lose anything in being represented by such men as Alex. Montgomery, John Burton, John N. May and Wm. H. Elliott.

The committee on privileges cleaned up almost $500, an excellent showing under the circumstances.

Fifteen thousand yards of laurel wreathing were used in decorating the hall.

Additional Visitors.

Out-of-town visitors continued to come all through the show, including Sunday, the closing day:

Arthur Bather, Minneapolis, Minn.
Ed. Bergstrom, Momence, Ill.
I. G. Bishop, Pontiac, Mich.
Harriett Carmichael, Kankakee, Ill.
Jas. Chacona, Milwaukee, Wis.
Frederick Cranefield, Madison, Wis.
J. W. Davis, Morrison, Ill.
Theo. A. and Miss Emily Dorner, LaFayette, Ind.
Miss H. B. Dudley, Galesburg, Ill.
H. A. Dubois, Danville, Ill.
Miss Julia Ecco, Minneapolis, Minn.
Miss Eckhart, Minneapolis, Minn.
Miss Ruth and Miss C. B. Flick, Fort Wayne, Ind.
Gust Frederickson, St. Joseph, Mich.
Perle B. Fulmer, Des Moines, Ia.
John Gipman, Niles, Mich.
Alex. J. Gutman, New York.
W. A. Hartman, South Haven, Mich.
A. M. Hills, Columbus, O.
Simon Hunfield and wife, Muncie, Ind.
Geo. W. Jack, Springfield, Ill.
Miss Leah Jennings, Galesburg, Ill.
P. N. Kapsalis, Milwaukee, Wis.
W. L. Kring and wife, Fairbury, Ill.
Oswald Milag, South Bend, Ind.
Mrs. E. Miller, Milwaukee, Wis.
Andre Nylof, Minneapolis, Minn.
John Nylof, Minneapolis, Minn.
I. G. Panos, Minneapolis, Minn.
Mrs. Chas. W. Pike, Racine, Wis.
Francis Robinson, Grand Rapids, Mich.
J. J. Salmon, Akron, O.
James Souden, Minneapolis, Minn.
Jerome K. Stock, Detroit, Mich.
Mrs. August S. Swanson, St. Paul, Minn.
Mrs. Wm. Swinbank, Sycamore, Ill.
L. R. Taft, Agricultural College, Mich.
J. F. Walstrum, Kalamazoo, Mich.
R. H. Wells, Kalamazoo, Mich.
Otto Will, Minneapolis, Minn.
G. Winburn, Milwaukee, Wis.
Violet S. With, Milwaukee, Wis.
Mrs. Wood, South Bend, Ind.

Pennsylvania Horticultural Society.

CONTINUED FROM LAST WEEK.

The displays of roses and carnations were not quite up to expectations. The quality was there but the entries were very meager. In the professional class Alfred Burton was easily first in the American Beauty contest with a vase of 50 magnificent blooms.

Wm. Kleinheinz was first in the amateur and private gardener class with 12 choice blooms, which were nearly, if not quite, up to the others.

Wm. Leonard, of Lansdowne, exhibited his seedling rose, not yet named. This is a very fine variety. In appearance it is not unlike La France, having the reflex petals of this old favorite. It is considerably darker in color, however, and seems a robust grower, the stems strong and the foliage large and dark green in color. It is the result first of a cross between American Beauty and Kaiserin, and this seedling crossed with Liberty. Mr. Leonard has given a house up to this variety and says it is a very free and continuous bloomer.

The carnation collection was very choice, what there was of it, there being some vases of Robert Craig, Lawson and Enchantress that were very fine. John E. Haines staged his new sport, Pink Imperial, a very large flower with good stem and almost the exact color of Lawson. He claims it to be just as free as this famous sort and a splendid grower that will do anywhere. If this is the case, he has a very valuable acquisition and it will soon be found in every collection. The F. R. Pierson Co., Tarrytown, exhibited Winsor, the new pink.

Coccoloba pubescens exhibited by the Wm. Graham Co. attracted considerable attention on account of its oddity. The specimen stood four feet high with leaves 15 to 18 inches in diameter about one foot apart. These were almost round and partially encircled the main stem of the plant, having no leafstalk.

Wm. Batchelor had two entries of merit. One was the new Asparagus Ducheri, a small plant of which was exhibited for the first time last year by the H. A. Dreer Co., who are the introducers to this country. Its native habitat is the Belgian Congo. It has all the earmarks of a commercial plant, its long tasseled leaves being ideal for decorative work. The other novelty was a seedling coleus, having a light yellow center with a broad dark green border. This is a very distinct and striking sort and will no doubt make a fine addition to the list of varieties for bedding out.

K.

The American Institute of New York.

The seventy-fifth annual fair of the American Institute of the City of New York was held in the Institute's quarters in the Berkeley Lyceum building, November 7-9. The large shows of previous seasons were somewhat accentuated in the minds of regular patrons by this season's affair, which was the opposite extreme in point of area and number of exhibits. Decorative and foliage exhibits were conspicuous by their almost entire absence, a few specimen plants here and there being all in this line to be seen. Nevertheless, the show was very creditable, and the stagings excellent. Chrysanthemums naturally formed the bulk of the exhibition. Charles H. Totty of Madison, N. J., made a fine showing of chrysanthemum novelties. He staged, among others, Mrs. Henry Barnes, a beautiful new pink; Buttercup, a yellow of considerable promise; M. M. De Moris, a beautiful new white; Geo. Lawrence, a new yellow possessing excellent commercial possibilities; Winter Cheer, a fine incurved pink, which was much admired; Mrs. Geo. Hunt, an excellent white; and Prest. Viger, a deep pink with yellow on reverse of petals. Mr. Totty also showed White Duckham, probably his best commercial new variety. In the section for bush plants Peter Duff of Orange, N. J., carried off the honors. There was a fair showing in the carnation section. The Cottage Gardens Co., of Queens, showed Alma Ward, their beautiful new white, in excellent shape. They also showed Mrs. C. W. Ward, Mrs. Tom Harvey, Beacon, Lieutenant Peary, and Robert Craig to advantage. The F. R. Pierson Co., Tarrytown, N. Y., showed a grand vase of Winsor, their new pink. There was a fairly good staging of roses, but for lack of room they were very poorly displayed. L. A. Noe of Madison, N. J., scored well in the prize list.

Lager & Hurrell, Summit, N. J., made a nice display of orchids in flower, but want of space prevented them from making a display in keeping with their resources. In their grouping were some excellent Cattleya labiata, cypripediums and phaleonopsis.

Among the awards were the following:

CHRYSANTHEMUMS.

Fifty blooms, one variety.—Ernest Ashley, Allentown, Pa., first; E. G. Hill Co., Richmond, Ind., second.

Thirty varieties, one bloom of each, 10-inch stems.—John J. McNicoll, Glen Cove, L. I., first; Wm. Turner, Oceanic, N. J., second.

Twenty varieties, one bloom of each.—Alex MacKenzie, first; J. J. McNicoll, second.

Ten varieties, one bloom of each.—Wm. Turner, first; Alex MacKenzie, second.

Ten blooms, any white variety.—Wm. Hastings, first; N. Butterbach, second.

Ten blooms, any pink variety.—Wm. Hastings, second.

Ten blooms, any yellow variety.—Wm. Turner, first; Alex MacKenzie, second.

Ten blooms, any bronze variety.—Alex MacKenzie, first; Thos. Atchison, second.

AT THE CHICAGO SHOW.

Display of pompons from the E. G. Hill Co., Richmond, Ind.

THE H. A. DREER CO.'S COLLECTION OF NEW AND RARE PLANTS AT THE PHILADELPHIA SHOW.

Six blooms, any crimson variety.—Wm. Turner, first.

Ten blooms, each different variety.—R. Vince, Morristown, N. J., first; J. S. Howarth, Yonkers, N. Y., second.

Eighteen blooms, in six varieties.—Wm. Turner, first; J. J. McNicoll, second.

Six blooms, white, any new variety.—C. H. Totty, Madison, N. J., first.

Six blooms, pink, any new variety.—George Hale, first.

Six blooms, any white variety.—Wm. Turner, first; George Hale, second.

Six blooms, any yellow variety.—Wm. Turner, first.

Six blooms, white, incurved.—Wm. Turner, first; Alex MacKenzie, second.

Six blooms, pink, incurved.—Wm. Turner, first; C. H. Totty, second.

Six blooms, yellow, reflexed.—J. J. McNicoll, first; Wm. Hastings, second.

Five blooms, any variety in commerce.—George Hale, first.

Six blooms, anemone, bronze.—J. J. McNicoll, first.

Six blooms, anemone, pink.—J. J. McNicoll, first.

Six blooms, anemone, white.—N. Butterbach, first.

Collection of hardy chrysanthemums.—Thos. Meehan & Sons, Philadelphia, special prize.

Collection of pompons.—John N. May, Summit, N. J., first; Oscar Carlson, Fairfield, Conn., second.

Vase of single chrysanthemums.—C. H. Totty, first; R. Vince, second.

Specimen bush plant, white.—Peter Duff, Orange, N. J., first; J. J. McNicoll, second.

Specimen bush plant, yellow.—Peter Duff, first; J. J. McNicoll, second.

Specimen bush, pink.—Peter Duff, first; J. J. McNicoll, second.

Twelve bush plants, as grown for market, in pots. Alex Mackenzie first.

Specimen standard, yellow. — Peter Duff, first.

Specimen, standard, white. — Peter Duff, first.

CARNATIONS.

Three varieties, 25 of each. — R. Vince, first; G. T. Schuneman, Baldwin, L. I., second.

The varieties Alma Ward, Mrs. C. W. Ward, Mrs. Tom Harvey and Beacon, exhibited by the Cottage Gardens Co., were awarded certificates.

VIOLETS.

100 blooms, single.—R. Vince, first.

100 blooms, double.—Geo. T. Schuneman, first.

ROSES.

Vase, 12 blooms American Beauty.—L. A. Noe, Madison, N. J., first.

Vase, 25 blooms, tea scented, J. N. May with Wellesley.

L. A. Noe also won chief honors in the other classes for pink, white, red and yellow tea scented roses. R. Vince also gained a first for yellow, and N. Butterback a close second on pink.

Hardy varieties, display.—First, Mrs. Percy G. Forbes.

Six ferns.—First, H. F. A. Lange; second, Henry Littlefield; third, Edward W. Breed; fourth, Hugo Book.

Eight decorative plants.—First, Edward W. Breed; second, Hugo Book; third, Allyne W. Hixon.

Gratituities. — Hanging ferns, Edward W. Breed; single chrysanthemums, Mrs. L. P. Kinnicutt, Misses Crompton, Mrs. Percy G. Forbes; seedling, Misses Crompton, fernery, A. Van Leeuwan; globes, Henry F. Littlefield; roses and violets, Henry F. Littlefield; roses, H. F. A. Lange; roses and carnations, Worcester Conservatories; chrysanthemums, Mrs. E. M. Gill, Mrs. J. C. Whitin; decorative plants, H. F. A. Lange; boys' bamboos and chrysanthemums, H. F. A. Lange; plants, Allyne W. Hixon.

Ontario Horticultural Association.

The third annual exhibition of the Ontario Horticultural Association, held at Toronto, November 6-10, was by far the most successful ever held in this city, both from point of attendance and for display of bloom and general arrangement. Though predicted that it was too early for the best blooms the flowers in the cut bloom section were considerably better than last year, as many as eight competing in some classes. The Black Dyke band of England at a cost of $2,000 gave nine concerts which no doubt were responsible for the splendid attendance. In the rose section the prizes were keenly contested for and the quality of the blooms shown was excellent. At the closing of the show a vase each of American Beauty and Killarney roses shown by J. H. Dunlop were in much better condition than when first entered. In the carnation section the entries were not so numerous as in other years, although the quality was of the best. The F. R. Pierson Co., of Tarrytown, showed a splendid vase of their Winsor, which was much admired. Lager & Hurrell, Summit, N. J., made a nice display of orchids. Chrysanthemum plants in the large specimen classes were not as numerous as would have been the case had the show been later in the season. The judges were: Chrysanthemums and plants, J. Wilshire, Montreal, Que.; roses, carnations and made-up work, E. Mepstead, Ottawa, Ont.

Visitors came from all parts, among whom were T. McKenna, Joseph Bennett, T. McHugh, Montreal, Que.; J. R. Fotheringham, of the F. R. Pierson Co., Tarrytown, N. Y.; Geo. Stuck, of Lager & Hurrell, Summit, N. J.; R. Cameron, Niagara Falls, Ont.; A. E. Ewing, Woodstock, Ont.; C. Scrim, Ottawa, Ont.; L. L. Van, Barrie, Ont.; R. Jennings, Brampton, Ont.; A. G. Johnston, Kingston, Ont.; A. Zirkman, of Rice & Co., Philadelphia, Pa.; T. W. Duggan, W. A. Algie and a delegation of 81 employes of the Dale Estate, Brampton, Ont.

The following are the awards:

Chrysanthemums, one specimen.—Allen Gardens, first.

One standard.—Allen Gardens, first; H. H. Fudger, second; Exhibition park, third.

Three specimens. — Allen Gardens, first; Exhibition park, second.

Specimens in 10-inch pots.—Allen Gardens, first.

Specimens, yellow, in 10-inch pots.—Allen Gardens, first.

Twelve single stems in 6-inch pots.—Allen Gardens, first; H. H. Fudger, second.

Twelve single stems, 8 varieties.—D. Robertson, first; Allen Gardens, second.

Specimen palms, 4 varieties.—Exhibition park, first; Allen Gardens, second.

Fifty ferns, 8 varieties, 3-inch pots.—T. Manton, first; Wm. Jay, second.

Six specimen ferns.—Sir Henry Pellatt, first; Exhibition park, second.

Orchids in flower.—H. Dale Estate, first; Exhibition park, second; Allen Gardens, third.

Six cyclamen in bloom.—Wm. Jay, first.

Twelve primulas in bloom.—H. H. Fudger, first.

Six pots of callas in bloom.—Sir Henry Pellatt, first; Wm. Jay, second; Allen Gardens, third.

Six begonias.—D. Robertson, first; Sir Henry Pellatt, second; Wm. Jay, third.

Twelve table plants in 6-inch pots.—T. Manton, first; Sir Henry Pellatt, second; Exhibition park, third; Allen Gardens, fourth.

Group of plants arranged for effect, Hallam Cup.—Exhibition park, first; Allen Gardens, second; Sir Henry Pellatt, third; T. Manton, fourth.

Display of orchids.—H. Dale Estate, first; Exhibition park, second; T. Manton, third; Allen Gardens, fourth.

Decorated dinner table, to seat eight, laid complete.—J. S. Simmons, first; A. Jennings, second; T. Manton, third.

Twenty-five cut chrysanthemums, distinct varieties.—D. Robertson, cup; H. Dale Estate, second; J. H. Dunlop, third; R. Cameron, Niagara Falls, fourth.

Twelve distinct varieties, Hallam cup.—T. McHugh takes the Hallam challenge cup and also Score's special prize for the largest bloom in the exhibition, 22½ inches; Sir Henry Pellatt, second; H. Dale Estate, third; J. H. Dunlop, fourth.

Twenty-five T. Eaton.—R. Jennings, Brampton, takes the Eaton cup.

Twenty-five Dr. Oronhyatekha cup.—R. Jennings.

Twenty-five, any variety.—Sir Henry Pellatt, first; D. Robertson, second; H. Dale Estate, third; J. H. Dunlop, fourth.

Vase of 50 roses, American Beauty excluded.—Bedford Park Floral Co., first; J. H. Dunlop, second; H. Dale Estate, third.

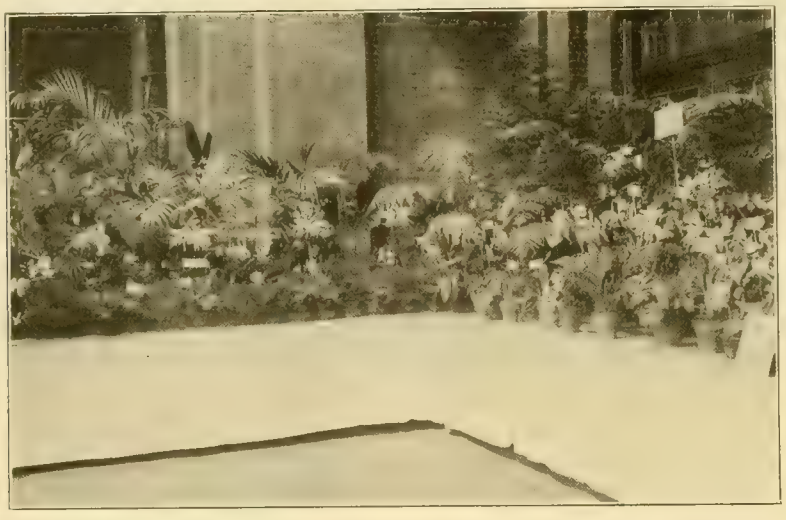
Cut violets.—H. Dale Estate, first; Carlton & Marx, Lampton Mills, second.

Bunch 50 single violets.—H. Dale Estate, first; Carlton & Marx, second; R. Jennings, third.

Best standing funeral design.—J. H. Dunlop, first; T. Manton, second; J. S. Simmons, third.

Basket of chrysanthemums.—J. S. Simmons, first; J. H. Dunlop, second.

Basket any flowers.—J. H. Dunlop,



GROUPS OF ORCHIDS AND FOLIAGE PLANTS AT BOSTON, MASS.

Exhibited by Mrs. J. L. Gardner and the Julius Roehrs Co.

Twelve, any variety.—H. Dale Estate, first; R. Cameron, second; Steele Briggs Co., third; North Toronto Floral Co., fourth.

Six distinct varieties, never before exhibited in Ontario.—T. McHugh, first; H. H. Fudger, second; H. Dale Estate, third; J. H. Dunlop, fourth.

Six white.—Steele, Briggs Co., first; H. Dale Estate, second; R. Jennings, third; Sir Henry Pellatt, fourth.

Six pink. — D. Robertson, first; H. Dale Estate, second; R. Jennings, third; Steele, Briggs Co., fourth.

Six yellow.—H. Dale Estate, first; R. Jennings, second; Sir Henry Pellatt, third; J. D. Manton, fourth.

Six crimson.—H. Dale Estate, first; Steele, Briggs Co., second; R. Jennings, third; H. H. Fudger, fourth.

Twenty-five white carnations, named.—H. Dale Estate, first; R. Jennings, second.

Twenty-five red, named.—H. Dale Estate, first; J. D. Manton, second.

Twenty-five light pink.—H. Dale Estate, first; R. Jennings, second; George Allan, Toronto Junction, third.

Twenty-five dark pink.—H. Dale Estate, first; George Allan, second.

Twenty-five crimson,—H. Dale Estate, first.

Twenty-five variegated.—H. Dale Estate, first.

Fifty, any variety, arranged loosely in vase.—H. Dale Estate, first.

Fifty, any variety, with any foliage.—H. Dale Estate, first; G. D. Manton, second; Sir Henry Pellatt, third.

Ten cut roses, yellow.—H. Dale Estate, first; J. H. Dunlop, second.

Ten white.—Toronto Floral Co., first; H. Dale Estate, second; J. H. Dunlop, third.

Ten pink.—H. Dale Estate, first; Bedford Park Floral Co., second; J. H. Dunlop, third.

Ten crimson.—H. Dale Estate, first; J. H. Dunlop, second.

Ten light pink.—J. H. Dunlop, first; H. Dale Estate, second; Bedford Park Floral Co., third.

Ten, any other color.—H. Dale Estate, first; Toronto Floral Co., second.

Ten American Beauty roses.—J. H. Dunlop, first; H. Dale Estate, second; George Allan, third.

Twenty-five American Beauty roses.—H. Dale Estate, first; J. H. Dunlop, second; J. D. Manton, third.

first; J. S. Simmons, second.

Table center piece of chrysanthemums.—J. H. Dunlop, first; J. D. Manton, second; J. S. Simmons, third.

Hand bouquet.—J. S. Simmons, first; J. H. Dunlop, second; T. Manton, third.

H. G. D.

Lake Geneva Gardeners.

The Lake Geneva Gardeners' and Foremens' Association held its second annual flower show in Loncs opera house at Lake Geneva, Wis., November 9 and 10. The show was formally opened by Chas. L. Hutchinson in a very appropriate address. The hall decoration was made of oak leaves and evergreens very tastefully arranged. The flowers and plants were well grown, far superior to those of last year and the competition was keen all around. The people of Lake Geneva showed their appreciation by turning out very liberally and the exhibition hall was crowded all the time by admirers of the autumn beauties. Following is the premium list:

CUT CHRYSANTHEMUMS.

Best six blooms, white, one variety,—Frank Keuhne, gardener to O. W. Potter, first; Ed. Sundgren, gardener to K. Fairbank, second; Albert Reupke, gardener to H. C. Lytton, third.

Best six blooms, yellow, one variety.—Axel Johnson, gardener to R. T. Crane, first; William Wahlstedt, gardener to Geo. Sturgis, second; Frank Keuhne, third.

Best six blooms, pink.—A. J. Smith, gardener to J. J. Mitchell, first; Raymond Niles, gardener to W. S. McCrea, second; Albert Reupke, third.

Best six blooms, red.—Axel Johnson, second.

Best six blooms, any color.—A. J. Smith, first; Frank Keuhne, second; Axel Johnson, third.

Best 25 blooms, mixed.—A. J. Smith, first.

Best six blooms Major Bonnaffon, yellow.—A. J. Smith, first; Frank Keuhne, second.

Best six blooms, Timothy Eaton.—Button Bros., first; Frank Keuhne, second.

Best six blooms Enguehard.—Frank Keuhne, first; Button Bros., second.

Best six blooms of Shrimpton.—Frank Keuhne, first.

Best six blooms, Appleton.—Wm. Wahlstedt, first; Frank Keuhne, second; Button Bros., third.

Best six blooms Queen. — Button Bros., first; Axel Johnson, second.

Best six blooms Viviand Morel.—Frank Keuhne, first; Axel Johnson, second; Albert Reupke, third.

Best six blooms Robinson.—Axel Johnson, first.

Best six blooms Richardson.—Wm. Wahlstedt, first.

Best collection blooms.—Axel Johnson, first.

Best six sprays white, one variety.—Frank Keuhne, first; Wm. Longland, gardener to C. L. Hutchinson, second.

Best six sprays pompon, yellow, one variety.—Frank Keuhne, first; Wm. Longland, second; Axel Johnson, third.

Best six sprays pompon, pink,—Wm. Longland, first; Frank Keuhne, second.

Best six sprays pompon, red.—Wm. Longland, first; Frank Keuhne, second.

MORRIS COUNTY GARDENERS' AND FLORISTS' SOCIETY, MADISON, N. J.

Partial view of floor from gallery, showing center group at flower show.

Best collection sprays pompon.—Wm. Longland, first; Frank Keuhne, second.

Best six sprays anemone, white.—Axel Johnson, first; Wm. Longland, second; Frank Keuhne, third; Albert Reupke, special.

Best six sprays anemone, yellow.—Wm. Longland, first.

Best six sprays, anemone, pink.—Frank Keuhne, first; Wm. Longland, second.

Best six sprays anemone, red.—Wm. Longland, first; Frank Keuhne, second.

Best pompon, yellow.—Wm. Longland.

Best anemone, yellow.—Wm. Longland.

Best anemone, pink.—Wm. Longland.

Best anemone, white.—Wm. Longland.

Best anemone, red—Wm. Longland.

Best group of anemones, 50 square feet limit.—Wm. Longland.

Best group pompons, 50 square feet limit.—Wm. Longland, first; Wm. Wahlstedt, second.

CHRYSANTHEMUM DR. ENGUEHARD AT HARRY S. HOPKINS', BINGHAMTON, N. Y.

S. B. Chapin's prize for the best group of anemones, Wm. Longland.

Mrs. W. S. McCrea's prize for the best specimen anemone, any variety, Albert Reupke.

Mrs. H. C. Lytton's prize for the best 25 carnations, A. J. Smith.

C. L. Hutchinson's prize for the best collection of cut anemones, Wm. Longland.

C. L. Hutchinson's prize for the best collection of cut pompons, Wm. Longland.

H. M. Dickenson's prize for the best 12 yellow chrysanthemums, A. J. Smith, first; Frank Kuehne, second.

The Arthur Boddington prize for the best 12 pink chrysanthemums, A. J. Smith.

The Arthur Boddington prize for the best 12 white chrysanthemums, Frank Kuehne.

New Haven Horticulturol Society.

The annual floral fete and competition of the New Haven Horticultural society opened at the new music hall November 6. The display in the various classes was of a very high standard and competition was very keen.

Among the out of town exhibitors who carried off honors were Henry Cliff, gardener to O. G. Jennings of Fairfield, Conn.; A. Bretschneider, gardener to J. Habinger; Walter Angus, gardener to Robert Scoville of Chapinville, Conn.; J. P. Lorenson, gardener to Stewart Smith, Stamford; Oscar Carlson, gardener to Mrs. O. B. Jennings, Fairfield; Edward Jenkins of Belfountaine gardens, Lenox, Mass.; J. T. Burns, gardener to Miss Bliss, New Canaan; William Slack, Stamford.

Among the special displays for exhibition only were a group of palms and cut flowers by John H. Murray, Yale botanical gardens. A splendid display including many rare plants was made by David Kydd, gardener to Mrs. Francis Wayland. Much interest was taken in the amateur class. The Elm City Nursery Co. and the Frank Platt Co. both have special exhibits at the show.

The awards of premiums were as follows:

Best group of plants and cut flowers arranged for general effect not to exceed 100 square feet floor space, open to florists only.—First, Frank Platt Co.

Best group foliage and flowering plants not to occupy over 75 feet of floor space.—First, Robert Paton; second, D. Kydd.

Best display of seeds, bulbs, tools and garden fixtures.—First, F. Platt.

Best collection of orchids.—First, Henry Cliff.

Best specimen, palm, any variety.—First, D. Kydd, Robert Paton.

Best specimen cycas.—First, Ernest Carroi; second, Paton.

Best specimen tree fern, any variety.—First, Kydd; second, Paton.

Best specimen rubber plant.—First, Carroi; second, James Bruce.

Best collection anemone.—Wm. Longland, first; Frank Keuhne, second.

ROSES.

Best 12 blooms American Beauty.—A. J. Smith, first; Axel Johnson, second.

Best 12 blooms pink, any variety.—A. J. Smith, first; Axel Johnson, second.

Best 12 blooms yellow, any variety.—Axel Johnson, first.

Best 12 blooms red, any variety.—Albert Reupke, first; Axel Johnson, second.

CARNATIONS.

Best 12 blooms white, any variety.—A. J. Smith, first.

Best 12 blooms, dark pink, any variety.—A. J. Smith, first; Axel Johnson, second; Albert Reupke, third.

Best 12 blooms, red, any variety.—Axel Johnson, first; A. J. Smith, second.

Best 12 blooms, new varieties.—Axel Johnson, first.

Best 12 spikes lily of the valley.—Frank Keuhne.

Best 50 violets.—A. J. Smith, first; Axel Johnson, second; Frank Keuhne, third. In this competition the quality of the exhibits were so nearly equal that it was a difficult matter for the judges to place the prizes.

CHRYSANTHEMUM PLANTS.

Best specimen white, any variety.—A. J. Smith.

Best specimen pink, any variety.—Frank Keuhne.

Best specimen yellow, any variety.—A. J. Smith.

Best specimen pompon, any variety.—William Longland.

Best specimen anemone, any variety.—Albert Reupke.

Best six single stem, white.—Albert Reupke.

Best six single stem, pink.—Albert Reupke.

Best 25 single stem, mixed colors.—Axel Johnson.

Best standard, any color.—A. J. Smith.

Best standard, yellow.—A. J. Smith, first; Vaughan's Seed Store, Chicago, second; Albert Reupke, third.

Best standard pink.—A. J. Smith.

Best pompons, any color.—Wm. Longland.

Best pompon, red.—Wm. Longland.

Best pompon, white.—Wm. Longland.

Best pompon, pink.—Wm. Longland.

A CORNER OF THE ORANGE, N. J., SHOW.

Best hanging basket Asparagus Sprengeri.—Albert Reupke, first; A. J. Smith, second.

Best hanging basket Boston fern.—Albert Reupke, first; A. J. Smith, second.

Best six begonias, any variety.—Albert Reupke, first.

Best six Begonia Rex.—Axel Johnson, first; Albert Reupke, second.

Best six Begonia Gloire de Lorraine.—Frank Keuhne, first.

Best six heliotrope.—Albert Reupke, special.

Best three callas.—Frank Keuhne.

SPECIAL AWARDS.

In the special prizes A. J. Smith won the sweepstakes prize for the best general display of cut chrysanthemums.

Frank Kuehne was first, Axel Johnson second, for the best general display of chrysanthemum plants.

Best specimen asparagus, any variety.—First, A. Breitschneider; second, A. J. Thomson.

Best specimen Boston fern.—First, Carroi; second, Bruce.

Best specimen Nephrolepis Piersoni.—First, Breitschneider; second, Kydd.

Best specimen adiantum.—First, Paton; second, Breitschneider.

Best three greenhouse foliage plants.—First, Kydd; second, Paton.

Best three greenhouse flowering plants.—First, A. Breitschneider.

Best six ferns, six varieties in pots or pans not over 12 inches.—First, Paton; second, Carroi.

Best specimen chrysanthemum plant in pot not over 12 inches in diameter, trained in bunch form.—First, Carroi.

Best 12 chrysanthemum plants in six varieties, one flower to each plant, to be grown in six-inch pots.—First, W. Angus.

Best six chrysanthemum plants, six varieties, one flower to each plant, to be grown in 6-inch pots.—First, W. Angus.

Best 25 chrysanthemum plants, six or more varieties, with six or more flowers on each plant, in pots not over seven inches in diameter.—First, A. J. Thomson.

Best six pompon chrysanthemum plants, distinct varieties, in pots.—First, H. Cliff.

Best collection of fruited branches of trees, shrubs and vines.—First, D. Kydd, Jr.

Most artistic basket of berries, flowers and autumn foliage, open to ladies only.—First, Mrs. Breitschneider.

CUT BLOOMS.

Best 36 blooms, six varieties, six each, 30-inch stems.—First, Edwin Jenkins, with six splendid vases of Jones, Morton F. Plant, Mary Inglis, D. V. West, F. S. Vallis and Wm. Duckham. Second, Henry Cliffe, gardener to C. G. Jennings, Fairfield, Conn. Third, Oscar Carlson, gardener to Mrs. C. B. Jennings, Fairfield, Conn.

Best 30 chrysanthemum blooms, 10 varieties, three of each.—First, Cliff; second, Kydd.

Best 24 chrysanthemum blooms, 12 varieties. Introductions of 1906 debarred from this class.—First, Cliff; second, Carlson.

Best 18 chrysanthemum blooms, 18 varieties, 15 inches of stem, one flower to a vase.—First, Jenkins; second, Carlson.

Best 12 pink chrysanthemum blooms, one variety.—First, Carlson; second, Angus.

Best 12 white chrysanthemum blooms, one variety.—First, Carlson; second, Angus.

Best 12 yellow chrysanthemum blooms, one variety.—First, Carlson; second, Angus.

Best 12 and any other color chrysanthemum blooms, one variety.—First, Cliff.

Best 12 tea-scented white roses.—First, J. P. Stevenson; second, A. J. Long.

Best 12 tea-scented pink roses.—First, A. J. Long; second, Carlson.

Best 12 tea-scented pink roses.—First, Long; second, Lorenson.

Best 12 of any other variety of roses.—First, Lorenson.

Best six American beauty roses.—First, Cliff; second, Lorenson.

Best 25 red carnations.—First; Cliff; second, Carlson.

Best 25 white carnations.—First, Carlson; second, Cliff.

Best 25 light pink carnations.—First, Carlson; second, Cliff.

Best 25 dark pink carnations.—First, Carlson; second, Cliff.

Best 25 carnations, four or more varieties, open to private gardeners only.—First, Lorenson; second, Cliff.

Best 12 carnations from a seedling not yet disseminated. Must be as good or better than standard varieties.—First, Cliff.

Best bunch of 400 violets, double variety.—First, John Sclombs; second, William Stock.

Best bunch of 50 violets, double variety, open to private gardeners and amateurs only.—First, Stock.

Best six chrysanthemum blooms, three varieties, open to amateurs only.—First, James Moore.

Dutchess County Horticultural Society.

The twelfth annual exhibition of the Dutchess County Horticultural Society opened at the state armory at Wappingers Fall, N. Y., November 6.

Among those who offered prizes were F. B. Lown, Irving Grinnell, Mrs. A. Rogers, Charles Mitchell, C. J. Reynolds, Mrs. Frances Dinsmore, Peter Henderson & Co., Horatio N. Bain, and Clarence Lown.

The following is a list of the prize winners:

Chrysanthemums in pots, best six plants.—Archibald Rogers, Hyde Park, first.

Foliage and flower plants, for the best round table of ornamental and flowering plants, arranged for effect.—Archibald Rogers, first; Wm. P. Clyde, New Hamburgh, second.

Group of ornamental foliage plants, arranged for effect.—Archibald Rogers, first.

Best group of chrysanthemums in pots.—Archibald Rogers, first.

Six decorative foliage plants.—Archibald Rogers, first; W. P. Clyde, second.

Table of decorative foliage plants.—Archibald Rogers, first; W. P. Clyde, second.

Best specimen plant asparagus.—A. Rogers, first.

Best specimen fern.—A. Rogers, first.

Best specimen begonia.—Winthrop Sergeant, Fishkill Landing, first.

Best arranged basket of chrysanthemums.—W. Sergeant, first.

Cut flowers, chrysanthemums.—Best vases of 25 yellow, W. Sergeant, first; 36 blooms, Ogden Mills, first; F. M. Vanderbilt, second; 12 blooms, white, W. Sergeant, first; Chauncey Marshall, New Hamburgh, second; 12 blooms, yellow, Wm. P. Clyde, first; 12 blooms, pink, F. W. Vanderbilt, first; C. Marshall, second; 12 blooms, any other color, F. W. Vanderbilt, first; W. P. Clyde, second; six blooms, white, Ogden Mills, first; F. W. Vanderbilt, second; six blooms, pink, O. Mills, first; W. Sergeant, second; six blooms, yellow, F. W. Vanderbilt, first; W. Sergeant, second; six blooms, crimson, C. Marshall, first; F. W. Vanderbilt, second. For vase of 25, W. Sergeant, first; Fred Heeremans, Lenox, second; 24 blooms, distinct varieties, F. W. Vanderbilt, first; W. P. Clyde, second; 12 blooms, distinct varieties, F. W. Vanderbilt, first; O. Mills, second.

Cut roses.—Twenty American Beauty, Archibald Rogers, first; O. Mills, second. Collection of roses, four varieties, F. Heeremans, first; 12 roses, pink, G. L. Haight, Staatsburgh, first; O. Mills, second; 12 roses, white, W. J. Saltford, first; John J. Riker, Portchester, second; 12 roses, crimson, O. Mills, first; J. J. Riker, second.

Carnations.—Twenty-five light pinks, F. W. Vanderbilt, first; J. J. Riker, second; 25 dark pinks, F. W. Vanderbilt, first; W. J. Saltford, second; 25 reds, W. J. Saltford, first; A. W. Williams, Highland, second; 25 variegated, W. J. Saltford, first; W. P. Clyde, second; 25 crimson, W. P. Clyde, first; A. W. Williams, second; 25 whites, W. J. Saltford, first; W. P. Clyde, second; 24 blooms, J. Riker, first; F. W. Vanderbilt, second; best seedling carnation, Adam Loub & Son, Hughsonville, certificate of merit.

Mayor Hine prize, for best 200 double blue violets.—George A. Saltford, Rhinebeck.

Charles Mitchell prize, for best 100 double blue violets.—Benjamin Willig, Poughkeepsie.

C. J. Reynolds prize, for private gardeners, 50 double blue violets.—F. W. Vanderbilt.

C. J. Reynolds prize, for best collection of hardy chrysanthemums.—A. Rogers.

The following is a list of the judges: William Turner, Oceanic, N. J.; Thos. Harrison, Glen Cove, L. I.; R. W. Allen, Hudson.

Orange, N. J.

The twelfth annual exhibition of the New Jersey Floricultural Society was held in the auditorium of the woman's club of the Oranges November 5-6, and brought out a good competition. Chrysanthemums, roses, orchids, carnations, and ornamental plants combined to form one of the most artistic displays ever made in this section. There were 20 principal exhibitors and 65 cash prizes, 18 of which were donated by patrons, amounting in all to $150.00.

The awards were as follows:

Group of chrysanthemums and foliage plants, 75 square feet.—A. Colgate (Geo. Reid, gardener), first; Wm. Runkle (D. Kindsgrab gardener), second.

Display of orchids with ferns and foliage plants for effect, 35 square feet.—Wm. Barr (A. W. Godwell gardener), first.

Single orchid in flower.—Wm. Barr, first; N. Bradley (R. Carruthers gardener), second.

Twelve chrysanthemums, four varieties, 6-inch pots.—J. Crosby Brown (Peter Duff gardener), first; A. C. Van Gassbeeck (W. Bennett gardener), second.

Six plants, single stem.—J. Crosby Brown, first; A. C. Van Gaasbeeck, second.

Bush plant.—J. Crosby Brown, first.

Flowering plant other than chrysanthemum.—J. Crosby Brown, first.

Foliage plant.—Wm. Runkle, first; Wm. Barr, second.

Specimen fern.—J. Crosby Brown, first; Wm. Runkle, second.

Cut flowers, chrysanthemums, 12 distinct varieties.—J. Crosby Brown, first; A. B. Jenkins (Geo. Von Qualen gardener), second.

Six white.—J. Crosby Brown, first; A. B. Jenkins, second.

MORRIS COUNTY GARDENERS' AND FLORISTS' SOCIETY, MADISON, N. J.

Grouping on stage of chrysanthemums and foliage plants at the flower show.

Six yellow.—Mrs. Wm. Pierson (Chas. Ashmead gardener), first; A. B. Jenkins, second.

Six pink.—Stewart Hartshorne (A. F. Coparn gardener), first.

Six bronze.—J. Crosby Brown, first; A. B. Jenkins, second.

Six crimson.—A. B. Jenkins, first.

Four varieties pompons.—John N. May, Summit, N. J., first; J. Crosby Brown, second.

The Peter Henderson prize for 12 cut roses.—A. B. Jenkins, first; J. Crosby Brown, second.

Twenty-five carnations.—A. B. Jenkins, first; S. and A. Colgate, second.

Fifty double violets.—J. Crosby Brown, first; A. B. Jenkins, second.

Fifty single violets.—J. Crosby Brown, first; Chas. Hashaway (Max Schneider gardener), second.

Chas. H. Totty's prize for six flowers of Morton F. Plant chrysanthemum.—J. Crosby Brown, first; Mrs. Wm. Pierson, second.

Artistic floral arrangement.—Hales, florist, East Orange, N. J., first; Mrs. Pierson, second.

Entries for exhibition only and certificated were as follows:

Lager and Hurrell.—A tasteful display of orchids, 15 square feet.

Chas. H. Totty.—Six magnificent blooms of the distinct variety. White Duckham, a prototype of its pink namesake.

F. R. Pierson of Tarrytown, N. Y.—Vase of carnation Winsor.

John Reimels, Woodhaven, N. Y.—Vase of carnation Winsome which have been in the possession of the secretary and now, five days after the show, are as fresh as ever.

Popkin & Collins.—Decorative group of chrysanthemums and table of pompons.

J. Hansen.—Group for artistic effect.

H. C. Potter.—Vase of Appleton seedling carnations.

Chas. Hathaway, Max Schneider, gardener.—Vase of Killarney roses.

T. A. Gillespie, George Oakley, gardener.—Vase of pompons. J. B. D.

Worcester County Horticultural Society.

The chrysanthemum exhibition of the Worcester County Horticultural Society, held in its own hall, November 8, was very artistically arranged. In the center was a large group of palms and ferns by H. F. A. Lange, the platform by Hugo Book, the center of the sides by Henry F. Littlefield and H. F. A. Lange, for which they received gratuities. At the corners of the hall were large groups of decorative plants by Edward W. Breed, Hugo Book and Allyne W. Hixon, receiving premiums in order given. In front of the platform tables with vases containing over 500 roses and carnations from the Worcester Conservatories; on the sides of the hall tables of roses from H. F. Littlefield and H. F. A. Lange. Pot plants of single chrysanthemums from Mrs. L. P. Kinnicutt and the Misses Crompton and Mrs. Percy G. Forbes, Ferneries and globes from A. Van Leeuwan and H. F. Littlefield. Suspended from the gallery were two immense nephrolepis ferns from Edward W. Breed.

The vases of large blooms were arranged on tables about eight inches high. The library was used for the special exhibition of apples for the Eames prize. This exhibition, as are all of this society, was free to the public. There was a large attendance.

PRIZE WINNERS.

Twelve blooms, named.—First, Mrs. J. C. Whitin; second, George W. Knowlton; third, Henry F. Littlefield.

Six blooms, named.—First, George W. Knowlton; second, Mrs. J. C. Whitin; third, Henry F. Littlefield.

Large vase, twenty-five blooms.—First, Mrs. J. C. Whitin; second, H. F. A. Lange; third, George W. Knowlton; fourth, Henry F. Littlefield.

Large vase, ten blooms, white.—First, Mrs. J. C. Whitin; second, George W. Knowlton; third, Henry F. Littlefield; fourth, Stonewall Farm.

Large vase, ten blooms, pink.—First, Mrs. J. C. Whitin; second, H. F. A. Lange; third, Misses Crompton; fourth, H. F. Littlefield.

Large vase, ten blooms, yellow.—First, Mrs. J. C. Whitin; second, George Knowlton; third, Henry F. Littlefield; fourth, Misses Crompton.

Large vase, six blooms, pink.—First, Mrs. J. C. Whitin; second, H. F. A. Lange; third, George W. Knowlton.

Large vase, six blooms, red.—First, George W. Knowlton; second, Mrs. J. C. Whitin; third, H. F. A. Lange.

Large vase, six blooms, yellow.—First, Mrs. J. C. Whitin; second, George W. Knowlton; third, Henry F. Littlefield.

Large vase, six blooms, white.—First, Mrs. J. C. Whitin; second, George W. Knowlton; third, Edward W. Breed.

Large vase, six blooms, any other color.—First, Mrs. J. C. Whitin; second, George W. Knowlton; third, Stonewall Farm.

Best single bloom.—First, George W. Knowlton; second, Mrs. J. C. Whitin; third, Henry F. Littlefield.

CHRYSANTHEMUMS

Influence of Climatic Conditions on Chrysanthemum Culture.

Paper by E. G. Hill, Richmond, Ind., read before the Chrysanthemum Society of America, Chicago, November 7, 1906.

The responsibility of writing a paper on the subject of chrysanthemums, or on any branch pertaining thereto, is no small one. Since the beginning of the chrysanthemum era, much has been written on the subject; so much indeed has been written and printed, and so much of value withal, that it smacks of pure presumption for me to undertake to speak entertainingly upon any branch of chrysanthemum culture.

Would you know how to take care of your stock plants? Would you inquire as to the best time to take cuttings or the best kind of cuttings to take. Would you ask as to the ideal soil, as to the best methods of shipping and marketing, or a complete set of rules for growing, staging and exhibiting chrysanthemums at the annual exhibitions, you would naturally turn to the very able and excellent book published by our ex-president, Arthur Herrington, or the older, but no less valuable work published by Elmer D. Smith, that old-time expert of Adrian, Mich.

Then, look at our cultural notes in the trade papers. What volumes these notes would make if brought together into book form. In justice to the judgment and ability of the writers for these papers, I believe that a compiler of these notes would find it hard to cut anything out, for they are of universal value. With all these facts staring me in the face, it becomes a very hard problem to select a branch of this subject on which I may say anything, other than repetitions and quotations from abler men. However, facing the necessity of fulfilling a promise made without the full realization of its responsibility, I have decided to make a few remarks along the line of the influence of climatic conditions upon the culture of chrysanthemums.

No doubt, many of the members present have read the very valuable work from the hands of W. Wells, the famous chrysanthemum expert of England. In this book, Mr. Wells endeavors to describe the methods which have won him so many prizes and so much honor before the National Chrysanthemum Society of England, yet after a study of this book, with my mind entirely open to conviction, and with a desire to learn from him, it is exceedingly hard to find any point of value for our part of the country.

The most able chrysanthemum notes which have been published in the United States in years are coming from time to time from the pen of our honored member, Mr. Totty, yet there are points in his notes which will scarcely fit the ultra-dry atmospheric conditions facing us in the central states. Mr. Wells very carefully directs his readers to avoid over-watering as one would avoid a serpent. In Indiana, it is extremely difficult to over-water chrysanthemums when they are growing vigorously during the hot summer months. Our greatest trouble lies in our benches drying out at the bottom while we are carefully watering on top, so we find that to succeed in producing fine flowers, we must daily go to the bottom of our benches to discover whether the water is penetrating the depth of the bench.

Mr. Wells grows his magnificent exhibition blooms in pots, setting upon cement ledges outdoors. On the other hand, we of Indiana, plant our chrysanthemums in a bench constructed with a view to "keeping their feet cold." We have become firmly convinced that benches with too thorough drainage are not the best benches for chrysanthemum growing. Of course, we must always avoid letting our soil become water-logged, but it is very difficult in our section of the country where the air in the summer is intensely hot and dry, and where evaporation from foliage is extremely rapid, to over-water chrysanthemums.

The influence of climate upon the selection of buds for obtaining the best results with the different varieties is a subject of the utmost interest. It is certain that chrysanthemums do not act in this country, at least in our section, in the same manner as they do in England, or even along our eastern coast. We are convinced that it is much more difficult to properly develop first crown buds in our section of the country than in a locality where the atmosphere is somewhat more humid. On the other hand, we have less excuse for losing flowers from damping.

The English writers tell of their methods of timing the buds. We have repeatedly attempted to accomplish something of this kind, but find that it is utterly impossible to change the date of any particular variety to any considerable extent. The reason we assign is the subject of this paper. To explain more fully our view, where the weather is cool and much of the time cloudy, the conditions for growing chrysanthemums are far more fully under the control of the grower, and he may by studying individual varieties control his results. Where the atmosphere is dry and evaporation from the foliage is rapid, chrysanthemums grow and develop more in accordance with nature's laws and are less under control of the operator. How often we have followed the directions given by our English friends regarding first crown buds, only to see the result of our year's work a great abnormal flower, commonly known as a "bull head," instead of the beautiful bloom as described in the catalogue.

It is generally understood that the French growers are unable to produce flowers of the size or color to compare

with those grown by many experts in England. In spite of the wonderful blooms produced by prominent members of this society in the east, we have understood that they are somewhat behind our English friends also. Now, is it not entirely possible that conditions in France and the United States, which we know are somewhat alike as to climate, may prove the stumbling block? It has always seemed very peculiar to us that the varieties originating in France are frequently beautiful upon the terminal bud, while varieties which come from England, as a class, are worthless on this bud. It is certain that we get by far the most beautiful color on our terminals, while in England, the use of a terminal bud is the exception rather than the rule.

I am loathe to believe that the growers in this country are behind our English friends in ability, and I would not do credit to the west did I not say that the men of the west are as well able to grow fine flowers as those in the east. It comes down to a question of local conditions, and I am firmly convinced that the climate is the most potent factor of all.

New Chrysanthemums at Pittsburg.

At the regular monthly meeting of the Pittsburg and Allegheny Florists' and Gardeners' Club, November 6, there was a very beautiful display of chrysanthemum flowers both from home and distant growers. Prominent among all stood a group of new varieties, magnificent blossoms, from the E. G. Hill Co., Richmond, Ind. So strikingly fine were these that a special committee was appointed to report on them, John W. Jones, the president of the club being chairman, and the other members of it, P. S. Randolph, Robt. Chive, and Wm. Falconer.

Grandest of all the blooms was Detroyat, a clear pale pink, lights up beautifully at night, and very large. Mr. Randolph declared it is the best pink chrysanthemum he ever saw.

Others were: Mme. L. Roussel, incurved golden bronze, very large and full; one of the finest of its color.

Mme. I. Rivol, bronze pink, large, full, solid; a good commercial flower.

M. Pechow, golden yellow, full open flower; good for private growers.

Mrs. Geo. Beach, incurved golden yellow, very full and fine, reminding one of Bonnaffon.

M. George Traffaut, clear yellow, incurved, very full; very fine commercial or otherwise; paler in color, but style of Bonnaffon.

Marie Viullermet, clear pure white, somewhat flat, suggestive of Silver Wedding, but larger.

Dubuison Foubert, warm yellow, very large, very full of petals, suggestive of Golden Wedding, but paler; fine for private growers.

Mlle. Suzanne Gauthiers, pure white, reflexed narrow petals, but globular-shaped head, later than the others.

Beatrice May, pure white, very large and full, fine stem and good foliage.

Amateur Conslel, a very fine bold, velvety crimson, full headed flower with excellent stem.

Chrysanthemum Society of America.

WORK OF THE COMMITTEES.

Chicago, November 3. — Claremont, yellow, exhibited by Adam Wolnewicz, Chicago, scored 80 points commercial scale.

Boston, November 3.—White sport of Wm. Duckham, Japanese incurved, exhibited by Chas. H. Totty, Madison, N. J., scored 86 points commercial scale and 88 points exhibition scale.

Philadelphia, November 6.—Mlle. E. Chabanne, light pink, loose incurved, exhibited by the E. G. Hill Co., Richmond, Ind., scored 87 points commercial scale and 87 points exhibition scale.

Cincinnati, November 10. — Charles Ragee, Ivory white, incurved, exhibited by John Tries, Newport, Ky., scored 86 points commercial scale.

No. 74-4-05, pink, Japanese incurved, exhibited by Nathan Smith & Son, Adrian, Mich., scored 83 points commercial scale.

No. 55-4-05, bronze, Japanese reflexed, exhibited by N. Smith & Son, scored 80 points exhibition scale.

DAVID FRASER, Sec'y.

Florists' Plant Notes.

FOR LATE NOVEMBER.

AZALEAS.—Of the half dozen or more varieties of Azalea Indica that can be relied upon as good for very early forcing, Apollo, Simon, Mardner, Vervæneana and Deutsche Perle are the best. The last named sort forces easiest, the most evenly balanced in form and most perfect in bloom; but being a white flowering variety it lacks the holiday cheer of the others. Nevertheless it is forced extensively for Christmas, its color apparently being no bar to public appreciation. These early varieties should be potted up as soon as received. Most azaleas, when arriving, are burdened with a ball of compactly packed roots entirely too bulky to permit the use of pots that would be of proportional size to the crowns. No harm will come from reducing the ball of roots to the proper size by cutting it down all around with a sharp instrument. After that the balls should be submerged in water to make certain of their being wet clear through before being placed in the new soil used in potting. This should be a clean grade of ordinary good potting soil, rammed down firmly around the old ball of roots with a potting stick. Success in the forcing of azaleas in part depends on this operation being well done so that in applying water this is led toward the root center instead of draining uselessly through the new earth. After having stood a day or two in a shady and cool place forcing may begin in a temperature of 55°, gradually going up to 65°, and even a few degrees higher should the need of urgent measures justify such a course. During that process much watering and sprinkling is needed.

LILIES.—When it is noticed that the foliage of lilies under forcing shows withered or dried up tips, it is time to look for the cause of the disfigurement. It is often laid to heavy fumigation when it could easily be traced to over-watering. A lily with yellowish or red tipped leaves has lost much in beauty and its value commercially is greatly reduced. Another great defect in lilies is the lack of gracefulness. The appearance of most of the stunted stock marketed every year gives plain evidence of faulty treatment. The common causes are irregularity in watering, instability of temperature, but more often a sudden lowering of heat in transferring to cool quarters before the plants have reached that stage when this carries no risk. Hardening off should never be undertaken before most of the buds have turned from green to white. As the flowers open remove the stamens with a pair of scissors before the scattering pollen spoils the purity of the petals.

STEVIAS.—Most useful flowers are those of Stevia serrata, coming, as they do, at a season when they are most appreciated. Mixed with flowers of a less airy character they lend grace to any kind of floral work. If the plants are kept in a warm greenhouse, they will soon be done flowering, too soon for being of any service at the holidays, when they would be most welcome. Forty degrees is high enough for stevias. After flowering some of the plants should be retained for next year's stock.

ERICAS.—The greatest drawback to entire success in the culture of ericas is mildew. This is the season when the disease easily gains quickly, unless good care is taken of the plants. Most of these will now be far enough advanced to endure fire heat without resenting it and this must now be called upon to assist ventilation in keeping the atmosphere dry and buoyant. A crowded stand and a warm and moist air favor mildew as nothing else would and must therefore be looked upon as undesirable. Ericas now coming into bloom will safely bear a temperature of 45°, but it should not rise any higher than that. There should be at all possible times plenty of ventilation through the house. The full light is necessary but a thin shade on bright and sunny days is of benefit. Any excess either way in watering must be carefully avoided and sprinkling should be discontinued altogether now.

GARDENIAS.—The most critical period in the growing of gardenias for winter cutting is close at hand. If they are making a thrifty growth but showing no buds as yet, it is time to force bud-formation by reducing heat and moisture to a point within the limits of safety but far enough away from the normal to cause an appreciable check in growth. After this has been accomplished and a good set of buds has resulted it is of utmost importance to hold the temperature steadily at 70°, with little deviation either way until the buds are near opening, when a rise of 5° or 6° will prevent a dropping of ths buds and bring about a fine crop of perfect flowers. At this period the plants must never suffer for the want of just sufficient moisture at their roots, never more than will drain off quickly, leaving the soil moderately wet but not in a soaked condition. A drying out of the soil now means the loss of a crop of high priced flowers, and too much water the yellowing of the foliage and often the death of the plants. Sprinkling is necessary and would do all the more good if tempered water could be used for the purpose. Mealy bug, never missing on gardenias, grown under glass, must be kept down by the use of whale-oil soap and the syringe.

BOUVARDIAS.—A lot of nicely done bouvardias in pots is good stock at Christmas, or for that matter at any time during winter and spring. Most attractive for the holiday trade is the deep pink variety of Hogarth as are also all the fine scarlets. A steady heat of 60°, the full light and sunshine and a plentiful supply of water at the roots and over head are now about all that are needed to have these charming plants at their best and brightest at the right time. Where they are grown extensively in the free soil of a bench, greater care in general treatment is necessary than when grown in pots, though the flowers produced under this method of culture are nearer the market requirements. It is very easy to spoil a promising crop by over watering. An examination of the bench soil, apparently quite dry at the surface, often shows the soggy condition of the lower earth, fully explaining the dying off of plants here and there and the unhealthy appearance of those remaining. Even in well drained benches this happens only too frequently. Abundant ventilation on bright days, care in watering and steady heat lessen the trouble considerably.

EPACRIS.—It is much easier to attain success in the growing of winter flowering epacrises than with ericas, although the former in their cultural requirements differs but little from the latter. Epacrises also want a cool temperature, not over 45°, and plenty of light and fresh air. But while a dry atmosphere is necessary for the welfare of ericas, epacrises are less exacting in this particular, which, at this time of year, means much in bringing about congenial conditions. A moderate amount of floating humidity, in an otherwise pure and buoyant atmosphere, is not only harmless but is an aid in giving perfect finish to well advanced plants of epacris. At this stage in their growth there is also little danger of over watering plants growing in well drained pots and keeping the roots moist without ever letting them become really wet. This is a point of importance in their culture.

LACHENALIAS.—At this time lachenalias are ready to start into new growth and they should be transplanted into new soil, though some growers leave them in the same pots for years, causing them to make but a meager growth. Better results are obtained by repotting them every year, the two last weeks in November being the proper time. Several bulbs are planted in a 5-inch or 6-inch pot, deep enough below the surface to be just out of sight. Any good potting soil, liberally enriched with decayed manure, suits lachenalias. An airy, cool greenhouse and a bench or shelf pretty close to the light is a good place for them. Like all bulbous plants they need lots of water when in rapid growth and preparing to bloom.

E.

To Be Done Now.

IN THE GREENHOUSES.

Keep a moderately dry atmosphere about maidenhair ferns carrying fronds that are matured, or nearly so.

Give Cattleya Mossiæ the best and lightest position in the cattleya house, and get the growths finished.

Pick over old stock plants of lobelia that were boxed or potted to supply cuttings.

Keep the weeds down on the rose benches. They encourage red spider, aphides, and other insects.

Although red pepper, camphor, and other ingredients are powerful agents in fumigation, it is well to be very careful in their use until experience has been gained.

Look out for the little green worm on sweet peas, and kill him and all his family on sight, or trouble will result.

Thrips are most mischievous on pink and red roses; no old flowers should be left on the benches as they form a hide for the insects.

If not already done, put the walks between the benches in order for the winter. Cinders and ashes absorb moisture freely, and make a firm dry walk.

Bouvardias dislike coddling in a hot or close structure. A cool house with plenty of air moving about them suits them best.

Although the current year's spirea clumps do not force very readily until the new year, they are best in their pots; any slight root action that takes place will then help to establish them.

IN THE STORE.

Be there early and get all cleaning up and arranging done if possible before your morning customers arrive.

Keep the leaves of plants away from the window glass. It doesn't look well and a sharp frost may injure them.

Immortelles are all very well in their way, but live flowers are the goods for a live florist.

A clear window shows up the best points and colors of the flowers, but no matter how good the latter are, smeared windows spoil their effect.

The popular shower bouquet affords unlimited scope for the carrying out of artistic effects and original ideas.

A cluster of violets, or a bloom or two of a mauve orchid, placed in any one part of an all white wreath, or floral design, gives character to the whole, and is a decided improvement.

A small aquarium, filled with water hawthorn and other aquatic plants, was recently noted in a florist's window.

Better have too many flowers than not enough. Their display advertises your store to the passers-by.

Never leave flowers from the wholesale market a minute longer than necessary before unpacking, nor pack deliveries until their time has nearly arrived.

Lily of the valley should be kept away from strong light and sun as much as possible. Grown in a close dark place they soon wilt if exposed to conditions directly opposite.

OUTDOORS.

As the plants are cleared from the carnation quarters begin cultivating at once. Autumn cultivation sweetens the soil and destroys many weeds and insects.

Give a mulch of well decayed manure to the beds of peonies now. It acts as a protection in winter and enriches the soil for next season.

Gravel walks and drives must be lightly swept in order to disturb the surface as little as possible, and always from the edges to the center.

Use a light roller on the grass frequently, now the surface is moist. It keeps down worm casts, gives a tidier appearance, and prevents injury by frosts later.

Prepare the quarters for next season's sweet peas early and use plenty of good manure in the lower spit. Deep and thorough cultivation is necessary for this popular flower.

Dahlias have been very disappointing this year, but keep stock good for next year, when the conditions may be quite different.

Where the old bench soil has been dumped outside the houses, get it carted away and all cleaned up for winter as soon as possible.

Fill up all holes and inequalities about the paths and alley ways where there is much walking, with cinders or other hard material.

Potting benches and other temporary erections that have been rigged up for summer use outside should be taken down now, and the materials stowed away for future use.

BALTIMORE, MD.—McLaughlin Bros. Inc., have filed application for permission to erect a greenhouse 13 by 25 feet at the northwest corner of Lafayette avenue and Aiken street.

CAMBRIDGE, MASS.—Frank Kelley, whose four years' experience with Wm. E. Doyle, and three years' service at the Parker house, have given him a good line on the business, has joined his brother Harry, who recently started up in Pemberton square. Both are popular and they are likely to succeed.

GRAND RAPIDS, MICH.—The Grand Rapids Herald of November 4 devoted four pages to illustrated write-ups of the floral industry at this place, the firms enumerated including Chas. Chadwick, Park Floral Co., Henry Smith, Eli Cross, Miss M. A. Harkett, Paul Goebel & Co., Miss J. D. Livingston, N. B. Stover, James Schols, Reed's Lake Floral Co., George Hopp, Grand Rapids Floral Co. and Crabb & Hunter.

OBITUARY.

Mrs. J. W. Taber.

Mrs. J. W. Taber, a very successful florist of Shreveport, La., died of a complication of diseases November 9. Mrs. Taber was born in Natchitoches in 1847 and moved to Shreveport in 1881. In 1883 she was married to John W. Taber, who died in 1900. Mrs. Taber started the business under the name of the City Greenhouses in March, 1901. In 1904 she moved to the present location on Fairfield avenue and changed the name of her business to the Rose-Lea Greenhouses. Mrs. Taber is survived by one son, E. M. Taber, who will continue the business in his own name; also by a stepson and two sisters.

Mrs. Bertha H. Engelmann.

Mrs. Engelmann, wife of F. A. Engelmann, Falicon, Clarksville, Mo., died November 8. Deceased was born at Leipzig, Germany, and is survived by her husband, who is florist and gardener to E. C. Dameron, Clarksville, Mo., two sons and one daughter, who will take the place of her mother in the home.

THE AMERICAN FLORIST

TWENTY-SECOND YEAR.

Subscription, $1.00 a year. To Europe, $2.00 Subscriptions accepted only from those in the trade.

Advertisements, on all except cover pages, 10 Cents a Line Agate; $1 00 per inch. Cash with Order.

No Special Position Guaranteed.

Discounts are allowed **only on consecutive insertions**, as follows—6 times, 5 per cent: 13 times, 10 per cent: 26 times, 20 per cent: 52 times, 30 per cent.

Space on front pages and back cover page sold only on yearly contract at $1.00 per inch, net.

THE AMERICAN FLORIST Advertising Department is for florists seedsmen and nurserymen and dealers in wares pertaining to those lines only.

Orders for less than one-half inch space not accepted.

Advertisements must reach us by Monday to secure insertion in the issue of the same week. Address

AMERICAN FLORIST CO., Chicago.

ELMER D. SMITH has issued a new and thoroughly revised edition of his excellent "Chrysanthemum Manual." We are handling the book, the price of which is 40 cents.

CAPE FLOWERS.—Everlasting flowers and grasses to the value of £38,620 were, according to the minister of agriculture, Arthur Fuller, exported from Cape Colony during a period of three years.—Gardeners' Magazine.

WHEN will growers of cattleyas and other orchids recognize the fact that these do not want stewing in close moist houses but airy, free and natural conditions like other stock. Orchids requiring purely tropical conditions are few in number.

THE British consul general in Algeria reports the production of vegetable hair from a dwarf palm that was once considered worthless. Its fiber is an excellent cheap substitute for horsehair and it is recommended for introduction extensively into this country.

THE old fashioned pompons are still the best varieties of chrysanthemum to use for dwarf market plants. There are also among the singles some beautiful sorts of good habit, requiring no tying and forming perfect masses of bloom. Zenobia, yellow, and Snowdrop, white, are two of the best pompous, while Argenta is a really grand habited single variety.

THE original plant of Nephrolepis Amerpohli appeared among a number of seedling and other ferns at the Janesville Floral Co.'s greenhouses, Janesville, Wis., in February, 1904. No particular forcing treatment has been used in working up the stock and to use Edward Amerphol's own words, they have been grown any old way and shifted about from pillar to post as occasion demanded. A large stock has already been worked up and a still greater one is to be prepared in readiness for its distribution. Probably no other fern is finer in floral designs and it also makes a beautiful pot plant. Edward Amerpohl is delighted with his visit to Chicago, with our show, and with the orders booked for his new fern.

Edgar Sanders on Chicago Flower Show.

ED. AMERICAN FLORIST:—

I was so pleased with your report of the flower show in the Coliseum that I cannot resist sending you word of the pleasure it gave me in reading the same. I might say that on Thursday morning, though something of an effort, I had the satisfaction for an hour and a half of seeing the show with my own eyes and I was well repaid for the trouble. But what is an hour and a half, with full powers of locomotion, now denied me, to view such a monstrous exhibition, and if one cannot visit or can only partially examine the display, then give me a good descriptive report, and I am proud to say you filled the bill.

Taken all in all, it was a grand exhibition, not like any others, and this is an excellent feature, as there is often a sameness about shows not satisfying to the general public. It seemed excellently managed with an apparent good feeling among the craft. Then, too, it seems to have been successful. That big Sunday crowd was a big feature. I see it is generally said to be the first trial for the keeping of a Chicago exhibition open on Sunday. This is a mistake. The World's Fair show opened on Saturday and included a Sunday. That was a highly successful show both in exhibits and in attendance. Indeed, I find on referring to the time it was decided to keep open the second Sunday, but this was generally considered a mistake. In the following years, if I mistake not, even one Sunday was not once considered. No doubt the reduced price made it a success this year.

EDGAR SANDERS.

American Rose Society.

EXECUTIVE COMMITTEE MEETING.

The executive committee held a meeting at the Hotel Martinique, New York, November 9, 1906. All members reported in person or by letter. The arrangements for the spring show, in connection with the Washington Florists' Club, to be held in Washington March, 1907, were reported to be perfected, the agreement having been signed by Peter Bissett and Chas. E. McCauley, on behalf of the Washington Florists' Club and Robert Simpson, president of the American Rose Society. The Secretary reported to the meeting, that when at Chicago last month, he attended the local Florists' Club meeting, and was introduced to the meeting on behalf of the American Rose Society, receiving from the members courteous consideration. He had urged the western people as far as he could to join hands earnestly to make the rose society a great popular educating association and to bring in the era of a rose for every home and a bush for every garden, which to the commercial grower meant a standing and expanding interest in outdoor floral decorations of all kinds.

Letters were read from P. A. Lynch, West Grove, Pa., Jas. J. Curran, Salem, Va., and P. Welch, Boston, Mass., encouraging the best efforts possible to make the show at the national capital a success.

Since the committee meeting in August, S. S. Pennock, of Philadelphia, Pa., had sent in an application for life membership with the full fee of $50.

A special prize of $10 was reported for an exhibit of three good roses, suitable for dooryard planting, that held the foliage to the best advantage.

Robert Simpson, Clifton, N. J., offered a silver cup valued at $50 for the best collection of crimson roses.

Harry O. May, Summit, N. J., a silver cup valued at $25 for American seedling roses not yet introduced.

F. R. Pierson, Tarrytown, N. Y., offered a silver cup valued at $25 for the best collection of hybrid Wichuraiana.

Ex-President W. C. Barry advised that his firm would be pleased to offer a suitable prize to be designated later.

It was moved by H. O. May and seconded by A. Farenwald, that the president appoint a committee to prepare a synopsis of the organization and doings of the American Rose Society up to the present time.

The president appointed the secretary and Vice President Pierson as such committee.

BENJAMIN HAMMOND, Sec'y.

Illinois State Florists' Association.

A meeting of the Illinois State Florists' Association was held in the lecture hall of the Coliseum, Chicago, November 8, President Ammann in the chair and Prof. A. C. Beal officiating as secretary pro. tem. The committee appointed at Springfield to draft resolu-

tions to be presented to the state board of agriculture at its January meeting reported as follows:

Whereas, the census of 1900 demonstrated that the commercial production of flowers and plants exceeded in value that of the commercially grown fruit, and that more recent figures show that the amount of glass so used has practically doubled, so that at the present time Illinois leads the country in the growing of flowers, and whereas the use of ornamental plants and flowers in home decoration is annually increasing among the people of this state, and that the interest in the improvement of school grounds is becoming anually greater and,

Whereas, The amounts hitherto offered in premiums have not been sufficient to justify growers in making extensive exhibits of valuable flowers and plants at the State Fair, since these exhibits are usually absolutely worthless at the close of the exhibition, whereas other exhibits are worth just as much, or if they secure a prize, are worth more, than when entered. Therefore, be it

Resolved, That the Illinois State Florist Association earnestly request the State Board of Agriculture to provide a suitable building for holding an exhibit of flowers and plants during the state fair, and that the amount offered in premiums be substantially increased, to a point that will bring out an exhibit worthy of the industry, the state fair and the great state of Illinois.

A. C. BEAL,
J. C. VAUGHAN,
A. C. BROWN.
Committee.

This resolution was unanimously adopted and the president was instructed to appoint such working committees as will be necessary to make the Bloomington meeting in February a success.

Florist Elbert Hubbard.

East Aurora, October 27.—Elbert Hubbard, Roycrofter, has taken a term lease of the property of Capt. G. J. Gardner in Willink and will run a large greenhouse in connection with his famous Roycroft institution. The property consists of several acres of land which is intersected by a deep ravine, and grown up on either side by willows and trees. The ravine has been used as a dumping ground for years past, but will now be cleared out and fitted up with benches and swings and made a beautiful park. Money will be spent lavishly on the improvements, and in the erection of new greenhouses.

"Ali Baba," who is an expert on pansies and geraniums, will be made superintendent, and his efforts will be untiring in making the place beautiful. The townspeople look with favor upon this act of Fra Elbertus and it will win over many friends to him.—Buffalo Times.

Florists and Divorce.

The lot of the florist does not in some cases appear to be a happy one. Here we have in one town, Cleveland, O., Mrs. Ella Wilson suing her Charlie for cruelty, staying out late at night and doing other things that he ought not to have done, while Mrs. Fannie Newman is in equally sore straits, her husband, Paul, being also cruel, extravagant and prone to nightly wanderings.

Mrs. Nickleby said that something in the leather she supposes was responsible for the crimes of French shoemakers. Is it possible that there are germs in geraniums, microbes in Maid roses or some such insidious foe lurking among some other flower that is the cause of all this? If so we must look up a remedy for it at once.

Meetings Next Week.

Boston, Mass.—Gardeners' and Florists' Club of Boston, Horticultural hall, November 20.

WIETOR BROS., 51 Wabash Avenue, CHICAGO.

Indianapolis.

BUSINESS FAIRLY ACTIVE.

During the first part of the week, business was good, but very slow towards the end. All the leading cut flowers are plentiful and of good quality. Prices are about the same as last week. Although this is chrysanthemum time roses are in good demand and prices remain firm.

NOTES.

The Bertermann Bros. Co. held a flower show at their store and conservatory last week. An abundance of the best material was used and arranged with exquisite taste. The attendance was much larger than the firm had anticipated and the show proved a success all around. One of the notable features was the window, on one side of which was shown a bunch of R. Halliday chrysanthemums in a $300 vase. The other side contained vases with 300 American Beauty roses. Other features were a mirror decoration of cattleyas and other orchids, both blooming plants and cut flowers; a wedding decoration and a beautiful table decoration.

The November meeting of the association was well attended. It was decided to have a show and an entertainment in connection with the annual meeting in January, and have both affairs more elaborate than heretofore. At present the association is working on a set of rules and a scale for judging novelties. The rules will be severe, and one of the association's medals or certificates won under these rules will stand for the highest degree of excellence.

John Bertermann, and Homer and Geo. Wiegand attended the flower show in Chicago last week. J.

COUNCIL BLUFFS, IA.—J. F. Wilcox was entrusted with the making of the elaborate floral emblem used at the banquet of the society of the army of the Tennessee. It is composed of immortelles typical of the undying affection mutually felt by the nation and its heroes, and nearly 30,000 of the flowers were used. The emblem stands six feet high; the background is a reproduction of the national colors, in front of which an eagle is suspended by a golden chain, bearing in its claws a silver dart. Upon its breast the bird wears the inscription "Forty Rounds."

MUMS! MUMS! MUMS!

St. Louis.

COLD WEATHER STIFFENED PRICES.

Weather conditions last week played a great part in the standing of the market. We had Indian summer all week. Friday the weather changed, snowed and got colder, which is the condition at present. Prices of roses were very low. Carnation prices were also very low, that is considerably lower than last week, but at this writing everything has stiffened. American Beauty roses are scarce, not enough to fill orders, especially the finer grades. Chrysanthemums in small and medium sizes were plentiful, but the market was short of fancy grades. Anything approaching the fancy was very much in demand. Violets have greatly improved and are selling well. Paper White narcissi have made their appearance.

CLUB MEETING.

The Florists' Club held one of the most enthusiastic meetings ever held, at their hall, Grand and Shenandoah avenues, November 8. Prof. H. C. Irish presided. The attraction was the chrysanthemum exhibit. Himmer Bros., Meramec Highlands, took first prize for white and yellow chrysanthemums. J. W. Dunford, Central, took second for white, and third for yellow and pink chrysanthemums. Bentzen Floral Co., took first and second prize on pink, and third on white chrysanthemums.

A committee was appointed to take preliminary plans to have a flower show in 1907. Frank A. Weber, A. J. Bentzen and William C. Smith were given 30 days time to look over the situation and report to the main body. The show will be held in the new Coliseum building if it is finished by that time. The aim of the Florists' Club is to make the affair more than a local one and should there be any proceeds above the expense of running the show, the surplus is to be given to hospitals.

Many visitors were present, especially ladies. The younger members of the club are strong advocates of making the Florists' Club a more representative body. This club intends to have a show, and is convinced that the only way to have a successful one is to get the general public interested.

NOTES.

Wm. C. Smith has returned from Chicago, and spoke highly of the flower show, of the beautiful and wonderful arrangement of everything, nothing crowded in, everything showing to advantage.

Miss Theresa Badaracco has her windows very tastefully decorated with fancy chrysanthemums. This lady is one of the most enterprising and energetic of our lady florists.

F. C. Weber has his windows beautifully arranged with chrysanthemums in various artistic styles. His windows are always much admired by the best people in passing.

Robt. Rudolph, of Paducah, Ky., is shipping some extra fine chrysanthemums to this market, also some fine Enchantress and Prosperity carnations.

J. W. Dunford is cutting a large quantity of first class chrysanthemums, which are handled exclusively by H. G. Berning.

Riessen Floral Co. has had large orders for fancy chrysanthemums, and has not been able to procure enough to fill them.

George Waldbart has his windows beautifully decorated with some of the largest and finest chrysanthemums seen here.

Otto Koenig was very enthusiastic when speaking of the grandeur and completeness of the Chicago show.

A mammoth free exhibition of chrysanthemums is now on at Shaw's Garden, from November 12-26.

F. H. Weber reports trade as first class.

Visitors: Maurice Widmer and wife, Highland, Ill.; D. W. Augspurger, Peoria, Ill.

BAY CITY, MICH.—Boehringer Bros., the Park avenue florists, are building a large addition to their greenhouse office.

KANSAS CITY, MO.—L. A. Goodman, 4000 Warwick boulevard, secretary of the Missouri State Horticultural Society, announces that the forty-ninth annual meeting will be held at Boonville, December 4 to 6, and that a good programme will be provided. The hotels and railroads will give special rates.

COLUMBIA CITY, IND.—Wagoners' have just completed moving from their city lot to their 25-acre tract just outside the city limits where they have one house 21x100 feet on a south hillside devoted mostly to carnations. Their seedlings occupy almost the entire space and they think these are better than anything in cultivation in their class, and are likely to be heard from in the future.

Chicago Notes.

F. C. Smith, of Ashland, Wis., is still in town enjoying a well-earned vacation.

Miss Bather, of the John R. Bather Co., of Clinton, Ia., is here visiting the various greenhouses.

Joseph Ziska has bought up all outstanding interests in the Chicago Rose Co. With the assistance of his son he will continue the business under the same firm name as heretofore.

Our system of small parks is attracting attention in other cities. A committee arrived here November 9 from Newark, N. J., to inspect them, and will be entertained by the Small Parks commission.

The big chrysanthemum plant with its 500 blooms, which was exhibited at the show all last week, now graces the window of H. H. Kohlsaat's restaurant on Wabash avenue near Madison street. It is in rather cramped quarters, but still is showing its magnificent mass of bloom to some effect.

MARKET QUIET.

As usual, the flower show has had a rather depressing effect on trade. That is the explanation offered by some. But the cold and damp weather, with its snow, rain and slush might have had the same effect without any flower show. Saturday, for the first time in many weeks, the market failed to clean up, stock being carried over Sunday and even into Monday in many instances. But the cold wave of Sunday night came to the relief of an overstocked market. Stock generally is more scarce and prices have an upward tendency. Roses, particularly American Beauty, are especially scarce. Violets, too, are hardly abundant enough. Carnations, however, are coming considerably more freely, and the height of the chrysanthemum season sees that queen of autumn flowers in generous supply. Lily of the valley is a scarce article these days and continues to bring a very good price. Harrisii lilies are seen on all stands, but slight call is made for them. A few callas are also seen, though the season is too early for either much of a supply or demand. Cattleyas have become scarce, the labiata going off crop and the Percivalliana and Trianæ not yet coming in. Green goods of all sorts are coming in great quantities. Asparagus Sprengeri is possibly not so abundant, still there is plenty to go around easily. The quality of all blooms is improving, roses showing fine form, size, color and length of stem. The same may be said of carnations. What violets are on the market are also appearing in fine condition.

NOTES.

Zech & Mann are receiving lily of the valley of superior quality from their out-of-town shippers. They are also showing Maud Dean and Major Bonnaffon chrysanthemums of which they are pardonably proud. Mr. Zech said, in commenting on the effect of the flower show on trade, that business was never good in show week, but that these exhibitions had the effect of cultivating the public taste and so gradually increasing the demand though this effect might not be immediately felt. The "missionary" work was in a general way of benefit to the trade.

Miss Minnie Speck is assisting E. Francis, manager for Scheiden & Shoos at the Flower Growers' Market. This firm has been showing blooms from their new seedling carnation. This is to be given a name and disseminated next year. It is a deep red in color, extra double, and its flowers have been known to last an entire week on the counters of the market, only being placed in the ice box by night.

Chas. W. McKellar Monday had at his place some sprays of Vanda cœrulea and Dendrobium formosum which he had been exhibiting at the flower show for Geo. Field, of Washington, D. C. After most other show blooms had lost their freshness these were still standing erect and beautiful. The color had slightly faded from the flowers of the vanda but still indicated their species.

Chas. A. Carlson, an old time florist of Benton Harbor, Mich., and father of Miss Betta Carlson, who has a retail store on Jackson boulevard, near Dearborn street, died Sunday, the interment taking place on Tuesday. Miss Carlson and the other surviving members of the family have the heartfelt sympathy of the trade.

The types last week in our advertising columns made it appear as if C. H. Hunt were at 51 Wabash avenue. Of course letters and packages addressed to "The Old Reliable, Chicago, Ill.," would reach their destination all right, but it might be as well to retain the "76 Wabash avenue," too.

J. A. Budlong is showing some fine Englehart, Plumridge and yellow Eaton chrysanthemums. The Englehart is a specially grand keeper, a vase of these blooms appearing in prime condition after a week's exposure on the counters.

M. V. Garnsey has just shipped 10 barrels of the Japana flower holder to Germany. This means a big business, as each barrel contains from 25 to 75 dozen Japanas, according to the size. The shipment included all sizes.

Wietor Bros. have in sight a big crop of chrysanthemums and roses for the holidays. This house was showing some Golden Chadwick chrysanthemums of exceptional merit.

One of Geo. Reinberg's teams bringing flowers to market ran into one of the posts of the elevated road and smashed the wagon.

Some extra fancy lily of the valley and violets are seen at E. F. Winterson's.

Peter Reinberg is coming in with as fine a crop of roses as could be wished for the Thanksgiving festival.

Mr. Eastwell, of Smith and Fetters, of Cleveland, O., is stopping at the Palmer house for a few days.

Chas. A. Samuelson celebrated his thirty-seventh birthday November 8.

E. C. Amling is showing some extra fancy sweet peas and single violets.

Philadelphia.

DEMAND LIVELY.

The demand last week was lively, weddings and the fair debutantes keeping things moving. At one of these teas, where the sisters came out together, there were over 200 clusters. This is believed to be the record so far for such an affair in this city. Chrysanthemums are now at their height and prices lag a little. Very nice flowers sell for $1.50 per dozen. Some of the fancies bring $2.50 to $3.50. Wm. K. Harris is in with Grace, a light sport of Maud Dean. This is a daybreak color with a trifle darker center, a very beautiful flower. He is also cutting Maud Dean. Roses are fairly plentiful, although all select stock seems to find ready sale. American Beauties range from $1.50 to $3, with a few specials bringing $1 more per dozen. Carnations are fairly plentiful, of good quality and selling as well as anything else. The price is $2 to $4.

NOTES.

The Chester county mushroom growers have experienced much difficulty this fall owing to their beds damping off during warm spells of weather. In some cases they had to be entirely cleared out. This is unfortunate, as prices are very high, as much as $1.25 per pound having been obtained, with an average since the season opened of 75 cents.

John Burton is back from Chicago, and is loud in his praise of the great show, at which he was one of the judges. He particularly admires the way in which the retail dealers helped in making the display the success that it was, their booths being the main feature of the exhibition.

The Leo Niessen Co. is very strong on American Beauty and Liberty roses, handling these favorites in large quantities. This concern is pushing the completion of its new building, which will double its present facilities.

Henry Fox is making his windows very attractive with made-up baskets and other arrangements of like nature. He is well pleased with the increase in his business.

The Pennock-Meehan Co. is handling an immense quantity of chrysanthemums, many of them very choice. The firm reports business excellent.

Wm. McKissick is making a hit with pompon chrysanthemum sprays. These are from the Shellem nurseries and sell on sight. K.

LIBERTY, N. Y.—The Shields farm near here has recently been purchased by Adam C. Breckenridge, a retired florist of Brooklyn, who intends building extensively upon the property. Large conservatories among other things are planned.

Boston.

TRADE SATISFACTORY.

In several branches of the trade there has been a decided enlivenment, causing business conditions in general to bear more satisfactory appearances. Funeral work in particular for the past week has been in great demand, coming from all classes of people. Cut flower trade so far this season is greatly increased over the usual fall demand and runs principally to chrysanthemums and roses, with violets selling better than heretofore. The market is well supplied with all sorts of flowers and slightly overstocked with chrysanthemums, which are now being received in great quantities in numerous varieties and all shades. We are just beginning to receive some really first class blooms, and, having been eagerly awaited for a month, they sell remarkably well. Much criticism has resulted from the inferior stock of late displayed. Numerous varieties of small chrysanthemums flood the market, and prove satisfactory to the medium class of trade. American Beauty, Richmond and Liberty outsell all other varieties of roses and are excellent. The demand for red roses was never greater and the market never in a better position to meet this demand. Carnations are abundant, all varieties now being cut. Among the best and most satisfactory are Fair Maid, Fenn and pink Patten. Many new varieties, the products of local growers, are on exhibition, a number of which have every appearance of successful futures. Princess of Wales violets were never more popular, and with thousands cut daily they simply overwhelm the double varieties. Calla lilies are again before the trade.

NOTES.

W. S. Wilson, for the past eight years prominent as a grower of roses, died suddenly November 8, at his home in Wellesley, Mass. Pneumonia was the cause of death, which resulted after a week's illness, and it was with much surprise and regret that the news was received by his fellow-tradesmen. Mr. Wilson formerly was located at New London, Conn. Coming to Massachusetts, he purchased a suitable site for rose growing, at which he was an expert, in which work his untiring efforts and attention secured for him great success. Of reticent disposition, Mr. Wilson's first attention was devoted to his family and his business. His products were always classed with the best, and as he was his own salesman, he came in direct communication with his trade. He was one of the original stock holders of the Boston Co-operative Flower Market, and at his stall daily during the season he could be seen displaying his stock to the buyers. Mr. Wilson leaves, besides a wife, two daughters and a son, the latter being a student at the Massachusetts Institute of Technology.

W. F. Alyward has accepted the position of market salesman for the firm of Anderson & Williams, handling along with their large crops of roses an excellent stock of Bouvardia Humboldtii which this firm introduced as a commercial flower in this section.

D. Henry Sullivan, who was assistant superintendent of public grounds under William Doogue, lately deceased, has been appointed to the vacancy by Mayor Fitzgerald and it is expected the appointment will be confirmed by the board of aldermen at its next meeting.

William Hastings, the popular traveling agent for the A. H. Hewes Co., has just returned from a successful trip through the southern states. He reports business all through this section booming with a very bright outlook for the future.

Patten & Co., of Tewksbury, have added another excellent carnation to their already large list of the best on the market. This season they are displaying Rose Pink Enchantress, the first to be seen in the local market.

W. H. Knapp, of Newtonville, is cutting the first of his annual crop of cosmos to which he devotes a large section of his plant.

H. W. Vose, of Hyde Park, is rather in advance of the season, sending to market the first bulb stock of Paper White narcissus.

B.

Louisville.

TRADE FAIR.

Business the past week has averaged very fair, probably the only over supply being roses, which are in full crop now. Chrysanthemums are with us in great quantities, and find a very satisfactory demand, the quality being very good. American Beauty has also had an excellent demand. Other roses have a fair demand, and can be had in satisfactory quantities, the quality being good. The supply of carnations is much better than it has been for some time, as is the quality. The demand is satisfactory. Violets are in very good supply of good quality. The demand is satisfactory. It is still impossible to secure good lily of the valley in quantities. The demand is good. Mignonette can be had in small quantities, as can lilies. Green goods are in fair supply.

The regular monthly meeting of the Kentucky Society of Florists was held at Fred L. Schulz's wholesale house with a very encouraging attendance.

Eine absolute Nothwendigkeit!

Hiermit $1.00 für mein Abonnement. Es ist die Pflicht eines Jeden prompt für den „American Florist" zu bezahlen, weil dieser eine absolute Nothwendigkeit für jeden Blumenzüchter ist.

Carl Roegner, Alabama.

New York.

MARKET ACTIVE.

The market is moving along with a certain amount of satisfaction to such growers as can send in good stock, but the general run of arrivals is having a rather hard time to make good. The demand, for the time of year, is not what it should be and reasons for such a condition are hard to advance. So far there has been no real glut in chrysanthemums, but the market is experiencing a plentity just now which is embarrassing. Roses are plentiful, and minor grades are rather hard to clear out. Crimson varieties are taken a little more freely, owing no doubt to the season, and Liberty and Richmond are both more attractive than they have been for many months. Among the offerings in pink, Killarney is doing very well, and appears to be a good thing to handle. Carnations are becoming daily more plentiful, but are taken well, and the best long stemmed and full flowered varieties will bring a trifle more than quotations when selected. Enchantress appears to have the best call in every respect. Violets are not coming in anything like quantity, and some of the handlers are quite free in their remarks as to the direct shipments to the west which the Hudson river growers are making. Orchids have recovered from the little slump experienced two weeks ago, and fair prices are now obtained for cattleyas; and the supply is just about even with the demand. Lilies go off fairly well, and are not short in the offerings. Lily of the valley cleans up well, and gardenias at times do not quite supply the demand. Bouvardia, snapdragon and pansies, are among other offerings which seem to clean out well.

The Market, November 14.—The market was rather sluggish today, roses cleaning out poorly.

NOTES.

C. W. Eberman, formerly in charge of the plant department of Siegel Cooper Co., has gone into business on his own account at No. 53 West Thirtieth street, the store recently occupied by Julius Lang. He will deal in plants of all kinds at wholesale, and will conduct his business on a wholesale and commission basis. Charlie is well known and should be able speedily, to work up a successful business.

H. H. Barrows of Whitman, Mass., was in town this week, and gathered statistics as to how Nephrolepis Whitmani was doing in this market. Incidentally he took a few orders for plants, and made rather a wide acquaintance at the meeting of the New York Florists' Club, of which he is a member.

Jacob Hauck of Bloomfield, N. Y., is shipping to A. J. Guttman some very fine Timothy Eaton chrysanthemums, also blooms of a new pink variety originating with him.

J. K. Allen is showing daily shipments of that fine pink carnation, Mrs. Clarence Mackay. Next to Enchantress it is filling a want for a strong pink.

Alex. J. Guttman returned from Chicago on Monday afternoon and is very enthusiastic in his eulogies of the Chicago Flower Show last week.

J. H. Small & Son in their window decorations this week are using large fir cones, with trailing ivy for their general decorative bases.

Alfred H. Langjahr is receiving daily some fine snapdragon and in green goods his asparagus brings many buyers to his store.

Peter Brown is opening up again in the wholesale business at 45 West Twenty-ninth street, opposite his old quarters.

Frank Millang, of the Coogan building, is nursing a severely sprained ankle.

New York Florists' Club.

The meeting of the New York Florists' Club, November 12, which was ladies' night, was probably the best attended in the history of the club. Nearly 250 members and guests were present, and the arrangements made for the gathering were carried out without a hitch. Routine business of the club was pushed through rapidly so that the entertainment feature should not suffer. Nominations for officers put forward by the nominating committee were as follows: For president, Charles H. Totty and John B. Nugent, Jr.; vice-president. H. O. May and A. J. Manda; secretary, John Young and Alex. J. Guttman; treasurer, C. B. Weathead and L. W. Wheeler; trustees, Walter F. Sheridan, Julius Roehrs, Jr., E. V. Hallock, J. Donaldson, Charles Lenker and John Scott. A committee was appointed to prepare a memorial on the death of the father of Philip J. Kessler, a much esteemed member of the club. The exhibition of flowers was very fine.

A. McDonald, gardener to J. B. Duke, Somerville, N. J., staged one of the finest exhibits of chrysanthemums ever seen in the club rooms. There were 15 varieties shown, all in exhibition form.

Guttman & Weber, of Lynbrook, L. I., showed a fine vase of Rose Pink Enchantress carnations, which was much admired.

Paul Niehoff, Lehighton, Pa., staged a fine vase of his new Aurora rose, and was awarded a preliminary certificate.

C. W. Ward exhibited a handsome vase of mixed carnations.

Peter Fisher, Ellis, Mass., showed his new carnation, Beacon, and gained a preliminary certificate.

Chas. H. Totty showed his new chrysanthemum, White Duckham, but on account of the heavy demand upon his stock for exhibition purposes the committee on awards deferred decision for a view of later stock.

H. Turner, gardener to Howard Gould, showed three vases of grand chrysanthemums.

H. H. Barrows, Whitman, Mass., showed two very fine specimens of Nephrolepis Whitmani.

Victory carnations were admirably staged by Guttman & Weber and fulfilled all that the disseminators had claimed for them in the way of appearance.

Andrew Wilson and L. Boelsen were elected to membership and H. D. Darlington, Emile Savoie, C. Sierens, and Paul Niehoff were nominated for membership.

President Scott brought the Clan MacDonald glee club from Brooklyn, and their glees were greatly enjoyed.

Andrew Wilson, the "plant oil man" from Summit, N. J., earned his new membership in the club by his ability as an entertainer. A violin solo, buck and wing dance, and digitorial solo were among his specialties, and his able assistant, Mr. Lusk, showed great "banjoistic" ability, one of his specialties being an electric serenade performed in the darkened room.

The young daughter of John Bernie gave three or four Scotch dances in highland costume, to the accompaniment of pipe, played by an accomplished Highlander, also in the national costume. This was a notable event on the programme.

The Rickards Bros. did a turn in the way of vaudeville entertainment which proved that if anything happened to the very fine seed business they are building up they would get a grand boost from the florists if they should take to the boards.

With John B. Nugent's solos taken into account the club made a fine showing with its own talent. Outside of this, solos and recitations by friends of the club were liberally provided, and with solid and liquid repasts for those in attendance, the gathering went home highly impressed with the facilities afforded by the club for a delightful evening.

Horticultural Society of New York.

PLANT HARDINESS AND ACCLIMATIZATION.

The responses to the preliminary letter of inquiry, issued in the early part of this year, have proved so encouraging that the council of the Horticultural Society of New York, at the meeting held on October 10, decided to proceed with the project, and is arranging to hold the conference on plant hardiness and acclimatization in New York about the end of September, 1907.

From all parts of the United States, from several European countries, and from South America and Canada, as well as the West Indian Islands, active interest has been expressed, and at this early date, a number of papers and contributions have been promised. The conference has the endorsement of the United States Department of Agriculture, and the majority of the directors and horticulturists of the state experiment stations have signified their intention of contributing information, or sending delegates.

The great importance of the subjects to be discussed in their relationship to practical horticulture, fruit growing and the nursery trade is evident to everyone, and the council, in soliciting your further support, thanks you for any attention in the past.

A special committee of the society, in charge of the arrangements for the conference, was appointed as follows: James Wood, N. L. Britton, P. O'Mara, H. A. Siebrecht and Leonard Barron. Communications from those interested should be addressed to the office of the society, Room 60, Bryant Building, 55 Liberty Street, New York.

LEONARD BARRON, Sec'y.

The Seed Trade.

American Seed Trade Association.
H. W. Wood, Richmond, Va., Pres.; C. S Burge, Toledo, O., First Vice-Pres.; C. E. Kendel. Cleveland, O., Sec'y and Treas. Twenty-fifth annual convention at New York, 1907

ONION SEED prices are still in the air.

VISITED NEW YORK: A. H. Goodwin, Chicago.

GARDEN BEANS are hardly as plentiful as was supposed.

ONION SETS, both summer tops and white multipliers, are scarce.

MILFORD, CONN.—Mrs. Enoch Clark, mother of Albertus M. Clark, died October 15, aged 84 years.

HOLLISTER, CAL.—Articles of corporation have been filed by the A. J. Pieters Seed Co., with offices and principal place of business at this place.

BOUQUET GREEN. — The outlook for bouquet green in Wisconsin districts is no better November 15. Very cold weather, with considerable snow, prevails.

VISITED CHICAGO: Judson Kramer, Cedar Rapids, Ia.; G. Purvis, of Rennie & Co., Montreal, Que.; the Kendel brothers, of the firm of A. C. Kendel, Cleveland, O.; A. C. Brown, Springfield, Ill.

LOCAL Wisconsin papers have warned farmers and others to keep out of the woods where bouquet green picking is done as the open season is now at hand for deer hunting and a Swede green picker was shot November 10.

DES MOINES, IA.—The Iowa Seed Co. had quite a successful opening and flower show at its store November 10 and 11. Visitors were handed a circular commemorative of its thirty-sixth year of business, giving a brief historical sketch of the firm with illustrations.

HOLLY. — Holly conditions generally are reported fair. It is thought there will be enough to go around, both east and west. Carefully packed stock will be secured as usual only from houses who buy for cash. Commission stock never has been and probably never will be dependable.

More About the Making of Catalogues.

The illustration herewith shows the Mucah cover made for Vaughan's catalogue of 1905, to which reference was made in our issue of October 13, page 550. We are advised that the artist will again visit this country soon. In connection with the making of catalogues one of our correspondents well suggests that it is a work which must be kept at unceasingly. No opportunity should be neglected to gather material for the next catalogue.

The Holland Bulb Season of 1906.

Hillegom, October 29.—Bulbs during the season now drawing to a close have sold exceedingly well. Hyacinths are sold out entirely. The leading varieties of tulips have sold at advanced prices and some exporters filled their orders at considerable loss. Crocuses advanced 50 per cent and are sold out entirely. Iris Hispanica and Scilla Sibirica held their prices notwithstanding the fact that there was an abundant supply on the market. The demand for these bulbs was very heavy. The gladiolus crop is only middling. Brenchlyensis is selling at high prices.

Vaughan's Catalogue Cover by Mucha.

Connecticut Seed Notes.

The final round up of Connecticut products in seeds would indicate nothing in surplus with the possible exception of a little turnip. Sweet corn has cured perfectly, and will be fine stock and sample, but the quantity on account of a much reduced acreage is very much less than for the past two or three years. Onion has developed shorter than the lowest estimates, and is altogether a very disappointing crop. Prices for Connecticut grown seeds must be advanced to the wholesale seed trade for contract orders, or it will be impossible to produce the quantities wanted by the trade.

Watson S. Woodruff, of S. D. Woodruff & Sons, Orange, was elected November 6 to represent his town in the general assembly, by one of the largest majorities ever given a candidate. His vote in his own district was one of the most remarkable ever given any candidate from the fact that out of a total vote cast in the district of 155 he received all but four.

Postage Rates.

ED. AMERICAN FLORIST:—

We notice in the last issue of your paper an item regarding a reduction in postal rates between New Zealand and the United States. We do considerable business with New Zealand and looked up this matter at once, but we find that your statement does not fully cover the case. It is not our own people that are benefited by this lower rate, but the people of New Zealand. They can send a letter from New Zealand to any part of the United States for one penny, English money, which is equal to 2 cents of our money, but we are still compelled to pay 5 cents postage on a letter the weight not to exceed ½ ounce. There is no chance for the reduction of letter postage we understand before October 1, 1907.

As the writer has previously stated, there is scarcely a civilized country in the world where the postal facilities are not better than here in the United States. While the people are accustomed to look with pride on our postal system, still it is simply because they do not know the conditions which exist in other countries. Congress continues to be dominated by the railroad and express lobbyists and the country merchants associations of the United States are acting as catspaws for the express companies, seeking to prevent the introduction of a parcels post system, which is opposed on the ground of the deficit in the post office department. This deficit is caused largely by the government paying about ten times as much for hauling mail matter as the railroad companies charge the express companies for their cars.

Canada has no post office deficit. Their rate on merchandise packages is less than half the rate in this country, and their rate on newspapers and other second class matter is only one-half cent per pound, while it is one cent per pound in the United States.

CHAS. N. PAGE.

Parcel Post With Denmark.

The secretary of the treasury recently issued a notice to collectors and other officers of the customs that a parcels-post treaty concluded with Denmark took effect on October 1. The customary provisions regarding prohibited importations subjecting the packages to customs dues and customs regulations are contained in the convention and embraced in part of the secretary's instructions.

The agreement provides in part that there shall be admitted to the mails exchanged thereunder articles of merchandise and mail matter, except letters, post cards, and written matter of all kinds that are admitted under any conditions to the domestic mails of the country of origin, except that no parcel

must exceed $50 or its equivalent in value, 4 pounds 6 ounces in weight, nor the following dimensions, viz., greatest length in any direction 3 feet 6 inches, greatest length and girth combined 6 feet, and must be so wrapped or inclosed as to permit the contents to be easily examined by customs officers and by postmasters duly authorized to do so.

Fixes Farm Produce Prices.

East St. Louis, Ill., October 26.—Prices on farm products were fixed today by the American Society of Equity at its convention here and by accepting the report of the committee; the members of the society bind themselves not to sell products at less than the following prices:

Wheat, No. 1 northern or No. 2 red, $1; corn, to the end of this year, 45c; from Jan. 1 to April 1, 50c; after April 1 and until prices are again fixed, 55c; oats, 40c; barley, No. 2, 55c; rye, 75c; buckwheat, 70c; potatoes, Irish, 65c; sweet, 75c; beans, navy, $1.50; red, $2; cotton, 12c; wool, 30c; hogs, $6.50; cattle, $6; sheep, $5.50; hay, $14; broomcorn, $75 to $100.

In nearly all the instances, the list of prices is to be based on Chicago markets, the exceptions being the price for beans, which is based on Detroit quotations, and cotton, on New York.

It was explained in the convention that members must receive the prices named, less the cost of transportation.

There were stormy scenes in the convention today. The fixing of prices was opposed on anti-trust grounds. The convention re-elected its officers, except the treasurer, the new treasurer being John P. Stelle of Indianapolis.

Bargain Seeds.

Gladys to the garden goes
Every sunny spring,
Bends her back, and digs and hoes;
Works like anything.
Plants a multitude of flowers,
(She buys bargain seeds)
But the summer sun and showers
Only bring up weeds.

F. R. PIERSON CO., Tarrytown-on-Hudson, New York

Utica, N. Y.

Business for the past two weeks has been rushing with plenty of good stock on the market. Chrysanthemums of good quality are selling at good prices. Roses and carnations are also going well.

The November meeting of the Utica Florists' Club was held at the greenhouses and residence of Wm. Pfieffer November 6. Mr. and Mrs. Pfieffer entertained about 25 members of the club in a way that will be long remembered by those present. A bountiful supper was served, followed by a smoker and general flower talk. It was decided to hastily arrange for a flower show which will be held in the evening, November 22, at Pfluke's hall. Many of the growers of the new varieties of chrysanthemums and carnations have signified their desire to send specimen blooms, so the exhibition promises to be a success. The display will be followed by a banquet and other entertainments which will be decided by the committee in charge composed of J. C. Spencer, Wm. Pfieffer and Frank McGowan.

NOTES.

J. C. Spencer of the firm of Spencer & Martin attended the flower show at Poughkeepsie during the past week. Mr. Spencer also visited the establishment of F. R. Pierson at Tarrytown, N. Y.

Frank Baker is cutting some of the finest carnations to be found in Utica. Chrysanthemums are also at top notch at this place.

Wm. Mathews has a pleasing display of rare orchids in his store windows.

BUD.

Columbus, O.

At the next meeting of the Florists' Club, which will be held November 13, the club will celebrate their entry into new quarters by a musical programme, which it is hoped will satisfy all present. There will also be a chrysanthemum show in which all the local florists will compete. Small cash prizes will be awarded to the winners.

Graff Bros. have a very nice display of chrysanthemums in their window, principally white and yellow.

C. A. Roth reports that everything on his place is doing fine and making a good showing.

CARL.

WILLOW GROVE, PA.—The addition to the greenhouses back of the car barn, will so increase their capacity that larger shrubs may now be taken in.

Queen Beatrice Rose.

Four to one shot. Four times as many flowers as Maid.

THE NEW

Cyclopedia of American Horticulture.

BY PROFESSOR LIBERTY H. BAILEY.

Over 4,357 articles in all by 450 expert writers, including practically all the best botanists, nurserymen, seedsmen, florists, market gardeners and experimental station horticulturists. Occupying 2,100 pages and covering 24,434 plant names, 2,800 detailed illustrations, enormously increasing the ease of identification, and 146 beautiful full page illustrations.

Every reader of this paper who is interested in farming, in gardening, in trees, in shrubs, and all out of door matters, absolutely needs this set. It takes the place of all others combined on American gardening.

In Six Great Quarto Volumes of 2,100 Pages You Find:

Descriptions alphabetically arranged of all—over a thousand—of the native trees, plants and flowers worth cultivating, with keys enabling you to name any species, as well as to find all information regarding it. Practical articles by leading experts of the country on all phases of commercial plant production and greenhouse management—cut flowers, vegetables, etc.

Fullest cultural instructions for every flower, fruit and vegetable, tree and ornamental plant you may wish to grow.

SPECIAL OFFER.

The regular price is ***$30.00.*** For a few weeks we are able to offer this new and revised edition with the new material added at ***$22.80*** cash. This offer will be withdrawn January 1, and the price increased.

The Nursery Trade

American Association of Nurserymen.
Orlando Harrison, Berlin, Md., President; J. W Hill, Des Moines, Ia., Vice-President; George C. Seager, Rochester N. Y., Sec'y.
Thirty-second annual convention, Detroit, Mich., June, 1907.

AN excellent article on How to Grow Young Trees for Forest Planting by E. A. Sterling, has been reprinted by the Department of Agriculture in pamphlet form.

PRUNING a shrub or tree is often necessary, and as long as the natural habit of the tree is considered and the pruning confined to keeping it symmetrical, it is all right, but to trim them closely in cones, pyramids and other shapes is unnatural and ugly.

AUSTIN, TEX.—The Rio Grande Nursery Co., of Brownsville, was incorporated November 1, with a capital of $10,000. The incorporators are Norman G. Kittrell, Houston, H. G. Stillwell, J. G. Fernandez and Pance R. Langworth, Brownsville, and Arthur A. Parkhurst of Colorado Springs, Col.

WHERE strong and medium growing shrubs are planted next to each other, the one frequently overgrows the other, and if this is allowed to go on uninterrupted it ends in the weaker being killed out. As far as possible cut away the strong growing kinds without destroying their natural shape. Never cut out a whole lot at once or it may let in cold winds that cripple the weaker growing sorts and thus defeat the object in view.

DURING cold weather it is necessary to protect trees and shrubs from rabbits. The most effective method is to use fowl netting and turn this out a few inches at right angles at the bottom, burying this a couple of inches under the surface. Mr. rabbit commences to scratch close up to the wire with the idea of getting under it but the underground wire as well proves too tough a proposition for him and he seeks something easier. Practically nothing is safe from rabbits; they rarely tackle rhododendrons if anything else can be had, but they have very catholic tastes.

VERY bright effects in the shrubbery may be created by grouping yellow and purple leaved species, with no other color except green as a back ground. The purple leaved filbert and the yellow variegated Cornus Sibirica Spaethei occurs to mind and there are many other combinations in the two colors that would be effective. It may be noted in passing that the filbert named produces a nut of excellent quality and for this reason should not be planted where trespassers of the small boy order are likely to destroy the trees. Both these plants are strictly hardy, but sheltered positions are best for them, as the pretty color effects in spring are spoiled if the foliage is cut by cold winds.

HIBISCUS SYRIACUS MEEHANII

WE now offer to the trade our new hardy variegated leaf Hibiscus Syriacus Meehanii. This plant attracted much attention when exhibited at the American Nurserymen's Convention at West Baden, Ind., and American Florists' Exhibition at Asheville, N. C. Foliage beautifully variegated; never sun-scalds or reverts to the green; flowers single, very large, satiny lavender; blooms during four months; prices on application. Orders booked now.

Kansas City.

TRADE GOOD.

Another very satisfactory week has just closed. The first part of the week saw a slight scarcity in general stock which was relieved somewhat towards the latter part. The weather is all one could desire; it is bringing stock out in fine shape, and with these conditions the prospects for Christmas cutting are good. In reviewing the October business, it is safe to assert that trade throughout the month exceeded by far that of previous seasons. Social affairs were numerous and of exceedingly good proportions. Funeral work was plentiful, and shippers report a greatly increased business. An occasional shortage in some lines was noticed, but generally the supply was well up to the demand. At present chrysanthemums are a great factor, and the supply at no time since the season opened has equaled the demand. Most growers complain of having to cut blooms too green and before they are fully developed. As the season advances, however with the later varieties some relief is expected. The carnation is still a scarce item, but shows much improvement each week. The prevailing price is from $1.50 to $3.50. Roses are in better supply and of good quality. Select stock in Bride, Bridesmaid, Golden Gate and Chatenay command from $6 to $8 per 100. Beauties have shown much improvement, some nice stock being cut by local growers. They sell as high as $4. Violets are good and the demand is brisk. Smilax and other greens are more plentiful.

NOTES.

Geo. M. Kellogg visited the Chicago show last week, and says it was the best exhibition he ever attended; we are willing to consider him pretty good authority on the grounds that he rarely misses any thing of interest to the trade.

The William L. Rock Floral Co. reports a splendid business. One funeral design made by them last week was a wreath containing over 100 orchids and a large quantity of lily of the valley.

Ed. Humfeld joins in a report of splendid business. Several large funerals have occurred in his vicinity during the last few days.

Ed. Ellsworth reports much improvement in roses and carnations. At present his firm is cutting a choice lot of Richmonds.

R. S. Brown's Sons are sending a nice quantity of chrysanthemums and Mr. Bridgeland finds little difficulty in disposing of them.

Chas. E. Heite attended the Chicago show last week. He staged a fine white seedling over which he is very enthusiastic.

Lewis Westervelt returned from a successful fishing trip to northern Arkansas.

Arthur Newell was busy last week with funeral work.

W. H. Abrahamson, of Hunt's, Chicago, was a caller. K. C.

Kansas City, Mo. — R. M. Snyder, who has put several millions of dollars into his private park and conservatories, was killed recently in an automobile accident. The machine hit a telegraph pole and Mr. Snyder was thrown out, fracturing his skull.

Montreal.

MARKET ACTIVE.

The chrysanthemum season is in full swing now. The St. Catherine street stores are stocked with cut blooms and pot plants of the queen of autumn flowers to their capacity. All find a ready sale. There are fully 33 per cent more chrysanthemums sold in this vicinity than last year. Ivory as a midseason white seems to be the favorite; its purity combined with perfect form and good keeping qualities make it hard to surpass. R. Halliday is leading in yellow for commercial purposes, and in pink J. K. Shaw, Dr. Enguehard, and Viviand Morel are to be seen. More pink is in evidence than in former years. For bronze and red there is a limited demand. Roses are not very plentiful at present as it is not desirable to have too many at the beginning of the chrysanthemum season. Another cause is the severe disbudding they received recently in order to assure a good crop for Christmas. Carnations are selling very well. The quality is first class and the supply fully up to the demand, some extra fine Enchantress blooms are to be seen. Shipments from the west are comparatively small, the increased local production makes itself decidedly felt on the market.

At the last meeting of the Montreal Gardeners' and Florists' Club great enthusiasm was displayed in favor of a chrysanthemum show in 1907. A committee was appointed to make an early report of ways and means of holding the same. Several growers expressed their desire to exhibit regardless of the prize money being guaranteed. Chas. J. Eddy read the continuation of his paper from last month, "Across the Continent to the Pacific Coast." The essayist chiefly dwelt on the beauties of the Rocky Mountain scenes and the vegetation of British Columbia. Funds were voted for a trophy which will be donated to the American Carnation Society at its meeting in Toronto in January next, to be used as a prize for aggregates in some section if acceptable.

The white fly is responsible for the destruction of a house of mixed plants. After all known remedies had failed to check the pest burning sulphur was applied with the above result.

Bulb planting is about finished. The outdoor planting, especially tulips, has been extra heavy, but bulbs intended for indoor forcing went rather slower than in former years.

The wholesale commission house recently opened here is of great advantage to the florists and rumors are about of another one opening.

J. D. Sinclair of Toronto was a visitor here last week. LUCK.

NEW LONDON, CONN.—John W. Maloney, the gardener on the Guthrie estate, has a fine collection of chrysanthemums growing and has been instructed to spare no pains in pursuing his work. The area already under cultivation is to be greatly extended and it is understood that a handsome Gothic cottage is to be erected on the grounds next spring for occupation by Mr. Maloney and family. John W. was last fall a very generous contributor to the success of the chrysanthemum show held in Lyric hall.

Buffalo.

BUSINESS GREATLY IMPROVED.

Good favorable weather the past week has greatly improved the quality of stock and also increased the business. Chrysanthemums are now coming in good numbers and of fine quality. Roses are good in quality. Some very fine Liberty are on sale, also fine Bride and Bridesmaid. Carnations are now of very good and in fair supply. The first Paper White narcissus blooms were offered the other day. Violets are good but not very plentiful. Society was not rushing last week, especially the fore part, owing to election. The latter part of the week showed improvement.

NOTES.

S. A. Anderson is cutting fine white and yellow Eaton and Maude Dean at his Elmwood avenue greenhouses. The new sales room is now open and well supplied with stock. It is under the management of Miss A. L. Faul, formerly with J. H. Rebstock, at his Elmwood avenue store.

Prof. Cowell is in Chicago for the chrysanthemum show. South park is havings its annual fall show and the crowds are very large the exhibit far exceeding last year's in varieties and numbers shown.

This week will be a busy one for several of the trade. C. H. Keitsch, of H. Keitsch Sons Co., has been improving the Main street store by installing a new lighting system, a mantel and new ice box.

Towns & How, successors to C. Pult, Tonawanda, N. Y., have a fine lot of roses coming out and are well satisfied with their trade so far this season.

S. A. Anderson had three fine dinners on Friday and Saturday, American Beauty roses and chrysanthemums being the flowers used.

Recent visitors: M. Zirkman, of M. Rice & Co., Philadelphia; Walter Mott, with Bobbink & Atkins, Rutherford, N. J.; Joseph Neubeck, Angola.

BISON.

Albany, N. Y.

The annual chrysanthemum show held in the lake house, Washington park, is now on. John J. Walsh, head gardener

OTAHEITE ORANGES.

Just right for Xmas. Place your orders at once.

Plants with from 5 to 20 fruit.....25c a fruit

ROBERT CRAIG COMPANY, Market and 49th Streets, **Philadelphia**

at the park greenhouses, has gathered together about 600 plants, comprising 400 varieties, for the edification of the public. About 75 of the varieties are new. The local papers have devoted some space to a mention of the exhibition, together with short descriptions of the more notable varieties. The exhibition will continue as long as the plants are in bloom.

The John G. Myers Co. opened its new department store on North Pearl street on Monday. The event was one of note in the local business world. The company awarded the contracts for floral decorations to Eyres, King, Whittle Bros. and Danker. Eyres had the decorations for the first floor, King for the second and Whittle Bros and Danker for the third and fourth respectively. The award for each floor was made by the Myers Co., by lot.

Fred and John Henkes of the firm of Henkes Bros., growers at Newtonville, are spending a few weeks deer hunting in the Adirondacks. Their friends in Albany expect to enjoy a venison supper on their return.

R. D.

YOUNGSTOWN, O.—Miss Lottie Lockhart has removed from No. 11 to 27 Phelps street, the change being rendered necessary by the increased business.

BRIDGEPORT, CONN. — Hans Beck, a florist, being jilted by his sweetheart, ended his life by drinking carbolic acid on the steps of her home, where the body was found on the morning of October 28, by the girl's mother.

KINGSVILLE, OHIO.—Seven thousand roses and a large number of other kinds of flowers is a pretty big proposition for a budding young florist of 14 years. This is the number grown by young Harry H. Pitts who is daily shipping and has plenty of beautiful blossoms. Good boy Harry; keep right on at it.

BLOOMINGTON, ILL.—Fred H. Rowe, manager of the new store of the Phœnix Nursery Co., at 314 North Main street, states that business so far has been quite satisfactory. A good stock of seasonable flowers is always on hand, together with seeds, bulbs, plants and florists' supplies. The concern's new range of nine houses has been completed and is now in good running order.

St. Paul.

TRADE GOOD.

Business is very good and funeral work has been very heavy and with the debutante and wedding season on, it keeps everybody working overtime. Chrysanthemums are about at their best here now, the unfavorable weather having held them back some. The very new varieties have not shown up very well here, Eaton, Enguehard, Pennsylvania, etc., surpassing everything. Roses are doing the best possible under very unfavorable weather conditions. Very few good ones are seen. Carnations are worse off, as they go to sleep soon after being picked. Roman hyacinths and Paper White narcissus are in the market. Good violets are being picked locally, but not in any great quantity.

NOTES.

Holm & Olson have been handicapped somewhat in their new place on account of not being able to get their fixtures ready. They have several good orders booked for the near future.

Miss Gertrude Distel has the sympathy of the trade in the loss of her brother who died November 11.

Chas. Keiper had a fine lot of early chrysanthemums, Clementine Touset being one of the best.

The Swanson Floral Co. has had a fine display of chrysanthemums in its windows.

Haugen & Swanson and N. C. Hansen are picking the most violets and the best.

Aug. S. Swanson has had a nice lot of rubrum lilies which have taken well.

O.

Lincoln, Neb.

Business has been very good all fall and at no time has there been a surplus. Even at this time with chrysanthemums in full blast it is hard to get enough roses and carnations to supply the demand. There is an unusually fine lot of chrysanthemums in this market this fall, every grower having a fine crop. They sell well, not a flower having been wasted thus far. As the late varieties always sell well here every flower will probably be used. Having made the rounds of the different growers and looking over the houses it occurs to one it would be hard to find better grown stock.

DON'T SAY THERE IS NO MONEY IN CHRYSANTHEMUMS

until you have tried **Clementine Touset.** the finest, largest, earliest white to date; every florist in the country should grow a batch, or a bench, or a houseful of this fine 'mum next year. I have the largest and best stock in the country and will sell you stock plants, fine large clumps full of runners at

15c each; **$1.50** per dozen;
$12.00 per 100.

Hurry up and order at once; even this stock will not last long when florists find out how valuable a variety this is. **Moneymaker,** the early white English variety, and **Jeanne Nonin,** the late white French variety, will go at the same price as long as stock lasts. Now is the time and chance to make money.

Other varieties at 10c each; $1.00 per doz.; $6.00 per 100; such as Monrovia, white and pink Pacific, white and yellow Bonnaffon, white and yellow Eaton, Mrs. Weeks, Viviand-Morel, J. K. Shaw, Alice Byron, Dr. Galloway, Ben Wells, Dr. Enguehard, Col Appleton, Yanoma, Chadwick, etc. Cash with order.

GUNNAR TEILMANN, Marion, Ind.

Prepare for Thanksgiving and the Holidays.

WATCH PROSPERITY LOOK

Election is over, the country is settled to its normal condition. **Great prosperity** is in sight for us all. Why not for you? A little **fortune lays before your door.** Grab it now where there is a **chance for you. Look** at others; see how successful they are. Why? Because they are **wideawake.** They watch every opportunity and take advantage when bargains are offered.

A big demand is in sight now and for the ensuing holidays for the so much admired **decorative plants,** the **Araucaria Excelsa, Araucaria Excelsa Glauca,** and the **Araucaria Compacta Robusta.** What do you think? Where will you buy them? Surely from a man who makes a specialty in **importing Araucarias,** and who can offer you **bargains.** Godfrey Aschmann is the man who has the reputation for the last ten years as the great **importer** and **dealer** in **Araucarias** of America.

PRICES SLAUGHTERED ONE-HALF THE NORMAL.

Prices **never** offered so low in the history of Araucaria cultivation. Why is that? For the simple reason, to obtain room to cultivate our great Easter stock. About 5,000 Araucarias, with an immense lot of Palms, Ferns, Azaleas, Rubbers, Begonia Gloire de Lorraine, etc., must be sold by Christmas.

☞ Please take notice. In all the Araucarias only spring importations are offered; raised in pots all summer, and can be shipped any distance safely without drooping.

ARAUCARIA EXCELSA

5½-in. pots, 15 to 18 in. high, 4 to 5 tiers, 3 years old, 60c; 5½ to 6-in. pots, 18 to 23 in. high, 5 to6 tiers, 4 years old, 75c; 6-in. pots, 23to 25 in. high, 5, 6 to 7 tiers, 4 years old, $1.00; 6 to 7 in. pots, 25 to 30 in. high, 5, 6 to 7 tiers, 4 years old, $1.25; 7-in. pots, specimen plants, from $1.50, $1.75 to $2.00 each.

ARAUCARIA COMPACTA ROBUSTA—have several thousand of them; can supply all wants. These plants were never so fine in shape and condition as this year. The pet of the greenhouse; as broad as long. 6-in. pots, 3 tiers, 12 to 14 and 16 to 18 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 18 to 20 and 22 to 25 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7-in. pots, specimen, 6 to 7 tiers, and 25 to 30 in. high, same wide, 5 years old, $2.00 to $2.50 each.

ARAUCARIA EXCELSA GLAUCA—this variety on account of its beautiful green-bluish tiers, dwarf habit, fine compact shape, gives it a striking appearance, and anybody seeing the plants must undoubtedly fall in love with them at sight. 6-in. pots, 3 tiers, 14 to 16 and 18 to 20 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 20 to 25 and 25 to 30 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7 in. pots, specimen, 5 tiers, 30 to 35 in. high, same wide, 5 years old, $2.00 to $2.50 each.

All these plants are as broad as long; the finest you have ever seen.

OUR LITTLE PETS.

KENTIA FORSTERIANA, 7-in. pots, made-up plants, 1 large size, about 45 to 48 in. high in the center, and 3 smaller sizes, 25 x 30 in. high around, which gives them a good appearance, $2.00 to $2.50 each; 6-in. pots, single plants, 36 to 45 in. high, 5 to 6 good leaves, 4 years old, $1.25, $1.50 to $1.75 each; 6-in. pots, 32 to 36 in. high, 5 to 6 good leaves, 4 years old, $1.00 each; 5½ to 6 in. pots, 4 years old, 30 in. high, 5 good leaves, 4 years old, 75c; 4-in. pots, made-up plants, 3 plants in a pot, 18, 20 to 25 in. high, 25c, 30c to 35c each.

ARECA LUTESCENS, 5-in. pots, 24 in. high, made-up with 3 plants, 35c; 4-in. pots, 20 to 24 in. high, made-up with 3 plants, 25c.

ARECA SAPIDA, just imported from Belgium, something new, very attractive, looks like Kentia, 25 in. high, 50c.

COCOS WEDDELLIANA, 15c.

ASPARAGUS PLUMOSUS NANUS, 4-in. pots, large, bushy, 10c to 12c.

FICUS ELASTICA, or **Rubber Plant,** 6 in. pots, 25 to 30 in. high, 40c to 50c each.

FERNS, all raised in pots and not on benches as follows:

NEPHROLEPIS BARROWSII, 7 in. pots, as big as a bushel basket, 75c to $1.00 each; 6-in. pots, large, ready for 7-in., 50c; 5½-in., 40c; 5-in., 35c; 4-in., 25c.

NEPHROLEPIS SCOTTII, 8-in., as big as a washtub, worth $2.00, now $1.25; 7-in., as big as a bushel basket, worth $1.25, now 75c; 6-in., 50c; 5½-in., 40c; 4-in., 20c.

NEPROLEPIS ELEGANTISSIMA, 5-in. pots, 30c.

BOSTON FERNS, 7-in., very bushy, only 75c; 6-in., 50c or $5.00 per doz.; 5-in., 30c to 35c; 4-in., 20c

FERNS—A fine assortment of Ferns for dishes, large, bushy, out of 2½-inch pots, $5.00 per 100; 3-inch, 6c each.

JERUSALEM CHERRIES, (or Solanum), 6 to 7 in. pots very bushy, full of berries, from $3.00 to to $6.00 per doz.

DRACAENA BRUANTI, (imported), 30 in. high, 6-in. pots, 50c, $5.00 per doz.

CYCLAMEN, will bloom for Christmas, 5-in. pots, 20c; 4-in., 12c.

CHINESE PRIMROSES, in 4-in. pots, ready to shift into 5-in. pots, will bloom for Christmas, $10.00 per 100; 5¼-in. pots, $2.00 per doz.

HYDRANGEA OTAKSA, only pot-grown is offered, sure success for Easter forcing, 6-in. pots, 25c; 7 to 8-in., 50c.

AZALEA INDICA, just arrived, selected by myself on my recent trip to Belgium. Have all leading varieties such as Deutsche Perle, Simon Mardner and Vervæneana. These three sorts are good for Christmas forcing. Later varieties: Empress of India, Oroff, Wolters, Niobe, Bernard, Andreas Alba, Mme. Van der Cruyssen and many others, prices as follows: 35c, 40c, 50c, 60c, 75c, $1.00, $1.25 to $1.50 each.

BEGONIA GLOIRE DE LORRAINE, 6-in pots, 50c 3-in., 20c.

BEGONIA FLAMBEAU, sells on sight, 4-in., ready for a shift into 6-in., 20c.

BEGONIA ERFORDII. New Improved, blooms all winter through, 4-in., 15c.

—CASH WITH ORDER.—

When ordering, say whether the plants should be shipped in the pots or not.

Saves Many Times
ITS PRICE.

THE AMERICAN FLORIST COMPANY'S DIRECTORY saves many times its price to every one who catalogues or circularizes the trade. Fully revised to date of publication, it puts the mail only to live names, avoiding waste of postage and printed matter, time and labor.

Contains 476 pages, lists of Florists, Seedsmen and Nurserymen of the United States and Canada by states and towns, also alphabetically; firms that issue catalogues, foreign merchants, horticultural societies and much other up-to-date information which makes it a reference book of daily utility wherever a wholesale trade is done.

Published annually by the

$2.00

Postpaid to any address.

American Florist Co.

324 Dearborn Street, CHICAGO.

Birmingham, Ala.

Conditions in all branches of the trade here are fairly good. Everyone reports business the past summer as having been 25 to 50 per cent better than any preceding year. Wm. Lindsay reports present business good, with prospects of an increasing demand in all lines the coming winter. Mr. Lindsay has one of the best stores in arrangement and location in the city hall, fronting on Nineteenth street.

Alex. S. Sawyer, who has been in the store with Hugh Seales for more than a year, acquired the store and good will of the Smith Floral Co., at 2106 First avenue, October 1. Since Coming to Birmingham from Atlanta, where he was for years with the leading concerns in the business in that city, Mr. Sawyer has made many friends. He expresses himself as being delighted with the success attending his new venture, and with the future outlook. Colonel Smith has retired to his country villa at Rosedale.

Hugh Seales, who has been located with the Dostir-Northing Drug Co. the past two years, has found better quarters on Nineteenth street between Second and Third avenues. Mr. Seales has probably the best built and most convenient range for rose growing in the state. While his stock is fairly good, he has been handicapped by a scarcity of help the past summer, consequently, both his roses and carnations were benched some weeks late. He reports business and prospects satisfactory.

C. Zbinder, manager of John L. Parker's store and greenhouses, finds business 50 per cent better than two years ago. This firm has erected 16 houses during the past year at Helena station, on the south Ensley car line, and has leased for a term of years the building at the northwest corner of Third avenue and Nineteenth street. This is one of the finest locations in the business center of the city. The building is now being enlarged and remodeled completely inside.

A. J. Koenig, who came here last spring from Nashville, Tenn., where he was foreman for the Joy & Son Co. for two years, states that he is satisfied with his new location. He now owns and operates the Lindsay greenhouses, at Woodlawn. Mr. Koenig was for a number of years in business in Louisville, where he still has numerous friends.

Andrew Hague, the genial Dane of Tuscaloosa avenue, has the finest collection of ferns in the city. Mr. Hague claims that while the demand is fairly good in the plant line generally, he finds it hard to get the prices which our more fortunate brothers north of the Ohio receive.

C. A. H.

LOS ANGELES, CAL.—Wright's Flower Shop has just completed the building of another greenhouse, 27x205 feet, giving this firm about 40,000 square feet of glass in all. This is under the supervision of Frank Speakman, formerly of Poehlmann Bros. Co., of Chicago, and the stock is in exceptionally fine condition. The prospects for the coming season's business are very bright. T. H. Wright is at present in San Francisco visiting the various growers and arranging for the purchase of stock, etc.

GERANIUMS 2½in. Pots, Ready for Immediate Delivery

Alliance. Lemoine 1905. Hybrid, Ivy and Zonal, semi-double, lilac white, upper petals feathered and blotched crimson maroon, 25c each; $2.00 per doz.

H. R. CARLTON, Willoughby, O.

INTRODUCER and ORIGINATOR.

MABELLE, New Pink Carnation for 1907.

Color—A peculiar shade of lovely pink, with a faint yellowish cast; several shades lighter than the Lawson. Unlike most pinks, the brightest sun does not injure the color. Size—3 to 4 inches in diameter when established. Odor—Pleasing, but not strong. Stems—Invariably strong, but always graceful, ranging from 12 to 30 inches during the season. Habit, etc.—A very quick, active grower, making specimen plants in a short time, even from late cuttings. On account of its rapid growth, requires supporting very soon after benching. Gets away rapidly, blooms early and gives long stems right from the start. Productiveness—Prodigious is the best word we know of to use here. It is the most incessant bloomer, early and late, we have ever grown. Stock limited. Delivery January 5 to 10 and later. Price, $12.00 per 100, $100.00 per 1000.

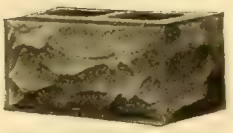
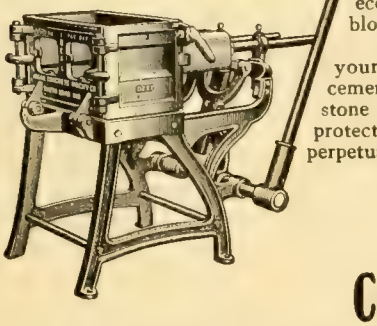
FROST-PROOF ECONOMY





Ideal Hollow Concrete Block construction will protect your greenhouse from frost and secure greatest economy in fuel. The illustration of hollow block explains it's resistance to frost.

With the Ideal Concrete Machine you can yourself make these blocks from sand, gravel and cement at little cost—far below the cost of brick, stone or lumber. Ideal Blocks not only give frost protection, but are absolutely fire-proof, and effect a perpetual saving in insurance.

IDEAL
Concrete Machines

May be operated by any man without previous experience. The process of making blocks is simple as making mortar. Blocks for every building purpose, with plain, tooled, ornamental face or natural stone effect made with the same machine. Simple, durable and adaptable to any size block within capacity.

Our catalogue will show you how to secure frost protection and fuel economy, as well as initial saving over cost of other materials. Write for it and it's freely yours.

IDEAL CONCRETE MACHINERY CO., Dept. 7, South Bend, Ind.

W. H. C. MUSSEN & CO., Montreal, Canada, Sole Agents for Canada.

THE LOW PRICE HEATING PLANTS

The Chicago House Wrecking Co. is in position to offer you an interesting proposition for furnishing you with a heating plant at a saving of at least 30%. Send us a sketch of your houses with preferred location of the boiler, the points of compass and the desired night temperature for zero weather, and we will gladly submit you an exact detail quotation of all material required to install the plant. We have ***heaters*** and ***boilers*** of every kind, both new and rebuilt. We have always on hand a large number of rebuilt boilers suitable for greenhouse heating. Our stock embraces ***fire box boilers, horizontal tubular boilers, Kroeschell boilers, cast iron sectional boilers, Erie City economizers*** and other types

We can save you considerable money on ***pipe, valves*** and ***fittings;*** also on ***doors, glass, sash*** and everything needed in the construction of your buildings.

Wizard Brand pulverized sheep manure. The Pulverized Manure Co., 32 Exchange Ave., Chicago.

GLASS.

Glass importers and jobbers; greenhouse glass a specialty. Window glass. James H. Rice, corner Michigan, St. Clair and Illinois Sts., Chicago.

Glass, plate and window glass, greenhouse glass a specialty. Sprague-Smith Co., 167-169 Randolph St., Chicago.

Glass, a lot of 16x18 A and B double strength at low price. A. Dietsch Co., 617 Sheffield Ave., Chicago.

Glass, window glass. Greenhouse glass a specialty. H. M. Hooker Co., 59 W. Randolph St., Chicago.

Glass, French and American "White Rose" brand. Stenzel Glass Co., 2 Hudson St., New York.

Glass, all sizes. Metropolitan Material Co., 1398 Metropolitan Ave., Brooklyn, N. Y.

Glass, all kinds and sizes. Sharp, Partridge & Co., 22d and Lumber Sts., Chicago.

Glass, special greenhouse. G. F. Reynolds, Durhamville, N. Y.

GLAZING POINTS.

Glazing Points, see the point? Holds glass firmly. Peerless glazing points are the best. No rights or lefts. Box of 1,000 points, 75c, postpaid. Henry A. Dreer, 714 Chestnut St., Philadelphia.

GOLD FISH.

Gold Fish, Comets, Japanese Fantails, Fringetails, Telescopes, etc. Fish globes and aquariums. The J. M. McCullough's Sons Co., 316 Walnut St., Cincinnati, O.

Goldfish aquaria and aquarium supplies. Fred. Kaempfer, 88 State St., Chicago.

GREENHOUSE CONSTRUCTION.

Greenhouse Construction, builders of greenhouses for private estates, institutions, parks, etc. Pierson U-Bar Co., Metropolitan Bldg., 4th Ave. and 23d St., New York.

Greenhouse Construction, sash bar greenhouses. New Truss construction and iron frame houses. Lord & Burnham Co., 1133 Broadway, N. Y.

Greenhouse Construction, builders of every type of greenhouses; the most modern designs. Hitchings & Co., 1170 Broadway, N. Y.

Greenhouse Construction, builders of modern greenhouses. Myers & Co., 1122 Betz Bldg., Philadelphia.

GUTTERS.

Gutters, Jennings, improved iron gutters. Diller, Caskey & Co., 6th and Berk Sts., Philadelphia.

Gutters, Garland's gutters will keep snow and ice off your glass. A sample of our gutter is on exhibition at Chicago Flower Growers' Market. Geo. M. Garland, Des Plaines, Ill.

Gutters, Lord & Burnham Improved V-shape gutter, with drip gutter attachment. Lord & Burnham Co., 1133 Broadway, N. Y.

Gutters, new duplex gutter, only drip-proof gutter on the market. E. Hippard, Youngstown, O.

IMMORTELLES.

Immortelles, bright scarlet and other colors for Xmas trade. Buy now. Dozen bunches, $2.75; 50 bunches, $11. Barteldes Seed Co., Denver, Col.

INSECTICIDES.

Insecticides, Nicoteen Aphis Punk, 60c per box 12 sheets; $6.50 per case of 12 boxes. Nikoteen Liquid, $1.50 per pint; $13 per case of 10 pints. Nicotine Mfg. Co., St. Louis, Mo.

Insecticides, tobacco paper, 24 sheets, 75c; 144, $3.50, 288, $6.50; 1,728, $35.10. Nico-Fume Liquid, ¼ pint, 50c; pint, $1.50; ½ gal., $5.50; gal., $10.50; 5 gal., $47.25. Kentucky Tobacco Product Co., Louisville, Ky.

Wilson's Plant Oil, for scale and insects, ½ pt., 25c; pt., 40c; qt., 75c; ½ gal., $1.25; gal., $2; 5 gals., $9. Andrew Wilson, Summit, N. J.

Fumigating Supplies, vaporizing pans for tobacco extract, improved. Diller, Caskey & Co., 6th and Berk Sts., Philadelphia.

Fumigating supplies, tobacco stems, 300 lb. bales, $1.50. W. C. Beckert, 103 Federal St., Allegheny, Pa.

Insecticides, Carman's Antipest insecticide and fungicide, $1.50 per gal. Perfection Chem. Co., Flushing, N. Y.

Insecticide, Nicoticide, Bug Killer, the best bug killer and bloom saver. P. R. Palethorpe Co., Louisville, Ky.

Fumigating Supplies, tobacco dust for fumigating. Edwin L. Koppelman & Co., 81 Pine St., New York.

Fine, pure tobacco dust $2 per cwt.; $30 per ton. Wm. C. Smith & Co., St. Louis, Mo.

Fumigating Supplies, tobacco powder and stems. The H. A. Stoothoff Co., 116 West St., New York.

LAWN MOWERS.

Lawn Mower. The Clipper lawn mower, No. 1, 12-in., $5; No. 2, 15-in., $6; No. 3, 18-in., $7; No. 4, 2-in., $8. Draft, money order or reg. letter. Clipper Lawn Mower Co., Dixon, Ill.

METAL DESIGNS.

Metal signs, send for prices. A. Herrmann, 404-12 E. 34th St., New York.

MISCELLANEOUS.

Florists' overdue accounts and bad debts collected by the National Florists' Board of Trade, 56 Pine St., N. Y.

Engravings, best engravings and illustrations of every description for catalogues. Send for estimates. Globe Eng. & Elec. Co., 427 Dearborn St., Chicago.

If you do not find what you need in our Ready Reference Department, write us about it.

Printing, large runs of catalogues a specialty. Write for figures. Regan Printing House, 89-91 Plymouth Place, Chicago.

PAINT, PUTTY, ETC.

Paint, Ideal Greenhouse Lead; Special Greenhouse Putty. Lord & Burnham Co., 1133 Broadway, N. Y.

Paint, Putty, etc. H. M. Hooker Co., 59 W. Randolph St., Chicago.

Paint, Putty, etc. The Jas. H. Rice Co., 80-82 Wabash Ave., Chicago.

PIPE, FITTINGS, ETC.

Pipe, iron fittings, etc., galvanized iron sash hinges, screw eyes, screw hooks, U bolts, galvanized iron buckles and wires. Fittings for purlin and ridge supports. Foley Mfg. Co., 471 W. 22d St., Chicago.

Iron Fittings, patent iron bench fittings and roof supporters. Diller, Caskey & Co., 6th and Berk Sts., Philadelphia.

Pipes, valves, fittings of all kinds. Chicago House Wrecking Co., 35th and Iron Sts., Chicago.

A Bargain, 4-in. cast iron pipes, 5 foot lengths at 12c per foot. C. C. Pollworth Co., Milwaukee.

Iron Fittings, etc.; send for prices. Lockland Lumber Co., Lockland, O.

POTS, PANS, ETC.

Pots, standard flower, 1½-in., $2.77 per 1,000; 2-in., $3.33; 2½-in., $3.88; 3-in., $5.27; 3½-in., $6.10; 4-in., $7.77; 4½-in., $10; 5-in., $13.60; 6-in., $22.20; 7-in., $4 per 100; 8-in., $6; 9-in., $8.88; 10-in., $13.33; 12-in., $22.22; 14-in., $38.88; 16-in., $66.66; 20-in., $1.25 each. Azalea pots and bulb pans same price. 2x2½-in rose pots, $3.50 per 1,000. A. F. Kohr, 1521 N. Leavitt St., Chicago.

Pots, standard, seed pans, cut flower cylinders, hanging baskets, lawn vases, etc. Hilfinger Bros. Pottery, Ft. Edward, N. Y.

Pots, standard flower pots. The Whildin Pottery Co., Philadelphia, Pa.; Jersey City, N. J.; Long Island City, N. Y.

Pots, before buying write for prices. Geo. Keller & Son, 361-63 Herndon St., near Wrightwood Ave., Chicago.

Pots, red standards, full size and wide bottoms. Detroit Flower Pot Mfy., 490 Howard St., Detroit, Mich.

Pots, red standard, azalea pots. The Keller Pottery Co., 213-223 Pearl St., Norristown, Pa.

Pots, red standard. Paducah Pottery Co., Paducah, Ky.

Pots, all sizes. Ionia Pottery Co., Ionia, Mich.

Pots, Syracuse, red. Syracuse Pottery Co., Syracuse, N. Y.

Pot hangers, Kramer's $1 doz. by exp., $1.25 by mail. I. N. Kramer & Son, Cedar Rapids, Ia.

RAFFIA.

Raffia, samples free if you mention the American Florist. Large assortment of colors. R. H. Comey Co., Camden, N. J., 810-24 Washburn Ave., Chicago.

AT THE CHICAGO SHOW

The Test of Products Was Demonstrated.

Which were the ones awarded the most prizes? Nine out of ten who received prizes were florists and growers whose houses were built with our material. The test of the products always proves our claim that no better material or construction is to be had in America. Whatever has been your success in the past we are sure you can do better with our material, and we want you to write us for more information about our construction. Our plans are made so that any ordinary florist can easily put up his house correctly, and our material is cut so accurately that there is no necessity for fitting it in place with the help of an experienced mechanic. Prize plants are money makers, and you should know something about the kind of houses in which the best stock is grown.

Write us and we shall be pleased to talk matters over further, giving your letter our very best attention. Send for our circular, which tells the history of cypress and why it is the best wood for greenhouse construction—then let us estimate on your needs and tell you why it pays to pay for quality.

Florists' Forcing Bulbs and Roots.

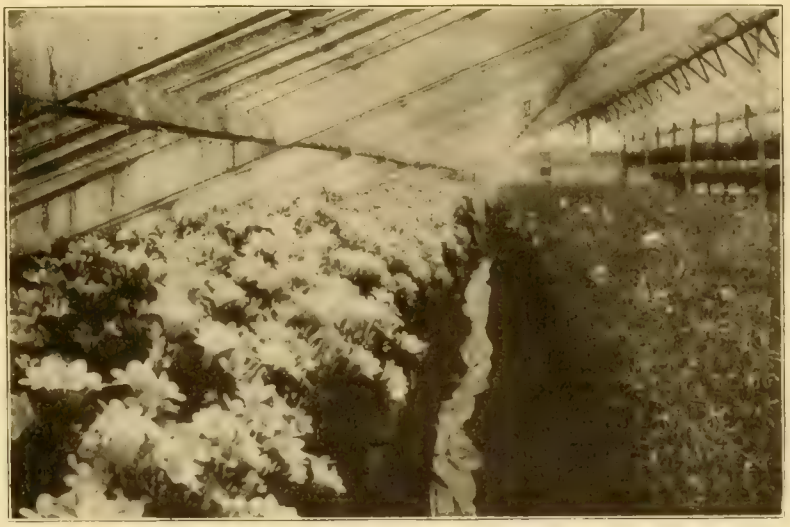
Copyright 1906 by the American Florist Company.

IX.—FREESIAS.

The unusual interest in the culture of freesias, as shown in late years, has led to a clearer understanding as to their requirements, and to a fuller recognition of their merits as subjects for forcing. Growers of bulbous stock were not slow in discovering the vital points in their culture, nor in finding out that handsome profits might be realized by going into it somewhat more extensively than has been the practice heretofore. Until lately freesias have played but an insignificant part in establishments exclusively devoted to the production of cut flowers.

Grown as a by-and-between-crop, planted in scattered rows and batches among other plants, or grown in shallow flats, densely crowded and often allowed to become dust-dry, they were not given an opportunity to show their fine qualities as producers of choice blooms. In the hands of the retail plant grower freesias fared better, for they are excellent subjects for pot culture, not over exacting as to treatment and most attractive, when in bloom.

About a dozen of the little bulbs are planted in a 6-inch pot, kept constantly moist but are not covered with earth or ashes, as is necessary with hyacinths, tulips or most other bulbs, to encourage root formation. When top growth shows it is time to place the pots on a raised staging or shelf in a well lighted house. Regularly attended to as regards watering, staking and tying, they will be at their best in January or February, if grown in a temperature of about 50° at night with a few degrees higher in the daytime. Under this method fairly good spikes for cutting may also be raised and as a venture in a small way the pot treatment answers the purpose very well. However, freesias, as a highly profitable cut flower crop,



A BENCH OF FREESIA PURITY AT RUDOLPH FISCHER'S GREAT NECK, L. I.

must be grown in benches, all by themselves, and under the surveillance of a painstaking grower. This, as is the case with all other cut flower crops of some consequence, is essential to entire success. This granted, it will be found that the culture of freesias is one of the easiest and most simple.

The bulbs, or rather corms, of freesias are among the first arrivals in the bulb line. If they are planted as soon as obtainable, all the better will be the output of flowers in midwinter. This is of greater importance than the purchase of unusually large corms. A sunny bench in an intermediate house should be chosen for freesias. Temperature has all to do with bringing them into bloom early or late and the time of planting plays no part in this. Freesias grown in an average temperature of 40° bloom in early spring, while those in a heat 10° higher will flower after Christmas, some time in January.

A well composted mixture of three parts well broken-up sod and two parts decayed manure with some sharp sand and a sprinkling of air-slaked lime added, is a good soil for freesias. The corms are pressed into the loose soil to a depth that brings their tops a full inch below the surface. Two inches in the row and six inches between rows are the right distances at which they should be planted. A planting of a number of bulbs together in evenly spaced clusters has its advantages, rendering the stringing of the bed and the cutting of flowers more convenient. A heavy watering will settle the soil, which must be kept in a moist condition right along from the start. E.

CHRYSANTHEMUMS

Chrysanthemum Emily Smith.

Quite an interesting little history is given of this new chrysanthemum in the Chicago Examiner. It was raised by Alois P. Frey, head gardener at Lincoln park, and named after the young daughter of P. H. Smith, Jr., of the Chicago post office. Miss Emily Smith, as her custom is, was enjoying a ramble in Lincoln park early last spring, when she espied her first wild flower, a hepatica peeping through the snow and took it to the genial Alois, who with characteristic kindness has named his new seedling after her.

Early Varieties.

We notice in your issue of November 10, on page 741, under the head of "Notes on Varieties" by G. T., several of our latest chrysanthemum novelties are referred to and hence beg to make a few comments.

It is evident G. T. is laboring under the wrong impression when he refers to Venetta as a yellow. It is a pure white very closely incurved and of good size. Doubtless this is a case of mistaken identity.

As to Mayor Weaver, under our cultivation, it fully equals Dr. Enguehard in size and is decidedly an improvement in color. We also notice he is inclined to retract his complimentary reference to October Frost, which appeared in your issue of October 6. G. T. has not given his time and energy to chrysanthemum growing all these years without fully appreciating the fact that bringing all varieties to perfection is quite a problem, and the best of us do not always succeed. We feel safe in assuring him that October Frost will give a good account of itself another season and may be cut the last days of September, the largest white at that time.

As to Pres. Roosevelt, we are not all growing flowers for the wholesale market, and in this connection will say a very delicate pink is one of the best selling colors over the retail counters. It can be grown as large as Col. D. Appleton and when planted by June 10 may be cut with a three foot stem. We sincerely believe G. T. will make a serious mistake in discarding these varieties without further trial. We are all inclined to draw our conclusions too soon. He possibly has forgotten

Chrysanthemum President Roosevelt.

that Ivory had been sent out three years before its merits were fully established and the S. A. Nutt geranium was out 10 years before it became popular.

NATHAN SMITH & SON.

Chrysanthemum Society of America.

EXAMINING COMMITTEES.

President Duckham has announced the committees to examine seedlings and sports on dates as follows: October 6, 13, 20, 27 and November 3, 10, 17 and 24, 1906. Exhibits, to receive attention from the committees, must in all cases be prepaid to destination and the entry fee of $2 should be forwarded to the secretary not later than Tuesday of the week preceding examination, or may accompany the blooms. Special attention is called to the rule requiring that sports to receive a certificate must pass three committees.

New York, Eugene Dailledouze, chairman, 55 and 57 West Twenty-sixth street, Thos. W. Head and Wm. Turner.

Philadelphia, Pa., A. B. Cartledge, chairman, 1514 Chestnut street, John Westcott and Wm. K. Harris.

Boston, Mass., E. A. Wood, Chairman, Wm. Nicholson and James Wheeler. Ship flowers to Boston Flower Market, care of John Walsh.

Cincinnati, O., R. Witterstaetter, chairman, James Allen and Wm. Jackson. Ship flowers to Jabez Elliott Flower Market, care of janitor.

Chicago, J. S. Wilson, chairman, J. B. Deamud and Geo. Wienhoeber. Ship flowers care of J. B. Deamud, 51 Wabash avenue.

OFFICIAL JUDGING SCALES.

Chicago, November 10. Miss Clay Frick, white sport of Duckham, exhibited by C. H. Totty, scored 91 points commercial scale.

Chicago, November 10. Mlle. E. Cleabaune, pink, exhibited by E. G. Hill Co., scored 89 points commercial scale.

Chicago, November 10. Incandescent, bronze and gold, exhibited by E. G. Hill Co., scored 86 points commercial scale.

Chicago, November 10. Mlle. Semon Jossier, cream white, incurved, exhibited by E. G. Hill Co., scored 89 points commercial scale.

Chicago, November 10. Dubuisson Foubert, light yellow, reflexed, exhibited by E. G. Hill Co., scored 87 points exhibition scale.

Chicago, November 10. Alice Roosevelt, cream white, exhibited by E. G. Hill Co., scored 89 points commercial scale.

Chicago, November 10. Detroyat, silvery pink, reflexed, exhibited by E. G. Hill Co., scored 89 points exhibition scale.

New York, November 10. General Picquart, lilac silver, reverse, Japanese incurved, exhibited by Howard Nichols, Yonkers, N. Y., scored 85 points commercial scale and 85 points exhibition scale.

Philadelphia, November 12. Sadie May Stremler, sport of Queen, light yellow, incurved, exhibited by J. S. Stremler, Princeton, Ky., scored 84 points commercial scale.

Philadelphia, November 17. Golden Dome, sport of Yellow Eaton, yellow, Japanese incurved, exhibited by John A. Macrae, Providence, R. I., scored 89 points commercial scale and 86 points exhibition scale.

New York, November 17. Golden Dome, sport of Yellow Eaton, a decided improvement on parent, both in color and form, exhibited by John A. Macrae, Providence, R. I., scored 89 points commercial scale.

Cincinnati, November 17. No. 34-3-05 Daybreak, pink, Japanese incurved, exhibited by Nathan Smith & Son, Adrian, Mich, scored 83 points commercial scale.

DAVID FRASER, Sec'y.

JANESVILLE, WIS.—Landscape gardening on an extensive scale is contemplated in connection with the new mansion to be built by Herman E. Dick in the Rock river district.

THE CARNATION.

Carnation Robert Craig in England.

The above new variety has crimson-scarlet, fragrant, fringed flowers three inches to four inches in diameter and perfectly double. It is quite a new variety even in America, and we felt quite sure it would soon reach our shores. An award of merit was accorded it by the Royal Horticultural Society on October 23, when shown by Hugh Low & Co., Bush Hill Park, Middlesex, and William Cutbush & Son, Highgate, London.—Gardening World.

Seasonable Notes.

From now on the carnations will require winter treatment, and every possible attention in the way of watering, feeding and ventilation, to avoid any possible check to the plants. Any set back to the plants at this time of the year may prove disastrous and require a long time to make good. Most of the standard varieties of carnations require a temperature of 50° to 52° at night, allowing a rise to 60° to 64° by day when bright. We have several varieties, including all the Lawsons, that really require a night temperature of 54° to 56° to be grown to the best advantage, but above all an even temperature must be maintained at all times, as a sudden drop is most harmful to the plants, causing a fifty per cent increase of split calyces.

Propagating can be successfully done after November 1, but the advisability of starting that early depends entirely upon whether you intend propagating just for home use, or for the wholesale market. In propagating for home use only, January 1 is early enough to commence, cuttings put in before then taking up valuable bench space as well as time. They are also more likely to get too large and pot bound before planting time in May. Cuttings put in the sand any time in January and the early part of February are without question the most desirable stock, and if they are kept moving from then on, better plants will result than from earlier striking and two months labor will have been saved, besides the bench space. Of course with the good novelties one does not feel like throwing the cuttings away at any time, and it may be advisable to use them at any time after November 1.

When propagating carnations I would impress the importance of the following point. When taking the cuttings those located on the upper and middle part of the stems are the most desirable; have a basket or small box and put the cuttings in this as they are taken from the plants, keeping them well sprinkled all the time. When making them, never cut anything from the tops, unless they are very large and soft, in which case it is advisable to trim them a little to prevent them wilting too badly the first week or two. Remove a few of the lower feathery leaves on them carefully, and cut the heel slightly with a sharp knife, not removing it entirely as that would lessen the value of the cutting.

The propagating bench can be built in different ways, and with perhaps equally good results, if properly attended to, but the brick bottomed bench is giving more satisfaction than any other. An ordinary board bottom, or, as some have it, with fine cinders, or even an inch or two of soil in the bottom of the bench, and from three to four inches of sand on top of same is perhaps as good a way as any. The sand should be packed quite solid, and the cuttings put in the sand about ¾ inch deep and 1½ to 2 inches between the rows according to the size of the cuttings; in the rows they can be put as close as possible, as long as they do not touch one another. Give them a good watering in as soon as they are planted, and after that a light syringing once or twice a day on bright days so they will not get a chance to wilt. The cuttings need all the light they can get, but no direct sun, so they must be shaded, a good way to accomplish this being to use some heavy cheese cloth or canvas, resting on wires up under the glass, as same can be pulled up and down quickly to give the cuttings the full benefit of the light when there is no sunshine.

Opinions differ greatly as to the advisability of bottom heat under a propagating glass. Personally I am in favor of as little bottom heat as possible, and there is no question but that the cuttings that are rooted with very little or no bottom heat are far superior to any that are rooted in a high temperature. The temperature in the propagating house should be 48° to 50° at night and the sand should never be more than 57° to 58°; air quite freely but avoid draft in the propagating house.

J.

NATHAN SMITH & SON'S NEW CHRYSANTHEMUM, DAKOMA.

THE ROSE.

Suggestions for November.

The chrysanthemums from now until and including the Thanksgiving will be very much in evidence. As winter approaches, the days naturally become much shorter, and we must use about as much artificial heat as sun heat. This calls for careful syringing and ventilating.

A little judicious pruning can now be done, cutting out all the useless wood at the base of the plants and some of the stunted, blind wood throughout. Do not prune any wood carrying good healthy foliage, and do not put a green employe at this work, at least not until he can follow directions. This light pruning enables one to tie the plants to a better advantage, as no useless tying has to be done. Tie the plants carefully now in order to allow the soil all the sunshine possible and the plants as much air circulating through them as they can get.

Do not neglect the disbudding and so allow the lateral buds to sap the strength of the main flower. Break the side shoots out as soon as they can be handled without injury to the crown buds.

It is yet rather early to apply liquid manures to any but the very earliest planted young stock, and the carried-over roses. Those planted in July unless they have made an unusual amount of growth are better cared for by applying a light mulch of well rotted cow

or sheep manure, finely pulverized. American Beauty requires a much heavier mulch than the tea roses and almost thrice the amount of feeding in any form. In a few weeks we can use the liquid fertilizer to a better advantage, as the watering can be done more uniformly when there is no heavy topdressing.

One must make the most careful examination of the soil daily to be able to water evenly now that firing has begun in earnest. Those pipes under the tables will bear watching as they are seldom the same distance from the tables the whole length of the houses. Therein lies the difficulty of watering. Also keep an eye on the corners and keep the sides of the tables from leaving the soil by pressing the edges of the soil firmly against them, else much of the water will run off without doing much good. This is liable to occur on old tables where the sides have decayed somewhat.

The solid beds will require very little water, as a rule, from now on, as there is very little evaporation in a house devoted to roses grown in this manner, syringing in most cases being all that is necessary. There are exceptions though, very light soil being one, and shallow soil on deep, open drainage, and bottom-heated solid beds being others. These of course will require special watering to suit the construction, and the grower must be able to use his judgment, knowing the construction and kind of soil used.

To sum it up for this month, we cannot be too painstaking in order to prepare our plants for the dark days to come, and by no means allow them to become drawn or show that much-forced, soft looking growth at this season. Keep the night temperature even and give the plants all the air they can stand. As long as the houses are heated to 75° the amount of air allowed them on clear days need not be limited. Avoid sudden changes in the temperature at all times.

E.

An Abnormal Cattleya.

ED. AMERICAN FLORIST:—

I send you a print of a remarkably fine Cattleya labiata which has just bloomed with me for the first time. It came in a large importation we got two years ago. The plant has only one lead with a spike of three flowers. The color is very deep purple and the strangest part is that the two petals on each flower have the identical markings of the throat, in fact it looks as if each flower had three lips. The print only shows slight markings on the right hand flower; this is the oddest and rarest looking cattleya that has flowered in our immense collection.

J. I.

[The reproduction of the lip markings on the petals is of rare occurrence in orchids but not unique. The same thing occurs in a rare variety of Lælia purpurata and the plant has considerable money value on that account. Strictly speaking the plant has sported just as a rose or other plant often does but with the orchid there is every probability of the sport or freak remaining constant. We advise the keeping of the plant for another year at any rate, giving it careful attention. We would also like to see a flower of it.—ED.]

WITH THE GROWERS

Poehlmann Bros., Morton Grove, Ill.

Commenced just over 20 years ago in the smallest way as a general plant growing place, Poehlmann Bros.' business has gradually reached its present high position. Showing how the place has been kept up to date it may be mentioned that not one of the 80 or so large houses now planted were standing six years ago. All are new and up-to-date in fitting and equipment, and in many ways they are unique.

An excellent system of steam heating is used, in which all condensed water is drawn back to the boilers by vacuum pumps. As a result the return steam pipes can be taken overhead to the boilers, allowing the walks to be free beneath so that cement concrete can be laid. This makes a really excellent walk for the houses, lasting and clean, and the excellent system of walks is a notable feature of this fine place. Another great advantage of the vacuum system is that much less pressure is needed to go around the very long lengths of pipe necessitated by modern greenhouse construction. It is a splendid and complete success, of which Poehlmann Bros. are justly proud.

An Abnormal Cattleya.

The plant here is divided into two portions, A and B. One of the finest carnation sections, if not the finest, in the world is included in plant A. There are:

7 houses 27 by 500 feet.
3 houses 27 by 600 feet.
2 houses 27 by 350 feet.
2 houses 27 by 150 feet.
2 houses 27 by 125 feet.

This makes a total of nearly 250,000 square feet all under one roof, all filled with carnations in full crop, and all the plants in the very pink of condition. This section alone is worth a very long journey to see. Over 160,000 carnations are benched, the numbers of a few of the principal varieties being given:

CARNATIONS.

Lawson	68,000
Enchantress	32,000
Cardinal	12,000
Prosperity	11,000
Victory	5,500
Queen	5,000
R. Craig	2,000
Phyllis	1,000
Haines	1,000

Of kinds grown in smaller numbers there are Lady Bountiful, Glendale, Prosperity, White Enchantress, Anna Hobart, Harlowarden, Fiancee, and Mrs. Morton. One of these varieties calls for very special note. Victory according to August Poehlmann, is the finest red carnation in existence, and he doesn't speak without authority. The color is a deep bright red; the plant is so free that we counted over a dozen large flowers upon one; it can be taken with an exceptionally long stiff stem, the calyx never bursts, and, last but not least, it is perhaps the very best shipper on the market. What else can possibly be desired?

Turning from carnations to roses the same fine health is seen in the plants, similar grand houses are built for them and they are grown in immense numbers. These are given in the four principal kinds:

ROSES.

American Beauty	72,000
Bride	30,000
Bridesmaid	30,000
Richmond	28,000

The exact number of other varieties grown were not easily obtainable, but Mme. A. Chatenay, Sunrise, Perle des Jardins, Uncle John, Killarney, Kaiserin, and a beautiful deep pink sport from Mme. A. Chatenay not yet named are the principal ones grown. Altogether 125,000 of the tea scented class are benched besides the American Beauty. All the plants are on their own roots and as some of the older ones have been on the benches from three to five years and still doing well it is evident that grafted plants are not the only kind that do.

Of chrysanthemums, about 90,000 are grown, in all the best commercial varieties, and we were just in time to see grand benches of Major Bonnaffon and the white Bonnaffon, Mrs. Robinson, Dr. Englehart and Col. Appleton. Many of the flowers being cut for market were well worth a place as exhibition blooms, and there seemed to be none of that falling off to weediness that is so common in some otherwise well grown collections.

Lilium longiflorum and L. Harrisii are largely grown, about 38,000 being forced each year. A specialty is made of keeping these fine lilies always in flower by introducing them to heat in successional batches. Two benches filled with these in 4-inch pots were in the best of health, and will be a fine lot. Several benches in a lean-to section were filled with plants in flower. Besides these leading lines there are many houses filled with ferns, smilax, asparagus, lily of the valley and forced Dutch bulbs. There are some grand beds of mignonette

coming on as well as large batches of stevias for cutting.

The new portion added to plant B this year consists of 15 grand houses 27x350 feet each, all now filled with American Beauty, Richmond, sport of Chatenay and Killarney roses. These are really model houses, light and with no heavy wood or iron to obstruct the sun. All the ventilators are hung on the bottom, opening at the ridge. This is better than being hinged at the ridge for several reasons. Whatever drip there is when these are open falls on the walks and not on the benches. A little crack of air may be put on without causing a draft, just enough to keep the air moving in winter, while owing to the warm air reaching the ridge it is almost impossible for icicles to form and prevent the vents closing.

IN PLANT A AT POEHLMANN BROS., MORTON GROVE, ILL.

Center walk showing concrete floor, and return pipes vacuum system overhead.

A fine shed 35 feet high with a ground floor space of 65x175 feet has been erected at one end of these new houses. Here are two fine water-tube boilers, each of 260 H. P. and room enough has been left, and chimney accommodation provided, for three more such. For handling the coal, large buckets, each holding 1650 lbs., are taken direct to the cars, hoisted onto an elevated track here, where they are placed on swivel cars so evenly adjusted and balanced that the bucket can be tipped by the hand. Owing to the large boilers used, soft coal is found to give satisfaction, this new coal shed holding 1700 tons when full. A fine cold storage chamber is being fixed, 25x60 feet, in two sections, so that different kinds of stock can be given different temperatures as necessary. Besides this there is ample room for the vacuum pumps and the refrigerator machinery, also for getting away all clinkers and waste matter generally.

One very useful machine must not be overlooked. This is the soil chopper and mixer, a great labor saving contrivance, doing the best of work with very little hand labor. Five gallons of gasoline will run this machine for 10 hours, no skilled mechanic being needed to run it, and no watching. The soil is thrown upon canvas belts and carried to the drum; if desired to mix them, manure and soil are thrown on together. After being chopped and mixed, the soil is carried to a height of about six or seven feet so it may be either loaded on wagons or on a soil stack. It takes four men to shovel the soil onto the belts and keeps them busy, so that is is evident that if this work was carried out by hand at least 12 men would be needed. Two only of this pattern machine are used in America, this one being an improvement on the other. It represents in fact about the finest machine of its kind extant, as up-to-date as everything else is on this remarkably fine place.

SAYRE, PA.—A large stock of cuttings and propagating material have been placed in the newly repaired Lehigh greenhouses. Indications point to a successful season next year for florist Dempsey.

THE EXHIBITIONS.

The Baltimore Show.

The annual chrysanthemum exhibition of the Gardeners' Club of Baltimore was held November 13, 14, 15 and 16. As noted heretofore this exhibition was the first occupancy of the new hall of the Florists' Exchange. The judges were from the Washington Florists' Club, Wm. A. Gude, Peter Bisset and Otto Bauer having accepted invitations to act.

While there have been more extensive displays it is doubtful whether there was ever a finer exhibition here of superior grade plants and flowers than that of this season. Many of the chrysanthemums were grand flowers, illustrating the intelligence and skill of the growers. The other classes showed equal in merit. The central group of palms and decorative plants which gave distinction to the display in the upper hall was contributed by Halliday Bros. and was much admired. A handsome collection of fancy leaved caladiums from Mrs. H. B. Jacobs' greenhouses and a magnificent specimen of begonia from the same place attracted general attention.

There were some good roses in competition, though competition was not very keen in them or in carnations. F. R. Pierson's Winsor seemed to make a good impression. The only exhibitor of floral designs and bouquets was F. G. Berger, John Cook's seedling roses were shown in fine condition, and some seedling chrysanthemums of G. D. Lotz aroused enthusiasm. A splendid white is named Mrs. Robt. Halliday.

A large number of prizes had been offered by individuals and firms and they were awarded as follows:

Vase of 25 crimson chrysanthemums entered for silver cup.—Edward Hermann.

Vase 25 chrysanthemums, five blooms each distinct varieties.—G. D. Lotz.

Vase 12 blooms, distinct varieties.—G. D. Lotz, first, and C. R. Diffenderffer, (C. M. Wagner, gardener,) second.

Three vases of 12 blooms each.—G. D. Lotz, first, and C. Gregorious, second.

CHRYSANTHEMUM WHITE BONNAFFON, POEHLMANN BROS., MORTON GROVE, ILL.

Vase 12 blooms Appleton.—Mrs. James A. Gary, (M. J. Hannigan, gardener.)

Vase of 12 blooms Timothy Eaton.—Mrs. James A. Gary.

Vase 12 blooms Dr. Enguehard.—G. D. Lotz.

Vase 12 blooms grown by amateur.—J. H. Straw; certificate of merit to J. C. Legg.

The Upland premiums offered by Mrs. Henry Barton Jacobs were distributed as follows:

Four vases of six blooms each of chrysanthemums—Geo. Morrison, first; G. D. Lotz, second.

Vase 20,. white incurved blooms.—Edwin Bishop.

Vase 20 blooms, yellow incurved.—Geo. Morrison, first; Edwin Bishop, second.

The "Evergreen" premiums offered by Mrs. T. Harrison Garrett were awarded as below:

Vase 12 blooms, white.—George Morrison, first; Edwin Bishop, second; F. C. Bauer, third.

Vase 12 blooms, yellow.—George Morrison, first; I. H. Moss, second; Edwin Bishop, third.

Vase 12 blooms, pink.—George Morrison, first; F. C. Bauer, second; I. H. Moss, third.

Vase 12 blooms, crimson.—Mrs. James A. Gary.

Vase 12 blooms, bronze.—C. R. Diffenderffer, first; George Morrison, second.

Vase six blooms, white.—George Morrison, first; John Cook, second.

Vase six blooms, pink.—G. D. Lotz, first; George Morrison, second.

Vase six blooms, yellow.—George Morrison, first; I. H. Moss, second.

Vase six blooms, any other color.—George Morrison, first; M. J. Hannigan, second.

Vase 25 blooms in 25 varieties.—G. D. Lotz.

Vase not less than six blooms, white seedlings.—G. D. Lotz.

Vase of not less than six blooms, yellow seedlings.—G. D. Lotz.

A prize from J. Henry Ferguson for pompons went to Richard Vincent, Jr., & Son.

The prizes for roses were adjudged as follows:

Twenty-four Richmond. — Stevenson Bros.

Twelve American Beauty. — First, Andrew Anderson; second, Geo. Morrison.

Three vases, 12 blooms each, distinct varieties.—First, John Cook, seedlings; second, Stevenson Bros., Richmond, Killarney and Bride.

Twenty-five pink roses. — Stevenson Bros. This vase also carried off the grand sweepstake prize, the roses being finely grown Killarney.

Twenty-five white roses, Brides.—Andrew Anderson.

Twenty-five Golden Gate.—Wm. Madsen.

CARNATIONS.

Best 50 blooms, white.—P. B. Welsh; reds, Geo. Morrison; pinks, F. R. Pierson Co., for Winsor; second, Stevenson Bros., for seedlings.

Following are the awards for foliage and flowering plants:

Specimen plant.—George Morrison, first; Mrs. T. Harrison Garrett, (C. Uffler, gardener), second.

Specimen flowering plant.—George Morrison.

Twelve crotons.—George Morrison, first; C. R. Diffenderffer, second.

Specimen begonia.—George Morrison.

Specimen fern.—Henry Fischer.

Orchid specimen plant in bloom.—George Morrison.

Group decorative plants.—Mrs. T. Harrison Garrett.

Group of ferns.—Mrs. T. Harrison Garrett.

After the prizes were awarded the club with some invited guests attended a banquet at the Academy hotel, where speeches were made and a good time had. Besides the judges there were present F. R. Pierson, of Tarrytown, N. Y., and S. S. Pennock, of Philadelphia. Miss Connor and Fredk. Michell, of Philadelphia, were also attendants at the show.

The new building of the Florists' Exchange proved itself well adapted to shows of moderate size, and the visitors regarded with favor the work of the committee to which was entrusted its construction. For the business accommodation of the Exchange itself it seems admirably suited and no doubt the central location, the convenient structures and the energetic committee and manager will largely develop the volume of business to be done.

The committee in charge of the show was composed of Geo. Morrison, F. C. Bauer, James Glass, G. D. Lotz and J. J. Perry. S. B.

Rhode Island Horticultural Society.

The annual chrysanthemum and carnation exhibition of the Rhode Island Horticultural Society was held in Providence, November 13 and 14. The hall was filled with chrysanthemums, which reflected great credit on the growers. Special exhibitors of chrysanthemums were John A. Macrae, F. A. Macrae & Sons and E. J. Johnson of Providence; F. A. Sayles of Pawtucket, Seth B. Borden of Fall River. The principal exhibitors of carnations were J. H. Cushing of Quidnic and J. A. Macrae of Providence, and S. J. Goddard of Framingham, Mass.

John A. Macrae exhibited his wonderful new chrysanthemum, Golden Dome, for which he was awarded a gold medal.

Among the special visitors to the exhibition were D. B. Hadwen, of Worcester, and A. A. Hixon, president and secretary, respectively of the Worcester County Horticultural Society, John H. Cox, horticultural specialist, representing the F. R. Pierson Co., L. D. Bryant, representing the A. H. Hewes Co., and Geo. Smith of Attleboro.

The following awards were given for chrysanthemums:

Best single white blooms in 6-in. pots.—Frank A. Sayles, first.

Best single pink blooms in 6-in. pots.—Frank A. Sayles, first.

Best single yellow blooms in 6-in. pots.—Frank A. Sayles, first.

Twenty-five cut blooms, Col. Appleton, long stems.—S. A. Borden, first.

Twenty-five blooms, Balfour, long stems.—J. A. Macrae, second.

Twenty-five blooms, Dr. Enguehard, long stems.—F. A. Sayles, first; J. A. Macrae, second.

Twenty-five blooms, Timothy Eaton, long stems.—J. A. Macrae, first.

Display of 50 bottles, all classes, J. A. Macrae, first.

Twelve blooms, distinct varieties.—Frank A. Sayles, first; S. A. Borden, second.

Six blooms, distinct varieties.—F. A. Sayles, first; S. A. Borden, second.

Best single bloom, white.—F. A. Sayles, first; S. A. Borden, second.

Best single bloom, pink. — F. A. Sayles, first; J. A. Macrae, second.

Best single bloom, yellow.—S. A. Borden, first; F. A. Sayles, second.

Best single flower of any other color.—S. A. Borden, first; F. A. Sayles, second.

Large vase of 50 or more blooms, long stems.—E. J. Johnson, first.

Best six vases, 10 blooms each, long stems.—J. A. Macrae, first; a fine collection of 10 blooms was disqualified by reason of not complying with the rules.

Collection of Begonia Gloire de Lorraine.—Wm. H. Hill, first.

Orchids, best single specimen.—S. A. Borden, first; Wm. H. Hill, second.

Most artistically arranged group of chrysanthemums, palms, ferns and foliage plants.—F. A. Sayles, first.

CARNATIONS.

Display of cut blooms with foliage.—J. H. Cushing, first.

Twenty-five blooms, crimson.—J. A. Macrae, first; S. J. Goddard, second.

Twenty-five blooms, dark pink.—J. A. Macrae, first.

Twenty-five blooms, light pink.—J. A. Macrae, first; S. J. Goddard, second.

Twenty-five blooms, scarlet.—S. J. Goddard, first.

Twenty-five blooms, white. — S. J. Goddard, first; J. A. Macrae, second.

Any other color.—J. A. Macrae, first; John Gerrard, second.

Best new variety, grown in Rhode Island.—J. H. Cushing, first; J. A. Macrae, second.

Best new seedling of 1906.—J. A. Macrae, first; S. J. Goddard, second.

50 blooms, Enchantress.—J. H. Cushing, first; J. A. Macrae, second.

Display of ferns in large variety.—F. B. Luther, gratuity.

White Chadwick chrysanthemums.—Chas. Faust, gratuity.

Vase of roses.—F. Macrae & Sons, gratuity.

Vase of chrysanthemums.—J. Macrae & Son, gratuity.

One hundred violets.—John Gerrard, gratuity.

Denison, Tex.

The Denison flower show, held November 8 to 10, under the auspices of the Denison Civic Improvement League, proved a very pretty and a most successful event. One of the most atrractive features of the show was a very extensive exhibit by the public schools of the city. Everything possible is being done to inculcate a love of flowers in the minds of the children and the interest of the little ones in the show offers ample evidence of the success of the undertaking. E. W. Kirkpatrick, of McKinney, Texas, a florist and horticulturist of national repute, acted as judge of the show and the following awards were made:

Best and most artistically arranged collection of plants, foliage and flowering—Majors & Gorman, first; E. H. Marchbanks, second.

Best and most artistically arranged collection of palms and cycads—Majors & Gorman, first.

Best and most artistically arranged collection ferns—Mrs. F. E. Shaffer, first.

Best and most artistically arranged collection of begonias—Mrs. Joe Fritz, first.

Best decorated dining or reception table—Misses May and Edith Menefee,

PLANT A OF POEHLMANN BROS., MORTON GROVE, ILL.

PLANT B AT POEHLMANN BROS., MORTON GROVE, ILL.

first; Mesdames C. D. Kingston and W. D. Collins, second.
Best design in cut flowers—Majors & Gorman, first; E. Farley, second.
Best original design in cut flowers—Majors & Gorman, first.
Best bridal bouquet—Majors & Gorman, first.
Best cycas palm—Mrs. F. E. Shaffer, first; E. Farley, second.
Best palm, any kind other than cycas—Mrs. F. E. Shaffer, first.
Best Boston fern—Mrs. W. B. Munson, first.
Best rubber plant—Mrs. F. E. Shaffer, first.
Best asparagus plumosus—Mrs. F. E. Shaffer, first; E. H. Marchbanks, second.
Best asparagus Sprengeri—Geo. Odell, first.
Best Begonia Rex—Mrs. F. E. Shaffer, first.
Best blooming begonia—Mrs. L. S. Cox, first; Mrs. T. W. Dollarhide, second.
Best coleus—E. H. Marchbanks, first; Majors & Gorman, second.
Best lemon tree in fruit—Willie Ratliff, first; Mrs. F. E. Shaffer, second.
Best rare plant—Majors & Gorman, first.
Best vase carnations—Majors & Gorman, first.
Best 20 blooms white carnations—Majors & Gorman, first.
Best 20 blooms pink carnations—Majors & Gorman, first.
Best vase roses—Mrs. A. N. Rhamey, first; E. Farley, second.
Best 12 white roses—Mrs. A. N. Rhamey, first.
Best 12 yellow roses—Mrs. A. N. Rhamey, first.
Best 12 pink roses—Mrs. A. N. Rhamey, first.
Best 12 red or crimson roses—Mrs. A. N. Rhamey, first.
Best 12 assorted roses—Mrs. Garner, first; Mrs. W. D. Collins, second.
Best collection of chrysanthemums—Majors & Gorman, first; E. Farley, second.
Best one plant white chrysanthemum—Majors & Gorman, first; E. Farley, second.
Best one plant yellow chrysanthemum—E. Farley, first.
Best one plant pink chrysanthemum—E. Farley, first.
Best one plant red or bronze chrysanthemum—Majors & Gorman, first; E. Farley, second.
Best collection of chrysanthemum blooms in variety and named—Majors & Gorman, first.
Best collection of white chrysanthemum blooms—Majors & Gorman, first.
Best collection of yellow chrysanthemum blooms—Majors & Gorman, first.
Best collection of pink chrysanthemum blooms—Majors & Gorman, first.
Best 10 bronze chrysanthemum blooms—Mrs. N. J. Wright, first; Mrs. Kratiger, second.
Best 20 assorted chrysanthemum blooms—Mrs. C. C. McCarthy, first.
Best one chrysanthemum, white—Majors & Gorman, first.
Best one chrysanthemum, yellow—Majors & Gorman, first.
Best one chrysanthemum, pink—Majors & Gorman, first.
Best one chrysanthemum, red or bronze—Majors & Gorman, first.

SOIL CHOPPER AND MIXER AT POEHLMANN BROS., MORTON GROVE, ILL.

European Horticulture.

FROM THE BRITISH TRADE PAPERS.

A NEW LUPINE.—This new plant, Lupinus polyphyllus roseus, which was finely shown by J. Cheal & Sons, Crawley, Sussex, at the recent Holland House Show of the Royal Horticultural Society, promises to be a valuable garden plant. Its color, a deep rose, is new among the lupines, and the plant is a vigorous grower and gives a long season of bloom. In fact, it has all the characteristics of a good border plant, and when it becomes well known it is sure to be largely grown. It is said to come true from seeds. Plants such as these beautify the English garden.

LINCOLNSHIRE'S POPPY CROP.—The poppy harvest in the Haxey district of Lincolnshire has just taken place. Twenty acres have this year been grown for distillation into laudanum and opium. An acre yields 40,000 poppy heads, and as much as 12 shillings per 1,000 heads have been realized by the farmers. These poppies, which have a white flower, can only be grown on the same soil once in six years.

DAVALLIA MAYI.—This fine new fern, for which H. B. May, of Edmonton, London, was awarded a first class certificate by the Royal Horticultural Society July 10, has firm stout frondage of a beautiful deep green color. The fronds are graceful and well divided, making up a plant suitable and well divided alike for pots or baskets. It is a variety of D. elegans, and has distinct, creeping rhizomes.

THE AMERICAN FLORIST

TWENTY-SECOND YEAR.

Subscription, $1.00 a year. To Europe, $2.00
Subscriptions accepted only from those in the trade.

Advertisements, on all except cover pages, 10 Cents a Line Agate: $1 00 per inch. Cash with Order.

No Special Position Guaranteed.

Discounts are allowed **only on consecutive insertions**, as follows—6 times, 5 per cent: 13 times, 10 per cent; 26 times, 20 per cent: 52 times, 30 per cent.

Space on front pages and back cover page sold only on yearly contract at $1.00 per inch, net.

The AMERICAN FLORIST Advertising Department is for florists, seedsmen and nurserymen and dealers in wares pertaining to those lines only.

Orders for less than one-half inch space not accepted.

Advertisements must reach us by Monday to secure insertion in the issue of the same week. Address

HAVE you noticed the wider interest the managers of state fairs are taking in floriculture? You can make them take far more interest in it by waking up and keeping awake. Keep the place clean and carry the best stock in your line.

AT the Dale Estate greenhouses Brampton, Ont., the management have fitted up a fine reading and recreation room with bathroom adjoining for the use of their employes. They have also invited the men to suggest any improvements in it or to recommend any course likely to make the place more useful to them. This strikes us as an example that may be more frequently followed.

FINISH all repotting or surface dressing of Odontoglossum crispum, O. Pescatorei, and similar kinds at once. A flush of new roots usually occurs in late autumn that serves well to reestablish the plants. Besides it is important that these roots once made should not be disturbed, as they are bound to be if the plants are repotted after they have taken a hold on the compost.

Society of American Florists.

DEPARTMENT OF PLANT REGISTRATION.

The H. Weber & Sons Co., Oakalnd, Md., submit for registration the following:

Carnation Toreador, white, overlaid with deep pink, after the style of Prosperity, but showing more, and deeper color, particularly the inner portion of the flower, bounded on the outer edge of petals by a distinct white zone. Flowers fully as large as Prosperity at its best. A strong grower, stems long and extra strong.

Chrysanthemum Weber's Chadwick, a yellow sport of Golden Chadwich, much deeper in color than its parent, and several shades deeper than Major Bonnaffon.

WM. J. STEWART, Secy.

UNITED STATES EXPRESS CO. ANSWERS.

The United States Express Company, by its attorneys, Boardman, Platt & Dunning, of 35 Wall street, New York, has filed with the secretary of the interstate commerce commission an answer to the complaint of the Society of American Florists. It denies any knowledge or information sufficient to form a belief that the S. A. F. is a corporation engaged in the development and advancement of floriculture and horticulture throughout the United States. It denies knowledge or information sufficient to form a belief as to who are the members of the complainant association, but admits that certain individuals and companies make shipments of flowers from the points named in the complaint to New York. It admits that on or about May 1, 1906, the rates on flowers, from the points named to New York, were raised, but denies that they are unjust and unreasonable.

It alleges that at Somerville, N. J., Chatham, N. J., Allentown, Pa., Philadelphia, Pa., and Darrenceton, Pa., it maintains at great expense wagon service which is available to all shippers of flowers. It says that the shippers of flowers at these places bring shipments to the railroad stations at an unreasonably short time before the departure of trains, thus requiring special handling by express agents, seriously interfering with their other duties. The express company claims that all shipments of flowers delivered in New York city must be carried long distances in wagons. It also claims that the cost of collecting, handling and delivering shipments of flowers is much greater than for shipments of ordinary merchandise. In conclusion it demands that the complaint of the S. A. F. be dismissed.

American Carnation Society.

CARNATIONS REGISTERED.

By The Chicago Carnation Co., Joliet, Ill.—Red Riding Hood, in color a bright scarlet, in form a well built flower, nicely fringed and a well filled center, with a large calyx that does not burst. Stem long and strong, perfectly straight. In substance the keeping qualities are of the best, in productiveness it is early, free and always in crop, in habit it has strong clean growth with wide heavy grass, establishing itself readily and making a rapid advance.

By The H. Weber & Sons Co., Oakland, Md.—Toreador, white overlaid with pink, after the style of Prosperity but showing more and deeper color particularly the inner portion of the flower, bound on the outside of the petals with a distinct white zone. Flowers fully as large as Prosperity at its best. A strong vigorous grower with no surplus grass and will stand close planting. Stems long and extra strong. Planted August 1, it will give first class blooms by October 1.

By J. D. Thompson Carnation Co., Joliet, Ill.—Lucile, a large white bloom overlaid with pink, with a long stiff stem.

ALBERT M. HERR.

Twenty Years Ago

American Beauty had celebrated its first birthday.

Over $750 were given in cash premiums at the great Philadelphia chrysanthemum show.

Greenhouse erection was being rapidly extended all over the United States.

Advertisers using the columns of THE AMERICAN FLORIST were shipping their roses over 1,600 miles in good condition.

Andalusia and Buttercup were popular carnations.

Tuberous begonia culture was progressing rapidly, and frequently alluded to in these pages.

Chas. Reissig of Riverside, Ill., was finding drain tiles useful in rose beds.

There was no retarded lily of the valley but cultivators got fair results after the new year.

On November 3, to be exact, the Chicago Florists' Club was formed with a membership of 50.

La France was one of the most popular commercial roses.

The beautiful pure white stock Princess Alice was put into commerce by Lorenz, of Erfurt.

The New York chrysanthemum show was kept open on Sunday, only one member of the society objecting.

A severe frost occurred early in October and completely spoiled a number of flowers.

President Cleveland visited Boston and gave quite a fillip to the flower trade at the Hub.

E. S. Haskell, of New Bedford, Mass., used incandescent electric lights in his greenhouses and the effect was described as most beautiful.

Florists were apt to be behind and have to rush to catch trains, to get plants under glass at the last minute before frost and other necessary details. They still are.

A number of florists from Chicago and other western points visited the New York chrysanthemum show beginning November 2.

A horse five feet high composed of white flowers with harness of eglantine was one of the attractions among the design work at St. Louis, Mo.

The Florists' Club of Philadelphia presented George W. Childs with a magnificent bronze vase nearly eight feet high.

The beautiful old yellow anemone flowered chrysanthemum John Thorpe, Jr., was exhibited at New York.

Florists of New York blamed the craze for autumn foliage for interfering with their business.

American Beauty roses were $6 a dozen, other varieties very much cheaper, Eucharis Amazonica 25 cents, and gardenias 15 cents each.

James D. Raynolds, of Riverside, Ill., built his houses on the ridge and furrow plan, having his walks under the gutters. He considered it an improvement owing to the increased amount of air in the house leading to a better circulation, and all being center beds the plants could be readily reached and syringed.

Baltimore.

MARKET COLORLESS.

Last week was not a star engagement so far as the flower business was concerned. Election day is largely kept as a holiday, and every holiday makes some trade, and the races drew a good many strangers to the city. It would have been natural to expect some animation, but the market was colorless, as our friends, the stock brokers, say, notwithstanding ideal and inspiring weather. Even the street merchants who frequent the retail thoroughfares could with difficulty get rid of their wares. Most of these, the wares not the merchants, come from the city of brotherly love, as though there was not trash enough of our own to fill the demands of this market.

NOTES.

One of our papers recently had quite a chapter in its local columns on the increasing popularity of flowers, meaning blooming plants, for Christmas gifts, and gave some very readable and in the main correct directions for the treatment of bulbs planted in pots and glasses, so as to bring them in bloom for the holiday season. It is suggested, very pertinently, that such gifts are really very inexpensive but much prized because they are grown and cared for by the giver, the sentiment being far more delicate than involved in the perfunctory purchase of articles in the shops, which involve little thought or personal attention but merely the expenditure of more or less cash. Another article in one of our papers dilated at some length on the growing use of bunches of flowers as birthday tokens to express the good wishes and felicitations of the senders. This literature is in the direction of a defined sentiment—and it helps trade.

The Maryland State Horticultural Society will hold its annual meeting and a show of fruits, vegetables, flowers and canned goods in the spacious armory of the Fifth regiment of the Maryland national guard on December 5 and 6. Prizes aggregating about $500 will be distributed for displays in these several departments. Cardinal Gibbons will open the meeting with prayer and the governor of the state and the mayor of Baltimore will make addresses of welcome. The programme of the meeting includes papers or addresses from Prof. S. A. Beach, horticulturist of the Iowa Experiment Station; W. J. Spillman, of the U. S. Department of Agriculture; A. Herrington, of New Jersey, and some of the officials of our state institution.

A few of our Baltimore people went over to the Philadelphia show, but the attendance from here was not so large as on former occasions. S. B.

Meetings Next Week.

Baltimore, Md.—Gardeners' Club of Baltimore, Royal Arcanum building, 18 W. Saratoga street, November 26, at 8 p. m.

Chicago.—Chicago Gardeners' and Florists' Union No. 10615, 10-12 Clark street, November 28.

The Great Uncertainty.

Monday, planted rye and melons
On this peacefulest of scenes.
But the seeds, ignoring labels,
Came up manglewort and beans.

Tuesday, planted Hoss Thief Jimmy
On the very plainest proof;
Boys allowed that he would surely
Be an imp with cloven hoof.

Wednesday, planted Deacon Jackson;
Parson figgered out all right
He would surely be an angel
With some wings of lily white.

Now I've got a little notion
And a startling thought it brings—
'Sposing Jimmy and the Deacon
Mix like other planted things?
—McLandburgh Wilson in New York Sun.

Bassett & Washburn,

Greenhouses: HINSDALE, ILL. L. D. Phone Central 1457. Office and Store: 76 Wabash Ave., CHICAGO.

Columbus, O.

The chrysanthemum reigns supreme now, taking its place in everything, from the modest parlor bouquet to the most elaborate decoration. This flower seems to grow in favor more and more every year. Local florists are preparing for a big holiday trade.

NOTES.

A chrysanthemum show was held here November 13 at the club room. Most of the local florists exhibited and some fine stock was shown. Prizes were awarded to the best exhibits. A musical programme added to the pleasure of the evening. Miss Lennon, a well known singer from Boston, favored the club with several vocal selections, accompanied by Mrs. Joseph Sanders.

W. A. Graff and A. M. Hills represented the Columbus florists at the big flower show at Chicago.

C. A. Roth and the Livingston Seed Co. exhibited some fine chrysanthemums not for competition.

Livingstons are holding a chrysanthemum show this week. CARL.

POUGHKEEPSIE, N. Y.—Winthrop Sargent was very successful at the Duchess county show taking first premiums for Begonia Gloire de Lorraine, best basket of chrysanthemums, 12 white blooms, six yellow and vase of 25 crimson.

KUTZTOWN, PA.—Fred N. Baer has gone into the florists' business having built an 18x80 foot greenhouse at the rear of his lot on Main street. Palms and ferns are to have his attention first with possibly cut flowers to follow.

Buffalo.

GOOD BUSINESS.

Good weather and good business the past week has been the sign in the stores. Several receptions gave all plenty of work, chrysanthemums and American Beauties being in great demand. Some very fine Bridesmaid and Killarney roses are coming in at present.

NOTES.

Conrad Frey, of Johnson street, is first this season with a fine lot of Roman hyacinths in pans for table work, also a fine lot in flats for Thanksgiving.

S. A. Anderson had his chrysanthemum show last week and as usual the store was crowded for three days with people admiring the fine exhibit.

W. F. Kasting reports a good crowd and a pleasant time at Chicago. He thinks Buffalo is due for a show after a three-years vacation.

L. H. Neubeck at his cosy store and greenhouse on Main and High streets is very busy this season.

C. F. Christensen of Eggertsville is cutting some fine carnations and chrysanthemums.

BISON.

11-15 Province St., 9 Chapman Place, **BOSTON.**

AMERICAN BEAUTIES, RICHMONDS, CARNATIONS, VALLEY, CHRYSANTHEMUMS.

Hartford, Conn.

The Connecticut Horticultural Society held a chrysanthemum show in connection with its regular meeting November 9.

J. F. Huss, gardener to J. J. Goodwin, showed the largest number of plants and blooms, which included the following varieties: Timothy Eaton, Colonel Appleton, Marie Liger, G. C. Balfour, William Duckham, Idavan, Nellie Pockett and Dr. Enguehard. Two large plants in pots, Dr. Enguehard and Georgina Pitcher, had 100 blossoms on each. Mr. Huss showed also two fine specimens of Cattleya labiata, very delicately colored, shaded from rare white to light pink.

Walter L. Goodwin showed a plant of Wm. Duckham which had 120 open blossoms. From the Elizabeth park greenhouses were specimen blooms of Ben Wells, Mrs. Wm. Duckham, Mrs. Geo. A. Mayer, Mrs. Coombes, Morton F. Plant and Valerie Greenham, with a collection of hardy plants.

President Adolph C. Sternberg, of West Hartford, presided at the meeting. Mr. Sternberg, calling attention to the handsome exhibit, said that just such exhibits were needed to arouse the public to the aims and purposes of the society. He asked experts present to tell the best way to grow specimen blooms for exhibition.

Peter Zuger, head gardener at Elizabeth park, said that there was no secret about it, it simply required good plants, good judgment and common sense. Large pots were not necessary, a 6-inch pot being just as good as a 10-inch pot. Gardeners generally fed nitrate of soda, ammonia, Clay's fertilizer and sheep and cow manure. If such stimulating food was fed, the kind should be changed weekly. The chrysanthemum was not subject to many diseases, mildew and rust being the troubles to be guarded against by careful watering. Over watering was the chief cause of those troubles. He thought that any amateur with a love for plants could grow chrysanthemums successfully. He was a judge at a chrysanthemum show in New York recently and thought that Hartford growers could hold their own with those in the metropolis. As to the fashion in the blooms, he thought the public now wanted small pompons rather than the large blooms.

J. F. Huss described the method of growing Cattleya labiata, which was formerly considered a secret. He said that the orchid could be grown by anybody having a small greenhouse.

Chairman Sternberg, in introducing Judge Dewey, county commissioner and sheriff-elect, told of the time, years ago, when Mr. Dewey offered the use of a room in the building to the society. He thanked Mr. Dewey in the name of the society for what he had done for it. Judge Dewey expressed his pleasure at being present and his admiration for the exhibits. The next meeting will be held November 23, when there will be an exhibit of begonias and cyclamen. K.

SOMERSWORTH, N. H.—Work is progressing rapidly on Mr. Ramsburg's new greenhouses, near his residence on High street.

Providence, R. I.

The annual chrysanthemum show of the Rhode Island Horticultural Society, brought out a good display of flowers, but the attendance was no improvement over former years. John Macrae was in evidence with his remarkably fine sport of yellow Eaton, which he has named Golden Dome, and which was easily the show flower of the exhibit. Mr. Macrae also won premiums with his fine carnations, although the bulk of this display fell to J. H. Cushing, of Quidnick, whose carnations are always high class flowers. Mention should be made of the terribly poor keeping qualities of pinks in the exhibition hall, due probably to the absence of sufficient ventilation, but the fact remains that 24 hours put a crimp in them. The society undoubtedly does the best that can be done with their appropriation, but it is regretable to note the public apathy with regard to the show. Fred Luther of Atlantic avenue made a fine display of sword ferns, especially Nephrolepis Whitmani and the advertisement was worth all the effort.

M. M.

MANCHESTER, MASS.—Wm. Spinney, gardener to T. Dennie Boardman, was injured in a runaway accident September 19. Mr. Spinney had been trimming the trees, and it is believed that one of the falling limbs struck the horse, causing the animal to bolt. He was standing in the wagon and was thrown out, his head being caught between the wagon and the trunk of a tree. One ear was torn off and his skull was fractured.

Lenox, Mass.

The regular meeting of the Lenox Horticultural Society was held November 17, President S. Carlquist in the chair. The chrysanthemum exhibition committee reported finding a balance on the right side. Several of the members gave some instructive and interesting talks of various exhibitions that they have attended. A rising vote of congratulation was accorded A. J. Loveless, on his election as president of the Chrysanthemum Society of America, and we feel greatly honored that a member of our body is elected to such a prominent position. First class certificates were awarded to S. Carlquist for Chrysanthemum Japan and E. J. Norman for Cypripedium Josephianum. G. F.

Millbrook, N. Y.

Roses and carnations are doing fine at the Daheim greenhouses and a number of each are being cut daily.

H. H. Flagler has finished his new greenhouse and expects to raise only bedding plants.

Altamont greenhouses are closed for the winter.

BROOKLYN, N. Y.—George Lastus of 28 Broadway was assaulted by a Greek, George Agelopoulow, who had been in his employ and who claimed there was $3 coming to him. The florist was just quick enough to avoid a blow with a stiletto from the Greek, who made off when the police appeared, but was afterwards captured.

THE LARGEST, BEST EQUIPPED, MOST CENTRALLY LOCATED WHOLESALE CUT FLOWER HOUSE IN CHICAGO.

32, 34, 36 RANDOLPH ST., CHICAGO.

L. D. 'Phones Central 1978 and 1977.

Chicago Notes.

The Ernst Wienhoeber Floral Co. supplied the flowers for the funeral of Mrs. R. F. Howe, sister of James Deering. Over 300 orchids were used and 6000 lily of the valley. It was the biggest funeral that has occurred on the north side for some time.

Peter Reinberg expects to make a heavier cut than ever before of red roses. Both Richmond and Liberty are in crop, and Uncle John and Chatenay are in fine shape for the Thanksgiving trade.

The J. B. Deamud Co. is offering chrysanthemums, carnations and green goods. This firm has just received a fresh shipment of boxwood in all sizes.

The E. F. Winterson Co. offers Enchantress carnations, Richmond, Bride and Bridesmaid roses and white and yellow chrysanthemums in quantity.

The A. L. Randall Co. is offering the better grades of chrysanthemums. Carnations and tea roses also are in good supply.

Zech & Mann are offering yellow and white chrysanthemums, also Maud Dean. Tea roses are a leading item with this firm.

E. C. Amling is receiving quantities of chrysanthemums. Sweet peas, bouvardia and mignonette are seen here.

The aged mother of John Zech passed away last Friday morning.

Visitors: Fred Mansoff, Brandon, Manitoba; Wm. Crossland, representing Northrup, King & Co., Minneapolis, Minn.

TRADE A LITLE SLOW.

Trade still remains slow, the dull weather being a large factor and the approaching holiday perhaps another. One large grower asserted that but for the shipping trade last week the market would have gone to smash. Still there were one or two days when the local demand assumed quite a normal tone. Chrysanthemums are coming in plentifully as ever, especial the white and yellow varieties. The pink, too, are fairly abundant, and the deep red Intensity is also seen. Roses are abundant enough this week, there being plenty of American Beauty to go around. Bride and Bridesmaid are the varieties in largest supply, other tea roses also coming in nicely. Carnations are good property this week. The crop is fairly heavy but prices remain at a fair figure. Enchantress is the carnation seen in the greatest quantities, with Boston Market, White Cloud and Lawson also well in evidence. Violets are short, most of the supply going to help out at the New York horse show. Lily of the valley too, is a scarce article. Paper White narcissus is showing up on many counters. Sweet peas, mignonette and bouvardia are also among the offerings. Green goods of all sorts are in abundant supply. Boxwood is now offered in quantities and is meeting with a very satisfactory demand.

HEAVY STOCKS OF GROWERS AND DEALERS.

There is every prospect of a good Thanksgiving business this year. As one grower may be in full crop with one kind of stock and another grower as well supplied with a different kind, we submit herewith a report of the heavy supplies in sight as gleaned from various concerns in the wholesale market:

Poehlmann Bros. are cutting yellow and white Eaton, Golden Wedding, yellow and white Bonnaffon, Maude Dean, Englehart and Mrs. Perrin chrysanthemums. Roses are also in good crop, Richmond, Kate Molton and an unnamed sport from Chatenay, of a darker pink than the parent variety. Harrisi lilies and stevia are also shown in quantities.

Wietor Bros. will cut for Thanksgiving some excellent chrysanthemums, especially golden and white Chadwick, Golden Wedding, yellow and white Eaton and yellow and white Bonnaffon. They will also be in with a fine cut of tea roses and prospects are for a good cut of American Beauty.

The E. F. Winterson Co. is supplying quantities of Paper White narcissus to the retail trade. Mr. Winterson says that while it is a little early for this fine flower to be in stock still he has been furnishing it to the Ernst Wienhoeber Floral Co. for the past five weeks.

Weiland & Risch are having a fine cut of roses and carnations. Violets are also a leading specialty with Weiland & Risch, who are contemplating the erection of a new range of eight houses for violets and lily of the valley as early as the frost is out of the ground.

J. A. Budlong is cutting Bride, Bridesmaid, Richmond and American Beauty roses. Carnations and violets are also a strong feature. In chrysanthemums the largest offerings will be of white and yellow Eaton, Golden Chadwick and Jeanne Nonin.

Bassett and Washburn are coming in with white and yellow chrysanthemums of choice commercial varieties. Tea roses, such as Maid, Bridesmaid, Chatenay and the red sorts. Carnations also are coming in heavily.

Scheiden & Shoos have a good lot of yellow and white Eaton and Ivory chrysanthemums coming in. Their carnations are also in fine crop, especially Enchantress.

Percy Jones is receiving a fine grade of Bonnaffon and Chadwick chrysanthemums, both yellow and white, also the leading varieties of carnations and roses.

Sinner Bros. will have their usual supplies of Bride and Bridesmaid roses, carnations and chrysanthemums. Paper White narcissus is also offered.

The Benthey-Coatsworth Co. will have their customary crop of the leading tea-scented roses.

The Chicago Rose Co. is handling a fine lot of Bride, Bridesmaid, Killarney and Richmond roses, also an excellent grade of chrysanthemums.

The Kennicott Bros. Co. have a plentiful supply of carnations. This firm is also receiving an excellent cut of Bonnaffon chrysanthemums.

Vaughan and Sperry are displaying with satisfaction some extra fancy Queen, Lawson and Enchantress carnations.

E. H. Hunt will have on hand chrysanthemums, also Bride and Bridesmaid roses, sufficient for all calls.

Chas. W. McKellar is in receipt of some fine Dendrobium Phalænopsis and D. formosum.

The J. B. Deamud Co. has just received a fresh supply of boxwood in all sizes.

Philadelphia.

DEMAND FAIRLY ACTIVE.

Business the past week opened up very slowly, but was better by Saturday, when the large football game at Princeton and the Michigan-Pennsylvania struggle in this city created quite a demand for flowers of the college colors. We extend our sympathy to the west, which they will probably return with interest some time next November. Chrysanthemums now rule the flower market, there being quantities of choice blooms on hand all the time. Prices range from $1.50 to $3 per dozen. Bonnaffon, Maud Dean and Jerome Jones are the favorites in their colors. Roses are selling well considering the competition they have. American Beauty is in demand at good prices from $1.50 for 15 to 18 inches to $4 per dozen for the specials. Killarney is still the favorite pink and looks good to hold all winter if not for all time. If it does not displace the Bridesmaid, it will hold its own in the race and has certainly come to stay. Carnations are improving. Robert Craig is showing up as a great scarlet, as is also the Victory. The price for these and other specials holds at $4. Violets were very scarce last Saturday. The New York section furnished most of the doubles, which ranged in prices from $1.25 to $2 per 100. Orchids have been in good demand; the cattleyas, being very scarce, advanced to 60 cents each. Cypripediums sell from 12 cents to 15 cents. Narcissi are in and are selling at from $3 to $4. Chrysanthemums in pots are having their innings, many of them being used in the decorations. Some of the stocks are very fine.

NOTES.

H. Baversdorfer & Co. removed to their new store and factory, 1129 Arch street, November 19. Here they have a building in the center of the city with a floor space of 26,000 square feet. There are four floors, a large airy basement and a roof garden, where the band will play next summer. The first floor contains the offices and large show rooms, while the second floor is entirely filled with the very best in the basket line. Such an assortment is seldom seen and we question if its equal is to be found in the country. The third floor contains large stock rooms and on the fourth is the factory or creative department where the staple goods are manufactured and the new ideas and novelties are worked out. Above this is the roof garden, which will be useful also in many other ways. A large elevator in the rear runs from basement to fourth floor. Altogether it is one of the most complete establishments of its kind in the country, while the central location right in the business center of the city will be a great accommodation to the trade. Messrs. Bayersdorfer and Berkowitz are to be congratulated on their enterprise in making this move.

The Leo Niessen Co. is again first in with the bronze galax, the shipments arriving November 14. They are a fine lot of well colored leaves. A splendid lot of American Beauty roses are seen here and the outlook for Christmas is very promising, as Mr. Niessen says his growers report a splendid December crop.

S. S. Pennock-Meehan Co. is very busy in all departments. From eight to nine in the morning its store is crowded with customers and with its 35 employes all hustling about the place has every appearance of an up-to-date market.

Wm. McKissick offers new and scarce things, bouvardias, sweet peas and other odd things that gladden the heart of the retailer. His stock of pompon chrysanthemums is holding out and selling well.

Stoke's Seed Store is a very busy place these days. Large quantities of bulbs have been handled, while the demand for lily of the valley pips, a specialty here, is away ahead of last season. K.

Boston.

TRADE DULL.

The past week has been a dull one, with no great demand for any particular class of work, making the market lifeless, in contrast with the activity which for the last fortnight has kept the retailers on the jump. This condition is the result of the first severe weather of the winter, the temperature reaching 23° on two days, also a continued spell of dark weather which resulted in a shrinkage of the general stock. Carnations and violets shortened up exceedingly towards the end of the week. The famine in the violet market was most seriously felt and the prices ran up quickly, reaching impossible figures for the small purchasers. Few were sold at less than 75 cents per 100 while many brought $1. All the week carnations had been very plentiful and reasonably cheap, but they too felt the effects of the poor growing weather. Chrysanthemums occupy the most prominent position on the market and are the best products seen this season in this line. All the best varieties are being cut but still the stock is below the standard for this time of year. Yellow and white Timothy Eatons find most favor with buyers and their customers, and are really satisfactory varieties. Excellent Bonnaffon of a grade above the average is among the best varieties on sale at present. Dr. Enguehard is no doubt the best pink bloom and Maud Dean and Mrs. Perrin rank next. The demand for roses has fallen off slightly, their quality also has deteriorated. American Beauty roses continue to sell well and for the greater part are medium grade in length of stem, while the blooms are equally as good as on the longer grades. Killarney is rapidly improving and popular. Gardenias and orchids, especially cattleyas, are very plentiful, the demand constantly growing.

NOTES.

The annual meeting of the Massachusetts Horticultural Society was held November 17 at Horticultural Hall. The principal business before the meeting was the election of officers, and with two popular candidates up for the position the contest was very sharp and spirited. Stephen M. Weld was finally found to have been elected over his rival, Warren R. Rawson, of Arlington. Mr. Weld lives in Dedham and comes of an old and wealthy family which for generations has been prominent in the highest social and business circles of the state. He is identified with the cotton trade and a veteran of the civil war. Many of his relatives have been interested in the society since its inception and adorning the wall of the hall at present is a portrait of Aaron D. Weld, one of the new president's ancestors.

Arthur F. Estabrook, the retiring president, called the meeting to order at 11:15. Hon. Aaron Low, of Hingham, read a memorial in honor of the late Benjamin P. Ware, of Marblehead, for 41 years a member of the society, for the last seven of which he was its vice-president. The sum of $5,500 was voted for prizes and gratuities for the ensuing year. Other officers chosen were Charles S. Sargent, of Brookline, vice-president for two years; W. N. Craig, A. F. Estabrook, J. K. M. L. Farquhar and A. D. Hill trustees for three years; W. H. Heustis, A. F. Estabrook, William Nicholson, E. B. Wilder and Loring Underwood for the nominating committee.

Leonard J. Doyle, son of the well known retail florist, Wm. E. Doyle, died suddenly November 12 at 10:30 p. m. While in his usual good health and spirits he was suddenly stricken with heart disease at his father's home where he resided. He was very well known among the trade, being connected with his father's business, and his death was a great shock to his numerous friends, among whom he had been spending the evening.

W. H. Elliott and Alexander Montgomery have returned from the west where they have visited many of the famous growing establishments and in which they were greatly interested. Glowing tributes from these well known propagators are being paid to the abilities and accomplishments of their western fellow craftsmen.

Pierce Bros. are rather late in the chrysanthemum market but they have made up for their delay with the quality of their stock. They are now cutting in quantities a fine stock of superb white and yellow Eaton which are among the best blooms displayed this season.

Mann Bros. are now cutting the first of their large crop of Easter lilies, which are from a July planting. This is unusually early for these flowers and their stock is larger than ever this season. B.

MARKET QUIET.

Considering the time of year there is a lack of the vim and snap which one might very naturally look for in the market at the present. Arrivals clean up, it is true, but here and there transactions are closed on a sacrificial basis. The speculator and street merchant are both needed factors in the daily consumption of stock although the deals made do not appear as such on the commission man's books. The violet problem has been somewhat bothersome during the past few days. A steady advance in values culminated on Saturday in a price beyond the reasonable quotation mark, and there has been some effort made to keep values somewhere near the point attained. The Yale-Princeton football game at Princeton last Saturday undoubtedly helped the situation, but whether or not it can be continued remains to be seen. The supply of violets in this city this season is, beyond question, lighter than in previous years, and growers' shipments to the west are known to be larger. Roses are not particularly lively in their movement and really good stock is not too plentiful. Poor stock is heaped on every hand, and it is sometimes surprising that it moves at all. American Beauty is at about the perfection point. Killarney and Chatenay are good things which require very little pushing when they approach the required standard. Bride is in somewhat better supply than it has been but is still far from being plentiful. Carnations are not over plentiful, and the general run of arrivals is a little off in quality. Some of the newer sorts are to be found on the wholesalers' tables, notably Winsor and Mrs. C. W. Ward. Enchantress appears to be more popular than ever this season in spite of its sleeping propensities. Chrysanthemums are about at their zenith, but values are still good. Varieties like Bonnaffon, Appleton, Wm. Duckham and Ivory hold up the top of the price scale. There is quite a lot of bouvardia coming in, with the new large flowered variety quite prominent. Jasmine is also arriving daily from a New Jersey grower, and sells readily. Paper White narcissus is making its appearance.

NOTES.

Large fir cones seem to be the thing for use in Thanksgiving window settings with a light strewing of autumn leaves, and a plant background. They help out a show of chrysanthemums wonderfully. Fleischman has a window setting typical of horse show week. A number of small bronze horses are disposed in open array on the window base, with chrysanthemums and American Beauty roses.

One of the novelties seen among prominent retailers is a birch bark plant holder, a flaring square in shape, with hand painted Indian figures and camp scenes on the panels.

According to figures recently put out by the new bureau of municipal investigation the cost of maintenance of the parks of Greater New York for the past year was $2,803,357.

R. Dreyer, of Woodside, L. I., is very strong just now on small ferns. His shipments to wholesale districts show stock of the highest quality.

C. H. Totty continued his western trip to Nevada where he inspected some mines in which he is interested. He arrived home this week.

Frank Reffa has moved from Cypress Hills and is now running four greenhouses at Highland Park, where he is growing general stock.

The plant wagon has been a familiar object in front of C. W. Eberman's store this week.

Anton Schultheis is sending in some fine lily of the valley to Joseph Fenrich.

Washington.

BUSINESS RATHER QUIET.

With President Roosevelt in far-away Panama, with half of the cabinet officers resting after their strenuous efforts to save the country, and the other half in a flutter over contemplated cabinet changes, for the present, social functions have sunk to insignificance. There has, however, been quite a brisk counter trade in chrysanthemums and other cut stocks, though good carnations are still scarce. Roses steadily improve in quality and many good blooms are being used in funeral work.

NOTES.

Though Washingtonians cannot vote, they take keen interest in the political fate of many members of congress, particularly those who have been prominent in the affairs of the district, or who for other reasons have become well known and popular. There is regret over the defeat of Representative Wadsworth, of New York, chairman of the house agricultural committee. Mr. Babcock, of Wisconsin, chairman of the district committee, has also fallen. His position brought him in close relations with the citizens of Washington, by whom he was highly esteemed. On the other hand, there is a feeling of exultation with many, that several of the young and popular men of the house will come back with flying colors. Of these, Nicholas Longworth, the president's son-in-law, Butler Ames, of Lowell, Mass., and Phil. Campbell, of Kansas, may with others, be mentioned as favorites with society and business people.

The chrysanthemum shows at the Department of Agriculture and U. S. Propagating Gardens have been great attractions during the week. On November 7 there were a number of distinguished visitors, among them being Viscount Aoki, ambassador from Japan to the United States, and Sir Chentung Liang-Cheng, Chinese minister. As Japan is supposed to be the "ould sod" of the plant, a chrysanthemum opinion from its official representative must be worth something. So, when he said that the flowers in the show at the gardens were larger and better than any he had ever seen at home, everybody conceded that the matter was settled, and, the next time Mrs. Millyuns swats a Washington florist with the chrysanthemum I bought in Japan, she will get the viscount's remarks handed back to her.

The regular monthly meeting of the Florists' Club was held on the night of November 6, election night. The place of meeting has been changed from the Scottish Rites hall to 1214 F street, over the Gude Bros. Co.'s store. As the interest in the elections overshadowed all other matters but little business was transacted.

Ask a Frenchman for something good to eat and a Chinaman for something new to eat. This is where Sir Chentung comes in. He says that chrysanthemum leaves make a good salad if they are properly prepared. This should be good news to some of the retailers who usually get overstocked about this time.

Christian Schellhorn is making a fine cut of yellow and white Bonnaffon chrysanthemums. His roses and general stock are also keeping well up in the procession.

Other notable visitors to Col. Brown's show were the French ambassador, M. Jusserand, and his wife, both noted for their love of flowers.

Both shows have had many visitors, the department being open each evening until 9.30.

The Minder Bros. are sending in fine blooms of the pink chrysanthemum Amorita. S. E.

Department of Agriculture Plant Pointers.

Just now, very interesting features of the work at the above named department's plant bureau, are the carnations and chrysanthemums. Dr. Galloway, chief of the bureau, Prof. Woods, vegetable pathologist, and E. M. Byrnes, superintendent of greenhouses, all take great interest in the flowers which are the staple product of commercial greenhouses. They have labored and will labor for the improvement of old varieties by careful experiments in culture. Prof. Woods has made valuable contributions to current information on the diseases of carnations and their remedies. The results of the work of Prof. Woods and his associates in the division of vegetable pathology have been from time to time recorded in bulletins sent out by the department. These bulletins contain information valuable to all who may find it necessary to contend with diseases of plants.

Superintendent Byrnes is now taking great interest in his chrysanthemum exhibit. A yellow seedling of 1905, which was named Mrs. Roosevelt by Secretary Wilson, shows up this year in fine form. It is just the size for a good commercial chrysanthemum, incurved and compact, the color being a golden yellow. The foliage is all that could be desired.

George W. Oliver, the expert plant breeder of the bureau, is constantly at work on something in the line of hybridization. At present there is to be seen a large number of seedling carnations. In the lot are several that give promise of future prominence in the carnation world.

There is an interesting and very handsome exhibit of pompons, ideal as pot plants. Noteworthy are Fred Peele, pink, and Ruby Queen, the name of the latter indicating the shade of color.

Though now under glass, the plants which comprise this exhibit were grown in pots in open frames. S. E.

The Seed Trade.

American Seed Trade Association.
H. W. Wood, Richmond, Va., Pres.; C. S. Burge, Toledo, O., First Vice-Pres.; C. E. Kendel, Cleveland, O., Sec'y and Treas. Twenty-fifth annual convention at New York, 1907

VISITED CHICAGO: Watson S. Woodruff, of S. D. Woodruff & Sons, Orange, Conn.

HOLLY.—The river bottoms in Tennessee, where the best holly grows, are under water this week with the highest floods recently known.

DES MOINES, IA.—The Iowa Seed Co. celebrated the thirty-sixth anniversary of the establishment of the firm November 9. Souvenirs of the occasion were given away to the hundreds of friends who called to congratulate the management. Thirty-six years of successful business has made the Iowa Seed Co. well known throughout the country and under the capable management of Chas. N. Page, immense strides have been made. A plot of ground containing 9,000 acres is used for seed growing, 31 greenhouses supply the cut flowers and many large warehouses are used for the seed and corn stocks.

ROGERS BROS., of Chaumont, N. Y., during the past few years have been gradually transferring their business of growing peas and beans to Alpena, Mich., growing their stock of peas in northern Michigan and their beans in central Michigan and western New York. They have recently sold their seed house at Chaumont to a milling concern which handles feed and farm produce. The Jefferson county, N. Y., section was once a favorable location for growing peas and beans, but the bugs became so thick and other conditions so unfavorable to the growing of peas that Rogers Bros., together with others in their line, were forced to grow their stock elsewhere.

Turf and Manure.

United States Vice-Consul C. Karminski, of Seville, writes concerning the effect of turf upon ordinary manure, as follows: Director Immendorff, of the agricultural test station at Jena, Germany, advocates the use of turf as a means of preserving manure. Results obtained through experiments in and about Jena demonstrates that the use of turf is far more efficient in preventing loss of nitrogen, while fermentation is in progress, than is sulphate of lime, phosphate of lime, sulphuric acid, etc. Turf permits the escape of but very little nitrogen, while the application of the above-named chemicals is most deficient in result and expensive. The discovery of Professor Immendorff merely corroborates experiments of a similar nature conducted by Italian agriculturists.

Farmers Hit Free Seeds.

A severe blow was dealt the free seed farce by the National Farmers' Congress, held recently at Rock Island, Ill. Congressmen have always claimed that the farmers wanted the seeds, but the farmers take a very different stand. Here, for instance, is a resolution adopted at the above meeting:

"Resolved, That we are opposed to the systems of seed distribution as now conducted by the federal government, but believe in the work of exploring foreign countries for such seeds and plants as may be profitably introduced into this country, and recommend that the money expended for seed distribution as now conducted be added to the fund for maintaining American seed and plant explorers in other countries, under direction of the United States Department of Agriculture, and the distribution of the same among the agricultural experiment stations of the country for practical test.

H. N. Bruns, Chicago.

This is an age of the specialist, and H. N. Bruns, though growing other stock well, has paid very special attention to importing and growing the very best lily of the valley. Three long low span roofed houses are devoted to the forcing of this important crop, each having closed-in benches on either side such as are generally used. A regular and large supply is kept up by planting almost daily and the plants can always be seen in every stage of development.

The average number planted weekly is 25,000, though many more are used at times of special stress. In all stages the plants look remarkably well, the crop now cutting having very large deep green foliage with flowers thrown well above it, the blossoms being plentiful on the spikes and large individually. The pips are planted closely and watered in, the lids of the cases being then put on, and they are kept quite in the dark until the flower spikes are well developed. The light is then gradually admitted and the foliage which up to now has been nearly white soon turns to a fine deep green.

This only applies to the cold storage pips that are used after the natural flowering season of the plants is over. The new crop of pips that come in autumn are grown in the full sun and light, so as to develop the leaves as much as possible. Otherwise flowers would be produced but no foliage, and this beautiful flower, more perhaps than any other, looks best when arranged with its own leaves.

As noting the reliable class of pips H. N. Bruns handles we looked through a whole large case containing some thousands of pips, and not one that we

Braslan Seed Growers Co.

WHOLESALE SEED GROWERS.

SAN JOSE, CALIFORNIA.

could see had missed flowering, or producing fine handsome leaves. But in a nearby case where a few hundreds that were purchased from another firm were grown there were quite a number that had never started at all, but damped off, while others that had started were not regular, yet the pips looked just as good when planted. This shows the absolute necessity of obtaining supplies from a firm who knows what it is handling, and how to handle it, if good results are looked for.

Pittsburg.

CHRYSANTHEMUMS TOO PLENTIFUL.

The climax of the chrysanthemum season came during the past week all kinds and varieties being present in such quantities that all could not be handled. The cool weather of the past few days shortened the supply very materially and by the week end they again were seen in movable quantities. Roses are over plentiful but still there are not enough carnations. Violets are still short of supply.

NOTES.

The Valley Greenhouses, Sewickley, and Patrick Maier, Millvale, are sending in an early cut of Paper White narcissus.

Mrs. Elicker of Homestead was severely shaken up in a street car collision November 16.

P. J. Demas has returned from a business trip in Ohio and West Virginia.

Geo. L. Huscroft left for New York during the week.

Visitors: J. N. Spanibel, East Palestine, Ohio: J. T. Neville, Chester, W. Va.; Martin Reauk of Philadelphia, and C. E. Sullivan of New York.

F. R. PIERSON CO., Tarrytown-on-Hudson, New York

The Nursery Trade

American Association of Nurserymen.
Orlando Harrison, Berlin, Md., President; J. W Hill, Des Moines, Ia., Vice-President; George C. Seager, Rochester N. Y., Sec'y.
Thirty-second annual convention, Detroit, Mich., June, 1907.

RIEHL'S Eclipse grape is believed to be a good one and is likely to be pushed the next year or two.

UNSIGHTLY walls or other places in the garden may be hidden by planting the pretty Spirea hypericifolia and allowing it to droop and run over them just in its own way, not troubling to prune it. It will grow anywhere, and the white flowers are very attractive in spring.

IN sheltered hollows, especially if the soil is inclined to be wet and peaty, the mollis and pontica varieties of azalea do finely, the beautiful soft tints of color and sweet perfume being in their favor. Peat is not exactly essential to their well being, any good soil being suitable that does not contain lime in quantity.

THE tree of Heaven, Ailanthus glandulosa, although a beautiful tree both in habit and appearance, should not be planted on a good lawn, as the falling leaf stems make an untidy mess in autumn. In a small state it is a fine subject for planting in the centre of subtropical beds, while as a full grown specimen it has few equals in grace of habit.

IN the more favoured locations aucubas should prove fine subjects for shrubberies and dressed grounds, but they are too tender for the more northern points. Although the foliage of the female plant is fine, even without the beries, yet a few of the male aucuba should also be planted, to ensure fertilization, and an abundant crop of the bright red berries. These, against the beautiful shining green and mottled leaves, have a fine effect.

MOST people are familiar with the common Weigela rosea, one of Fortune's many discoveries in China when he was collecting plants for the Royal Horticultural Society of England many years ago. But fine as this old shrub is, it is quite outclassed by the many new varieties since raised by hybridists and selectors. The flowers of these are larger and varied in color, while they are produced equally as freely as those of the old kind when the plants are well established.

NATIVE plants seldom get the attention they deserve, and this is true of the charming trilliums or wood lilies of the American and Canadian woods. Although they delight in the rich soil and abundant moisture of the cedar swamps, yet they do well in any moderately moist and shady part of the garden. Incidentally these wood lilies are fine for gentle forcing, or rather forwarding, in early spring. No great heat must be given but just the protection that a quite cool house affords.

EVERGREEN climbers are not too plentiful, and a really good one is the evergreen honeysuckle, Lonicera sempervirens. The foliage is a fine deep green, the tubular flowers bright scarlet and yellow. During the present autumn, in September, we noted in a northern garden a pretty combination of this fine honeysuckle on a wall, behind a border planted with the white Funkia grandiflora alba, and the effect was very fine. But the honeysuckle begins to flower early, and goes on until stopped by frost. It is quite hardy and thrives in any good garden soil.

As an effective plant for grouping for landscape work Yucca filamentosa should not be lost sight of. Frequently as it is grown as single specimens or in pairs, and it is very fine here, it is not sufficiently known as a good subject for grouping in prominent positions in the dressed grounds. It is always attractive, but doubly so in winter, when its fine green foliage shows up well among gloomy surroundings. The well known fine spikes of flower alone would make it well worth growing. Good culture is essential but not over rich soil. If the beds are well made in the first place, deeply dug and moderately enriched with manure, an annual or biennial dressing with compost or decayed manure will keep all good.

PERHAPS there is no other plant that a big display can be made with so cheaply as the oriental poppy. A packet of seed can be had for a few cents and from this hundreds of plants can be raised. Poppies do not take kindly to transplanting, so should be got into their permanent positions as soon as possible. The contrast of the immense scarlet flowers and the deep green fern like foliage is fine and there is nothing in the whole range of hardy flowering plants so effective in the landscape. The only requirements of this plant are ample room for its full development and a rich soil. Single specimens five feet high and 20 feet in circumference are not uncommon under these circumstances, and large blocks or beds may be planted, which during July and August will be quite a blaze of color. There are many light colored varieties but the crimsons and scarlets are best. Although strictly perennial the finest blossoms occur on two and three year old plants.

Cleveland, O

BUSINESS GOOD.

Chrysanthemums have full sway in this market at present, but there seems to be a scarcity of first class stock. Carnations are still scarce, hardly enough coming in to supply the demand. Violets are coming in fine, both double and single varieties selling well. Plenty of American Beauties are to be had, but like all other roses, take a back seat in chrysanthemum season. Pansies, sweet peas and lily of the valley have put in an appearance, and are picked up quickly by the retailers.

NOTES.

Westman & Getz have bought the interest held by Carl Hegenberger in the new store on 55th street and will carry on the business in the name of Westman & Getz.

Schraner and Steinbrenner had a fall opening to their customers November 17-18 which was well attended. Their display of plants and cut flowers was very fine.

The James Eadie Co. are sending in some of the finest chrysanthemums seen in this market. They retail all their product at their store on Euclid avenue.

Mrs. E. G. Wilson had some large pieces of floral work to send to Connecticut for the one hundredth birthday of Moses Cleveland.

F. W. Griffin will in the near future offer the trade a new plant stand for window display work which promises to be a hummer.

The F. R. Williams Co. are sending in some extra fine pansies; at present they have 3,000 plants to cut from, mostly purple.

Horace G. Weltz has opened a new store on E. 105th street, near Euclid avenue; this should prove to be a fine location.

After discontinuing the florist business for about a year G. H. Stehn will again open up a retail store on the south side.

Des Moines, Ia

TRADE LIVELIER.

Trade early this week was a little more lively than it was last week. Roses and chrysanthemums are very plentiful, but they do not move as fast as the dealers would like to have them. Carnations are coming in a little more plentiful, but still the demand is greater than the supply.

NOTES.

The many friends of Mrs. Geo. Sherman of Lozier's east side store, will be pleased to learn that the operation at the Presbyterian hospital in Chicago on her son, who swallowed a tack a few months ago, was very successful.

Mrs. Harvey Lozier, who underwent a serious operation at the Mercy hospital a short time ago, is doing nicely, and expects to be home again in a short time.

The Alpha Floral Co. displayed some very fine chrysanthemums, also some fine Mrs. Marshall Field roses, in their Walnut street window this week.

Miss Alice Kinney, formerly with the Alpha Floral Co., but now with A. G. Lozier, is confined to her home by poisoned hands.

The Iowa Seed Co. celebrated its thirty-sixth anniversary in business recently.

The Watrous Nursery Co. suffered a loss of about $2,000 from a fire last week.

Miss Mamie Doran spent a couple of days in Chicago during flower show week.

Mrs. Ida C. Hayes, of Tacoma, Wash., was a visitor in the city a short time ago.

A. G. Lozier left last week for Texas where he will spend the winter.

M.

Brandon, Manitoba.

Fred Mansoff, who sold his plant some time ago to A. E. McKenzie & Co., has returned from a shooting expedition, 840 head having fallen to his gun and that of his son in five weeks. Fred called on most of the Winnipeg growers but found carnations generally very backward there. He is now on a general tour of the U. S. and Canada taking notes of the various places and picking up pointers for the erection of his new plant, which he is going to personally attend to at once.

A piece of ground of ideal character for the purpose has been secured, the soil a rich light loam, with an abundant water supply, the water being free from alkali, and at a good pressure. The increasing value of real estate round Brandon is well shown by the fact that he has been offered $11,000 for the land in question which he purchased quite recently for $2,500. The houses are to be 300 feet in length, heated by steam, and used for the growth of carnations, roses and violets principally. F. Mansoff says that violets do not suffer much from any of the fungoid and other diseases in the good air of Brandon and the soil is well suited to their culture. Considering that he has only been in Canada 15 years, and in business only 7 years out of that, Fred has every reason to be satisfied with his progress. He reports 20° below zero at Edmonton November 19.

Prepare for Thanksgiving and the Holidays.

WATCH ☛ PROSPERITY ☚ LOOK

Election is over, the country is settled to its normal condition. **Great prosperity** is in sight for us all. Why not for you? A little **fortune lays before your door.** Grab it now where there is a **chance for you. Look** at others; see how successful they are. Why? Because they are **wideawake.** They watch every opportunity and take advantage when bargains are offered.

A big demand is in sight now and for the ensuing holidays for the so much admired **decorative plants,** the **Araucaria Excelsa, Araucaria Excelsa Glauca,** and the **Araucaria Compacta Robusta.** What do you think? Where will you buy them? Surely from a man who makes a specialty in **importing Araucarias,** and who can offer you **bargains.** Godfrey Aschmann is the man who has the reputation for the last ten years as the great **importer** and **dealer** in **Araucarias** of America.

PRICES SLAUGHTERED ONE-HALF THE NORMAL.

Prices **never** offered so low in the history of Araucaria cultivation. Why is that? For the simple reason, to obtain room to cultivate our great Easter stock. About 5,000 Araucarias, with an immense lot of Palms, Ferns, Azaleas, Rubbers, Begonia Gloire de Lorraine, etc., must be sold by Christmas.

☞ Please take notice. In all the Araucarias only spring importations are offered: raised in pots all summer, and can be shipped any distance safely without drooping.

ARAUCARIA EXCELSA

5½-in. pots, 15 to 18 in. high, 4 to 5 tiers, 3 years old, 60c; 5½ to 6-in. pots, 18 to 23 in. high, 5 to 6 tiers, 4 years old, 75c; 6-in. pots, 23 to 25 in. high, 5, 6 to 7 tiers, 4 years old, $1.00; 6 to 7 in. pots, 25 to 30 in. high, 5, 6 to 7 tiers, 4 years old, $1.25; 7-in. pots, specimen plants, from $1.50, $1.75 to $2.00 each.

ARAUCARIA COMPACTA ROBUSTA—have several thousand of them: can supply all wants. These plants were never so fine in shape and condition as this year. The pet of the greenhouse: as broad as long. 6-in. pots, 3 tiers, 12 to 14 and 16 to 18 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 18 to 20 and 22 to 25 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7-in. pots, specimen, 6 to 7 tiers, and 25 to 30 in. high, same wide, 5 years old, $2.00 to $2.50 each.

ARAUCARIA EXCELSA GLAUCA—this variety on account of its beautiful green-bluish tiers, dwarf habit, fine compact shape, gives it a striking appearance, and anybody seeing the plants must undoubtedly fall in love with them at sight. 6-in. pots, 3 tiers, 14 to 16 and 18 to 20 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 20 to 25 and 25 to 30 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7 in. pots, specimen, 5 tiers, 30 to 35 in. high, same wide, 5 years old, $2.00 to $2.50 each.

All these plants are as broad as long; the finest you have ever seen.

KENTIA FORSTERIANA, 7-in. pots, made-up plants, 1 large size, about 45 to 48 in. high in the center, and 3 smaller sizes, 25 x 30 in. high around, which gives them a good appearance, $2.00 to $2.50 each; 6-in. pots, single plants, 36 to 45 in. high, 5 to 6 good leaves, 4 years old, $1.25, $1.50 to $1.75 each; 6-in. pots, 32 to 36 in. high, 5 to 6 good leaves, 4 years old, $1.00 each; 5½ to 6 in. pots, 4 years old, 30 in. high, 5 good leaves, 4 years old, 75c; 4-in. pots, made-up plants, 3 plants in a pot, 18, 20 to 25 in. high, 25c, 30c to 35c each.

ARECA LUTESCENS, 5-in. pots, 24 in. high, made-up with 3 plants, 35c; 4-in. pots, 20 to 24 in. high, made-up with 3 plants, 25c.

ARECA SAPIDA, just imported from Belgium, something new, very attractive, looks like Kentia, 25 in. high, 50c.

OUR LITTLE PETS.

COCOS WEDDELLIANA, 15c.

ASPARAGUS PLUMOSUS NANUS, 4-in. pots, large, bushy, 10c to 12c.

FICUS ELASTICA, or **Rubber Plant,** 6 in. pots, 25 to 30 in. high, 40c to 50c each.

FERNS, all raised in pots and not on benches as follows:

NEPHROLEPIS BARROWSII, 7 in. pots, as big as a bushel basket, 75c to $1.00 each; 6-in. pots, large, ready for 7-in., 50c; 5½-in., 40c; 5-in., 35c; 4-in., 25c.

NEPHROLEPIS SCOTTII, 8-in., as big as a washtub, worth $2.00, now $1.25; 7-in., as big as a bushel basket, worth $1.25, now 75c; 6-in., 50c; 5½-in., 40c; 4-in., 20c.

NEPHROLEPIS ELEGANTISSIMA, 5-in. pots, 30c.

BOSTON FERNS, 7-in., very bushy, only 75c; 6-in., 50c or $5.00 per doz.; 5-in., 30c to 35c; 4-in., 20c

FERNS—A fine assortment of Ferns for dishes, large, bushy, out of 2½-inch pots, $5.00 per 100, 3-inch, 6c each.

JERUSALEM CHERRIES, (or Solanum), 6 to 7 in. pots, very bushy, full of berries, from $3.00 to $6.00 per doz.

DRACAENA BRUANTI, (imported), 30 in. high, 6-in. pots, 50c, $5.00 per doz.

CYCLAMEN, will bloom for Christmas, 5-in. pots, 20c; 4-in., 12c.

CHINESE PRIMROSES, 5¼-in. pots, very strong, in bloom and buds, $2.00 per doz.

HYDRANGEA OTAKSA, only pot-grown is offered, sure success for Easter forcing, 6-in. pots, 25c; 7 to 8-in., 50c.

AZALEA INDICA, just arrived, selected by myself on my recent trip to Belgium. Have all leading varieties such as Deutsche Perle, Simon Mardner and Vervæneana. These three sorts are good for Christmas forcing. Later varieties: Empress of India, Orolf, Wolters, Niobe, Bernard, Andreas Alba, Mme. Van der Cruyssen and many others, prices as follows: 35c, 40c, 50c, 60c, 75c, $1.00, $1.25 to $1.50 each.

BEGONIA GLOIRE DE LORRAINE, 6-in pots, in bloom and bud, for now and Christmas, 50c to 75c each.

BEGONIA FLAMBEAU, sells on sight, 4-in., ready for a shift into 6-in., 20c.

BEGONIA ERFORDII. New Improved, 4-in., 20c; 5¼-in., 25c.

All plants must travel on **purchaser's risk only.** CASH WITH ORDER.

When ordering, say whether the plants should be shipped in the pots or not.

GODFREY ASCHMANN,

IMPORTER AND WHOLESALE GROWER OF POT PLANTS.

1012 Ontario Street, - - PHILADELPHIA, PA.

Indianapolis.

QUIET TRADE.

The past week was the worst of the season in Tomlinson hall market; there was simply nothing doing and at least 90 per cent of the chrysanthemums remained unsold. The stores fared better, having plenty of funeral work and some decorations. According to orders received by the growers the north side retailers are expecting a good deal of work next week.

NOTES.

The city council is trying to force Park Superintendent Powers to resign; one of the latest moves being to cut his salary to a ridiculously low figure. As Mr. Powers is well known and liked among local florists, the proceedings are being watched with great interest.

Martin Braendlein uses galvanized iron vases for his chrysanthemums, and finds them just the thing to use on the market, being unbreakable, cheap and light and nesting in each other, are easily transported.

Bertermann's have completed a 23x100 foot propagating house, at their Cumberland place. It is their intention to have 40,000 early propagated plants in the field next summer for outdoor blooms.

Wm. Walker, of Louisville, Ky., was in this city on his annual inspection tour. This is the eleventh successive fall that we have had the pleasure of shaking hands with him.

Smith & Young Co. are erecting a cement block waiting station at their stop in Cumberland place.

J.

Osage, Ia.

The new greenhouses of Walter S. Hall were thrown open to the public Nov. 12, 13 and 14, for the annual chrysanthemum show and floral exhibit. The decorations were of Japanese lanterns, flags and festooning, which with the gorgeous display of chrysanthemums made a very beautiful sight. There was a good attendance each evening. On Thursday evening from 7 to 10 o'clock a reception was given by Mr. and Mrs. Hall to 250 invited guests, the office was beautifully decorated and arranged to look like a parlor, where the guests were received, after which they were invited up to the dining room where light refreshments were served. Here the decorations were of green, the flowers used were Timothy Eaton chrysanthemums and green carnations. Music was furnished by Prof. Annis' orchestra.

WANTED.

By retail florist near Washington, D.C., to make arrangements direct with grower to furnish **Five Hundred (500) or more Pink Carnations** twice a week.

Address **Key 845, care American Florist.**

THE NEW

Cyclopedia of American Horticulture.

BY PROFESSOR LIBERTY H. BAILEY.

Over 4,357 articles in all by 450 expert writers, including practically all the best botanists, nurserymen, seedsmen, florists, market gardeners and experimental station horticulturists. Occupying 2,100 pages and covering 24,434 plant names, 2,800 detailed illustrations, enormously increasing the ease of identification, and 146 beautiful full page illustrations.

Every reader of this paper who is interested in farming, in gardening, in trees, in shrubs, and all out of door matters, absolutely needs this set. It takes the place of all others combined on American gardening.

In Six Great Quarto Volumes of 2,100 Pages You Find:

Descriptions alphabetically arranged of all—over a thousand—of the native trees, plants and flowers worth cultivating, with keys enabling you to name any species, as well as to find all information regarding it. Practical articles by leading experts of the country on all phases of commercial plant production and greenhouse management—cut flowers, vegetables, etc.

Fullest cultural instructions for every flower, fruit and vegetable, tree and ornamental plant you may wish to grow.

SPECIAL OFFER.

The regular price is *$30.00.* For a few weeks we are able to offer this new and revised edition with the new material added at *$22.80* cash. This offer will be withdrawn January 1, and the price increased.

St. Louis.

MARKET FIRMER.

The market this week had a much firmer tone. Roses and carnations brought better prices. Violets have greatly improved. American Beauty roses are in demand and scarce. Bright weather will naturally increase the supply. Fancy chrysanthemums are now arriving more freely the show being over. Some very fine Col. Appleton were seen in the market this week. Lily of the valley was in demand and somewhat scarce.

NOTES.

We regret to announce the sudden indisposition of Geo. Angermueller. Last Saturday while waiting on a customer he bruised his knee cap in some manner. The pain was so great he fainted and fell heavily to the floor and was compelled to go home. It is hoped he will be around again the early part of the week. George is very much missed by every one.

The Townsend Floral Co. has made an addition to their greenhouse in rear of store. This firm is building up fast in a fine locality and Mr. Townsend is very much in favor with the ladies. A large ball at Columbia club and several large wedding orders kept this firm very busy the past week.

Geo. Ostertag, superintendent of parks, was last Saturday presented with a very valuable gold watch by the employes at Forest park. George was quite taken by surprise and extremely happy that the employes had shown their appreciation in such a very delicate and touching manner.

The chrysanthemum show at Shaw's garden is well patronized by the public in pleasant weather. Some very fine Japanese varieties are on exhibition. Professor Trealease is very proud of his collection.

Miss M. S. Newmann has a beautiful store, her windows being very attractive. Being from the east she is creating quite a sensation with her artistic and beautiful decorations.

Oscar Heile has painted and remodeled his store. A very handsome large plate glass window adorns the front which he has stocked with plants and cut flowers.

John Burke disposed of a good many roses last Saturday. John is building up a fine trade in the very heart of the downtown district.

Wm. Kalisch & Sons have a beautiful store well decorated and always well stocked with ferns, palms and cut flowers.

Mr. Skidelsky, of Philadelphia, was a visitor here the past week. He spoke highly of the Chicago flower show.

F. H. Foster has a very attractive window display of chrysanthemums, violets and carnations.

Gus. Miller, away down in the south end, is building up a good business in his locality.

Geo. Waldbart has a very fine decorated window of both plants and cut flowers.

Wm. Abrahamson, with E. G. Hunt, of Chicago, was with us the past week.

Wm. C. Smith & Co. is expecting a carload of flower pots to arrive any day.

A. G. and G. E. Ahner, of Kirkwood, are bringing in some fine violets.

W. F.

GERANIUMS 2½in. Pots, Ready for Immediate Delivery

Alliance. Lemoine 1905, Hybrid, Ivy and Zonal, semi-double, lilac white, upper petals feathered and blotched crimson maroon, 25c each; $2.00 per doz.

H. R. CARLTON, Willoughby, O.

INTRODUCER and ORIGINATOR.

MABELLE, New Pink Carnation for 1907.

Color—A peculiar shade of lovely pink, with a faint yellowish cast; several shades lighter than the Lawson. Unlike most pinks, the brightest sun does not injure the color. Size—3 to 4 inches in diameter when established. Odor—Pleasing, but not strong. Stems—Invariably strong, but always graceful, ranging from 12 to 30 inches during the season. Habit, etc.—A very quick, active grower, making specimen plants in a short time, even from late cuttings. On account of its rapid growth, requires supporting very soon after benching. Gets away rapidly, blooms early and gives long stems right from the start. Productiveness—Prodigious is the best word we know of to use here. It is the most incessant bloomer, early and late, we have ever grown. Stock limited. Delivery January 5 to 10 and later. Price, $12.00 per 100, $100.00 per 1000.

Azalea pots and bulb pans same price. 2x2½-in rose pots, $3.50 per 1,000. A. F. Kohr, 1521 N. Leavitt St., Chicago.

Pots, standard, seed pans, cut flower cylinders, hanging baskets, lawn vases, etc. Hilfinger Bros. Pottery, Ft. Edward, N. Y.

Pots, standard flower pots. The Whildin Pottery Co., Philadelphia, Pa.; Jersey City, N. J.; Long Island City, N. Y.

Pots, before buying write for prices. Geo. Keller & Son, 361-63 Herndon St., near Wrightwood Ave., Chicago.

Pots, red standards, full size and wide bottoms. Detroit Flower Pot Mfy., 490 Howard St., Detroit, Mich.

Pots, red standard, azalea pots. The Keller Pottery Co., 213-223 Pearl St., Norristown, Pa.

Pots, red standard. Paducah Pottery Co., Paducah, Ky.

Pots, all sizes. Ionia Pottery Co., Ionia, Mich.

If you do not find what you need in our Ready Reference Department, write us about it.

Pots, pots of all kinds. A. H. Hews & Co., No. Cambridge, Mass.; Long Island City, N. Y.

Pot hangers, Kramer's $1 doz. by exp., $1.25 by mail. I. N. Kramer & Son, Cedar Rapids, Ia.

Pots, Syracuse, red. Syracuse Pottery Co., Syracuse, N. Y.

PUMPING ENGINES.

Pumping Engines, two streams of water for 1 hour cost 2 cents if you use a Standard pumping engine. The Standard Pump & Engine Co., Cleveland, O.

RAFFIA.

Raffia, samples free if you mention the American Florist. Large assortment of colors. R. H. Comey Co., Camden, N. J., 810-24 Washburn Ave., Chicago.

SEED CASES.

Seed cases, Heller's mice proof. W. C. Heller & Co., Montpelier, O.

STEAM TRAPS.

Steam Traps, the Standard return steam trap has no equal for its simplicity of working. E. Hippard, Youngstown, O.

SUPPLIES.

Supplies, milkweeds, wire designs, cut wire, all kinds of letters, immortelles, cycas leaves, sheaves of wheat, ribbons, corrugated boxes of all kinds. Henry M. Robinson & Co., 8-11 Province St., Boston, Mass.

Supplies, terra cotta grass growing heads and animals, fish globes, fish tanks, aquaria, Bohemian glassware, imported china, French glass shades, all shapes. Nicolas Wapler, 50 Barclay St., New York.

Red Bells, bright color tissue paper, 6-in., best seller, 60c per doz.; gross, $5. Other sizes in proportion. We have the goods. Write us. Barteldes Seed Co., Denver, Col.

Supplies, cape flowers, cycas leaves, metal designs and all florists' supplies. A. Herrmann, 404-12 E. 34th St., New York.

Supplies, importers and manufacturers of florists' supplies. L. Baumann & Co., 78 Wabash Ave., Chicago.

Supplies, importers and manufacturers of florists' supplies. Reed and Keller, 122 W. 25th St., New York.

Supplies, wire designs, etc. The Cleveland Cut Flower Co., 215 Huron road, Cleveland, O.

Supplies, wire designs. Pittsburg Florists' Ex., 228 Diamond St., Pittsburg, Pa.

Supplies and novelties of all kinds. J. Stern & Co., 125 N. 10th St., Philadelphia.

Supplies, ribbons and violet ties. Wm. B. Lake, 2535 N. 34th St., Philadelphia.

Supplies, flower baskets, novelties. Riessner Bros., Lichtenfels, Bavaria.

Supplies of all kinds. E. F. Winterson Co., 45 Wabash Ave., Chicago.

TOOTHPICKS.

Toothpicks, wired, $1.50 per 10,000; $6.25 per 50,000. W. J. Cowee, Mfr., Berlin, N. Y.

VENTILATING APPARATUS.

Ventilators, the Standard ventilating machinery; original machine with self oiling cups, most powerful, least complicated, very compact. E. Hippard, Youngstown, O.

Ventilators, The Advance Ventilating Apparatus. Write for estimates and circulars. The Advance Co., Richmond, Ind.

Ventilators, Evans' Improved Challenge ventilating apparatus. Quaker City Machine Works, Richmond, Ind.

Ventilating Apparatus. Send for circulars. Diller, Caskey & Co., cor. 6th and Berk Sts., Philadelphia.

Ventilating apparatus for every type of greenhouses. Lord & Burnham Co., 1133 Broadway, New York.

Ventilators, hand ventilating, etc. The King Construction Co., N. Tonawanda, N. Y.

Ventilators, ventilating apparatus of all kinds. Hitchings & Co., 1170 Broadway, New York.

Ventilators, New Departure ventilating appliance. J. D. Carmody, Evansville, Ind.

WIRE SUPPORTS.

Wire supports, model extension carnation supports, galvanized wire rose stakes, tying wires, single and double pot hangers. Igoe Bros., 63 Metropolitan Ave., Brooklyn, N. Y.

BOOKS FOR FLORISTS.

The time is coming along when these are needed and opportunity at hand for reading them. Every one of the following should be in your library.

Send prices quoted and we send the books.

GREENHOUSE CONSTRUCTION (Taft).—It tells the whole story about how to build and heat a greenhouse, be it large or small, and that, too, in a plain, easily understood, practical way. It has 118 illustrations. $1.50.

FUMIGATION METHODS (Johnson).—A practical treatise on cheap and effective means of destroying insect pests. Handsomely bound and profusely illustrated. 250 pages. $1.00.

CHRYSANTHEMUM MANUAL (Smith).—By an expert who has given his undivided attention for twenty years to the improvement of the chrysanthemum and its culture in detail. Profusely illustrated. 40 cents.

STEAM HEATING FOR BUILDERS (Baldwin).—Contains valuable data and hints for steam fitters and those who employ this method of heating. The 350 pages are fully illustrated. $2.50.

MANUAL OF THE TREES OF NORTH AMERICA (Sargent).—The most complete and authentic work on the subject. The pages number 826, with over 600 illustrations. $6.00.

THE AMERICAN CARNATION (C. W. Ward).—A complete treatment of all the most modern methods of cultivating this most important flower. Illustrated. $3.50.

SUGGESTIONS FOR FLORISTS.

Preparation For Christmas.

There is every indication for all to do the heaviest Christmas business we've ever done, and as it is necessary to display some of your stock, such as foliage and flowering plants properly dressed up, fully two weeks before, it is high time to look over your stock of supplies as well as baskets, dishes, pot covers, ribbon, crepe paper, etc. A good way is to look over the catalogues issued by some of the supply and wholesale houses, especially if you live 25 to 100 miles from large cities, and may not just now find time to see this year's novelties. And the only way to keep up with your competitor is to show something new to your customer. Have something better and more artistic than usual to offer, and while it sometimes looks almost overdone, the way crepe paper and ribbon are used in florists' shops, yet it is wonderful how they have increased the sale of plants for Christmas and Easter.

Have a good stock of palms, such as kentias, latanias, arecas, and others which are by the retailer sometimes classed palms, such as araucarias, Pandanus Veitchii, Dracæna fragrans and D. terminalis. Don't forget a good stock of Boston ferns and the newer varieties of nephrolepis; good specimens of Piersoni, Scottii and Whitmani are now offered at reasonable prices. You want a good supply of table ferns, 2½ and 3-inch stock; any of the above not disposed of by Christmas will be good saleable stock much later. The Christmas pepper, Jerusalem cherry and ardisia are always in demand on account of their red berries. Cyclamens, primulas, begonias, especially Gloire de Lorraine, poinsettias in pans, azaleas, Roman hyacinths, and lily of the valley in pots or dishes, represent the main varieties of blooming plants and are to many of us more profitable to handle than cut flowers.

I will next week say a few words on holly and other greens, their handling and uses.

Floral Display.

A learned Scotch divine, who was but an indifferent golfer though an astute scholar, after some particularly bad play was somewhat contemptuously addressed by his caddie. "Weel ye ken it tak's a mon wi' a heid to play the gowf."

And so it is in floral decorations. When thinking out a scheme of decoration, whether large or small, the decorator should keep in mind not only the general effect he wishes to make, but also the class of flowers he is going to use. It is surprising in what a number of cases the foliage belonging to a certain flower goes best with that flower in any kind of decoration. For instance, where large vases of tritoma are used, some of the foliage of the plant, standing up among the flowers, gives the arrangement a distinctive appearance that could not be got by using large fern or other evergreens. It is not necessary in every case to use the leaves of the precise plant from which the flowers are cut. In the case of the tritoma the foliage of the common water rushes might be used. The point is to know your flowers and in every case where possible to give them a natural pose among foliage suited to them. Everyone has noticed how beautiful the lily of the valley is among its own leaves, but the effect of the blooms is not nearly as good when fern or asparagus leaves are used. The violet is another well known instance, and though it would be often difficult to say why, yet the eye is always attracted by, and the sense of beauty satisfied with, natural arrangements. This is one of the reasons why the old-fashioned style of bouquets with dozens of different kinds of flowers has had to give way to the more natural method now in vogue of keeping each kind of flower by itself.

One important exception to this rule occurs in the orchid. In a few cases there are leaves that may be used with the flowers that occur on the same plant, but the reverse is usually the case, and even if the leaves were suitable they would not usually be forthcoming, as it would injure the

plants to remove them. Florists of scant experience with orchids seem to be singularly at sea with them from a decorative point of view. The chief beauty, or at any rate the distinctive beauty of orchids lies in their quaint outline and the unusual set of the various parts of the flower. Now to bunch these together, as is so frequently done, is to destroy their distinctive character. Although not advocating the use of wires where they can be done without, it would be far better in this case, where long stems cannot always be had, to use wires and so keep each flower apart from its neighbor. The somewhat heavy fronds of Adiantum Farleyense are suitable as a green for orchids, their soft tint showing up the gradations of color possessed in a quite unique degree by these beautiful flowers.

This then is what the floral artist should study; not only color schemes which are of course of great importance, but the provision of a suitable setting in every case for the flowers he uses, and the best means to display them to the greatest advantage.

The Windows of Fashionable Florists.

"For me," said the veteran, "there's no social calendar at once so interesting to watch and so accurate as the windows of the fashionable florists. All summer long, although the most beautiful flowers of the field are in bloom, they have been set out with simple arrangements of potted plants and the most unobtrusive of the flowers of the day. With every one out of town and nothing going on the floral mirror reflects the dullness of the season. But watch the windows now. Day by day the kaleidoscope behind the plate glass panes becomes more and more brilliant as the season becomes again enlivened with the people streaming back to town. And in a little while, when opera and horse show swing the season into full career, they will be arranged in a glory of crimson roses, delicate orchids and golden chrysanthemums. But with the first day of Lent they cowl their splendors like the season's beauty going into retreat. The violet is the most extravagant flower they display. But with Easter comes again the full radiance. And so to the death of the season and the putting on of half mourning by the floral heralds. It's as good as a play, and much more beautiful."—New York Sun.

To Prevent Frosting of Windows.

The following recipe for preventing the frosting of shop windows may be given in good time, so as to be at hand when needed: Paint them with a solution of glycerine in 63 per cent spirits of wine. Glycerine, like chloride of lime, has the property of absorbing water, and this action serves to entirely overcome the difficulty.

DETROIT, MICH.—John Breitmeyer's Sons have held a fine exhibition in their Broadway store. Chrysanthemums in all leading varieties, American Beauty and Bon Silene roses and gardenias were among the most popular of the flowers. The show was open for the week ending November 17.

CHRYSANTHEMUMS

Cut Blooms for Various Purposes.

PART I.

As the bulk of cut chrysanthemums are produced by large growers who consign their crop to the commission dealer and he in turn distributes them through many channels, it appears to us this is the most important branch of chrysanthemum culture and should have first consideration.

What constitutes a commercial variety has been fully discussed many times and we believe all agree that color is the most important characteristic. The white varieties are planted in greater quantity and the yellow and pink are next in importance, with a comparatively limited demand for bronze and red. The purer the white, the brighter the yellow, and the clearer the pink, the better.

Cut Blooms for Various Purposes.

Chrysanthemum Mrs. F. F. Thompson on left, Pres. Roosevelt on right.

In addition to color there are other qualifications which have a marked influence upon the quality of the product, and quality being the vital factor in regulating the financial returns, it is important that we give them due consideration.

At this point let us reffect on such characteristics as size, form and substance. In a few of the large cities there is a strong demand for the monster blooms but as this covers a small portion of the territory to be supplied, it is safe to conclude those of medium size meet general favor. To be more precise, our version of monster blooms are those seven inches and over in diameter with a proportional depth, and medium ones from four and one-half to six inches. Each grower must decide for himself what size is best suited for his purpose, taking into consideration that two or three blooms of medium size can be produced per plant whereas we must be content with one if the largest size is desired.

The form of a flower may be viewed from many sides and from the buyer's standpoint it is a matter of taste only, but as we are now considering those which must be marketed through a certain channel, we favor a form that will ship well and be acceptable to the public. Those which are more or less incurved seem to meet the requirements. It is not necessary that they be as formal as Major Bonnaffon. In fact, the loosely incurved varieties are more appreciated by persons of taste, at least our experience leads us to this conclusion.

Substance, which refers to the texture of petals, determines their durability, both to endure the adverse conditions to which they are subjected in the various forms of decorative work and to withstand the rough usage incident in packing and rehandling.

Having mentioned the desirable qualifications of the flower, let us now consider the character of the plant. The vigorous varieties are usually considered of easy culture. Those having strong rigid trunks or plant stems are considered best. With the present popularity of long stemmed flowers, foliage necessarily becomes a factor of quality and should have due consideration. It is not important that the leaves be large; on the contrary those of medium size are preferred but they should be set rather closely on the stem to be most effective.

Hence we prefer varieties making short jointed stems. The flower stem, or that portion of the stem between the flower and the uppermost leaf, varies greatly; some are short and pliant, others long and rigid, or vice versa. Those having short firm stems are typical of American origin and best suited for commercial culture. While it is not our desire to decry foreign novelties, as they are very useful in their sphere—the exhibition table, especially the short stemmed collections—we would advise those growing for the wholesale market to either shun them entirely or make their selection with discretion.

Most of those originating abroad are bred for size, and in reserving the best seedling size comes foremost in the consideration of quality. Under these conditions the importations include many off colors such as bronze, amaranth, and magenta. Stem and foliage, so important to the grower, are given very little consideration. The accompanying illustration shows the marked difference between American and European progeny. The bloom at the left is Mrs. F. F. Thompson, the other Pres. Roosevelt. The stem of the first mentioned gives a space of 22 inches from the highest leaf to the top of the bloom, rigid enough to hold the flower in an upright position but devoid of foliage. Had a later bud been taken the result would have been a weak stem and the flower undersized.

To secure perfect flowers of the foreign varieties it is imperative that early buds be selected. Through the middle and western states it is not advisable to select buds of midseason sorts before August 20, owing to the hot, dry weather which generally continues for several weeks and usually results in a malformed, off-colored and undersized flower. There are localities where earlier buds can be taken with safety.

Few fully understand the influence climatic conditions have upon our results. This season was entirely different from that of 1905, being very warm throughout August and September, consequently Ivory, which is generally ready

by October 20, was not cut until 10 days later and many of the late ones are earlier than common.

The other subjects of our illustration shows (opposite the bottom leaf) where the early bud was removed and the new break made 20 inches of growth at maturity. This flower is from a later bud than the other variety, yet had we taken a crown, August 20, we would not have been confronted with a long, bare stem.

The hybridist has made improvements in the various types, but as each hybridizer has his own mind as to the ideal flower, it is not strange that the best efforts of the world when collected and grown together do not meet our expectations. There is occasionally an importation which shows commercial qualities, etc., but the percentage is very small, not exceeding two.

The chrysanthemum might be likened to some of our animals whose traits are just as distinct. The draft horse would not be of more service on the race track than a poodle in a fox drive.

The fine specimens, particularly those staged with short stems, are truly beautiful and show wonderful skill but this does not signify that they are adapted to commercial use, nor does it give assurance that the purchaser of such sorts can do them as well.

These facts confront us annually and to illustrate this point we may mention Glenview, which was shown in magnificent style at Philadelphia last year and made a lasting impression upon the writer, but was not shown in as fine form in the several collections at Chicago. Whether this deficiency is due to climatic conditions or the man behind the bloom we are unable to say, but it is certainly a fine bronze when well done and worthy of further trial.

ELMER D. SMITH.

PALMS AND FERNS.

Seasonable Notes.

The season of rest to many plants is at hand, and consequently some discretion should be exercised in regard to repotting, keeping in mind the fact that root action in the case of many of the palms is quite slow for the next three to four months.

Of the common everyday species, the kentias are somewhat of an exception to this rule of a winter rest, for these palms will continue to grow during the greater part of the winter, taking their rest period in the spring and early summer instead.

Latanias make very little headway when their roots are disturbed after November 1, and it is preferable not to repot these plants after Oct. 1st, unless it may be some small stock that is very much root-bound, and likely to lose color badly before spring.

Large arecas are another example among those that do not improve by any disturbance of their roots very late in the season, and I would rather trust to an occasional watering of liquid manure in order to keep the foliage in color than to repot them during the winter months.

Speaking in a general way, it may be said that young palms, in common with many other plants, do not have their habits of growth so firmly fixed as is found in more mature specimens, and consequently these juvenile plants may be continued in a growing condition almost throughout the first two years of their life, provided their treatment includes such genial surroundings as may be found in a well kept greenhouse.

The conditions required in such a case are a reasonably light soil, plenty of moisture, a night temperature of about 65°, and at this season full light will be an advantage in promoting a sturdy growth.

While there has not yet materialized that great shortage or cornering of the kentia seed supply that some growers and dealers feared a few months ago, yet there does seem to be quite a variation in the quality of the seeds received from various sources, some of the earlier consignments proving to be of excellent quality, those sown in May giving a high percentage of germination, while others that were planted in August seem to be nearly or quite a failure.

Such a result would seem to indicate that the packing of the seed was at fault, and that fermentation or heating had produced this condition during the long steamer voyage.

It is quite possible that some seeds are not fully matured at the time they are gathered, and while it is not absolutely essential that seeds be ripe in order to germinate, yet it is safer in most cases to depend upon properly ripened palm seeds than upon those whose growth has not been completed.

Items of news appear from time to time in such a form as to contribute to the gayety of the profession, and among those of a recent date is the statement that Areca sapida, now known botanically as Rhopalostylis sapida, is a new palm. It is several decades since this palm was introduced to cultivation, and it has been grown by the American trade for the past 30 years at least, and probably longer.

This is, however, no reflection on the species in question, for Areca sapida is a sturdy growing palm of attractive appearance, and before kentias became so common and popular for decorative work this areca was frequently in demand, and gave a fairly good account of itself as a florists' palm. But of late years Areca sapida, Areca rubra, Seaforthia elegans, Oreodoxa regia, Chamærops excelsa, Corypha australis, and Ptychosperma Alexandræ, in company with several other species of palms seem to have joined the floral havebeens, and one would find some difficulty in filling an order for a dozen each of several of the species mentioned.

This does not indicate that these palms were all devoid of merit, but simply that there were others that fitted the trade better, though nicely grown plants of some of those mentioned could doubtless be sold today for the sake of variety, for everybody does not want just the same sort of a palm each succeeding year, any more than they want to wear the same suit of clothes indefinitely.

That palm known as Kentia Canterburyana was grown somewhat more freely in former years, but is now comparatively scarce. This last is probably as hardy a species as K. Belmoreana, and fully as graceful, the closely pinnated leaves having an arching habit, and forming an elegant and compact plant of fine color. Seeds of K. Canterburyana are offered most seasons by the importers, but at a considerably higher price than the ordinary kentias, and in addition to this, the plant is slower in its development than K. Belmoreana, and consequently is less profitable, except it be among an exclusive trade where price is of less moment than quality.

This palm is also native to Lord Howe's Island, though not found there in the same abundance as K. Belmoreana and K. Forsteriana, and the seeds being larger than those of the latter naturally cost slightly more for packing and freight.

The midwinter crop of small ferns for filling fern dishes, would have been better potted earlier than the date of this article in order to give them the advantages of growth before the shortest days, but in case the press of fall work

NEPHROLEPIS WHITMANI.

Exhibited by Henry H. Barrows & Son, Whitman, Mass., at the Chicago show.

has prevented the potting of these ferns before this, there should now be no further delay.

Many of the ferns that are thus used are grown in 2¼ to 2½-inch pots, but there is also an extensive demand for plants in 3-inch pots, and all of these need to have a little space between the pots if the lower leaves are to be kept in good condition.

The wholesale prices realized for these small ferns are not high, and few growers find a bonanza in this line of trade, but if the stock is grown right, it may find a market when those of poorer grade cannot be given away.

To produce stocky and bushy little ferns, such as are wanted in most markets, they must be given plenty of light and air, and never permitted to suffer for want of water, a night temperature of 55°. to 60° being most suitable for those in common use in the trade.

Another detail of treatment that is worth remembering is, that ferns should never stand upon a bare bench in the greenhouse, for these plants prefer that their roots shall have the protection of a good coat of ashes or sand on the bench to keep the dry heat of strong firing away from them. This protection on the bench also renders needless such frequent waterings overhead as are otherwise made necessary by the fire heat, even in dull weather.

Those growing Adiantum Farleyense in quantity, and there are now a considerable number of successful growers of this lovely fern, find it necessary to pay special attention to the watering and airing at this season of the year, for this fern does not enjoy much moisture on its foliage at any time, though requiring a moist atmosphere.

Well rooted plants of A. Farleyense will take plenty of water, but those that have not long been potted should be looked over carefully to avoid overwatering, and in ventilating, this fern should never be exposed to strong draughts.

W. H. TAPLIN.

Paris.

THE CHRYSANTHEMUM SHOW.

The annual chrysanthemum exposition of the National Horticultural Society, which by the way includes all kinds of flowers, fruits, vegetables, trees and shrubs, opened on November 3 and was as usual a great success, notwithstanding the disagreeable, wet weather. As customary, it was held in the great glass structures erected for the 1900 world's fair which are situated on the Cours-la-Reine along the Seine river.

Vilmorin has the largest, non-competitive collection of chrysanthemums, standards and pyramids, all of perfect, symmetrical form.

Among the best examples may be mentioned: Tokio, always very telling, Mrs. W. Bowen, E. J. Brooks, Aigle d'or, Voraz, Rose Poitevine, Delizy, Niveus, Charles Schwarz, Mrs. R. Oberthier, Wm. Tricker, Chauchard, Ville de Phenicie, M. Gustave Henry, Godfrey's King, Mrs. Martinotto, Ami Nonin, M. Chenon de Leché, Sœur de Charité, very fine white, Reviere, Henry Weeks, Mrs. Edmond Roger, Col. W. B. Smith, Senateur Viger, Hortus Tolosanus, Mirzam, Calvat 1899, W. Duckham, Miss Alice Byron, R. H. Pearson, Nippon, Merak and Henry Neveu.

Vilmorin's novelties included: Eole, long, narrow, white florets, very fine; Brise, pink; Boree, Gerbe d'or, Risee, Simoun and Zephir, all of which received an award of merit. Mossaka, a large flowering variety, more easily grown than Lilian B. Bird, Niger, Conakry, Tomboucton, Calvat's Revitzan and Pechou, Mommeja, Geisha, Ourazan, Sirocco and Mousson were also shown.

The Marquis de Pins, Montbrun, secured the prize of honor for his novelties not yet introduced to the trade, exhibiting in cut blooms: Bacque 1906, salmon yellow; Marechal de Bassompierre, curious red with lighter shaded incurved points; Mme. de Cassagnac, pinkish white; Ophelie, white; Pimpanello, purplish; Miss de Rumain, pink with white center; Diane, salmon yellow; Germaine Charmeux, cream colored; La Neste, purplish; Quo Vadis, yellow; Le Capitole, Danæ, La Dame Blanche, La Tonkinoise, Mme. Bougere, Vallee d' Aure, Mlle. Gache, and Countess Alice de Lancey.

Calvat was awarded a gold medal for remarkably fine cut blooms of his novelties including: Exelda, white; La Marseillaise, white; Santos-Dumont, canary yellow; Madame Curie, purplish; President Dubost, copper red; S. A. Naceur-Bey, bright yellow; President Fallieres, white; Touring Club, yellow; Le Lutin, pink; and Princess Ena, white; most of which received awards of merit.

Nonin, Chantrier, Cordonnier, Levegue, Ragueneau, Mazne, Decault, Montigny, Durand and others had conspicuous non-competitive displays, many of their flowers being of sufficient merit to receive certificates. Nonin alone had 17 varieties and Chantrier 12 varieties certificiated. A lot of M. E. Andre, salmon color, attracted much attention, as also some standard plants bearing different colors on the same plants, exhibited by Cavron, who obtained the medal of honor for well grown plants.

Maron was awarded the medal of honor, and Marcoz and Beranek, gold medals; for splendid collections of orchids. Regnier won a silver gilt medal for the same class of plants.

Levegue won several first prizes with his displays of carnations. Noteworthy sorts were Reine Isabelle, pink, measuring quite 3 inches across; Enchantress, creamy white; Fair Maid, ivory white; White Lawson and Monte Carlo, variegated, pink and red.

Vallerand won the medal of honor and Billard the large gold medal for excellent tuberous rooted begonias. Boucher won a gold medal for Clematis and Simon one for cacti. A lot of Gerbera Jamesoni grown in the South of France was admired by plant lovers. Rivoire won a gold medal for an effective show of cut blooms of Dahlias and Leveque a silver medal for a fine bed of Baby Rambler roses.

Nomblot-Bruneau secured the great prize of honor for his fruits and trained fruit trees, and the first prize for vegetables went to the Osilum of Vaucluse. Vilmorin's inimitable collection was not entered for competition.

The gold medal for the finest bouquet or best floral arrangement with chrysanthemums went to Maissa, a Paris florist. This arrangement, which was most pleasing and artistic, consisted of an ordinary wooden wheelbarrow, filled with big yellow chrysanthemums intermixed with autumn tinted leaves, a light yellow ribbon around the barrow completing the work. The whole was a simple but perfect combination of colors. Maissa also staged a little schooner, full of cattleyas dressed with Asparagus plumosus nanus, the masts and cordages being made of Parma violets. The background of Maissa's stand consisted of a large square mirror about 9 feet high, framed in red velvet, the same colored frame dividing the mirror lengthwise into two parts. From the top of the left part were falling very effectively long panicles of the yellow Oncidium varicosum Rogersi, while from the right were hanging graceful racemes of Vanda cœrulea, both appropriately associated with long trailing shoots of Asparagus plumosus nanus. This oncidium with its long graceful panicles of a natural arching habit and the beautiful Vanda cœrulea seem to play a big part in floral decoration with the swell Parisian florists.

Lachaume, one of our best florists, whose arrangement was not entered for competition, also showed an immense mirror, the frame of which was formed of yellow and copper-colored chrysanthemums, and various leaved crotons, intermixed with black grapes and autumn foliage, the whole being finished off with long sprays of Asparagus plumosus nanus loosely hanging over the mirror. A fine vase of orchids was placed before the latter and the floor space decorated with fine plants and ferns. All was well disposed and showed the good taste which Lachaume always displays in his arrangements.

Debrie's gold medal exhibit consisted of different floral works in which oncidiums and vandas were strongly in evidence. He also showed a bamboo panel with a big window in the centre. The back of the window consisted of a Japanese canvas representing sea gulls flying over a stormy sea. The bamboo trellis, framing the window and the roof, was garnished with chrysanthemum flowers in variety, relieved by sprays of Asparagus Sprengeri with a few Japanese lanterns interspersed.

Margottin was allotted a silver gilt medal for an effective display of lily of the valley.

PARISIAN WEATHER.

We have had very wet weather of late, a good shower falling at least every other day. The thermometer, however, stands pretty high for the season and at this writing, November 8, no frost has occurred as yet. Tropæolums, Cosmos and such tender things are still in full flower in my little garden. The mildness of the weather may alleviate conditions for next season and will strengthen the plants for seed purposes, which on account of the damaging drought of last summer had a very unfavorable start.

TRADE NOTES.

The mass of material still existing in gardens is a drawback against the sale of flowers on the market. Chrysanthemums are a glut, and may be had for any price offered. Yellow marguerites, Chrysanthemums frutescens, called here

ESTABLISHMENT OF WIETOR BROS., CHICAGO.
House of chrysanthemums.

anthemis, are cheap and sold at six cents per bunch of 12 to 15 flowers. Carnations are worth only 30 cents per dozen fine blooms; violets 10 cents to 12 cents per big bunch of 100 to 150 flowers; Parma violets 60 cents for a similar sized bunch. Mimosas, Acacia retinoides, 20 cents per kilo of two pounds. Lilacs 50 cents per bunch of 12 panicles. Roses are getting scarcer and fine blooms are worth 20 cents each. Ranuncules are making their appearance and are sold at six cents per dozen.

There is little demand just now for plants offered for sale on the market, including chrysanthemums, carnations, begonias, cyclamens, ericas, primula Sinensis and P. obconica, bouvardias, ferns, etc. Some of the merchants on to-day's market took less than $1.

PARISIAN.

Violet Troubles.

In moving around among the violet men it is very suggestive that in a great many instances those who are loudest in their howls against insect and fungus troubles, and who the most frequently assert that cultural care is useless against the common enemy are the very men who avoid the trouble and attention incident to high culture.

And by high culture I do not mean expensive, elaborate and high sounding theories, but the work of men who know their plants and their requirements by experience and by a kind of intuition that leads them to adopt preventive measures in time rather than depend upon remedies that at the best are only makeshifts. Even in the use of the latter the careless grower with his slapdash methods, or want of methods, fails where a grower with his heart in the work succeeds. As an instance the first may often be seen with the nozzle of his sprayer playing away at the upper surface of the leaves to destroy red spider while the other, lifting the leaves slightly directs it to the under sides where the insects live.

But all this aside; the man who gets to market with the earliest and the best produce is in nearly every instance he who with his plans always ready formed anticipates the needs of the plants, starts in clean and keeps clean all along. He knows for instance that the violet is a comparatively hardy subject so doesn't coddle it at any stage of growth but admits all the air and light possible at every stage. He knows that any plant to give good results must have its roots working well, consequently his soil is firmly placed, sufficiently but judiciously moistened and loose enough on the surface to insure easy passage of fresh air. Hard vigorous leaves result that insects, which also know a few things in their way, leave alone, and seek some that are more easily punctured with their own private business arrangement. Much more might be said but think over this just a few minutes any of you violet men who think that any old thing is good enough for the modest violet.

WITH THE GROWERS

Wietor Bros., Chicago.

Seventy houses, containing in the aggregate about 1,000,000 square feet of glass, is the size of the plant where Wietor Bros. grow the excellent stock for which they are justly noted. On a recent visit everything was found in excellent cultural shape, perhaps the finest thing of all being the immense stock of American Beauty roses. Some of the plants have been put in this year while there are others of two and three years' growth, but all show the same high condition and a heavy cut must result this season.

Liberty, too, is in fine order here, really well done in every respect. It is the opinion of James Psenicka, Wietor Bros.' foreman, that this fine rose would be much more grown if there was a better supply of good growers, as it is certainly more difficult to grow than Richmond, but of better quality. Kate Moulton as grown here is a fine rose, the flowers a light pink, something the shade of La France, the stems long, and the habit good. Some growers, it is said, have found this variety weak in the neck, but it shows no sign of weakness here, the flowers standing very erect and stiff. Joe Hill is after the Sunrise type,

SALES DEPARTMENT OF WIETOR BROS., CHICAGO.

strong growing with finely colored foliage, the flowers having charming shades of coppery pink, yellow and apricot. The well known Mme. Chatenay is thought very highly of, over 76,000 blooms having been cut since August, an average of just over 16 flowers to a plant. Bride and Bridesmaid, of course, are largely grown and below are the numbers of principal kinds:

ROSES.

American Beauty	60,000
Bride	25,000
Bridesmaid	25,000
Richmond	20,000
Mme. Chatenay	10,000
Kaiserin	10,000
Liberty	5,000
Roselyn d'or English	5,000
Uncle John	5,000

Over 14,000 Bride and Bridesmaid had been cut on the morning of our visit and many other varieties besides those mentioned are grown.

Chrysanthemums are a leading feature here, over 100,000 being grown. Yellow and White Eaton are largely included, also Monrovia, Lady Harriet, Clementine Touset, Col. Appleton, A. J. Balfour and the Bonnaffons, white and yellow. October Frost is highly thought of as an early white, and preparations are in progress for a very large stock of this next year. A large bench of Golden Wedding, just in time for Thanksgiving, must have proved a remunerative one. The flowers were really excellent, very even in size and quality, and of the beautiful deep yellow characteristic of this fine kind. Showing how difficult it is to improve on known and tried kinds, Wietor Bros. have had on trial this season more than 50 new varieties, and out of these only six are to be tried again, while possibly some of these may be discarded next year. The trade in chrysanthemum cuttings here is a large and increasing one, over 500,000 having been sent out last season.

Carnations in all leading market kinds are a leading line, and the number benched this season is just over 160,000. The numbers of the principal kinds given herewith is a good index of their popularity.

ESTABLISHMENT OF WIETOR BROS., CHICAGO.
House of Bride roses.

CARNATIONS.

Mrs. T. W. Lawson	30,000
Enchantress	25,000
Boston Market	15,000
White Lawson	10,000
Lieutenant Peary	10,000
White Cloud	10,000
Guardian Angel	10,000
Estelle	10,000
Chicago	10,000
Lady Bountiful	10,000
Harlowarden	5,000
Robt. Craig	2,000
Victory	2,000
Red sport	2,000

The bulk of these, and other varieties not mentioned, are grown in one large section consisting of eight houses, each 33x300 feet, and the condition of the plants and promise for a good winter crop leave nothing to be desired. This in fact is the case throughout the whole place, and the fact of 62 men being constantly employed would point to Jas. Psenicka having plenty to do to keep all running smoothly. The houses are kept in excellent order structurally and they are light, roomy and well constructed. Steam heat is used in the rose houses, but some of the carnation houses are heated by hot water. There are 28 hot water and six steam boilers at work using 5,000 tons of coal per year. All the coal storage is full up now, about two-thirds of the annual supply being in and as this will be kept up as used, no fear is entertained as to the supply being short should circumstances prevent delivery.

To Be Done Now.

IN THE GREENHOUSES.

Plants of Ardisia crenulata grown cool hold their berries much longer and keep cleaner than if grown in heat.

Disbud roses regularly and early, never using a knife. All side shoots should be taken when they can be rubbed out with the fingers.

Soot and lime in equal proportions are better to keep slugs away from violets than either material separate. Mix just before using or keep in a sealed vessel.

Keep the flowers pinched out of alternanthera and similar plants regularly, or the stems harden and they will not give so good a supply of cuttings later.

Narrow benches or shelves are much better than wide ones for Asparagus Sprengeri. A triangular tier of three is a good arrangement.

Get the bulbs of Odontoglossum citrosmum well ripened up, and when quite finished keep the roots dry.

Now the propagating house is not too full, strike plenty of small foliage plants like tradescantia and panicum.

IN THE STORE.

Roses like Sunrise with brightly tint-

ESTABLISHMENT OF WIETOR BROS., CHICAGO.
House of Madame A. Chatenay roses.

ed foliage show up best against a dark green back ground.

Where wired flowers have to be used in bouquets, the old fashioned boxwood spray is useful as a foundation, stiff yet small to handle.

Take that untidy plant out of the window, and send it to hospital in the greenhouse. A little green, or autumn foliage would look better.

Yellow, bronze and old gold colored flowers need a deep green setting to show up their richest tints. Light green foliage is much less satisfactory.

Change the window display frequently. No matter how successful and attractive an arrangement may be at first, it palls after a time and a change is necessary.

A little nitrate of soda occasionally is helpful to pot-bound plants, such as boxwood or bay, helping to keep the foliage in good order.

English ivy, moss and small ferns, tastefully arranged, forms a nice setting for a window, room being left to show vases of cut flowers or plants in flower.

The paper or composition vases for cut flowers are far lighter and more handy than ware vases, besides being practically unbreakable.

Remember the names of the flowers you are selling; many customers are interested and like to know.

OUTDOORS.

Heaps of soil should never be left in an untidy shape. Properly squared up the rain does not wash the nature out, and they look much better.

After frost, go over the newly planted herbaceous stock, and tread the soil firmly, where it has been lifted and the plants are loose.

Tie the labels firmly to the stems of dahlias where it is desired to keep them true to name. It will save much confusion in spring.

It is never too early to cultivate vacant land. Get all quarters ploughed or dug at once when cleared, provided the weather is suitable.

Self sown forget-me-nots should be left, if convenient, as they usually make very fine plants.

OBITUARY.

Mrs. Robt. Bard.

Mrs. Robert Bard, the wife of R. Bard, of Bard & Davis, Syracuse, N. Y., died on November 15. Mrs. Bard was well known by many home and foreign commercial men among whom her loss will be deeply felt. It was this lady's delight to have anyone connected with the trade stay at her home and she greatly enjoyed chatting with them over their varied experiences. Mr. Bard has the sympathy of numerous friends in his sad bereavement.

Frank E. Hodgeman.

Frank E. Hodgeman, of W. Walnut street, Louisville, Ky., died November 19 of a complication of diseases, after being in ill health for several weeks. He had been a resident of Louisville for 32 years and conducted his business up to the time of his illness. Mr. Hodgeman was a native of New Hampshire and is survived by his wife.

THE EXHIBITIONS.

Waco, Tex. Flower Show.

People came to this city from adjacent states and from all parts of Texas to see the chrysanthemum show and flower exposition given by the Texas State Floral Society, November 15-18. The second day's entertainment closed at 11 p. m. with a grand concert and reception, the gate receipts that day being over $2,000.

The first prize in its class was given to the City Federation of Clubs, the design being a park arranged on a vacant lot close to the floral temple, arranged in miniature like a modern, highly finished metropolitan park, with fountains, statuary and drives, the landscape depicting both shores of the Brazos river, spanned by two bridges, with manikins in automobiles and other turnouts rolling along the speedway and crossing the bridges, beneath which water tumbled over dams, representing the improvements the government has undertaken to make the river navigable.

In another class Mary West Chapter, Daughters of the Confederacy, won a prize on Confederate bivouac, showing Gen. Lee, President Davis, Stonewall Jackson and other great men of the lost cause in midnight council, with the lines of the Union army in the distance.

Miss Annie Wolfe's design, dedicated to the Elks, won first in its class. It was "Grandfather's Clock," wrought from flowers, the clock having stopped at 11, the symbolic number. The clock was surmounted with the head of an elk, also made with flowers.

Mrs. W. S. Plunkett's prize design showed Cinderella in the squalid kitchen, surrounded by hungry rats, and the next Cinderella transformed by the fairy into a princess.

The following awards were announced:

Special out-of-town growers:

Fifty blooms, four varieties.—Nathan Smith, Adrian, Mich., first.

Fifteen blooms, three varieties, white.—Nathan Smith, first.

Fifteen blooms, three varieties, pink.—Nathan Smith, first.

Fifteen blooms, three varieties, yellow.—Nathan Smith, first.

One bloom, yellow.—Nathan Smith, first.

One bloom, red.—Nathan Smith, first.

Ten blooms, staged singly.—Nathan Smith first.

Fifteen blooms, in variety.—Mrs. W. K. Rose, Cleburne, Tex., first.

Fifteen blooms, four varieties, white.—Nathan Smith, first.

Ten blooms, singly staged.—Nathan Smith, first.

Twenty blooms, new variety.—Nathan Smith, first.

One large bloom, new variety.—Nathan Smith, first.

Cut chrysanthemums, open to all:

Fifty blooms, four varieties.—Charles H. Mayer, first; J. M. Hickman, second.

Fifteen blooms, white, three varieties.—Walter Reese, first; Charles H. Mayer, second.

Fifteen blooms, pink, three varieties.—J. M. Hickman, first; Charles H. Mayer, second.

Fifteen blooms, yellow, three varieties.—J. M. Hickman, first; Walter Reese, second.

One bloom, yellow.—Walter Reese, first; J. M. Hickman, second.

One bloom, red or bronze.—Walter Reese, first; J. M. Hickman, second.

Ten blooms, staged singly.—Charles H. Mayer, first; Walter Reese, second.

Fifty blooms, any variety.—J. M. Hickman, first; Charles H. Mayer, second.

Fifteen blooms, four varieties, white.—J. M. Hickman, first; Charles H. Mayer, second.

Fifteen blooms, four varieties, pink.—Charles H. Mayer, first; J. M. Hickman, second.

Fifteen blooms, four varieties, yellow.—J. M. Hickman, first; Walter Reese, second.

One bloom, 1905 production.—Walter Reese, first.

Ten blooms, in variety, staged singly.—Walter Reese, first; Charles Mayer, second.

Twenty blooms, five or more varieties, new productions.—Walter Reese, first.

Largest bloom, new production.—D. A. Saunders, first; Walter Reese, second.

Cut roses, open to all:

Vase of red roses, with foliage.—Walter Reese, first; Miss Annie Wolfe, second.

Vase pink roses, with foliage.—Miss Annie Wolfe, first; Walter Reese, second.

Vase white roses, with foliage.—Miss Annie Wolfe, first.

Small Flower Shows.

The show at Navasota, Tex., November 13, is described as the best ever held under the auspices of the local chrysanthemum association.

The annual chrysanthemum show was held at the Guilford Hotel reception room, Greensboro, N. C., November 15, a fine display being reported.

The chrysanthemum fair was held early in November at Greenwood, S. C., and was a decided success, meeting with an enthusiastic reception from the citizens.

Houston, Tex., has its annual chrysanthemum show and the thirteenth was held November 14 in Turner hall, which was finely decorated for the occasion. All the competitive classes were well filled and W. A. Hawkins, of Galveston, and W. Kutchbach, of Houston, put up groups not for competition.

We are in receipt of the seventeenth annual report of the Missouri Botanical Garden, which contains a number of important scientific papers.

THE AMERICAN FLORIST Christmas number, replete with illustrations and valuable reading matter for growers, dealers and retailers in all lines, will be issued December 13. Advertisers should send their copy early to make certain of good location display.

DAHLIAS grown under glass have in one or two instances this year proved very successful and profitable. It is probable that they would in many cases pay well, especially in a season like the present when there has been quite a distinct period between the outdoor flowers and the bulk of the chrysanthemums. At any rate we give this reminder for what it is worth.

Important to Subscribers.

The date on the yellow address label on your copy of THE AMERICAN FLORIST will show when your subscription expires. Please renew subscription promptly on expiration to make certain of receiving your copy of each issue.

The Ladies' Auxiliary.

Mrs. Chas. H. Maynard reports that the ladies are sending in their fees to join the Ladies' Auxiliary to S. A. F. promptly, and with their checks come words of hearty accord with the movement, and hopes of its success. Mrs. Maynard writes: "Ladies' don't wait; keep me busy and we will meet at Philadelphia next summer."

Yuletide.

By sending THE AMERICAN FLORIST to your employes every week of next year they will be given a weekly reminder of you and it will make a most appropriate and useful gift if sent to their home addresses. In many ways it will be a good investment. Send us their names and addresses now, enclosing one dollar for each subscription and we will start with our grand Christmas number and continue sending the paper every week of 1907.

National Council of Horticulture.

A meeting of the National Council of Horticulture was held at the Auditorium Annex, Chicago, November 9 and 10, 1906. There were present J. C. Vaughan, C. E. Kendel, W. F. Kasting, Prof. L. R. Taft, Prof. W. W. Tracy, H. C. Irish, J. H. Burdett, E. V. Hallock and John N. May.

Mr. Burdett gave an exhaustive report on the press bureau work as conducted during the past year after which detailed plans for the continuation of the service were considered. The relative merits of the clipping sheet used by the American Civic Association as compared with the plan of the council by sending mimeograph copies of matter for publication direct to large papers and to press syndicates was discussed and it was voted to continue the latter plan and to begin another series of articles early in the new year. Reports were made of an unusual demand for certain seeds, the cause of which had been traced direct to its exploitation through the press bureau last spring. A list of subjects to be written up for the coming year was presented by Mr. Kendel and the secretary was instructed to correspond with nurserymen and florists for further subjects.

A report was read from Robert Craig on a visit to the Jamestown Exposition Co. in the interests of a horticultural exposition and congress. It showed that the exposition company was not in a position to offer cash premiums for a special horticultural exhibition but in his opinion the project could be successfully carried out if the money was guaranteed by individuals. It was voted to arrange for a horticultural congress at Norfolk during the exposition period and Prof. W. W. Tracy was appointed to draft a call to supplement the one which had been issued and to arrange a preliminary programme.

H. C. IRISH, Sec'y.

Kansas City.

STOCK PLENTIFUL.

Each week marks the period of a satisfactory advance in conditions of both trade and the market. The presence of an exceptionally good stock of chrysanthemums, of good quality, to a certain extent serves to stimulate counter trade materially. Hardly a store fails to take advantage of the good showing possible with flowers of this sort, and as a result the windows are aglow with them. The week past has brought out many of the mid-season varieties. Pompons, in plants and baskets comprised one window's showing, while many of the single-flowered varieties are to be seen here and there. On account of the excellent quality of this year's production it is to be regretted that we have no flower show this fall. Col. Appleton heads the list this week in large blooms which will be followed next by Timothy Eaton, Golden Wedding and other sorts. According to assertions made by some growers the late varieties are in splendid condition. Roses are pretty well up to the standard in quality, and fairly plentiful. American Beauty roses are good both in stem and flower, but meet with rather light demand on account of the presence of other seasonable stock. Bride and Bridesmaid roses show a decided improvement each day. The percentage of inferior grades in these roses is remarkably low this season. Liberty, McArthur and Richmond show the bad effects of the warm weather. A few narcissus, seen in one of the stores this week, mark the arrival of bulbous stock. Carnations are more plentiful than last reported. Enchantress is still acknowledged to be the best, and most in demand. Greens are fairly plentiful.

NOTES.

The Wm. L. Rock Flower Co. held their private display in their store Thursday, Friday and Saturday of this week. Hundreds of visitors thronged the store during each afternoon and evening. The display was a very creditable one, giving every impression of a genuine flower show. A complete dinner table decoration of orchids, proved a most attractive feature. Basket and vase arrangements and a mantel decoration were other features well worthy of note. A shower bouquet of lily of the valley and dendrobiums was effectively staged before one of the large mirrors. A vase arrangement of 100 American Beauty roses held a commanding position. The show windows were banked with specimen chrysanthemum plants and the pompon and anemone varieties were in evidence. Invitation was extended to the trade, one afternoon being set aside for their reception, which brought practically all the craft together.

Samuel Murray, the begonia king, evidently knows how to grow chrysanthemum plants, judging by the splendid showing being made at the store. The plants are all clean and healthy, each one a perfect specimen. His store force under the able direction of Miss Hayden, manages to keep the place in a very attractive condition. They were busy this week with decorations for the Commercial club's annual banquet at the Midland hotel.

Wm. Bastin, who for some time past has conducted a wholesale establishment

at Thirteenth street and Baltimore avenue, has discontinued business at that place, probably on account of his inability to secure ample consignments. It is rumored that his intentions are to engage in the retail line.

The meeting of the Missouri Valley Horticultural Society, occurred at Parkville, Mo., instead of Kansas City, as previously announced. The programme was very interesting and brought out many interesting points.

The Alpha Floral Co. announce that they will move from their present location to more commodious quarters at 1105 Walnut street. This places seven of the downtown flower shops within a radius of three blocks.

Walter Heite, of Merriam, Kans., is cutting some of the best chrysanthemums that reach this market. Col. Appleton is particularly fine with him as well as Bonnaffon and Robinson.

Miss Peterson is reported to be slowly recovering. The trade extends their best wishes.

Miss Julia Dalley was unable to be at the store last week on account of sickness.

W. J. Barnes says business is well up to the standard at both his stores.

Max Eller has just issued a tasty little booklet on plants and flowers.

Ed. Ellsworth went to Pleasant Hill the first of the week. K. C.

Utica, N. Y.

The Florists' Club held its annual banquet in Elks' hall. An attractive feature of the entertainment was the exhibition of flowers made in the large assembly hall, arranged on three large tables. The largest exhibitor was the Lake View Rose Gardens, Jamestown. This firm showed Nagoya, Mme. Liger, and Maj. Bonnaffon chrysanthemums; also Maud Dean, Fair Maid and other carnations. W. A. Rowlands showed Rose Pink Enchantress carnations. Spencer & Martin exhibited a large vase of American Beauty roses. John Haines of Bethlehem, Pa., showed pink and variegated Imperial carnations. Charles Totty, of Madison, N. J., sent a rare display of pompons and single chrysanthemums. The F. R. Pierson Co., of Tarrytown, N. Y., exhibited his Winsor carnation. Frank McGowan had a large exhibit of chrysanthemums, Nellie Pockett, Yellow Eaton, Sunburst and Alice Byron, being shown. Alex J. Guttman, of New York, showed his Victory carnation. The Chicago Carnation Company, Joliet, Ill., showed carnations Red Riding Hood and also Aristocrat.

After inspecting the fine exhibit, the members of the club with their wives and ladv friends, making in all a party of 80, sat down to an excellent banquet. Among those present were Seward Hakes, Theodore Schesch and Jacob Fries, Illion; J. O. Graham, of Little Falls; Joseph Traudt, Canajoharie; R. Kilbourne, Clinton; E. J. Byam, Rome; Robert Main, Gloversville; F. R. Pierson, of Tarrytown; P. R. Quinlan, of Syracuse, and Alex. J. Guttman, of New York.

Frank J. Baker called the assemblage to order and said that all felt greatly obligated to the committee. Among the other speakers were F. R. Pierson, Alex. J. Guttman and P. R. Quinlan.

MRS. HENRY BARNES, and many others.

My New List Will Be Ready December 1. SEND FOR IT.

CHARLES H. TOTTY, Madison, N. J.

Baltimore.

TRADE BRISK.

With a week of delightful weather, cheerful sunlight, warm breezes and invigorating ozone, flowers have done well and trade has flourished. Roses and carnations are improving in quality, and some of the best chrysanthemums so far seen are showing themselves in the market as the season approaches its close. With the Thanksgiving demand the supply in the main is over, and the old standbys, the rose, carnation and violet will have the call for general trade.

THE FLORISTS' EXCHANGE.

The Florists' Exchange removed on Monday morning from its old quarters on N. Eutaw street, which it has so long occupied, to its new home erected especially for the accommodation of its business at the southwest corner of Franklin and St. Paul streets. The building is ornamental in design, creditable to the surroundings and to the progressive ideas which prevail in this city in the erection of new structures to replace those destroyed by the great fire. The salesroom for cut flowers is on the first floor, connected with which is a well ventilated storage room for the preservation of stock. In the basement is room for the sale of plants, greenhouse requisites, etc. On the second floor is a handsome hall, which will be rented for meetings, balls, lectures, etc. The Gardeners' Club will have its quarters here. The building is hardly completed, but the finishing touches will not take long, and when everything is in good shape it will probably be the best arranged and equipped establishment for its purpose of any in the country. A brisk business started in the new home.

NOTES.

The sewage commission which will erect a great pumping station in the eastern section of the city wants to enlarge the space it has already acquired and make a small park around the buildings instead of limiting it to the narrower limits required for the enormous engines. The park board, it is understood, approves the proposition, as the section of the city where the station is to be located needs badly an extension of public squares for the benefit of the congested population, and as there is money in hand the enlarged area will be secured and made into a small park for the benefit of the working people who find homes in this quarter. The park board tried the experiment a few years ago of replanting the Dutch bulbs which have once flowered in the beds of the parks and public squares, but it is understood the attempted economy did not prove very satisfactory and it is now announced in the daily papers that an order has been given for about 50,000 bulbs for this fall's planting. One of the reporters sagely remarks the order was sent to Holland, on account of the scarcity of the bulbs in this country.

In these notes it was stated recently that only one florist store advertised regularly in the daily papers of this city. Others, however, use different means of gaining publicity for their products. One, through the medium of spaces in the street cars, proclaims that, whilst the flowers of their competitors quickly fade, their own last twice as long, being "fresh from our own greenhouses." Another has in the window a placard, "We grow the flowers we sell." Let us hope they are always able to sell the flowers they grow.

To the Biltmore Nursery, at Asheville, N. C., has been awarded the contract for supplying the city park board with trees and shrubbery for the planting in the parks and squares for the next season. Proposals were invited by public advertisement. The quantity needed is large and the figure of the award is about $3,100.

The friends of the genial Robt. L. Graham, he of many friends, of the drooping mustache far hotter in color than his temper, will be pleased to know that he has come into a very handsome legacy, running well up into five figures. This exemplifies the old adage, "Them what has, gits."

Edwin A. Seidewitz moved into his new quarters on North Charles street on Saturday. The handsome large window was tastefully decorated and attracted general attention. S. B.

ROCKY HILL, CT.—L. C. Austin is to build another greenhouse 21x100 feet.

DES MOINES, IA.—One of the large stock buildings of the C. L. Watrous Nursery Co. was destroyed by fire November 16 at an early hour in the morning. The loss will reach at least $2,000 and the origin of the fire is unknown. The fire had got a good start before the firemen reached the scene.

Perle	4.00 to 6.00
Carnations	3.00 to 4.00

ROSES, Our Selection, . . . per 100, $3.00

'Mums, Fancy.....per doz., $3.00 to $5.00 | **'Mums,** Medium.....per doz., $1.00 to $2.50

Louisville.

Business the past week has been very good, and stock generally has been obtainable in adequate quantities. Chrysanthemums have been plentiful with the exception of white, which have been unusually hard to obtain in quantities; yellow varieties have been a little short also. Roses can be had in adequate quantities of good quality and sell well. Carnations have their usual heavy demand, the quality being very good, and the supply short. Violets have had a good demand, but unfortunately quantities of them arrived in bad shape and could not be used. Lily of the valley sells well, but is hard to get in quantities. Lilies are very good in quality, and have a good demand. Green goods are in fair supply.

NOTES.

The next regular monthly meeting of the Kentucky Society of Florists will be held the night of December 4. Election of officers will be the main business, and it is hoped to have a good attendance.

Jacob Schulz's annual chrysanthemum exhibition proved a grand success.

S. S. Skidelsky was a recent visitor.

F. L. S.

Indianapolis.

BUSINESS AGAIN GOOD.

Opening of the art museum, various social functions and concerts brought business up to normal the past week. In all likelihood, next week will practically finish the chrysanthemums. Seasonable stock of good quality is plentiful excepting violets, which will be rather scarce. Local violet growers are unable to account for the lateness of the crop. Plants, they say, are apparently healthy and full of buds and indications for heavy picking from December on are good.

NOTES.

E. G. Hill, E. B. George and Irvin C. Bertermann are named on the national flower show committee, to represent Ohio and Indiana. This committee, we understand, has the pleasant as well as easy task of raising a $10,000 guarantee fund for said show.

The Indianapolis News brought out an article on F. Dorner & Sons Co.'s new carnations, headed: "Winona, the new queen of the floral world. Lafayette wizards produce remarkable carnation worth more than $15,000."

Herman D. Schilling is positive that it was Maud herself or some mule closely related to her, that kicked him off his wheel the other day; fortunately Mr. Schilling was not seriously hurt.

The windstorm that swept this vicinity last Tuesday is reported to have reached a velocity of 53 miles an hour. Damage done to greenhouses was nominal.

Robt. Ellis, manager of Bertermann Bros.' Cumberland branch, was married November 25. Mr. and Mrs. Ellis' home will be at 25 Garfield avenue.

Mrs. Alvin Schreiber, who has been critically ill with typhoid fever, is slowly recovering.

Visitors: R. McRaind, Marion; W. W. Coles, Kokomo; R. Hyat, Anderson, and J. C. Vaughan, Chicago.

HOLLY WREATHS, 14 in., in diameter, made from perfect green holly, with four large clusters of berries; by freight, prepaid, per 100, $10.00; by express, C. O. D. per 100, $9.00.

Order early and can ship promptly on any date desired.

H. AUSTIN, Felton, Del.

An Exception.

Customer: "I want to get some cut flowers; we are having company."

Florist: "How many?"

Customer: "About 50 cents worth."

Flowers are cut and handed to him. He passes over $1 and departs saying "that's right."

One for the Policeman.

A police officer coming down street spies out a fine chrysanthemum flower. "How much?"

Florist: "Ten cents."

"Huh! I'd rather give it to the poor than pay 10 cents for a flower."

Florist: "What about the poor florist?"

P.: "Poor florist, eh? What pays better than growing flowers at 10 cents each?"

Florist: "A job on the police force, maybe."

Officer retires without purchasing.

AN AVERAGE THANKSGIVING DEMAND.

Plenty of stock coming in and plenty going out pretty nearly sizes up the trade situation here for the four days prior to Thanksgiving. Shipping orders supplied the largest part of the demand earlier in the week. About Wednesday local calls began to affect the market. However, taken as a whole the wholesalers have again come to the conclusion that no great preparation should be made for this holiday. Those who held back their stock and banked on a heavy demand were disappointed. On the other hand those growers, large and small, who have been cutting their stock clean have had every reason for a feeling of satisfaction. Chrysanthemums of all grades except the extra fancy were plentiful, with the poor stock altogether too much in evidence. There was a heavy demand for American Beauty roses, and none too many of these were seen on any counter. There were just about enough of the pink teas to go around. Other roses were in large supply with a fair call. Carnation receipts early in the week were sufficiently heavy to meet demands. Violets continue to be very short in supply, though excellent in quality as far as they go. Roman hyacinths have made their appearance. Paper White narcissus is seen in abundance; cosmos and bouvardia also are seen. A few poinsettias have shown up with prospects of a very good crop for the holidays. Lily of the valley is again in plentiful supply.

NOTES.

Joe Gans, the lightweight champion of the world, will fight two when he enters the ring at Tonopah, Nev., New Year's day. Not only will Kid Herman, of this city, be there in his own proper person, but Mathilda Graff, who is soon to be his bride, will be at the ring side to cheer her sweetheart on to victory. Herman, bereft of his stage name, is Herman Landfield. Miss Graff is the daughter of Mrs. M. Graff and sister to Sam Graff, of Graff Bros., Columbus, O. Sam is a fast friend to the groom prospective. Miss Graff is going to Tonopah to see the fight. She is going to be right on the spot and she is going to urge the Kid on Gans every time he shows a sign of getting more than he can carry. A prominent seat will be reserved for the young woman.

Scheiden & Schoos last year netted $75 and this year expect to double that amount on an original investment of two cases of beer. Some time ago a grower going out of business offered a fine lot of calla bulbs for a case of beer. Mr. Schoos said he would make it two. The bulbs were distributed about the odd corners of the plant, and otherwise waste space is now turning in a good profit. This firm will have a fine lot of Enchantress, Harlowarden and Boston Market carnations for the holidays.

Stollery Bros., at 1983 Evanston avenue, have a very attractive window of Boston ferns, with Bonnaffon, Wanamaker and pompon chrysanthemums to lend a bit of color. But the main attraction is not the window, nor even the neat and natty appearance of the interior, but Mrs. Stollery herself, who has a hearty greeting for all who come in.

A carload of bouquet green has just been received by the E. F. Winterson Co.

"The Busiest House in Chicago."

J. B. DEAMUD CO.
51-53 Wabash Ave., CHICAGO.

All Flowers and Greens in Season.

J. B. DEAMUD, Pres. W. P. KYLE, Vice-Pres. ALEX. NEWETT, Mgr.

This same firm has just placed the Ajax flower dye on the market. Florists are frequently called upon to furnish, for special occasions, flowers of a color other than that nature produces. The new dye is guaranteed to color a perfect black, blue, purple, green or lavender.

Retailers are more and more substituting Dendrobium formosum for cattleyas, says Chas. W. McKellar. This practice is giving an impetus to trade in dendrobiums. Mr. McKellar is now receiving some very fine New York double and locally grown single violets, 10,000 being received one day this past week.

The Kroeschell Bros. Co. have been favored this past week with a telegraph order from Saskatoon, Saskatchewan, Canada, for one of their big boilers. This is just one of the straws in the wind which shows the rapid progress being made in the far northwest.

A railroad tressel of pink roses, and cars, engine and other appurtenances decorated with flowers were part of the scheme of a dinner table decoration at a farewell dinner in honor of W. C. Brown, president of the New York Central railroad.

The A. L. Randall Co. has received samples of the Easter novelties with which salesmen will be sent out after the holidays. Among them are seen some very attractive designs which ought to take well with the buying public.

John Fuhlbruegge, of the firm of Fuhlbruegge Bros., of Winona, Minn., will be married December 5 to Miss Sarah Hassinger. Mr. Fuhlbruegge is well known in Chicago, having been employed by C. A. Samuelson.

M. V. Garnsey states that besides the 10 barrels of Japana flower holders mentioned in our notes recently the export order called for 40 barrels which will follow as soon as the factory can turn out the goods.

Wietor Bros. had a second large order from the Boston Store this week, including not only chrysanthemums, but roses also for their Thanksgiving decorations.

Poehlmann Bros. will continue to have high grade chrysanthemums right up to the holidays, Merry Christmas coming into crop to replace the varieties that are now going out.

P. J. Hauswirth is temporarily located at 13 Congress street. Upon completion of the new addition to the Auditorium Annex business will be resumed at 232 Michigan boulevard.

The holiday season is bringing E. H. Hunt a big trade in his supply department, but all orders, however large, are

Bassett & Washburn
76 & 78 Wabash Ave., CHICAGO,
Wholesale Dealers and Growers of Cut Flowers
GREENHOUSES: HINSDALE, ILL.

met with the customary promptness.

J. A. Mendel is doing a large business on the west side, several large weddings and receptions keeping all hands busy.

Weiland & Risch are receiving their customary supply of very fine white violets every other day.

Louis Gresenz, with Bassett & Washburn, lost his father by death November 21.

Thousands of red roses may now be seen daily on Peter Reinberg's counters.

Vaughan's Seed Store is receiving quantities of Thanksgiving holly.

Geo. R. Wienhoeber is in the city.

Visitors: B. Eschner, with M. Rice & Co., Philadelphia, Pa.; Frank Hayden, proprietor Colorado Springs Floral Co., Colorado Springs, Col.; Gus Fredrickson, Glen Lord, Mich.; W. W. Britz, Danville, Ill.

READING, MASS.—George G. Phelps has purchased the greenhouses and business recently carried on by Mrs. Manahan.

FAIRHAVEN, MASS.—The greenhouses of H. H. Rogers were opened to the public from 8 a. m. to 6 p. m. November 14 to 17.

CRYSTAL SPRINGS, MISS.—The twelfth annual flower show, by the ladies of the Crystal Springs floral club, opened November 13, and was very successful.

PASADENA, CAL.—The tournament of roses association has asked the chamber of commerce to co-operate in the annual flower festival to be held January 1, 1907.

NEW HAVEN, CT.—At the funeral of Judge Jacob B. Ulman recently, 112 floral devices were sent, constituting vivid proof of the esteem in which the judge was held.

HUDSON, MICH.—John Alwood of the Hudson greenhouses finds trade booming, large orders from neighboring towns as well as his own local trade keeping him busy.

TORONTO, ONT.—Several members of the Ontario Horticultural Association expressed dissatisfaction at the short time allowed for the convention which was held at the city hall November 9.

WHITE VIOLETS, $2.00 per 100.
S. S. PENNOCK-MEEHAN CO., 1610-1618 LUDLOW ST., Philadelphia, Pa.

Philadelphia.

STOCK PLENTIFUL.

Chrysanthemums have been a trifle overplentiful the past week and have moved slowly. All good stock has sold, however, when prices were shaded. There is a demand for a good medium grade, something that would sell for from $6 to $8 per 100, there being a good demand for such stock in the stores. An addition to the whites the past week is Jeanne Nonin. It might be described as a refined Eaton, so much does it resemble that famous variety. It has a better finish, however, is a clear white and is clothed with foliage almost like Bonnaffon. This latter yellow is still one of the most popular of its color. Jerome Jones is also a favorite and many fine blooms are seen. American Beauty roses are in good demand at fair prices; a few specials bring as high as $5 per dozen. There is no great quantity coming in, as many growers say they are manipulating their stock so as to have large crops at Christmas. Large stocks of Richmond and Liberty roses are being sent to market now. Both sorts stand side by side in the retail stores and there is a close race for popularity. Many think Liberty has a shade the best of it, as the color is richer, and Richmond has a tendency to hang its buds a trifle, which gives the impression that it is not strictly fresh. Killarney is improving in size and length of stem, but is pale in color, Bridesmaid having a shade the best of it in this respect. Carnations are not at all plentiful and all good flowers appear to move off at good prices. A tendency toward sleepiness was apparent last week for the first time this season, apparently fresh stock being unsalable the second day. Prices are about the same as last week. Violets are very good and prices quite satisfactory to the growers. Doubles sold for $1.50 and singles 50 cents to $1 per 100 during the past week. Roman hyacinths are in first, bringing $5 per 100. Mignonette is scarce, but little being offered and this not very good. There are plenty of good cypripediums which sell from 12 to 15 cents. Cattleyas sell well at from 50 to 60 cents.

NOTES.

Jacob Becker had an unfortunate loss by fire last Sunday night at his forty-ninth and Chestnut street place. The boiler shed, where the fire started presumably from a defective flue, was completely destroyed, as well as the ends of the three greenhouses opening into it. About 20 to 25 feet of the structures were also destroyed before the fire was gotten under control. The stock in the houses comprising roses planted out on tables for cut blooms was also much damaged by the smoke and heat and the consequent chill. Mr. Becker places his loss at over $2,000, and unfortunately, there is no insurance.

Wm. P. Craig has purchased half the stock of the new Nephrolepis Amerpohli, a house of which is now to be seen at the Robt. Craig Co.'s establishment. We believe Mr. Craig has made no mistake in acquiring this stock. The difference from all the other breaks of the Boston Fern that have gone before is so marked that it cannot help but have a great future. As a cut frond, while yet so different, it is in a class with Adiantum Farleyense and will no doubt have a great sale as a choice cut green.

The S. S. Pennock-Meehan Co. reports it was never so busy for the season. Orchids, American Beauty roses and lily of the valley are constantly going out in large shipping orders that keep all hands busy. Some magnificent pink and yellow Chadwick from Stroud's Stafford farm are seen here.

Thanksgiving business is looming up strong and all dealers say they are well booked with orders for this holiday. Chrysanthemums generally say good bye at this occasion, but this year it looks as if they would have a week or two longer, as considerable stock is reported in bud as yet.

The Leo Niessen Co. is handling large quantities of cut box, also a dwarf laurel suitable for window boxes. If this will do well it will be a strong competitor to the dwarf box now so largely used.

H. Bayersdorfer & Co. are greatly pleased with their new store. They now have room to breathe and expand and their growing trade will no doubt keep pace with the improvement.

Wm. McKissick reports large shipping orders for Thanksgiving. Liberty roses and lily of the valley are strong points in his stock. K.

Boston.

MARKET ACTIVE.

Commencing the first day of last week, not letting up in the least and with an excellent outlook for the coming week, trade has been exceedingly active in every branch of the retail and wholesale departments. The call for funeral work has been very large and coupled with social affairs, teas, dinners, engagements, etc., it may be said that not until now has the season for flowers really opened. Throughout the city the business was proportionately scattered so that all received their share and great inroads were made in the enormous supply of all sorts of flowers daily coming into the local market. The weather has been very poor indeed for growing, which somewhat affected the market but not seriously, excepting for roses. Owing to the poor general quality of chrysanthemums, roses have sold better all along this fall and accordingly brought higher prices than is usual during the early season. The appearances early in the week were that the market would be well supplied with chrysanthemums for Thanksgiving, although it had been feared that the supply would not hold out until then. In the rose market Richmond has been selling well. American Beauty roses, now produced by the local growers, are of much better quality than those received from other markets even though they haven't the lengthy stems which constitute much of the popularity of these roses. The market for pink roses is very well supplied. The old fashioned Safrano and Bon Silene are now coming in and ready to greet their hosts of admirers. Carnations are selling better than heretofore and are now beginning to look more like the local carnations which have become so well known. From the effects of the weather violets have been very short but now are coming better again. Never was the preference for the single violet more prominent than it has been this year. Among the choice novelties are seen cattleyas and cypripediums in quantities, gardenias, bouvardias, pink and white, and lily of the valley, the sale for which has been very great.. Most of these flowers are received from distant shippers, who specialize in this valuable stock.

NOTES.

On exhibition at the Park street market Saturday was a vase of that superb new chrysanthemum, Golden Dome, which attracted the growers by its grand appearance and splendid characteristics. This bloom is a sport from yellow Eaton, originated by John A. Macrae, of Providence, R. I. It has many of the traits of the mother flower, of a deeper shade of yellow, incurved, with a much fuller bloom and exquisite foliage. After the criticisms of all had been disposed of, the unanimous opinion was that it is the peer of the chrysanthemum kingdom. Its foliage was the delight of growers who viewed it. Next season this flower is to be put on the market by the E. G. Hill Co., of Richmond, Ind. Its success is already a foregone conclusion.

W. H. Elliott's crop of Bon Silene and Safrano is now being cut and attracting the exclusive buyers of these old fashioned roses, who have anxiously awaited their coming. The stock of these little roses has been greatly increased, as after an experimental season it was decided that there was a good market for them which was not altogether properly filled.

The Thos. F. Galvin corporation decorated at the dinners of the Beacon Society and Commercial club during the week at the Algonquin club. This house has found it necessary to increase its delivery department and has added another automobile to its service.

Mrs. G. L. Clarke, of Cohasset, who makes a specialty of the beautiful coral bouvardia which has become very valuable is cutting large quantities, for which excellent returns are made.

At the dinner of the Merchants' club November 20 Edward MacMulkin furnished the decorations, composed chiefly of yellow chrysanthemums. B.

CHRISTMAS NUMBER

DECEMBER 13. SEND ADVERTISEMENTS NOW.

New York.

With the approach of the Thanksgiving holiday the market was given an impetus, which, while advancing values, leaves business in a condition, which, to say the least, is forced. Preholiday preparations made by growers were of the usual kind, and holding back of marketable stock was very evident, both in volume of arrivals and quality. Roses were the worst problem, and with really prime stock short in supply, values were advanced 100 per cent, or more. American Beauty roses have shortened up, and values have reached a figure in excess of that obtained for them one year ago. Bride and Bridesmaid roses are plentiful, but the quality of the general run is wretched. When any offerings run to top in quality the price for a selection reaches easily a point much beyond the quotations for ordinary stock. Chrysanthemums are inconveniently plentiful, but seem to hold their own, cleaning out fairly well and establishing a good range of quotations for legitimate sales. Yellow varieties have been somewhat over prolific in supply, and street men have had opportunities of which they have readily availed themselves. Some grand Timothy Eaton and Major Bonnaffon are to be had at nominal prices, and other varieties are also well to the front among the good things. Small flowers and bush varieties, inside grown, are prominent in the market, and as a rule bring good prices. Violets have gone through the stage of excessive demand, and have come through an attempt to force prices. They are now fairly settled at the $1.25 mark, with very little business doing at that price. Narcissus is coming in well, and Paper White sells freely. Stevia is also a free selling article when it is good Cypripediums are quite plentiful, but move somewhat sluggishly. Cattleyas are up a bit, and are moving toward their zenith in point of price. Carnations move along steadily, quality increasing as the weather gets colder. Prices are advancing a little and the supply is anything but over plentiful. Enchantress moves well, probably better than any of the ordinary sorts. New varieties are picked up quickly, largely on account of their limited quantity.

THE HARVEST HOME RECEPTION.

Among the thousands who attended the harvest home reception, given by Doubleday, Page & Co. last Tuesday, the florists' trade was well represented. Every person attending was presented with a liberal sized bunch of chrysanthemums or roses on entering the building, and many of the prominent growers loaned exhibits of flowers and decorative stock. John Scott, of Brooklyn, made a handsome showing of dracænas, Nephrolepis Scottii, crotons and other plants. The vestibule and second floor were artistically decorated by the Rosary Flower Co., and many large box and bay trees, loaned by Bobbink & Atkins, of Rutherford, N. J., were exhibited on all floors. C. H. Totty, of Madison, N. J., made a handsome showing of hardy chrysanthemums. The Cottage Gardens Co. had one of the finest exhibits of carnations made by them this year. A large elevated center vase was filled with Alma Ward, the new grand white. Other vases surrounding were filled with Mrs. C. W. Ward, Enchantress, Octoroon, Robt. Craig, Lieut. Peary, Evangeline, Mrs. Patten and Mrs. Tom Harvey. The F. R. Pierson Co., of Tarrytown, N. Y., made a handsome showing with Winsor, as also did Guttman & Weber, of Lynbrook, L. I., with Victory. J. M. Thorburn & Co. made a fine exhibit of vegetables and roots; and John Crosby Brown, Peter Duff, gardener, showed some fine trained chrysanthemums. On the third floor was an exhibit of more than ordinary interest by the United States Department of Agriculture, in charge of F. E. Bonsteel.

NOTES.

Weddings and society events have been quite numerous within the past two weeks. Wm. H. Donohoe of Twenty-ninth street and Fifth avenue had the decorations for the harvest festival held at the Waldorf-Astoria last week in aid of the Industrial School for Crippled Children. It called for a large quantity of chrysanthemums. He also had the decoration of the Belasco theater at its opening last week. In the first act, representing a California scene, all the flowers and plants used were natural, and it is understood that this feature to a large extent is to be continued. He also had the decorations at a theatre opening in New Britain, Conn., last week using yellow chrysanthemums entirely for the lobby and proscenium. A 7-foot horseshoe and star was one of the pieces supplied.

Alex. J. Guttman paid another visit to John E. Haines at Bethlehem, Pa., last Wednesday, and was so satisfied that the two new varieties of carnations which Mr. Haines has originated would prove valuable acquisitions, that he completed arrangements with Mr. Haines to disseminate both varieties this season. Imperial is a variegated variety, with a delicate pink ground sprinkled with deeper pink. Pink Imperial is a carnation of the Lawson shade of pink.

Geo. T. Schuneman, of Baldwin, L. I., has been entertaining his cousin, H. P. Gumtau, a florist from Berlin, Germany. They spent a day last week in Madison, N. J., visiting establishments. Mr. Gumtau says that chrysanthemums are grown better on this side, but other flowers bear only ordinary comparison to those produced on the other side.

The directors of the American Institute had a meeting last week, at which it was decided to hold a flower show next year on a larger scale than ever before, the exhibition to be held if possible in quarters to be obtained uptown. The co-operation of other horticultural bodies will be sought in the matter.

Siebrecht & Son have built a handsome steel and glass roofed canopy over their store front, which not only protects customers from the weather, but improves the appearance of the store.

The Alhambra Florist is the title of the new flower store just opened on One Hundred and Twenty-fifth street, near Seventh avenue.

The retail flower store of Bloomingdale Bros. is now in charge of Thos. Wade, formerly with Wadley & Smythe.

Chas. Thorley is opening a new branch store at Eighty-sixth street and Columbus avenue.

PLAINFIELD, N. J.—Charles L. Stanley, of 142 North avenue, has broken the ground for another new greenhouse at Netherwood. Increase of trade has led to this and other developments of this successful florist's business.

OSSINING, N. Y.—Miss Grace Fisher, daughter of a florist's assistant, has resigned her position as soloist in a Brooklyn church, owing to Madame Nordica having been so captivated by her sweet voice that the famous singer has provided a competent instructor under whom Miss Fisher will study.

NEW HAVEN, CONN.—A serious fire broke out at the Schroto greenhouses, corner of Springside avenue and Austin street, Westville, November 4, and owing to the hose brought by the firemen being of insufficient length, about $800 damage was done before the fire was got under control. The fire is supposed to have started in the boiler room.

The Seed Trade.

American Seed Trade Association.
H. W. Wood, Richmond, Va., Pres.; C. S. Burge, Toledo, O., First Vice-Pres.; C. E. Kendel, Cleveland, O., Sec'y and Treas. Twenty-fifth annual convention at New York, 1907

VISITED CHICAGO: H. G. Windheim, Omaha, Neb.

VISITED NEW YORK: J. Chas. McCullough, of Cincinnati.

POTATOES for seed purposes are admitted to Argentina free of duty.

THE 1907 crop of dummy orders and requests for prices is about ripening.

THORBURN'S preliminary trade price list was received last week, Burpee's following a few days later.

ONION SETS in carloads at Chicago are quoted at $1.50 for yellows, $1.60 for dark reds, and $2.00 for whites.

THE imports of flax seed into the United States in 1906 amounted to only 52,240 pounds against 296,184 pounds in 1905.

ONION SETS are reported sold for February delivery in the west at $2.00 for yellows and reds and $2.25 for whites in half carload lots.

A. J. PIETERS, of the A. J. Pieters Seed Co., Hollister, Cal., will shortly leave for the east on a business trip and will call on the trade.

PARIS, FRANCE, November 8.—Judging from the numerous American orders, which cannot be filled, onion seed must be a scarce article in the United States this year.

BOUQUET GREEN difficulties have been increased because of car shortage. While there are not many carload lots to be found in the green district yet cars cannot be found even to move these.

A CONFERENCE of Canadian provincial premiers, recently held at Ottawa, recommended the legislature to abolish the tax on commercial men, other than liquor travelers, entering the dominion.

KENTUCKY and Tennessee rivers running bank full have washed away both railroad and wagon bridges and carload shipments of holly from that section are delayed from five to seven days, provided no further rains fall.

GARDEN, field and other seeds for agricultural or other purposes when in bulk or large parcels are charged an ad valorem duty of 10 per cent on entering Canada. In small papers or retail parcels the ad valorem duty is increased to 25 per cent.

WE notice, in the consular reports recently issued, that an English commission has been authorized to purchase suitable areas of land in the southern states, on behalf of certain Lancashire firms, with a view of making experiments in growing their own cotton.

CALIFORNIA seed growers are reported to be forming closer business relations than in former years, although for several years past there have been various meetings for consultation on crop outlook, acreage, planting stocks in sight and possible advance of prices. These plans if carried out should be an object lesson to seed dealers to get together and pool their requirements and place the business with those who are not selling to consumers at lower rates than to seedsmen and dealers.

PRELIMINARY prices of the Wholesale Seedsmen's League have been issued. It is possible that some of them are out of line. Bean prices seem too high; some onion prices too low. The next league meeting, which could profitably be held at an earlier date, should be at some central city like Cleveland or Cincinnati where fuller attendance both from the east and west could be secured for full consultation. Cordial cooperation in these matters could be made to mean very much to the trade.

THE DAKOTA IMPROVED SEED CO., a new corporation with a capital of $100,000 has selected Mitchell, S. D., as its location. Prof. Wheeler, late of the Minnesota experiment station, has been appointed manager of the seed business and the principal offices are to be located at Mitchell, where warehouses and other buildings are to be erected or acquired as necessity arises. An experimental and testing farm will be operated near the city and a considerable quantity of the seeds handled by the company will be grown for them under contract in its vicinity. The directors of the new company met November 16 and elected L. R. Erskine, president; T. J. Morron, vice president; W. A. Wheeler, secretary and manager; and S. E. Morris, treasurer.

To Prevent Potato Rot.

German papers publish a method to prevent potatoes in cellars from rotting, on which Consul General Guenther of Frankfort reports: "It is claimed that

HELLER & CO., Montpelier, O.

the potato fungus causes rotting. A solution of one pound of chloride of lime dissolved in 25 gallons of water is used for washing the potatoes, which are then spread out to dry. By this procedure the spores of the fungus are killed."

Syracuse, N. Y.

ACTIVITY FOLLOWS DULL PERIOD.

The florists were preparing for a big Thanksgiving trade, at last reports. The weather for two weeks had been rainy and warm. Stock had moved rather slowly up to the first of this week, when business began to pick up.

NOTES.

P. R. Quinlan & Co. have grown from 5,000 to 6,000 excellent chrysanthemums this season. Single violets are now coming in from their greenhouses. Their American Beauty roses are looking fine and selling well. Roses are a little slow on account of the chrysanthemum supply. Mr. Quinlan attended the banquet and flower show of the Utica Florist Club last week. He reports that the occasion was greatly enjoyed by all.

Henry Morris for two weeks has had a display of yellow Josephine and Major Bonnaffon chrysanthemums and yellow Lincoln chrysanthemums in pots. Mr. Morris says that chrysanthemums and carnations are selling the best while other stock is mostly in demand for funerals.

Wheadon & Hencle report chrysanthemums to be at the height of their season. The quality is good and they have sold well. Chrysanthemums in pots are not moving rapidly with them.

F. R. PIERSON CO., Tarrytown-on-Hudson, New York

The Nursery Trade

American Association of Nurserymen.
Orlando Harrison, Berlin, Md., President; J. W Hill, Des Moines, Ia., Vice-President; George C. Seager, Rochester N. Y., Sec'y.
Thirty-second annual convention, Detroit, Mich., June, 1907.

THE consumption of tanbark in 1905 was 1,104,045 cords, of which 73 per cent was hemlock bark and the other 27 per cent oak bark. These figures are from a pamphlet issued by the U. S. Department of Agriculture.

The duty payable on apple, pear, cherry, peach, plum and quince trees, also small peach trees known as June bud, on entering Canada is three cents per tree. The duty on grape vines, gooseberry, raspberry, currant and rose bushes, any fruit trees not otherwise specified, also lawn, shade and ornamental trees and any not otherwise specified is 20 per cent ad valorem. Blackberries, gooseberries and other soft fruits enter at two cents per pound, package included, while cranberries, plums and quinces are taxed 25 per cent ad valorem. Peaches pay one cent per pound.

IN making cuttings of manettii or briar for stocks, the wood should not be too large. If about the size of an ordinary lead pencil it will be large enough and it should be of the current year's growth, well ripened. The heel of older wood at the base, once thought necessary should not be allowed; it is not required, and plants having it are more prone to producing suckers than those from straight shoots. These may be cut in lengths of 9 to 12 inches and all the eyes excepting the upper two cut out to prevent suckers forming. When planting leave the upper two inches or so above the soil level and plant with the base resting on a firm bottom. The cuttings, may be set six inches apart in the rows, the rows being left nine inches apart. The easiest way to plant the cuttings is to chop down to a line, with the spade sloping out a little, place the cuttings in position and then dig the next spit towards them, repeating this each foot. If a little sand or rough grit is thrown along the line before inserting the cuttings it helps them to root freely. Very hot dry weather and severe frost are equally trying to briar cuttings and a little loose straw litter scattered over the surface of the ground is a slight protection from either.

IN planting for effect, in gardens of moderately large size, it is too much the custom to dot the trees about promiscuously, without any thought of making a change in the appearance of different parts of the grounds. This is quite a mistake, for every garden should be so planted that at every turn one comes across something new. It is tiresome walking and seeing the same thing repeated time and again. For instance, in parks as well as private gardens, one often sees herbaceous borders backed up with shrubbery, the outline of the borders gracefully traced out and in every way suitable for effective planting. But instead of fine blocks of a shrub or plant we see the different kinds dodged about at almost regular intervals so one needn't walk more than a few yards to see every variety that is on the place. When planting on the grass too, the same thing is often noticed, conifers, deciduous trees, or what not planted at regular intervals. The eye is rested by an occasional open sweep of green, whether lawn or ordinary rough grass, but under the dotting system this can never be seen. Fine specimens of any kind of tree or shrub standing singly

Edward Y. Teas.
The veteran Indiana nurseryman.

are excellent in their effect of course, but a number of mediocre ones are not so good. And large blocks of any of our fine flowering or foliage shrubs are far nicer than a mixture repeated ad nauseam all over the place.

Edward Y. Teas.

A VETERAN HORTICULTURIST.

That veteran horticulturist, Edward Y. Teas, was born in Union county, Indiana, March 8, 1830. At the age of 12, with his older brother, John C. Teas, now of Carthage, Mo., he began a small nursery, at first to grow trees for their own orchard, but finally drifted into a general stock for sale. At that early date the fruits common in Indiana were mostly of New Jersey, Pennsylvania or Virginia origin, or introduced from those states. The varieties most popular in New York and New England, had not yet generally reached Indiana. For about ten years from 1845 the Teas Bros. supplied the nurserymen of Rochester, Geneva, and other points with scions of the best varieties of western or southern origin, and quite a correspondence was carried on with Patrick Bany, of Rochester, W. T. & E. Smith of Geneva, John J. Thomas of Macedon, Charles Douring of Newburg, and others.

In 1844 J. C. & E. Y. Teas grew the first batch of Catalpa speciosa seedlings ever grown anywhere. One thousand of these seedling catalpas sold to Sam'l Fister of Muscatine, Ia., demonstrated in that colder section the superior hardiness of Catalpa speciosa over the common C. bignonioides, which had until this date, been the catalpa of commerce.

E. Y. Teas named and first disseminated Garber's Hybrid pear, a variety originated by J. B. Garber of Columbia, Pa. Mr. Teas also named and disseminated Smith's Hybrid pear near the same date. This pear was quite popular in the south for some years.

Mr. Teas first disseminated the Sucretia dewberry, the first really popular dewberry ever introduced. He personally selected in Paris in the winter of 1859-60 seeds from which he produced the Early Amber sugar cane, a variety that had a wonderful culture in the west and northwest during and after the civil war.

In 1872 he originated the President Wilder currant, a variety which many believe today to be the best currant in cultivation.

Mr. Teas is a charter member of the American Association of Nurserymen, the Indiana Horticultural Society, now in its forty-seventh year, and of various other organizations. Mr. Teas' aim has always been to grow and sell stock true to name. Although now in his seventy-seventh year he is as busy as ever in searching for new and desirable plants for beautifying American homes.

For a complete list of seasonable decorative and other stock see our current wholesale list.

HENRY A. DREER, 714 Chestnut Street, PHILADELPHIA.

Washington.

Both dealers and customers show a disposition to make the most of the chrysanthemums while they last and as a consequence other stocks keep pretty well in the background. There are great quantities, of all grades, in sight, and very fine blooms are to be seen in the stores but the greater trade is in the medium sized varieties. Roses of very good quality continue to arrive but sales are slow. All carnations of a passable quality are soon taken.

NOTES.

J. H. Small, Jr., was re-elected to the directorate of the Washington board of trade at the annual election, held at the new Willard hotel November 12. In a total of 303 votes, 232 were cast for Mr. Small. At the meeting, Gen. John M. Wilson, U. S. A., retired, who is also president of the board, presented a resolution indorsing the project for a municipal exhibit at the Jamestown exposition. A committee of the board, of which Mr. Small is a member, will co-operate with other trade bodies of the city in arranging for the exhibit.

All the dealers have hopes that the eminent patriot and statesman, Uncle Joe Cannon, will not harden his great heart and shut flowers out of the house this year; at least, not on the opening day.

The American Rose Co. has recently made a number of improvements in the interior arrangement of its store.

Peter Bieset, president of the Florists' Club, W. F. Gude and Otto Bauer went over to Baltimore and acted as judges at the chrysanthemum show. They say that Baltimore made a very creditable showing in blooms and that the hospitality of the florists was of the true southern brand.

The features of Z. D. Blackistone's and John Robertson's windows this week are big bunches of finely flowered poinsettias that were grown at A. B. Gardens' range.

Fred. Burki, of Pittsburg, has been visiting friends in Virginia. He stopped off in Washington long enough to see the sights and call on his friend, O. A. L. Oehmler.

Roman J. Irwin, representing Vaughan's Seed Store, New York, has been gathering orders in this city and vicinity, during the past week.

Adolphus Gude is erecting a fine new residence. An expert says "that is what fine American Beauty roses will do for a man."

The Washington Florists' Co. have been doing a deal of fine decorative work with chrysanthemums.

The Gude Bros. Co. store is now headquarters for American Beauty roses and chrysanthemums.

Alex. B. Garden has a very fine house of poinsettias, many good blooms being already in sight.

Flowers for the fair debutantes will be features of the trade for the next month.

J. R. Freeman is showing a fine lot of lilies, in pots. S. E.

St. Louis.

MARKER FIRM.

The market the past week was firm; everything brought good prices. There was no over supply, the near approach of Thanksgiving perhaps being partly the cause, as at the time of writing some shipments of roses plainly showed the sign of picking which is an injustice to the retailer as well as the wholesaler. There was no necessity for this, as holiday prices were in vogue as early as Monday. Violets are improving in quality, especially in length of stem and color. Fancy chrysanthemums are bringing very good prices. It might here be mentioned that during the week quite a good many fine chrysanthemums were rendered unsaleable through the wretched packing by the shippers. Many were badly bruised and broken and roses also had fine buds broken off. Asparagus Sprengeri is now in demand and very scarce. A. plumosus is selling well. Narcissus is now coming in and of very fine quality, also stevia. American Beauty is greatly in demand and very scarce, especially long stems. Some good short stems are in. Many of the Richmond roses arrive too close for sale and have to be held over.

NOTES.

W. C. Smith & Co. have purchased the stock and fixtures of F. M. Ellis and intend to conduct a wholesale commission house. With the company is associated Wm. H. Osseck who had charge of the business from February 1 to October 10, during the absence of Frank M. Ellis. Will Smith is well known here and is conversant with matters pertaining to the trade, having served his time in a greenhouse. He has a host of friends, is well liked and is a hustler. He is assisted also by Chris. Sammer, Jr. Mr. Ellis will remain here to collect his bills and pay his accounts and when everything is settled will go to Panama to look after his interests there. Everyone wishes Frank success.

A meeting of seven members from the Florists' Club took place last week in the parlors of Hotel Rozier to further the interests of the flower show to be given by the St. Louis Florists' Club in 1907. Among those present were Professor Irish, Carl Bever, J. J. Beneke, Wm. C. Smith, Otto Bentzen and Theodore Miller.

Judge Vesey, of Fort Wayne, Ind., accompanied by his wife, is a visitor here this week. Mrs. Vesey is a guest at the home of Fred Meinhart. Mrs. Vesey stated she expected to cut chrysanthemums until the middle of December but that weather conditions will control her supply from now till the holidays.

A meeting of the St. Louis Horticultural Society took place at Fred Meinhart's last Thursday. The printing matter in regard to membership for distribution was discussed. Another meeting in a few days will take place and a meeting of executive committee will take place early in January.

Otto Koenig has been appointed a member of the committee of the Society of American Florists to represent this territory. This is a very important

THE SEASON TO SELL POT PLANTS
IS JUST OPENING.

All we want is a sample order to show you the fine quality of **OUR STOCK.**

Our Leading Specialty this season is **FICUS PANDURATA.**

Very much admired for its bold, handsome appearance, and already famous in Philadelphia and New York as a satisfactory, because durable, house plant.

ROBERT CRAIG COMPANY, Market and 49th Streets, **Philadelphia**

appointment and Mr. Koenig is well qualified to fill it.

At a meeting of the Civic Federation a letter was received from Professor Trelease, also from City Forester Andrew Meyer, Jr., condemning the smoke nuisance, as it has killed several plants and shrubs at Forest park.

Chas. Connon has opened up a flower stand at the New Grand Leader dry goods store. Charlie Connon is well known, a good designer and thoroughly conversant with the retail business and should make a success.

The Ellison Floral Co. had some of the largest receptions ever given here. Especially grand was the Bassett reception where several thousand Chatenay roses with electrical effects were used.

F. C. Weber had some of the finest home grown roses ever seen here, grown by John Sleidle, of Central. His Chatenay is especially fine, also some fancy Enchantress carnations.

The Bentzen Floral Co. has a large sale this week of palms and chrysanthemum plants at its store. Otto Bentzen is a hustler and a heavy advertiser in the daily papers.

The children of St. Louis through the Post-Dispatch have purchased two little cub bears to be presented to Park Commissioner Aull for the zoo at Forest park.

Geo. Waldbart is getting some extra fine Marshall Field roses and double violets which find ready sale. He expects a large trade for Thanksgiving.

W. F.

PALM BEACH, FLA.—Mrs. H. B. Foster, the well known florist, has taken one of the cottages on the trail near the ocean beach for the coming winter.

MANITOWOC, WIS.—Negotiations are on foot for the purchase of land near the Evergreen cemetery, with a view to building greenhouses thereon. The promoters think the location an ideal one for the purpose, owing to the vicinity of the cemetery.

DAVENPORT, IA.—The monthly meeting of the Tri-City Florists' Association was held November 15 at the home of C. O. Boehm, superintendent at Central park. Roses, carnations and violets were the principal topics discussed and John Temple, one of the judges at the Chicago flower show gave some interesting particulars respecting it.

WATCH ☛ PROSPERITY ☚ LOOK

Prepare for Christmas.

PRICES SLAUGHTERED ONE-HALF THE NORMAL.

☞ **THIS IS OUR LAST SLAUGHTER.** ☜

Is it possible to sell an Araucaria Excelsa, 4 years old, 18 to 23 inches high, 5 to 6 tiers, for 75c? YES! Aschmann can do it. Read explanation below.

Prices **never** offered so low in the history of Araucaria cultivation. Why is that? For the simple reason, to obtain room to cultivate our great Easter stock. About 5,000 Araucarias, with an immense lot of Palms, Ferns, Azaleas, Rubbers, Begonia Gloire de Lorraine, etc., must be sold by Christmas.

☞ Please take notice. In all the Araucarias only spring importations are offered: raised in pots all summer, and can be shipped any distance safely without drooping.

ARAUCARIA EXCELSA

There is no home complete without an Araucaria. 5½ to 6-in. pots, 18 to 23 in. high, 5 to 6 tiers, 4 years old, 75c; 6-in. pots, 23to 25 in. high, 5, 6 to 7 tiers, 4 years old, $1 00; 6 to 7 in. pots, 25 to 30 in. high, 5, 6 to 7 tiers, 4 years old, $1.25; 7-in. pots, specimen plants, from $1.50, $1.75 to $2.00 each.

ARAUCARIA COMPACTA ROBUSTA—have several thousand of them; can supply all wants. These plants were never so fine in shape and condition as this year. The pet of the greenhouse; as broad as long. 6-in. pots, 3 tiers, 12 to 14 and 16 to 18 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 18 to 20 and 22 to 25 in. high, same wide, 4 years old, $1 50 to $1.75 each; 7-in. pots, specimen, 6 to 7 tiers, and 25 to 30 in. high, same wide, 5 years old, $2.00 to $2.50 each.

ARAUCARIA EXCELSA GLAUCA—this variety on account of its beautiful green-bluish tiers, dwarf habit, fine compact shape, gives it a striking appearance, and anybody seeing the plants must undoubtedly fall in love with them at sight. 6-in. pots, 3 tiers, 14 to 16 and 18 to 20 in. high, same wide, 3 years old, $1.00 to $1.25 each; 6 to 7 in. pots, 4 to 5 tiers, 20 to 25 and 25 to 30 in. high, same wide, 4 years old, $1.50 to $1.75 each; 7 in. pots, specimen, 5 tiers, 30 to 35 in. high, same wide, 5 years old, $2.00 to $2.50 each.

All these plants are as broad as long; the finest you have ever seen.

Aschmann's Ever-Prosperous Greenhouses Now Great Slaughter Houses.
HAVE NO MERCY, DOWN GO THE PRICES.

NO SCARCITY OF KENTIA PALMS.

Can meet all wants cheaper than ever.

KENTIA FORSTERIANA, 7-in. pots, made-up plants, 1 large size, about 45 to 48 in. high in the center, and 3 smaller sizes, 25 x 30 in. high around, which gives them a good appearance, $2.00 to $2.50 each; 6-in. pots, single plants, 36 to 45 in. high, 5 to 6 good leaves, 4 years old, $1.25, $1.50 to $1.75 each; 6-in. pots, 32 to 36 in. high, 5 to 6 good leaves, 4 years old, $1.00 each; 5½ to 6 in. pots, 4 years old, 30 in. high, 5 good leaves, 4 years old, 75c; 4-in. pots made-up plants, 3 plants in a pot, 18, 20 to 25 in. high, 25c, 30c to 35c each.

ARECA LUTESCENS, 5-in. pots, 24 in. high, made-up with 3 plants, 35c; 4-in. pots, 20 to 24 in. high, made-up with 3 plants, 25c.

ARECA SAPIDA, just imported from Belgium, something new, very attractive, looks like Kentia, 25 in. high, 50c.

COCOS WEDDELLIANA, 15c.

ASPARAGUS PLUMOSUS NANUS, 4-in. pots, large, bushy, 10c to 12c.

ASPARAGUS SPRENGERI, 4-in., 10c.

FICUS ELASTICA, or **Rubber Plant,** 6 in. pots, 25 to 30 in. high, 40c to 50c each.

FERNS, all raised in pots and not on benches as follows:

NEPHROLEPIS BARROWSII, 7 in. pots, as big as a bushel basket, 75c to $1.00 each; 6-in. pots, large, ready for 7-in., 50c; 5½-in., 40c; 5-in., 35c; 4-in., 25c.

NEPHROLEPIS SCOTTII, 8-in., as big as a washtub, worth $2.00, now $1.25; 7-in., as big as a bushel basket, worth $1.25, now 75c; 6-in., 50c; 5½-in., 40c; 4 in., 20c.

NEPHROLEPIS ELEGANTISSIMA, 5-in. pots, 30c.

BOSTON FERNS, 7-in., very bushy, only 75c; 6-in., 50c or $5.00 per doz.; 5-in., 30c to 35c; 4-in., 20c

FERNS—A fine assortment of Ferns for dishes, large, bushy, out of 2½-inch pots, $5.00 per 100

JERUSALEM CHERRIES, (or Solanum), 6 to 7 in. pots, very bushy, full of berries, from $3.00 to to $6.00 per doz.

DRACAENA BRUANTI, (imported), 30 in. high, full of green, waxy foliage from top to bottom; the only Dracaena for parlor, store or house culture, that can stand heat, dust and dirt; 6-in. pots, 50c, $5.00 per doz.

CYCLAMEN, will bloom for Christmas, 4-in. pots, 12c.

CHINESE PRIMROSES, 5¼-in. pots, very strong, in bloom and buds, $2.00 per doz.

HYDRANGEA OTAKSA, only pot-grown is offered, sure success for Easter forcing, 6-in. pots, 25c; 7 to 8-in., 50c.

AZALEA INDICA for Christmas, **all ready forced** in bud and bloom, Deutsche Perle, double white; Simon Mardner, double pink; Vervæneana, double rose variegated, flowers very large. Prices: 50c, 60c, 75c, $1.00, $1 25 to $1.50, cash. In the small sizes mostly white. Some white must be taken with colored. Azaleas for Easter forcing in the best American varieties, pink, white or variegated; 35c, 40c, 50c, 75c, $1.00, $1.25 to $1.50, cash.

BEGONIA GLOIRE DE LORRAINE, 6-in pots, in bloom and bud, for now and Christmas, 50c to 75c each.

BEGONIA FLAMBEAU, sells on sight, 4-in., ready for a shift into 6-in., 20c.

BEGONIA ERFORDII. New Improved, 4-in., 20c. 5¼-in., 25c.

All plants must travel on **purchaser's risk only.** CASH WITH ORDER.

When ordering, say whether the plants should be shipped in the pots or not.

GODFREY ASCHMANN,

IMPORTER AND WHOLESALE GROWER OF POT PLANTS.

1012 Ontario Street, - - PHILADELPHIA, PA.

LOUISVILLE, KY. — The local newspapers claim Jacob Schulz's show November 21-22 was the chrysanthemum event of the year.

CHARLESTON, S. C.—The annual chrysanthemum fair, held November 9 by the ladies of the Presbyterian church, was a decided success, over $100 being netted for the funds. Good flowers were shown both chrysanthemums and roses.

HOUSTON, TEX. — The flower parade held November 16, in charge of Chas. D. Golding, was the most elaborate ever held here, the entries comprising everything from a dog cart to an automobile. All the prizes were in money and the judges were all strangers to the city.

BOOKS FOR THE HOLIDAYS.

The time is coming along when these are needed and opportunity at hand for reading them. Every one of the following should be in your library. **Send prices quoted and we send the books.**

PRACTICAL FLORICULTURE (Peter Henderson).—A guide to the successful propagation and cultivation of florists' plants. Illustrated. 325 pages. $1.50.

FUMIGATION METHODS (Johnson).—A practical treatise on cheap and effective means of destroying insect pests. Handsomely bound and profusely illustrated. 250 pages. $1.00.

STEAM HEATING FOR BUILDERS (Baldwin).—Contains valuable data and hints for steam fitters and those who employ this method of heating. The 350 pages are fully illustrated. $2.50.

MANUAL OF THE TREES OF NORTH AMERICA (Sargent).—The most complete and authentic work on the subject. The pages number 826, with over 600 illustrations. $6.00.

DWARF FRUIT TREES (F. A. Waugh).—Their propagation, pruning and general management, adapted to the United States and Canada. It has 45 illustrations and 123 pages. 50 cents.

CHRYSANTHEMUM MANUAL (Smith).—By an expert who has given his undivided attention for twenty years to the improvement of the chrysanthemum and its culture in detail. Profusely illustrated. 40 cents.

GREENHOUSE CONSTRUCTION (Taft).—It tells the whole story about how to build and heat a greenhouse, be it large or small, and that, too, in a plain, easily understood, practical way. It has 118 illustrations. $1.50.

HEDGES, WINDBREAKS, ETC. (Powell).—A treatise on the planting, growth and management of hedge plants for country and suburban homes. A volume of 140 pages, with twenty-two illustrations. 50 cents.

GINSENG (Kains).—At the present time, when so much interest is taken in ginseng, it will be interesting to peruse this volume, which tells all about the plant in a way that all may understand. The 144 pages are freely illustrated. 50 cents.

THE BOOK OF MARKET GARDENING (R. Lewis Castle).—One of a series of handbooks of practical gardening. Shows the methods adopted by many growers who have made commercial gardening a highly successful business, based upon experience and observation in Great Britain and Europe. Illustrated. $1.

THE CULTURE OF WATER LILIES AND AQUATIC PLANTS (Henderson).—Growers of hardy and tender water lilies and other aquatics will find this an excellent guide in cultural and descriptive matters. The lists of varieties have been very carefully prepared. Handsomely illustrated. 50 cents.

HOW TO MAKE MONEY GROWING VIOLETS (Saltford).—This is by a practical grower who has made a success of the business. No grower of violets can afford to be without it. 25 cents.

THE ROSE.—Its cultivation, varieties, etc. (H. B. Ellwanger).—A complete guide of the cultivation of the rose, together with the classification of all the leading varieties. $1.25.

HOW TO GROW CUT FLOWERS (Hunt).—The only book on the subject. It is a thoroughly reliable work by an eminently successful, practical florist. Illustrated. $2.00.

THE PRINCIPLES OF FRUIT GROWING (Bailey).—The entire subject of fruit culture is treated very thoroughly in this illustrated volume of 516 pages. It is a book that no up-to-date fruit grower can afford to be without. $1.25.

HEATING AND VENTILATING BUILDINGS. (Carpenter).—This book covers the entire subject most fully. In the preparation of heating and ventilating plans it will be found a most valuable guide. $4.00.

THE BOOK OF CUT FLOWERS (R. P. Brotherston). — A complete guide to the preparing, arranging and preserving of flowers for decorative purposes. Handsomely illustrated. 300 pages. $1.50.

CELERY CULTURE (Vaughan).—The important subject of celery culture is thoroughly covered in this illustrated pamphlet of 59 pages. The florist raising young plants of celery and those who grow the plants to maturity will alike find it valuable. 50 cents.

CABBAGES, CAULIFLOWER AND ALLIED VEGETABLES (Allen).—The requirements of the important vegetables of the cabbage tribe are given here very fully. The book also contains interesting chapters on seed raising, insects, pests and fungus diseases common to these plants. 50 cents.

ASPARAGUS (Hexamer).—A practical treatise on the planting, cultivation, harvesting and preserving of asparagus, with notes on its history and botany. This book is mainly devoted to the culinary kind of asparagus, but there is also some reference to the ornamental species. 50 cents.

MUSHROOMS: HOW TO GROW THEM (Falconer).—The only American book on the subject, 29 illustrations. Written by a practical mushroom grower, who tells the whole story so tersely and plainly that a child can understand it. This book has increased mushroom growing in this country three fold in three years. $1.50.

THE AMERICAN CARNATION (C. W. Ward).—A complete treatment of all the most modern methods of cultivating this most important flower. Illustrated. $3.50.

LAWNS AND HOW TO MAKE THEM (Leonard Barron).—A very useful and practical work, thoroughly covering the subject of which it treats. Illustrated. $1.10.

THE HORTICULTURISTS' RULE-BOOK (L. H. Bailey).—Contains information valuable to all those engaged in any branch of horticulture. Illustrated. 312 pages. 75 cents.

THE GOLDFISH (Mulertt).—A number of florists find goldfish an attractive and paying addition to their business. The best advice is given in every department of the subject, including construction and care of the parlor aquarium, in this volume of 160 pages, handsomely illustrated. $2.00.

LANDSCAPE GARDENING (Maynard).—The development of landscape art within the past few years compels the wide awake florist to keep posted on this branch of the business. The many suggestions of this book will be found helpful every business day. It contains 338 pages, 165 illustrations. $1.50.

SUCCESS IN MARKET GARDENING (Rawson).—Written by one of the most prominent and successful market gardeners in the country, and who has the large t glasshouses for forcing vegetables for market in America. Outdoor and indoor crops are treated. Illustrated, $1.00.

THE VEGETABLE GARDEN (Vilmorin-Andrieux).—The best and most complete book on vegetables ever published. There are 782 pages and hundreds of illustrations in this English edition, edited by Wm. Robinson, the noted English horticultural writer. $6.00.

THE ORCHARD AND FRUIT GARDEN (Powell).—One of the most complete works we have seen on this subject for a considerable period. It is divided into three parts, the orchard, the fruit garden and cultural directions. The volume is well illustrated and the author is a practical man who knows his subject. The book contains 321 pages. $1.50.

LANDSCAPE GARDENING (Waugh).—This is a very useful little book on the art of landscape gardening. It will be found exceptionally valuable to amateurs, as it covers in detail the numerous problems that come to the owners of small gardens. It is freely illustrated and the pictures have been chosen with a view to informing the reader rather than decorating the book. 50 cents.

AMERICAN FLORIST COMPANY,

324 Dearborn Street, CHICAGO.

Cleveland, O.

THE MARKET.

The market the past week has been cleaned up at all times, with a stiff demand for all kinds of A No. 1 stock. Carnations still remain scarce. Violets have a good call for so early in the season. Good chrysanthemums are becoming scarce and from indications Thanksgiving day will about finish them. Roses are coming in very fine but the demand for them is still light.

NOTES.

James Eastwell has returned to active business at Smith & Fetters again after having had a three months' vacation. All hands will be pleased to hear of his return.

A. Graham & Son are in their new store at the corner of Fifty-fifth street and Euclid avenue, and it is now one of the finest stores in the city.

It is with regret that we learn of the death of Mrs. Wm. Lee, wife of Wm. Lee, of Bedford, one of the oldest florists in this section.

Simon Anderson is sending in a fine cut of Enchantress carnations to The Cleveland Cut Flower Co.

The J. M. Gasser Co. had a handsome window display of novelties in baskets the past week.

A. M. Coe has been sending in the finest Maj. Bonnaffon chrysanthemums seen in this market.

OHIO.

Pittsburg.

STOCK SCARCE.

At this writing, before Thanksgiving, the usual scarcity of stock prevails. Chrysanthemums, which have been so plentiful during the past, are now quite scarce. Carnations still continue scarce. American Beauty is in very short supply. Other roses are also shortening up considerably. Quantities of stevia are to be seen. Green goods are quite plentiful. Paper White narcissus is arriving in quantities.

NOTES.

Patrick Maier, of Millvale, is sending the Florists' exchange some nice long Roman hyacinths.

Jos. Thomas, of Greensburg, was a caller twice during the week.

H. L. Wilson, of Washington, dropped into town Saturday.

Randolph & McClements report a very busy week. J.

MIDDLETOWN, N. Y.—The greenhouses on the Haskell place were sold by J. E. White November 15.

H. R. CARLTON, Willoughby, O.
INTRODUCER and ORIGINATOR.

MABELLE, New Pink Carnation for 1907.
Color—A peculiar shade of lovely pink, with a faint yellowish cast; several shades lighter than the Lawson. Unlike most pinks, the brightest sun does not injure the color. Size—3 to 4 inches in diameter when established. Odor—Pleasing, but not strong. Stems—Invariably strong, but always graceful, ranging from 12 to 30 inches during the season. Habit, etc.—A very quick, active grower, making specimen plants in a short time, even from late cuttings. On account of its rapid growth, requires supporting very soon after benching. Gets away rapidly, blooms early and gives long stems right from the start. Productiveness—Prodigious is the best word we know of to use here. It is the most incessant bloomer, early and late, we have ever grown. Stock limited. Delivery January 5 to 10 and later. Price, $12.00 per 100, $100.00 per 1000.

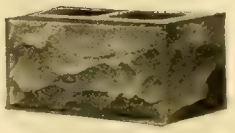
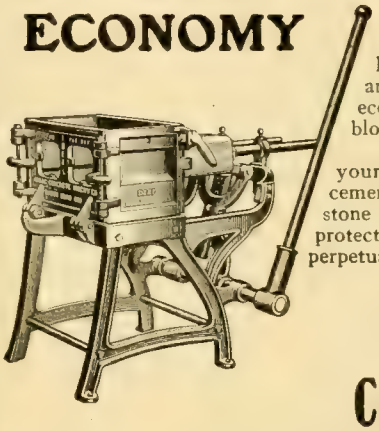
FROST-PROOF ECONOMY





Ideal Hollow Concrete Block construction will protect your greenhouse from frost and secure greatest economy in fuel. The illustration of hollow block explains it's resistance to frost.

With the Ideal Concrete Machine you can yourself make these blocks from sand, gravel and cement at little cost—far below the cost of brick, stone or lumber. Ideal Blocks not only give frost protection, but are absolutely fire-proof, and effect a perpetual saving in insurance.

IDEAL
Concrete Machines

May be operated by any man without previous experience. The process of making blocks is simple as making mortar. Blocks for every building purpose, with plain, tooled, ornamental face or natural stone effect made with the same machine. Simple, durable and adaptable to any size block within capacity.

Our catalogue will show you how to secure frost protection and fuel economy, as well as initial saving over cost of other materials. Write for it and it's freely yours.

RIBBONS—SPECIALTIES

Our **VIOLET TIES** are new and original. They combine simplicity, grace and beauty. Write for sample.

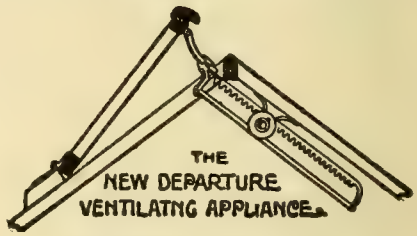
WILLIAM B. LAKE, 2535 N. 34th St., PHILADELPHIA, PA.

The Best Way to Collect an Account

is to place it with the

NATIONAL FLORISTS' BOARD OF TRADE, 56 Pine St., New York.

Why? Because many debtors will pay the Board, fearing otherwise a bad rating in our Credit List. Full information as to methods and rates given on application.



CHEAPEST AND BEST.

If you doubt it try them and be convinced. Send for descriptive price circular.

J. D. Carmody, Evansville, Ind.

Please mention the American Florist when writing.

—THE—

Florists' Hail Association

Insures over 23,000,000 square feet of glass. for particulars address

JOHN G. ESLER, Sec'y, SADDLE RIVER, N. J.

RHODES DOUBLE OUT PRUNING SHEAR

Boilers, Myers & Co., 1122 Betz Bldg., Philadelphia.

BOXES.

Cut Flower Boxes, water-proof, corner lock style. No charge for printing on orders above 250 boxes. Livingston Seed Co., Columbus, O.

Cut Flower Boxes; send for prices. Edwards Folding Box Co., Philadelphia, Pa.

BUILDING MATERIAL.

Building material, lumber for greenhouse benches. Ship lap, drop siding, sheating, flooring, white cedar posts, etc. We are in special position to furnish 'Pecky Cypress"; everything in pine and hemlock building lumber. Adam Schilio Lumber Co., cor. Weed and Hawthorn Sts., Chicago.

Building Material. Cypress is far more durable than pine. Cypress sash bars up to 32 feet or longer. Greenhouses and other building material. Men furnished to superintend erection when desired. A. T. Stearns Lumber Co., Neponset, Boston, Mass.

Building Material, cypress sash bars, Tennessee red cedar posts, pecky cypress benches, hotbed sash and frames, ventilating apparatus, pine, fittings and all supplies needed in new or reconstruction work. Foley Mfg. Co., 471 W. 22d St., Chicago.

Building Material, cypress sash bars, greenhouse material of any description. Write for catalogue. John C. Moninger Co., 111-125 Blackhawk St., Chicago.

Building Material. Our designs embody best features of greenhouse construction. Best grade gulf cypress used. Red cedar posts, iron fittings, hotbed sash. Lockland Lumber Co., Lockland, Ohio.

Building Material, greenhouse material and hotbed sash of Louisiana cypress and Washington red cedar. A. Dietsch Co., 617 Sheffield Ave., Chicago.

Building Material for U-Bar greenhouses. Pierson U-Bar Co., Metropolitan Bldg., 4th Ave. and 23d St., N. Y.

Building Material of all descriptions, cold frames, hotbed sash, etc. Lord & Burnham Co., 1133 Broadway, N. Y.

Building Material, cold frames, hotbed sash of every description. Hitchings & Co., 1170 Broadway, New York.

Greenhouse materials of all kinds for greenhouse heating. Johnston Heating Co., 1133 Broadway, New York.

Building material, yellow pine boards cut to exact lengths. L. L. Satler Lumber Co., Pittsburg, Pa.

Building Material of all kinds. Chicago House Wrecking Co., 35th and Iron Sts., Chicago.

Building Material of all kinds. S. Jacobs & Sons, 1365-79 Flushing Ave., Brooklyn, N. Y.

CONCRETE MACHINES.

Ideal Concrete Machines for concrete block construction. Ideal Concrete Machinery Co., Dept. Y., South Bend, Ind.

CUT FOLWER HOLDER.

The Anglais table decoration, made in sections, can be adjusted to any form desired. "Japana" flower holder, 4½-in., 50c; 6½-in., 35c; 2½, 25c. M. V. Garnsey, 131 So. Waiola Ave., La Grange, Ill.

FERTILIZERS.

Wizard Brand pulverized sheep manure. The Pulverized Manure Co., 32 Exchange Ave., Chicago.

A sample 100-lb. bag of BLATCHFORD'S PLANT GROWER AND LAND RENOVATOR FERTILIZER only $2.75. It is composed solely of pure Rose Growers' Bone Meal, Nitrate of Soda, Peruvian Guano, Sulphate of Ammonia, Sulphate of Potash and Gypsum, in the correct proportions. For benches and potting plants, roses, carnations, lilies, 'mums, etc., it has never been surpassed. Address

THE BARWELL AGRICULTURAL WORKS, WAUKEGAN, ILL.

Est. at Leicester, England, in 1800.

GLASS.

Glass importers and jobbers; greenhouse glass a specialty. Window glass. James H. Rice, corner Michigan St., Clair and Illinois Sts., Chicago.

Glass, a lot of 16x18 A and B double strength at low price. A. Dietsch Co., 617 Sheffield Ave., Chicago.

Glass, window glass. Greenhouse glass a specialty. H. M. Hooker Co., 59 W. Randolph St., Chicago.

Glass, French and American "White Rose" brand. Stenzel Glass Co., 2 Hudson St., New York.

Glass, all sizes. Metropolitan Material Co., 1398 Metropolitan Ave., Brooklyn, N. Y.

Glass, all kinds and sizes. Sharp, Partridge & Co., 22d and Lumber Sts., Chicago.

Glass, special greenhouse. G. F. Reynolds, Durhamville, N. Y.

GLAZING POINTS.

Glazing Points, see the point? Holds glass firmly. Peerless glazing points are the best. No rights or lefts. Box of 1,000 points, 75c, postpaid. Henry A. Dreer, 714 Chestnut St., Philadelphia.

GOLD FISH.

Gold Fish, Comets, Japanese Fantails, Fringetails, Telescopes, etc. Fish globes and aquariums. The J. M. McCullough's Sons Co., 316 Walnut St., Cincinnati, O.

Goldfish aquaria and aquarium supplies. Fred. Kaempfer, 88 State St., Chicago.

GREENHOUSE CONSTRUCTION.

Greenhouse Construction, builders of greenhouses for private estates, institutions, parks, etc. Pierson U-Bar Co., Metropolitan Bldg., 4th Ave. and 23d St., New York.

Greenhouse Construction, sash bar greenhouses. New Truss construction and iron frame houses. Lord & Burnham Co., 1133 Broadway, N. Y.

Greenhouse Construction, builders of every type of greenhouses; the most modern designs. Hitchings & Co., 1170 Broadway, N. Y.

Greenhouse Construction, builders of modern greenhouses. Myers & Co., 1122 Betz Bldg., Philadelphia.

GUTTERS.

Gutters, Jennings' improved iron gutters. Diller, Caskey & Co., 6th and Berk Sts., Philadelphia.

Gutters, Garland's gutters will keep snow and ice off your glass. A sample of our gutter is on exhibition at Chicago Flower Growers' Market. Geo. M. Garland, Des Plaines, Ill.

Gutters, Lord & Burnham Improved V-shape gutter, with drip gutter attachment. Lord & Burnham Co., 1133 Broadway, N. Y.

Gutters, new duplex gutter, only drip-proof gutter on the market. E. Hippard, Youngstown, O.

IMMORTELLES.

Immortelles, bright scarlet and other colors for Xmas trade. Buy now. Dozen bunches, $2.75; 50 bunches, $11. Barteldes Seed Co., Denver, Col.

INSECTICIDES.

Insecticides, tobacco paper, 24 sheets, 75c; 144, $3.50; 288, $6.50; 1,728, $35.10. Nico-Fume Liquid, ¼ pint, 50c; pint, $1.50; ½ gal., $5.50; gal., $10.50; 5 gal., $47.25. Kentucky Tobacco Product Co., Louisville, Ky.

If you do not find what you need in our Ready Reference Department, write us about it.

POINSETTIAS in the ARTIFICIAL

We make the finest, most perfect **Poinsettas** on the market. **Lowest Price.** 12 inches in diameter, 18-inch stem. Absolutely perfect in color; made of French muslin that will not lose its shape. THE TEST —OF— DURABILITY.

Durability in greenhouse material is of first importance. It is expensive and tiresome to be constantly re-building and repairing—trying to patch up houses built of poor material.

If you want lasting houses get material that stands the test. Our cypress material will stand the most critical examination or comparison. "Time waits for no man." Send for catalogue and estimate to-day.

SUGGESTIONS FOR FLORISTS.

The Handling of Holly.

If you have large halls to decorate southern holly will answer. The best, however, known as Delaware holly, is to be used for sale to your customers in small quantities, or to make into wreaths whenever a fair price can be obtained. The price per case of good holly delivered at your door is about $5, and if you have to sell the contents in small lots, it takes good management on your part if you wish to double your money on the investment. If you had reason to be dissatisfied with last year's result, give the method we employ in handling holly a trial.

Our order for what we want is given early in the season. We receive the first consignment December 10, the second December 17, the third December 20, and the last December 22. As soon as the cases arrive the long select branches are taken and tied up in bundles. Each bundle gets a tag with the price marked on it, ranging from 25 cents to $1. If we come across any extra fancy stock it is separated from the rest, the ends of the branches are cut off with a sharp knife and it is put in large tubs containing about twelve inches of water and, while it wouldn't pay to go to this trouble with all the holly, it certainly does with the fancy stock, for the few customers you may have who desire the best there is to be had regardless of price. All small, extra well berried, dark green pieces are also kept separate. We have call for them for table decorations. All of the above is then put into a cool, dark place and sprinkled.

The general run of short branches of holly are used for wreaths. We usually wind them on 12-inch rings. We make them as good as we know how, and charge 35 cents for the single and 50 cents for the double ones. We have no trouble in getting our price, and make a reduction only where a large number is ordered. We keep a sample of the wreaths as well as of the loose holly at the store from December 10 on. These are replaced with fresh stock every morning. Attention of customers who enter the store is called to the samples and every order taken is marked down on the order book as well as on what we call the delivery book, which we keep just for Christmas, where a certain number of pages is devoted to each day's delivering from December 15 to 25. Each morning the driver gets the shipping tags, filled out on one side with the address, on the other with articles to be delivered that day. Of course the bulk of the holly orders is delivered on December 24, and it is well that this is the case, as nothing kills holly quicker than two or three days in a hot, dry, room.

Pansies.

You have, no doubt, a nice frame full of pansies. They were grown from seed sown last August and transplanted in September three to four inches apart, where they are now. They will stay there until sold next April when in bloom. If you have sashes to spare it is well to cover the frames now; a little brush and leaves will answer if you have no sashes.

With us the pansy, myosotis and bellis open up the bedding season, and while the demand for forget-me-nots and English daisies is limited, we rarely have enough good pansies. By good pansies is meant nice, stocky plants properly grown from the best seed obtainable. You need not send to Europe for the seed—almost all our reliable seed houses have it, and there are quite a number of men in this country now who make the growing of pansies for seed a specialty, and offer excellent strains. Pansies are of such easy culture, take up so little space and pay, I might say, better than any other bedding plant, and yet one will find plenty of men in the business who will buy their plants in spring in bloom and have them shipped 700 miles, and wonder why they can't get their money back when they bought so cheap.

While the fall sown pansies make the best blooming plants for spring sales, they as a rule will be played out before the season is over. Seed sown about December 15, or the early part of January, will make the best summer bloomers,

and you will find ready sale for them when your early ones are sold.

Should you wish to have, say 2,000 or 3,000 plants, buy one-quarter ounce of yellow, one-eighth ounce of azure blue, one-eighth ounce of white and one-half ounce of mixed. You will then have the right proportions, and can give your lady customer the colors she wants, should she desire to have them separate.

We sow about the middle of December; transplant closely in flats in January, and again in March, when we plant them about two inches apart. They are planted in the frame the first chance we get in April. The sashes which protected the fall sown pansies are used for a few days to help the young plants to get established and hardened off. For your customers to have the best result with pansies, don't forget to tell them that the pansy loves a deep and rather rich soil; that it likes to be protected against the hot afternoon sun; wants to be watered, the soil cultivated, and the plants kept free from seed pods; and the earlier you can get them planted the better, as only well established plants can stand the summer heat.

Cyclamens.

If you have neglected to sow your cyclamens in September or October; or, if the seed sown did not come up as well as you expected, you can sow another lot now. We have always been successful with December sown stock, a good 6-inch pot plant in bloom can be grown nicely in 12 months, and we have exhibited prize plants in bloom which were only 10 months old. They measured 15 inches across, averaged nine blooms to the plant in 6-inch pots when judged and there isn't any reason why you can't do the same if you follow the cultural directions given from time to time in these columns.

About 25 years ago the writer was taught that four different kinds of soil, and special brands of sand and manure, all properly mixed and finely sifted, were necessary to grow cyclamens successfully. Since then matters have changed. We never sift soil, except for a few varieties of seeds, and cyclamens grown separately in light, medium and heavy soils, at the end of the season, being treated alike in regard to watering, syringing, shading, etc., all looked alike. The only difference was that those in light soil bloomed earlier, a fact to be taken into consideration, as one flowering cyclamen in December is worth three in January.

After having paid strict attention to the successful growing of cyclamens we have come to the conclusion that nine out of ten failures are due not as much to the wrong kind of soil, or neglect in taking care of the plant below the tuber, as to the improper conditions surrounding the upper part of the plant. The cyclamen belongs to that great family of primulas and any soil suitable for your greenhouse primulas will do for cyclamens. The most important thing in the growing of cyclamen is to keep the plant growing without the least check up to September, and while you don't want to neglect the plants after that, an entirely different treatment is required to finish the plant, develop the then appearing buds and get them into bloom.

We will call your attention to all this later. For the present, if you wish to grow some, get the best mixed seed; use a flat with about three inches of porous soil; sow broadcast or in drills; press seeds down gently, cover lightly and water thoroughly. We cover our flats with glass. It maintains a moister atmosphere and better growing conditions. Put the flats into a rose house temperature. Seed will, of course, come up quicker if you can use a little bottom heat. We go over our flats a couple of days after seeding and re-cover such seed as may be exposed. Keep your flats moist, and don't expose them to the sun. Good seed will begin to germinate in about 14 days and keep on coming up for five weeks.

We transplant the seedlings as soon as they are large enough to handle. They go into other flats about three inches apart and stay there until March. Keep them in a temperature of 55° at night. Keep the soil moist (not soaking wet) and cultivated. Syringe the little plants every sunny day, twice will be better—they like it. The young plants require a rather moist atmosphere. You can create that to a certain extent by syringing. This must be attended to properly, as you can't expect to grow a good specimen in the five months following March if you have a little dried up, pot bound, plant to work on.

Primula Obconica.

Few plants are more useful to the florist who has greenhouses and a retail trade than Primula obconica. Seed sown in April or May will make good flowering plants by November and increase in beauty up to Easter. It makes a fine house plant and one of the most attractive of show or window plants. What we prize it more for, however, is its usefulness as a cut flower for funeral work. While the writer isn't by any means an admirer of any set pieces, yet as long as the public demands work of that character, there is only one way out of it and that it is to supply them. When roses and carnations bring high prices in winter, and you have a large funeral order is the time when you appreciate to the fullest extent the value of your blooming obconicas.

If you have, say 200 good plants, you can cut every day, and if you give them four weeks to rest before Easter, four to five plants put into a 10-inch dish will make one of the best selling Easter plants. You will find a number of advertisements in this issue offering this variety. If you have room see that you get some good, strong, 2½-inch stock; put these in 4-inch pots, keep them a little warmer than you would Primula Chinensis, and while a little late in the season they will yet make good plants in a short time.

Hardy Phlox.

Regarding the proper names of the different varieties of phlox, we have at present the same trouble as with peonies. The same varieties are sold under different names by different firms, which is confusing to the buyer and misleading, and the sooner we have a national society to adjust these mistakes the better. Should you have a few field clumps of desirable colors, such as good whites or cerise pinks, you can yet take them up, even if the soil is frozen, and if planted out like your stock plants of chrysanthemums, you will be able to make a lot of cuttings this winter. When rooted put into 2½-inch pots, plant in the field and they will make fine salable stock by next fall.

The demand for hardy phlox has increased wonderfully in the last few years. They are more extensively used now than ever before, no doubt due to the large flowers and good colors which are offered in the newer varieties; planted out in clumps along the edge of an irregular shrub border, they certainly give us a mass of color at a time of the year when most shrubs are done blooming for the season.

Chrysanthemum.

It is not yet too late to order some stock plants of the newer varieties. Should you have any bench room it will be cheaper to make your own cuttings than to buy them in spring; and while there are quite a number of excellent new varieties, of which you may have taken notice at the fall shows, don't forget to grow Clementine Touset, one of the best of earlies, and that grand late white Jeanne Nonin. I think they were both introduced by the E. G. Hill Co., and are certainly money makers.

The Hanford, Cal. Convention.

The joint convention of the Pacific Coast association of nurserymen, California fruit growers, and horticultural commissioners and inspectors was held at Hanford, Cal., December 4-8. A number of interesting and instructive papers were read and many well known horticulturists were present. Special rates were in force from all parts on the certificate plan.

The following is the official programme: December 4, morning—"Invocation and address of Welcome," by Rev. J. W. Maunt and H. A. Beekins, Mayor of Hanford, followed by addresses by Ellwood Cooper, Governor Geo. C. Pardee and J. D. Biddle, the response to the first address being by E. L. Smith. Afternoon — papers on "Table grapes; growing and packing," by Mrs. Minna E. Sherman; "Wine as a remedy for the evil of intemperance," by A. Sharboro; "The fruit growers' aim," by H. C. Rowley, and "Growing the eucalyptus," by Dr. W. S. Miller, were read. The appointment of committees was followed by a reception. December 5, morning—following an address by F. W. Power, papers on "Benefits to be derived from the Pacific Coast Nurseryman's Association and the American Association of Nurserymen," by S. A. Miller; "The nursery business in California," by Leonard Coates; "European methods," by J. B. Pilkington; "Fruit varieties," by Prof. E. J. Wickson, and "Introductions of possible interest to nurserymen," by Prof. P. H. Dorsett, were read. Afternoon — "What fruit growers and inspectors expect from nurserymen," by H. P. Stabler; "Inspection laws of California," by Geo. C. Roeding; "Need of uniform inspection law," by A. Eckhart; "Investigation and application," by Prof. N. L. Kellog, and "The relation of nurserymen to growers," by A. N. Judd, were the papers read. Evening — "Pear blight conditions," by Prof M. B. Waite; "Recent

progress in entomology," by Prof. C. W. Woodworth; "The horticultural commissioner," by R. P. Cundiff; "Root stock in planting," by A. D. Bishop, and "Barring out suspected stock," by S. A. Pease. December 6, morning—"Horticultural uses of university farm," by Prof. Wickson; "The water supply of the Sierra Nevada mountains," by John Tuohy; "The importance of drainage in the San Joaquin valley," by John S. Dore; "The relation of bees to the fruit industry," by J. M. Rankin, and "The United States plant introduction garden and its value to California," by Roland McKee. These were followed by an excursion to Lemoore and points around Hanford. In the evening an address by J. A. Tilcher was followed by the following papers: "Report of fruit distributors," by Alden Henderson; "Report of committee on transportation," by R. D. Stephens; "The pecuniary value of good roads to the fruit grower," by A. R. Sprague, and "A fixed price for prunes and how to obtain it," by John Luther Bowers. December 7, morning—"Green manuring of orchards," by James A. Mills; "The fruit grower as a factor in government," by Edward Berwick, and "The fruit industry of Tulare County," by P. D. Fowler. Afternoon—"Methods of increasing the bearing of Muscat vines," by Prof. F. T. Bioletti; "The economic value of wild birds," by W. R. McIntosh; "A further plea for selection," by Leonard Coates, and "The fruit grower and the Country Press," by Fred A. Dodge.

CHRYSANTHEMUMS

Cut Blooms for Various Purposes.

Under the above caption is published in THE AMERICAN FLORIST an interesting article on chrysanthemums by Elmer D. Smith. The qualifications requisite for blooms for exhibition and commercial purposes are accurately described. The illustration shows quite accurately the differences existing between the two varieties named, but the statement that "the accompanying illustration shows the marked difference between American and European progeny" is exceedingly misleading, to say the least. For the writer to draw his general conclusion from one such comparison is palpably unfair. Why not take into consideration such overlooked varieties as Clementine Touset, Jeanne Nonin, Marie Liger, Mme. F. Perrin, Mrs. Coombs, Mrs. Barkley, Matchless, Miss Alice Byron, Mrs. Geo. Beach, Beatrice May, etc. These are varieties which have been proven good commercial varieties, some have held and some are holding a place as the very best varieties extant in their respective classes. It is true that many importations are good only for exhibition, but the statement that the percentage of those good commercially does not exceed two is incorrect.

Again the statement is made that to secure perfect flowers of the foreign varieties it is imperative that early buds be taken. The writer surely did not intend to make his statement so general as it appears, for as it stands, it is inaccurate and confusing. It is, with a few exceptions, true of varieties coming from England. However, many of the French varieties make magnificent commercial blooms from late buds. It is true the foreign catalogues frequently recommend an early bud, while experience proves the late bud the best in the United States.

NATHAN SMITH & SON'S NEW CHRYSANTHEMUM IALENE.
Daybreak pink Mrs. Robinson with Duckham stem and foliage.

As a general statement, again with a few eminent exceptions, it may be said that varieties which must be given a long season of growth and bloomed on the first crown bud in order to produce their best results, are not varieties to be recommended for commercial purposes. It is fair to conclude that the commercial scale of the C. S. A. fairly reflects the opinion of the leading experts of the country as to what constitutes a commercial bloom. Judged by this scale the majority of the certificates granted during the current year, including some of the highest scores, were on French sorts. All the seedling classes in Chicago including sweepstakes were won by French sorts.

In view of these and other facts which could be mentioned, it is rather difficult to understand the sweeping statements consigning them all to the exhibition classes and advising commercial growers to shun them. Let us endeavor to state the facts fairly even at the expense of our patriotism. We are ready to admit that a better percentage of the American raised sorts are good commercials. This may be explained partly by the immensely greater number of foreign kinds and a consideration of the different standards of judging in the different countries, but we firmly believe that some of the very best commercials being offered to the trade today are of French origin.

FRED H. LEMON.

Richmond, Ind.

Chrysanthemum Society of America.

EXAMINING COMMITTEES.

President Duckham has announced the committees to examine seedlings and sports on dates as follows: October 6, 13, 20, 27 and November 3, 10, 17 and 24, 1906. Exhibits, to receive attention from the committees, must in all cases be prepaid to destination and the entry fee of $2 should be forwarded to the secretary not later than Tuesday of the week preceding examination, or may ac-

company the blooms. Special attention is called to the rule requiring that sports to receive a certificate must pass three committees.

New York, Eugene Dailledouze, chairman, 55 and 57 West Twenty-sixth street, Thos. W. Head and Wm. Turner.

Philadelphia, Pa., A. B. Cartledge, chairman, 1514 Chestnut street, John Westcott and Wm. K. Harris.

Boston, Mass., E. A. Wood, chairman, Wm. Nicholson and James Wheeler. Ship flowers to Boston Flower Market, care of John Walsh.

Cincinnati, O., R. Witterstaetter, chairman, James Allen and Wm. Jackson. Ship flowers to Jabez Elliott Flower Market, care of janitor.

Chicago, J. S. Wilson, chairman, J. B. Deamud and Geo. Wienhoeber. Ship flowers care of J. B. Deamud, 51 Wabash avenue.

OFFICIAL JUDGING SCALES.

WORK OF COMMITTEES.

Chicago, Nov. 17. Sadie May Stremler, sport of Queen, exhibited by J. S. Stremler, Princeton, Ky., scored 81 points commercial scale.

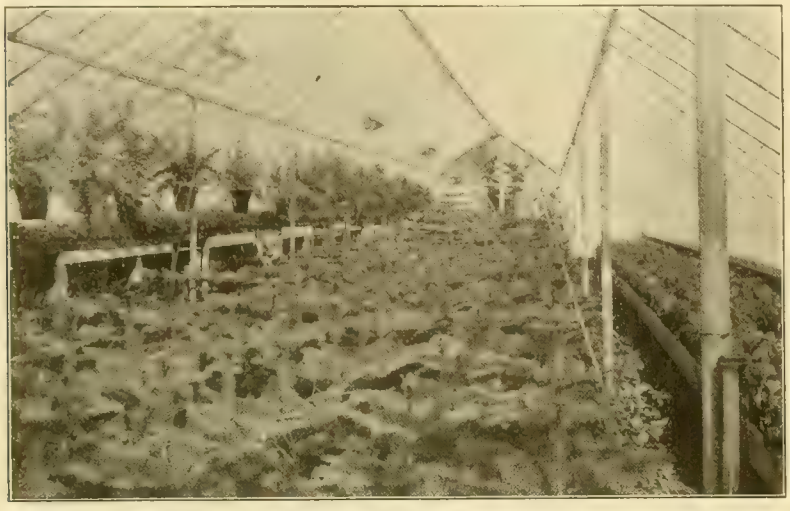
New York, December 1. Mlle. Jeanne Rosette, rose pink and silver reverse, Japanese incurved, exhibited by the E. G. Hill Co., scored 90 points commercial scale.

Philadelphia, December 1. Mlle. Jeanne Rosette, rose pink, Japanese incurved, exhibited by the E. G. Hill Co., scored 86 points commercial and 87 exhibition scale.

Cincinnati, December 1. Mlle. Jeanne Rosette, pink, Japanese incurved, exhibited by the E. G. Hill Co., scored 90 points commercial and 91 exhibition scale.

Philadelphia, November 26. Sport of T. Eaton, white, Japanese incurved, exhibited by J. S. Stremler, Princeton, Ky., scored 81 points commercial scale. In a note from A. B. Cartledge, chairman of the Philadelphia committee, he states the variety shown was so entirely different from Eaton, he wondered if the raiser could have been mistaken in any way. I wrote to Mr. Stremler and in reply he said he found the variety in 1904 among his Eaton plants and does not know where it came from except it be a sport from Eaton. He sent two blooms to the E. G. Hill Co., who state that probably it was Mrs. Jerome Jones.

DAVID FRASER, Sec'y.



ARAUCARIAS AT GODFREY ASCHMANN'S ESTABLISHMENT, PHILADELPHIA, PA.

Siebrecht's Orchids.

Any one interested in the culture of orchids on a commercial basis would find a visit to the greenhouses of Siebrecht & Son, New Rochelle, a few miles out of New York city, repay amply the time spent for the purpose. A large house of Cattleya labiata is just now in full crop. The plants on the benches show several thousand flowers, and make an exhibition such as is seldom seen. While no attempt is made to produce specimen plants, as many as 40 flowers have been cut from some of them. Many are to be seen with 20 flowers, and these are more in line with the demand in a commercial sense. When plants become large enough they are divided, and the sections established in 6-inch and 7-inch pots.

There are 11 houses devoted exclusively to orchids, and with few exceptions the varieties are those best adapted for the cut flower trade. Cattleya labiata is in season just now, and this will be followed by C. Trianæ, which will come into cut in December. There are two fine houses of C. Trianæ, some 1500 plants being benched in each, which will yield possibly a crop of 30,000 flowers, the number of sheaths now in evidence allowing of this estimate. Watering is done about once every three days, the period running a little longer at some seasons.

C. Schrœderiana, which in some establishments flowers next, is not benched here, not having been found an especially valuable commercial sort. C. Trianæ enjoys an extended season, and here is followed by C. Mossiæ which allows cutting from May until July. C. gigas succeeds for summer blooms, and a large stock, which was recently imported, has just been benched. This variety suffers somewhat in transit from its habitat, only about 60 per cent surviving. C. Mendelii, with sepals and petals light and lip dark, is grown here. It is a vigorous and easily grown sort, and is useful as coming in a little later than C. Mossiæ.

C. Warneri, flowering in May something like C. labiata, is not often seen in commercial places, being rather a hard one to import and raise. There are about 200 plants here, looking very promising. C. Bowringeana is grown

ESTABLISHMENT OF GODFREY ASCHMANN, PHILADELPHIA, PA.

One of the fern houses.

largely for decorative work. It is a native of British Honduras and something like C. Skinneri. The flowers grow on long spikes, sometimes as many as 50 to the spike although 30 is ordinarily the limit. For table centerpieces it is considered better than C. labiata. The Easter cattleya is C. Skinneri, the flowers of which are small, but they are alone in their season.

HOUSE OF CATTLEYA LABIATA AT SIEBRECHT & SON'S, NEW ROCHELLE, N. Y.

Cattleya citrina, the tulip orchid, is grown as a novelty for florists' windows. It grows in a cool house on blocks of bark or wood and requires little attention.

There is quite a stock of Dendrobium formosum giganteum, which flowers right along, and is much used for weddings, funerals, etc. Dendrobium Phalænopsis, very fine for florists' use, is now flowering well. It is admirably adapted for bouquets and similar work, its beautiful mauve flowers on long spikes, making it especially desirable for cutting. The flowers sometimes last for six weeks on the plants. The color varies in depth of shade, the flowers rarely coming two sprays alike from different plants. Dendrobium nobile is well grown here, and it has some advantages over other kinds. It gives blooms in March and April. The plants are located in a cool house in winter, and given all the sun they can get to ripen the wood. They may be flowered nicely in a temperature of 50°. If wanted very early they are taken into strong heat.

Phalænopsis Schilleriana, a beautiful pink, and P. amabilis, white, are grown here successfully, and flower in February. P. Stuartiana is coming in now, and sometimes gives three spikes of flowers. Phalænopsids like plenty of Condace is a fine deep pink variety, not Native to the Philippine islands natural conditions are hard to imitate. Grown here in baskets elevated in the ash benches on bottoms of pots the roots get a good supply of air.

There is a house of Lælia autumnalis, L. albida and L. anceps, the latter grown for plant sales, as the flower does not last well when cut. Odontoglossum crispum is also to be seen in flower in this house.

WITH THE GROWERS

Scheiden & Schoos, Evanston, Ill.

John Scheiden and Joseph Schoos are among the more recent additions to the long list of growers around the Chicago district, having bought their plant and commenced business here in April, 1905. At the time of purchase the stock in the houses was in very bad shape, and the really excellent condition in which we recently found the whole place is a tribute to the energy and cultural skill of the members of the new firm. There are two ranges of glass, one 150x150 feet, the other 100x150 feet, nearly all filled with carnations. The last house is entirely filled with Boston Market and Enchantress, and the plants are simply covered with flowers and buds. So excellent was their condition that it prompted inquiries about the soil and we were certainly surprised to hear that the soil in which this fine crop is growing had been used for two previous crops, one of roses and one of carnations. Surely there must be something exceptionally suitable for carnations in the Evanston soil, though probably cultural skill has much more to do with the success.

About 35,000 carnations in all are benched, including 15,000 Boston Market, 8,000 Enchantress, and 6,000 Mrs. T. W. Lawson. Other sorts grown in quantity are Crusader, White Cloud, White Lawson and Harlowarden. A bench containing about 1,200 plants of new seedlings and sports was very interesting, one especially fine red seedling being noted. This is a cross between Mrs. Lawson and Crusader, and the flowers are a deep yet bright red. So full of petals is this fine sort that as Joseph Schoos remarks, you couldn't stuff another petal in. A great point about this variety is its total freedom from rust, and as it lasts exceptionally well, and does not burst the calyx, it should have a future as a market sort. There are several sports from Mrs. Lawson, one being exactly like Melody in color, another very near Rose Pink Enchantress, and a third like a glorified Patten with very distinct stripes, the flowers standing very stiff and erect. Candace is a fine deep pink variety, not over large but exceptionally free flowering and with long stems. Mr. Schoos is propagating this very largely for next season.

A bench containing 1,300 chrysanthemums, Eaton and Yellow Eaton, were very fine indeed, the foliage being in excellent condition, the flowers large and of fine substance. As showing the difference in the condition of the place now and a year ago, it may be mentioned, that in one week last year 8,000 flowers were cut, while the corresponding week of this year showed a total of 35,000. Last season Scheiden and Schoos ship-

CATTLEYA LABIATA AT SIEBRECHT & SON'S, NEW ROCHELLE, N. Y.

ped the whole of their cut to the commission men, but this year they opened up at 60 Wabash avenue, Chicago, as wholesale and commission dealers. Already they are handling the produce of seven or eight growers besides their own, and the goods are moving off well, so there is every prospect of this branch of their business being as satisfactory as they have already made the growing end of it.

Dailledouze Brothers, Flatbush, N. Y.

This account was written several week's ago and has been crowded out by the exhibition reports.

A flying trip to this celebrated establishment September 27 showed that it was keeping in the front rank. Chrysanthemums occupied several houses, but carnations, which have been their specialty for years, are still leaders with them. Of the chrysanthemums, Marquis de Montmort, the light pink, was the earliest and several shipments had already been made. This variety is not much, they say, but having the field to itself, it sells. Mme. Gastellier, a small flower, is an early white, but is little better than an aster. Mlle. Jeanne Nonin this firm thinks the best late white, Nagoya, a fine late yellow, and Gen. Antonio Maceo, a good crimson. A limited lot of Polly Rose is still grown. Col. D. Appleton is a favorite yellow and hard to beat. Miss Alice Byron is a fine salable white and always in demand. Timothy Eaton is still grown and Wm. Duckham cannot be surpassed for a fancy, but requires watching to insure success. Not every grower is certain to do this well, but when in good shape, the price pays for the extra trouble. Rosiere, a new early pink, appeared promising and Cheltoni is classed as a fine yellow.

The carnations in the various ranges were in fine condition. Those in low narrow houses were planted in ground beds, raised about six inches above the floor of the house. Cement sides, about two inches thick at the top, were used in place of boards to hold the soil, which was on tiles laid crossways of the bed with their openings projecting a trifle beyond the cement sides and level with the floor of the house. These open spaces below the bed insure good drainage and keep the soil at the temperature of the house. Wires the length of the bed with strings across are said to be the best supports. In the larger houses raised tables or solid beds with cement sides support the beds for the plants. These beds are drained with tiles just as are the solid beds. Nothing is claimed for this method over the board table but durability, as the cement construction will last indefinitely.

Queen is their best white carnation and is full of buds and flowers. Crimson Glow, a crimson seedling of their own, they like best in its color. It stands best and is a good keeper. Enchantress is still queen in its color. Like many other growers, they cannot say too much for Peter Fisher for having brought out this fine variety. They think it will be a long time before it will be displaced. Lawson they grow inside all summer, thereby getting better stems; these look well. A great prize is the pink sport of Lawson. It is the color of the Bridesmaid rose. Four large benches worked from the original plant now hold the stock which has proved constant in color although this is its third year. It is a beautiful flower, a robust grower and will be their only variety of its color next year.

Prosperity is a favorite. This is said by some to be shy at certain seasons, but they say it is very free at all times with them. A house is also given to Lieut. Peary, which is, they think, a fine white. For red they have a house of Victory and are much pleased with it. It seems very free and of exceptional brilliance in color. The entire plant consists of about 100,000 feet of glass, a hot water system furnishes the heat. The flowers are picked the first thing every morning, placed in jars of water in a cool shed on tables and shipped to market the next day. Asked for the cause of stem rot, they said dampness was mainly to blame. Carnations should always be set out in the field on high ground. Sometimes it was bred in the cutting bed. They made it a rule never to set back unrooted cuttings into the sand as they were almost sure to breed fungus.

The Peerless repair clamp for holding a cracked pane of glass together is a cap of tin 3 inches long and one quarter deep, which slips over and holds the two pieces together. They consider it a great saver of glass as it makes the pane almost as good as new.

A few blocks away is the home of the Scottii fern. Thousands of plants are to be seen in all sizes, many ready now, but most of the stock is coming in so

NEW SEEDLING CARNATION AT SCHEIDEN & SCHOOS, EVANSTON, ILL.

CHURCH DECORATIONS FOR WEDDING, BY SMITH & FETTERS, CLEVELAND, O.

as to be at its best for the holidays and after. Much of this had been growing on tables and were later lifted and planted in pots. Nowhere in the country does this fern look so well as here.

A feature of the place is two houses of gardenias, stock set out of 3-inch pots last June and now, after a splendid growth, is full of buds, which should be at their best in November and December. There were houses of Begonia Gloire de Lorraine and cyclamen, also palms and pandanus, all showing the hand of the careful grower.

CHAS. ZELLER & SON'S ESTABLISHMENT.

The usual choice Otaheite oranges were seen here. There is never enough of this good stock to go around. Cyclamen also looked well here as did also the ardisias. A block of camellias, imported last spring, were well set with buds. There is an increasing demand for this flower. Outside there was a fine collection of cannas, chief among them being Buttercup, Crimson Bedder, David Harum and Beaute Poitevine. Some peppers were seen in 6-inch pots and should be very salable.

AT LOUIS SCHMUTZ' ESTABLISHMENT.

Louis Schmutz had just returned from his European trip. His stock looked well, particularly a bed of Ficus elastica which had made many natural breaks.

ITHACA, N. Y.—Prof. L. H. Bailey has been elected president of the Associated Agricultural Colleges and Experiment Stations of the United States.

THE RETAIL TRADE

Decorations for Cleveland Wedding.

The floral decorations at the McBride-Sherman wedding which took place at 4 p. m. on November 21 were by Smith & Fetters of Euclid avenue, Cleveland, and as may be seen in the accompanying photograph were of an ornate character. The back and side walls at the altar were hung with white cheesecloth, sprayed with southern smilax and white chrysanthemums. Twenty-four candelabra showered with white chrysanthemums, each containing seven cathedral candles, were arranged on either side of the altar.

White chrysanthemums and smilax were also used for draping the chandeliers and these were connected with garlands of white roses and asparagus. The end of each pew was adorned by a large bunch of white roses, 5,000 of these flowers and 2,000 white chrysanthemums in all being used. Some 300 large palms were also used in the decorations, which were in every way a credit to the clever florists to whom the work was entrusted.

Otto Young Floral Offerings.

The funeral of Otto Young, of Chicago, on December 1, was one that called for numerous and costly floral offerings. Mr. Young's prominence in business circles and his numerous philanthropies, aside from his immense wealth, made him an exceptionally notable figure. Chas. A. Samuelson handled the orders from members of the family and near relatives. A pall was furnished in which 6000 lily of the valley were used, also a 6-foot cross of white roses and lily of the valley and a 5-foot cross of violets and lily of the valley. Several 30-inch wreaths, of lily of the valley, of violets, of American Beauty roses, of Richmond roses and of Roman hyacinths figure in the offerings.

Other florists catering to the high class trade had a share in the work. H. C. Rowe sent to the residence a pillow on a 46-inch frame composed of 7000 violets, 300 lily of the valley and six dozen orchids. Mr. Rowe also furnished a large wreath of violets, another of orchids, a casket bunch of American Beauty roses and a large bunch of chrysanthemums. P. J. Hauswirth supplied a set piece of gates-ajar and several casket bunches. A. Lange supplied quite a number of wreaths and sprays. Other florists, notably Wm. J. Smythe, J. Mangel, O. J. Friedman and the Fleischman Floral Co. furnished wreaths and bunches.

Spencer Funeral Floral Designs.

The funeral of Samuel Spencer, president of the Southern R. R., who met sudden death in an accident on his own road on Thanksgiving morning, was held at St. John's P. E. church, Washington, D. C., December 2 at 2 p. m. Not since the funeral of Senator Hanna has the national capital witnessed a grouping of so many elaborate designs. They came

from such men as E. H. Harriman, George Westinghouse and a host of others prominently identified with railway interests. Some of the finest pieces were from employes of the Southern.

An easel, executed by the Gude Brothers Co., was eight feet high, cattleyas, roses, chrysanthemums and lily of the valley entering largely into its construction. The Gude Co. also furnished a large urn of white flowers decorated with cattleyas and draped with a scarf of corresponding shade; the pedestal was encircled by a garland of roses and lily of the valley. It was an exceptionally fine piece of work. For the surgeons of the Southern road, Small executed, in addition to others, a particularly appropriate design, a large red cross in a wreath of green. Other fine designs were executed by the Washington Florists' Co., Z. D. Blackistone, George Shaffer and Geo. H. Cooke. The arrangement of the flowers at the family residence and St. John's was under the direction of J. H. Small & Sons. In moving the designs from the home to the church three large delivery wagons were filled.

S. E.

Recent Wedding Decorations.

Miss Ethel Marie Janvier was married to Charles Irving Porter in the old South church at Boston October 10. At the church the sanctuary was decorated principally with pink hydrangeas backed up with fine palms and bay trees. The bride's bouquet was composed of lily of the valley and she also wore these flowers in her veil. Killarney roses were carried by the maid of honor and the same beautiful rose was used in conjunction with smilax at the reception at the home of the bride. Here also white chrysanthemums and autumn foliage were used with good effect, yellow ones and smilax being used in the hall and library.

A pretty wedding took place at Elm street, Gardner, Mass., at the home of the bride's father, Alfred S. Clark. His daughter, Miss Minnie Javett Clark, was united to William A. Chapman, of Brooklyn, N. Y., and carried a fine bouquet of Bride roses the bridesmaids carrying carnations. The reception room was tastefully decorated with autumn leaves and cut flowers, a wedding bell under which the bridal couple stood being suspended from the ceiling. Pot

Prize Bridal Bouquet.
